HOT SPRINGS, ARK.

Famous Curative Waters

Under Grant from the United States Government, Permitted to Be Used in the Preparation of "Pura Blood."

The question has often been asked, Why do people from all over the world visit Hot Springs, Arkansas? And the answer is: Because its celebrated healing waters have cured diseases that were considered incurable, and the treatment there given has made Hot Springs, Arkansas, famous the world over. If you cannot visit Hot Springs, Arkansas, you can have at home the same remedy you would there receive in "Pura Blood." Under Grant from the United States Government the waters of Hot Springs, Arknasas, are used in its preparation. "Pura Blood" has received the highest indorsement of leading physicians. "Pura Blood" is for sale by druggists. Price, one dollar per bottle. Billups & Co., of 26 Cortlandt street N. Y., are sole agents, and will send to any address descriptive book free.

Use It in Time.

Catarrh starts in the nasal passages, affecting eyes, ears and throat, and is in fact, the great enemy of the mucous membrane. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucus discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears, and oftentimes a very offensive discharge. Ely's Cream Balm is the acknowledged cure of these troubles.

ANGRY PASSIONS AROSE.

RASH ACT OF A STUDENT TOWARDS A YOUNG FRIEND.

He Took Offense at Some Fancied Insult and Demanded That His Honor Be Avenged With Weapons.

The office of a certain Plainfield lawyer and inmates were stirred to the highest pitch of excitement a day or two ago. The cause of it was the following letter which was received:

To Mr. ——.

Sir: On a certain Sunday (the Sunday before last) you cast a heavy insult upon me by running away. This insult, sir, can only be washed out in blood. I therefore request a meeting in a secluded spot which you may yourself, select, and also the time and weapons (pistols preferred.) As to seconds, I refer you to ——. Trusting to hear from you shortly, I am,

Yours faithfully.

The names, of course, were given. The letter was addressed to a well known law student in this city. The second mentioned was a prominent business man and the signature was that of a young Englishman who is studying at one of Plainfield's educational institutions.

The young man who received the formidable communication was rather surprised, to say the least. He did not recollect insulting anybody, but he determined to prepare for the worst. He asked the advice of friends, some of whom suggested as weapons swords at twenty paces, while others thought a shotgun the best choice. The would-be lawyer, accompanied by a friend, then interviewed the second of the challenger. He knew nothing about the matter and calmed the excited spirits of the challenged young man by suggesting that it might be a practical joke. Soon after, the principal in the affair appeared in the law office and tried to explain that it was all a joke. The other young man took out his revenge in reading the statute on duels and challenges to the practical joker.

The little affair might have proved quite serious to the writer of the letter had the other taken offense at it and turned the challenger over to the officers of the law. The least the joker should have done was to send the law student a written apology.

A GORGEOUS REPAST.

The Annual Dinner of the Megantic Club at Boston.

The dinner of the Megantic Club at Boston on Saturday evening was a most gorgeous entertainment, some 260 guests being present at the Copley Square Hotel. Among them were Lieut-Gov. Walcott, the Mayor of Boston and many other distinguished gentlemen. The entertainment was varied and entirely novel. Sweet music was discoursed and various novel features interspersed through the evening, including minstrel songs, recitations and cornet solos. The most novel, however, was an immense "game pie," borne on the shoulders of four men clad in white, preceded by four men, clad in similar garb, with torches. The pie was placed on the table in front of the Lieutenant-Governor. The top being removed, out popped a beautiful little girl clad in fairy costume, tinsel wings, etc. At the same time out flew a dozen or more of white doves. The little fairy presented to the Lieutenant-Governor an elegant basket of flowers in fitting words. The Lieutenant-Governor's response was most happy and appropriate. Great numbers of Boston's fair daughters fringed the banquet hall, altogether making a magnificent entertainment.

Messrs. R. M. Stelle, William K. McClure and J. E. Martine were present from this city. William K. McClure was a member of the entertainment committee.

MacClymont to Be the Leader.

At the close of the Choral Society rehearsal Monday evening the promoters of the new glee club met and decided to hold the next meeting this evening at W. E. MacClymont's studio. Mr. MacClymont has consented to fill the position of director and that is enough to assure the success of the club.

Malicious Mischief.

Some young men amused themselves yesterday in firing stones at the electric light at the corner of Sherman and Grant avenues, and at last one of them, with better aim than the rest, smashed the glass globe.

A skating party is being arranged for Saturday evening. A party of the pupils at the North Plainfield public school are planning to go to New Market. S. B. Joseph, of Manning avenue, will chaperone them.

A SCHOOL WAY UPTOWN.

BOARD OF EDUCATION FIND IT NECESSARY TO ERECT A NEW BUILDING.

The Property on Which the New Building is to be Located is on Berckman Street Near Second Street—The Estimated Cost.

The rapid growth of the Netherwood section of this city the last few years has so overcrowded the facilities of the Bryant School that the Board of Education have for sometime been at a loss to know how to provide accommodations for the children attending that school. One class was transferred from the Bryant School to the Wadsworth building, but still there was not enough room in the former building and there was great hindrance in properly instructing the scholars. The board finally decided that the only policy to pursue would be to erect a new school building in the Netherwood district and to that end Messrs. Lounsbury and Probasco were appointed a committee to investigate the matter. The following is their report:

TO THE BOARD OF EDUCATION:

Gentlemen:—Your Committee on Buildings and Repairs beg leave to make special report as follows:

In conformity with instruction from the Board negotiations were opened for the purchase of the plot of land facing on Berckman street, and running from Second street to Midway avenue, which negotiations resulted in the purchase of the property on behalf of the Board for the sum of thirty-three hundred and seventy-five dollars.

The property has a frontage on Berckman street of 292 feet with 120 feet on Second street, and 164 feet on Midway avenue. The level of the property is slightly above the grade of the street, insuring perfect drainage, and in every respect the site is an ideal one for a school, being dry, sunny and sufficiently large to insure unobstructed light and ample play grounds for the pupils.

The First ward of the city has long felt the need of a public school building, and we feel that the Board has been most fortunate in securing such a desirable site in that section, without being compelled to go to the extreme east end of the ward, which, while it would have proved an accommodation to the few living in that neighborhood, would have compelled the majority of the pupils to walk long distances.

While the Board has spent considerable time in determining the question of a site, we feel now that it has been settled, we should proceed with as little delay as possible to take up the question of the erection of a suitable building, as it is apparent that additional room will have to be provided to accommodate the increase which is sure to occur in the fall of 1896. In fact, without any such increase additional room ought to be obtained as the district lines are now so arranged, (or rather so disarranged,) as to prove very inconvenient to a large number of pupils, to say nothing of the over-crowding in the various buildings.

We have been enabled to keep pace with the increase in attendance only by utilizing the Wadsworth house and by converting the Assembly room of the Stillman building into a study room, and we are now at the end of our resources, as far as present buildings are concerned.

In view of the fact that it is the purpose of the Board to erect upon the site in question a primary school of say eight rooms, we feel that by giving the matter early attention, such a building could be completed and equipped and ready for use at the beginning of the fall term, and therefore recommend that the Board take such action as may seem necessary to accomplish this result.

The following figures taken from our reports will serve to illustrate the necessity for prompt action:

Total enrollment for year 1891, 1,691.
" " " " 1895, 1,849, increase 158 or 93 1-10 per cent.
Total enrollment for year 1895, 2,166, increase 317 or 17 1-6 per cent.

Of the above last mentioned increase, 139 were in the Bryant district, and these were provided for by transferring a large number to other buildings.

Respectfully submitted,
Fred Lounsbury, ch.,
J. B. Probasco.

It is calculated to erect a two-story building on the property purchased, with four rooms on the first floor and the same number on the second, but to use only the first floor until the increase demands that the whole building be used. To make the expense as small as possible the second floor will not be finished until occasion demands.

Suing for $5,000 Damages.

The time of the Union County Court yesterday was taken up with the trial, before Judge VanSyckel, of the suit of Mary C. Whaley, of Lorraine, against the Central Railroad Company for $5,000 damages for injuries received by being struck by a train at Lorraine nearly a year ago. The plaintiff has been lame ever since, and her physician says the injuries are permanent. The case occupied all day, and resulted in a non-suit.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

A SHORT CUT TO DEATH.

A SWEDE'S FATAL WALK ON THE TRACKS TO SAVE A FEW STEPS.

John Svansen Struck by a Jersey Central Train Between Berckman and Richmond Streets—No Relatives Here

After so many accidents resulting from trespassing on the railroad, it would seem that more care would be taken, but last evening another man walked down the track and was struck by a passing coal train.

John Svansen and Christian Ramusauen were two Swedes in the employ of H. C. N. Johnston, the Berckman street stone dealer. Svansen drove one of the stone wagons. They have been sleeping in Johnston's office on the corner of South avenue and Berckman street, and taking their meals at McVey's restaurant on North avenue. Last evening they went to dinner as usual and shortly before 6:30 o'clock the two men started for the office. When they reached Watchung avenue Ramusauen tried to persuade his comrade to walk up to Fifth street and go that route but Svansen would not. He has been in the habit of walking up tracks every day to and from his meals. He said that the railroad was the shortest, so the two men separated and each went his way.

Peter Miller, the night track walker, was walking along the west bound freight track when he heard a whistle in the rear. He stepped to one side and looked behind him in time to see another man walking about thirty feet away while an east bound coal train was rapidly approaching. Miller yelled a warning at the unconscious man but he paid no heed and the next instant the engine struck him, killing him instantly. The accident occured between Richmond and Berckman streets. Miller immediately notified Policeman McCue and they examined the body, which the officer recognized as that of John Svansen.

Undertaker Casey was notified and the body was placed in his morgue to await the coming of the coroner.

The deceased came here from Sweden several years ago where his parents are now living. He was unmarried and was not known to have any relatives in this vicinity.

STUDY OF A NOTED WOMAN.

Life of Lucretia Mott Considered in Its Different Phases.

The Plainfield Branch Alliance of Unitarian and other Liberal Christian Women met yesterday afternoon at 3 o'clock in the church, and enjoyed a study of the life of Lucretia Mott, a noted liberal woman. Mrs. Hobart Clark presided and introduced the subject, after which Miss Haviland read a paper, prepared by herself, on the life and work of Mrs. Mott. She was born in 1793 at Nantucket, and was a noted Friend. Her early life was spent in preparation for one of great usefulness in the abolition of slavery. She was devoted to religion and all its branches, and this coupled with a strong mind and body, made her a power of good. As a speaker she was famous all over the land, having addressed large audiences in all the principal cities. Her simplicity in discoursing was a marked feature, making them doubly interesting. In her home life she was also a hard worker and an early riser, and found many opportunities to teach the principles so dear to her heart.

She thoroughly advocated non-sectarinism, and often remarked that she only wore her Quarker bonnet because it was a habit of long standing. In the year 1840 she and Mrs. Elizabeth Cady Stanton were sent as delegates from the American Anti-Slavery Society to the World's Anti-Slavery Society Congress in England, and when they arrived the members of the Convention refused to let them take a seat because they were women. Wm. Lloyd Garrison, who was present as a delegate, immediately refused to take his seat unless they too were allowed, and he didn't.

Mrs. Mott died November 1880, at the age of 88. Her last public appearance was when she was 86 years of age, and her mind was exceedingly clear and strong for one of her years.

Following the reading of the paper, a general discussion of the subject by the members was enjoyed. Among those who had personal knowledge of Mrs. Mott, were Mrs. Kimball, Mrs. Brown, Mrs. Dr. Rushmore, Mrs. Ryder and Mrs. Hussy. They gave bits of experience that had endeared them to this remarkable woman. At the close a vote of thanks was given Miss Haviland for her very interesting and valuable paper.

Following the above meeting the executive committee remained for a short conference to discuss business pertaining to their work.

BE FAITHFUL LIKE CALEB

ADVICE TO CHRISTIANS BY REV. CORNELIUS SCHENCK LAST NIGHT.

The Matter With Most People is That They Will Not Leave the Tables of Publicans—Second of Revival Meetings.

The interest in the evangelistic meetings does not show any sign of abatement. On the contrary there was a larger attendance last evening than on Monday night. Every seat in the lower floor of the First M. E. church was filled, while there were very few empty ones in the gallery. The chorus choir numbered about the same as on Monday night, or perhaps a trifle more. The meeting opened promptly at 7:45 with the song service led by Horace J. Martin. Whitfield Frazee assisted in the music with his cornet. A prayer by Rev. W. C. O'Donnell followed the singing, and then Rev. Cornelius Schenck read a selection from the ninth chapter of Matthew. He took for his text the words "Follow Me" from that chapter.

He gave the different instances in which that command was given by the Lord Jesus. He spoke about the way in which Matthew obeyed the command and said that it showed the strength of the personality of Christ and that, if there was hope for the publicans, there is hope for anybody. The matter, he said, with the people today is that they will not completely leave the tables of the publicans. He next spoke of the call of the four fishermen, Andrew, Simeon Peter, John, James, and said, the great Captain is calling all those in the audience to follow him. It is a call to all who have not confessed him and it is also a call to all disciples of Jesus to follow Him more strictly. You should follow Him fully, wholly, and faithfully like Caleb and not afar off. It is impossible for one who follows closely to fall. The call is an appeal to your sense of right, it is your duty to follow Christ. If we have not obeyed the call before let us do it now.

After a prayer by Rev. W. R. Richards, D. D., and a hymn the regular meeting was over but the majority of the audience remained to the after-meeting. Rev. Dr. Richards, acted as leader in the after-meeting There were several short prayers followed by a number of requests for prayer. Rev. Dr. Yerkes made a prayer carrying the requests in it. The thought of the meeting was personal effort, to bring another to the meetings not to depend on the daily papers to invite others but to bring them personally.

Rev. Mr. Randolph will preach at this evening's meeting.

IT WAS A NATIVE AFRICAN.

So Says Archæologist Fountain After Examining the Skull.

One of the skulls which were unearthed by Contractor Uhdal and his men in the opening of Stelle avenue last November, was examined yesterday by George H. Fountain, Plainfield's archæologist, at The Daily Press office. After a careful inspection of the skull, Mr. Fountain declared it to have belonged to a native African. The depressions on the skull, which had been thought by some to have been the result of a blow, were, he said, perfectly natural. The marks on the upper portion of the skull and the jaw showed it to be an adult. The nose was African and the thickness corresponded to the same idea. It was, he concluded, the skull of a very low type of human being.

Mr. Fountain's testimony would subtantiate the theory that a slave burying-ground had once existed where the excavations were made.

Telephone Changes.

The following changes have been made in the local telephone system relative to the subscribers: The pay station number at Leggett's drug store, Y. M. C. A. building, has been changed to 110, and the following subscribers have had their instruments changed from the old style to the metallic circuit instrument: J. T. Clawson, Dr. Probasco, East Front street; Dr. Murray, Watchung avenue, and T. B. Penton, Jr., Rockview Terrace.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

BUSINESS MEN HERE.

SEMI-ANNUAL CONVENTION OF THE RETAIL GROCERS ASSOCIATION.

An Address of Welcome by Mayor Gilbert, Which Teemed With Bright Thoughts and Practical Observations.

Plainfield was the centre of a gathering of live business men this morning as the delegates for the seventeenth semi-annual convention of the Retail Merchants Association of New Jersey assembled in this city. Last evening the first installment came and since then they have been pouring into the city until it is expected that one hundred and fifty out of town merchants are assembled here at the headquarters of the association in the Grocer's Association rooms on the second floor of the Babcock building, and here the delegates registered and waited until the association was called to order. They were looked after by the reception committee which consisted of Messrs. George W. Rockafellow, chairman; J. M. Dunn, B. D. Newell, H. A. Weber, F. Westphal, Edward White, Garrett Q. Packer, John A. Thickstun, E. H. Holmes, L. B. Woolston, J. W. VanSickle, Frank W. Jones and George W. Eddy.

Shortly after 10 o'clock the delegates made their way to the Odd Fellow's Hall on the top floor, where at 10:20, ex-Mayor James P. Sullivan, of Morristown, president of the state association called the meeting to order. He introduced Mayor Gilbert, who welcomed the Association to this city.

"It is my duty," said the Mayor, "and a very agreeable duty too, to extend to you the freedom of this city. I want my welcome to be charged with sincerity and friendship. We throw open wide the gates of Plainfield to you and, as wide as we open them, we throw open our hearts. We want you to see everything that we have in our beautiful city. We know what it is to go to an unknown city and be left to yourself without entertainmeht or pleasure, so we want to protect you from any feeling of homesickness and we want to do it right royally. Plainfield is a very old settlement—it dates back of Colonial times. Every spot of ground on which we stand has felt the tread of Revolutionary heroes. Our people are an enterprising people. You can see the shrewd look in their faces and you want to look out for them if they take you about the city today, especially if they offer you any special bargains. Our ancestors, so the historians tell us, were particularly fond of applejack. The Plainfield man gets his shrewdness from the Scotch, his solidity and carefulness from the Quakers, and, perhaps, he gets his dash from the applejack. But when it comes to beauty and perfect physical proportions, I don't believe that comes from applejack, but rather from cold water. Plainfield has cold water, pure as can be, that lies fifty feet below the ground, a perfect wealth of it. That is the fountain from which Plainfield draws its great supply of health. Plainfield is one of the healthiest places in New Jersey. You will see many doctor shops and drug stores, but they may be accounted for in that we believe that plenty of prevention is worth lots of cure."

Mayor Gilbert then spoke of the beautiful buildings and miles of residences to be seen in the city and said, that more than anything else, they marked the prosperity of Plainfield.

"We have enterprising newspapers here who are run by people who have their own ideas, especially in regard to politics. They contribute to and reflect the growth and prosperity of this city."

He next referred to the object of the meeting and the association itself and spoke of the needs of the business man and the changes over the past.

He must not be afraid to advertise freely, he must be popular with the people, he must deal in the best of wares and be ready to meet his obligations, and finally learn to discriminate between the good and bad buyers. To be popular he must gain confidence of the people and be obliging in little things as well as great. On these things depend his success.

The Mayor concluded with a little outline of what was to be done for the guests and in again welcoming them to Plainfield.

President Sullivan replied in a few words, well suited to the occasion and then the convention settled down to business.

Secretary J. E. Hendrie, of Paterson, read the call after which the roll call was held and twelve out of the eighteen associations in the state replied. Delegates were present from the following associations: Arlington, Harrison and Kearney, Hudson county,

TRIO OF INSTALLATIONS.

OLD VETS, THEIR WIVES AND THEIR SONS GATHER TOGETHER.

Officers of Winfield Scott Post, John Hand Camp and Woman's Relief Corps Take Up Their Duties—Interesting Programme

Grand Army hall on East Front street, was thronged with people last evening when the officers elect of Winfield Scott Post, No. 73, G. A. R., Women's Relief Corps, No. 10, and John Hand Camp, No. 28, S. of V., were jointly installed. There were present members of Ulric Dahlgren Post, and Women's Relief of Elizabeth, and friends from this city. The installation ceremonies were very interesting and exceptionally well performed. Past commander James Atwood, of Post 73, installed the officers of the Post as follows:

Commander, I. C. McVoy; senior vice, Francis M. Whitely; junior vice, W. R. Moore; adjutant, R. M. Walker; quartermaster, Andrew Cox; chaplain, J. A. Goodwin; surgeon, Wm. Hand; officer of day, W. C. Smith; officer of guard, S. C. Terry, Sr.; sergeant major, Jos. N. Bogert; quartermaster sergeant, H. C. Drake; post commander, W. W. Coriell.

The officers of the Women's Relief Corps were installed by Mrs. Hannah A. Westphal, as follows:

President, Mrs Isaac Brokak; senior vice, Mrs. Cox; junior vice, Mrs. Mattox; chaplain, Mrs. Corwin; conductor, Mrs. McVoy; assistant conductor, Miss Sadie Smith; guard, Mrs. DeNise; assistant guard, Mrs Huntington; past president, Mrs. M. C. Dobbins.

Past Commander, M. C. Dobbins, of Post 73, then installed the officers of John Hand Camp, No. 28, S. of V., as follows:

Captain, W. S. Sutton; first lieutenant, C. F. Stephens; second lieutenant, H. C. McVoy; first sergeant, H. S. Thatcher; sergeant of guard, Louis Eaton; quartermaster, Fred Sutton; chaplain, Raymond McVoy; corporal of guard, James Stryker; color sergeant, Charles Graves, Jr., camp guard Clifford Compton; picket guard, Israel Stites; principal musician, Arthur Drake; camp council, Charles Graves, Louis Eaton, James Stryker. Past captain, W. C. Dobbins. Commander McVoy then took the chair and made a few remarks after which he introduced Past Commander, Jas. Atwood who gave an excellent talk. This was followed with a recitation, "The Dandy Fifth," by Miss Pitcairn of Elizabeth; remarks by Past Commander Hammil of Dahlgren Post Elizabeth; reading and recitation, Miss Etta Raybert; reading, "Who'll Be the Last," W. R. Mattox; remarks, Past Commander W. W. Coriell; vocal duett, "Hannah, Ain't you Glad you Come," Mrs. Walter Walker and Miss Agnes Morse; remarks, Commander J. T. Dunham, Post 109; President, Mrs. Isaac Brokaw, Women's Relief Corps, No. 10, comrade Oakley, of Dahlgren Post, Elizabeth. All then adjourned to the room below where a sumptuous repast was served by the Women's Relief Corps. The balance of the evening was well spent in sociability and relating war stories. The visitors left for Elizabeth on the 11:28 train well pleased with the entertainment provided.

Tracked For Robbers.

Two borough sporting men went rabbit hunting a few days ago near the Passaic river and tied their horse along the roadway near the river. Soon afterward they started a rabbit and followed it across the fields, through the woods, until they were lost completely. The night previous a store was robbed at Pluckamin, and a number of the farmers were out hunting for the robbers. In searching about the woods they came across the footprints of the borough young men, and followed them until they found them. An attempt was made to arrest the North Plainfielders. The latter had great difficulty in explaining matters and finally had to ask the farmers to assist them in finding their horse and wagon. It was found and they were glad to get home.

—Miss Marsh's class of mixed voices in vocal sight reading will meet Thursday evening, Jan. 16th, at Miss Marsh's residence, 915 Madison avenue, at eight o'clock. Remember, $3 for 10 lessons. The class for ladies only will meet regularly Monday and Thursday afternoons at 3:15.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

THE RECENT BOND CALL

No Change or Modification in It Contemplated.

Should the Withdrawal of Gold Cause a Money Congestion, Secretary Carlisle Will Exercise His Discretion in Exacting Payment Within the Time Specified.

Washington, Jan. 15.—No change or modification in the call issued by Secretary Carlisle inviting bids for $100,000,000 four per cent. thirty year bonds on a three per cent. basis is contemplated at the treasury department. Already under this circular bids have been received for the bonds, which bids, it is held, would be vitiated by any change made which would work a hardship upon those already having bid. Under the circular bidders have forty days within which to complete payment for bonds accepted by the secretary of the treasury and should there be, as is feared in some quarters, a congestion in the money market, because of the large amount withdrawn from banks and other depositories with which to pay for the bonds, it is understood here, that the secretary of the treasury will use his discretion, according to circumstances, in exacting payment within the time specified in the circular. It is not the desire of the administration to bring about a congestion in the money market and should it appear to the secretary of the treasury that such a congestion would result from his exacting literal compliance with the terms of the circular as to the payment he will so regulate the payments and extend the time as in his discretion the circumstances of the case demand.

Two View-Points of the Situation.

Considerable interchange of views on this point in a quiet kind of way has been going on for the past few days between treasury officials charged with the responsibility of perfecting the details of the bond payments. It is readily recognized that there are two view-points of the situation, viz: That of the treasury and that of the bidders from whom the gold is to be received. The object of the treasury is to do the best they can for the government; the object of the bankers and bidders is to get the bonds on the best terms for themselves. It is recognized that most of the gold received for the bonds must come out of the banks of the country, and principally out of New York. The effect of this would be to reduce the gold holdings of the banks and to necessitate the substitution of some other form of coin or paper currency for the reserves thus withdrawn.

Will Exercise Discretion.

This would naturally produce a congestion in the money market and, the secretary of the treasury knowing this, will, as stated above, exercise his discretion in the premises alike for the benefit of the treasury and the banking community at large. The substance of these assurances has been communicated in various letters written within the last week at the treasury department to bankers and others throughout the country. While no promise is given that the payments for the bonds will not be required to be made within forty days, the secretary has stated that he, being the judge of the circumstances, will exercise discretion in the matter to prevent, as far as he can, any injurious contraction of the currency.

JUDGE ROBINSON DEAD.

Chief of Maryland Court of Appeals Expires in Annapolis.

Annapolis, Md., Jan. 14.—Chief Judge John M. Robinson of the court of appeals died of heart disease yesterday at the home of his daughter, Mrs. Fullam, near the naval academy. He had been sick but three days. Last week he filed opinions in several important cases and administered the oath to Gov. Lowndes when he was inaugurated on Wednesday. Saturday last the judge complained of severe pains around his heart. Yesterday he was removed from his boarding house to the residence of his daughter. No one anticipated his sudden demise. Mrs. Robinson and her daughters, Mrs. Fullam and Mrs. Lloyd, were at the bedside when Judge Robinson expired. The court of appeals at once adjourned. The deceased jurist had been on the bench of the state appellate court for twenty-seven years.

FORAKER NOW SENATOR.

Ohio's Ex-Governor Elected To Succeed Calvin S. Brice.

Columbus, O., Jan. 15.—Ex-Gov. J. B. Foraker was yesterday elected U. S. senator to succeed Calvin S. Brice. Mr. Foraker received the full republican vote.

House Committee on Territories.

Washington, Jan. 15.—The house committee on territories organized yesterday and decided to begin at once the consideration of the bills looking to the admission of Arizona, New Mexico and Oklahoma.

Mail Robber Arrested.

Washington, Jan. 15.—Chief Postoffice Inspector Wheeler has received a telegram announcing the arrest at Syracuse, N. Y., of Daniel Hayes for stealing mail sacks and rifling packages from the same.

Suicide of an Inventor.

Atlantic City, N. J., Jan. 15.—Wm. J. Tate, an inventor of Philadelphia, committed suicide at his cottage at South Atlantic City yesterday by taking poison.

KNIGHTS OF LABOR.

Three Proposed Measures Considered by the Congress at Albany.

Albany, Jan. 15.—At the afternoon session of the Knights of Labor congress yesterday three proposed measures to be introduced in the legislature at the present session were recommended for the favorable consideration of the delegates, but final action upon them was postponed until this afternoon. District Assembly No. 220 of Brooklyn proposes a bill providing that all inspectors of work on city pavements be selected from the ranks of organized labor. The electric wire workers of New York city ask legislation to provide that experienced electricians only shall be allowed to operate dynamos in this state. It is claimed that many dynamos are now in charge of men who are simply engineers, and know nothing of electricity. It is provided that dynamo tenders be compelled to pass a civil service examination. The cornice and skylight makers of New York city father the third measure which seeks to make it necessary that building inspectors should take from the ranks of the cornice and skylight makers a skilled mechanic to be the inspector of their work.

TUSSLE IN A COURT ROOM.

The Word Liar Causes Two Baltimore Lawyers To Fight.

Baltimore, Jan. 15.—Ex-Congressman Henry Stockbridge and Attorney Thomas A. Mackall had a tussle in the city court room while the court was in session with Judge Phelps on the bench. The two gentlemen were engaged in a trial case. A dispute waxed warm and Mackall called the ex-congressman a liar. The two men sprang to their feet, kicking over chairs in their haste and began a struggle about the court room. Judge Phelps shouted while other lawyers got into the melee and finally separated the belligerents. The scene created the greatest excitement. Judge Phelps was so astounded at the affray that for several minutes he could hardly utter a word. He finally told the two gentlemen to leave the room, but to return at 3 o'clock, when he would hear what they would have to say, and decide the case. Mr. Stockbridge is one of Baltimore's best-known lawyers and a well-known politician. Mr. Mackall is also a well-known member of the bar. Before 8 o'clock Judge Phelps was informed of the death of Chief Judge Robinson of the court of appeals and adjourned court.

THE "BAT" SHEA CASE.

Announced That It Is Out of the Governor's Hands.

Albany, Jan. 15.—The conduct of the "Bat" Shea case, according to the announcement made at the executive chamber last evening, is now entirely out of the governor's hands. Col. Ashley W. Cole, the governor's private secretary, says that in pursuance of the surrender of the case by District Attorney Kelly of Troy, and at his request to be relieved of its conduct, that the governor has referred the entire control of the matter to Attorney-General Hancock. It is believed about the capitol that Mr. Hancock will undoubtedly designate Hon. Geo. Raines of Rochester and ex-Assistant District Attorney Fagan of Troy, who prosecuted Shea on his trial, to appear as the state's representatives in opposition to the application to be made to the courts by Shea's counsel for a new trial for the condemned man.

Coal Company Sold Out.

Pottsville, Pa., Jan. 15.—The colliery of the Chamberlain Coal company near Pottsville was sold out yesterday upon executions amounting to upwards of $200,000 by Sheriff Scott. The Chamberlain company is composed of Wilkesbarre and Scranton capitalists. W. W. Watson of Wilkesbarre was the purchaser, as trustee.

Addicks Must Pay the Costs.

Wilmington, Del., Jan. 15.—The superior court has ordered J. Edward Addicks to pay within sixty days the costs in the divorce suit recently brought against him by Mrs. Addicks. The costs amount to $7,250. The court approved the return of the commissioner, denying a divorce to Mrs. Addicks.

RED CROSS AND TURKEY

Mavroyeni Bey Explains the Sultan's Attitude.

Says Miss Barton Presided at Meetings Where His Country and Religion Were Grossly Abused—Nothing Official To Communicate to the Society.

Washington, Jan. 15.—Mavroyeni Bey, the Turkish minister to the United States, has authorized the publication of the following statement in regard to the reported intention of the Red Cross association; "You ask me," said the Turkish minister, "what I have to say about the statement that the Red Cross society has decided not to pay any attention to the communication, published yesterday, until it is officially transmitted to it by the Turkish government or the Turkish minister. My answer is very simple, and it is the following: The Red Cross has never communicated with this legation. It has only communicated, to my knowledge, with the press and the public, its president, Miss Clara Barton, assisting, without protest, at public meetings where the most gross and unjust abuse was made of the Turkish government, religion and race. As the Red Cross or any of its representatives never visited this legation, it is clear and logical that this legation has nothing to communicate to said society. This legation sent its communication to the press, because it is the public that the Red Cross took into its confidence. But, naturally, I will always be ready and pleased to give to the Red Cross society any explanation it may think proper to ask for.

"A Question of Right."

"The whole question," added the minister, "is a question of right. Suppose for one moment that your own Indians were to revolt against your legitimate authority. Suppose that in some foreign country some foreigners were to calumniate publicly your civilization, your race and your religion. Not satisfied with that, suppose that these foreigners, on the strength of such false accusations were to raise money and bring it for distribution, through their own channels, however respectable the latter may be, to the very people that revolted against your government. Would that money, raised on hatred and denunciation, would even a moral aid from foreigners, be welcome to this great country of yours, however welcome it might be, for obvious reasons, to your Indians? As you see, this whole question is a very clear one. But, I wish you at the same time to understand that—even to-day, notwithstanding the contrary assurances of interested parties—the Turkish government has no animosity whatever against the Armenians and only wishes to see them prosper under its legitimate and rightful authority."

Miss Barton's Reply.

Miss Clara Barton, president of the American National Red Cross society, after consideration of the emanations of the Turkish government, through its legation here, said to a representative of the United Press last evening: "As is the well-known custom of the Red Cross we had no part in the raising of money. We were simply asked to take and distribute America's fund. We have from the first given no expression of opinion, either public or private, which, in accordance with the neutral principles of the Red Cross, we never could nor desired to do. A careful perusal of the context of the Turkish ambassador's statement will show that the Turkish government is not antagonistic to the Red Cross as such, which it recognizes as a part of its own treaty relations, and for which, in its statement, it publicly expresses its respect, but objects to the distribution of foreign relief on entirely different grounds, neither in its power or ours to control. We also desire to add that any publication to the effect that the Red Cross is aggressive in the matter and intends to act in spite of authority or co-operation is entirely incorrect."

SENTENCED FOR FORGERY.

NAPOLEON,

ONCE ASKED FOR AN OPINION,

Gives a Graphic Description of His Ideal Woman. Mothers Please Note.

[SPECIAL TO OUR LADY READERS.]

In response to a question asked by a lady, the great Napoleon replied,—

"My ideal woman is not the beautiful-featured society belle, whose physician tries in vain to keep her in repair, nor the fragile butterfly of fashion, who gilds the tortures of disease with a forced smile.

"No! my ideal is a woman who has accepted her being as a sacred trust, and who obeys the laws of nature for the preservation of her body and soul.

"Do you know, my knee involuntarily bends in homage when I meet the matron who reaches middle age in complete preservation.

"That woman is rendered beautiful by perfect health, and the stalwart children by her side are her reward. That's my ideal woman."

To grow to ideal womanhood the girlhood should be carefully guarded.

Mothers owe a duty to their daughters that in too many cases is neglected.

Nature has provided a time for purification; and if the channels are obstructed the entire system is poisoned, and misery comes.

At a mothers' meeting the wife of a noted New York divine said to her listeners: "Watch carefully your daughters' physical development.

"Mothers should see that Nature is assisted, if necessary, to perform its office, and keep their daughters well informed as to matters concerning themselves."

Irregularities, from whatever cause, are sure indications of organic trouble. With irregularities come disturbance of the stomach and kidneys.

Violent headaches often attack the victim; pains shoot everywhere. Extreme irritability follows quickly, and then utter despondency overwhelms the already over-burdened life. Unless the obstruction is removed at once, your daughter's whole future will be darkened.

Lydia E. Pinkham's Vegetable Compound will accomplish the work speedily. It is the most effective remedy for irregular or suspended action known.

IN HOUSE AND SENATE

Debate on the Pension Bill Occupies Much Time.

Congressman Cummings Attacks the Policy of the Pension Bureau. Military Academy Appropriation Bill Reported—Senator Butler Speaks on the House Bond Bill.

Washington, Jan. 15.—For four hours the debate on the general pension appropriation bill ran along in the house without especial incident, the only spice of variety even being the occasional efforts of Mr. Bartlett, dem., N. Y., to defend the position he had taken in his speech yesterday, in which he supported the administration by the pension bureau of the laws entrusted to it for execution. Then Mr. Cummings, dem., N. Y., occupied five minutes in a most vigorous attack upon the policy of the pension bureau, which he declared caused union soldirs and their widows to shiver with apprehension that they would be stabbed in the back by the bureau, where they should receive only encomiums and support. He repudiated the speech of Mr. Bartlett in the name of the democracy of New York, the Tammany Hall democracy, which, he asserted, had always been loyal to the union and the friend of the soldier of the union. He was surrounded during the delivery of his impassioned philippic by republican members, who applauded nearly every sentence. The debate on the pension bill will probably continue two or three days longer. Before the house adjourned Mr. Curtis, rep., N. Y., reported the military academy appropriation bill and it was placed on the calendar.

In the Senate.

Washington, Jan. 15.—Two bills were passed in the senate—a railroad bill and a private pension bill. The latter gives a pension of $75 a month to the widow of Brig.-Gen. Cogswell of Massachusetts. The pension bill provoked a discussion which lasted more than an hour and a half and which was of more than usual interest. The remainder of the session was consumed in the delivery by the populist senator from North Carolina, Mr. Butler, of a prepared speech on the house bond bill, with the free silver substitute to it reported by the finance committee.

LOSS, $250,000.

Jewett Stove Works at Buffalo Destroyed by Fire.

Buffalo, Jan. 15.—The warehouse of the Jewett Stove works, situated at the corner of Perry and Mississippi streets, was destroyed by fire last evening. The loss is estimated at $250,000, of which $150,000 is on stock, many thousand stoves being stored in the building. The fire started about 6 o'clock, just after the men had quit work, and spread so rapidly that the building was soon enveloped in flames and doomed. The entire fire department was brought into service and succeeded in saving the main buildings and other adjoining property. The plant is one of the largest in the country and employs at present 350 men. The origin of the fire is unknown.

Nominations Confirmed.

Washington, Jan. 15.—The senate in executive session confirmed the following nominations: Herman Kretz to be superintendent and William E. Morgan to be coiner of the mint at Philadelphia. Edward A. Bowers of Connecticut to be assistant comptroller of the treasury. Albert B. Stearns, appraiser of merchandise at Boston. To be collector of customs at Stonington, Conn., C. S. Crandall.

G. F. Page Assigns.

Australia's Fatal Heat.

Sydney, N. S. W., Jan. 15.—The weather here to-day is the hsttest on record, and there have been many deaths from sunstroke.

THE CUBAN REBELLION.

Patriots Under Gomez Attempt To Burn Bejucal.

Havana, Jan. 15.—The rebel force under command of Maximo Gomex attacked the town of Bejucal, fifteen miles south of Havana, but were repulsed by the government troops. Before they retired the insurgents set fire to several houses on the outskirts of town. They also set fire to the railway station, but the flames were extinguished by eight men. A passenger train was destroyed. In the fighting the troops lost two killed and ten wounded. The insurgent loss is unknown. Owing to the disturbed condition of the country through which the railways pass and the danger of attack by the insurgents no trains are being dispatched in any direction. The authorities here have started a popular subscription for the relief of plantation people whose crops have been destroyed by the rebels. The sum of $61,000 was raised the first day. Captain General Campos subscribed $2,000 to the fund, and other officials also subscribed liberally. Thousands of people whose homes have been destroyed are flocking into the cities. In order to avoid creating alarm among the people of Havana the newspapers have been notified by the authorities that they will not be allowed to issue extras.

EXPECT TO RAISE THE SIEGE.

16,000 Italian Troops Marching to the Relief of Makalle.

Rome, Jan. 15.—Several papers here announce that Great Britain has agreed to cede to Italy the town of Zeila, on the Somali coast. The possession of this town would enable Italy to throw troops into the southern and central parts of Abyssinia without their having to make the long march from Massowah, the capital of the Italian colony of Erythrea. A dispatch to the Capitale from Massowah says that the Abyssinians yesterday attacked Makalle for the fifth time. The Italian garrison withheld their fire until the Abyssinians were in close quarters and then poured volley after volley into them with terrible effect. Just about the time the attack was made four thousand troops under Col. Albertone arrived at Makalle. They surprised the Abyssinians by attacking them on the flank and completely routed them. A column of 12,000 men under Gen. Baratieri, the commander of the Italian forces in Erythrea, and another column, 4,200 strong, under Col. Arimonde, are nearing Makalle, and it is expected that they will raise the seige of that place.

DINNER TO THE PRESIDENT.

Many Distinguished Guests at Secretary Carlisle's Entertainment.

Washington, Jan. 15.—Secretary and Mrs. Carlisle last night gave the second of the series of cabinet dinners to the president and Mrs. Cleveland. There were present besides these named above, vice-President Stevenson, Secretary and Mrs. Olney, Secretary and Mrs. Lamont, Attorney General and Mrs. Harmon, Postmaster General and Mrs. Wilson, Secretary and Mrs. Herbert, Secretary Smith, Secretary and Miss Morton, Sir Julian and Lady Pauncefote, and Mrs. Stanley Matthews.

MOTHER'S AWFUL CRIME.

Poisoned Her Eight Children and Hanged Herself.

Marysville, Kas., Jan. 15.—In a fit of despondency yesterday afternoon Mrs. Joseph Hildabrand administered poison to her eight children and then hanged herself. Seven of the little ones are dead and the other is not expected to live. The woman's husband is in Kansas City undergoing treatment for a cancer and Mrs. Hildabrand has been very downcast over his affliction. It is believed she was on the eve of insanity when she committed the terrible act.

DENOUNCES PRIZE FIGHTERS.

El Paso Ministers' Union Issues a Call to the Public.

El Paso, Tex., Jan. 15.—The city ministers' union prints a call asking respectable citizens not to contribute money or aid in any way in support of prize fighters. They claim disreputable crowds are coming in here; that the city is being given a terribly bad name; that money will be taken out rather than left and that the city will be disgraced.

ENGLAND'S NEW FLEET

The Flying Squadron Put in Commission.

Its Destination Still Unknown—England Believed To Be Endeavoring To Gain Continental Friends—Her Policy in the East. Condition of Affairs Improving.

London, Jan. 15.—The vessels comprising the new flying squadron, the duties of which are still problematical, were put in commission yesterday with all the ceremonies that attend that naval function. The fleet is composed of the first class battleships Revenge, flagship, and Royal Oak, the first class cruisers Theseus and Gibraltar and the second class cruisers Charybdis and Hermione and six torpedo boat destroyers. The fleet, exclusive of the torpedo boat destroyers, mounts seventy-two guns, and has a total tonnage of 52,070. The officers and crew number over 4,000 men. Rear Admiral Alfred T. Dale commands the squadron. The destination of the squadron is still unknown. But little reliance is placed in the statement that it is to proceed to Turkish waters. The arrival at Malta of thirteen of the British vessels which had been at Salonica as part of the combined European fleet which it was supposed was to make an effective demonstration against Turkey, but which did nothing but ride at anchor week after week miles from the Turkish capital, is taken as a pretty strong indication that the new squadron is not going to Turkish waters.

Wants Continental Friends.

There is an under current of popular feeling here that strongly supports the alleged policy of the government that is said to be making in the direction of a better understanding between Great Britain, France and Russia. Though England is confident in her own strength it would be disadvantageous for her in the event of war to have no friends on the continent, and recent events have shown that whether such action was preconcerted or not she is practically isolated so far as European sympathy is concerned. It is held that if the statement is true that the dispute with France relative to Siam and the French claims on the Mekong river has been settled a long step has been taken in the direction of an entente with France. But there always remains as a barrier to a complete rapprochment the question of the British occupation of Egypt. Until this question is settled in some manner satisfactory to France, and there is no evidence that any change is even contemplated, there cannot be entire harmony in the political relations between the two countries.

England's Policy in the East.

It is thought it would be an easy matter to arrive at an understanding with Russia, but even in this direction many difficulties present themselves. Little is heard of the question of an open port for Russia in the far east, but it is certain that the question is only in abeyance, and England, to protect her vast interests in the east, will be compelled to oppose by every diplomatic means in her power the acquisition by Russia of a port from which her fleets could threaten those interests. However, it may be possible for Lord Salisbury to surmount the difficulties in such a manner as would enable the three powers to come to a workable understanding on matters pertaining to all of them and more particularly on questions affecting their interests in Europe.

Improved Condition of Affairs.

The indications to-day further bear out the predictions of the United Press that there will be no war. The various government offices are very chary of giving information to the press, but it is evident from what can be gathered from outside sources that the condition of affairs improves from day to day.

GEN. FLAGLER'S ESTIMATE.

$18,599,877 Required To Prosecute the Work of His Department.

Washington, Jan. 15.—At the meeting of the senate committee on coast defenses Gen. Flagler, chief of ordnance U. S. A., submitted estimates as to the amount required in addition to the appropriation made for the present fiscal year for the running of the Watervliet gun factory; also as to the authority required to make contracts for material during the present fiscal year. His estimate for the next fiscal year, made July last for his department, was $5,327,578. His present estimate for prosecuting the work for the next fiscal year in all the branches of his department to the full capacity of existing facilities of all kinds and providing for working the shops sixteen hours per day, is $18,599.877. This includes the amount named in his July estimate.

In this part of Union there did not appear to be strength.

A poll of the members of the Legislature shows that Reed is the favorite for the Republican nomination of President.

Jersey Democracy is bound to be pre-eminent A State military official has resigned because he is a Democrat and the incoming administration is Republican.

In length of service Senator Thompson, of Somerset, is the veteran of the Legislature, as he is entering upon his ninth year, though not consecutive, as a member of the Senate. He was first elected in 1884 and served six years consecutively, and was, after an absence of three years, again elected in 1893. He is yet a young man comparatively, being only in his fifty-first year.

An important decision has been rendered by the Supreme Court of California, defining the rights and duties of members of fraternal societies. A member of an Odd Fellows lodge, to whom sick benefits were denied, applied for an investigating committee. He refused to appear before the committee, however, and also declined to appear before the lodge to answer to a charge of violation of its rules. For this he was expelled. The lower court granted a writ of mandamus for his restoration to membership, but this was overruled on appeal. The relation between fraternal orders and their members, the Supreme Court says, is strictly one of contract entered into in writing at the time the member joins the lodge and subscribes to its rules and regulations, and if he has thereby waived any legal rights, such as the right of appeal from its orders, he must not be granted relief from his own voluntary contract by the courts, but must avail himself of the opportunities which the rules and regulations of his lodge afford. It is only after the member has pursued unavailingly all of the means provided by the laws of the order for the redress of his wrongs that he may apply to the courts.

PLAINFIELDERS ON ROOSEVELT.

Dr. Lewis and Mr. Powell Say Children Should Not Be Used as Spies.

The New York Advertiser this morning published interviews with Rev. A. H. Lewis and Aaron M. Powell on the charges that Police Commissioner Roosevelt, of New York, is using children as spies to gain evidence of excise law violations. Mr. Powell said:

While sympathizing with President Roosevelt's purpose for diminishing the saloon evil, I should regret the employment of young children regularly in that kind of detective service. If, however, there are children who can be made available as witnesses, who have been, as is so often the case, sent by their parents or others to the saloons, then I see no objection to their testimony being taken by the courts in furtherance of President Roosevelt's laudable object.

Dr. Lewis said:

While I am not a resident of this State, I nevertheless am familiar with the liquor question in New York city, and I must say that the employment of children in such a capacity as detectives to secure evidence against saloon men is nothing short of being criminal. The citizens and mothers and fathers should protest against it loudly. I have made a study of the liquor question and that of the social evil, and I am sure that if President Roosevelt is in earnest in having children for such purposes, all I can say is that he has not studied the question very hard.

A New Settlement.

The property on Central and Lane avenues, just beyond the city limits, formerly a part of the Field estate has been laid out in streets. Three thousand small trees were set out there last year. Now the New York parties that own the property are prepared to erect thirty houses there next summer.

THEATRICAL.

"Hands Across the Sea," Henry Petitt's English melo drama, which has achieved marked popular success for years, was presented at Lothrop's opera house last evening, and deserved the reception given by the delighted audience, which filled the pretty play house from pit to dome, the "Standing room" sign having been forced out long before 8 o'clock. All theatregoers remember the play as one which makes a great impression, and its stirring features as presented last night were as powerful as ever, as was in evidence by the hearty applause and curtain calls given the interpreters of the drama.—Worcester Post. At Music Hall Friday night.

The public has learned to rely on what Al. G Field says, and they have also learned that they can look forward to an evening of rare pleasure when they attend his minstrel entertainment. Starting ten years ago, practically unknown to the amusement public, Al G. Field today stands at the head of the minstrel business. He has never made a statement that could not be sustained. Every year has witnessed some improvement in his company. He is always on the lookout for the best talent and he generally secures it. This year Mr. Field says he has the strongest company of minstrel stars he has ever had. Over 70 people are in the company. The company appears in Music Hall, Thursday, January 23d.

Free, and What Everybody Wants.

Perfect health and strength, to dare and to do, that's what you want and you know it. Here is a sure way to get it. Dr. Greene, of 35 West 14th street, New York City, is the most successful specialist in the world in curing nervous and chronic diseases. He is also the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. The Y. M. C. A. bowling team and the Crescents second team will bowl tomorrow night on the Y. M. C. A. alleys.

It looks as if Plainfield was going to contain one champion team of bowlers after all. The Crescent Wheelmen met the New Jersey Athletic Club last evening on the former's alleys and had no difficulty in downing them by 152 pins, giving the wheelmen a larger lead and putting the Jerseys down to third. The early part of the game was very exciting. The Crescents started out with a lead of thirty-eight pins in the first frame, but the next frame saw that reduced to seven pins. Then the bowlers from down the road did a little hustling and took first place in the third frame by one pin. But that was the last glimpse that the visitors had of the leading position. In the next frame the lead went back to the Plainfield bowlers by two pins. In the fifth they increased it to eighteen and then they began to bowl in championship form. The sixth frame saw only one break on the Crescents' score sheet, while seven of the bowlers made spares and two made strikes. Four strikes, five spares and one break was their record for the seventh frame, while in the eighth five times were the pins upset with one ball and twice with two balls. The Jersey team followed along far in the rear, for the pace was too hot, and it was only by the greatest exertions in the last frame that the Crescents did not win by almost 200 pins. Pope did the brilliant work for the home team, rolling three strikes in succession, while Lewis, of the Jersey's, distinguished himself by rolling three strikes on the windup. The Crescents bowled rather evenly and made no extra high scores, as may be seen by the accompanying individual score:

VARIOUS SPORTS.

Pursuant to a call, a meeting of sportsmen was held last evening in the office of Percy C. Ohl, in the Babcock building. Mr. Ohl was chosen president of the meeting and Henry Hurand made secretary. On motion of John Goff a committee of five was appointed to draft resolutions expressive of the sense of the organization and its purposes. The committee appointed were W. A. Coddington, of Plainfield, Alexander Harris, of Bound Brook, Aaron Brower, of New Market, John Goff and L. VanDyke, of this city. The meeting was then adjourned until Tuesday evening, January 28th at 8:30 o'clock, at the same place. Among those present were William Pierson, R. McCollough, John Adelman, John Powers, George VanNest, S. H. Peer, L. M. VanDyke, J. W. Kline, H. Randolph, Aaron Brower, William Beekman, D. H. Blackford, John Goff, Alex. Harris and many others. After the adjournment the subject whereby protection to the game from the law breakers and pot hunters, could be made effective, and the farmers and land owners benefited by an abundant supply of game, with an assured protection against tresspassers was especially defined, as it's the object of the organization to purchase game for propagating purposes, and to fully enforce the law against tresspassing. As the property owners will be greatly benefited thereby a hearty co-operation with this class is assured, and their presence or communications from them is solicited. To enable the organization to obtain the game to be liberated as early as possible it is to be hoped the good interest and efforts will meet with a quick response and a hearty support. Communications sent to Percy C. Ohl will be duly presented at the next meeting, or information will be cheerfully given by him to those that call.

MASTER HAND WITH THE BANJO.

Classical Music Given on a String Instrument by A. F. Farland.

Those who attended the recital in the Y. M. C. A. Hall last evening were treated to a programme of solo music that has seldom been equaled in this city. The participants were: Rosa J. Stults, soprano; P. Ludwig Conde, violinist; Wilhelm J. Klobus, 'cellist; Richard Menzel, pianist; Alfred A. Farland, banjoist. The programme was made up of a choice selection of noted composers works, and was performed in such a manner as to demonstrate each one an artist on their instrument. The event of the evening was the banjo recital by Mr. Farland. His renditions were entirely different from those usually heard, the selections, with the exception of one, being of a classical order. He rendered nine numbers as published in the programme given in The Press last Monday, and at the close responded to an encore. He plays with an ease that shows him to be a master hand with the banjo, and brings out all the melodious and delicate points of his pieces with a precision characteristic of a close student of music. His rendition of "Travatore," by Verdi, was simply grand, as the hearty applause which he received at the conclusion gave evidence the auditors appreciated.

COMIC OPERA AT CRANFORD.

The Alceæus Society Give a Successful Performance of "Pirates of Penzance."

The second opera presented by the Alceæus Society, of Cranford, of the season of 1895-96, the "Pirates of Penzance," was given last evening at the Opera House before a fashionable and appreciative audience. The cast was as follows:

Richard, a Pirate Chief.....Graham Reed
Samuel, his Lieutenant.....H. R. VanSaun
Frederic, a Pirate Apprentice...J. T. Brennan
Major-General Stanley, of the British Army, William Holmes
Edward, a Sergeant of Police...E. W. Johnson
Mabel, General Stanley's Youngest Daughter, Miss Faith Morse
General Stanley's Daughters,
Edith.....Miss Lucie M. Miller
Kate.....Miss Josie L. Fursman
Isabel.....Miss M. L. Clark
Ruth, a Piratical "Maid of All Work," Mrs. A. F. Olsen
Chorus of General Stanley's Daughters, Pirates, Policemen, etc.

The opera was well presented, a feature being the work of the chorus. J. T. Brennan as Frederic, sang with his usual finished style, and William Holmes, of this city, made a capital Major General and was warmly received. As Mabel, Miss Faith Morse was all that could be desired and sang in excellent taste. E. W. Johnson as the Sergeant, was very droll, and the rest of the cast did themselves credit. The society can well congratulate itself on the success it achieved.

THE OWL CLUB.

It Is Composed of Would-Be After-Dinner Speakers.

After dinner speaking is a great accomplishment, and some of the young men of this city not being old enough to enter society at present, have decided to prepare for the good time coming. There are eight of the young men who have organized under the name of the Owl Club. Last Saturday evening a meeting was held at the home of one of the promoters, and by-laws for the government of the club were drawn up. There will be no regular officers, but the member at whose home the club meets, will act as toastmaster. The meetings, which are to be held regularly, will consist of an informal banquet, to be followed by the speech making. Every member is expected to respond to a toast given them by the toast master. A large horned owl, stuffed and mounted, was presented to the members of the club as a mate for one already in the possession of the club.

—Iona Council, Degree of Pocohontas, will meet this evening, at which time District Deputy Mrs. Holstein will install the officers-elect.

GOTHAM PEDAGOGY.

THE LIFE AND DUTIES OF A NEW YORK SCHOOLTEACHER.

Good Pay, Short Days and Lots of Vacation—Advantages Over Other Occupations—Male Teachers Have Wider Opportunities Than the Women.

Everything taken into consideration, there are few public offices in the city of New York which are more desirable than those within the public school system. From almost every point of view the life of a schoolteacher is a desirable one in this city. The pay is good, the promotion tolerably rapid, the work not onerous, and the hours are better than in almost any other field of labor. About 4,000 teachers are employed in the public school system of New York whose salaries range from $600 to $1,900 a year for women, and from $1,080 to $3,000 for men. But $3,000 is by no means the limit to the financial ambition of a New York schoolteacher. On the part of the men there are several greater prizes within their reach if they have the proper qualifications and can secure the right influence in the board of education. For instance, there is the office of assistant superintendent of public schools, of which there are ten, each drawing a salary of about $4,000 a year. Then there is the superintendent's office itself, with its handsome pay of $7,000, and it has been the goal toward which scores of educators in this and other cities are constantly keeping their eyes. Both the offices of assistant superintendent and superintendent are filled absolutely by the board of education. The assistant superintendent is elected for two years, and, as a matter of practice, has a life position. Then the male teachers can look forward to a promotion to the City college either as an instructor at a salary of $2,500, or a full fledged professor at $4,500.

There are few of the 53 male principals in New York's public schools, however, who do not get more than their salary of $3,000 a year. Almost every one of them gets some little additional pay, as $500 or $800 a year for extra service as an instructor in the evening schools or as clerks of the ward board of school trustees. Some of the principals hold both of these little plums and make a clear $4,000 a year out of the school system. The principals of boys' schools, of course, have their pick in these choice perquisites, but there are so many additional offices to be filled that under male teachers in the public schools come in for a good round share.

The four evening high schools alone give employment to 20 or 30 teachers, each of whom gets anywhere from $3 to $6 a night for the additional work. Then there are some 23 boards of school trustees, each of which has its clerk, who gets pay for the amount of work done, the average mounting up to $400 or $500 a year. Nearly all these clerks are principals of some schools.

In the case of women schoolteachers the chances for earning extras are very limited. The maximum salary she can get is $1,900. She starts into the system with a salary of about $600, which is gradually raised until she becomes the principal of a girl's department of a grammar school.

In order to become a schoolteacher in the public schools of New York it is first necessary to get a recommendation from a member of the board of education. This enables the candidate to try a preliminary examination, which, if he is successful, entitles him to be placed upon the eligible list of teachers. After satisfactory work in this capacity for not more than a year the candidate secures a permanent license as a teacher in New York's public schools, and as such is entitled to teach in any part of the city.

This does not mean necessarily that the teacher will immediately find employment. That depends entirely upon the local board of school trustees. The city is divided into 24 school districts, the schools in each of which are controlled by a school board, who are appointed by the board of education. The boards have the selection of all teachers below the grade of principal, these being appointed by the board of education. As a rule, however, the licensed teacher soon finds an opening and then is in the regular line of promotion.

What has made the school service so attractive to many are the easy hours. Nine-tenths of the salary earners in New York get to work at 8 a. m. and are lucky if they get away by 5 p. m., with half an hour for luncheon. The work of the teacher begins at 9 a. m. and is over, as a rule, by 3 p. m., with an hour for luncheon. Nine-tenths of the salary earners get only 2 weeks out of the 52 in the year for a vacation, and they work 6 days in the week at that. The schoolteachers get a vacation of 13 weeks in 52 and draw full pay during that time. Besides this they work only 5 days in the week and have all holidays. It has been estimated that the schoolteachers of New York work less than 200 of the 365 days in the year.

If a schoolteacher is to rise in the calling, however, the work does not end with school hours. Studies in pedagogy and advanced education must be kept up at home. The work is not so hard, however, or the pay so poor as to induce many to resign. In fact, it has become a saying in the system that "schoolteachers never die and never resign."—New York Tribune.

A Health Palmist.

Mrs. St. Hill is a woman who has made of palmistry something more than a means of amusing an idle crowd or frightening a credulous one. She has studied it with reference to its medical side and has proved the connection between brain and hand. The London hospitals, asylums for idiots and the blind—yes, even Hanwell—all have opened their doors to her. From wax impressions made of the hands of the inmates she has learned that each disease brings its own sign on the hand.—London Letter.

A SUMMER SCENE.

Laden come the maidens home,
With poppies and wild roses,
Singing ditties as they come,
And blushing like their posies.

Crowned is one merry maid
With coronal of poppy;
Nature has with beauty played,
To make a faultless copy.

Laughter gathers in her eye,
Her every movement blushes;
Hark! she mocks a lover's sigh
With songs in birdlike gushes.

Cupid, should he pass her way,
For lack of strength must tarry;
She will steal his bow away
And bid the rogue go marry.
—Charles T. Lusted in Blackwood's Magazine.

OLD MILITARY LORE.

Regulations That Guided Soldiers In the Sixteenth Century.

"The Pathwaie of Martiall Discipline" (1581), by Thomas Stanford, is full of plates and abounds in quaint remarks. Giving the duties of a provost marshal, we find: "He shall according to the lawes punish all offenders without regard or respect of persons, and in the market place shall set up a pair of gallows, both for the terror of the wicked and for execution upon them that offend the lawes. That he shall set upon all victualls brought to the market a reasonable price, that the seller and the buyer may reasonably live by it." In the office of coronel (or colonel—the two terms seem to have been introduced at the same time, but the latter became the favorite), after mentioning his appointing of as many captains as is needful, giving 300 men to a company, "which is a convenient number," for if the men are divided into smaller companies too much money would be spent on the officers. With regard to the lieutenant, he is to be "of great experiences, qualities and behavior." "The coronel shall also examine the selections that the captains have made of all the officers throughout their companies, and if they be such as ought to be, or not much worse he may allow them, and not otherwise."

Before firearms drove out all other weapons it was an object to equalize the strength of the company, "the shot" (as the musketeers came to be called) supplementing the pikes. All the combinations of men for drilling which are given by various authors illustrate this; thus for the defense from horsemen: "Place the ranks of pikes every way, your shot next unto them, your bills (or halberds) and ensign in the midst, the pikes ends couched down the better to resist the enemy."

All kinds of dodges are taught—thus: "If in sight of the enemy, which is superior in numbers, the front rank of pikes shall spread out so as to admit the men of the second rank in the open spaces. But if the enemy manifest a real intention of attacking, and there be no place of refuge near, the second rank shall return to their places, and all shall serrie close together. The shot shall be placed in the voward and rearward so that they may skirmish and retire as occasion serveth."—Gentleman's Magazine.

White House of the Confederacy.

Within a short time the old home of Jefferson Davis in Richmond will be thrown open to the public as a Confederate museum. The "White House of the Confederacy," as it has been called, has been the property of the city for many years and has recently been used as a schoolhouse. A room in the house will be assigned to each of the states that seceded for a collection of relics, and in addition there will be a large room for a general museum and one for a library. The first of the state collections—that of Georgia—has been received. It was presented to the committee by Mr. De Renne on the eighty-sixth birthday of President Davis, June, 1894. Among the relics are the cape, gauntlets and sword of General Lee; the plumes from General Stuart's hat; the spyglasses used by General Beauregard at the battle of Manassas, and the collections from the various soldiers' homes established throughout the south, including the Lee Camp Soldiers' home collection, which contains, in addition to many rare and interesting relics, the skin of Stonewall Jackson's charger. There are also a number of manuscripts and private papers.—New York Tribune.

Shortening the Time.

Friend—Doesn't the journey to and from the country every day seem very long?

Mr. Suburb—Long? It's too short. When I take the train in the morning, I know I've got to pinch in and work like a horse the moment the train reaches the city. That makes the journey seem too short, doesn't it?

"I presume it does. But how about the journey back?"

"Well, I always remember after I start that I've forgotten something my wife wanted particularly, so that ride is always over too soon."—Pearson's Weekly.

Not So Awfully Superior.

Paleface—Why don't you get a civilized name for yourself, now that you have become a civilized Indian?

Noble Red Man—Ugh! What your name?

Paleface—My name is Iglehart.

Noble Red Man (with crushing sarcasm)—Ugh! Iglehart! Heap good! Injun's name Eagle Heart! Heap bad!—Chicago Tribune.

Prayer has a right to the word "ineffable." It is an hour of outpourings which words cannot express—of that interior speech which we do not articulate, even when we employ it.—Mme. Swetchine.

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

GOVERNOR'S MESSAGE.

Gentlemen of the Senate and General Assembly:

In compliance with the constitutional requirement I herewith submit to your honorable bodies my third annual message.

Finances.

The statement of the financial condition of the state presents a most gratifying exhibit. By the report of the comptroller it appears that the receipts of the state, from all sources, for the fiscal year ending Oct. 31, 1895, were as follows:

From state tax on railroad corporations	$1,103,956 92
From tax on miscellaneous corporations	698,342 39
From collateral inheritance tax	121,339 32
From official fees	142,751 05
From state prison receipts	52,702 64
From loans to sinking fund	40,000 00
From judicial fees	31,548 47
From dividends	18,870 00
From commissions	1,955 45
From dairy protection	1,450 00
From state house expenses	1,219 71
From discharged convicts	588 50
From geological survey	400 00
From state board of health	297 55
From fish and game	258 90
From court expenses	223 30
From assessments on private acts	100 00
From revised statutes	27 50
	$2,175,931 83
Add balance in bank Nov. 1, 1894	$986,855 91
Grand total	$3,162,787 74
The disbursements for the fiscal year ending Oct. 31, 1895, were	2,269,039 86
Leaving a balance on hand Oct. 31, 1895	$893,747 88

The balance thus shown is $93,108.03 less than that appearing at the end of the fiscal year, Oct. 31, 1894.

That is due, however, to sundry extraordinary payments during the year, notably the sum of $139,590.23 for the Paterson armory and $75,295.26 on account of the Jersey City armory. Deducting the extraordinary expenses referred to, the balance of 1895 would largely exceed that of 1894. The items making up the sum total of the disbursements are too numerous to be herein inserted. They are fully detailed in the reports of the comptroller and state treasurer, whereto I respectfully refer your honorable bodies for more specific information, if desired.

There is no occasion (as there has not been for several years) of the imposition of a tax for any state purpose.

There is no floating debt, and the state is, to all intents, out of debt.

There is in the sinking fund $413,711.40 of available assets. The state also owns 1,887 shares of stock of the joint companies, worth at this date not less than $450,000, making, with the sinking fund, a total of $863,711.40.

There are still outstanding war bonds of the state amounting to $660,400. These bonds fall due as follows:

1896, Jan. 1	$67,000
1897, Jan. 1	199,400
1898, Jan. 1	200,000
1899, Jan. 1	123,000
1902, Jan. 1	71,000
	$660,400
There are also outstanding unpresented coupons for interest due on bonds	$1,005
	$661,405

Thus showing an excess of $202,306.40 of assets over all liabilities.

The comptroller has prepared an estimate of receipts and disbursements for the current fiscal year, ending Oct. 31, 1896. He estimates the total receipts for the current year, including the balance of $893,747.68 above shown, at $2,965,117.88. This estimate is undoubtedly a conservative one. The estimate of disbursements is based upon chapter 434 of the laws of 1895, known as the "appropriation bill," and amounts to $1,993,539.38, leaving a balance on hand Oct. 31, 1896, of $971,588.56.

The estimate of disbursements for the current fiscal year also includes several items of extraordinary expenditures, such as $100,000 for the addition to the state prison, $50,000 for an additional building at the Morris Plains hospital, and $50,000 for the projected state reformatory.

With this financial statement before your honorable bodies you may be able to determine to what extent existing appropriations may be increased or new ones provided.

New Jersey, with no tax for state purposes and practically out of debt, is unique among her sister states. No such showing can be made by any other state, nor, I apprehend, by any civilized nation anywhere.

Good Roads.

The report of the state commissioner of public roads is an interesting and instructive document. The advantages, pecuniarily and everywise, of roadways "firm, smooth and convenient for travel at all seasons of the year" are therein clearly set forth. The wisdom of the legislation providing for state aid in the construction of roads has passed beyond the stage of discussion. Experience has decided the question affirmatively. Many stone roads have already been constructed throughout the state, and many more are in process of construction or contemplated. The commissioner states that "the roads applied for and waiting state aid, besides those that have been approved, amount in the aggregate to about 130 miles, that will require several years before the present yearly appropriation will reach them." The annual state appropriation for roads was increased last year from $75,000 to $100,000. The increased amount is evidently entirely inadequate. Your honorable bodies should therefore determine whether the appropriation shall be increased, and, if so, to what extent.

Hitherto "road improvement" has been in the direction of stone roads. But, as the commissioner remarks, "all progress should be along the best lines," and he therefore directs attention to the fact that "some of the best authorities predict the coming highways will be of steel." He suggests that it would be well for New Jersey, as she did in stone roads, to also "take the lead in inaugurating a system of state steel roads and thus ascertain by actual experience whether it is the most efficient and economical highway."

The average cost of a macadam roadbed 16 feet wide is put at about $7,000 per mile; the cost of a double track steel railroad 16 feet wide, filled in between with broken stone, macadam size, at about $6,000 per mile. The cost of a rural one track road is about $2,000 per mile. By steel roads is to be understood the use of steel rails laid along the highways and used for all purposes of transportation and carriage, as ordinary highways now are.

The rails, according to the report of the commissioner, should be made of steel, the thickness of ordinary boiler plate, gutter shaped, five inches wide, with a square, perpendicular shoulder half an inch high and then an angle of one inch outward slightly raised, thus forming a conduit for the water and rendering it easy for the wheels to enter or leave the track.

There are many other suggestions and recommendations of the report worthy of your consideration. I respectfully direct your attention to the suggestion that the commissioner of public roads be paid a fixed salary instead of a per diem allowance.

State Board of Health.

The report of this department deals apparently with every possible phase of the public health. Without dwelling specifically on any part of the report I will simply direct your attention to the various subjects treated therein and to which you can refer if information concerning the same is desired.

The Labor Bureau.

The chief of the department reports that he is somewhat hampered in the making of his report by the law requiring it to be made up Oct. 31 instead of December, as heretofore. The report, however, includes a large amount of information, statistical and otherwise, on various subjects, including returns from the building and loan associations of the state. The report is so voluminous that it cannot here be dealt with in detail. Such matters, if any, as require legislative action will be brought to your attention in the shape of bills to be presented or suggestions made to your appropriate committees.

Dairy Commission.

Prior to June 15, 1895, the law required the dairy commissioner to present his report in January, the report being made up to the 31st day of the preceding December. By chapter 443 of the laws of 1895, approved June 15, 1895, before mentioned, all reports to the governor or legislature are to be made as of the 31st day of October. The report of the commissioner is therefore, he states, "an incomplete report for the period of ten months comprised within this new legal year. Part of the work which had been planned could not be undertaken, but will be reserved for next year."

By chapter 418 of the laws of 1895 it is enacted that the sum thereafter annually appropriated to and for the dairy commission shall be expended by the commissioner in the enforcement of the several laws regulating the sale of milk, butterine, oleomargarine, food and drugs. The amount appropriated by the appropriation bill subsequently passed was $9,000, which sum the commissioner is "constrained to say is inadequate to conduct the business of the department in such a manner as the rapidly increasing demands of the public and the growing importance of the work urgently require."

The duties imposed upon the dairy commissioner are important and vitally affect the health and comfort of the entire state. The department should not be crippled by the withholding of the necessary appropriation.

State Board of Assessors.

This board is the great revenue producing department of the state. Through this agency the tax on railroad and canal companies and miscellaneous corporations is determined and levied. By far the larger proportion of the income of the state is derived from those two sources.

According to the report of the state board of assessors, the total assessed valuation of the properties of the railroad and canal corporations of the state is $221,576,221. The valuation of each railroad system and of railroads not classified is detailed in the report.

This department also complains of the impossibility of presenting a full and complete report as of Oct. 31, 1895.

State Board of Taxation.

It is among the duties of the state board of taxation "to investigate the methods adopted by local assessors in the assessment of real and personal property in this state, to carefully examine all cases where evasion of proper taxation is alleged and to ascertain where existing tax laws are defective or are improperly or negligently administered, particularly specifying any means, practices or devices for the evasion of proper taxation, and annually to submit such recommendations as it may find necessary to prevent the evasion of just and equal taxation." (Laws of 1891, chapter 114, section 12.)

The report for the year 1895 is voluminous and a very interesting and instructive document. The subject of taxation is treated in an intelligent and comprehensive manner. Much valuable information has been collected, and many salutary and sensible suggestions are embodied in the report.

The board recommends legislation to remedy the indefiniteness now existing as to interest upon unpaid taxes and the complications therefrom resulting.

Factories and Workshops.

The chief inspector reports the affairs of his department in a satisfactory condition. The laws governing the employment of children and all other laws relating to matters within his department are generally observed and complied with.

The inspector calls attention to the very great improvement in sanitary appliances, guarding machinery, ventilation, etc., in the factories of the state at the present time compared with their condition when his department was created. He asserts that we now have in New Jersey "factories that for the convenience, health and comfort of the operatives surpass the very best factories in any part of the world."

By chapter 52, laws of 1894, the office of commissioner of mines was abolished, and by chapter 54, laws of 1894, the duties theretofore exercised by that official were devolved upon the inspector of factories and workshops. A statement of mines inspected and duties performed under the act last mentioned is appended to the report of the chief inspector.

State Board of Arbitration.

This board, as now existing, was constituted by chapter 341, laws of 1895. It consists of five members, one of whom is designated as secretary. The annual salary of the members of the board is $1,200 in lieu of all fees, per diem compensation and mileage, with an additional allowance of $200 to the secretary.

The board reports that it finds itself seriously hampered by the restrictions surrounding it. The annual salary of $1,200 is in lieu of all mileage, etc. The report recites that the salary was fixed at that sum because in "the opinion of those instrumental in framing and passing the new law the commissioners would be entitled to free transportation over the railroads of the state." This, they say, "has been discovered to be an erroneous impression." The result is "the commissioners have to pay all their traveling and other expenses, so that every day's service in the interest of the state means so much expense individually." They call attention to the fact "that by remaining inactive the commissioners may draw their salaries and suffer no loss, but the moment that they move here and there they have to make disbursements for which the state does not recoup them." This, they say, "seems like putting a premium on negligence and inattention."

The board complains of lack of power to enforce its authority, by compelling the attendance and testimony of witnesses or "to engage experts to inquire and report in relation to particular trades or industries."

As a result the conclusion is reached that "as the law stands now the board is rather ornamental than useful." It remains for your honorable bodies to determine whether it shall be made useful rather than ornamental.

The Palisades.

In my second annual message I directed attention to the fact that the Palisades were being despoiled and threatened with practical destruction. I therefore suggested the passage of two acts which would limit if not prevent the destructive work. One of those proposed acts is now chapter 28 of the laws of 1895. The other was embodied in senate bill No. 6, but failed of final passage. It seems incredible that opposition should be offered to any practically effective plan or scheme for preserving this grand, unequaled natural wonder. Situated almost entirely within the state of New Jersey, it should be our pride to preserve it in its original character. I would therefore repeat the suggestions and recommendations of my former message on this subject and request your consideration thereof. But as they may be deemed ineffectual or impracticable I respectfully direct your attention to the joint action of this state and the state of New York in the premises. The state of New York, realizing the desirability of preserving the Palisades intact, passed an act (laws of New York, 1895, chapter 97) providing for the appointment of three commissioners from that state to meet and confer with a like commission from the state of New Jersey, "for the purpose of adopting such means as may be deemed expedient and necessary in the view and for the object of securing action by the government of the United States for the acquisition of that part of the west shore of the Hudson river within the states of New York and New Jersey known as the Palisades of the Hudson, to be set apart as a reservation or for the purpose of fortification."

The action of the New York legislature was responded to by that of our state in the enactment of chapter 415 of the laws of 1895. Under the act last mentioned Hon. Henry D. Winton, General Edward P. Meany and Hon. Charles B. Thurston were appointed commissioners on behalf of this state. They met the commissioners from New York and organized a joint commission, with Mr. Winton as president and Mr. Waldo G. Morse of New York as secretary and treasurer. The report of the commission has been submitted, detailing their proceedings and stating their conclusion. The conclusion is that the United States should acquire and hold the Palisades, and to that end they append to their report drafts of proposed laws to be passed respectively by congress and the legislatures of the two states.

The commissioners state that they desire to continue the work in which they are engaged and to present before congress at the present session the proposition which they have outlined in their report.

Should your honorable bodies think favorably of the proposition of the commission that the federal government acquire and hold the Palisades it will be wise to continue the commission as suggested. If the preservation of the Palisades cannot be effected by New Jersey alone or conjointly with New York, the effort to interest the federal authority should be made and vigorously pressed. To that end I suggest the propriety of the passage of a concurrent resolution by your honorable bodies requesting our senators and representatives in congress to aid the necessary legislation by all legitimate means within their power.

Revision of Corporation Laws.

The legislature of 1895 passed an act providing that three persons therein named should be commissioners "to revise and codify the act concerning corporations (revision) approved April 7, 1875, and the several subsequent acts supplementary thereto and amendatory thereof and to incorporate such amendments as they may deem wise and necessary to perfect the system of general corporation laws of this state" and report to the present legislature on the first day of its session.

This commission was charged with an important duty and is, I understand, prepared to submit its report to your honorable bodies.

Commissioners For the Promotion of Uniformity of Legislation In the United States.

By chapter 225, laws of 1895, it was provided that three persons should be appointed a commission "to examine the subject of marriage and of divorce, insolvency, insurance, the form of notarial certificates and other subjects, to ascertain the best means to effect an assimilation and uniformity in the laws of the state and especially to consider whether it will be wise and practicable for the state of New Jersey to invite the other states to send representatives to a convention to draft uniform laws to be submitted for the approval and adoption of the several states," etc., and to report to the senate at its session (1896) "an account of its transactions and its advice and recommendations."

I am not informed what action has been taken by the commission, nor whether it is prepared to report to the senate.

General Statutes of New Jersey.

By chapter 41, laws of 1894, the state treasurer was directed "to subscribe for 1,000 sets of the public acts of this state, * * * which work shall contain all the public acts of the legislature of this state now contained in the 'Revision of the Statutes of New Jersey,' published in the year 1877, and in the supplement to said revision published in the year 1887 and the session laws passed or that shall be passed by the legislature of this state between the 1st day of January, 1887, and the close of the legislative session of the year 1894 which are general and permanent in their nature, and which shall be found in force at the end of the present (1894) legislative session, together with abstracts from the public decisions of the courts of this state expounding or construing the same."

The work referred to is to be published by legislative authority and to be entitled "General Statutes of New Jersey."

By chapter 203, laws of 1895, the proposed work is to contain all the public acts contained in the revision and supplement and those passed between the 1st day of January, 1887, and the close of the legislative session of the year 1895. I am not advised officially as to the status of the work in question, but have learned otherwise that it is about completed.

Surrender of Special Tax Provisions by Central Railroad Company of New Jersey.

In my second annual message I directed the attention of the legislative bodies to the fact that the charter of the Central Railroad company of New Jersey contains a provision that said company "shall on the first Monday in January of each and every year pay to the treasurer of this state a tax of one-half of 1 per centum upon the cost of said road as shown by the annual report of such cost made the year preceding the said first Monday of January in which such payments as aforesaid shall be made, provided that no other tax or impost shall be levied or assessed upon the said company."

Also, that the company's charter contained a provision that at any time after the expiration of 50 years from the completion of the said road the legislature might cause an appraisement of the said road and appendages to be made, and thereupon the state should have the privilege for three years of taking the said road upon payment to the company of the amount of said report within one year after electing to take said road, etc.

The history of the litigation to compel the different railroad companies of the state to pay taxes upon a fairer and more equitable basis than under their special charter provisions was given in my said message and need not be repeated here.

Railroad and canal companies are now taxed under the laws of 1884 (chapter 101), entitled "An act for the taxation of railroad and canal property," as amended by chapter 208, laws of 1888.

The legislature expressed no opinion of disapproval or otherwise of my proposed action in the premises. I therefore permitted the surrender to be made, and the proper instrument to that effect, approved by the attorney general and assented to by the executive on the 25th day of June, 1895, was duly filed in the office of the secretary of state on the last mentioned date. The Central Railroad company has thus surrendered its claim to special taxation under its charter provision, and the state has surrendered its right to purchase, take or acquire the property of that corporation.

The State Library.

The state library is becoming yearly more valuable and more appreciated. Its legal and miscellaneous works comprise the best and most useful of their respective classes.

The whole number of books, pamphlets, etc., at the close of the fiscal year (Oct. 31, 1894) was 43,388, but at the request of the superintendent of documents at Washington, 445 duplicate United States documents were subsequently returned to him, thus reducing the actual number of books, etc., to 42,943.

At the close of the fiscal year, Oct. 31, 1895, the whole number of books, documents, etc., was 45,265, an actual increase of 2,322. This extraordinary increase was accomplished without exceeding the annual appropriation of $3,000.

At the Columbian exposition, one of the New Jersey educational exhibits was a large number of books written by citizens of New Jersey. That exhibit has by Mrs. W. A. Roebling of Trenton, and Mrs. M. T. Yardley of Orange, a committee of the New Jersey commissioners, been deposited in the state library. A separate revolving bookcase has been devoted to them. These books are not intended for public use, except through permission of the commissioners. A catalogue of the books, alphabetically arranged according to authors, will be found in appendix No. 2, appended to the report of Morris R. Hamilton, state librarian.

Proposed Amendments to the State Constitution.

Certain amendments to the state constitution proposed and agreed to by the legislature of 1895 are awaiting your action. The amendments would effect quite radical changes in our present constitution and deserve your serious consideration. They are on file in the office of the secretary of state.

The proposed amendments have been published or advertised, as required by the constitution. Should any of them be agreed to by your honorable bodies, it will then devolve upon you to pass a law submitting the same to the people for adoption or rejection at a special election.

In view of the frequent complaints that the law requiring all state reports to be made up as of Oct. 31 works prejudicially in many instances, I suggest that legislation be enacted providing a remedy in the respects complained of and reconciling the time for the presentation of such reports with the necessities and convenience of the several departments.

I also call your attention to the absence of appropriations for the compensation of the state board of canvassers, the members of the electoral college and for pay of the national guard in case it be called into service to preserve the peace or suppress violence or riot.

In the case of the state board of canvassers which canvassed the returns of the late gubernatorial election the members thereof received no compensation, because of lack of appropriation therefor. Each member, however, was furnished by the comptroller with a certificate of the amount of his compensation on the basis theretofore alllowed, which amount should be added to the appropriations for the current fiscal year. The electors to cast the vote of this state for president and vice president will have performed that duty before the assembling of the legislature of 1897. Their compensation, if compensation is allowed them, should therefore be provided for during your present session.

Existing laws and the constitutional requirement that the executive "shall take care that the laws be faithfully executed" furnish sufficient authority for calling the militia into service when required, but no provision exists under which the treasurer and comptroller would feel justified in paying for such active service. A fund contingent should therefore be provided, whereunto recourse can be had to meet this and other necessities liable to arise.

In my preceding messages I have dealt with the question of public parks and reservations, railroad crossings of highways at grade and a public water supply. I do not propose herein to advert to those subjects further than to ask your attention to the recommendaions and suggestions thereon contained in those prior communications.

Although no tax for state purposes is imposed upon the citizen, local taxation is everywhere too high and in many localities oppressive. The inequalities between corporate and personal taxation and the large exemptions from all taxation increase these burdens. A total or even partial abolition of such inequalities and exemptions would greatly ameliorate the conditions of now overtaxed communities.

I cannot forbear in closing this my last annual message to acknowledge the kind consideration which throughout my term has been extended the executive by the legislative and other state departments. This is the more gratifying inasmuch as in many instances we have not been in political accord and a period of exceptional difficulty has existed for the discharge of executive functions.

I invoke the continued favor of Divine Providence upon our state and people and retire from official station with the fervent hope that peace, happiness and prosperity may attend us in the years to come in even greater measure than in the years gone by.

The committee on credentials was appointed as follows: John O. Totten, William Smart and John Love. The committee on rules was selected as follows: J. W. Beach, W. H. Everett and W. G. Shields. A recess of ten minutes was taken in which the committee examined the credentials and declared that fifty-seven duly appointed delegates were present, besides a number of visitors. The committee on rules next reported and the rules were adopted. The minutes of the last meeting were then read. President Sullivan made an address in which he recommended several things for the good of the trade Secretary Hendrie read his report and the address and report was referred to a committee composed of J. G. Patton, J. E. Banks and John Love, for consideration. The reports of the financial secretary, W. W. Gilly, of Westfield, and the treasurer, P. S. Atkinson, of New Brunswick, were read showing a balance of $253.15 in the treasury. The were referred to a committee of M. B. Strait, James Newton Meyers and P. S. VanAnglew.

The election of officers was next begun and Wm. Smart, Jas. E. Banks, E. H. Toms and W. H. Lawrence were appointed tellers. After the election of the present incumbent, James P. Sullivan, as president, the meeting adjourned until two o'clock for lunch.

The Central avenue Euchre Club was entertained at the home of R. M. Stelle last evening. The first and second ladies' prizes were awarded Mrs. J. Parker Mason and Mrs. Alexander Gilbert, while Samuel McCutchen and James Leonard secured the gentlemen's prizes. The consolation prize was secured by Irving Brown. The playing throughout was excellent and all thoroughly enjoyed themselves.

Not Positive About Identification.

Henry Haurand, who accompanied Chief Grant to New York yesterday to see if he could identify any of the bank robbers now held, said this morning that he thought he recognized one of the men as one who was in his place previous to the First National Bank robbery, though there was a slight change in the appearance of his face.

Bishop Vincent Coming.

Plainfielders will again have a chance to hear their old fellow resident, Bishop John H. Vincent, on Sunday. In the morning he will preach at the First M. E. church and in the evening, he will occupy the pulpit of the Monroe Avenue chapel.

—The large attendance at the union services in the Methodist church the last two evenings may lead some to fear that there will not be room for all who may wish to attend. Let no one stay away on this account, as arrangements have been made for an overflow meeting in Vincent chapel. There will be singing, preaching, etc., as in the regular meeting.

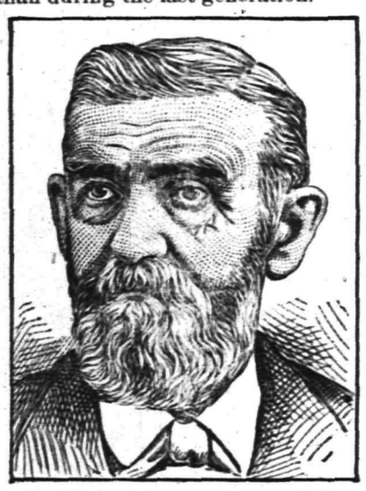
Paine's Celery Compound Has Never Failed to Cure

From childhood to old age health is very much a matter of sound, refreshing sleep.

No one can digest well, work well, feel well, or be well, who is night after night deprived of good sleep. It is physically impossible for any brain to keep on providing nervous energy unless the nights are devoted to nourishing its used-up parts. Protracted sleeplessness, where no effort is made to feed and calm the irritable nervous system, ends in nervous prostration and insanity.

Today there are far more neuralgic headaches, far more rheumatism, sleeplessness and nervous prostration than during the last generation.



To combat this growing evil, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth College, made nervous diseases his special study. The fruitful outcome of his long years of professional investigation was Paine's celery compound. Difficult nervous disorders that had persisted despite long treatment, at once yielded to it. Men and women who had suffered for years from broken and unrefreshing sleep, from headaches, rheumatism and neuralgia, found that Paine's celery compound not only speedily cured these troubles, but that they worked better and felt more encouraged than had been possible to them for years.

As a practical instance of what this remarkable remedy is doing all over the country, the following from Rev. Wm. A. Smith, one of the best known divines in Southern New England, deserves careful reading. Dr. Smith is today 86 years of age, yet enjoys better health than ever in his life, and never loses a single good night's sleep. He writes:

GROTON, CONN.

"Dear Sirs—In my early days, by great and prolonged mental suffering, I broke down in health and became a dyspeptic, being obliged at one time to give up my work in the ministry on account of ill health. I am now 86 years of age, and during my long life have suffered greatly from dyspepsia, torpid liver, constipation and insomnia, at times thinking that I should die for want of balmy sleep, and it is a wonder to me that I am alive today with all that I have been through. I am a wonder to myself, and to those who witness my habits and know my age. I tell them that I try to obey the laws of nature, and that I take Paine's celery compound whenever I need it.

By the use of several bottles of Paine's celery compound, I have so far recovered my health as to consider myself a well man for my age. It regulates the liver, stomach and bowels, without any question. My appetite is now good, my sleep is refreshing, my liver active, and bowels regular, and my crutches not needed, as I can walk without a staff. People are surprised at my improved appearance and activity. Gratefully yours.

Wm. A. Smith.

Paine's celery compound does not stop its restoring work till new, healthy tissues have taken the place of the old, shattered portions. There is not the deepest, most minute portion of the body, whether it be nerve or brain, or some vital organ, that escapes the rejuvenating, strengthening power of Paine's celery compound. In cases of severe neuralgia, rheumatism, heart palpitations, dyspepsia and nervous feebleness, Paine's celery compound is the only remedy that goes to the root of the trouble, fortifies the weakened system against these disorders and builds up a strong, healthy body.

FOR A COMRADE'S DEATH

SOMERSET COUNTY HAS ANOTHER MURDER TRIAL IN ITS COURTS.

This Time it is a Thirteen-Year-Old Boy Who is Charged With Shooting a Young Friend Through the Back.

The trial of Clinton Jackson, the 13-year old colored boy, charged with the murder of Florence Sullivan, began this morning before Judge Magie in the Somerset County Court of Oyer and Terminer. Prosecutor Nelson Y. Dungan, who has just finished the Johnson murder trial, will represent the people, and George W. Anderson will defend.

The story of the murder, which so shocked Somerville last Christmas morning, is as follows:

About ten months ago Paul Beardsley, a prosperous farmer, living near Millstone, received from the Colored Orphans' Home in New York city Clinton Jackson, a thirteen year old colored lad. Jackson was strong and made a good farm boy, but had a quick temper and was quarrelsome. Ten weeks ago Florence Sullivan, a white boy, about 18 years of age, went to work on Mr. Beardsley's farm. There was constant quarreling between the boys, and before Sullivan had been on the farm two weeks Jackson threatened to stab him.

On December 13th, Douthard Mattison, Mr. Beardsley's farmer, saw Jackson and Sullivan shooting at a target with a revolver back of the barn. On December 24th, Asa Hoagland, a neighbor, saw Jackson with a revolver.

The day before Christmas Mr. Beardsley, leaving the two boys together at home, went to town. When he returned young Jackson came running out to the gate, breathless and trembling, and annonnced that Sullivan was lying in the stable with his head against the bars between two of the stalls and that something must be the matter with him. Beardsley found Sullivan dead, with the body still warm, and blood oozing from an ugly wound in the left breast.

County Physician Wagoner, of Somerville held an autopsy and found that a bullet had passed through Sullivan's heart and left lung, causing instantaneous death. He immediately had a warrant issued for the arrest of young Jackson, but no weapon could be found.

Jackson declared that he had found Sullivan lying there dead. They took him to the County Jail in Somerville, and on the way he said that they would find the revolver in the stable under the manger, near where the body lay. They returned and found it just where the boy had said. All the chambers were empty, except one, which contained a blank cartridge. It was identified as a revolver stolen from a dressing room at a ball held at Millstone a week previous.

A Ministers Death.

Rev. Samuel Kellogg, of Mt. Pleasant, died at his home Tuesday. The funeral services will be at his late residence on Friday afternoon at two o'clock. He was eighty-seven years old. His granddaughter, Miss Carrie Kellogg, is well known in this city, having graduated from the High School in 1894.

A Generous Man, Indeed.

A wealthy and generous father of the Third ward presented his family last evening with Cleveland and Crescent wheels amounting to $790. They were purchased of the F. L. C. Martin Cycle Co. This is undoubtedly the largest bicycle sale ever made in this city to one party.

Tony Was Hurt.

"Tony," a bartender for Charles Smith received a severe cut in his hand yesterday while playing with Oscar Smith. The latter had a small knife, and carelessly had the blade exposed, causing the accident. "Tony" is unable to use his hand yet, though no serious results are anticipated.

I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." EXTENSION LECTURES RESUMED.

Dr. Riggs Talks Particularly of the City of Constantinople.

The University extension lectures on the Eastern Question, by Dr. James F. Riggs, of New Brunswick, were resumed Tuesday night after an interval of several weeks during the holiday season. The lecture was delivered as usual in the parlors of the Crescent Avenue Presbyterian church, and was listened to by a large and attentive audience. The subject was "Constantinople," and the interest of the lecture was increased by a large map of the city upon which Dr. Riggs pointed out the places of importance as he described the unique eastern city.

In the six colleges which surround the mosque of Sultan Achmet, there are being educated the young men who in a few years will be the Mohammedan leaders. Constantinople has had an interesting history. Constantine, the first Christian Emperor of Rome, removed the seat of empire from Rome, with its old pagan civilization, to the city of Byzantium, beside the Bosphorus, thus cutting loose from old ideas. He was succeeded by Theodosius, then by Justinian, who was the builder of St. Sophia. He desired to out-do Solomon, and spent the revenues of his kingdom for several years in decorating the beautiful church. It is built in the shape of a Greek cross, 241 by 224 feet. It has been greatly disfigured by the Mohammedans who have added four ugly little minarets.

In 1075 Jerusalem was taken by the Selyook Turks and the Christian pilgrims from Europe were abused from that time on. The greatest excitement reigned in Europe, and the result was the Crusades. The story of the fourth crusade concerns the history of Constantinople. Through the machinations of Dandolo, Doge of Venice, the crusaders turned aside from their original goal and sailed against Constantinople, finally carrying it by assault and setting up what was called the "Latin Empire of Constantinople." In 1261 the Greek line was restored, but the mischief already wrought was fatal; it was impossible to restore the old vitality or unity. And now the Turkish armies were drawing nearer and nearer the fated city, cut off as it was from the rest of the Christian world. The Turks had much greater resources. The city was taken by regular siege by Mohammed II in 1453. From that date it has been the capital of the Turkish or Ottoman Empire.

Constantine, the last Greek Emperor, died like a soldier in the breach. Though the city as a whole became Mohammedan, Mohammed allowed the Christians to retain some of their churches and to pursue their occupations undisturbed.

CLERKS EAT TURKEY.

Mr. and Mrs. Harry Connett Entertain the Freight House Clerks.

Mr. and Mrs. Harry Connett handsomely entertained the clerks and employes of the freight depot to a turkey supper last night at their residence, 303 East Fifth street. Mrs. Connett was assisted by Mrs. T. R. Armour, Miss Cornell and Miss Connett. Covers were laid for ten, but the genial face of Mac was sadly missed. His absence can only be accounted for by his bashful and retiring disposition. Charlie Summers was too feeble to go. Among those present were: Messrs. George Smith, John Ackerman, Robert Wood, Henry Ryno, Joel P. Ryno, James Buckley and T. Hanna. After spending a very pleasant evening Harry's fellow-employes left with the best of mutual good feeling existing.

Marriage of Miss Dimock to Mr. Dudley.

Cards have been issued by Dr. and Mrs. Alonzo Pettit, of Elizabeth, announcing the marriage of their sister, Miss Juliet Elizabeth Dimock to John Mason Dudley, on Saturday, January 11th. Miss Dimock is well known as the editor of one of the popular helps for Sunday-schools, used in the primary departments, and many in this city remember her effective and instructive talks before Sunday-school conventions. When in her trip around the world she introduced the different nations in costume, and won the interest of her audience for the world's evangelization.

BISHOP VINCENT'S WORK

THE FAMOUS DIVINE WAS ONCE A RESIDENT OF THIS CITY.

He Comes Next Sunday and Will Occupy Pulpits in Two of the Local Churches—He Will Receive a Warm Greeting.

The older residents of Plainfield will remember when that leading divine, Bishop John H. Vincent, was living in Plainfield. On Sunday he returns to the city that was his home for twenty-one years, and will preach in the First M. E. church where he labored so hard and so faithfully while a resident of this city.

The Bishop, then Rev. John H. Vincent, D. D., came to Plainfield in 1867 from Chicago, having just been elected head of the Sunday-school department of the Methodist church. Here he lived on the corner of West Fifth street and Arlington avenue, then called Union street, across Arlington avenue from the High School, until his election to the office of bishop necessiated his removal to Buffalo. His present official residence is at Topeka, Kansas.

While in Plainfield Bishop Vincent was a great feature in the churce life of Plainfield and did more than anyone else toward bringing about the feeling of unity and friendship between the different churches. He was one of the organizers of the minister's association which so aids that spirit at present, and also arranged union meetings of Sunday-school teachers. Bishop Vincent was instrumental in the formation of the international Sunday-school lessons and is president of the committee that selected them. In 1888, he was elected one of the sixteen bishops of the Methodist church.

While residing in Plainfield he started the Chautauqua movement that resulted in the organization of the Chautauqua Literary and Scientific Circle which is so widely known all over the country at the preseut day. He also started a branch of the same society in Plainfield. For four years he served very efficiently on the Board of Education.

He now comes from Cambridge, Mass., where he has been preaching at Harvard University for the past six weeks, being one of the six leading preachers who share the pastorate together of that ancient institution. His son, George E. Vincent, graduated from the Plainfield High School in 1880, at the same time as Ernest R. Ackerman, Winfield S. Angleman, Franklin S. Smith and twelve others, and is now professor of sociology at the University of Chicago.

Sunday morning, Bishop Vincent will preach in the First M. E. church in the morning and at Monroe Avenue chapel in the evening. The Monroe Avenue chapel can be reached by the trolley cars as it is directly along the line.

A PLAINFIELD ARTIST.

Mr. Edwards a Designer of More Than Ordinary Ability.

The Rochester Union and Advertiser recently published the following about George Wharton Edwards, the artist, who makes his home in this city:

Among the well-known illustrators who have turned their attention to the development of the poster may be prominently mentioned George Wharton Edwards, of New York city. Mr. Edwards is not only an illustrator of note, a painter of wide reputation, a poster designer of classic beauty, but he is also an author of more than ordinary talents. In this cosmopolitan taste of art he is not unlike F. Hopkinson Smith. Mr. Edwards' dainty "Thumb Nail Sketches," his "Rivalries of Long and Short Codiac," and other short stories are favorably known to all lovers of good literature. The diminutive sketches that accompany the text are as delightful as the stories themselves. As a painter Mr. Edwards is among the first of our American artists, and his canvases at the exhibitions in New York have always been a feature. Mr. Edwards does not hold the poster in disdain, as do so many of his brother illustrators and painters. He recognizes in the poster the essential elements that go to make beauty and originality. He commends it for the purpose which it serves. He thinks that it has a most promising future. Mr. Edwards has contributed posters to the Century Magazine; and they are among those highly valued by collectors. They are remarkable for their pleasing color-effects and the decorative beauty of the designs. He possesess the decorative sense in an unusual degree, and his lines are always graceful and full of beauty.

MEN OF TWINE AND BAGS

CLOSING SESSION OF THE RETAIL MERCHANTS ASSOCIATION.

Officers and Committees for the Ensuing Year—A Banquet Ended the Convention—Toast Given by Mayor Alex. Gilbert.

The afternoon session of the Retail Merchants' Association of New Jersey was called to order promptly at 2 30 o'clock yesterday by President James P. Sullivan.

The first order of business was that of electing the remaining officers of the association, which resulted as follows: First vice-president, W. Wilkie, Harrison; second vice-president, J. A. Smith, Plainfield; recording secretary, John C. Hendrie, Paterson; financial secretary, W. W. Gilby, Westfield; treasurer, P. S. Atkinson, New Brunswick.

After the election of Mr. Hendrie, the Paterson delegation presented him with a large box, which he was requested to open. Upon doing so he discovered a large handsomely decorated "Tea" gown, a bouquet of flowers and a small box of choice nuts and fruit. The former artice was presented by the ladies of Paterson, in view of the fact that the popular Secretary had failed to bring one with him. Mr. Hendrie responded in a very happy manner.

The committee, composed of J. G. Paton, J. E. Banks and John Love, to whom the President's message and Secretary report were referred, then reported. They recommended that the one cent postage be adopted and that opposition be made to the proposed law now before Congress to reduce the rates of postage on packages, also that an effort be made to secure cheaper telephone rates, and that the proper committee be authorized to settle all difficulty with the printer in regard to the "Black List." The above were all concurred in by the members and adopted.

Then came the battle of the convention, namely the recommendation that the sale of the Lily brand of condensed milk be pushed by the State Association. It appears that some time ago the merchants were handling the Lily brand as manufactured by a man named Doyle. An effort was made on the part of the Hudson County Association to secure a reduction in the price, which they failed to do. In the meantime the association made a contract with a Maine concern for the supply of milk, the same to be called the Lily brand.

Meanwhile Doyle had his brand registered, which would apparently prevent the Hudson people from using a brand by that name. Owing to a misunderstanding the Paterson Association took up the Doyle milk and have been selling it ever since, causing a difference between the associations which was far from pleasant. The matter was discussed pro and con yesterday afternoon for two and one-half hours, and was finally settled by the Paterson association voluntarily agreeing to concede all rights and give up the milk to the State association at the same figure for which it was being purchased. The reports of the local associations were not read, but handed to the Secretary, who will have them printed with the minutes. The legislation, insurance, trades interests, transportation and executive committees all made brief reports. There was, however, nothing of any great importance brought out in the statements. The advisability of the association placing several special brands of goods on the market was discussed, and all thought it an excellent plan.

The secretary read a letter from the National association, in which the latter urged the State association to join with them. There was no action taken, however, in the matter. The matter of the association's indebtedness was referred to the trades interest committee, and it was suggested that assessments be made on local associations to meet the same. It was unanimously adopted that the trades interest committee secure and place a trade mark flour on the market. The resignations of the Hackettstown and Deckertown associations were placed in the hands of the executive committee, with power.

It was decided to revise the minutes and have them published in The Trade Review, the official organ of the association. The following amendment to the constitution was offered and adopted: That the officers consist of a president, first and second vice-presidents, recording secretary, financial secretary and a treasurer, and that they be elected yearly by ballot, and hold office till their successors are elected.

Mr. Meyers offered a resolution that the hearty thanks of the association be conveyed to the local association for the magnificient reception accorded, with due appreciation of the efforts made to make their stay a pleasant one. The committee on decoration was also thanked. The resolution was adopted by a rising vote. The president then appointed the following standing committees:

Executive Committee—W. H. Everett, Newark; W. V. Munson, Paterson; J. W. Beach, Jersey City; A. Greenfield, Kearney; William Blake, Westfield.

Transportation Committee—G. C. Mason, Paterson; F. W. Dunn, Plainfield; W. W. Lyon, Newark; J. Newton, Jersey City; J. R. Gaskill, Trenton.

Trades Interest Committee—J. A. Smith, Plainfield; William Smark, Trenton; J. G. Paton, Paterson; J. E. Banks, Jersey City; D. E. Miller, Westfield.

Insurance Committee—J. E. Banks, Jersey City; P. S. VanAnglen, New Brunswick; J. M. Dillistin; Paterson; C. J. Witt, Paterson; Franklin Cort, Newark.

The seventeenth semi annual convention then adjourned and after a short recess all were invited to the Camera Club rooms where the most pleasant portion of the convention was enjoyed, the banquet. It was an occasion to be remembered for its completeness in every detail. The tables were spread to please the fancy of most anyone, and the body of men that surrounded them was certainly a most noteworthy and representative one.

At the head were seated President James Sullivan, and to his left was Mayor Gilbert and Assemblyman W R. Codington, while following in succession on each side of the room were the delegates and invited guests.

To the left of the president was Charles M. Ulrich, who acted as toastmaster. For one hour and a half those present enjoyed the menu which for excellence and service could not be surpassed. During dinner P. Ludwig Conde and orchestra rendered a choice programme that was heartily encored. The music in no small measure gave a decided finish to the event and put everyone in the best of humor by the time cigars were lighted.

Toast Master C. M. Ulrich then called for order and in a few words expressed his gratification on behalf of the Plainfield Grocers' Association in having the honor to entertain such a representative gathering of business men and hoped at some future time they would again have the pleasure. He then introduced Mayor Gilbert, who responded to the toast "The Issue of the Hour." He replied in substance as follows; after indulging in a few witty remarks:

If a man has a large business experience it is very easy for him to make an after-dinner speech. The oratory of today is vastly different than it was twenty years ago. Today we have no such men as Webster, Calhoun and Randolph. We don't catch the bright flashes of wit that was given by these men. Take the spirit of patriotism manifested in Congress thirty years ago. At that time there was no Senatorial courtesy, no debate on the important topics of the day, as there are today. On the Fourth of July, 1861, President Lincoln called Congress together. War had broken out and there was a division between the north and south. In the President's message 500,000 men were asked for and $5,000,000 in U. S. bonds. It was referred to the committee on ways and means to be reported on the next day, at which time one hour was allowed for discussion. When it came up one Congressman spoke for one hour in opposition. Not another one spoke. The bill passed the House and Senate unanimously. That was patriotism. The Senate of today is composed of a handful of men who are more interested in their party than the country's needs. You are business men and the currency question affects you. The country is paralyzed owing to a disordered currency, with no ability to correct it. Is it necessary to admit this? I am sorry to say it is. We stand today great in everything except ability to correct the error. The United States Government is today embarrassed. We are threatened because the United States, instead of performing her duties, is trying to carry a gold reserve that should be carried by the banks. This condition of affairs will continue until we can get the Government out of the banking business. If the matter was left to business men it would be fixed speedily. What can we do? A well-defined policy should be adopted. The Government should state that $35,000,000 will be paid each year for the next ten years. That would cover up the $50,000,000 indebtedness and our credit would advance rapidly. An established policy should be adopted and we should be prepared to vote to accomplish that object.

The Mayor closed his remarks, which were heartily encored, by relating a humorous story.

Vocal selections were then rendered by Messrs. Wm. N. Runyon, E. E. Runyon, Alfred Holmes and Geo. O. Stevens.

President James Sullivan was then called upon and responded to the toast, "The State Association." He reviewed in a general manner the work of the past year and threw out many valuable suggestions for the coming one. He thought that the department and cut-rate stores that were springing up throughout the State were exerting a harmful influence and would eventually depreciate the value of property in the cities and towns.

After several selections by the quartette and a few remarks by Mr. Everett, of Newark, the event closed.

ACTIVITY AT THE REVIVAL

THE ATTENDANCE OF INTERESTED ONES CONTINUES LARGE.

The Sermon Last Night Preached by Rev. H. F. Randolph on "Not Far From the Kingdom of God"—Larger Choir

A very large audience filled the Methodist Episcopal church last night at the third of the union evangelistic services. Every available seat was taken, and a number of persons who were unable to find seats stood during the entire service. The choir also was larger than on either of the preceding evenings. The meeting began, as usual, with a song service, led by H. J. Martin. In addition to the familiar hymns sung by choir and congregation, a solo, "In the Secret of His Presence," was sung by Elmer E. Runyon, after which the choir alone softly and impressively sang "Have You Sought for the Sheep That Have Wandered?"

The service was conducted by Dr. C. R. Barnes, pastor of the church; the opening prayer was offered by Dean E. M. Rodman, and the sermon of the evening was preached by the Rev. Herbert F. Randolph, of Grace M. E. church. His text was from "Not far from the kingdom of God." He spoke very earnestly to those who, while holding an intellectual belief in Christ, had never accepted Him as their Saviour. Their position was a hopeful one, for they needed to take but a step to enter Christ's kingdom. But it also was a very dangerous position. Some of the most terrible shipwrecks that have ever taken place have occurred just off the shore, where the doomed men and women could see the lights of home. The speaker closed with a heartfelt appeal to all who were "almost persuaded" to take that one step into the kingdom at once; the choice was in their own hands; not all the powers of heaven and earth could move them against their will. Would they not choose God, now?

The closing words by Dr. Barnes and Dr. Yerkes echoed the same thought. Requests for prayer for loved ones not in the kingdom came from all parts of the house, and earnest prayers were offered that the Christian people of Plainfield might be more thoroughly awakened, and many new converts be brought to Christ, during the days to come.

Tonight, the sermon will be by Dr. A. H. Lewis, and it is expected that an after-meeting of special interest will be held.

OFFICERS TAKE THEIR SEATS.

New Officers of Iona Council Installed Last Evening.

District Deputy Mrs. Charles Holstein installed the officers of Iona Council, No. 14, Degree of Pocohontas, last evening as follows: Prophetess, Mrs. Radin; Pocohontas, Mrs. Stephany; Wenona, Mrs. Weigman; Pohaton, D. C. Allen; keeper of records, Mrs. Holstein; collector of wampum, Mrs. Klein; keeper of wampum, Mrs. D. C. Allen. The following appointed officers were also installed: First scout, Mrs. Horton; second scout, Miss Lizzie Dunlap; warriors, Mrs. Dodwell, Miss Lizzie Scheelein, Miss Anna Scheelein, Mrs. Mattis; first runner, Mrs. Angleman; second runner, Mrs. Boehm; keeper of wigwam, Miss Ella Sebring; keeper of forest, Mrs. Hatch; first councilor, Mrs. Fahn; second councilor, Mrs. Getter; trustees, Mrs. Westphal, 18 months; Mrs. Dodwell, one year; Mrs. D. C. Allen, six months.

There were visitors from Newburgh present who enjoyed the occasion very much. A collation was served at the close.

A Pleasant Event.

The dance given in the Olympia last evening by the Crescent Coterie was largely attended and, as usual, very successful. These dances have become very popular and the attendance increases with each one. The music was excellent and the supper all to be desired.

Applied for Arms.

Captain George Edwards, of the High School Cadets, sent in an application yesterday to the Quartermaster-General of this State for arms and equipments for the High School boys.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

HAS NO DESIRE FOR WAR

Arthur J. Balfour Defines England's Policy.

Her Attitude as to Armenia, the Transvaal and Venezuela—Struggle with United States Would Present the Appearance of a Civil War, with All Its Horrors.

London, Jan. 16.—At a meeting in Manchester last evening over which presided Right Hon. Arthur J. Balfour, first lord of the treasury, in the course of an address which he delivered, made incidental mention of the Emperor William of Germany, which was greeted by his hearers with groans and hoots. Mr. Balfour admitted, with sorrow and reluctance, that the concert of action of the European powers had failed to introduce reforms in the government of Turkey, without which he feared it would be impossible to hope for an early settlement of the eastern question. Referring to the Transvaal difficulty Mr. Balfour declared that he could not discuss the gravity of the offense of those who would be arraigned for their operations in the South African republic, but he would not say he was sure that those who were responsible for the movement there were not guided by mean, sordid motives.

As to the Transvaal.

The government, he said, was of the opinion that it was impossible for affairs in the Transvaal to reach a satisfactory condition while its government was founded upon so artificial and inequitable a basis as it is at present, the Uitlanders, who are vastly in the majority, paying the greater proportion of the taxes and not having the smallest share in the government. President Kruger, Mr. Balfour admitted, had displayed great generosity and political wisdom and he hoped, therefore, that the promised reforms would not be delayed longer than was necessary. It is beyond question that the Transvaal republic is free in the administration of its internal affairs, but its external affairs are subject to the control of Great Britain. Call it suzerainty or by any other name chosen, there is no mistaking this fact, and that foreign interference will not be permitted. At this point the speaker was interrupted by prolonged cheers.

The Venezuela Dispute.

Nevertheless, Mr. Balfour said, he was not aware that any foreign country was prepared to dispute the doctrine. The statement was greeted with renewed cheers. Touching upon the Venezuela dispute, Mr. Balfour said the people of the United States of America appeared to suspect Great Britain of running counter to the Monroe doctrine. He dilated on this doctrine, construing it to the effect that the American continent must not be regarded as a field for European colonization, and that European nations were not entitled to interfere in the domestic affairs of the new world, and said that the United States and Great Britain concurred in this construction. He was not aware, he continued, that there had been any change of mind and did not believe it would be possible to find an individual in the country who was desirous of what is known as a forward policy in America. Great Britain was content and always had been content to do the best for the colonies she possessed there and did not wish to interfere with other states or to acquire more territory. He believed that if the Venezuelan government had requested British protection the honor would have been declined by every statesman nameable. He referred respectively to the long duration of the boundary dispute, to Lord Salisbury's dispatch, to the progress of compiling of documents relating to the matter here and to the appointment of a United States commission to determine the boundary, and added that it would be hard indeed if the common sense of the Anglo-Saxon race was unable to settle any dispute without war. (Cheers.)

The Pride of Race.

Mr. Balfour said he had been deeply and painfully impressed with the different manner in which war is regarded in England as compared with the view apparently taken of it by some sections of the American population. War with the United States of America appeared to himself and doubtless to his hearers also to be enveloped with the unnatural horror of a civil war, which, with any nation, is a terror to be avoided at all costs except dishonor. Beyond their common ancestry, language and civilization, he believed, he said, that the British people had a pride of race which embraced every English-speaking community in the world and an Anglo-Saxon patriotism.

America's View of War.

He admitted with sorrow that such feelings, judging from the newspaper articles on the subject, were not shared by a large section of the American people, who appeared to regard a war with England as a thing to be lightly indulged in, an exhilarating exercise, a gentle stimulus. This distressing and horrible view, he declared, he could not believe was the permanent adoption of any large section of the people of the United States. Mr. Balfour dwelt at length upon the sentimental aspect of the question and said he trusted and believed the day would come when better statesmen in authority and more fortunate than even Monroe would assert a doctrine between English-speaking peoples under which war would be impossible. He deprecated the pessimist view taken of the future by some and asserted his unbelief that public opinion on either side of the Atlantic or in Europe would permit the outbreak of war. Moreover, he could not see that England had cause for a quarrel with any nation on the face of the world. England, Mr. Balfour said, did not desire anybody's territory and had no wish to interfere with any existing interest, but if war must come he did not think she had any reason to be afraid. He did not believe there had been a moment in the recent history of the empire when it was a better fighting machine than it is at present. In concluding his speech Mr. Balfour alluded to the increase in the navy, and said he believed that it would not be called into action, but if by any mischance the people of England should be called upon to fight for their country he did not believe that the issue of the conflict would be diminished glory or diminished power of the British empire.

MISS ANTHONY AGITATED.

President Eliot's Letter to Bishop Doane Arouses Her Ire.

Rochester, N. Y., Jan. 16.—Miss Susan B. Anthony, leader of the woman suffragists, was very much agitated when she read president Charles W. Eliot's reply to her criticism of him in her annual call for the convention of the National Woman's Suffrage association, as made public through a letter to Bishop Doane of Albany, an enemy of suffrage to women. In the call the following extract appeared: "As the president of Harvard university says: 'The exercise of suffrage stimulates all citizens to reflect on problems outside the narrow circle of their private interests and occupations.'" "The first and only time I ever saw President Eliot," said Miss Anthony, "was at a convention of all the superintendents of schools of the United States. Before a great audience he arose and declared that it was not in the interests of American patriotism or loyalty to have women teachers in the schools. He recommended that the system of employing women teachers be done away with and that only men be employed. There I formed my idea of the man and I have not changed. For him to say as he does in his letter that suffrage is not one of the bulwarks of this nation, is idle talk, and shows up the man. It is one of the greatest of our bulwarks and our country could not exist as it does without this bulwark. Regarding the criticism that I have in any way distorted his letter, it is not true. The word 'the' instead of 'these' was simply an error of the printer. It is harmful to the nation to have such a man as Mr. Eliot at the head of such a great institution as Harvard university. In my mind Mr. Eliot is not an American of whom a true patriot should be proud. He is an arch-traitor and has by this letter alone, committed treason." Speaking further, Miss Anthony said: "If, as President Eliot says, he did not regard suffrage as one of the bulwarks of this government then surely he left out the underpinning of the whole structure." Miss Anthony hoped her views would be rightly stated before the public.

HAD BUT TWO HOURS' NOTICE.

One Thousand Employes Suddenly Thrown Out of Work.

Woonsocket, R. I., Jan. 16.—The factory of the Woonsocket Rubber company at Millville, Mass., employing 1,000 men making rubber boots, was closed at noon indefinitely, the help having but two hours notice. The company is a branch of the United States Rubber trust and has not been running full capacity for some time. The officers give no information, but general manager J. J. Hanigan said: "It may be," when asked if the Woonsocket factory would also be closed.

CUSTOMS ORDER.

An Undervaluation of 40 Per Cent. Shall Cause a Seizure.

Washington, Jan. 16.—Assistant Secretary Hamlin has instructed collectors of customs that in any case where an undervaluation of 40 per cent. or more has been found of imported merchandise, seizure should be made at once under a presumption of fraud, unless the circumstances are such as to positively relieve the importer from any suspicion of fraudulent intention.

NEW YORK CONFIDENT

Her Friends Think She Will Secure the Convention.

They Now Claim Twenty-three Votes on the First Ballot This Afternoon—Their Ranks Reinforced—Reasons Presented by St. Louis Why She Should Be Chosen.

Washington, Jan. 16.—The corridors of the Arlington hotel are filled this morning with crowds of politicians eagerly discussing the prospects of the cities contending for convention honors. The New York people retain the same air of confidence they wore all day yesterday and seem fully satisfied that they cannot be beaten. They are claiming twenty-three votes, one more than they expected last night, and believe that when the break-up comes and the weaker claimants drop out of the fight they will receive enough additional votes to give them a majority. They appreciate the fact that the west and south generally are bitterly hostile to the eastern metropolis, but they believe that this hostility will disappear in part when they have made a demonstration of their strength. Their ranks were reinforced last night by the arrival of the members of the citizens' committee, which is a non-partisan body. A delegation from Tammany Hall arrived simultaneously and are quartered at the Shoreham.

St. Louis' Hopes and Fears.

The St. Louis contingent spent a busy day and some of their representatives have met personally every member of the committee in the city. They do not regard New York as a serious competitor, believing the support of that city will speedily disintegrate after a few ballots. They believe that their only competitor is Chicago and make no secret of their apprehensions in this particular. Their argument aside from the material advantages of their city is the effect upon the free silver men of locating the convention in Missouri. There is some consternation this morning in the ranks of the St. Louisans over the report that Senators Gorman and Brice and Chairman Harrity are working against them.

THE ACTION DISCOUNTED.

Little Attention Paid to the Bond Syndicate's Dissolution.

Washington, Jan. 16.—The action of J. P. Morgan in dissolving the bond syndicate aroused little attention in the senate when the fact became known. This action has been discounted, and members of the finance committee declined to discuss the question. While not talking for publication two or three of the leading members stated their belief that the dissolution of the syndicate meant that the members forming it intended to bid separately for the bonds, and on the whole the outlook for the popular loan was, perhaps, brighter than it was when the syndicate was in existence. The same opinions were expressed by members of the house and others in high places.

UTICA, MAY 19 AND 20.

Place and Date of Next State Encampment of N. Y. G. A. R.

Albany, Jan. 16.—The state council of administration of the G. A. R. met in department headquarters in this city yesterday afternoon and by a unanimous vote selected Utica as the place for the holding of the state encampment and fixed the date at May 19 and 20 next. There were two cities as candidates for the encampment, Utica and Syracuse. The claims of the former were urged by Senator Coggeshall, Mayor Gibson, Hon. Walter Embly, Hon. Cornelius Haley, Hon. Harry Kent and Junior Vice-Department Commander Kohler. Col. Redman of Syracuse spoke in behalf of the

Nervous

People should realize that the only true and permanent cure for their condition is to be found in having

Pure Blood

Because the health of every organ and tissue of the body depends upon the purity of the blood. The whole world knows the standard blood purifier is

Hood's Sarsaparilla

And therefore it is the only true and reliable medicine for nervous people. It makes the blood pure and healthy, and thus cures nervousness, makes the nerves firm and strong, gives sweet sleep, mental vigor, a good appetite, perfect digestion. It does all this, and cures Scrofula, Eczema, or Salt Rheum and all other blood diseases, because it

Indispensable In Diphtheria

is Bovinine, as has been attested by thousands of physicians. One of the many testimonials we have received is one from Dr. Arthur P. Ginn of Omaha, which reads, "I used Bovinine in several cases of diphtheria, and was successful with the cases. This to me is sufficient evidence of its value, no other food being used during treatment, except the milk used as vehicle for its administration."

Bovinine

being a food product, made by a special cold process from lean beef, is easy to take, quickly assimilated, speedy in its life-promoting properties, is invaluable as a life-giver when it is necessary to maintain strength to carry a patient over the crisis of a disease. In diphtheria and other throat troubles where it has become impossible to take nourishment by the mouth, Bovinine has sustained life for weeks, administered as an injection.

Pineola Cough Balsam

is excellent for all throat inflammations and for asthma. Consumptives will invaribly derive benefit from its use, as it quickly abate the cough, renders expectoration easy, assisting nature in restoring wasted tissues. There is a large percentage of those who suppose their cases to be consumption who ate only suffering from a chronic cold or deep seated cough, often aggravated by catarrh. For catarrh use Ely's Cream Balm. Both remedies are pleasant to use. Cream Balm 50c per bottle; Pineola Balsam 25c, at druggists. In quantities of $2.50 will deliver on receipt of amount. PATRIOTS BURN TOWNS

Gabriel, Guira and Artemaia Destroyed.

Thirty-six Houses Consumed in Recrea — Bejucal Captured—Volunteers Surrendered, But the Regulars in the Blockhouse Held Out—Many Stores Sacked.

Matanzas, Cuba, Jan. 7, via Tampa, Fla., Jan. 16.—On the 2d inst. a party of rebels attacked the town of Recreo. They were under the command of Clotilde Garcia, Roban, Luis Chapotin and Rapael Cardenas, and belonged to Lacret's men. They were driven back and one man wounded. A few hours later they returned and made a new attack on the town. A company of royal marines did excellent service in this fight. The engagement lasted six hours. The rebels burned thirty-six houses and sacked a number of the stores.

Important Towns Burned.

The town of Bejucal, fifteen miles south, was captured Monday. Thirty-five houses, twenty cars and the railroad station were burned. The volunteers surrendered, but the regulars in block houses held out. Other important towns burned in the past week are: Gabriel, 2,500 inhabitants; Guira, 4,500; Artemaia, Aguacate and Benaivdes.

PAN-AMERICAN LEAGUE.

Union Contemplated To Sustain the Monroe Doctrine.

Washington, Jan. 16.—It is learned that the original draft of the address delivered to the president by the new Ecuadorian minister contained a reference to the necessity for a union of all American countries to sustain the Monroe doctrine, but this was omitted from the minister's speech at the suggestion of either the state department or of some of the Pan-American diplomats who are interested in the project. Some of the diplomatic representatives from South America and Central America have received credentials to any conference that may be called for the purpose of organizing such a league, but while there is almost a unanimity of opinion among the Pan-American governments in favor of the idea, a few of these are not disposed to endorse it at the present time and for that reason the procedure is likely to be slow toward attaining the desired end.

THE "BAT" SHEA CASE.

Hon. Geo. Raines Asked To Take Charge for the People.

Albany, Jan. 16.—Attorney General Hancock announced yesterday afternoon that he had writted to Hon. Geo. Raines of Rochester asking him to take charge of the "Bat" Shea case again and to make ready the people's case in opposition to the motion to be made to the courts by Shea's counsel for a new trial for their client. The attorney general has instructed Mr. Raines to get any aid he may need in the preparation of the case, and it is the expectation that Mr. Raines will associate with him ex-Assistant District Attorney Fagan of Troy, who aided him in prosecuting Shea during his trial for murder.

LOSS, $100,000.

Largest Fire in the History of Great Barrington, Mass.

Great Barrington, Mass., Jan. 16.—The largest fire in the history of Great Barrington broke out at 9:45 o'clock last night in the Parker block on the east side of Main street, and the loss will, it is believed, reach at least $100,000. The Brewer block adjoining was next to go and the flames made short work of it. At one time the hotel Miller on the opposite side of Main street was set on fire by flying sparks, but the blaze was extinguished with little damage. Help was sent from Housatonic.

Woman Suffrage Association.

Boston, Jan. 16.—The Massachusetts Woman Suffrage association yesterday at its annual meeting elected as president Mrs. Mary A. Livermore; corresponding secretary, Henry B. Blackwell; treasurer, Francis J. Garrison; auditors, Amanda M. Lougee, Richard P. Hallowell, also a board of directors and a long list of vice-presidents.

Board of Agriculture Officers.

Trenton, N. J., Jan. 16.—The following officers were elected yesterday by the state board of agriculture: President, D. D. Denise, Freehold; vice-president, E. B. Voorhees, New Brunswick; secretary, Franklyn Dye, Trenton; treasurer, Wm. R. Yard, Essex.

RED CROSS AND TURKEY.

Secretary of Armenian Relief Association Attacks the Sultan.

Washington, Jan. 16.—Herant M. Kiretchjian, general secretary of the Armenian relief association of New York, who arrived here yesterday on business of the association, said, regarding the Armenian situation, "It astonishes me that any one is surprised or indignant at the information conveyed by the Turkish minister that the Red Cross is not wanted in Turkey, when they know that the sultan has been slaying the Armenians by thousands and arranging in the most deliberate fashion possible an absolute famine for two million Armenians for the benefit of his Mohammedan followers. I have something very emphatic to say," said Mr. Kiretchjian, "about the statement of the Armenian case as presented by Mavroyeni Bey, the sultan's Greek minister, to the people of the United States. When he gives us as a solution of the difficulty in Turkey, the example of an uprising of American Indians against the authority of the United States, I might say he has the matter mixed up and the example should be just the other way, of peaceful Americans in a town rising against a murderous tribe of Indians who may have established their rule over them by conquest. But even that would be an injustice to the American Indian for I have never heard in all the stories of their cruel practices in war and peace, that such horrible scenes of bestial and brutal lust that have blackened the record of the Mohammedan Turk can be charged against them."

NEW NAVAL BOARD.

Established in Order To Facilitate the Purchase of Supplies.

New York, Jan. 16.—Under instructions from Secretary of the Navy Herbert a board on standard samples for the use of the United States navy has been established in this city, with headquarters in the Stewart building. The board was organized for the purpose of facilitating the purchasing of supplies for the navy, to obtain the widest competition in making these purchases and the establishment of standards of all commercial articles necessary in the navy. The magnitude of the task before the board may be appreciated from the fact that there are over 12,000 articles of various descriptions to be purchased for the navy at different intervals, outside of the ordnance department. The board invites the submission of estimates and catalogues from manufacturers all over the country of all articles dealt in and required by the navy, and specific information thereon.

WANT TO FIGHT FOR US.

Letter from Indians Offering Aid Against the British.

Washington, Jan. 16.—The secretary of the interior has received a letter from two Indians in Oklahoma territory offering their services to the government should war be declared with Great Britain over the Venezuelan boundary question. The letter is unique in expression and chirography. It reads: "Qu-as-a-po-e-ka, and Ted, Kickapoo braves, and No-to-sa-gua, a famous Sac and Fox scalper, desire the Good Father to know that if the British lion insists on a piece of Venezuela they stand ready to march through to the frozen zones of the Esquimo and scalp the British as they go. I do suggest a present of a pair of blankets that the impending blizzard may not chill the ardor of their patriotic blood."

WOULD NOT ACCEPT GOLD.

The Course of the New York Sub-Treasury Upheld.

New York, Jan. 16.—The fact that receipts for gold deposited in the sub-treasury to be examined and counted were offered for sale in Wall street led the sub-treasury yesterday to refuse to accept a deposit of $180,000 by Zimmerman & Forshay. The firm thereupon telegeaphed to the secretary of the treasury: "We have tendered $180,000 in American gold coin to sub-treasury here. It refuses to accept it. We want to leave some there for bonds. Must it accept or not? Please answer." This reply came late in the day: "The assistant treasurer has no authority to receive the gold mentioned in your telegram. No subscriber for bonds should deposit until notified of the acceptance of his bid. See circular of the 9th inst.

MILITARY RECEPTION.

Officers of the National Guard Meet Gov. and Mrs. Morton.

Albany, Jan. 16.—The military reception given by the Adjt.-Gen. and Mrs. McAlpin last night, at which the officers in the National Guard association were present to meet Gov. and Mrs. Morton, was from 8 to 11 o'clock. The music was furnished by the Tenth regiment band. Only Mrs. Morton assisted Mrs. McAlpin in receiving the guests. The other ladies who were invited, very few in number, simply came as guests. Mrs. McAlpin has with her at present as her guests Miss Driscoll and Miss Shackleton of New York, who were present last evening at the reception.

Work for 200 Men.

Huntington, W. Va., Jan. 16.—The plant of the Huntington Paving & Building Brick company will resume Monday after more than one year of idleness. It will give employment to about 200 men.

Treasury Gold Reserve.

Washington, Jan. 16.—The treasury gold reserve stood, at the opening of business to-day, at $54,859,879. The net loss at New York was $140,000.

The Alert at Panama.

Washington, Jan. 16.—The corvette Alert has arrived at Panama from the port of Callao.

IN HOUSE AND SENATE

Galusha A. Grow Addresses the Lower Branch.

The Venerable Ex-Speaker Protests Against Interference with the Prerogatives of the Congress—Debate on the Pension Bill—No Business of General Interest in the Senate.

Washington, Jan. 16.—As was the case on Tuesday the most striking event of yesterday's proceedings in the house occurred just previous to adjournment. The venerable ex-speaker Galusha A. Grow, representative-at-large from the state of Pennsylvania, moved thereto by a colloquy between Messrs. Pickler, rep., S. D., and W. A. Stone, rep., Pa., as to the probable action of the president upon a general revision of the pension laws, protested earnestly against the encroachment by the head of the executive department of the government or by any of his clerks, upon the prerogatives of the house. He referred especially to the circulation, at the last session of congress, of a bill headed "The Secretary of the Treasury's Bill," and to the reading of a letter from the president by Representative Wilson just as the house was about to vote upon the tariff bill.

Discussing the Pension Bill.

The greater part of the session was devoted to the discussion of the pension appropriation bill, various republican members criticising the administration of the pension bureau. Mr. Walsh, dem., N. Y., united with his colleague, Mr. Cummings, in assuring the house that the democrats of New York approved a liberal pension policy. He invoked the chivalry of the members from the south, which, he said, had never been appealed to in vain, to vote for the bill and the amendment proposed by the committee and thereby aid in making comfortable the widows of those who had met them in the field in open and honorable conflict.

One Election Contest Settled.

W. A. Stone, rep., Pa., in charge of the bill, gave notice that he would this afternoon ask to consider the bill under the five minute rule, with a view to reaching a vote before adjournment. In the morning hour the house adopted a resolution reported by Mr. Johnson, rep., Ind., from election committee No. 2 confirming the right of George R. McClellan to the seat he holds in the house as the representative from the Twelfth New York district, the contest therefor having been abandoned by Robert H. Chesebrough, the republican candidate.

In the Senate.

There was no business of general public interest in the senate, but bills were passed amending the land grant for future act so as to permit purchases of segregated tracts up to a maximum limit of 320 acres; and to grant an American register to the steamer Miami, re-built from the British steamer Nerito.

THOUSANDS STARVING.

Severe Destitution on All Parts of Newfoundland's Coast.

St. Johns, N. F., Jan. 16.—Reports of severe destitution come from all parts of the coast. The Telegram, the government organ, confesses that a thousand families are starving in this city and urges that prompt measures be taken to save the hundreds who are perishing. Western shore frozen herring fishery is a total failure owing to the absence of cold weather. Only a few American vessels have been loaded.

FRANK S. RAHN DEAD.

One of Pittsburg's Best Known Business Men.

Pittsburg, Jan. 16.—Frank S. Rahn, one of Pittsburg's best known business men, died suddenly at the hotel Duquesne of rheumatism of the heart. With his wife, Mr. Rahn had resided at the hotel for ten years. He was prominently identified with the iron trade and other industries and had amassed a considerable fortune. He leaves a widow and a daughter.

IMMIGRATION STATISTICS.

During Twelve Months Ending Dec. 31, 324,542 Arrived.

Washington, Jan. 16.—The chief of the bureau of statistics reports that the number of emigrants arrived in the United States during December, 1895, was 18,164, and during December, 1894, 14,777. During the twelve months ended December 31, 1895, the arrivals numbered 324,542, and during the corresponding period of the preceding year, 248,983.

Bay State Agricultural Society.

Boston, Jan. 16.—The Bay State Agricultural society held its annual meeting yesterday and elected the following officers: President, J. D. W. French, North Andover; secretary, N. I. Bowditch, Framingham; treasurer, Irving B. Sayles, Millbury; assistant secretaries, Henry Shumway, Boston, and Isaac Damon, Cochituate.

To Repeal a School Law.

Albany, Jan. 16. — Superintendent Skinner of the state department of public instruction has prepared a bill repealing the law of 1894 which provides for the study in the public schools of the state of nature and effects of alcoholic drinks and narcotics.

Indiana Democratic Committee.

Indianapolis, Jan. 16.—The democratic state committee met here yesterday afternoon and elected S. P. Holt of Indianapolis chairman.

Congressman Fowler has introduced a bill in Congress appropriating $250,000 for a public building in Elizabeth.

The bond syndicate has been dissolved. And yet some people say public opinion and action are moulded by money.

Already a bill has been introduced in the Senate fixing the salary of the Clerk of the Supreme Court at $6,000, and turning all fees into the State treasury. A similar act for the Clerk in Chancery has also been introduced.

The use of bloodhounds for tracking criminals is said to be rapidly increasing in the west, and the demand for that breed of dogs in the western States exceeds the supply. It seems incredible that the demand for any known variety of dog should exceed the supply.—Rochester Union.

The Court of Appeals of New York has declared the law debarring saloons from locating within 200 feet of a church constitutional. It is estimated that this will cause a loss of $10,000,000 in saloon property in New York, as all places located within the prescribed limits will now have their licenses revoked.

It is a good thing for Plainfield and Plainfielders to have conventions such as the Retail Merchants Association held here. Substantial business men are always close observers of what a town is, and the favorable opinions expressed after such a visit as that of yesterday are essentials that every progressive town needs to have.

Two hundred women descended on Mayor Wurster of Brooklyn and implored him with persuasive arguments to enforce the excise laws on Sundays. This instance calls to mind the fact that in all the prominent reformatory elements of New York city the women have figured comparatively little, while the conditions have been just the reverse in other cities.

Editor Runyon proclaims that $10,000 a year is not a cent too much to pay the Governor of New Jersey. Of course it is not, but when Editor Runyon compels his compositors to work for $2.50 a week, and docks them at the rate of $12 a week for lost time, he poses as a man who preaches liberality in properly compensating labor and practices the most niggardly penuriousness with his own employes.

EARLY INTELLIGENCE.

—Reynolds' pharmacy has the established reputation of dealing in nothing but drugs and other articles of first quality.

—Auction sale of groceries at R. W. Rice & Co's this evening. Balance of fixtures will be sold tomorrow evening at 7 o'clock.

—Frederick H. Martin will speak and Mrs. and Miss Thorne, of Newark, will render mandolin, guitar and vocal duets at the Y. M. C. A. meeting on Sunday at 4:15 p. m.

—The attachment case of Hand against R. B. Riley was adjourned in Justice Newcorn's court this morning to January 24th, on the request of Lawyer Powers, counsel for Riley.

—The first anniversary exercises of the Order of True Reformers will be held in Hetfield's hall, 304 West Front street, Thursday evening, Feb. 13th. Eugene O'Reilly will furnish the music.

—Miss Lizzie Coombs, of Westfield, entertained a few friends at her home Tuesday evening, the occasion being her eighteenth birthday anniversary. Guests were present from New York, Brooklyn, Baltimore, Newark, Elizabeth and this city.

One Minute Cough Cure is rightly named. It affords instant relief from suffering when afflicted with a severe cough or cold. It acts on the throat, bronchial tubes, and lungs and never fails to give immediate relief. L. W. Randolph, 143 W. Front St.

PARTICULAR MENTION.

Mrs. W. E. Honeyman is much better from her recent illness.

John Butscher, one of the bright Daily Press carriers, is ill at his home.

John O'Keefe, of West Fifth street, is able to be out again after his recent illness.

The condition of Mrs. Fulper, of East Second street, appears to be unchanged.

Mrs. A. E. Faber, Jr., is confined to her home on Mercer avenue, being seriously ill.

George. N. Cortwright, of East Sixth street, is recovering from his serious illness.

Charles H. Lyman, of Washington avenue, is confined to the house with quinzy sore throat.

Percy Sandford, of Washington avenue, has returned from a two weeks sojourn at Washington.

Mrs. Catharine Obitz, of Brooklyn, is the guest for a few days of Mr. and Mrs. August Trust, of Somerset street.

The Misses Stewart will entertain the Cotillion Club with a German at the Park clubhouse tomorrow evening.

George R. Killoran's friends will be sorry to learn that he is ill at his home, 121 Washington street, with the grip.

Mrs. T. R. R. Moore, of Brooklyn, is spending a few days with Mr. and Mrs. H. A. Connett, of East Fifth street.

Mayor and Mrs. B. A. Hegeman, Jr. of Myrtle avenue, North Plainfield are viewing the ice bridge at Niagara Falls today.

Mrs. T. H. May, of Somerset street, is spending a few days in Milford Conn., where she went to attend the funeral of an intimate friend.

Mr. and Mrs. J. C. Bovey, formerly of the borough, but now of Brooklyn, are the proud parents of a son and heir, who is now a few days old.

The condition of Wm. Wilcox, of Fairview avenue, is slightly improved today. He is, however, very much exhausted from the hemorrhage.

Mrs. H. E. Needham, of Jackson avenue, gave a dinner yesterday to entertain Mr. and Mrs. A. B. Darby, of Hotel St. Stephen's, New York.

Mrs Rafferty and Miss Rafferty, the mother and sister of Mrs. DeWitt Brokaw, of Sycamore avenue, with whom they have been staying a number of weeks, have gone to New York for the remainder of the winter.

White, North Plainfield, $3,900; Lydia A. Perrine and husband to Henry S. Zimmerman, North Plainfield, $2,500.

An Evening of Euchre.

A delightful euchre party was given last evening by Mr. and Mrs. Edward M. VanBuren at their home on Central avenue. The play was exciting and the evening passed off quickly. Mrs. Louis G. Timpson and Mrs. James H. Hallock won first and second prizes respectively among the ladies, while Joseph M. Sandford, Jr., was highest among the other sex. Benjamin A. Starr was awarded the second gentlemen's prize. Dainty refreshments were served at the close.

Old Glory Righted.

Two Plainfield young men drove to Irving a few days ago, and while passing the Locust Grove school house, they noticed that the American flag was flying wrong side up, and that being a distress sign, they stopped and inquired of the teacher what was the trouble. Explanation were soon made and in a few minutes old glory was put in the right position.

If suffering with piles, it will interest you to know that DeWitt's Witch Hazel Salve will cure them. This medicine is a specific for all complaints of this character, and if instructions (which are simple) are carried out, a cure will result. We have tested this in numerous cases, and always with like results. It never fails. L. W Randoloh, 143 W. Front st.

A MODERN SUFFERING.

The Want of Sleep a Most Trying Condition.

Surprise That The Body Can Stand Such a Strain.

Nature's Sweet Restorer an Inestimable Boon.

To restore the nervous energy spent during the day and invigorate the whole system a certain amount of sound, unbroken repose is necessary.

Sleep is absolutely essential for the preservation of mental and physical health, and the loss of it for a long time must sooner or later lead to serious results. Who has not at some period suffered the misery of a sleepless night; the tossing about, the long hours, the weary thinking and thinking, the vain endeavors to court the fickle goddess of sleep, and the tired feeling, the utter weariness of mind and body on the following day?

Sleeplessness is essentially a modern suffering, the outcome of this nineteenth century life of hurry, irregularity and competitive strife. Regularity of habits is an inducer of sound and healthy sleep provided the nervous system is in good condition. If there is sleeplessness the blood and nervous

MRS. E. TURNER.

system need to be strengthened and invigorated. Mrs. Emma Turner of 256 15th street, New York City, was a victim of this disease, who had tried in every way to induce sleep without avail. At last she found the cure—natural sleep came to her and with it health and strength again.

"I have been sick for two years," writes Mrs. Turner, "with nervous prostration, gastritis and spinal trouble. I was confined to the house a greater part of the time. I was troubled with insomnia also.

"After taking Dr. Greene's Nervura blood and nerve remedy for 3 months I have entirely recovered my usual health and strength. I sleep well and eat well."

What a great change in Mrs. Turner's life came from the use of Dr. Greene's Nervura, the great blood and nerve remedy. Her nights of restless tossing and wakefulness gave place to calm, restful, delicious sleep under the strengthening and invigorating influence of this admirable medicine. It will do the same for you. Use it, and again sound sleep will be yours, and with it health and strength. This grand remedy is the discovery, after years of research, of Dr. Greene, of 35 West 14th street, New York City, who may always be consulted, personally or by letter, free of charge.

Poor Musical Criticism.

To the Editor of The Daily Press:—

Speaking of the Farland concert, The News, while giving justice to the rest of the artists who took part, speaks of Miss Rosa J. Stults: "The solos sung by Miss Rosa J. Stults were fairly good but her voice showed the need of more cultivation." Professor Carl Alvoes, 1146 Park avenue, New York, who is recognized among musicians as an authority on voice training, says that Miss Stults' voice is trained. While her tones are natural, not affected, they may have been (to get this to a very fine point) not as clear in one or two high notes, but they were mellow, rich and pure. Every singer knows how easily a voice is affected. But to speak of lack of cultivation of a singer who knows how to control her voice and use it as correctly as Miss Stults does, is rather a "testimonium paupertatis,"—complete ignorance of the subject. It is a deplorable fact, speaking of musicians and critics in general, that the less they know the more they are anxious to show before the public.

Burial Permit Granted.

County Physician O'Reilly came to Plainfield yesterday afternoon and examined the body of John Svansen, the Swede, who was accidentally killed on the railroad Tuesday night. He granted a burial permit. The cousins of the deceased from Rahway are expected today and they will take charge of the remains.

The Commercial Palace,

during the year just closed inspires the proprietor to still greater efforts during the coming year. The figuring up of the business year of 1895 shows a gain on sales of a good many thousand dollars over last year.

This is taken as conclusive evidence of the growing popularity of the house and that the great masses of the trading public like to patronize just such a large, up-to-date metropolitan house in Plainfield instead of going to New York.

In fact we feel so good over the magnificent showing that we are going to celebrate the same by inaugurating our first

The high score for January at the Park club was made yesterday by William M. McCutchen. Dr. Thiers was high man with 227, but on Tuesday McCutchen rolled 230 and yesterday 232. He is the holder of the pin for making the high score in December.

Four games will be rolled in the Standard Bowling League tomorrow evening. The Union County Country Club bowlers go to Westfield, while the Park Club team will meet the Cranford's on the latter's alleys. Should the Parks win both games they will be tied with Roselle for second place.

The Y. M. C. L. A. bowling team of Elizabeth, came to Plainfield last night and met the P. C. C. bowlers on the latter's alleys. The home team was beaten by 74 pins, and failed to bowl in their usual good form. The only excuse offered by the team is that they lack practice, and when they are called together for a practice game only a few members show up. The following score tells the story:

WHIST.

One of the most important match games of whist ever arranged in this country was decided last evening at the parlors of the Jersey City Whist Club. Eighty of the best players from out of the ranks of the Brooklyn clubs and a similar number representing the different clubs which comprise the New Jersey Whist Association, met and it was midnight before the decision was reached, New Jersey winning by 27 tricks. Secretary Weems of the American Whist Association had charge of the Brooklyn players, While President Otis, of the New Jersey Whist Association, looked after the interests of the Jersey contingent. Plainfield and North Plainfield were well represented on the Jersey team by twelve of their experts. They were J. B. Dumont, J. Parker Mason, F. C. Kirchoff, Howard W. Beebe, S St. John McCutchen, Samuel Townsend, George T. Rogers, Joseph Howell, H. B. Reed, Peter Matthews, Mr. Grace and R. H. Depew.

VARIOUS SPORTS.

A number of the Richmond County hunt horses, of Staten Island, have been received and will be wintered and refitted for next season's hunting by F. C. Phoebus, proprietor of the Greenbrook kennels of this city. Hurdles and ditches will be arranged as soon as the weather permits.

THEATRICAL.

Probably not since its opening night has the Bijou theatre presented, at popular prices, a more worthy production than "Hands Across the Sea," which opened a three days engagement yesterday to packed houses. The play is a refined five-act melodrama, abounding in realistic and sensational features. The action begins in Devonshire and is rapidly transferred to the gambling halls at Paris, thence to the Roquette prison. The fourth act is on the deck of a British steamer bound for Australia, the final scene being in Sydney harbor. Maurice Freeman as Jack Dudley is surrounded by a remarkably clever cast. The play poorly enacted would fall flat, but the presentation given at the Bijou is highly creditable. Mr. Freeman is all that could be wished for as a leading man, as he possesses a fine physique, a voice rich in tone, and his elocution is admirable.—Binghamton Herald. At Music Hall tomorrow night.

The Al. G. Field Big White Minstrels, a combination of American and European stars, will be at Music Hall on Thursday night of next week. This is the eleventh annual tour of Al. G. Field, and he presents with confidence this great company, assuring his patrons of the past ten years that it is the greatest company of minstrel stars and novelties that he has ever presented to the public. Realizing that music is one of the most essential features of a minstrel entertainment, he has specially engaged Chester Nims' superb military band, and Ernest Mignani's symphony orchestra. The galaxy of singers is the strongest that has ever traveled with a minstrel company. The silver-voiced tenor, David J. Andrada, will render a beautiful ballad; Harry J. Howard, robusto tenor and composer, will be heard in a most beautiful ballad that is sure to become popular; he was never in better voice than he is this season. Oscar McMichaels, the popular baritone, will sing with rare power and sweetness one of the greatest hits of the day.

"Confusion" At Music Hall.

Plainfield is to hear and see this evening one of the funniest plays that was ever placed on the stage. "Confusion" is its title and, from the terrible predicaments in which the different characters are placed by the mixing of a pug and a baby, it is a very appropriate one. The play itself is an excellent one, having made long runs in both New York and Philadelphia. The cast is to be entirely local, being selected from the members of the Dramatic Association of the Plainfield Catholic Club. Of course the actors are not professionals but still they have been studying hard and promise to make "Confusion" a great and glorious success. It is to be given at Music Hall tonight.

Use It in Time.

Catarrh starts in the nasal passages, affecting eyes, ears and throat, and is in fact, the great enemy of the mucous membrane. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucus discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears, and oftentimes a very offensive discharge. Ely's Cream Balm is the acknowledged cure of these troubles.

A CAR'S ESCAPADE.

IT STARTED A NEW BREED OF CATTLE IN THE DELAWARE VALLEY.

Coe Little's Bills and His Train Failed to Agree When He Reached Port Jervis The Explanation Offered For the Car's Strange Freak.

"It isn't likely that there is any of the Coe Little breed of cattle left in the upper Delaware valley," said a veteran railroad man, "because, by this time, their identity must have been destroyed though mixture with other breeds. It doesn't matter, for there was nothing of particular note about that breed of cattle, except the way they happened to be introduced into that locality.

"In those days live stock transportation was one of the Erie's big items of traffic. Trains half a mile long, loaded with horned cattle, horses, sheep and hogs, used to pass over the road two or three times a day. Such a thing is almost a curiosity nowadays. Coe Little was conductor of one of these stock trains between Susquehanna and Port Jervis. He left Susquehanna one night, in those good old days of railroading, with a long train of cattle cars. Those trains were next to passenger trains in class, and were run over the road a-humming. Conductor Little delivered his train at Port Jervis on time, and handed over his way bills, which he had received at Susquehanna, and on which the number, character and contents of every car in his train were recorded. When the agent at Port Jervis compared Little's train on this voucher, one car was missing. The car was entered on the way bill as having left Susquehanna all right, but it wasn't in the train. Its place, according to the bill, was about in the middle of the train.

"Well, here was a situation. Coe Little declared that every car was in the train when he left Susquehanna, for he had checked the number of each one on the way bill himself. He certainly hadn't delivered the missing car to any one on the way, and he couldn't see how any one could have sneaked in and stolen it, especially as the train had been on the move pretty much all the time between Susquehanna and Port Jervis. A telegram was sent to the agent at Susquehanna, asking for information about the missing car. The reply was that nothing was known there that could throw any light on the subject; quite the contrary, for the agent corroborated Little's report. The car was in the train when it left Susquehanna.

"During the efforts of the puzzled railroad men at Port Jervis to solve the mystery of the lost car, some one discovered that the car that should have been just behind the missing one was coupled to the one that should have been just ahead of it without the aid of a coupling pin, the link being broken in such a way that it had become a hook, which was fast in the pinhole in the coupler of the other car. This didn't help matters a little bit, and rather deepened the mystery.

"They were still deep in efforts to solve the mystery, and a car tracer was about to be sent back over the road to see if he could find the car, when a telegram came from Shohola, a station 16 miles west of Port Jervis. The agent at that station said in effect that somebody's cattle car was astray in a field along the Delaware river just beyond Shohola station, and that somebody had better come and look after it. The wrecking gang was sent up from Port Jervis, and, sure enough, in the middle of a field, 100 feet or more from the railroad, stood the missing cattle car, right as a trivet, except that its doors were open and its cattle gone. To get where it was the car had run down a ten foot embankment, across a wagon road and through a stout rail fence.

"There was only one way to explain the freak of the car in quitting its train so unceremoniously. Going east along that part of the Erie the track is on a heavy down grade. Just before reaching Shohola the coupling pin that held the car to the one ahead of it must have broken. This divided the train in two parts. The head car of the rear part jumped the track, and breaking the link that held it to the car behind it, went on down the bank, getting out of the way of the cars following on the track.

"When the leading section of the divided train got to the foot of the grade, its speed slackened. The hind section caught up with it, and ran into the rear car, but not with force sufficient to do any damage or attract attention. The broken link, then a hook, happened to fall into the pinhole of the coupler ahead of it. The train was thus recoupled and went on to Port Jervis without the loss of a car right out of its very center having been discovered by any one. There is no parallel to this one in the record of mishaps to railroad trains, and it has never ceased to be a wonder to all old time railroad men.

"Well, whether the doors of the fugitive car were broken by the jar and jolt of its trip down the bank, through the fence, and across the lot, or whether the cattle inside kicked them open, I can't say. They were open, and the cattle jumped out. It was winter, and the Delaware river, only a few feet away, was filled with running ice. The cattle must have been in a panic, or must have known that they were in Pike county, Pa., or something of that sort, for they plunged into that icy flood and made their way across the river into Sullivan county, N. Y. Searchers, accompanied by the drover who owned them, found and recovered them all. One cow, a deep red animal with a white star in her forehead, took the fancy of a farmer on whose premises some of the cattle were found, and he bought her. She had twin calves in the spring, each marked exactly like the mother. One was a bull calf, one a heifer. Because of the way in which the stock happened to be there it was called the Coe Little breed, and for some years was a favorite breed among the farmers of that part of the valley."—New York Sun.

PUTTING UP A STOVE.

A Version of the Operation That Rarely Happens In Real Life.

This is about a man who put up a stove.

It is unrecessary perhaps to go farther with it. You know in advance just how he swore and tore and spoiled the carpet, and the pipe didn't fit and he skinned his knuckles and cut his finger and spilled soot down the back of his neck and finally went up town and got six men to finish the job.

"Johnson," said Johnson's wife at dinner yesterday, "I want you to come home early this afternoon. I want that sitting room stove up and going by Sunday."

"All right, my dear," said Johnson. "I'll be home at 4."

So that afternoon Johnson's wife sent the children over to visit on the other side of town and stuffed rags in all the cracks to deaden sound. After a fervent prayer that all the neighbors would be out of town for a few hours that afternoon she was ready for Johnson.

He arrived promptly.

"The stove is out in the wood shed," said his wife.

The stove was not very large, and after Johnson had dressed himself for the occasion, with the help of Mrs. Johnson, who had taken care to have his old clothes and gloves handy, he got the stove to the back porch without much difficulty.

"It must be blackened," said Mrs. Johnson as she mixed the blacking. It blackened to a beautiful finish with very little rubbing, and Johnson whistled at his work.

Then he tacked down the oilcloth mat and the zinc and kept on whistling.

He took the stove in carefully and put it in the right place.

There was plenty of the old stovepipe, and while he cleaned it in the alley with a stick Mrs. Johnson sat on the back porch and listened to him whistle.

The first joint went on all right, and the damper staid in place. The next joint fitted so well that Johnson almost stopped whistling in sheer admiration for it, and so did the next one. The elbow fitted admirably, and the collar and last joint went on like a top. The seam was on the right side all the way up.

There was not even a speck of soot on the papers Mrs. Johnson had spread on the carpet.

In ten minutes more Johnson had a lovely fire in the stove and was in his business suit again spick and span reading the paper while his wife got supper.

It was just here that there was a savage nudge in Johnson's left ribs and he heard his wife tell him to wake up, and hustle out now, for it had been daylight for half an hour.—Topeka State Journal.

BUILT THE WRONG WAY.

Why the Quaker's Chester Hogs Took No Prizes In Georgia.

"I never shall forget an incident which occurred at the first fair I ever attended in Georgia," said a retired Cincinnati meat packer. "It was at Macon, and I think they called it a state fair. At any rate it was a big thing for the town in those days. They had some fine stock on exhibiion, and a Pennsylvanian had sent down about 20 of the finest looking hogs you ever saw. They were mostly Chester Whites, and if I recollect aright they were exhibited by Thomas Wood, a great hog and cattle fancier of 20 and 30 years ago. He it was who introduced that famous breed of hogs, the Chester White, and he made a great deal of money out of his fancy stock. He was a Friend—a Quaker, you know—who used the plain language and wore a broad brimmed hat. He was a smart old gentleman, honest and prosperous. He sent his hogs from state fair to state fair, and they took so many prizes and blue ribbons that each hog looked like a boy who had spent all his money making a collection of badges.

"When the Macon judges made their awards, they gave blue ribbons very liberally to the razor backs, but not one of the fat, sleek Pennsylvania hogs got a prize. The owner of the exhibit did not understand it, so he hunted up one of the judges and said in the language of the Friends:

"'I know thee to be an honest man, and I do not question thy fairness in the award, but to gratify my own curiosity I would be glad to have thee tell me why thee gave all the prizes to the native stock and what fault thee found in mine?'

"'My friend, the committee admired your hogs greatly,' the judge replied. 'They are certainly handsome, and I have no doubt that in your section they are the best breed to raise, but they are not suited for this country. They are so short legged and fat that a nigger could catch them in two minutes. What we require in a hog in the south is legs and wind. We give our prizes for speed.'"—Atlanta Constitution.

A Powerful Burning Glass.

The most powerful sunglass ever constructed in France was that made under the supervision of the savant M. de Villette. This glass generated heat sufficient to melt a copper coin of the size of our silver 25 cent piece in 7½ seconds.

George Parker of Fleet street, London, made a glass much more powerful than that which resulted from the Frenchman's efforts. Parker's was three feet in diameter and so powerful that it was actually used to melt substances which were too refractory for the furnaces. The best authorities on heat say that it had a power of 166,362 degrees F. This is best understood when it is known that it only takes a temperature of 2,787 degrees to melt cast iron so that it will flow like water.—St. Louis Republic.

Hungary Water.

The first alcoholic perfume was Hungary water, made from rosemary by Elizabeth of Hungary, 1370, she having procured the recipe from a Hungarian hermit. This perfume became popular throughout all Europe in that and the succeeding century.

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

ANNUAL SALE

OF

Muslin Underwear, Waists, Wrappers, Corsets.

Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.

So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.

We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that those who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

COURAGE.

By EDMONDO DE AMICIS.

"Look!" said my friend a few evenings ago, pointing from a window of his residence, which gives on a small square, to a balcony on the fourth story of the opposite house. "Do you see that man?"

I looked. There was a man seated in a corner, with his arm lying along the railing, but I was unable to distinguish his features.

"That man," continued my friend, "is so disagreeable to me that I have more than once thought of changing my home, if for no other reason than that I might not see him any more. You will naturally ask me why. I have never spoken to him. I have never heard his voice. I do not know who he is or what he does. I do not know what he looks like, as my sight does not reach so far, not even through a telescope. That man is repulsive to me, because every evening at this time he invariably rises from his meal and seats himself in that corner, and every evening he automatically folds one leg over the other and lays one arm along the railing. It never happens that he moves first the leg, then the arm, but he first rests his arm and then crosses his legs. You will allow that he is detestable enough merely on this account, but this is only a trifle to the rest.

"Every evening a woman, who seems to be his wife, before he rises, arranges his chair, brings him his pipe, puts it in his hands, lights it for him, and every evening he suffers himself to be waited upon in this glorious and triumphant manner without acknowledging in the slightest manner the services rendered. Then every moment he needs something, and the woman rises and rushes and gets whatever it maybe, and he takes it, drinks it, if it happens to be something to drink, furbishing his mustache with an egotistic, sybaritic sort of satisfaction, without even taking the trouble to hand the glass back. Then friends come to see him, and he does not try to rise, and yet he can stand and walk along the balcony as well as anybody else. He does not look up or down or around him. He never bows. Altogether he seems to have been built there, so that the world might travel around him.

"He is an idol. He is born to be waited upon. And you laugh! These are things that make me hate a man. I cannot help it. Another person would not mind it, but I feel it. I imagine I know that man as well as I know you. Who is he? I never asked, but I can tell you as though I knew it all. That man"—and so saying he pointed his finger toward the man, staring at him fixedly, as though to draw from him his secret—"that man is an everyday merchant who is beginning to get rich and holds already within him the conceit that is overcoming him as he prospers more and more, and he has married that woman in order to save the expenses of a clerk in the store and of a servant in the house.

"He treats her worse than a servant and no better than a clerk. He is sordid, except to satisfy his own gluttony. He might live on the third floor, but he lives on the fourth for economy's sake, although he has no children and has no desire for any. He despises everything that is not shop. He calls ministers thieves, asses all those who study, and beggars all those who have less than he has. Oh, you may laugh if you want to! Do you not know that hatred is a good guesser? Indeed I should really feel happy if I had a chance to be rude to him. I detest him. I may be visionary, malignant, whatever you choose to call me, but when my heart tells me that that man is a hard case I can but express my opinion frankly."

You ought to know this young man of 20, good hearted, restless and passionate, and become accustomed to his queer tirades against the phantasms that his own imagination creates. Then you could readily understand that he gave vent to this long oration all in one breath and without even smiling.

I was in the meantime looking at the supposed merchant and at the woman seated on the stool in front of him, with her arms crossed on her knees in an attitude of dreamy contemplation. I have better sight than my friend, and it seemed to me that the man was about 40 and the woman a little older, although I could not distinguish the features of either one. I asked for the telescope and pointed it toward the woman. First I confusedly saw a large face. Then I distinguished her expression, the expression of a woman resigned to her fate—a life of sacrifice. She had gray hair, a forehead deeply furrowed, large and melancholy eyes, a certain grave and thoughtful look that revealed complete resignation to suffering.

To all appearances my friend has guessed rightly, I thought, and I then directed the telescope toward the man. At that moment he turned toward me and showed his full face. "Who is he?" I asked myself. "Is it possible?" I opened the telescope a little more. "But it is he. There is no doubt. It is the face that I have seen hundreds of times among displays of photographs." I remembered, when I saw it, something that happened once, something long ago forgotten.

"Well," asked my friend, "is it or is it not the face of a merchant without education and with a good deal of conceit?"

I could not smile as I had done before. I told him that really this neighbor of his was not an attractive looking man, but that I remembered seeing him before; that I wished to find out who he was, and that I was going to inform myself as to the matter.

The next day I went directly to call on him to obtain the facts in the case, because, as I told him, I wanted to tell his story to a friend of mine. As he was accustomed to receiving such calls, he treated me courteously and told everything with great indifference, as though he were speaking of some one else. He spoke of the woman and of her life.

"We have lived together for 10 years," he said as he concluded. "I am patient, she, too, and we live—as God wills it. My two greatest consolations are the esteem of mankind and the devotion of this unhappy woman."

I went home. I wrote all that evening and all the following morning. The next day I went to see my friend with the manuscript.

It was the hour when the "merchant" was enjoying the breeze on the balcony. After a little I alluded to the aversion which my friend had felt for him.

"You must get over that," I said, "for you have made a mistake."

"It can't be!" he exclaimed, with his usual self confidence.

"Lay all joking aside," I replied, "and read these pages. It is a historical narrative that I have written since I last saw you. The principal actor is your despised 'merchant.' I give you my word of honor that, save a few necessary explanations, I have not altered the story in any way."

My friend took the manuscript and began to read. After a little he raised his eyes, looked at the man on the balcony, then looked at me and continued to read. As he progressed he looked oftener at me and at the man, at the man and at me, and he became graver and graver. When he had reached the last lines, a cry of admiration escaped him, and he jumped up, took my hand and asked in a moved voice, "Will you give me your word of honor that it is all true?"

"Every word," I answered.

"And that he is the man?" he pursued.

"And that he is the man," I repeated.

Without another word he took his hat and with quick steps walked off. I went to the window, saw him cross the square and enter the door of the opposite house. After a few minutes I remarked that the man on the balcony had disappeared. Shortly afterward he came out again, and a few moments later my friend recrossed the square.

"I know you," I said to myself, running to open the door for him. "I know what you went to do." My friend appeared at the door. "You," I continued aloud, "you went to kiss that man's forehead."

He looked at me, smiled, and then, throwing his arms around my neck, he answered, with a cry of joy: "No; I was not worthy of that. I went to kiss his hands."

* * * * * * *

It was the summer of the year 1861, at the time when rumors of the deeds of the brigands were flying all over Europe, those historic days when Pietropaolo carried in his pocket the chin of a "liberal" with its beard in Napoleonic style; when in Montenuleto those who cried, "Viva l'Italia!" were buried alive under a pile of corpses; when in Viesti they ate the flesh of the peasants who dared to disobey the orders of their robbers; when Colonel Negri, near Pontelandolfo, saw the bloody members of the soldiers disposed as trophies and hanging from the windows; when the poor Lieutenant Baci, wounded and captured in a fight, was killed after eight hours of horrible tortures; when parties of maddened people left their village in the night to go and welcome triumphantly the brigands; when stacks of grain were fired, houses demolished, whole families captured; when people were hung and scalped and butchered, and when, to stimulate and increase the general slaughter, from the left side of the Tiber came arms, money and benedictions.

On one of the last days of July, a little after sunrise, in a deserted valley of the province of Cagritanata, a soldier on horseback moved forward toward San Severo. He had started on the previous night to carry an order from the colonel to the commander of a "colonna mobile." He carried under his coat an answer to that order, in which the commander said that he would go at 8 o'clock the next morning to a hiding place in a neighboring mountain where he knew there was a band of brigands which of late had been terrorizing the neighborhood. The bearer of the letter was a man of 30, tall, spare, with very bright eyes, a pointed mustache and that frown between the eyebrows which denotes the habit of thought. His expression was one of deep gravity, to which his large hat, with its two points, lent a shadow of sadness, and the sternness and decision of his bearing denote a strength both of body and of soul that answered well to the necessities of the times and the surroundings.

He trotted along a winding path, looking closely here and there at the abandoned pastures, the rocky mountains, the bright, clear sky, without hearing other sound than the clatter of his horse's hoofs and the jingling of his sword. All of a sudden, as he was passing between two high, thick hedges, he saw a light, and he heard a shot. As he pulled up and grasped his pistol the horse staggered, and as he stooped to see if he were wounded he felt himself caught from behind. As he turned a

He felt himself caught from behind.

man jumped down upon him from the hedge. Behind this man, like a shadow, came a third one. He did not have time to shoot, nor to dismount, nor to defend himself.

He was thrown to the ground. There he tried to resist. He shook himself, he bit and struck out, but he was unable to rise. Utterly exhausted, he surrendered at last and allowed himself to be disarmed. In the fury of the fight, surrounded by a cloud of dust, he had succeeded, by a rapid movement, in putting the message into his mouth without attracting the attention of his assailants. They tied his hands behind his back and lifted him to his feet. They hurriedly hung his sword to his neck and attached his cloak and valise there also. They pulled the horse behind the hedge, and then they marched him across the fields, pushing him, hitting him, swearing at and threatening him.

After half an hour, when distant enough from the main road to have no fear of discovery, they slackened their pace. They had reached the mountain's side, a spot among the trees where neither house nor cottage could be seen. The soldier, bent under the weight which he was carrying, showed no signs of terror nor anger, though his face, pale, but unmoved, indicated that he knew the end reserved for him, and in his heart he was prepared for it. He did not forget that to fall into the hands of the brigands in those terrible days meant death. Therefore there was in his features already a little of the solemnity of death, and he who might not have known it needed only to look him in the eyes to say, "That man is going to die!"

The brigand who preceded him turned now and then to gaze at him, half through curiosity and half through suspicion. The one who walked at his side and seemed to be the chief of the band looked now at the prisoner, now at his companion, and exchanged with the latter an occasional triumphant smile.

"There!" he said, suddenly hanging his musket on the neck of the soldier. "Carry that for me."

"Carry mine, too," added the one who marched in front, imitating his companion. "And you?" asked the chief, turning to the third brigand who walked behind, and who seemed the youngest.

"I?" he answered. "I prefer to keep mine. You never can tell."

"Absurd," remarked the other, looking at him with contempt. Then, leaning toward the soldier and slapping him on the back, "My friend," he continued, "now you will tell us where you were going."

The soldier did not utter a sound.

"Oh, oh!" exclaimed the brigand, stooping to pick up a stick. "Did you hear me?" and he hit him on the hands. The carabiniere walked on without a word. "You shall speak, my friend," repeated the brigand, throwing the stick away. "They all begin like you, and you will finish like the rest. You, too, are made of flesh, and when you feel the cold steel you will cry, you can rest assured of that." So saying he pushed him in a path that followed the bed of a stream. They went straight ahead for a short while; then they passed a small bridge, walked around a small plateau and then began to climb a narrow path among the rocks. The soldier, his neck bound by the straps of the muskets, his hands tied, almost suffocated by his uniform, climbed unsteadily. Almost blinded by the perspiration dripping from his brow, he stumbled against the stones and fell on his knees. He got up with difficulty, only to fall again, and the brigands hit him and abused him. They pushed him up, with kicks, laughing at him and crying: "Up, you lazy beast! When you catch us, you tie us to your horses! Every one has his day, my friend!"

When about half way up the mountain, they halted. They had reached a place where the rocks were cut like a wall surrounding a habitable inclosure, with bunches of grass and trees here and there. Under a caved rock, rounded like a tunnel, there was a small space of even ground surrounded by heavy stones half falling from above, the smaller ones placed among the large ones as if some one had begun to build a wall. The rocks served as roof and walls to a wooden shed which occupied a quarter of the cave. The small caves hollowed from the rocks served as storage rooms. There was a stairway from the top of which the surrounding country was visible. The entrance was through an opening not much larger than the body of a man.

From the outside no one would have thought the place inhabited. The inside looked like an armory. In the small caves were glasses, tin cups, meats, bread, knives. From the points of the rocks hung coats and bottles. In one corner were some cinders and lighted coals, and the rock above was blackened by the smoke. Around this lay straw and blankets in bundles. Looking up, beyond the stone and behind and in front, one could see only rock after rock, open caves and immense stones, with a rare tree here and there that seemed to grow like a bundle of grass. Underneath were the cut sides of the mountain, beyond these the valley, and beyond this other mountains.

A man standing on the last step of a stairway, with his elbow leaning on the rocks and his face hidden between two stones, from which he looked, as though from a little tower, was awaiting the company. When he saw the soldier, he clapped his hands on the stone to express his joy, and he began to follow his steps closely, swearing and gesticulating every time a brigand hit him, as if he wished to give strength to the hitter and increase the sufferings of the prisoner.

When they were a few steps away from the armory, he descended to await them at the door. They finally arrived. The soldier, who was pushed inside, fell on the floor in the middle of the room. The others followed him and seated themselves around on the stones, perspiring and out of breath, throwing here and there their satchels, their hats and their arms. They remained silent for a few moments to recover their breath and wipe their faces.

"Here is a jolly prisoner!" exclaimed the chief, turning to the person who had come down to receive them.

"And alive!" continued the latter. Then seeing the spurs, he asked, "Where is the horse?"

MEN WORSE THAN APES.

Revolting Customs of Some of the African Cannibal Tribes.

The cannibalism of the black secret society known as the Human Leopards in the countr near Sierra Leone brings forcibly before us the difference between the east African and west African habits of eating human flesh. The Sherbo cannibals waylaid and killed their victims and afterward feasted on their flesh. The cannibalism of the east coast is of a very different kind. The flesh of the old people—the grandfather and grandmother of a family—is dried and mixed with condiments, and a portion of this is offered, with a dim sort of sacramental meaning, to travelers who become guests of the family. To refuse it would be a deadly insult. To accept it is a passport to the privileged position of a friend of the house. Many of our travelers in east Africa have eaten thus sacramentally of the ancestors of some dark skinned potentate.

The cannibalism of the west coast is of a more horrible kind, connected with fetichism, the worst developments of which are peculiar to that country. But there is a hideously genuine appetite for fresh human flesh still existing among the negroes of west Africa. This cannibalism manifests itself in a refinement of gluttony which has its mild analogy in the tastes of Europeans. Young boys are bought from the dark interior, kept in pens, fattened upon bananas and finally killed and baked. To these Thyestean feasts come not only the savage chiefs of the interior, but also, it is whispered, black merchants from the coast. Men who appear at their places of business in English territory in broadcloth and tall hats, who ape the manners of their white masters, are said to disappear annually into the interior, where, we are told, they might be seen in naked savagery taking part in the banquets on plump boys, in which they delight.

Be this as it may, somehow the native of the west coast and its Hinterland is unlike the East or South African native in the deep lying savagery and the extraordinary facility for returning to it which are his leading and very unpleasant characteristics. The subject claims the attention of the anthropologist, and certainly suggests a curious reason for questioning the relationship of the black man and the ape or the gorilla, seeing that the race of monkeys seems to be singularly free from anything like cannibalism.—London Saturday Review.

The Peasant and the Priest.

An Irish peasant once complained to the Catholic priest of his parish that some person had stolen his best pig and supplicated his reverence to help him to the discovery of the thief. The priest promised his best endeavor, and, his inquiries soon leading him to guess the offender, he took the following amusing method of bringing the matter home to him. Next Sunday, after the service of the day, he called out with a loud voice, fixing his eye on the suspected individual, "Who stole Pat Doolan's pig?" There was a long pause and no answer. He did not expect there would be any and descended from the pulpit without saying a word more.

A second Sunday arriving without the pig being restored, his reverence again, looking steadfastly at the stubborn purloiner and throwing a deep note of anger into the tone of his voice, repeated the question: "Who stole Pat Doolan's pig? I say, who stole Pat Doolan's pig?" Still there was no answer, and the question was left as before, to work its effect in secret on the conscience of the guilty individual. The hardihood of the offender, however, exceeded all the honest priest's calculations.

A third Sunday arrived, and Pat Doolan was still without his pig. Some stronger measures now became necessary. After service was performed his reverence, dropping the question of "Who stole Pat Doolan's pig?" but still without directly accusing any one of the theft, reproachfully exclaimed: "Jimmie Doran! Jimmie Doran! You trate me with contimpt." Jimmie Doran hung down his head, and next morning the pig was found at the door of Pat Doolan's cabin.—Household Words.

A Man of Nerve.

He looked admiringly at the tall man who was deep in a game of billiards.

"There's a man who has the most superb nerve of any one I ever saw," he said.

"Really?" returned his companion inquiringly.

"There is no possible chance for a mistake."

"Did you ever see it tested?"

"Well, rather. I saw him at a private theatrical entertainment one night last week"—

"Sometimes it does require nerve to sit through one."

The man who was telling the story seemed provoked at the interruption, but he kept his temper.

"His fiancee was in the cast," he went on, "and he sat there and watched another man embrace her and never so much as gritted his teeth. I tell you it was as fine an exhibition of nerve as I ever saw anywhere either before or since."—Chicago Post.

An Infallible Test.

A miser had died very suddenly. The doctor who was called in to certify his death appeared to have his doubts about the case.

"Place a 10 mark piece in his hand," said the old housekeeper of the deceased. "If he doesn't grasp it, you may safely make out the order for his burial."—Wegweiser.

Looking at the Bright Side.

"Wasn't it splendid," said the wife of the Turkish officer, "that the sultan should raise your salary?"

"Ye-es," was the reply of the man who has cause to doubt. "I suppose it's nice in one way. You can afford to give me a more expensive funeral."—Washington Star.

GOT MARRIED ON CREDIT.

Lack of Money Was No Impediment to the Student and His Bride.

The city registrar's office in the old courthouse is the scene of one or two marriages daily, and amusing incidents frequently occur. Perhaps the most peculiar case that has come up recently, an account of which was related to a reporter a few days ago, is that of a Harvard student who was in love and without funds. The love conquered his pride, and he concluded to investigate the matter with a view of getting married on trust. He made his appearance at the desk in the registrar's office and inquired if that was the place where he could procure a marriage certificate and also get married. He was informed that it was, and a blank application was handed by him, which he proceeded to fill out.

After this proceeding was gone through with he looked up, and, in a hesitating manner, asked the clerk if he could have a few moments' private conversation with him. He was taken into the anteroom, and this is the tale he unfolded: He said that he was deeply in love with a young lady, and that she was also very much in love with him. But her parents had serious objections to the match and did all that was in their power to break it off. They had closed their doors on him; but, notwithstanding this, he succeeded in arranging meetings with his heart's choice, and during one of these he proposed marriage to her and was accepted, he arguing that if they were joined in the holy bonds of matrimony nothing, not even her stern parents, could separate them. They had arranged the details and concluded that the only thing to be done was to get married in secret and then separate until he should graduate from his college. She, of course, would go back to her home and live with her parents as if nothing out of the general run of events had happened.

But the young man, being without funds, was in a dilemma, and the worst of it was he could not see his way clear to procure the necessary amount to pay for the certificate and ceremony. His home was in a western state, and he received an allowance from his father only once in six months. It was not due for nearly two months. He concluded that his only course was to try the method referred to above. The clerk, being a kind hearted man, told the youth that he would perform the ceremony and trust him for the pay, provided the lady in question was of age. The next day the couple put in an appearance and were married. Upon the arrival of the next allowance from his parent the youth walked into the office one day, made himself known and presented the clerk a $10 bill.—Boston Herald.

WATER SNAKE FIGHTS EEL.

Terrific Combat Which Finally Ended In the Eel's Escape.

"Did you ever know that there is a deadly antipathy between a common water snake and an eel?" asked the fisherman. "Well, I never knew it until an experience that I had in witnessing a fight between the two. Personally I have the greatest dread of eels. I'm more afraid of them than I am of a snake, and you can imagine my chagrin when I happened to hook one on one of my fishing expeditions. I was afraid to touch it, and all I could do was to let it dangle in the air. I could not get it off my hook, and I was meditating what to do, when, altogether unnoticed, I allowed the slimy object to drop down into the water.

"In a moment I saw a big water snake make a dive for it. At the first lunge it caught the neck of the eel squarely between its teeth, and I could see it sink its ugly looking fangs into the eel's flesh. I waited anxiously to see the developments. With its grim hold still on the eel's neck the snake, quick as it takes to tell it, wrapped its sinuous body around its antagonist's neck in an effort to squeeze it to death. The body of the eel was too sleek, however, and the snake's coils, despite all it could do, would slip down into the water. Time and time again it tried to squeeze the life out of its antagonist, never for an instant releasing its hold on the eel's neck, but the body of the latter was too sleek for it and every time it would slip down. Finally the hook broke and the eel made good its escape."—Indianapolis Sentinel.

Oil and Water.

"I'm very unfortunate," said the young artist.

"You are deficient in one important quality," replied his candid friend.

"What is that?"

"Tact. When Mr. Greesem came to see you about a portrait, you never stopped to think that he made his fortune out of a lucky streak in kerosene."

"Never."

"And you told him he ought to have his picture done in oil, and he didn't leave the order."

"That's so."

"And when Mr. Skimker, who has prospered as a dairyman, called at your studio, you rushed from Scylla to Charybdis and advised him to be done up in water colors. You're a good painter, my boy, but what you need is discretion."—Washington Star.

PASSED OVER THE DIVIDE

A BETTER WORLD CLAIMS THE SOUL OF ISAAC W. LAING.

For Almost Four Score Years He Had Been a Respected Citizen of This Section—An Old Member of the Hicksite Society.

Isaac W. Laing, well known in Plainfield, died last evening, about 12 o'clock, at the home of his daughter, Mrs. Amelia Sandford, No. 61 Washington avenue, corner of Park Place, North Plainfield, from paralysis. He was one of the oldest members of the Hicksite Society of Friends, having served as Elder and Overseer for many years, and he and his wife attended the Wednesday morning service at the meeeting house on Watchung avenue, and later called at The Press office as was his daily custom. He seemed very well at the time and greatly enjoyed meeting many of his old friends and acquaintances who were present at the meeting. He was diligent in attendance at meetings, when his health permitted, and was always present with his wife.

Yesterday morning he was driven to the office of his family physician, Dr. Probasco, and while engaged in conversation with the Doctor was suddenly stricken speechless and lost the power of his limbs. He was carried to his carriage which was waiting for him at the door and driven to the home of his daughter, and taken to his room and placed upon his bed. Dr. Probasco called soon after and informed his grief stricken wife and daughter of the nature of his illness—paralysis of the right side. He never regained consciousness after leaving the Doctor's office and died surrounded by his wife, daughter, daughter-in law, Mrs. Smith W. Laing, and his grandchildren. He was, however, fully prepared for the sudden call of his Heavenly Father, as he was an exemplary Christian man, upright in his dealings with his fellow-men, and the loved ones who are called upon to mourn his death are comforted in their sorrow by the fact that his soul is safe in the arms of Jesus, his Saviour, whom he had trusted for many, many years.

Mrs. Mary L. Force, nearly eighty-one years old, mother of the editor of this paper, is the only member of his family living.

Mr. Laing was in the seventy-ninth year of his age, and was born in the house in which he lived nearly all his life, on his farm in Middlesex county, only a short distance east of Campbell's Park Avenue Hotel.

His funeral service will take place on Sunday morning at 11 o'clock at the meeting house on Watchung avenue and his remains will be interred in the grounds adjoining, beside his father and mother who are sleeping there.

JOY FOR SKATERS.

The Ice Dealers Also Are Pleased With the Weather.

The recent continued cold weather has delighted the hearts of skaters and ice dealers alike for all the ponds are now covered with a thick sheet of ice. The work of cutting the ice on Wilson's pond, near Washingtonville, has been continued night and day while the skaters enjoyed themselves on the uncut portion. The ice there is over eight inches thick.

Hyde's pond is also in the hands of the ice cutters, and the skaters who usually throng that pond had to take to the brook. There was a goodly number yesterday who took advantage of the smooth surface of the brook and spent the afternoon there.

Murderer's Wife Goes Insane.

Anxiety for her husband's fate has finally unsettled the mind of Mrs. Niccolo Orchetta, the wife of the man charged with stabbing to death "Jack No. 23," at Westfield last October. For a time after her husband was imprisoned waiting trial, Mrs. Orchetta tried to run the store, but her countrymen did not seem to care to deal with her. The trial of her husband was postponed last month because she was not in a condition to give her testimony concerning the murder. She has an infant about two months old.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." INAUGURAL PROGRAMME.

Ceremonies That Will Mark the Introduction of a New Governor.

The inaugural ceremonies of Governor-elect Griggs will take place on Tuesday, January 21st, at 12 o'clock at Taylor's Opera House in Trenton, in the presence of the Legislature, the Judiciary and State officers.

The two Houses of the Legislature will meet at their respective chambers at the usual hour and adjourn at 11 o'clock a. m., to meet upon the stage of Taylor's Opera House at 11:30 o'clock a. m. They will organize upon the stage, where seats have been prepared for them.

Those having been furnished with cards of admission to the stage are requested to be in their places by 11:30 o'clock a. m. The Sergeant-at-Arms of each House, with their assistants, will act as ushers at the Opera-House. At 11 o'clock a. m. the Joint Committee on the Inauguration, with the State officers, will meet in the Executive Chamber and escort Governor Werts and Governor-elect Griggs to the Opera House.

The following order of exercises will be observed: Prayer by Rev. Thomas Hanlon, D. D.; administration of the oath of office by Chief Justice Beasley; delivery of the Great Seal of the State by ex Governor Werts; acceptance of the Great Seal by Governor Griggs; introduction of the Governor to the President of the Senate by ex-Governor Werts; introduction of the Governor to the Senate and General Assembly by the President of the Senate; inaugural address; benediction by Rev. John Dixon, D. D.

A reception will be held in the Executive Chamber from 3:30 to 5 o'clock p. m. An evening reception will be held in the Executive Chamber from 7:30 to 9 o'clock.

AT WHIST.

Mr. and Mrs. J. F. Buckle Entertain the Watchung Avenue Club.

The Watchung Avenue Whist Club were entertained last evening by Mr. and Mrs. J. F. Buckle, of Westervelt avenue. Mrs. R. I. Tolles was awarded the ladies prize, a handsome Japanese foot rest, while Hiram Woodruff secured the gentlemen's prize, an elegant celluloid collar and cuff box. After the games refreshments, consisting of creamed oysters, cake and coffee, were served, after which the gentlemen enjoyed their cigars. Those present were Mr. and Mrs. J. F. Buckle, Mr. and Mrs. P. A. Emmons, Mr. and Mrs. J. P. Emmons, Mr. and Mrs. R. I. Tolles, Mr. and Mrs. Hiram Woodruff, Mr. and Mrs. L. B. Woolston.

The Inauguration of Gov-Elect Griggs.

For this occasion the Central Railroad of New Jersey have made a rate of $1.11 from Plainfield to Trenton and return, and corresponding from all other stations in New Jersey. Tickets to be sold January 20 and 21, good to return until January 22 inclusive.

For the accommodation of residents of Union county a special train will be run through to Trenton on January 21st, leaving Elizabeth at 9:06 a. m. and Plainfield at 9:33 a. m., stopping also at Roselle, Cranford, Westfield and Fanwood. The Central's lunch car will be attached to this train for the round trip, which will be found a great convenience to the passengers.

Ready For Work.

The first grand rehearsal for the Crescent Wheelmen's minstrels took place last evening. It was decided to hold the entertainment about the middle of March instead of the middle of February as was at first planned. Regular rehearsals of the concert parts will be held every Wednesday evening and the rest of the private rehearsals will be held as suits the convenience of those taking part.

New Councils of the D. of L.

Mrs. W. W. Stratton, of East Third street, is doing good work in organizing councils of the Daughters of Liberty, which is an auxiliary to the O. U. A. M. and Jr. O. U. A. M. She has a council with fifty charter members to be instituted at Bound Brook next week, another one in Somerville under way, and from their she will visit Neshanic and Flemington.

Perils of Skating.

On Wednesday evening W. E. Martin, of the Postal Telegraph Company, had a narrow escape from drowning at Wilson's pond. Kind hands pulled him out of the water before he went under.

A Famous Society.

The Manuscript Society, of New York, gave a concert and reception in New York last evening. John C. Peck, of this city, was present.

—The petit jury at Somerville adjourned yesterday to Feb. 17th.

WORDS FROM THE HEART

DR. LEWIS' SOUND OBSERVATIONS ABOUT PROFESSING CHRISTIANS.

It Is Easy to Evade the Pastor and Deacon, but the Eye of the Lord Is On You Continually—Members Should Do Work.

Every seat was taken in the First Methodist church last evening when the revival services were continued, and there was a marked spiritual interest. More so than at any previous service. A fifteen minute song service, under the direction of David E Titsworth, and a fervent prayer by Rev. C. L. Goodrich, was a fitting preparation for that which followed. Dr. A. H. Lewis read a portion of the seventh chapter of Matthew, after which he took his text from Romans, eleventh chapter and twelfth verse: "Everyone shall give an account of himself to God." The doctor then said in part:

There is nothing so tender as divine love. The text takes in everyone in this church; everyone in a saloon. I have just as much right to be in a saloon as anyone there tonight. You say it wouldn't look well. It doesn't look well for those that are there now. It's very easy for you to evade your pastor and deacon, drift along and keep a good outside, chat in a flippant way about the meetings, but you can't keep God from knowing what's in your heart. We are always giving an account. Like a great camera, the lense is always pointed at you individually. I want to make you believe that you "shall give an account."

Anyone can float with the tide like a chip, but the church members will have to give a sharp account if they don't do more personal work. How many unconverted people have you brought to these meetings? If you don't know how to bring them in the Lord will teach you how if you want to learn. If you were going to make $50 you would do some very unpleasant things to secure it If the Christians are not up to your idea of goodness, neither are you. The divine love will not help you if you don't give your heart to God. You are not very good looking when placed alongside of the Ten Commandments.

After a strong appeal to the unsaved the doctor closed his discourse. A beautiful solo, "What Will You do With Jusus?" was rendered by Miss Bessie Blair, assisted by the choir on the chorus.

Dr. Barnes also made a few remarks urging all who felt their need to adjourn to the chapel where an after meeting was held. A very large number attended and the service was especially helpful. Dr. Barnes previously stated that he had received a letter yesterday with no name signed, in which the writer said "They had better stop the meetings now as any time and go into retreat." The doctor said in reply that if the person would make himself known he would be glad to hold a prayer service with him.

Owing to the illness of Rev. J. W. Richardson, the meeting this evening will be conducted by Rev. Dr. W. R. Richards, and the service will be one of great interest.

Regret Mr. Moffett's Retirement.

The Summit Record recently published the following concerning the retirement of Elmore D. Moffett from the County Clerk's office: He is a Democrat and no county in the State has ever had a more efficient or faithful officer. He has held the position for a number of years and is unusually familiar with the details of the entire office, but County Clerk Howard, who was swept into office on the Republican tidal wave of 1894, has found it necessary to provide another place for a tried member of the G.O.P. No charge could be brought against Mr. Moffett and his efficiency is recognized by Republicans and Democrats alike, but he must make room to provide for the faithful.

Another Opportunity.

A few who were not present at the first lesson of Miss Marsh's class of mixed voices, will meet to go over the preliminary work on Saturday evening, Jan. 18th, at 7 o'clock. Any who would like to join either the afternoon class for ladies or the evening class of mixed voices, are invited to be present.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

A FINE POINT RAISED.

JOHNSON'S LAWYERS WILL INSIST THAT HIS TERM EXPIRES IN 1899.

Reed & Coddington, His Lawyers, Have Raised Technical Points That May Cause a Long Drawn Out Contest.

Collector Johnson has retained Reed & Coddington to represent him in the quo-warranto proceedings instituted by Elias Bird to oust him from the office of City Collector, and a new point has been raised by them. In a conversation with a Press reporter today Mr. Reed stated that he had not yet carefully examined into the case, but that it struck him that probably Mr. Johnson was entitled to hold the office for the next three years. "Johnson was elected in December, 1892," he said, 'the term being at that time one year. Early in 1893 the Legislature passed an act making the term three years, but the act failed to state whether it was intended to apply to collectors then in office or was limited to those thereafter to be elected. Johnson was re-elected in December, 1893, and, of course, to fill a term to begin at the expiration of the term he was then holding. If the Court shall determine that the law of 1893 did not affect those in office at the time that law was passed, then it follows that the office next became vacant in January, 1894, and Johnson's election in December, 1893, was for a term of three years beginning January, 1894, and which will not expire until January, 1897. In that case he has one more year to serve.

"If, on the other hand, the law of 1893 did extend the term of the collector then in office, then Johnson's term did not expire until January, 1896. In that event, the term for which he was elected in December, 1893, did not begin until the office next became vacant, or in other words until January, 1896; and in that event he would then take office for three years from that date, or until January, 1899.

"What is there to prevent the election of an officer two years before the term begins? Sheriffs take office a few days after election. Members of the Legislature and the Governor take office a few months after election. Congressmen do not take office until a year and a month after election. There seems to be no legal obstacle to an election being held one, two, three or more years before an office becomes vacant.

"Nearly all elections are held in anticipation of the time when will become vacant. Is it not clear then, that although when Johnson was elected in December, 1893, there was no vacancy, his term would begin when next the office became vacant? If that vacancy did not occur until January, 1896, why should he not then hold office for three years from that date?

"We will insist that such is his legal right?"

GERMANS TRANSACT BUSINESS.

Committees of the Saengerbund Society Appointed Last Night.

An adjourned meeting of the Gesang and Turn Verein Society was held last evening with President Schoetlin in the chair. Fred Conde was elected color bearer, and Otto Kellar and Paul Posteler, assistants, while Charles Myer and Christopher Bender were chosen as marshals. The following committees were elected:

Finance—Max Otto, Carl Felber, Charles Duvier.

School—Christopher Kellar, Herman Klinsman, Henry Meyer, Carl Felber, Jacob Kellar.

A committee consisting of Herman Klinsman, Louis Moraller and Ignatz Kohler were appointed to revise the by-laws, and the following committee was appointed on entertainments, Rudolph Speigel, Rudolph Wuergle and Carl Felber.

The finance committee's report showed the total receipts for the past year to be $2,551.35 and the expenditures $2,099.27. In the latter is included $500 on the indebtedness. Next Thursday night the officers will be installed and a banquet will follow. At the next regular meeting a full and complete report of the society will be rendered.

Smashed The Wagon.

A horse, belonging to J. Y. Barrett, of Dunellen, ran away this morning and succeeded in wrecking the road wagon attached by turning a corner too sharply. The horse was standing in front of Pope's stable on West Sixth street, while a boy sat in the wagon. The horse started suddenly throwing the lad out. The horse started down the street and was finally caught by Mr. Love, the grocer.

JACKSON ACQUITTED.

The 13-Year-Old Boy Charged with Killing Young Sullivan Testifies.

That there is intense interest in the trial of Clinton Jackson, the thirteen-year old colored boy charged with killing Florence Sullivan on December 24th, is shown by the fact that the Somerset County Court is crowded at each session. Yesterday, after much testimony of minor importance, Jackson was put upon the stand. His story is as follows:

"On that morning when I went to go in the barn Sullivan pointed a pistol at me and said he was going to shoot. I jumped at him and grabbed his arm. Then we fought for five or ten minutes, when suddenly the pistol went off and shot Sullivan dead."

There are two facts against Jackson. One is that at first he denied knowing how Sullivan come to his death. This he says he did because he was afraid they would whip him. The other is that he carefully hid the pistol. This he says he did for fear they would think he had shot Sullivan. By these two pieces of evidence, and by the fact that Jackson was very quarrelsome and had before threatened Sullivan's life, the prosecution hopes to prove that he is the murderer.

Charles A. Reed was the counsel for the defendant.

The jury took the case at 2:30 this afternoon, and in half an hour returned a verdict of not guilty.

GOVERNOR GRIGGS' STAFF.

The Men the New Executive Has Selected.

The news comes from Paterson that Governor-elect Griggs has been making selections for his staff as commander-in-chief of the State's military and naval forces. Editor Sheffield Phelps, of Jersey City; Henry A. Potter, of East Orange; Wm. Barbour, of Paterson; Capt. Nathan Haines, of Paterson, and Col. A. R. Kuser, who is a member of Gov. Werts's staff, have thus far been selected. It seems also understood that Col. Joseph W. Congdon, of Paterson, who made the speech nominating Griggs in the Republican State Convention, will succeed Gen. Heppenheimer as Inspector-General of the National Guard. The Battalion of the West of the Naval Reserve and a detail from the Trenton Regiment of the State Militia will be on duty at the inauguration next Tuesday.

WILL TRIM THE TREES.

Foliage on Streets Prevents Good Service From Electric Light.

The Lights and Trees Committee of the City Council have under consideration many improvements in their department. In certain sections of the city the limbs of trees are so thick and hang so low that it is impossible to derive the best service from the electric lights. Another disadvantage is that where such trouble exists the ground is very damp, and during the spring and summer it is apt to breed malaria. It is considered a very wise measure to keep the trees well trimmed not only for the above reasons, but for the safety of pedestrians who are obliged to travel at night.

Late, But Had a Good Time.

Delegates from Miantonomoh Tribe No. 118, and Paugh-Caugh-Naugh-Singue Tribe, No. 193, I. O. R. M., went to Perth Amboy last night to assist in the raising up of the chiefs of Po Ambo Tribe. They arrived there too late, however, and came in for the good of the order. The Plainfield members were called upon and entertained the home tribe by relating stories. An adjournment was made after the meeting to Saenger Hall where a bountiful supper was served. The floor was then cleared for dancing. When the visitors arrived home this morning the hands on the clock registered 6:40, but then they all had a good time and the hour didn't count.

Suing For a Death Claim.

Assemblyman W. R. Codington has brought suit against the United States Industrial Insurance Co., for Mrs. Claassen, of Liberty street, for a death claim owing to the death of her brother Max Hansen, who died a year ago. The case was brought before Judge Henry, of Newark today, and the result is anxiously waited for, as it will effect several other cases of a like nature.

Arrangements Completed.

The U. S. Grant Republican Club held a continuous meeting at their rooms last evening from 7 to 12 o'clock. Arrangements were completed for the trip to Trenton, forty-nine having signified their intention of going. Vocal and instrumental music and speeches helped to pass a most pleasant evening.

CONFUSION A SUCCESS.

CLEVER PERFORMANCE BY THE CATHOLIC DRAMATIC CLUB.

The Production Presented Before a Large Audience Who Enjoyed Its Many Humorous Situation and Lines—The Characters.

It was a great success and the enthusiastic audience that thronged Music Hall last night were unanimous in their praise of those who took part in the presentation of the comedy "Confusion." It was by far the best performance ever given by the Dramatic Association of the Plainfield Catholic Club, and was very creditable to the amateur actors that took part in it.

The cast was made up entirely of local talent and was as follows:

Mortimer Mumpleford, tired of honeymoon. M. J. Cashin
Christopher Blizzard, in love with Lucretia and her money. Chas. J. Ward
Rupert Sunbury, real nice young man. M. J. Winn
James, the butler. Thos. J. Comorford
Dr. Jones, who cures by the power of his eye. W. J. O'Brien
Michael Muzzle, an officer in plain clothes. W. C. Guinee
Rose Mumpleford, who wants something to fondle and caress. Miss Etta Blatz
Violet, young, romantic and of course in love. Miss Julia Day
Lucretia Trickelby, a maiden lady with money. Miss Alice Keely
Maria, housekeeper. Miss Kate Cullen
The Baby, the first appearance on any stage. Marie O'Connor
The Dog. Grover

The play itself was excellent, and its many misunderstandings, humorous situations and witty lines pleased the large crowd and kept them in continual roars of laughter.

The plot was based on the mixing of the pug and the baby, and was exclusively published in The Daily Press sometime ago. M. J. Cashin as "Mortimer" was the hero and had his part down to a fine point. His agony was well feigned and his ravings delighted the audience.

No fault could be found with Mr. Ward. He was just suited to the character he played and managed to work in some original witticisms besides those of the play. His struggles to hide the pug and make love at the same time were laughable to say the least. Mr. Winn carried his part without trouble and made a romantic lover. Mr. Comerford especially delighted the young people and his every appearance on the stage was a sign for a roar of laughter. His antics as the English butler, brought down the house. Messrs. O'Brien and Guinee were up-to-date and the scene between "Dr. Jones" and "Mortimer" when the doctor tries "the power of his eye," was one of the best. Another scene that took the popular eye was when "Rose" and "Christopher" plan to drown the pug and "Mortimer" over hears them and thinks it is the baby.

Among the young ladies, Miss Blatz deserves great credit. For an amateur her acting was remarkable and she never once forgot the situation, but kept in touch with the rest. The character of the sentimental wife was excellently represented by her. Miss Day was thoroughly up in her character and proved a splendid indignant champion for "Rose." One of the most difficult parts was acted by Miss Keely, but it did not seem to be too much for her abilities. Miss Cullen was good, very good in fact, and deserves lots of praise as does Marie O'Connor, who certainly will be a great actress some day. Grover, Miss Blatz's pug, carried off the honors of the evening by yelping and squealing just at the right time.

During the play, the duett "Reuben and Cynthia," by Miss Keely and Mr. Ward, was introduced as well as the solo "Henrietta," by Mr. Comerford. They were both well rendered. The play closed with a song by Mr. Ward and a chorus by the rest of the cast.

Among the spectators there were none who enjoyed the entertainment more than a party that occupied one of the boxes. It consisted of Fathers Stafford and O'Neill, of Seaton Hall, Father Dunn, of Chatham, Father Carroll, of Elizabeth, Father Smith, of Cranford, Father Miller, of North Plainfield, and Fathers Symth and Murphy, of this city.

—At Swain's, on East Front street, you will find a full supply of materials for china painting, oil, water color, pastel and designing. 2

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

GEN. GOMEZ DEFEATED

Spanish Minister Receives the News from Madrid.

Several Other Small Engagements Also to the Advantage of the Royal Troops—Senor De Lome Says There Is No Reason for Alarm Concerning Havana.

Washington, Jan. 17.—In the senate yesterday afternoon a resolution offered by Mr. Sewell, rep., N. J., and which now lies on the table, condemns the course of the president in the Venezuelan boundary dispute and defines the limits of the Monroe doctrine. It declares that the Monroe doctrine was originally meant to prevent European powers from acquiring the then revolting Spanish colonies when their acquisition would, by reason of propinquity, be dangerous to the safety of this government, and that we have never given any pledge that binds us to act merely for the protection from invasion of these countries unless our integrity is menaced. It then states that the president has pressed the doctrine beyond what was originally contemplated, and that the result would be to commit this government to a protectorate over Mexico and the Central and South American states; that this course of the president was unwise and dangerous, violating our time-honored policy of avoiding entangling alliances with foreign powers; and that such action in view of the business and financial condition of this country, was premature. It further declares that neither congress nor the country is committed by this action of the president in the Venezuelan controversy and that after the report of the commission has been made will be the proper time for taking such action as may be demanded by our sense of duty in the matter.

Cable to Hawaiian Islands.

A resolution offered by Mr. Cullom, rep., Ill., was agreed to calling on the the secretary of state for information regarding the alleged detention by the Turkish government of naturalized American citizens of the United States. Mr. Hale, rep., Me., spoke on his bill to facilitate the construction and maintenance of a telegraph cable to the Hawaiian islands by guaranteeing the interest on the money actually expended. He urged that such a cable would, in effect, give notice to the world that the interests of the two governments and peoples had become so connected that all attempts at interference would cease. Mr. Peffer, pop., Kas., concluded his speech begun Wednesday in favor of free silver coinage and against the issue of bonds. Announcement was made of the death of the late Representative Cogswell of Massachusetts. The usual resolutions were adopted and as a further mark of respect the senate at 4:45 adjourned till Monday.

PERHAPS A WRECK.

Articles Likely to Come from a Vessel's Cabin Washed Ashore.

Sandwich, Mass., Jan. 17.—A freezing northeaster has been blowing down Cape Cod bay for the past two days, until there is quite a heavy sea running on the beach, and with it comes evidence that either some lumber vessel has been swallowed up by the sea, or that the deckload of some one of the down easters has been swept overboard, as the beach all along between here and Barnstable harbor is strewn with shingles and other kinds of lumber. Canned goods, pieces of furniture and other articles that would be likely to come from the cabin of a coaster have been picked up.

LITIGATION COMMITTEE.

Appointed To Look After Joint Traffic Association Interests.

New York, Jan. 17.—The board of control of the Joint Traffic association at its meeting yesterday authorized the chairman, president George B. Roberts of the Pennsylvania railroad, to appoint a committee of five to take charge of the litigation instituted against the association at the instance of the interstate commerce commission. Counsel for several of the railroads were present at the meeting to furnish opinions on the points involved in the proceedings.

FATAL FIRE IN STAMFORD.

Three-Year-Old Boy Burned to Death in a Hotel.

Stamford, Conn., Jan. 17.—Fire started last evening from some unknown cause in a room on the fourth floor of the Grand Union hotel, occupied by B. H. Dobbs, a New York encyclopedia agent. His three-year-old son was in the room alone and was burned almost to a cinder. The damage to the building was slight.

President Eliot Will Not Reply.

Boston, Jan. 17.—President Eliot of Harvard university, when asked if he had any reply to make to Susan B. Anthony's denunciation of him, replied that as far as he was concerned there was not a single word to be said.

Henry Irving's Son To Wed.

London, Jan. 17.—The Morning today says that H. B. Irving, son of Sir Henry Irving, the well-known actor, is engaged to be married to Dorothea Baird, who is playing at the Haymarket theatre in "Trilby."

Six of the Crew Drowned.

London, Jan. 17.—The schooner Swift was wrecked yesterday near Peterhead and six of her crew were drowned.

DATHROP INVESTIGATION.

Inquiring Into the Conduct of the State Prison Superintendent.

Albany, Jan. 17.—In the investigation into the charges against Superintendent of State Prisons Lathrop yesterday afternoon the first witness was F. F. Wheaton, industrial clerk of Auburn prison. He was interrogated as to the books upon which the horse collars sold to Hiram W. Babcock were entered. He merely gave details showing where the entries were made. Byron M. Child, an expert accountant from the state comptroller's office, next testified as to what his investigation of the books at Auburn, made within the last two weeks, revealed. He presented tabulations from some of the books of the prison showing some of the results of the broom corn industry. On cross-examination he stated that he approved the system of bookkeeping in use at the prison and could suggest no changes therein. No evidence was given by him tending to show there were errors in the books of the prison. Charles K. Baker, chief clerk under Supt. Lathrop, was recalled and questioned as to some details of the office management, and was followed by Principal Keeper Connaughton of Sing Sing, who has held that position since 1883. Mr. Connaughton's examination had just begun when an adjournment was taken.

CARDINAL SATOLLI'S PLANS.

To Go to New Orleans, Visiting Atlanta, St. Louis and Cincinnati.

Washington, Jan. 17.—Dr. Rooker, secretary of the papal legation, says that Cardinal Satolli is preparing to go to New Orleans to attend the opening of the winter school, occurring about Mardi Gras, Feb. 18, remaining there during carnival week. The cardinal will go by the way of Atlanta, stopping there possibly a day or two, and return through St. Louis and Cincinnati, reaching this city possibly about the 1st of March. Even should a consistory be held in March, Mr. Rooker doubts whether the cardinal would be summoned to attend it. He considers it far more likely that the cardinal will go to Rome for the June consistory. Dr. Rooker added that only quite recently Cardinal Satolli had expressed a wish that he might be granted six months' leave after his successor had been appointed, so that he might travel through the United States and see the country more thoroughly than he has been able to do, with the pressure of his official duties upon him.

PRISON-MADE GOODS.

Speech of Mr. Dowling at the State Federation of Labor Congress.

Albany, Jan. 17.—At the afternoon session of the Federation of Labor, State Commissioner of Labor Statistics Dowling, was granted the privileges of the floor and in a short address promised that in the event of his reappointment by the governor he would do all in his power for the laboring man. He advocated a law to make necessary the labelling of prison-made goods and said goods manufactured by convicts should not be contracted for by outside parties so as to come into contact with honest labor. The following officers were elected: President, Daniel Harris, New York; first vice-president, Thomas D. Fitzgerald, Albany; second vice-president, William Lipman, Troy; secretary and treasurer, Richard Curran, Rochester.

AMERICANS PROTECTED.

British Consular Agents Aiding Our Citizens in the Transvaal.

Washington, Jan. 17.—Nothing further bearing on the arrest of John Hayes Hammond and other Americans in the South African republic has been received by Secretary Olney except a cabled dispatch from Mr. Manyou, United States consular agent at Johannesburg, saying that Mr. Olney's instructions relative to securing protection for American citizens had been received and would be attended to. British consular officers in the Transvaal are presumably caring for the interests of citizens of this country in accordance with the request of Secretary Olney and the instructions of Colonial Secretary Chamberlain, with diligence equal to that pursued in the cases of British subjects.

CHICAGOANS JUBILANT

Elated Over Their Success in Winning the Convention.

The New York Delegation Chagrined Because of Their Failure To Secure the Prize—Unexpected Strength of St. Louis—July 7, the Date, Pleases the Democrats.

Washington, Jan. 17.—Those members of the New York delegation who are still here this morning are very much chagrined at the failure of their city to capture the democratic national convention, while the friends of Chicago are exceedingly jubilant over the fact of carrying off the prize. The western men, who were hostile to New York, made St. Louis the rallying point and throughout the entire twenty-nine ballots they were loyal to the city of their choice. The splendid showing made by St. Louis surprised the best posted politicians at the Arlington hotel as it was believed that she could not rally to exceed fifteen or eighteen votes, that she would then drop out of the race and that the fight would narrow down to Chicago and Cincinnati. That she did stay in the race and in the concluding ballots steadily increased her strength shows how admirably her forces were disciplined.

New York's Poor Showing.

New York's poor showing did not surprise any one who was familiar with the situation. It was not that New York's campaign was not cleverly managed, for her delegation neglected no argument that could secure her the support of the committee. It was obvious yesterday afternoon that she could not win but her representatives pluckily continued the fight in the face of certain defeat. It was thought that Cincinnati might be the second choice of a sufficient number of members to secure the prize, but this hope was not realized. At no time during the day was Cincinnati a serious competitor and at no time did she secure more than twelve votes. Chicago began with six votes and it was not until the fourteenth ballot that she increased them to ten.

Chicago's Steady Gains.

She remained practically at that figure until the twentieth ballot, when her strength was increased to thirteen. Again she stood practically still until the twenty-seventh ballot when her vote of sixteen in the preceding ballot was increased to twenty. At that time St. Louis, which had begun with nineteen, had twenty votes. New York had fallen to three and Cincinnati to six. It was then manifest that not only had the fight narrowed down to Chicago and St. Louis, but that Chicago's steadily increasing gains indicated her ultimate victory. This came in the twenty-ninth ballot when her vote of twenty-one in the twenty-eighth ballot was increased by five, thus giving her a bare majority, while Cincinnati was reduced to one. New York's four on this ballot went to Chicago.

The Date Pleases Democrats.

The selection of July 7 seems to please prominent democratic delegates now in this city. The selection of so late a date was not unexpected, as several days ago it was predicted that the convention would not be held until about the middle of July, some even going so far as to say that it might be held as late as the first week in August.

THE GERMAN REICHSTAG.

Debate on Proposition To Establish a State Grain Monopoly.

Berlin, Jan. 17.—The reichstag yesterday debated the motion of Count von Kanitz in favor of the establishment of a state grain monopoly. Baron Marschall von Bieberstein, minister of foreign affairs, declared that the proposed scheme was utterly impossible and impracticable. It would involve the negation of the treaties of commerce that Germany had entered into with other powers. The members of the central and left applauded the minister's remarks, while the members of the right hissed them. The chamber then adjourned.

Notorious Thieves Convicted.

Pittsburg, Jan. 17.—Henry Schwendener, and William Burke, two sneak thieves with a reputation known to police officers all over America, were yesterday convicted of robbing the Commercial Gazette counting room of $450 a month ago, and will be sentenced to-morrow. They were arrested in Detroit for the robbery.

To Decide on Yale's Action.

New Haven, Conn., Jan. 17.—A meeting of Yale undergraduates and alumni prominent in boating has been called for next week to decide what action Yale will take in making application to join the boat race on the Hudson between Harvard, Cornell, Columbia and the University of Pennsylvania.

HOOD'S PILLS Cure LIVER ILLS

ALL AT SEA

But Finally Rescued from Danger. Result of Taking a Friend's Advice.

There are thousands of women to-day entirely at sea, so to speak, as far as their ailments are concerned.

They are overtaken by some female complaint, and send for their doctor in all haste. He usually tries this and that without success; he is all at sea, and his poor patient is with him.

Suddenly a lady friend tells the sufferer to try *Lydia E. Pinkham's* Vegetable Compound because it has cured her.

The following letter shows the result of that trial, and is a sample of thousands of similar cases happening daily.

"I had been very sick for a long time; doctored with many prominent physicians. They pronounced my case dyspepsia, and said there was a tendency to cancer of the womb. There was a sense of fulness and weight in stomach after meals, loss of appetite, and offensive belching of wind, dizziness, 'all gone' feeling in pit of the stomach; headache, heartburn, palpitation at times, urine high colored. A lack of interest in all things.

"The doctor's medicines gave me but little relief. I was almost in despair, when a friend advised your Compound. I took it, and am now perfectly well. I can recommend it to all women. A number of my friends and neighbors have taken it on my recommendation, and have always found relief." — MRS. JAMES CRANKSHAW, Frankford, Pa.

AFRAID OF PUBLICITY

Why Turkey Refuses To Admit the Red Cross.

Views of George Kennan, the Celebrated Traveler—He Says Bad Weather and Rocky Roads Would Make the Work of the Society Impossible at This Season.

Pittsburg, Jan. 17.—George Kennan, the celebrated traveler, in talking about Armenia last night, said: "It is absolutely improbable that the Red Cross will seek to enter Armenia to relieve the enormous distress there, for two reasons: The sultan has forbidden it and, quite justly, our government will offer Clara Barton and her band no assistance. Supposing the Red Cross should carry their good Samaritan work into the districts where the massacres are reported the results would be that their reports would give full detail of the atrocities committed by the Turks on the defenseless Armenians. It is these reports that the sultan fears and it is to evade broadcasting them that he denies admission to the Red Cross. The country he says is now in the midst of a rigorous winter; it is very mountainous, and the roads, at best, are hardly more than bridle paths. This would make it impracticable at this season for the members of the society to carry on their work in Armenia.

The Armenian Massacres

"The sultan would never permit the necessary military escort to guard the supplies from the attacks of the Kurds which infest the mountain highways and the sufferings of the Red Cross people from these causes can only be imagined." Mr. Kennan thinks the recent massacres in Armenia the most atrocious in modern history, and that Turkey should be wiped off the earth. He says that America should follow one of two courses in treating with the question—refuse to naturalize Armenians, or, when once citizens of this country, accord them complete protection. Should Turkey refuse this protection our government should demand full indemnity or seize the porte and appropriate the revenue until our claim is satisfied.

GEN. E. B. FOWLER DEAD.

The Old Soldier Passes Away at His Home in Brooklyn.

Brooklyn, N. Y., Jan. 17.—Gen. E. B. Fowler died yesterday afternoon in the Brevoort house, which was his home. Gen. Fowler had been ill for the past three months, and the result of his death was due to a complication of diseases. He leaves a widow, a daughter and a son. Gen. Fowler was born in New York in 1827. He was lieutenant-colonel of the 14th New York regiment at the battle of Bull Run, and after the battle was made the colonel of the 14th. He was seriously wounded at Groveton, or the second battle of Bull Run, and again at Gettysburg. In other engagements he was either in command of the regiment or of the brigade to which it was attached. On June 6, 1864, Lieut.-Col. Fowler was mustered out of service with his regiment and at the same time, in recognition of his gallant and meritorious conduct, he was brevetted brigadier-general. For years Gen Fowler was president of the 14th N. Y. S. M. War Veteran association.

TWENTY YEARS IN PRISON

To Escape Mob Law, Dr. Logan Was Tried at Midnight.

Chattanooga, Tenn., Jan. 17.—To preserve the law and avoid the likelihood of mob violence, Dr. Eugene Logan, who a few days ago assaulted a little 12-year-old girl in his office at McMinnville, was taken from jail at midnight and given a speedy trial. The prisoner admitted his guilt and threw himself on the mercy of the court. He was sentenced to serve twenty years in state prison.

CORBETT'S NEW VENTURE.

The Pugilist About To Establish a Racing Stable.

New York, Jan. 17.—Four blooded horses belonging to James J. Corbett, the pugilist, arrived at the Morris park race track yesterday in the care of keepers. It is said that Corbett purchased the horses from the stock farm of Gideon & Daly at Holmdel. The horses, it is further stated, are to be the nucleus of a racing stable that Corbett is about to establish.

Appointed by Gov. Morton.

THE NEW BOND ISSUE.

Comptroller Eckels Issues a Circular to National Banks.

Washington, Jan. 17. — James H. Eckels, comptroller of the currency, has issued the following circular to the 3,800 national banks of the United States: "Some days since, at the request of the secretary of the treasury, I caused to be forwarded to you circulars inviting proposals for the four per cent. bonds soon to be issued by the government. In order that offers for the same may be made more intelligently by those desiring to bid, there has been prepared by the treasury department the enclosed statement exhibiting the prices to be paid for the bonds in order to return to the investor certain rates of interest in said statement mentioned. It is the desire of the government that these bonds be distributed as widely as possible and as they are of a character which affords to national banks especially desiring to obtain circulation a long time investment, your attention is called to them, both as to this particular feature and that of the general character of the investment. It is suggested that the national banks can materially aid the government in popularizing this loan by calling the attention of their patrons to the desirability of it as an investment, and in stimulating subscriptions thereto. It is earnestly requested that you explain to your patrons in detail the manner of making bids and the terms thereof, thus giving them the fullest information upon the subject. In this manner it is believed that many of our people who might otherwise feel indifferent to such investment would see the advantage attached to it and wish to participate therein."

FIRE IN SING SING PRISON.

Convicts Work Hard To Subdue a Stubborn Blaze.

Sing Sing, N. Y., Jan. 17.—A stubborn fire broke out at the prison at 3 o'clock yesterday afternoon in a building occupied by the hair-picking industry and containing the dynamo used in electrocutions. The village fire department, assisted by the convicts, who acted splendidly, fought the fire for nearly two hours. The hollow-ware building and the Bay State Shoe & Leather company's buildings at one time were threatened, but with the combined efforts of the fire department and the convicts both were saved, the convicts acting like veterans. The cause of the fire is supposed to have been the overheating of the machine used for picking hair. The loss is about $5,000. The building is ruined, but the loss on stock is small as the manufactured stock had been removed from this building to another. Warden Sage was very much pleased with the behavior and work of the convicts.

FIRE ON THE MONOCACY.

Blaze Attributed to Spontaneous Combustion of a Bale of Oakum.

Washington, Jan. 17.—The official report of the fire on the Monocacy, concerning which the United Press had a dispatch from Victoria, B. C., has been received at the navy department. According to the statement of department officials the blaze was attributed to spontaneous combustion of a bale of oakum. The fire damaged the base of one of the Monocacy's masts, but further than this, the report says, there was no damage.

COLORED DOORKEEPERS.

First of Their Race To Hold That Position in the House.

Washington, Jan. 17. — George D. Stinson of Pittsburg and W. H. Grimshaw of New York, two colored men, have been appointed assistant doorkeepers, and are stationed in the entrance to the men's gallery of the house of representatives. It is said they are the first colored men ever appointed to a position of this nature at the capitol, although there have been frequent appointments of colored men in the libraries and in other capacities.

COLORED WOMAN'S REVENGE.

Malinda Jackson Fatally Wounds the Man Who Insulted Her.

Williamson, W. Va., Jan. 17.—Yesterday afternoon Malinda Jackson, colored, entered a restaurant owned by H. E. Swanson, white, and without a word of warning plunged a knife into his body several times before she was overpowerd. She claims that Swanson insulted her a few days ago. His wounds are fatal.

Central Stamping Company Beaten.

New York, Jan. 17.—In the special term of the supreme court Justice Freedman directed a verdict in favor of the plaintiff in a suit brought by the attorney-general of the state against the directors of the Central Stamping company to prevent that company from doing any further business.

State Prison Commission Expenses.

Albany, Jan. 17.—The state prison commission yesterday afternoon made provisions for the drafting of bills appropriating $18,000 for its expenses during the past and the present year, the act bringing it into being having failed to carry an appropriation.

Boston Horse Show.

London, Jan. 17.—Advices were received in this city yesterday stating that Prince Henry of Battenburg, now at Cape Coast Castle, who arrived there suffering from fever, is much improved.

THE MONROE DOCTRINE

Senator Sewell's Resolution Defining Its Limits.

Condemns the Course of the President in the Venezuela Boundary Dispute—His Action Premature—Mr. Hale's Bill for the Construction of a Cable to Hawaii.

Washington, Jan. 17.—Senor Dupuy de Lome, the Spanish minister, late yesterday afternoon received the following dispatch dated January 16, from the Duke of Tetuan, minister of foreign affairs at Madrid: "Gen. Suarez Valdez met and defeated Gomez, killing and wounding some of his men who were left on the field. Col. Molina defeated a band in the jurisdiction of Colon. The column of Jorri also defeated the enemy in the Clariera plantation. Col. Marti also met and defeated another band in Sancti Spiritus. There have been other small encounters also to the advantage of the Spanish army, but without great result because of the policy of scattering adopted by the insurgents. I telegraph the news to you with perfect accuracy." The Spanish minister declares that the alarming news published is without foundation. Gomez is trying, without result, to return to the eastern end of the island and has had several sharp engagements in Ceiba, Quibican, Guanajay and Bejucal trying to break the Spanish line and pass to the province of Matanzas. There is no more reason for alarm now, he says, than two weeks ago, when the insurgents approached Havana, but retired without accomplishing anything.

Reported Rebel Reverses.

Havana, Jan. 17.—The general situation here is unchanged. The rebels have retired from the vicinity of Bejucal. Traffic has been resumed on the railway to Rincon. Very little news is being received from the interior of the island owing to lack of trains and the cutting of the telegraph wires by the insurgents. An official report has been issued stating that Gen. Luque has had an engagement with the rebels near Candaleria, in the province of Pinar del Rio. The government force used artillery. The fight lasted two hours, when the rebels retreated, leaving seven dead behind them. The government loss was seven wounded. The troops captured sixty horses and a quantity of arms and ammunition. The rebels were commanded by Nunez and Alvarez. Gen. Linares reports that he has dispersed a band of forty rebels near Palmira, in the Cienfuegos district.

OFFICIAL TURKISH NEWS.

Mussulmans Murdered by the Armenians at Zeitoun.

Washington, Jan. 17.—The Turkish legation has received from the sublime porte the following telegram: "The number of soldiers at Zeitoun during the capture of barracks by the insurgents was 562, without counting those of the military posts of Eredjak and Chenksoun. Only ninety-seven out of these soldiers succeeded in escaping on different occasions. There have been discovered in the current of water that passes through Zeitoun about sixty bodies of Mussulmans murdered in the most atrocious way. Order is perfect in the rest of the empire."

STRATFORD'S NEW LIBRARY.

The $30,000 Building Dedicated with Fitting Ceremonies.

Stratford, Conn., Jan. 17.—The dedication of the library presented to the town by the Stratford Library association took place yesterday afternoon in the town hall with fitting ceremonies. President Dwight of Yale college was present and made an address on literature in general. The Library association was founded by Birdseye Blakeman of New York about three years ago and the edifice which was presented to the town is valued at $30,000. In the evening a reception was tendered the visitors, who delivered addresses in the library building.

KING PREMPEH SUBMITS.

Accepts All the Terms Imposed by the British.

London, Jan. 17.—The Chronicle publishes to-day a special dispatch from Cape Coast Castle stating that King Prempeh has fully submitted to the British, accepting all the terms imposed on him. The dispatch adds that the British force will enter Coomassie tomorrow.

Plainfield is one of the few cities in the country where the hue and cry for administrative reform is prominent by its absence.

Whether hogs should be kept within the limits of the city was the exciting issue at a city election in Dover, Del., a few days ago. The friends of the porkers won.

The Somerville Unionist-Gazette says that Assemblyman Reed endeavored to get the appointment of bill clerk in the Assembly, but the caucus refused to grant it.

The city of Florence, Italy, levies a tax of not under 25 per cent. upon every necessity of life that comes through its gates. McKinley must look well to his tariff honors.

The State agriculturists will go before the present Legislature and endeavor to secure such legislation as is possible for their interests. One of the matters to be pushed will be action to prevent the sale of oleomargarine, which it is claimed is now sold in the State in violation of the law.

Plainfield Common Council has legislated against the sale of all liquors on the Sabbath, including sweet cider. This is right, too. If it is wrong to sell liquor at all every kind should be included. If it is not right for a dry goods merchant to keep an open store on the Sabbath why should it be right for a liquor seller? We believe in having our laws enforced.—Somerville Unionist Gazette.

The sudden recall of "Commander" Ballington Booth, chief officer of the Salvation Army in the United States, coupled with the fact that he was not consulted by his father on the subject, throws a curious light on the workings of this remarkable organization. It is a well-known fact that readiness to obey orders *without question* and without demur is demanded of every member, whether he or she be of high or low rank. Two of the monastic vows, those of poverty and obedience, are enforced with an almost mediæval strictness.—Evening Sun.

Rev. Theodore Cuyler, who is well and favorably known in this city, expresses the following sound words with reference to the Armenian question:

I am always glad and willing to speak on a subject which concerns persecuted Turkish Armenia. A week ago last Sunday I introduced a resolution at my church, urging, first, the President to increase his efforts to protect all American citizens in Asiatic Turkey, and second, that the National Government should be urged to send supplies to the suffering and starving people by one or more men-of-war. I believe that if a fleet were sent to, say, Beyrout, it would show more emphatically than a mere declaration on the part of the Government our position in this Armenian affair. It would have an immense moral effect on Turkey and on the powers of Europe. The European powers have spent a tremendous amount of time in discussion and argument, but if the United States Government were to send men-of-war, laden with provisions, on that mission, it would not only relieve Armenia, but would incidentally increase our naval force. Of course, the intention would not be to wage war on Turkey, but prompt relief would be an act of humanity. I decry war, because I don't think that it is right or necessary, and I think such a mission as I have proposed would have a greater moral effect than a battle.

THEATRICAL.

Manager Davis has again given the patrons of his theatre on Linden street one of the best and most entertaining shows on the road, the grand production from the pen of Henry Petit, "Hands Across the Sea," which is being presented the first three days of this week under the direction of W. S. Reeves. It is a good melo-drama, free of romance and excitement. Through it all there runs a high vein of good clean humor and fun so that the most fastidious critics could not but be pleased. The play consists of a plot in which a rich Englishman has been made a victim of French treachery and is saved through the loyal and indefatigable wife.—The Scranton Times. At Music Hall tonight.

It is said that a negro cannot imitate his own characteristics. Though full of comical conceits, original humor, prone to look upon the ludicrous side of all things save religion and death, he cannot go on the mimic stage and make others laugh at his portrayal of humor peculiar to his people. It was left for the white man to make the humor of the negro race. Popular in a theatrical performance are Al. G. Field, Tommy Donnelly, Alf Gibson, Milt Hall, Doc Quigley, Billy Smith, Neil O'Brien, Wm. Rowe and Harry Howard. These are all well-known names to those who enjoy good negro comedy. These stars are with the Al. G. Field Big White Minstrels and burlesque of Utopia, to be seen here next Thursday.

The Vacant Seat.

It is a cold December evening. The leafless trees throw a network of shadows on the walk. Leaden clouds are scudding over the sky, and a myriad of tiny snowflakes float waveringly on the frigid atmosphere and then fall unheeded upon the shoulders of the two men who have been standing on the curb for the past quarter of an hour, waiting for an up town car.

The varicolored lights of the approaching car at length appear in the distance, and as the car itself ultimately slackens speed at the crossing the two shivering figures on the corner, simultaneously observing that it contains but a single vacant seat, hasten forward with the common intention of securing it.

The fat man with the florid face reaches it first and drops heavily into it with a grunt of mingled triumph and satisfaction.

The thin man grabs viciously for a strap and remains standing in front of his more fortunate fellow passenger. Fixing his eyes savagely upon the placid countenance beneath him, he remarks in a voice husky with emotion, "Huh, this company ought to charge its passengers by the pound!"

Settling back more comfortably in his seat, the fat man observes, with an unruffled visage and in tones quite audible to the eagerly waiting passengers, "Humph, if they did, they would never stop to pick you up!"—Life.

Kept Young For Sisters' Sake.

He was down town yesterday afternoon and met two young ladies of his acquaintance.

They were accompanied by their sister, a pretty, red cheeked little girl in dresses just below her shoe tops. Any one would have fallen in love with her on the spot if she had been old enough, he thought.

After the usual small talk there came the usual embarrassing pause, and the young man gazed admiringly at the little sister.

She blushed. It was the right thing to do. She looked better that way.

"This is a right pretty little sister you have," said the young man.

The young thing was pleased. He could see that she was.

"I only wish she were a year or two younger," he continued.

"Why?" asked one of the older girls.

"I should like to kiss her then," said the young man. "She's 'most too old to be kissed now."

"Oh, no, she isn't," said one of the girls. "Sis is all right. She's only 19."

The January high score record at the Park Club was broken again yesterday afternoon by William Thiers who rolled 245.

Next Tuesday night the Cranford C. C. will go to Bergen Point and meet the New Jersey Athletic Club in a game in the Central Journal Bowling League.

You can't lose the "Regulars" of the Park Club if you do get ahead of them at first, and last evening they showed the "Plainfielders" how to bowl. It only took two games to settle the veterans. Two of the Regulars were absent and W. M. McCutchen and William Murray were substituted. The first game was the most exciting, and the men from the city side of the brook set a lively pace. After the fifth frame the Regulars decided it was time to do some hustling. They took the lead from the other boys and ran away from them, finishing fifty-two pins ahead. Neither team made as good a score in the second game, but they hung together, and at last the Regulars won the game by twenty-two pins. Matthews did the best work in the last game for the victors. A glance at the following score shows how the bowlers fared in the games:

It does not take much space to describe the first game between the five-men teams from the Crescent Wheelmen and the Union County Roadsters at Rahway last night. The home team led at the first, at the last, and all the way through, winning by sixty-two pins. The second game was more exciting. The Rahways led for the first frame, then their opponents jumped out and paced for three laps. The lead went back to the Roadsters and they managed to lead by a small margin for the rest of the game, winning the second game and match by sixteen pins. Owing to the rehearsal for the Crescent Wheelmen's minstrels, most of the regular team were detained at home and five of the second team were sent. The Union County Roadsters will play a return match in Plainfield later. The individual scores were as follows:

ABSOLUTELY PURE

AT THE TRAPS.

The Dunellen Gun Club will have one of their shoots on Washington's Birthday.

At the meeting of the Dunellen Gun Club held Monday evening the following officers were elected: President, Isaac Laing; vice-president, Alva Gray; secretary, Gus Warden; treasurer, William Carman; manager, David Runyon.

A large crowd of gunning enthusiasts met on the grounds of the Climax Gun Club yesterday afternoon for a shoot and annual meeting. Sweepstakes preceded the club event. The scores were:

Event No. 1—First, Brantingham, Smith, Jay, 10; second, Edwards, Darby, Squires, Willey, 9; third, Manning, Trust, 8; fourth, Folson, Herrington, Godwin, 6.

Event No. 2—First, Brantingham, Lindley, 10; second, Smith, Edwards, Darby, Manning, Schortz, 9; third, Trust, Terry, 8; fourth, Jay, Squires, Herrington.

Club shoot—First, D. Darby, 5, Squires, 5—28; second, Trust, 6—27; third, P. Jay, 6—26; fourth, Brantingham, 1; fifth, Scott, 5—25. Twenty-two competitors.

A few other small events followed, and then the members adjourned to the club house for their annual meeting.

Prizes were distributed to the club members for the most points made in the club shoots. R. Manning received first prize, a pair of hunting shoes. The rest were given, as follows, to the members in their order of standing: Douglass Darby, pair of hunting shoes; Neaf Apgar, pair of hunting shoes; J. G. Grier, shell box; C. Smith, fishing rod; V. Swoody, gun case; J. W. Singer, gun case; S. Schorty, gun case; T. H. Kellar, hunting coat; Daniel Terry, hunting coat; John Darby, hunting coat. At the annual meeting the following officers were elected: President, R. Manning; vice-president, C. Smith; secretary and treasurer, Daniel Terry; captain, Thomas H. Kellar; directors, C. Smith, R. Manning, T. H. Kellar, T. Brantingham, J. Darby, P. Jay and D. Terry.

CYCLING COMMENT.

E. C. Hangerter, of Elizabeth, has received a new wheel for track racing which is something new for that kind of work. It is geared to 91 inches, which is said to be the highest in the State.

The treasurer's report of the New Jersey State division shows the receipts to have been $3,996.58, and expenditures $3,134.87; balance on hand, $861.71; $1,367.20 was given to the League of American Wheelmen for membership renewals. The expenses of the Chief Consul's office were $257.63, and those of the Secretary-Treasurer $235.05.

With the exception of the New York State division, all the other divisions will vote at the national assembly for the continuance of racing by the League of American Wheelmen, but will ask that class B be discontinued, and only amateur and professional classes recognized.

GOLF.

The United States Golf Association is making an effort to arrange an intercollegiate series of games between several of the leading colleges for next year. As Yale and Princeton already have golf clubs and many Harvard men are members of the Boston Athletic Association, golfing contests are expected to become a feature of recognized intercollegiate sport.

VARIOUS SPORTS.

The State championship pool tournament opens in Newark next Monday. Charles Krewson, of this city, is one of the ten contestants.

He Couldn't Forget It.

"I'll never forget my first Christmas in Chicago," said the old resident meditatively.

"Was it a merry one?" asked the young man who was lounging about the club as if time hung heavy on his hands.

"Merry!" exclaimed the old resident. "That's no name for it at all. It was downright lively. I think my wife realized afterward that she rather overdid the matter."

"Tried to surprise you, did she?"

"She not only tried to, but she succeeded. You see, she always was an enthusiast in everything she undertook, and she had been taught that Christmas was a day to be celebrated above all others."

"Bankrupted you in getting you presents, I suppose," suggested the young man.

"Well, not exactly," returned the old resident reflectively, "but her presents came very near bankrupting me later. However, they are a good deal of comfort to me now, so that I can't say that I regret it."

"Now!" ejaculated the young man. "Do you mean to say that you still have them?"

"Certainly."

"And how long ago was this Christmas?"

"Eighteen years ago."

"Eighteen years! Great Scott! That's a long time to keep a Christmas present."

"Two of them," corrected the old resident quietly.

"May I ask what they were?" inquired the young man after a pause.

"Certainly—twins, both girls," replied the old resident."—Chicago Post.

Where?

"Where is she?"

Witherby laid his arm confidentially on Castleton's shoulder.

"I repeat," he went on, his eyes glowing with animation, "where is she? Where is the new woman? We are reading a great deal about her; but, believe me, sir, she is only a myth that exists within the imagination of a few dreamers. Oh, of course now and then we may meet an exaggerated type, but I tell you that the majority of women are just as they always were, content to perform the humble domestic duties that fall to their lot, satisfied to be womanly, with no desire to emulate their brothers. Just because a few remote females have risen up here and there and lifted their voices for the emancipation of their kind we imagine that the whole sex is gradually changing. I tell you it is a colossal mistake to suppose such a thing. By the way, do you know of a reasonable tailor?"

"Why, yes," replied Castleton, "there is one just around the corner to the left."

"Then I'll leave you here," said Witherby, shifting the small brown paper parcel he carried from one side to the other. "I told my wife that on my way down town I would leave these bloomers to be pressed and cleaned."—Brooklyn Life.

BANISHED FOR LIFE.

THE OUTCAST OF CHURCH ISLAND IN GREAT SALT LAKE.

He Has For Years Lived the Life of a Wild Man and Rarely Sees a Human Being Branded For Robbing the Dead by Order of Governor Brigham Young.

In the center of the Great Salt lake in Utah is a large body of land known as Church island. This land consists of mountains and valleys, with trees and vegetation, and has always been used as a herding ground for cattle belonging to the Mormon church. Several years ago the water on the east side of the island was shallow and cattle could be driven across easily, but now the water is deep and everything must be conveyed to and from the land in boats. A distance of about five miles covered with salt water must be gone over by canoes to get to or from the island. On this famous spot, amid millions of pelicans, sea gulls and other fowls, wanders a lonely old man, without clothing and devoid of language or any of the instincts of humanity. He was banished years ago by the Mormon church on the charge of robbing the dead.

Jean Baptiste was a Frenchman who came to Salt Lake City a young man nearly 40 years ago. He grew up among the saints, and, after marrying, was made sexton of the small cemetery. His duties were light and his remuneration correspondingly small. He resided in a little cabin on the mountain side overlooking the city, and spent his time, when not employed in the cemetery, in collecting junk and trading and trafficking with a few Jewish secondhand clothes dealers who had the hardihood to engage in business among the Mormons. A regiment of United States troops was then camped near the city, and the gentiles engaged in business were assured protection.

The little Frenchman was an avaricious man and was noticeable because of his picking up every cast away article and carrying it to his home. Old dry goods boxes, barrels, tin cans and other packing articles cast away by the soldiers were especially well cared for by Jean Baptiste, the sexton. He dressed as a scavenger and resembled the modern saloon loafer, who is always searching the slums for barrels and boxes of garbage and cast off garments. The actions of the sexton created some comment, and not a little curiosity was aroused among people who had occasion to visit his residence on the mountain side, over the city.

One day Jean appeared on the streets dressed in an elegant suit of broadcloth. A few days before a wealthy stranger had died and was buried in the cemetery. The suit in which the body was dressed resembled that worn by the sexton. An examination was ordered, and the corpse was found to have been robbed of its clothing. A committee waited upon the sexton and made a most startling discovery. The graveclothes of over 200 persons were found in the baskets and boxes stowed away in his ghoulish cabin. Excitement ran high in Salt Lake City. The boxes of clothing were emptied and the contents taken to the city hall, where many a fond mother identified the burial robes of her child. Elegant silk dresses, at that time a luxury even to the rich, were found in the various bundles. The man was arrested and cast into jail, pursued by a mob who sought his life.

Brigham Young, then governor and general dictator in Utah, ordered the man to be branded with a hot iron and banished to Church island. During the quiet hour of midnight Jean Baptiste was taken from the jail, and his whole forehead was seared with the following inscription: "Branded For Robbing the Dead." Two men escorted the quivering, naked form from the city of vengeance. A canoe was entered near the city, and the doomed prisoner was taken in chains to the island which in future was to be his home. Without clothing or food he was landed upon the shore, the boat returned to the mainland, and the ghoul remained a hopeless exile. He could not leave the island, because instant death would follow should he be seen by any of the inhabitants of the Mormon land of Zion. He was forced to seek food and shelter amid wild animals, the birds and reptiles.

The island was soon known as the land of banishment. People shunned its shores as they would a haunted house. Many persons were lost upon the lake while rowing in canoes against heavy winds. The general supposition of all was that those unfortunates drifted to the island and were devoured by the wild man. Even the fearless cowboy has ever refused to intrude upon the home land of the exile. Wild horses roam over its acres of broken canyons, rugged cliffs and grassy meadows. The sea gulls and other birds find a home undisturbed on the deserted shores. All the natives, including Indians, warn newcomers of the fate of scores of pleasure seekers who have been drifted upon the shores of the fated island. The crags, bluffs, dark caverns and lonely canyons warn every boatman nearing the shore to keep away from the hidden dangers.

In a dark cave about half a mile from the shore lives the wild man. His home is strewn with the wrecks of boats, bones of victims and other cannibalistic indications. Away back in the deep darkness of the cavern is his sleeping place, made of clothing stripped from unfortunate victims shipwrecked on the fatal shore. A collection of leaves, grasses and branches from the trees of the island forms the foundation for the bed, in which this human monster spends most of his time. Several hunters and explorers have recently viewed the man. He is described as old, stooping, destitute of clothing, incapable of speech and covered with long hair. Upon the appearance of man he utters a wild, weird shriek and rushes to the cavern, from which he cannot be induced or forced to return.—San Francisco Examiner.

THOUGHT THE KAISER STUPID.

A Coachman Told Him He Would Never Set a River Afire.

An amusing little story about the present emperor of Germany, William II, and a Vienna coachman was narrated at a banquet lately given at Vienna by some diplomatists, the narrator being himself a well known and prominent member of the corps diplomatic.

In the year 1887 the present Emperor William II of Germany, then Prince William of Prussia, came to Vienna, visiting his particular friend and chum, the late Crown Prince Rudolf of Austria. Joined by the Prince of Wales, who was at that time also a frequent visitor to the Vienna court, the three princes took a fancy to mingle with the commons of the Vienna population. Dressed in ordinary clothes, they visited places which are not in the least regarded as suitable for princely guests.

One day they entered a hotel, but instead of going into the dining room they walked into the "schwemme," a place which answers in some degree to the barroom of an American hotel; in this room coachmen and the servants of the hotel guests take their meals.

The three princes took seats at an empty table, and listened, highly amused, to a fierce debate about politics between several stout members of that class of fashionable Vienna coachmen who are known all over Europe as "fesche Wiener fiaker." The distinction of those charioteers is a kind of good natured boldness and droll familiarity toward their customers as well as to perfect strangers.

After listening awhile Prince William put in a word, and soon was drawn into the excited discussion. Suddenly a stout, red faced coachman walked up to the table where the three princes were seated, and, tapping Prince William gently on the shoulder, said, "Now, if you should ever have anything to say in politics, you wouldn't set a river on fire, I'm sure!"

As every public coachman in Vienna wears a number, this coachman was—upon a special request of Prince William—easily identified. The prince sent him a handsome scarfpin with his initials as thanks for the amusement he had furnished, and thus the man learned in amazement whose political abilities they were that he had so belittled.—Vienna Letter in New York Press.

IN PLAGUE TIMES.

How London Handled the All Devouring Sickness In the Seventeenth Century.

During the plague of 1603 Francis Hering, "Doctor in Physicke and Fellow of the Colledge of Physitians in London * * * published certain Rules and Directions for the prevention of the spreading of that contagious and all devouring Sickness." These he reprinted, "somewhat inlarged," in the next plague season of 1625, "to the view and vse, and I hope good of my Cittizens and Countrimen." Among his rules are:

"Concourse of people to Stage playes, wakes or feasts and May pole daunceings are to be prohibited by publique Authority, whereby, as God is dishonored, the bodies of men and women—by surfetting, drunkennes and other riots and excesses—disposed to infection, and the contagion dangerously scattered both in Citie and Countrie.

"Let not the carkasses of horses, dogs, cats, etc., lye rotting and poisoning the aire (as they have done) in More and Finsburie fields, and elsewhere round about the Citie.

"The burying of infected bodies in churches, churchyards and, namely, in Paules Churchyard, where the chiefe Magistrates of the Citie and many other Citizens meete weekly to hear Sermons, must needs be not onely inconuenient, but verie dangerous for spreading the contagion, and poisoning the whole Citie."

Some folk ate breakfast then, others did not:

"For breakfast you may vse a good draught of wormewood beere or ale, and a few morsels of bread and butter, with the leaues of sage, or else a toste with sweet salade oyle, two or three drops of rose vinegar and a little sugar. They that haue cold stomackes may drinke a draught of wormewood wine or malmsey, instead of ale or beere. But take heed (as you loue your life) of extreme hot waters, as aqua vitæ, Rosa solis or other compound waters of like nature, which Empericks prepare and set out with vaine and boasting words * * * they were * * * devised to kill, not cure men."—Notes and Queries.

A Remarkable Tree.

There is a wayward white oak tree near Laporte, Ind., that may well puzzle naturalists with the vagaries of its growth. The tree is 9 feet in circumference at the base, and there are no branches of any size below 15 feet from the ground. There the great bole divides into a number of limbs. Two, leaving the trunk about 20 inches apart, grow west, their lines diverging for some 6 feet, and then each rending toward the other. Twelve feet from the body of the tree they unite again, making a perfect oval, and out of this grow two smaller branches. As if not satisfied with that expressed disregard for the laws of nature, this old tree has performed another feat. Six feet from its base grows another white oak, less than half its size, and no sooner does the smaller tree arrive at the charmed circles of those branching limbs than one of them grows right into it, and is absorbed. The second tree is very much larger 20 feet from the ground than at its base.

Noah's Business.

While teaching a class of girls in a school recently, the master asked the following question:

"What was Noah supposed to be doing when the animals were going into the ark?"

He received several answers. At last a little girl put up her hand.

"Well," he said, "what do you say?"

"Taking the tickets, sir."—Buffalo Times.

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

COURAGE.

By EDMONDO DE AMICIS.

"Do not speak of it," answered the chief, enraged. "I must break this d——d musket to pieces. I hit the animal instead of the man!" and here he narrated what had happened.

"Never mind," interrupted his companion soothingly. "It has been a good catch." He came up to the soldier and helped him to rise. After having looked at him for awhile with a stupid stare of curiosity he relieved him of the muskets, the cloak and the sword. Then he took off his hat, smiled and pushed him aside. The soldier, tired out, leaned against the wall and began to look at the brigands, one by one, with the slow gaze of a sick man whose thoughts are of a better world.

The brigands began to go through his valise. Their faces were worthy of the place and their occupation. The one who seemed to be the chief was a man of about 40, small, but muscular, with a large head; shoulders reaching to his ears and bent legs, with strong calves. From forehead to feet he was heavy, short, flat. He was dark, with a beard and mustache, and his hat so concealed him that only a part of his forehead and the top of his cheeks could be seen. Of the other three, two seemed brothers. They had the same short forehead, the same bulldog nose, the same furtive eyes; the same mouth without lips, curved like a semicircle and downcast; the same pointed chin without any beard, and both were small and nervous.

All three had in their eyes something covert, keen and unhealthy, that which expresses wild recklessness, mixed with superstitious ferocity and craven cowardice. They were long bodied, and this, with something in their gestures and in their walk—something of soft and springing elasticity—made them resemble tigers. They wore high soft hats, long gaiters and large jackets open in front. Between the jacket and the trousers hung a shirt in folds, fastened by a large blue sash.

The fourth brigand, who seemed to be the youngest, had a less repulsive face. He, too, was small and beardless, like the two brothers.

"Now," said the chief when they had looked over the contents of the valise, "make him take off his coat. Then we will eat something and afterward proceed with our investigation."

The two brothers came nearer to the soldier, and one untied the rope around his arms, while the other held a dagger to his breast. His arms, loosened, fell to his sides like the arms of a corpse.

"Off with your uniform!" ordered one of the brigands.

The soldier looked at them astonished, with a frown on his forehead and his lips between his teeth. The youngest brigand regarded him sadly.

"You," said the chief to the latter, who was near the door, "go to your post!"

The young man, obeying the order, mounted the stairway. He leaned his elbows on the stones, put his head between the rocks and remained quiet.

"Off with your uniform!" repeated the brigands, lifting their hands all together.

"Slap him so that the marks of your fingers will remain on his face," exclaimed the chief.

The soldier seemed to wake up as though a wound had reopened. Then he bent his head and obediently took off his uniform. The two brigands seized the coat and searched the pockets, the sleeves—every part of it—and then threw it under the wooden shed. One of them then went through the prisoner's trousers and reported to the chief:

"Nothing!"

"Bad for him," answered the latter. "Tie him to that iron ring."

The two desperadoes tied the soldier, with his arms crossed behind his back, to a hook attached to one of the poles of the wooden shed. The wretched man was as white as death, and his teeth chattered as though he had an ague. The three brigands brought out of the caves a few provisions. They seated themselves on the stones and began to eat slowly, talking inconsequently, as those do who pay more attention to what they eat than to what they say.

"Did you hear the news from Casalvecchio?"

"Regarding Don Alessio? Oh, yes! Two hundred scudi to redeem him!"

"Paid?"

"Paid!"

"What a catch!"

"And three hundred for the mayor!"

"They were reasonable! He and his brother between them own the grounds two miles above the Fortore. But the best of all has been at Binasi. Six horses, 1,000 scudi and eight bags of cheese, all in one lump!" Here he threw a piece of orange peel at the soldier.

"And I hear there has been some trouble at Cerignola between the band of Salvatore Codipietro and the Piedmontese. They were taken by surprise. It was through that spy of a mayor. Seven captured."

"With the chief?"

"No."

"Killed?"

The brigand nodded.

"Madonna!" exclaimed the others, and turning to the soldier he added: "Did you hear that? But we shall repay you, do not doubt it! The day will come when from every tree on these mountains will hang the body of a Piedmontese."

Here he swallowed a glass of wine.

"Look," said another, pointing to the soldier. "He is thinking."

"What are you thinking of?" asked the chief, stroking his mustache.

"Of your mother?" asked the first.

"Where did you leave her?"

"Let us hear!"

They all turned around to look at him. The poor young fellow shut his eyes and kept them closed for awhile. Then he opened them wide. They were moist, and he looked far away beyond the mountains. The three brigands smiled.

"But the best of it all," remarked one, "is that he does not speak. What is it?"

"Modesty," answered the other, with an ugly smile.

"Fear," corrected the chief.

The soldier shook his head as though to deny this.

"No?" exclaimed the brigand, jumping to his feet. "Now we shall see. This man was carrying some order so as to have us captured," he said to his companions decidedly. "We have already lost too much time. Make him spit."

"Make him spit," echoed the others, rising.

The prisoner looked up as though to say, "I am ready!"

The three brigands stood in front of him.

Any one who might at that moment have observed the young man who was on guard would have seen that he trembled like a leaf and turned around so as to conceal his countenance from the others, for it was white with terror. The chief noticed it, and with an imperious motion bade him mind his business.

"Now," continued the chief in a loud voice and turning toward the soldier, "where do you come from?"

The prisoner frowned and looked at his tormentor with a steadfast expression which showed a will stronger than

"Where do you come from?"

the other's and did not answer. The brigand, without adding another word, gave him a terrible blow under the chin. The cracking of broken teeth was distinctly heard all over the place. "Will you answer now?"

The soldier lowered his head and let the blood that filled his mouth flow out. Then, lifting his eyes to the face of the brigand, he stared at him with an expression of unmoved self possession and shook his head.

The brigand bit his lips and exchanged with his companions a malignant smile. Then he calmly put his hand into his pocket, took a knife out, unbuttoned the soldier's shirt and brought the point of the blade to his throat.

The victim shook convulsively. "No fear," murmured the brigand, and he ran the knife slowly and lightly along the man's body from the throat to the waist as he would have done were he tracing a line on a table.

On the breast of the prisoner appeared a long, red line, like the cut of a razor, that immediately disappeared under the drops of blood that ran down like tears under his clothing to the ground.

"Ah, ah!" cried the chief in a brutal voice. "You begin to see it, eh?"

"See how he bleeds!" remarked the other.

The younger brigand covered his face with his hands.

"Will you speak now?" asked the chief again.

The soldier watched the dropping blood, and then looked up, fixed his eyes in the face of the brigand, and with the same expression as before shook his head.

The three murderers turned to one another, astonished and enraged.

"You want to die, don't you, you fool?" exclaimed the chief, putting his face close to the soldier's and shaking an open hand near his cheek. "Do you not see that you are in our hands, alone, and that we can cut you open like a dog? What do you hope? Do you expect your friends to come and deliver you? Speak! Let us hear your voice! Speak one word!"

The soldier was silent. Maddened at his obstinacy, one of the brigands raised his knife, but the chief held his arm, saying, "No, not the knife." He grasped a musket. "I must try this." And lifting his arm he brought the weapon down on the prisoner's foot with such force that the bones cracked.

The unhappy man gave a deep cry of pain and shook as though attacked by epilepsy. But at the same moment, gathering renewed energy from his agony, he stamped his wounded foot upon the ground, lifted his head and cried with a roar, "No!"

All three of the brigands then seized him by the neck and were just about to strangle him when the young man who was on watch, rendered daring through the horror that was overcoming him, cried frantically:

"Kill him at once! Kill him with a musket shot! Why make him suffer so?"

The three brigands, astonished at his audacity, turned to look at him. But the astonishment did not last.

The chief threw himself against the daring young man, and with a blow in the face sent his head against the stone. Stunned, he assumed his former position without adding a word, but as he looked down the side of the mountain he gave a slight start, bent farther forward and remained thus, silent and looking fixedly down the mountain slope. The chief of the brigands did not notice this, however, but turned to his victim. He was white, and he ground his teeth and trembled with rage. Even his companions looked at him with fear. He laid one of his large hands on the head of the soldier, raised the other with his finger turned up, as though to menace him, and looking at him sideways, with bloodshot eyes, he murmured in a hoarse voice:

"Listen! It is a bad idea of yours to be obstinate with me. You do not know me. I have made the hair of others, who had more pluck than you, fairly stand up on their heads. You have no idea of what I can make you suffer. I can keep digging a stiletto into you until morning without killing you. I can torture you until you will have no more any human shape. I might pull the eyes out of your head. You know what has happened to others. Do not dare me. Say what you must before the blood goes to my head."

With these last words he withdrew his hands from the prisoner's head. He looked at it. There were hairs on it. Enraged, he threw them in the soldier's face, and a hair stuck to his mouth. To free himself of this he spat. The brigands, taking this act to be one of contempt, were unable to restrain themselves any longer. All three together, with a cry of rage, fell on him like wild beasts and began quickly and silently to torture him with the points of their daggers, with their nails, their teeth, their knees and their feet.

Now and then one or the other stopped a moment to take breath, saying, "Slowly," in order to keep one another from killing him. There was no sound except the heavy breathing of the three murderers, the clashing of the daggers and the dry sobs of the victim. They were blind, drunken animals. They did not look any more like three men, but like a monster with three bodies intwined around a helpless victim. They represented the worst conceivable combination of fiendish cowardice and ferocity.

"Do not kill him yet," began again the young man on guard, turning quickly first toward the brigands and then toward the valley below and crying louder and louder, as though he wished to cover an approaching noise: "Do not kill him yet! Wait! He will speak! He will tell all, but if you kill him you will not know anything! Try again! He has motioned that he wants to speak! But you will kill him! I shall stab him with my dagger if you don't! Down with your daggers! Hit him with your fist! Don't you see that he is dying?"

Without ceasing to scream out sentences like these he threw a look out toward the foot of the plateau, and then he jumped in the middle of the cave. He changed all of a sudden his tone of voice, and with an accent of contempt he continued: "Ah, cowards! Three against a dying man!"

"Fool!" cried the chief, throwing himself with uplifted dagger against him.

"Too late!" replied the latter, with an expression of joy and pointing toward the door. "Look!"

At the same moment, while the other brigands, admonished by the young man, threw a mantle over their victim, and while the chief grasped a musket a noise of arms and steps was heard, and bayonets gleamed in the sunshine in front of the cave's entrance. From the top of the rock a mass of soldiers invaded the stronghold, and in a second surrounded, overcame, disarmed and threw to the ground all those they found in the cave A few moments of silence followed, during which nothing could be heard except the panting of the soldiers, who were out of breath.

"Help the dying!" cried, all of a sudden, the young brigand, who, like the rest, knelt with his hands to the ground under the musket of a carabiniere.

"Who is dying?" asked the captain, coming forward, dusty and panting.

"There in the corner," answered the young man, pointing.

All turned. No one could distinguish anything.

"Under the cloak," continued the brigand.

The captain, followed by the eyes of all, walked to the corner, seized the mantle and tore it away. A general cry of horror rose at the sickening sight which was thus revealed. The miserable prisoner on his knees, with his hands braided behind his back and his head falling on his chest, was entirely covered with cuts and blood, so that he seemed to have been scalped. He tried to look up.

"Untie him immediately!" cried the captain. "Give him water!"

Three soldiers came forward, untied him, seated him and began to examine his wounds. The others, maddened at the sight, hit the brigands with the stock of their muskets.

"Down with your arms!" ordered the captain, and turning to the youngest brigand he commanded, "You must speak!"

The soldiers who held him allowed him to arise.

"When was that man captured?" asked the captain. "Tell the truth before you die."

"That man," began the young fellow in a breathless voice and trembling from horror and fear, "that soldier was captured this morning. They brought him here; they tied him; they wanted him to speak. He refused to do so. They jumped on him. I saw it all. My God, my God!"

"But who are you?" exclaimed the captain, pulling off the young man's hat. A mass of curling hair fell over his shoulders. They all murmured as they turned to look at him, "A woman!"

"Yes," she cried desperately, "a woman! They stole me 15 days ago. They held a knife to my throat and took me along. But I have not stained my hands with blood! No! I swear to it! I only accompanied them so that they would not kill me. I am a poor peasant girl—from San Severo."

"But why did you not shoot one of these murderers?"

"I did not have the courage. They would have tortured me. You ought to see what they do! I thought I should go insane. Oh, if you had seen! But he (and she pointed to the wounded soldier), he has been a god! He stood it all without a murmur, without a cry."

"Drag these cowards to the feet of their victim," ordered the captain.

The prisoners were dragged in front of the wounded man, whose head had been bandaged with a handkerchief, one end of which covered his eyes.

"I am here," exclaimed the captain, bending toward the unhappy man, who was beginning to revive. "You are safe! You are among your companions! Courage! Look; your murderers kneel before you!"

The soldier raised his head slowly and shivered. Then he extended his hand, laying it on the head of the chief of the brigands; then he withdrew it, smiled with his blood covered mouth, leaned his head forward and spat something out upon the ground.

"What is this?" asked the captain, picking up the thing, white and soft, which had fallen from the mouth of the wounded man.

"Your—answer—to the colonel," whispered the soldier.

"To the colonel of San Severo? My answer, the one I gave you this morning?"

The soldier nodded. The captain threw himself upon him, put one arm around his neck and kissed him on his forehead. Then he sprang up, and turning to his soldiers commanded: "Bow to this hero, my brave boys! He carried to the colonel my letter, in which I stated when and where I was going. If the brigands had read it, they would have been safe. He put it in his mouth, and he did not speak, in order that he might not betray himself, and he stood silently all these terrible tortures. He is a hero! He is a martyr!"

"He is!" they all cried unanimously.

"Kiss his feet, cowards!" ordered the captain to the brigands.

One after the other, crawling like worms, they kissed the feet of the wounded man.

"Captain," cried the woman suddenly, as though out of her mind, "I could have given the alarm when you were coming. I did not give it. I let you come. I ask one favor in exchange. I can never return again to my home. Let them shoot me!"

"No!" cried the wounded hero, with a last effort.

They all turned to him.

"You," continued the miserable man, with a low voice, pointing a bloody hand toward the woman, "you must do a merciful act."

"What? Speak! My God! I ask it for charity's sake!" cried the woman, throwing herself at his feet, with clasped hands.

"Accompany me," murmured the man.

"Where?" pleaded the woman.

"Everywhere!"

They all looked at one another astonished.

"What do you mean?" asked the woman.

"You have not seen—all my wounds," said the soldier. "Look!"

He pulled the handkerchief from his forehead. They all crowded nearer,

They joined hands.

gave him one anxious look and then uttered a cry of horror and of pity. His eyes were gone. The man was blind.

"Death!" screamed all the soldiers, hitting the brigands with their muskets and kicking them.

"Death!" The voice of the captain was lost in the tumult, and the soldiers ran out, dragging the murderers with them.

"Will you do this act of mercy?" asked the wounded man of the woman when they remained alone together. She lifted her eyes to heaven and murmured:

"My life is yours!"

They joined hands, and a discharge of musketry in the valley below seemed to seal the compact between them.—Translated From the Italian For Romance.

Chinese Hospitality.

"Very few people have any idea of the great hospitality of the Chinese," said a Pittsburg Celestial recently. "Chinamen coming to this country retain their ideas of oriental hospitality and always keep open doors for any of their race who may need shelter. A Chinaman arriving in Pittsburg without money would never want for a lodging and boarding place. He would simply go to the first Chinese laundry or residence, feeling assured that he would find a welcome there. If, after staying a couple of days, he should learn that the circumstances of his host were such that the latter could not well afford to keep him, he would move away, making his home with another Chinaman. He would continue doing this, dividing himself up, so to speak, until he was able to get work and support himself. Of course such wanderers usually endeavor to find the most wealthy Chinamen and become their guests. I have known some of the laundries in Pittsburg to have 10 and 12 transient visitors—you could not call them boarders—to stay over night."—New York Home Journal.

COTILLION CLUB DANCES.

Pleasant Society Event at the Park Club Last Night.

The Cotillion Club was entertained last evening at the Park Club by the Misses Stewart, of West Seventh street. It was one of the most pleasant events of the season. The rules of the club are that no one but members in the city can be invited, and the ladies who entertain, furnish the place for dancing and the refreshments, while the gentlemen furnish the music. The german was danced and the figures were exceptionly pretty. Those leading were Perey Stewart and Augustus Shepard, Jr. Among the club members present were the Misses Stewart, Ginna, Whiton, Opdyke, Cooley, Tracy, Murphy, VanBoskerck, Holly, Evans, MacCready and Messrs. Augustus Shepard, Jr., Percy Stewart, Burritt Shepard, Irving West, Howard Huntington, Waring, Calkins, Harry Opdyke, Jr., Gifford Cooley, Marshal Adams, Dr. B. Van D. Hedges, Dr. Ard, Frank Frost, Charles Faber, Walter Moore, Charles Hutchins, Samuel Hall, MacCready Sykes, Frank Cokefair, Walter Murray. These from out of town included: Miss Harrison, Brooklyn, Miss King, Chicago, Miss Watson, Mr. Harlam, Dr. Shannan and C. Miller, New York. The music was furnished by the orchestra from the Astor House, New York.

A MISER'S HOARD IN DISPUTE.

Officials of Union County and Linden Township Claim It.

The money found in the hovel of Peter Schwar, the miser, who died a few days ago, is claimed by both Linden township and Union county. The township officials have the cash, which is said to be $1,034.88, and refuse to give it up.

County Physician O'Reilly visited Linden yesterday and made a demand on Health Officer Wilton C. Soden for the money, which the latter refused to hand over. The County Physician went away indignant. The amount was then turned over to the Overseer of the Poor, who at once took out the necessary papers to act as administrator for the property of the dead miser. The widow will receive $200, and the balance will be turned into the township treasury to pay for the keeping of the miser and his wife during the years they were dependent on the township for support.

Review of the Week.

One week's services of the union evangelistic movement ended last evening, and it is very natural to review them, asking as to the results. Several features have been very noticeable, and to these the attention of the reader is called. 1. The attendance has been large. No special attraction has been offered, no speakers except the preachers of the city have been announced; and yet every evening the church in which the services are held has been crowded. 2. The character of the preaching. It has been remarkable for its simplicity, earnestness and spirituality, with a reliance upon the aid of the Holy Spirit rather than any oratorical device for success. 3. The marked seriousness of the people. An utter absence of any frivolity, spirit of mere sight-seeing, or disposition to fault finding. They have cheerfully responded to anything asked of them in the way of service. 4. A large number of the church have re-consecrated themselves to God, and have signified the same publicly. Several have professed themselves as penitents, and asked the sympathy and prayers of the church.

A Evening of Pleasure.

A delightful evening was spent by the friends of Miss Mary A. Luckey at her home on East Fifth street last evening. The evening passed very quickly with music, games and dancing, while refreshments were served towards the close. Among those present were the Misses Grace E. Overton, Lillian Glenn, Percy Emmons, Mary Buckle, Emma Buckle, Grace Crane and Miss Reed; Walter Probasco, Alvah Davis, Charles Noble, J. Vincent Rittenhouse, Wilbur F. Cornwell, Henry B. Drake, Allen Taylor and Arthur B. Crane.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

FRIENDSHIP BETRAYAL.

THE SUBJECT DR. RICHARDS TALKED ON LAST EVENING.

The Great Mass of People, He Says, Have Lost Their Friends and They Need the Heart and Hand of One to Help Them.

It is very evident that the Christian people of the city, or a large portion of them, are becoming thoroughly aroused, judging from the increased interest at the revival meeting held in the First M. E. church last evening, when the church was again filled with people. After the usual song service, led by Horace J. Martin, Rev. Dr. W. R. Richards read the fifteenth chapter of the Gospel of John. He took his text from the fifteenth verse of the above chapter: "I have called you friends." He spoke in part as follows:

Many years ago I was touched, while riding in a railroad train, by the distress on a little child's face, who had lost her friends. She ran back and forth through the cars looking for them. The cars were crowded with people but she did not know them and they were nothing to her. I have never lost that picture and it will always remain in my mind. The great mass of people seem to have lost their friends. They want the heart and hand of a friend. The saddest thing in this world is a person without friends. I am not sure but what there is something even sadder, one who has had a friend that has proved himself unworthy, and the heart has become seared and hard. Such a one has shut himself off from the best influences.

That's what we are doing. God is always making overtures of friendship, but His power does not always affect us. The Son of God is our friend. He came to share our sorrows, temptations and trials, because He cared for us. He even stood shame for our sakes and bore our sins. An analogy of human friendship is as near as we can get to this great divine love. When He comes again He shall reprove the world of sin. You sacrifice your love to God for cheaper affections which hardens your heart against that great love. Did you ever think of the love Christ showed the disciple that betrayed Him, and yet Judas went out and hanged himself. The message tonight is a renewed offer of God's friendship, and you are to give an account of it to God, as you were told last evening by Dr. Lewis. I could answer for most any other sin easier than a betrayal of His great friendship. Christ says, "Come and follow me, get rid of your entanglements, for I want your friendship." The disciples of old were glad to be counted worthy to suffer for Christ, and even if we experience hardship we should rejoice. I would rather walk in outer darkness with God than to walk anywhere else alone. Anyone who has fouud Jesus Christ for his friend has secured something worth having.

At the close, Horace J. Martin sang an affecting solo, which impressed the large audience deeply.

Following, Dr. Barnes made a few remarks which were full of earnestness and affection, after which Rev. Cornelius Schenck offered prayer.

The ushers then distributed cards through the audience for those wishing to become Christians. Several signed them, showing their desire to lead better lives.

The after meeting in the chapel was largely attended and the result was most encouraging.

The following is the programme for next week: Union services in the Crescent Avenue church and in the Methodist church, West Front street, tomorrow evening at 7:39 o'clock. Meetings in the Methodist church every evening except Saturday. A desire has been expressed for a mothers' meeting, and such a one will be held in the Vincent chapel on Tuesday at 3 o'clock p. m.

Revs. Barnes, Yerkes, Richards,
Committee.

Fell One Floor.

The breaking of a rope came very near ending the life of Michael Cox and demolishing a phæton yesterday morning. A phæton was being lowered down a slide from the second floor to the first at Hedden's stable. Cox was holding the shafts, guiding the carriage, when the guy rope broke and the vehicle fell. Cox was pulled after it and landed on top, luckily escaping serious injury. The carriage was slightly damaged by the accident.

No Lookers-On Allowed.

MRS. VENINO GETS A DIVORCE.

The Action Was Brought in a Spokane Court by Reed & Coddington.

Reed & Coddington have received notice that a divorce has been granted their client, Mrs. Matilda Venino, from her husband, Alfred S. Venino. By the terms of the court decision she is made custodian of the children and receives $30 a month alimony. The action for the divorce was commenced in the courts at Spokane, Washington, where it will be remembered the husband went and commenced proceedings against his wife. As soon as the papers were served on her, Messrs. Reed & Coddington set up a counter claim in her favor and the result is as above. While they were residents of this city they lived on Seventh street. Venino deserted his wife several years ago, and at the time it caused a great deal of talk in this city. He is a music teacher.

A LEAP YEAR EUCHRE PARTY.

The Game Was Followed By a Leap Year Dance.

Leap year with its accompanying ceremonies was remembered at the meeting of the Young People Progressive Euchre Club of Dunellen and North Plainfield, last evening. The club met at the home of Miss Janie Churchill, of Dunellen, where they were delightfully entertained. Progressive euchre occupied the first part of the evening. Miss Blanche Marlow was the winner of the first prize among the young ladies, while Charles English and Charles Coriell tied for the other first prize. Mr. English won on the play off. Miss Mattie Barrett and Miss Charlotte Williams were also tied for one of the second prizes, but on the play off it was awarded to Miss Barrett. Miss Janie Churchill took the other prize.

A leap year dance followed and made the evening pass very quickly in which the collation found a pleasing interruption.

ICE PLEASURES.

Where the Plainfield Skaters Spend Their Afternoons and Evenings.

Although the weather has been most favorable for skating, there is now very little good skating in the vicinity of Plainfield. The ice-cutters have full possession of Hyde's and Wilson's ponds, while they are now hard at work cutting up and removing the frozen surface of the New Market pond. The snow has been cleaned off a portion of Smalley's pond and many of the young people congregate there, but those who think it too far away have been enjoying themselves on Green brook between Hyde's and Tier's. The Cranford river is frozen over and all the young people from miles around glide up and down between its well-kept banks. Plainfield is represented there this afternoon. Some Plainfielders are spending the afternoon at Brooklyn, on Prospect Park.

EARLY INTELLIGENCE.

—John VanEps, of Park avenue, is busily engaged making a phonograph and zither. The latter is to be made so that it can be played by two persons.

—The Acorn brand of asphalt roofing, made by Comins & Evans, of Brooklyn, has been put on several buildings in this city, notably the Jackson building and the chamois skin factory, and has given perfect satisfaction. It is fire proof. Their ad appears in The Press.

—A special invitation is extended to all young men of the West End to attend the young men's Bible class at the Monroe Avenue chapel held every Sunday afternoon at 3 o'clock. The class is taught by Rev. W. C. O'Donnell and Adam Newwan. The lessons at present are of special interest to young men.

—White's great January sale goes right on with new bargains added every day. The extensive changes that he has been making in the store are about completed, and it is a decided improvement with the dry goods, millinery, notions and coat department on one side and house furnishing goods on the other.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues. T. S. Armstrong, manager.

MERCY AND JUSTICE.

Judge DeMeza Suspends Sentence on a Lad, and Commits a Drunk.

There were two offenders of the city ordinances that were arraigned before City Judge George W. DeMeza this morning. One was a lad named John Motley, on the charge of being disorderly on West Front street. He was said to have visited the chicken coop in the rear of one of the houses and wrought havoc among the eggs. The Judge was not inclined to be too severe on the lad and suspended sentence.

Wm. Perrine, who was arrested by Sergeant Kiely yesterday, for being drunk on North avenue, did not come in for the same leniency. He chose 15 days with Sheriff Kyte in preference to putting up a fine of $3.

GIRLS TAKE THE LEAD.

They Will Do the Entertaining This Leap Year.

The Young Ladies' Leap Year Club met at the home of Miss Dowd on Duer street last evening and adopted the above name, after which the objects of the club were made known. The balance of the evening was passed in a social manner, playing games while several pleasing selections were rendered on the piano by Miss Cora Sheppard. Singing of college songs by those present was an enjoyable feature. Refreshments were served during the evening:

Among those present were: Mr. and Mrs. James Blair, Miss Cora Sheppard, Miss Cora Young, Miss Cora Huff, Miss May Hughes, Miss May Dowd, Henry Piker, Theodore Kurzhals, Jr., and H. C. McVoy.

SMASHED UP ON THE ROAD.

The Twilight Hid Them From View Until Too Late.

A general smashup occurred on the road between South Plainfield and New Market during the first of the week. Joseph Carkhuff, of South Plainfield, was returning home just at twilight. His spirited horse was going at a lively pace. David Blackford was moving along the road in the opposite direction at a stiff pace. The treacherous light concealed the two drivers from each other until they came together with a crash. Blackford's new buggy was a total wreck, while Carkhuff's was not much better. Neither of the men or horses were injured.

High School Notes.

Every body has been very much interested in the prospect of a war with England and the High School students were very much interested in a talk from Mr. Maxson upon the reasons why we as a nation should not go to war with our mother country.

Essays are due from the senior class on the following subjects on the 27th: "The Monroe Doctrine;" "A Plea for Shylock;" "Pestalozzi;" "The Religion of the Turkish Empire;" "Cicero: A Character Study;" "Roman Politics During the First Century. B. C.;" "A Comparison of the Characters of Cæsar and Cicero."

The junior class have their choice of te following subjects: "Queen Louise of Prussia;" "Character and Work of Henry of Navarre;" "A Visit to the Escorial and Reflections;" "Thereon;" "Some Famous Battle Fields;" "A Review of the Last Book I Have Read."

The Kappa Delta Phi Society held its regular meeting yesterday afternoon. After the programme which was of a high literary character the business session was taken up. Several committees upon special business reported, and after the executive session the society adjourned.

Plunged into Darkness.

Owing to the electric light fuse blowing out, the Y. M. C. A. building was in darkness for a half hour last night, and classes that were in progress were compelled to stop. Leggett's drug store had no gas gets, and perscriptions were put up by lantern light. Today gas will be put in so as to avoid trouble of that kind again.

Truth and Justice.

"Truth is the summit of being; justice is the application of it to affairs." If, then, it be the truth that your eyes are failing, in justice to yourself you should have them attended to, and that attention is always available at Collier,s where scientific tests and the very best optical goods are assured.

An Artist to Lecture.

Next Monday afternoon Kenyon Case, the well-known artist and art critic, is to lecture at the Casino on "Michael Angelo," and it is hoped that many will avail themselves of the privilege of hearing him.

A MEMORIAL SERVICE.

ENJOYABLE ENTERTAINMENT GIVEN BY THE A. O. U. W.

Music and Recitations Were Part of the Programme, While the Past Grand Master Made Good Remarks on the Order

It is probable that Plainfield never had such a favorable opinion of the Ancient Order of United Workmen as at present. The entertainment given last evening at Y. M. C. A. Hall by Columbia Lodge, No. 58, A. O. U. W., was largely attended and everyone went away well pleased with the programme as with the order itself. The programme was an excellent one and included several selections by the Young Men's Symphony Orchestra led by P. Ludwig Conde.

Just as the opening strains of the Dramatic Overture were rendered by the orchestra the electric lights suddenly went out and the hall was plunged into complete darkness. The gas was lighted at once, however, and the musicians began over again. A short opening address by Edward C. Pease followed, in which he welcomed the visitors and spoke of the entertainment as partially a service in memory of the two comrades who had been called away in the past year. He also remarked that the order was a beneficient one. Rev. Herbert F. Randolph offered prayer, and then a quartette, composed of Elmer E. Runyon, George O. Stevens, Alfred Holmes and William N. Runyon, sang a selection and responded to the applause with an encore. Miss Etta Raybert gave a very pathetic reading entitled "Connor," after which the audience was favored with Schubert's "Grand Serenade" by the orchestra. Past Grand Master Workman John W. Diefendorf, of Newark, made an address on the order, telling of its history, its present condition, its benefits and its enjoyments. After this discourse, E. E. Runyon sang a pleasing solo and then Miss Raybert read a very amusing sketch, entitled "Mice at Play." The quartette gave another selection and replied with two encores, one of which completely brought down the house. Rev. C. E. Herring then gave a short, but very interesting talk on the priciples of the order. He remarked the fact that while competition was a great natural law, co-operation was also, and he spoke briefly, but to the point, on the the main principles of the United Workmen, Charity, Hope and Protection. An operatic selection from "Fanchon" by the orchestra ended the programme.

The committee, in whose hands the management of this very successful affair rested, consisted of W. A. Woodruff, chairman; J. A. Bauersachs, Eugene M. Laing, Henry Leifke and G. T. Dunham.

DELEGATES CHOSEN.

Woman Suffrage Association Name Them for the National Convention.

The New Jersey Women's Suffrage Association met at Wisner Hall, Newark, and elected the following delegates to the National convention to be held in Washington, D. C., from January 23d to 28th:

Dr. Mary D. Hussey, Mrs. H. L. Coolidge, Mrs. E. S. Wilde, Glen Ridge; Mrs. D. S. Pond, Plainfield; Mrs. M. L. Watts.

Mrs. Florence H. Hall, who was unable to be present, will also be a delegate. Mrs. Coolidge and Mrs. Watts were the alternate delegates.

The Meetings Will Continue.

Through the inadvertent transfer of a Scotch Plains item to the local columns last night the statement was made that the revival meetings at the First M. E. church would close Sunday night. This, of course, was misleading as the meetings are to continue until the interest abates, which does not seem very likely to occur right away.

Coming Nuptial Event.

Miss Katie Mullen and George Hughes will be married Wednesday evening, Jan. 29th, in St. Mary's (R. C.) church. A reception will follow at the home of the bride, 214 West Fifth street. A wedding trip to Philadelphia and the South is anticipated, and on their return they will reside in Mr. Hughes' new house on East Second street.

Fell from a Scaffold.

While engaged in white-washing a wall from a scaffold at the Potter Press Company's Works yesterday Frank Rogers slipped and fell a distance of twelve feet. He was carried to Muhlenberg Hospital on a stretcher. The extent of his injuries cannot be determined at present, but it is thought that he is not very seriously injured.

A PLUM FOR FIVE YOUNG MEN.

At Last They Get the Money They Found in a Stocking When They Were Boys.

A decision was handed down yesterday by Vice-Chancellor Emery by which about $1,200 will be divided equally among five young men. On August 27, 1870, William Cashman, Thomas Fox, Robert Devine, Charles Fox, and William Crawford were roaming along the banks of the Elizabeth river, near the Pennyslyvania railroad, when Crawford picked up an old stocking tied at both ends and full of something. Crawford, then nine years old, was the youngest of the five. He began to swing the stocking as a plaything. He says Cashman took the stocking from him, but the others say he threw it down and then Cashman picked it up. However that was, each took a turn hitting the others with it.

Finally it burst and some rags and ribbons fell out together with a roll of bills. The boys counted $755. They started to divide the cash, but were interrupted, and finally they took it to Fox's father, who turned it over to John Keron, then Chief of Police, with a request that he find the owner. No owner ever appeared. Crawford wanted it all on the ground that he found the money. The others demanded that it be equally divided, and the case was carried to court. After various complications it got into chancery, where it lay for a long time.

When they found the money they were mere schoolboys. Now three of them are married, while the division of the money, which has been increased by interest, will probably lead to the marriage of a fourth.

Y. M. C. A. Meetings.

F. H. Martin will speak on "Different Sights." Mandolin, guitar and vocal duets by Mrs. and Miss Thorne, at four o'clock in the afternoon. Conversational Bible class will be held at 5:30 p. m. "The Tug of War" will be the topic for the gymnasium men's Bible class at 5:15 p. m. Boy's meeting at 4:15 p. m. Talk about "Colors" by D. A. MacPhie. Boy's Bible class at 9:30 a. m.

A Dangerous Thing to Step On.

While passing the North avenue store of the City Market Beef Company yesterday afternoon, Mrs. Randolph, of Dunellen, stepped on a piece of slippery apple paring. She was thrown heavily and was carried into the market. It was thought no serious injury resulted from the fall although she was badly shaken up by the fall. She was taken home in a hack.

Skating at Night.

A very pleasant time was spent on New Market pond last evening by a number of young people from this city and the borough. Among those in the party were Mrs. J. C. Vannata, the Misses Josephine Vannata, Sadie Perrine, Florence Taynor; Messrs. Fred Meeker, Frank Schuck, John Vroom and Mr. and Mrs. Kelly.

Business Changes.

Some important business changes are expected to take place within the next few months. W. H. Sebring, the clothier, will probably be found in the store now occupied by Garrett Q. Packer, and Lewis Moraller, the West Second street jeweler, will take the store vacated by Mr. Sebring.

High School Notes.

The question of drilling during the winter at the Columbia Cycle Academy has been presented to the High School Cadet Company for action. A majority of the members have expressed themselves as in favor of it, although no definite action has been taken.

Cranford's Special Meetings.

At the special meetings that are being held this week in the Cranford M. E. church, Rev. W. C. O'Donnell, of the Monroe Avenue chapel, is one of the speakers.

WILL RECALL CAMPOS

Decision of the Spanish Cabinet Last Night.

The Governor-General's Brother-in-Law, Gen. Arderius, Also To Leave Cuba--Gens. Marin and Pando To Succeed Them — Gen. Weyler Will Command the Island.

London, Jan. 8.—A dispatch to the Central News from Madrid says that the cabinet last evening decided to recall from Cuba Capt.-Gen. Campos and his brother-in-law, Gen. Arderius, second in command. Generals Marin and Pando will be temporarily substituted in their places. The supreme command in the island will be conferred on Gen. Weyler, who will sail for Cuba forthwith in company with Gen Polavieja.

Fired Stores and Railway Station.

De Guira de Melena, Jan 6, via Tampa, Fla., Jan. 18.—Since the 2d inst there has been much anxiety in this town. All capable of bearing arms were pressed into service. At 2 o'clock this afternoon the advance guard of the rebels entered the town by way of Rosario and Raal streets. The volunteers opened fire on them, but resistance was useless. The rebels demanded their surrender, seizing their arms and placing the ammunition in the church. The invaders forced open stores, sacked them and gave them to the flames. Store after store, the barracks and railway station, successivly were fired. Hour after hour they continued the work of ruin, while the inhabitants rushed from point to point to secure refuges for children and women. The rebels attempted to allay the alarm by informing all that they need not be alarmed, as no harm would be done them. Then men commenced going from house to house asking for watches, jewelry and money. The terror increased, particularly when rumor said that they would blow up the church with dynamite.

Driven Out by Government Troops.

The priest begged the rebels to spare the church. Men entered the church, poured coal oil over the woodwork and then set fire to it. Soon it was a mass of flame. Soon after that the rebels received news that the government troops, under Gen. Echague, were approaching, when scores of whistles were blown. This was their order to retire. Their rear guard met the vanguard of Gen. Echague's forces and exchanged shots. The troops were rapidly approaching the town. The insurgents rapidly retreated in the direction of Alquizar. The troops made four prisoners. A dramatic company last all their properties and personal effects. The troops remained only long enough to quench their thirst. Following their departure the exodus commenced. Families with their effects worked for four hours, when they arrived at Salud, where they asked the station agent for a train. He granted their request. An explosive had been placed on the line. After the explosion the rebels under Guintan Bandera appeared. The rebel chief asked who they were and why they were fleeing when in no danger. When they had explained the situation he allowed them to proceed. The explosive used was of the fog signal type and advised the rebels of the train's approach.

Insurgent Defeats Reported.

Washington, Jan. 18.—Senor Dupuy de Lome, Spanish minister, received the following cablegram last evening from Madrid signed by the Duke of Tetuan, minister of foreign affairs: "The commander-in-chief telegraphs that Gen. Loque overcame in Angosturas, province of Pinar del Rio, portions of the bands of Antonio Maceo, commanded by Nunez, Berradez and others, capturing their flag and encampment, 100 horses, saddles, arms, ammunition and provisions, making some prisoners and dispersing them. Capt. Sanchez with 240 men had an engagement with a large band commanded by Lacret in Chiarca, province of Mantanzas, capturing their encampment. Gen. Prat reached the vanguard of Maximo Gomez at Encrucijade, province of Habana, putting it to flight.

Campos Too Lenient.

The dispatch adds that independently of the military action the government has authorized Marshal Campos to resign his command to Gen. Marin and return to Spain, in consequence of the conduct of the political parties of Cuba contrary to the policy of the commander-in-chief asking a change in the system of conducting the war. Senor Dupuy de Lome does not think that the change in commanders at this juncture will have any injurious effect on the campaign, or that any radical change on the conduct of operations will take place. Spain has shown a readiness to agree to the retirement of Gen. Campos at the request of loyal citizens of Cuba who found, as had been stated when Campos was first sent to Cuba, that he was disposed to be too lenient with the insurgents.

No Pardon for Banker Hotchkiss.

Albany, Jan. 18.—The statement that District Attorney Fellows of New York had written Gov. Morton asking the latter to pardon Philo Pratt Hotchkiss, the New York city banker, serving a four years' sentence at Sing Sing for grand larceny, is denied at the executive chamber.

Charges Against Sheriff Tamsen.

Albany, Jan. 18.—Sheriff Tamsen of New York city this morning received a notice by mail from Gov. Morton requiring him to answer charges which have been filed with the governor against him.

FORGER AND FUGITIVE.

Speculation Ruins E. C. Morris, a Well-Known Boston Safe Maker.

Boston, Jan. 18.—E. C. Morris, the well-known safe manufacturer and dealer, left Boston about two weeks ago and has not been heard from since that time. It has been discovered that he forged the name of his father-in-law, Hon. Frank M. Ames, on notes which will probably aggregate $75,000. It is known that brokers, banks and trust companies hold about $50,000, and that private individuals have probably $25,000 more. In the course of his business operations Mr. Ames endorsed a $5,000 note for his son-in-law. Both being well-known men Mr. Morris had very little difficulty in getting notes discounted with the name of Mr. Ames as an endorser. He was thus enabled to use notes to the amount of $75,000 as indicated above. They were widely distributed, so that none of the men or banks will suffer any large individual loss. Mr. Morris was 51 years old and was widely and favorably known in Boston. He was originally of the firm of Morris & Ireland, safe dealers. After this firm was dissolved he formed the E. C. Morris Safe company, but was forced to retire from the management about a year ago. He has always been a man of correct habits, pleasant and popular in a large circle of friends. His downfall was due to a common cause—speculation, and it is not believed that he had much money when he fled.

CURRENCY NOT IN IT.

Clark Howell Tells Why Chicago Was Selected.

Washington, Jan. 18.—Clark Howell, the committeeman from Georgia, speaking of the choice of Chicago for the democratic national convention, said: Chicago was chosen simply because a majority of the members of the committee thought that as between Chicago and St. Louis the former was the more desirable place for the convention. The silver question did not enter into the choice between the two cities as has been claimed. Several ardent free coinage members voted for several ballots for Chicago, among them being Mr. Sewell of Maine, Mr Donaldson of South Carolina and myself. On the other hand several of the gold men voted for St. Louis, whose campaign was managed by ex-Gov. Francis of Missouri, Col. Prather, the committeeman from that state, and others who are conspicuous advocates of the single gold standard. The currency question will no doubt figure in the convention, but it did not in the selection of the place.

FRANKLIN'S BIRTHDAY.

Publicly Observed for the First Time in Boston.

Boston, Jan. 18.—Yesterday was the 190th anniversary of Benjamin Franklin's birth. Through the efforts of the Franklin Typographical society flags were displayed on all the public buildings and school houses throughout the Hub during the day—for the first time—in honor of the country's first great printer, and hereafter Franklin's birthday will be thus observed in Boston, an ordnance to that effect having been adopted. Scholars in all of the Boston public schools were reminded of the significance of the day. The Franklin Typographical society held its 72d annual banquet at the Quincy house last evening.

MISAPPROPRIATION ALLEGED.

Discharged Postal Employes Make Charges Before House Committee.

Washington, Jan. 18.—Messrs. Hill and Bright, two discharged employes of the postoffice department, yesterday appeared before a sub-committee of the house committee on postoffices and postroads and charged that postal funds had been misappropriated by being used for the employment of secret agents. These agents they claimed were ward politicians. They attempted to make general statements regarding alleged corruption in the postoffice department, but were stopped by Chairman Loud. First Assistant Postmaster General James was present and made a denial of their charges.

HARRISON WILL WED

Formally Announces His Coming Marriage.

Mrs. Dimmick To Be the Bride and the Nuptials Will Not Take Place Until After Lent—The Announcement Made at the Fifth Avenue Hotel, New York.

New York, Jan. 18.—Gen. Benjamin F. Harrison last night formally announced his engagement to Mrs. Dimmick at the Fifth Avenue hotel. There was a crowd of newspaper men and others about the hotel shortly before 9 o'clock, when Secretary Tibbetts appeared and handed them the following: "Gen. Harrison authorizes the announcement that he and Mrs. Dimmick are engaged to be married, and that the marriage will not take place until after Lent." Col. Tibbetts refused to further discuss the announcement, and although the ex-president was upstairs in his room at the time he denied himself to all newspaper men. Col. Tibbetts said that Gen. Harrison would remain in the city until after Sunday, when he would go to Indianapolis and from there to Washington.

Caroline Lord Dimmick.

Mrs. Dimmick's full name is Caroline Lord Dimmick. She is the daughter of the late Mrs. Lord, the eldest sister of Gen. Harrison's first wife. She is the widow of a naval officer. After her husband's death she lived for some time with her mother in Pittsburg. Mrs. Lord died during the time that Gen. Harrison was president. Mrs. Harrison thereupon sent for her favorite niece and namesake to come to the White House and made the young widow her private secretary. During her illness both at the Adirondack cottage and in the White House Mrs. Dimmick was her companion.

FRANK LAWLER DEAD.

The ex-Illinois Congressman Passes Away at Chicago.

Chicago, Jan. 18.—Frank Lawler, ex-representative in congress, and present alderman from the Nineteenth ward, died at his home yesterday afternoon of heart failure.

Frank Lawler was a unique character in politics. He was born in Rochester, N. Y., in 1842, and had resided in Chicago since 1853. He was forced by his father's early death to begin work in a brick yard when only thirteen years old, and was deprived of the opportunity to get an elementary education, but what he lacked in knowledge he more than make up in honest and effective efforts for those he represented in public life, especially the workingman. He rose to be a letter carrier and then became a prominent figure in local politics during the Hayes-Tilden fight. He served five consecutive terms in the council and his record was a brillant one in the interests of working people. He was elected to the Forty-ninth congress from the Second district and re-elected to the next two congresses. He attracted national attention by his fight for the postmastership of Chicago under the present administration, taking to the White House a petition of 54,000 Chicago citizens for the office.

MARRIED IN JAIL.

A Negro Indicted for Murder Permitted To Wed a Witness.

Lockport, N. Y., Jan. 18.—William Smith, the Niagara Falls negro, indicted for the murder of Oscar Jones at a dance in the tunnel district on December 10 last, and Mary King, a negro woman, held here as a witness in the case, were married in the Niagara county jail Thursday afternoon. Prison officials witnessed the ceremony.

No Chicago Bond Pool.

Chicago, Jan. 18.—Officers of every national bank rumored to be a member of a pool to make a big bid for the millions of the new bond issue deny the existence of any such combination. The Illinois and Trust Savings bank is the only one which has made a bid.

Seven Negroes Killed.

Charleston, S. C., Jan. 18.—A special from Walterboro says: Seven negro laborers on the Walterboro & Western railroad, who were sleeping in an underground camp near Williams, this county, were killed last night by the earth above falling on them.

Summer Hotel Barns Burned.

Gloucester, Mass., Jan. 18.—The summer hotel barns of the Turks Head inn, at Lands End, was burned last night. The blaze could be seen from here and for several miles around the heavens were aglow. The loss is heavy.

THE MONROE DOCTRINE

An Iron-clad Resolution by the Senate Committee.

Text Not To Be Made Public Until Monday Next—It Will Go Even Further Than Cleveland's Venezuelan Message in Our Claim Against Foreign Interference.

Washington, Jan. 18.—The text of the Monroe doctrine resolution which will not be given out until reported to the senate on Monday next, is said by a member of the foreign relations committee to be lengthy, carefully worded and sufficient to cover any and all cases, and after being enacted into law will enable those hereafter charged with the diplomatic correspondence of the government to merely refer to it to cite its provisions.

An Ironclad Declaration.

It has been further learned that the resolution goes even further than did the president in his message to congress on the Venezuelan question. It will, if passed, commit the congress to a policy from which there can be no doubt as to the ultimate result on the resolution. Omitting the two whereases, which simply form a prelude to the more serious utterances of the resolution itself, it is said that the resolution will be found when the text is made public that it reaffirms and confirms the Monroe doctrine and declares that the United States will assert and maintain it. It states specifically that this government will regard as an infringement of this doctrine any attempt on the part of any European power to acquire new or additional interest on this continent or the islands adjacent thereto, as dangerous to the safety and peace of the United States. The United States also denies the right of any European power to acquire such territory, either by force, purchase, cession, occupation, pledge, colonization or protection, whether under unfounded pretensions of right, under the guise of boundary disputes or otherwise, and declares unmistakably that any such attempt will be regarded as a manifestation of an unfriendly disposition upon which this government cannot look with indifference.

Only Two Opposed It.

Senators Turpie and Gray were the only members of the foreign relations committee who spoke against the resolution and their arguments had no weight with the committee. They were combatted by Senators Sherman, Lodge, Morgan and others. Mr. Mills, one of the new members of the committee, an ardent admirer of Jefferson, was one of the most enthusiastic supporters of the affirmation of the doctrine. The vote to adopt the Davis resolution which was drawn along the lines of the Lodge resolution was agreed to after one or two alterations in the verbiage had been made.

GENERAL PENSION BILL.

Passed the House After a Debate Lasting Five Days.

Washington, Jan. 18.—Congressman Stone, in charge of the general pension appropriation bill for the year ending June 30, 1897, which passed the house yeeterday afternoon after a debate continuing almost uninterruptedly over five days, announced that its passage ante-dated by fifty days the passage of a similar bill in either of the last two previous congresses. During the final day's debate no amendment of importance was adopted, Mr. Bartlett, dem., N. Y., enforcing his announced policy of opposition to further extension of pension legislation by raising points of order against them. By the same device he succeeded in having struck out of the bill the provision reported by the committee that "during the fiscal year it shall not be necessary for a widow, in establishing her claim to a pension under the provisions of the act of 1890, to prove that she is without other means of support than her daily labor: Provided, That before she shall be entitled to a pension under the provisions of said law she shall prove that her net income does not exceed $500 per annum."

Claim Against New York State.

Albany, Jan. 18.—The Argus company has filed with the board of claims a claim against the state for $16,841 with interest from February 1, 1895, being for monies due under its contract with Compiler Glynn of the constitutional convention record for the printing of the proceedings and debates of the late convention.

A Philanthropist Displeased.

New Haven, Conn., Jan. 18.—W. A. Slater of Norwich, who offered $30,000 and an annuity of $7,000 for a normal school in that city, has suspended his offer on the ground that the local board of education deceived him in regard to the site and has indulged in demagogical utterances of a personal nature.

Change of Mill Bosses.

Providence, R. I., Jan. 18.—Frank Knight, who has been agent for the Amory mills, is to be the general superintendent of the Plunkett & Gray lock mills at Adams, Mass., to take the place of J. D. Hall, who comes to this city as general manager for the B. B. & R. Knight company.

England May Deal With Venezuela Direct.

The Statement That the New British Flying Squadron Is To Sail for the West Indies Neither Denied Nor Confirmed by the Admiralty—Some Anxiety Felt.

Colon, Jan. 18.—Advices received here from British Guiana indicate the likelihood of Great Britain dealing with Venezuela without any regard for the United States' desire to obtain arbitration of the dispute. A small Venezuelan force, under the command of Gen. McPherson, is stationed on the bank of the Cuyuni river.

Destination of Flying Squadron.

London, Jan. 18.—Though the admiralty refuses to either confirm or deny the statement that the new flying squadron is destined for Bermuda it can be stated on the authority of officers attached to the squadron that they believe that if they do not go to Bermuda they will go to some point in the West Indies. They do not know the nature of the service they are going on, but in view of the dispute with Venezuela the fact of the dispatching of the squadron to the West Indies causes some anxiety.

CASES OF INHUMANITY.

Startling Discoveries Made By Connecticut's Humane Agent.

Winsted, Conn., Jan. 18.—Agent John F. Simmons of the Connecticut Humane society, has returned from Campville, Litchfield county, where he has been investigating the case of William Davidson, an old soldier, and his daughter who were turned out of the home of his son-in-law, Eugene Cann, last December. Davidson when found was frost bitten, his cheek frozen and he was sick with pneumonia. He was removed to the Soldiers' Home at Norston last week. Agent Simmons has nearly a score of affidavits to sustain the newspaper stories of inhumanity and they will to-day be sent to States Attorney Huntington of Woodbury and action will probably be brought against Cann and the town of Litchfield. Mrs. Mary Cann, wife of Eugene Cann, will be arrested for bigamy. She swore yesterday that she had never procured a divorce from Gilbert Bishops, who is now serving a fifteen years sentence in Charlestown state prison for aggravated assault. Agent Simmons also discovered the family of A. V. Churchill of Litchfield living in [illegible] Mrs. Churchill is [illegible] 000. Within a [illegible] Churchill home is [illegible] by David Moss. [illegible] terior of the building [illegible] dog. Agent Simmons will [illegible] the two latter cases.

THE SULTAN IS SORRY.

Laments That Queen Victoria Believes Further Disorders Possible.

London, Jan. 18.—General dispatches from Constantinople report that the sultan professes to regret that Queen Victoria believes that further disorders in Asia Minor are possible under the reforms he has promised to grant. He laments the wilful exaggerations of the English press regarding the troubles in Anatolia, and declares that a majority of the victims of the recent disorders were Turks.

Jackson Acquitted of Murder.

Somerville, N. J., Jan. 18.—Clinton Jackson, who was on trial here for the murder of Clarence Sullivan, was acquitted by the jury last evening, after being out but a short time. Shortly afterwards Jackson was released and went to the colored orphan asylum in New York.

Passengers on the St. Louis.

New York, Jan. 18.—Among the passengers who arrived on the American line steamer St. Louis, from Southampton this morning, were Henry E. Asbury, T. B. Burnham, commandant Herbert M. Booth, Major Colborne, Russel Colgate and senator Wm. H. Reynolds.

Will Fight Extradition.

Tampa, Fla., Jan. 18.—Benjamin Johnson, the absconding Philadelphia stock broker arrested here several days ago, has resolved to fight extradition. He has employed a lawyer, who says Johnson will not return to Philadelphia until forced to do so by the law.

Refused To Honor Lee's Memory.

Richmond, Va., Jan. 18.—The Virginia house of delegates, by a vote of 53 to 30, yesterday refused to adjourn over Monday in honor of the birthday of Gen. R. E. Lee. The anniversary is the day previous, Sunday, but it will be observed on Monday.

Abbott and Pearce To Meet.

Boston, Jan. 18.—Stanton Abbott, the champion lightweight of England, and Leslie C. Pearce, the Philadelphia lightweight, have signed articles of agreement to box fifteen rounds at Music hall, this city, under aldermanic license, on Feb. 4.

Washington, Jan. 18.—A special train via the Atlantic Coast line left here last evening with the delegation of northern and eastern editors enroute to their convention at St. Augustine, Fla.

Queen Victoria to the Sultan.

Constantinople, Pa., Jan. 18.—The letter of Queen Victoria to the sultan of Turkey, presented by Ambassador Currie, expresses the hope that peace will soon be restored in Asia Minor.

THE UNITED STATES GOVERNMENT GRANT.

"Pura Blood" An Unprecedented Success.

People who cannot go to Hot Springs Arkansas, and be cured of blood diseases by the treatment there given, fully appreciate the fact that the United States Government, under grant, have permitted the famous curative waters of Hot Springs, Ark., to be used in the preparation of "Pura Blood," and thus placed within their reach.

Eighty per cent of the diseases with which the human family suffer today are produced by poisons in the blood and the consequent derangement of the life-giving and sustaining fluid. It requires no effort of the imagination, then, to understand why blood diseases are so prevalent. Neither does it require argument to tell you that the world-renowned healing waters of Hot Springs, Ark., which, under grant from the United States Government, are permitted to be used in the preparation of "Pura Blood," have been curing all these conditions for the last century. A few bottles of "Pura Blood" will invigorate the entire system and cleanse the blood of all impurities. As a tonic for young and old, for weak and feeble, it has never had an equal. "Pura Blood" is for sale by druggists. Price $1. Billups & Co., of No. 26 Cortlandt st., New York, are sole agents. Descriptive book containing physicians indorsements, sent to any address free.

ANNUAL SALE
OF
Muslin Underwear, Waists, Wrappers, Corsets.
Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.
So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.
We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that those who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

Dinners for the outgoing and incoming State officials are all the rage now.

Another month from today the cider joints will probably have no reason to be hypocritical observers of the seventh-day law.

The tariff question in the halls of Congress and the excise problem in the New York Legislature are two species of legislation that are never settled.

When it comes to getting Uncle Sam to erect a building in any city it is just as easy to get him to put up a costly one as a cheap affair, and this no doubt is the reason why Elizabeth is not at all bashful in asking for a $250,000 government building.

A pretty western damsel, who has mastered Blackstone sufficiently to hang out a shingle, has emigrated to New York, and is confident that she can get a nice living along with the 10,000 other lawyers, good, bad and indifferent, in the great metropolis.

Turkey stands today before Christian civilization self convicted. She has permitted, and left unpunished, crimes unspeakable against humanity and Christianity. Yet she dares to attempt to interpose her puny veto against a noble movement for the relief of the victims of a barbarity for which she and she alone is morally responsible.—Boston Globe.

The exclusive publication in The Daily Press last night of the acquittal of the Jackson boy at Somerville and the important points raised in Collector Johnson's behalf by his attorneys demonstrates The Press to be the only paper in this city that can be depended on to furnish important events as soon as they transpire. Newspaper readers who have to depend on a foul mouth editor and sweat shop labor cannot expect to get decent service.

Congressman Bartlett deserves the hearty support of the people in his fight against the new series of efforts to enlarge the pension rolls. The country has been more than generous in its pension outlays. The reached in 1893 the enormous amount of $158,000 000 and last year they were about $140,000.000. Such annual sums, thirty years after the close of the civil war, are prodigious, and it is unworthy of this liberality to try to carry pension outlays beyond reason and very far beyond need.—Sun.

There is a trite old saying that the truth is bitter to some people. That is just the effect that was produced on Editor Runyon when he read The Daily Press Thursday and had his attention called to the fact that he pays sweat shop wages to his employes and treats them with worse than sweat shop methods. The truth was not only bitter, but it made him mad. When the compound intellect of Editor Runyon, alleged graduate of a college, becomes agitated with passion it churns out soprano thoughts that are vivid synonyms of his feelings. Ordinary words fail to express his cogitation. He simply boils over and then, lo and behold, a phrase which still lingers in his mind from the anecdotes which he related when he was a sophomore, gushes forth and in due time the public are treated with tenderloin classic direct from the thumping cephalic extremity of Editor Runyon. Editor Runyon needs to again have his mouth washed out with soap.

Rev. Dr. Parker

Is the beloved pastor of the Universalist church at Fargo, N. D., and has also been a pastor in Providence, R. I., New York City and Troy, N. Y. He says:

"I regard Hood's Sarsaparilla the best blood purifier, and I have good reason for this opinion. I am now 80 years of age. Four years ago I was afflicted with rheumatism in my back and limbs, so badly that it was impossible for me to get my usual sleep at night. I had just partially recovered from the grip, which reduced my weight 40 lbs. My appetite was poor and I felt languid and weak. In fact I was in a very dilapidated condition. Having heard and read so much about the wonderful cures produced by Hood's Sarsaparilla, I resolved to give it a trial. I followed the directions, and before the fifth bottle was finished my appetite was restored, and I felt

OLD SUPERSTITION.

What the Curfew Bell Meant in Olden Times.

And What It Should Mean Today to Millions of People.

To Persons of Sense This Has Great Weight.

The curfew bell was no myth. It was a summons to the people to put out the fires, stop all labor and retire to sleep. It was a summons, also, which none dare disobey, for heavy penalties followed disobedience.

O, for a curfew bell at the present day!

A bell whose ringing tones should summons us to rest from work! To rest from the intense, mad rush which hurries us on in the weakening wearying, nerve-tearing, brain-destroying struggle of life.

Do you know what this means?

You professional and business men, how severe is the strain of thought and mind is plainly evidenced in your weakened nerves, your trembling on excitement, your sleepless, restless nights, your utterly relaxed nervous condition after mental work.

You clerks and mechanics, who work all day, how weak you grow how pale, lifeless, spiritless you become, how dull and tired headed.

You women, sales-girls, and those confined in mills and factories, how heavy is your drudgery, how wearing upon your life, how enervating to your feelings, how exhausting to your strength how blighting to your beauty You are often nervous, generally weak and always tired.

Alas, no curfew bell can call a halt in the world's work, but a warning voice can direct you how best to overcome the nervous and physical weakness which such work entails. You who would be strong in nerve and brain, who would gain physical and mental strength to continue your work successfully, use as the vital restorative, the strengthener of brain and nerve, the giver of renewed life and vigor, that greatest of all medicines, Dr. Greene's Nervura blood and nerve remedy. Nothing on earth will so quickly and surely restore your lost strength.

Just see what it did for Mr. John Connors of 323 Rivington street, New York City, who says:

"I cheerfully recommend Dr. Greene's Nervura blood and nerve remedy. It has acted like a charm. Six months ago I became restless, weak and all broken up from unrefreshing sleep. My rest did me no good, I thought more harm than good. I had lost my appetite day by day.

"I saw my doctor and I tried different remedies recommended by the people I came in contact with as keeper in the Tombs, but of no avail, until one morning my wife got me a bottle of Dr. Greene's Nervura blood and nerve remedy. I tried that bottle and it did me a world of good. I took five bottles in all but could have dropped off at three.

"My sleep is now of the most refreshing kind. I never remember in my 36 years feeling as well as I do today. My wife and two boys five and three years old, are taking their first bottle, and they already show the benefit of it.

"I hope this will reach those unfortunates who are suffering as I suffered from loss of appetite loss of sleep, unstrung nerves, melancholy feeling and general weakness, all of which I suffered from six months ago, and from which that valuable medicine, Dr. Greene's Nervura blood and nerve remedy relieved me forever. I hope and believe."

Use Dr. Greene's Nervura blood and nerve remedy to conquer your weakness and debility. Use it and get yourself strong, vigorous and well.

This remarkable discovery should not be classed with the ordinary patent medicine. It is the prescription of the most successful specialist in nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City, and he can be consulted by all without charge, personally or by letter.

—Congressman Cornish has telegraphed from Washington that after a conference with the Post Office Department officials the latter decided to grant a request made by the town of Washington for a free delivery system.

One Minute Cough Cure is rightly named. It affords instant relief from suffering when afflicted with a severe cough or cold. It acts on the throat, bronchial tubes, and lungs and never fails to give immediate relief. L. W. Randolph. 143 W. Front St.

THE MARVELOUS SUCCESS OF

The Commercial Palace,

during the year just closed inspires the proprietor to still greater efforts during the coming year. The figuring up of the business year of 1895 shows a gain on sales of a good many thousand dollars over last year.

This is taken as conclusive evidence of the growing popularity of the house and that the great masses of the trading public like to patronize just such a large, up-to-date metropolitan house in Plainfield instead of going to New York.

In fact we feel so good over the magnificent showing that we are going to celebrate the same by inaugurating our first

Two exciting games were bowled on the Union County Country Club's alleys last night when the home team managed to break even with the leaders in the Standard Bowling League. The scares were about as close as any two that have been rolled in the league so far. In the first game the Union County bowlers won by one pin, 758 to 757. In the next game Westfield won, 757 to 752, but had Fleming, of the home team, not had a split the chances are the Plainfield team would have won this game also.

There is joy in the hearts of the Park Club bowlers for they have risen to the dignity of second place in the Standard Bowling League, and what is more pleasing still, Westfield is not far ahead. Neither of the teams rolled high scores, but the games, the last especially, were probably the most exciting that have ever been rolled on the Park Club alleys. The first game went to the Park Club by twenty four pins, and then came the game of the evening. This game was close all the way through, but in the tenth frame, after four men had bowled, the score was tie, while Thiers was one pin ahead of Cox in the ninth frame. The Cranford man sent his ball speeding down the alley, and with a crash all ten pins toppled over. Then there was a shout of delight from the visitors, and then "Doc" Thiers bowled. A groan followed his turn for only three pins were upset. Cox scored seven on his next turn, while the doctor retrieved his honors by making a spare. Cox finished the other three pins, scoring twenty on his strike, and then the Park Club man came up to scratch. Ten to beat and nine to tie was whispered around, and every body stood breathless watching the doctor's ball as it shot down the alley. There was a crash and a terrific shout for the doctor had cleared the alley and won the game. The individual scores were as follows:

CYCLING COMMENT.

The Cycle Show at Madison Square Garden opens tonight. A number from Plainfield will attend.

Frederick F. Chase, of the Chase machine shop, corner of Berckman street and North avenue, will have an exhibit of barrel bicycle hubs at the New York Cycle Show.

THEATRICAL.

The people demand a change. They wish something new all the time. In all walks of life this is demanded, and especially so in the amusement world. Minstrelsy has been plodding along in its time worn grooves for years; always the same. Black faces, singing and farces. It remained for Al. G. Field to leave the old-time ruts and adapt himself to the times, the progressive times in which we live. The people wanted a change, and after a year of laborious labor the Al. G. Field Big White Minstrels is presented for their approval. It is the largest legitimate minstrel company in the world. It is a new show in everything. Over a half a hundred minstrel stars are engaged with this company. At Music Hall next Thursday.

Every turn of the vaudeville kaliedoscope at Proctor's Pleasure Palace reveals a new and colossal combination of varieties and novelties. Mr. Proctor has shown great energy and ingenuity in the securing of attractions and his new music hall continues crowded to capacity. Those whimsical and hilarious entertainers, Weber and Fields, return with their droll songs and dances and imitations of German sharpshooters. The Twin Sisters Abbott, the two pretty waifs of "1492" make their vaudeville debut, singing ballads to their own mandolin accompaniments. Lottie Gilson has new songs, Billy Emerson, the famous minstrel appears. George Lockhart's comedy and cycling elephants are in their twentieth week. Acrobatics are illustrated by the Flying Dillons and the Four Mosers, who are jugglers as well as gymnasts. Marietta and Belloni exhibit trained white cockatoos. The Acme Four have a very funny sketch.

Clever acting was seen in the production of "Hands Across the Sea" last night at Music Hall. There was no buffoonery or horseplay antics on the part of the actors to cover up or detract from the real dramatic merit of the piece or the histrionic abilities of its performers. The piece is a clean comedy-drama, well developed as to plot and situations, and is performed by people with proper conceptions of their chacters. The acting is natural all the way through—not once descending into the sensational melodrama variety, and therein lies a pleasant change from the usual "road" show. In the second and fifth acts the acting was especially fine. The climaxes are worked up with true dramatic skill and the honesty with which they are performed brought out warm applause from the audience. Maurice Freeman and Nadine Winstain played the leading roles in an admirable manner, while George Mack and Reah Starr were captivating in the juvenile leads.

Scotch Plains.

Scotch Plains was completely in the hands of the revivalists last evening. A committee of women made a special appeal to all store and hotel keepers asking them to close their places of business while the services were being held, so that no one should have an excuse for not attending. Everyone answered the appeal and the town presented a Sunday appearance in consequence. The Baptist church, in which the revivals are being held, was filled to overflowing and great spiritual interest was shown. The committee in charge are greatly pleased with the results of the meetings of the last two weeks, and there is some talk of continuing them. Rev Arthur Crane will conduct his last service there on Sunday night and another evangelist would have to be secured.

SWEET JASMINE.

How This Fragrant Flower Became the Symbol of Marriage.

Long before orange blossoms became associated with weddings the fragrant jasmine was commonly used for the decoration of a bride. A very pretty legend of ancient Tuscany tells how this little blossom became the symbol of love. A traveler, returning from the warm countries of Asia, brought home with him a rare tropical plant—the jasmine—which was unknown in Tuscany. He gave a small slip to a certain duke, who set it among his most treasured plants, where it rooted and thrived under the care of the gardener and soon grew to be a good sized plant. The duke was so proud of his rare possession that he gave strict orders to his gardener to guard the plant carefully and on no account to give even a slip—not a flower—to any person.

The gardener was a good young man, and he would have been faithful to his charge had he not happened to fall in love with the sweetest peasant maid in all Tuscany. The maid was poor and her lover was not much richer, so they were unable to marry. On the birthday of the peasant the gardener, having nothing else to give the maid of his choice, presented her with a bouquet of flowers, and among the other clippings in the bunch there was one from the duke's cherished jasmine bush. Nothing could be too good for the gardener's maiden, so in this one instance he relaxed his care of the shrub. The girl, admiring the fresh buds of the sprig, wished to preserve it, and so placed it in the ground, where it rooted and remained fresh and green all winter, thus symbolizing her love for the gardener, and in the following spring it grew and was covered with blossoms. The little bush flourished and the flowers multiplied so under the maiden's care that she was able to sell many of the sprigs for a considerable sum, thus spreading the unknown flower abroad; and in a short time, with a spray of the precious love token on her breast she was wedded to the happy gardener.

To this day the Tuscan girls preserve the remembrance of the gardener's gift to his sweetheart by wearing a nosegay of sweet jasmine on their wedding day, and they have a proverb which says a young girl wearing such a sprig is rich enough to make the fortune of a poor husband.—Philadelphia Press.

Cardinal Mezzofanti's Memory.

Cardinal Mezzofanti had a memory little short of miraculous. Dr. Russell, his biographer, says that the cardinal spoke with the greatest ease 30 languages; that he spoke fairly well 9; that he used occasionally, but not with any fluency, 11 more; that he spoke imperfectly 8, and that he could read 11 more. Taking in addition the number of dialects he used, some so diverse from the mother tongue as to constitute a different language, Dr. Russell says that the cardinal was master of no less than 111 different languages and dialects.

His German was so excellent that he was taken for a native of Germany, while his French and English were equally pure. Dr. Tholuck heard him converse in German, Arabic, Spanish, Flemish, English, Latin, Greek, Swedish and Portuguese, at one of the pope's receptions, and afterward Mezzofanti gave him a poem in Persian and left him to take a lesson in Cornish. He knew several of the American Indian languages and nearly all the dialects of India.

In spite of all these attainments, however, he was a very dull man, and himself said that he had 20 words for one idea. He was remarkable only for the number of languages he knew, but was not distinguished as a grammarian, a lexicographer, a philosopher, a philologist or ethnologist, and added nothing to any department of the study of language.—St. Louis Globe-Democrat.

An Imperfect Gold Coin.

Superintendent Beach of the street cleaning department some time since found a $5 gold coin on a curbstone, and it proved to be a curiosity, worth as much as two ordinary $5 pieces, on account of its having been "miss struck"—that is, it had not been placed squarely in the die, and the milling on one side was some distance from the edge, while on the other side there was none. On mentioning the fact to an employee in the San Francisco mint he was told that the coin was a counterfeit, and that it was practically impossible that a coin so disfigured could have been issued from any government mint. When the coin was produced, the mint employee, after putting it to all sorts of tests, had to admit that it was a genuine coin, struck at the Philadelphia mint, where every coin passes through the hands of four persons who examine it for defects, and he said he would not have believed it possible for such a coin to escape them had he not seen it.—Portland Oregonian.

Declining Our Pronouns.

In a collection of the possessions of the late Robert Louis Stevenson there is a letter showing the difficulties which even such a master of English as he experienced in writing our language. "When I invent a language," he writes, "there shall be a direct and indirect pronoun differently declined, and then writing will be some fun." This idea he illustrates as follows:

Direct—He, him, his.

Indirect—Tu, tum, tus.

He adds in exemplification, "He seized tum by tus throat, but tu at the same moment caught him by his hair." A fellow would write hurricanes with an inflection like that.—Boston Herald.

CAUGHT HIS TRAIN ON HORSEBACK.

A Runaway Locomotive Had Many Sleeping Passengers In Tow.

Early one morning the engineer and fireman of the Santa Fe overland train, bound east, when near Cajon pass, imagined they saw something on the track right ahead. Thinking the train was about to be wrecked they both jumped. The engineer was rather badly hurt, but when the fireman picked himself up out of the dust he found that the engine had made kindling wood of a wagon to which two horses had been attached. Their driver had seen the headlight of the engine and had jumped in time to save himself, and the animals themselves were cropping the dried grass along the roadside, which showed that they had not been greatly disturbed by the accident.

But the train, with nobody at the engine's throttle, was plunging away through the darkness, the passengers asleep in their berths, utterly unconscious that they were being drawn by a wild locomotive.

The fireman, who had been left behind, thought he would try to overtake the flying train on foot. Then he changed his mind and, jumping astride one of the horses, he set out after the runaway train. He knew it must stop shortly, as it had to climb a very steep grade, and if the fire under the boilers was not kept up the supply of steam would not furnish sufficient pressure to keep the wheels going around. The vagrant train did stop a mile and a half from where the accident occurred. There did not seem to be any reason for an interruption of the journey just at that point, and so the conductor and brakeman hurried ahead with their lanterns to ask the engineer what had given out.

When they found the cab empty, of course the trainhands were very much mystified. They asked each other a good many questions, and were engaged in looking up theories to account for the strange disappearance of the engine crew when the fireman came loping along on the horse he had borrowed. After explanation had been made, he turned his horse toward this city and brought the first tidings the railroad people had of the missing train. A hack was sent out to the scene with another engineer, and as soon as steam was raised the overland went on over the hill through Cajon pass. The same carriage brought the injured engineer to the city.—San Francisco Examiner.

ARTISTS AND TRADESMEN.

In the Early Days the Former Had a Struggle to Live.

Among the artists resident in Glasgow who had acquired before 1840 somewhat of a reputation Graham Gilbert, Horatio Macculloch and Daniel Macnee are those most widely known to general fame. To these men fell the prizes of the profession such as they were at that time. Prices were then on a scale that would not please the popular landscape and portrait painters of today.

The smaller men—not very numerous, it is true, and yet some of them most deserving—had a tolerably hard struggle for existence and had to eke out their income by other work than that of regular picture painting. Macculloch and Macnee themselves made money in their younger days by decorating the lids of snuffboxes. The average painter was frequently pretty much of a bohemian, living from hand to month and glad to clear off a tradesman's bill by painting the portraits of the worthy shopkeeper and his wife.

One of our best known artists tells how on occasion in the long years ago when he was engaged at a sitter's house on the portraits of a successful clergyman and his family the dinner hour arrived. He was not considered "genteel" enough to be asked to take a place at the table, but the mistress of the house kindly sent to the parlor, where he was working, a pate of stewed rhubarb to keep him from wearying while the family fed.—Magazine of Art.

Is a Countess and a Brewer.

A unique occupation for a woman is reported from Berlin. The proprietor of a large brewery there received a request from a Russian lady to be shown the interior arrangements of the brewery. After looking at various processes through which the golden beverage has to go the lady inquired for several details of the pneumatic machinery in the malthouse, which proved to the brewer, to his great surprise, that she was perfectly familiar with every detail of the entire complicated machinery. Upon inquiry it was learned that the lady, a Russian countess, had a large acreage of barley growing on her estate, and in order to increase her revenue from this source she had built a brewery, which she managed all alone. She was interested very much in the pneumatic malting apparatus because she could not get skilled labor necessary for the production of malt on her Russian estates. Tasting the product of the Berlin brewery, she stated that her own beer was not much inferior to the German product. When a few days later the brewer received some samples of the lady's Russian beer, he pronounced it excellent and not inferior in any respect to the best Bohemian or German beer. This lady is believed to be the only woman brewer in Europe.—Philadelphia Record.

Cloth Made From Peat.

Peat fiber can be bleached to snowy whiteness and will dye any color. One of the great advantages of cloth made from peat fiber is that it is entirely antiseptic and possesses properties which render it inimical to parasitical organism. In appearance the finer makes are quite equal to the best tweeds and closely resemble the camel's hair cloth.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, we are free to confess that the merits of Castoria has won us to look with favor upon it."

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

WHY THE SEA IS SALT

IT HAS BEEN SO EVER SINCE THE CREATION OF THE WORLD.

Of Great Benefit to Mankind—Continents Produced by the Skeletons of Animals That Could Not Have Lived In Fresh Water—Moses' Short Account.

The sea at present contains 90,000,000,000,000,000 tons of salt. If this salt could be gathered in a solid form and compressed into the shape of a cube, it would contain 10,173,000 cubic miles. Each edge of such a cube would measure somewhat more than 200 miles. This is enough to cover all the land on this globe with a uniform layer of salt to a depth of 1,000 feet.

This statement as to the saltiness of the sea is interesting enough in itself, but it is also suggestive. The questions may well be asked, Where did all this salt come from, and what is the use of it? Several scientific gentlemen have attempted to answer this first question, and their efforts are not entirely satisfactory. The second question is not so difficult.

According to the history of the creation of the world, as told by Moses in the Genesis, it is implied that the ocean existed before the land, for, on the "third day" the "water under the heavens" was gathered together and the dry land appeared.

This statement has bothered a great number of able philosophers, who, in their effort to stick to the letter of the Scripture and at the same time to reason out everything on perfectly natural principles, have been puzzled to know how such a grand transformation could be accomplished in one day. And their perplexity was not relieved when learned geologists announced that it must have required ages for the waters that enveloped the earth to subside and reveal this land that lay beneath.

But when it was suggested that the word "day" as used by Moses meant, not a period of 24 hours, but an era of thousands of years, the difficulty was removed. This meaning of the word "day" is at present generally accepted by devout scientists, who now declare that there is nothing impossible in Moses' account of the creation.

This description, to be sure, is lamentably brief. It was hardly adequate to pass over such a huge event as the creation of a world in a few lines. That was a big story from a newspaper point of view, and all thoughtful persons must acknowledge that Moses did not take advantage of his opportunity.

Accepting the Mosaic account, Dr. T. S. Hunt, a learned writer on the physical history of the globe, supplies what Moses left out, and in so doing he gives a very good reason for the presence of the salt in the sea. Having arrived at the point of Moses' meager narrative where the earth was in a molten state and surrounded by an envelope of gases and of water vapor, Dr. Hunt says:

"The carbonates, chlorides and sulphates (chemical combinations of carbon, chlorine and sulphur with oxygen) were changed into silicates. The carbon, chlorine and sulphur, being thus freed from the oxygen, separated in the form of acid gases. These, with nitrogen, vapor of water and a probable excess of oxygen, formed the atmosphere, which was very dense (and also very unhealthy).

"The surface of the earth was covered with lumps of molten rock (probably resembling furnace slag). The depressed parts of the surface were filled with highly heated solutions of hydrochloric and sulphuric acids, which ate into the surface and decomposed it. In this way the silicates were changed to pure silica, taking the form of quartz as the atmosphere cooled, and the condensation of the vaporous atmosphere produced sea water, holding in solution salts of sodium, calcium, magnesium and ammonium. The atmosphere, thus freed of its noxious elements, became pure and fit for man."

It is therefore evident that the sea has been salty from the creation of the world. The salt does not come, as is generally supposed, from friction of the water against salt "rocks" in the bed of the ocean. This, then, answers the first question. Where did the salt come from? The second question is pretty well answered by Mr. G. W. Littlehales in Appleton's Popular Science Monthly.

"It seems," he says, "that the sea was made salt in the beginning as a part of the grand design of the Creator to provide for the system of evolution which has been going on since the creation. Many distinct species of living organisms exist in the sea as a result of its salinity, and their remains have largely contributed to the growth of continents."

The minute creatures that have lived in the sea for ages past have left enduring monuments in the shape of islands, rocks and continents. If the sea had not been salty, these marine animals could not have existed and secreted the hard substance known as a "calcareous skeleton," which has largely contributed to the growth of continents. Among these early inhabitants of the sea were corals, crinoids, sea urchins and starfishes.

The saltiness of the sea has also much to do with the ocean currents, which distribute the heat of the tropics over the colder regions of the earth. Currents are largely due to the difference between the specific gravity of sea water and the fresh water of rains. Thus, when rain falls on a certain part of the ocean, the effort of the heavier salt water of the ocean to establish an equilibrium causes a current. — New York World.

Chevalier Bayard.

The famous Chevalier Bayard, who is held up in all the histories and romances as a model of chivalry, was greatly opposed to the use of firearms, and always ordered his troops to put captured musketeers to death without mercy, as practicing a form of warfare entirely uncivilized and unlawful.

THE WIND THAT SHAKES THE BARLEY.

Sing hey for the wind in the barley green,
And the great clouds drifting over;
For the dear brown sails, far out, that lean
To the kiss of the sea, their lover.

Sing hey for the fields of barley green,
With the mad wind rushing over;
And hey for the path that runs between
Where my dearest waits for her lover.

THE BLOND BRAKEMAN'S STORY.

It May Be Read With Profit by Present Day Record Breakers.

The Railroad club met Tuesday evening in the usual place, and after a short business session the boys drifted into "shop" conversation. The fast run of the general manager's special from Hope to Missoula was commented on, and the talk on fast runs became general. Several stories of remarkable time made on different occasions were related, and when the blond brakeman got the floor he saw he was expected to break the record. And he did.

"Speaking of fast runs," said he, "why, that little Montana Union line lays over anything I ever saw. No Dutch clocks or anything else to hold a man down there. I worked for that road when Bob Smith was dispatcher, and when he told the boys to 'wheel 'em' we all knew what it meant. One day we were going north and were delayed in various ways until we reached Stewart. Bob wired the con. at that point that he wanted our train to get to Garrison just as quick as God would let us. We had a clear track when we started, and it wasn't long before the telegraph poles looked like a picket fence. The biggest burst of speed was reserved for the home stretch—from Deer Lodge to Garrison—11 miles. We didn't stop at Deer Lodge, but as we approached that place the engineer sounded the whistle as usual, and you may take my head for a football if the 'slow' sign in the Garrison yards wasn't passed by our train before that whistle had ceased to sound."

This made the boys look weary, but the "braky" hadn't finished yet. He continued:

"Well, we put our train away and were resting ourselves when we glanced up the track and saw a dark streak approaching at a lightning gait. We were astounded for an instant, but as it slowed up we readily recognized it as the shadow of the train we had just brought in."

And the boys all rose up, and after presenting the relator with a regularly signed license the club adjourned.—Missoula Silverite.

A Beginning In Literature.

For my first effort to sail the sea of letters it occurs to me that I ought to say that my father's literary reputation cannot be held responsible.

I had reached (to take a step backward in the story) the mature age of 13. I was a little girl in low necked gingham dresses. I know, because I remember I had on one (of a purple shade and incredibly unbecoming to a half grown, brunette girl) one evening when my first gentleman caller came to see me. I felt that the fact that he was my Sunday school teacher detracted from the importance of the occasion, but did not extinguish it. It was perhaps 8:30, and, obediently to law and gospel, I had gone up stairs.

The actual troubles of life have never dulled my sense of mortification at overhearing from my little room at the head of the stairs, where I was struggling to get into that gingham gown and present a tardy appearance, a voice distinctly excusing me on the ground that it was past her usual bedtime and she had gone to bed. Whether the anguish of that occasion so far aged me that it had anything to do with my first literary undertaking I cannot say, but I am sure about the low necked gingham dress, and that it was during this particular year that I determined to become an individual and contribute to The Youth's Companion.

I did so. My contribution was accepted and paid for by the appearance in my father's postoffice box of the paper for a year, and my impression is that I wore high necked dresses pretty soon thereafter and was allowed to sit up till 9 o'clock. At any rate, these memorable events are distinctly intertwined in my mind.—Elizabeth Stuart Phelps in McClure's Magazine.

Uncertainty and Certainty.

Two men met unexpectedly in the corridor of a down town office building.

"Hold on, William! What's your hurry? How are you? You look worried. Anything wrong?"

"Not much, but, to tell you the truth, I've just left ——, and I can't tell whether he has lied to me or not. How are things with you?"

"So so. I've just had a big disappointment, that's all."

"You take it easily."

"Think so? I've had a deal on hand for three months, and I expected to close it out today, but this morning the other party told me frankly that his principals couldn't take it up. Now it's off my mind and I'm glad of it."

"Sure there's no funny business?"

"Sure."

"I wish I was. So long."

One man smiled and the other scowled.—New York Times.

He Understood.

Paul Louis Courier, when bitterly assailed by a French professor, quietly remarked: "I fancy he must be vexed. He calls me Jacobin, rebel, plagiarist, thief, poisoner, forger, leper, madman, impostor, calumniator, libeler, a horrible, filthy, grimacing ragpicker. I gather what he wants to say. He means that he and I are not of the same opinion, and this is his only way of putting it."

The war with France lasted from July 9, 1798, to Sept. 30, 1800, and the number of men engaged, in the naval force alone, was 4,593. The land forces raised for this campaign cut no figure.

The word "and" occurs 35,543 times in the Old Testament and 10,684 times in the New Testament.

DIDN'T GET WHAT SHE WANTED.

Bout of a Young Woman Who Undertook to Squelch a Grocery Clerk.

Two pretty young women entered a large up town grocery one evening last week. From their conversation it was evident that they belonged to some boarding school in the neighborhood and had stolen out for a few moments to buy dainties which they meant to smuggle to their rooms.

"There's one thing I don't like about the clerks in this store," said one of them, while they waited for the salesman, "and that's the way they insist on telling you that you don't want what you do want and that you do want what you don't want. Every time I come in here I have the same experience, and I'm just tired of it. The next time it happens I'm going to tell the clerk just what I think of him."

At that moment a clerk approached and asked the young women what they wanted. The one who had so much to complain about pointed at one of a row of cracker tins and said:

"I want a pound of those."

"Oh, no, you don't," said the clerk suavely; "you want some of these, or these here; they're all very nice."

The young woman threw a glance which said, "What did I tell you?" at her companion, and turning to the clerk said fiercely:

"No, I don't, anything of the kind. I want these and no others."

"I beg your pardon," he began, "I thought"—

"Never mind what you thought," said the young woman. "I guess I know what I want. Now just let me have a pound of those, please." And she turned to her companion with a look of triumph on her face which plainly meant, "Didn't I squelch him?"

"Very well, madam," said the clerk humbly, "but may I ask whether they are for yourself?"

"Well, of all the impertinent questions"— began the young woman, when her companion interrupted, and, turning to the clerk, said:

"Why do you ask?"

"Oh, because they're dog biscuit," replied the clerk indifferently. "Still, of course, if you want them, you can have them."

"Never mind," faltered the young woman who had insisted on having what she wanted. "I guess I don't want anything at all," and she strutted out of the store looking very much ashamed and followed by her companion, who was struggling to hide her laughter.

The clerk didn't say anything, but there was a satisfied smile on his face as he banged the cover down on the can of dog biscuit and walked away to wait on another customer.—New York Sun.

The Actress and Her Train.

The English stage has certain customs which greatly hurt a Frenchman who is not used to them. The last scene of every act is constantly interrupted, and sometimes in the most interesting part, by the tinkling of a little bell, which apprises the music to be ready to play in the interval between the acts. The actresses who perform the principal characters drag long trains after them, which have but four corners, like a carpet, the breadth proportioned to the importance of the character, and they are followed by a little boy in quality of a train bearer, who is as inseparable from them as the shadow from the body. This page, who is sprucely dressed and muffled up in a livery made to suit his stature within two or three inches, keeps his eye constantly fixed upon the train of the princess, sets it to rights when it is ever so little ruffled or disordered and is seen to run after it with all his might when a violent emotion makes the princess hurry from one side of the stage to the other. This he does with all the phlegm and seriousness natural to the English.

In one play in the scene between the king and the queen—"in the moment which is to separate them forever the king flies into the arms of the queen, who embraces her royal consort, and they continue clasping each other in transport, which excites in the whole audience the strongest emotions"—who can be affected to so high a degree as not to take notice of the attention of the little page to repair the disorder which the queen's train constantly receives as she stirs and moves with impassioned attitudes in the arms of the afflicted monarch?—Grasley's "London In 1756."

They Are Professional Guests.

Some gentlemen of family who are clever at story, jest and repartee are following a strange business in London. There is a man there who furnishes amusement and entertainment for all kinds of social gatherings, having men of family on his staff, who in the guise of guests manage to insure an enjoyable evening for the invited guests, and thus set the anxiety of the hostess, fearing a dull time for her guests, at rest. A couple of guineas will engage the services of a person of "good social attainments," who will so exercise his art of entertaining others as to put everybody at once into the brightest of spirits. Five guineas will command the services of an individual of "higher standing in the social scale," while the proportionately large outlay of $50 will secure those of a gentleman with a handle to his name.

Precious Perfume.

Scores of bottles which once contained perfumes have been found in Pompeii. In one jar having a capacity of two gallons there was a very delicate and ethereal perfume, the composition of which is not known. There was over a gallon of the liquid left in the receptacle, but upon being exposed to the air it began to evaporate so rapidly that the bottle was hermetically sealed in order to retain it.

The manuscripts of the fifteenth and sixteenth centuries are, in many cases, almost illegible on account of the fading of the ink. At that time the lampblack inks passed out of use and chemical inks became popular.

Boyesen's Idea of Americans.

The Americans, we learn, are given over to nothing else but to hear or to tell a new joke, like the people of we forget what Greek town, who tried to get through a solemn sacrifice without laughing, but failed.

That noble lady
Or gentleman who is not freely merry
Is not their friend.

Mr. Boyesen regretted and condemned this state of affairs, to which his solemnity sometimes contributed. However, in Carl Schurz he found one serious citizen, apparently not of Anglo-Saxon parentage. Half of the sons of Gillian are settled in America, and among these gallant Macleans perhaps the crackling of thorns under a pot is less audible. "The social man, in his higher evolutions, is as yet practically unknown in the United States." This is a hard saying, but as far as evolution has gone the differential of man is laughter. "Sursum corda!" quoth the master.—London News.

One Way to Fry Chicken.

Cut up the chicken an hour before cooking and lay it in salt and water. Take it up, wipe and dip it in a batter made of 2 eggs, a little flour, pepper and a little nutmeg. Fry in part lard and part butter. Put the chicken on a hot dish. Pour off the contents of the spider and make a gravy of cream, butter, salt, pepper, thickened with flour wet in a little cold milk. If suffering with piles, it will interest you to know that DeWitt's Witch Hazel Salve will cure them. This medicine is a specific for all complaints of this character, and if instructions (which are simple) are carried out, a cure will result. We have tested this in numerous cases, and always with like results. It never fails. L. W. Randolph, 143 W. Front st.

Use It in Time.

Catarrh starts in the nasal passages, affecting eyes, ears and throat, and is in fact, the great enemy of the mucous membrane. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucus discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears, and oftentimes a very offensive discharge. Ely's Cream Balm is the acknowledged cure of these troubles.

Piles of people have piles, but De Witt's Witch Hazel Salve will cure them. When promptly applied it cures scalds and burns without the slighest pain. L. W. Randolph, 143 W. Front St.

FIRE CHIEF A. H. RUNGE.

His Restored Health Was Due to Paine's Celery Compound.

The position of chief of fire department in a big city like Minneapolis, with its acres of valuable building property, crossed by numerous railroad lines and dotted with factories where the fires are never "banked," is one of the utmost responsibility, and can be entrusted only to a man of unquestioned character and ability.

August H. Runge, who has filled this responsible position for several years with so much credit to himself and to the city, was born in New York in 1852, where he received a common school education.

What such a man as this has to say can scarcely fail to carry weight with it:

"With the hope that what I say may in some way be brought to the attention of others who, like myself, have suffered without any apparent cause, I feel constrained to recite a brief tale regarding an experience which I trust may never be repeated in my case.

"A few months ago, owing doubtless to the exacting nature of my duties as head of the fire department, I began to feel a sort of languor and listlessness, to disguise which I was compelled to bring into play all the strength of will I could command. The feeling grew upon me, however, and in a short time it took such possession of me that it affected my appetite and caused insomnia. I approached my meals with a feeling amounting almost to nausea, and my bed with horror at the restless night which I was almost certain was before me. Matters became so serious with me that I could no longer keep silent about myself, and speaking of it to one of my friends one day, he suggested that I try Paine's celery compound. I purchased a bottle and before I had taken a dozen doses I knew that the suggestion was a good one. I felt an improvement. I continued to use it, and felt restored. My appetite is good, and I sleep well, and instead of an irksome grind my business is again a pleasure to me. I attribute this happy state of affairs to Paine's celery compound.

As in the case of Fire Chief Runge, the beginning of poor health is very apt to rob one of the will power to start immediately about getting out of danger. It is this inertia of poor health that makes an ordinary "run-down" bodily condition so dangerous, and so likely to go on to something worse. Every day it is clearly shown that it won't do to live tired out, and on the verge of breaking down. The languor and the lack of strength are sure to increase.

Now is the time to throw off disease. As the new year begins there are fewest hinderances to getting back strength and sturdy health. The bracing weather arouses a longing for health. Paine's celery compound, taken now, does its best service toward driving out disease and establishing firm health.

HOPE CHAPEL SOCIABLE.

An Event of the Series Arranged for the Benefit of the Coming Fair.

The sixth of the sociables held in aid of the management fund of the fair soon to be held in Hope chapel, took place Saturday evening at the residence of Mrs. Neil Head, 322 Stebbins place, when a very pleasant time was spent. One of the chief features was the playing of games. In the intervals Messrs. Comerford and Wharton sang a duet and George Leighs rendered in his usual effective style "The Stowaway," while Samuel Smith, Mrs. Sheppard, Mr. Comerford, Mrs. Wallace, Mr. Stewart and Mr. and Mrs. Gray sang several popular songs. There was an abundance of refreshments and at 11 o'clock the party dispersed well pleased with the means thus afforded them of such a social treat. The receipts of the evening were very encouraging.

Among those present were: Mr. and Mrs. D. McInness, Mr. and Mrs. Samuel Smith, Mr. and Mrs. W. G. Gray, Mr. and Mrs. W. Gray, Mr. and Mrs. Fred Wharton, Mr. and Mrs. Gow, Mr. and Mrs. Comerford, Mr. and Mrs. Leighs, Mr. and Mrs. Hanson, Mr. and Mrs. Whitehead, Mr. and Mrs. Neil Head, Mrs. Bushby, Mrs. Ball, Mrs. Jones, Mrs. Wallace, Mrs. Raddin, Mrs. Mattox, Miss Firstbrook, Miss Raddin, the Misses Johnson, Mrs. Rhinesville, Mrs. R. Head, Mrs. Sheppard, Miss Bowden, Miss Flack and Messrs. Armstrong, Slorah, Holland, Davis, McGinnis, Hall, Bowden, Leah, J. Tait and N. Kaog.

The next and last social will be held at the home of Mr. and Mrs. Samuel Smith, of West Third street.

INCIDENTS AMONG THE SKATERS.

Miss Cora Scull Has a Narrow Escape From Drowning.

There were several minor accidents on Johnston's pond Saturday among the skaters, and several of them took involuntary baths. Miss Cora Scull, of Richmond street, was skating on a weak spot when the ice gave way. The water below was quite deep, but she managed to support herself by the edge of the ice until she was pulled out by her friend, Miss Mary VanHorn.

The pond was gay with skaters all day, as was also Green brook between Norwood avenue bridge and Tier's pond. The best skating seemed to be found at Smalley's pond. It had been cleaned off and was as smooth as glass. A large number of young people assembled here both morning and afternoon.

"Saul Is Among the Prophets."

A reader of the current news of the day prophesies that years hence, when the millennium is nearer, there will be an International Society for the Prevention of Cruelty to Weaker Nations, in which case Turkey will be dealt with as she deserves. Just now the civilized nations of the world have about as much reason to be proud of themselves as robust athletes who stand quietly by and see an unprincipled bully beating out the life of a defenceless child. Some heroes are losing the chance of their lifetime.

On to Trenton.

The Union County Republican Committee have arranged with the Central Railroad to have attached to their special train tomorrow morning a buffet car from which lunch will be served going and coming and also at Trenton. The car will be at the station all day for the use of all wearing the Union county badge. Badges can be procured from J. B. Coward or J. F. MacDonald. The car is private to Union county only or men wearing the Union county badge. The train leaves Plainfield at 9:33.

An Unknown Man Killed.

An unknown man was run down and killed yesterday afternoon at Linden while walking along the tracks of the Pennsylvania Railroad. The body was taken to Jensen's morgue, Elizabeth. The man was dressed like a laborer, and was about 36 years old. He had no money in his pockets, but some papers were found on his person which bore the name of Max Johnson.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

A DAY OF GOOD SERMONS

BISHOP VINCENT OCCUPIES THE PULPITS OF M. E. CHURCHES.

Union Services Held in the Evening and Great Interest Shown—Dr. Barnes Talks of God's Treatment of the Sinners.

There was not an empty pew in the First M. E. church yesterday morning when Bishop John H. Vincent preached a very interesting sermon. The congregation of the Grace M. E. church united with that of the First M. E. Church in the service and the united choirs of the two churches led the singing. The opening services were conducted by Rev. C. R. Barnes, D. D., assisted by Rev. Dr. Whiting and Herbert F. Randolph.

Bishop Vincent took his text from Second Timothy 3:17. "That the man of God may be perfect." After introducing his subject by a comparison of the man who lives for the things of the earthly life and the one who lives for humanity and to improve his own character, he divided the growth in the Christian life into four stages. The first was the apprehention of the fact of sin, the consciousness of being a sinner, the loathing of sin so that it will make him leave it. "We live in a day," said he, "when it is very popular to depreciate sin, when we talk about inheritance and environment as lessening it. That is absolutely false, sin is sin, and inheritance and environment are only factors in our character. We are conditioned by them. When a man sees sin and appreciates his standing with God, he is on his way up. We are free but we do many things involuntarily. We choose between right and wrong once in a thousand times. With the constant knowledge of the terrible responsibility that rests upon us we could be unable to stand it. It is when a man comes to a knowledge of sin and lives under and recognizes its bondage that I have some hope for him."

The second stage was the conscious part. "There was a heavy burden but now it is gone. It is possible for a man who has known sin and felt its bondage to have the assurance of forgiveness. I could not give anything for a businass man or a society woman who did not know what sin is and the joy of pardon."

Purity was the third, just as a man once knows sin but now loathes sin or any thought of it. "It is possible," said the Bishop, "for a soul that has sinned to become conscious of pardon and have a purity of motive. The church was established to destroy sin so that we may walk in the light."

"There is a fourth stage. In the Christian there still remains the personal defects of character which must be overcome."

He spoke of these defects that so often made the difference between the daily action and the public profession and said that a Christian, to be complete, must change his personal trials so as to be pleasant and kind to all his fellow men.

He closed by saying that Christians should cultivate culture as well as evangelical experience.

In the evening Bishop Vincent preached in Monroe Avenue Chapel. The Chapel was crowded to its utmost capacity to accommodate the large crowd that attended. The topic of his sermon was "Follow Christ" and his words were listened to with great interest.

Earnest words, heartfelt prayers, and unusually sweet music characterized the union service held last night in the Crescent Avenue Presbyterian church.

Dr. W. R. Richards conducted the service and read the Scriptures; Dr. A. H. Lewis offered the opening prayer, and the sermon was by Rev. Dr. Yerkes. His text was John 3, 7: "Ye must be born again."

By the new birth, he said, man becomes a new creature. The natural man has not been changed, yet a transformation has taken place. The man has new apprehensions of things. He sees in Christ beauties he never saw before, and finds companions in people he had never before cared for. He has been born of the Spirit. The difference between that which is born of the flesh and that which is born of the Spirit is the difference between life and death.

A man cannot create this life in himself by good works, any more than scientists can create life in the natural world. The life is unfolded within us by the living touch of Christ; then in our lives it unfolds, blossoms, and bears fruit. A man may try to live as Jesus lived, speak as He spoke, act as He acted; but that man is only a base imitator, he can never be like Christ till he has Christ's life within him.

We can't altogether understand this new birth, but we know that it comes to us through faith. It is just for us to cast ourselves upon the great heart of God.

Souls may be saved here tonight, if they will just come and let Christ put His hand upon them. "There is life for a look at the crucified One;" will you not look, tonight?

Several times during the service the regular choir of the church had rendered beautiful musical selections, touching the hearts of all by their sweetness. But especially impressive was the bass solo which immediately followed the sermon. The song was "The Haven of Rest," and the singer pleaded with his hearers to "anchor their souls" in that Haven where they would be "safe evermore."

At the conclusion of the regular service, a short after meeting of prayer was held in the chapel; a meeting of interest and helpfulness to all who attended it.

The churches on the north side of this city and of the borough held a union service in the First Methodist Episcopal church last evening, which was quite largely attended. A large chorus choir occupied the rear of the platform, while Rev. C. R. Barnes, D. D., Rev. Cornelius Schenck, Rev. C. L. Goodrich, Rev. C. E. Herring and Rev. Herbert L. Randolph jointly conducted the services.

The meeting opened with a rousing song service led by Lewis H. Bond, after which Rev. Mr. Schenck led in earnest prayer. The collection was taken while the choir sang a hymn. After a short Scripture reading, Rev. Dr. Barnes preached a short sermon on God's treatment of the sinner, how He treated the sinner like another individual, an equal, instead of commanding him to do anything, as they do in the army.

What a magnificent tribute it is to us that God received us as equals. A visit is a perfectly voluntary matter and God visits us. He does not come with force. He comes in as if He does not know all our black record or He knows that there is some part that is savable. He told of the condition of the sinner when God's appeal came to him, how he felt and his answer. He followed the sinner through his struggles to free himself from the power of sin. The self-complacent man was, he said, the worst of all to deal with. He told of the awful future of those that hinder the sinner in his attempts to follow in the right path. He closed with an appeal to the unsaved to make a new start. A fervent prayer by Rev. Mr. Herring followed Dr. Barnes' impressive remarks, and then Rev. Mr. Randolph added a few others and a season of prayer followed. The meeting closed with a hymn. The benediction was pronounced by Rev. Mr. Goodrich.

NOT A SIP TO BE HAD.

While the Grand Jury Are in Session Elizabeth's Saloons Close.

Elizabeth had the dryest Sunday yesterday for several years. Owing to the fact that the Grand Jury is investigating the charges of Sunday violations, the Liquor Dealers' Union sent out notices to its members to close up or else take their chances of indictment.

The Grand Jury will resume today its investigation. Spies in the employ of the C. C. U. roamed about the streets yesterday, trying to catch incautious saloon-keepers, but so far as could be ascertained they met with poor success.

Three spies, C. C. U. men, blundered in trying to get into a saloon, and instead of walking into the barroom they stumbled into the kitchen. The saloon-keeper's wife chased them out with a broom. They felt rather crestfallen over their mistake.

As a rule, the dealers who kept open were extremely wary, and no one who could not be vouched for stood much chance of getting liquor.

No Uniforms to Be Worn.

The Union County Republican Executive Committee have decided that owing to the shortness of time, the matter of wearing uniforms to Trenton tomorrow will be dispensed with. Instead every one will wear a very handsome badge bearing a picture of Gov. Griggs. Those in this city who intend going can get them from the local executive committee.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

GENTLE WILLIE AND HIS FRIENDS.

A Sunday Jamboree Ends With a Night Spent in the Rookery.

Two white men and a colored individual were arraigned before City Judge George W. DeMeza this morning on the charge of being drunk and disorderly around Coddington's stables on East Second street yesterday. Harrison Randolph was the dusky-hued prisoner and Michael McCarty and "Gentle Willie" Murphy were the other two offenders. They are all now employed by expressman Coddington. McCarty was the spokesman for the trio. They had all been drinking, he said, and he and the ex-Crescent base ball player began to argue over some thing. "Gentle Willie" slapped his face and McCarty and Randolph went to Sergeant Kiely to make a complaint. The Sergeant said that they were both so intoxicated that they could not walk straight and so he took them in and then went after Murphy and lodged him in the jail also.

Judge DeMeza spoke very severely about drunkan characters being seen on the streets, especially on Sunday. He gave each one his choice between a fine of $2 or going to jail for ten days.

ABNORMAL CHARLEY HILL.

He Killed Four Calves and Doesn't Know Why He Did It.

Is Charles Hill, the 12 year old boy accused of torturing and killing animals, an hereditary criminal? This question the Somerset Court tried to settle Saturday in its effort to determine to what degree the youthful prisoner is responsible for his actions. Hill is a frail boy and there is nothing in his bright, open countenance to indicate an abnormal disposition.

He was arrested two weeks ago at the instance of his employer, Farmer John W. Kuhel, of Centerville. During the past year hay stacks have been fired, cattle have been killed, and other malicious mischief done on the Kuhel farm.

Farmer Kuhel was led to believe that he was being persecuted by a mysterious enemy. One of Kuhel's blooded cows was recently taken ill, and its sufferings became so intense that it was killed. Then it was discovered that its skull had been crushed in a mysterious manner. Hill confessed to having struck the cow a blow in the head with an axe as she stood in the stable. Since his incarceration in the county jail he has also confessed to killing four calves, and committing other acts of cruelty on animals on the farm.

Mr. Kuhel said that Hill's statement that his father was dead is untrue. His father is Peter Hill, and he lives in Hunterdon county. Lawyer Frech told the Court that the boy's father had recently been imprisoned for smashing with an axe a costly carriage belonging to a neighbor.

The child prisoner, who did not look strong enough to hurt a healthy calf, stood before the Court unabashed, and said:

"I killed the old cow because she was a hard milker. I don't know why I killed the calves and did the other things."

The Court decided that he was not a safe person to be at large, and he was sent to the State Reform School.

Speech by a Red Man.

At the meeting of Miantonomoh Tribe, No. 118, I. O. R. M., held last Friday evening, a committee consisting of N. C. Mague, Chas. Holstein and Wm. Neweorn were appointed to arrange for an entertainment and dance. Since that time the committee has held a meeting, and after making Wm. Newcorn chairman, they decided to hold an entertainment and dance Monday evening, Feb. 17th, at which time Past Great Incohonee Charles Litchman, of Boston, will be present and deliver an address. He is undoubtedly one of the most eloquent speakers in the large order of Red Men. A dance and supper will follow the entertainment.

Free Tickets.

An unusual roceeding in manufacturing campaign thunder is being indulged in by the leaders of the G.O.P. of this State in gratuitously distributing return tickets to the inauguration of Governor-elect Griggs at Trenton tomorrow. They are bound to have a big crowd if all those who receive tickets to the ceremonies use them. This is the first time this method has been practiced in this State.

Changed Their Meeting Days.

At a meeting of Major Anderson Post, No. 109, G. A. R., it was decided to change the date of the meeting from the first and third Thursdays in each month to the second and fourth Saturdays.

—Queen City Lodge, No. 226, I. O. of O. F., will meet this evening.

GONE AFTER RED SKINS.

MESSENGER BOYS WHO READ DIME NOVELS SUDDENLY DISSPPEAR.

The Toss of a Penny Decided Their Fate as to Whether They Should Fight for Cuba's Independence or Kill Indians.

The independence of Cuba rested with the toss of a penny, and now all is lost. Almost lost, that is, for that struggling people have lost the aid of two young Plainfielders. Alba Smith, of West Fourth street, and John Devine, of West Front street, have been in the employ of the Western Union Telegraph Company as messenger boys. Most of their spare time has been spent in perusing the exciting adventures of Jesse James, Nick Carter and other dime novel heroes.

They decided to go either to Cuba or after Indians, as both presented great attractions, and let the penny decide for them. A revolver was borrowed from Sam Vail, a Postal Telegraph boy, and Friday night the lads disappeared from Plainfield.

This is not the first occasion that these boys have gone after Indians, although they are only fourteen years old. Last year they went as far as Bound Brook, but the natives of that place were too much and they returned.

STOLE A RIDE AND WENT TO JAIL

Two Well Dressed Young Men Arraigned for Trespassing on the Railroad

The conductor of the east bound train on the New Jersey Central Railroad due at Plainfield at 2:14 a. m., telegraphed to this city for police assistance. The message was sent from Bound Brook. Officer Cooney and Railroad Detective Murphy met the train and found two well dressed young men on the platform between the mail and baggage cars stealing a ride. They were arrested and locked up.

This morning the two were arraigned before City Judge DeMeza on the charge of trespassing on the property of the railroad. They both pleaded guilty. They were examined separately and told contradictory stories. They both said that they were from Philadelphia, but disagreed on their destination. They were respectable looking young men and gave their names as Charles Wilson and Francis J. McCann, aged twenty-two and twenty years, respectively. McCann was formerly in the employ of the P. and R. Railroad at Wayne Junction, and had a book employe's tickets. He also had several pawn tickets. He said he had a home but was in search of work. Detective Murphy declared that both of them had been drinking very heavily when they were arrested. Judge DeMeza gave them each thirty days in jail.

McCann seemed to feel the disgrace very keenly. It was the first time, he said, he had ever gone to jail.

FUNERAL OF ISAAC W. LAING.

Consoling Thoughts to the Sorrowing Ones by Aaron M. Powell.

A large circle of relatives and friends gathered yesterday morning at eleven o'clock at the Friends' meeting house on Watchung avenue, where the fueral services of the late Isaac W. Laing were held. After a brief silence Aaron M. Powell spoke in part as follows:

Another one has left our narrow circle, which occasions our meeting here today. One of the last of a generation has gone to join the vast majority, and is now enjoying more than he knew. For him it is gain, but to her who was his loving and tender companion, a great loss. He will be missed in a large circle of friends and at the Friends' meetings, as everyone is now missed as the changes go on. He left all a worthy example. Of simple tastes and habits in life, he was less given to matters of excitement. He was a man of sterling integrity and uprightness. Such a one could not pass away without being missed. These changes will soon come to us all, and we should be thoughtful and studious about the present life and the one beyond. Our simple form of worship seems strange and inadequate on such an occasion, but reflection brings to our mind the fact that mighty forces are silent ones, and remembering that our own spiritual natures are subject to the great divine law. While present today the snow flakes are falling outside. Another change is impending, when the trees will be clothed with verdure. The change is so silent and gradual that one can scarcely detect it, and so it is that our character changes. I hope that consolation will be abundantly realized by her who is left alone. If we could all realize this spiritual faith we would be relieved from burdens and cares. It is a sure foundation to build upon, and it is well for us to have the realization of the divine love, which is the greatest thing in the world.

At the conclusion of Mr. Powell's remarks those present were given an opportunity of looking for the last time on the face of the departed. Interment was made in the cemetery by the meeting house, in the family plot. The bearers were three grandsons, Fred Sandford, Percy Sandford, Isaac Laing, and granddaughter's husband, George VanNess.

Clara Barton's Niece Lives Here.

That angel of mercy, Clara Barton, of the Red Cross, who appeared on the battlefields of Fredericksburg, Antietam, Falmuth and Cedar Mountain and under the blaze of French and German guns at Metz and Paris, and in Johnstown floods and Charleston earthquakes, and Michigan fires and Russian famine, and decorated with the Iron Cross by the German Emperor, is past national chaplain of the Woman's Relief Corps. Her little namesake, the adopted daughter of Winfield Scott Corps No. 10, has been living for the last two years in the borough.

Church Trustees to be Elected.

A church business meeting will be held in the Crescent Avenue church this evening, at which time seven trustees will be elected for the ensuing year.

City Appointments Next.

The City Council will meet again on Monday evening, Feb. 3d, at which time Mayor Gilbert will communicate his appointments to that body.

Fighting Birds Meet.

A cocking main was held Saturday night on the outskirts of Westfield between birds from this city and Westfield. A number of Plainfield sports attended.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

KNEEBS' CONVICTION

It May Cause Diplomatic Communication.

The Imprisoned American Horse Owner Says He Will Yet Prove His Innocence—Prince Luitpold Provokes the Emperor—Triple Alliance Not Shaken.

Berlin, Jan. 20.—The case of the American horse owner, Robert T Kneebs, who was convicted last week and sentenced to nine months' imprisonment and pay a fine of 1,000 marks for starting on the German track an entry alleged to have been the mare Bethel under the name of Nellie Kneebs, has taken developments which may lead to diplomatic communication between Berlin and Washington. One of the German consuls in the United States, it appears, in certifying to the signatures appended to the depositions of some of Kneebs' witnesses, characterized the witnesses as unworthy of belief and declared that their testimony was only worth so many dollars, implying that they were paid for what they had sworn to, and had sworn to only what they had been paid for. Such a statement accompanying the documents received here is held to be a breach of the law. The consul, it is contended, had no right to communicate to his government his personal idea of the character of the American witnesses, nor had he the right to take any other course than to send the papers to Berlin for what they were worth and without comment. The authorities are further puzzled to know what to do with the mare Bethel, or Nellie Kneebs, which according to the judgment of the court, was forfeited to the state. Kneebs has given notice of appeal against the verdict and sentence against him and pending the decision of the imperial court upon the appeal, the mare, which has been seized in accordance with the judgment of the court of trial, must be kept at the expense of the authorities. If Kneebs succeeds in his appeal he will claim damages from the authorities for any deterioration in the form or condition of the mare and if he can prove that there has been any there can scarcely be any successful appeal against such a finding. Kneebs says he was very much surprised at the verdict of the jury in his case and declares that he will produce the real Bethel, which is now in America, before the imperial court when the hearing of his appeal comes before it.

The Kaiser Provoked.

The absence of Prince Luitpold, regent of Bavaria, the king of Wurtemburg and other south German princes from the celebrations which took place in Berlin Saturday upon the occasion of the twenty-fifth anniversvry of the founding of the German empire has been widely commented upon as indicating the existence of some tension in their relations with the kaiser. The explanation given by Prince Luitpold in response to the emperor's invitation explains the absence of the others as well as his own failure to be present. He informed the emperor that he was under obligations to preside at the local celebrations in commemoration of the coronation of King William of Prussia as emperor of Germany. This was certainly a good reason for his non-appearance, but it nevertheless put the emperor in the worst temper, as he had desired to make himself the centre of a grand state function, at which all the heads of the federal states should be in attendance. He was somewhat pacified, however, upon receiving promises from Prince Luitpold and the other princes that they would be present at the fetes on the occasion of the birthday of the emperor on Jan. 27. This function will be the culminating event of the season.

More Political Scandals Promised.

Herr H. J. Gehlsen, once notorious as the editor of an old Berlin paper called the Reichsglocke, has returned to Berlin after a twenty years' residence in London, where he lived under the name of J. B. Keller. Prince Bismarck suppressed the Reichgslocke twenty years ago and Gehlsen immediately disappeared from Berlin. For ten years he acted as the London correspondent of the semi-official Berlin Post. Since his return to Berlin he has resuscited the Reichsglocke and in recent articles has made disclosures which involve Herr Tiedemann, an attache of the foreign office who is accused by Gehlsen of having dictated articles to the editor of the Berlin Post. He further promises to furnish proofs that a certain German socialist leader was in close connection with the late Gen. Boulanger, their letters being exchanged in London. Gehlsen knows a good deal that is likely to add to the already numerous political scandals.

Triple Alliance Not Shaken.

All the stories in circulation to the effect that the triple alliance has been shaken through England's hostility to Germany are semi-officially declared to be utterly without foundation. None of the powers concerned, according to this authority, has suggested the slightest modifications of the terms of the dreibund, or intimated any desire to withdraw therefrom. Both the Berlin and Vienna governments are interested in the ventures of Italy in Abyssinia and are fully conscious of the consequent drain upon the resources which are weakening her as an ally, but that is held to be no sufficient reason why the stability of the triple alliance should be shaken.

Ordained a Priest.

Albany, Jan. 20.—Charles Augustus Oppenheim, once a newspaper reporter, was yesterday ordained a priest.

CHRISTIAN ENDEAVOR MEET.

Large Attendance at the Session of Local Workers at Washington.

Washington, Jan. 20.—The fourth annual session of the local societies of Christian Endeavor closed last evening with an overflowing mass meeting in Central hall, an auditorium over the Center market which seats about 2,500 people. The meetings have been largely attended and have been addressed by prominent clergymen. A pleasing feature of Saturday evening's service was the public presentation of the first three of the official convention flags, to the designer of the flag, F. C. Bliss of Washington, to the president of the united society, Dr. Clark, and to the president of the District of Columbia union, M. M. Shand. The local Endeavorers are preparing for the international convention in July. The hall committee has made contracts for the erection of three mammoth tents. A joint resolution was recently introduced in the senate and house, the purport of which is to grant the society permission to use the White lot, south of the executive mansion, for the purpose of the international convention, and if this joint resolution is passed, the convention tents will be pitched there. The music will be led by choruses composed of 3,000 voices.

NEW YORK LEGISLATURE.

Excise and Greater New York the Matters of Most Interest.

Albany, Jan. 20.—Thus far in the session of the legislature the interest centres around the disposition of the excise question, and the matter of consolidating Brooklyn and New York with contiguous territory about New York harbor. The only important debates in either house since January 1 have been over the greater New York bills, one to carry out the wishes of the people expressed by a small majority in favor of greater New York, and the other to resubmit the question to the people. For a time the greater New York question will lie quiet, for it has been referred to a joint committee of the senate and assembly to take evidence as to the propriety of legislative action in the case. The consideration of the excise question is still very much in its infancy for the session of 1896, the only progress thus far made being the decision of the committee on taxation and retrenchment of the senate and the assembly excise committee to give the preliminary hearings upon the question to-morrow and Thursday.

INVITED TO RETURN.

Mosquito Indians Ask Chief Clarence To Come Back.

Colon, Jan. 20.—It is reported here that the Mosquito Indians, including chief Andrew Hendy, have invited Chief Clarence to return to the Mosquito territory. Chief Clarence was deposed by the Nicaraguans in 1894 and subsequently went to Jamaica, where it was said he was in receipt of a pension from the British government. Great Britain refused to recognize the new Nicaraguan government that was set up at Bluefields after the deposition of Chief Clarence, and out of this grew the troubles that resulted in Great Britain sending a squadron to Corinto to enforce the payment of the indemnity demanded by Great Britain for the expulsion of the British vice-consul at Bluefields. Chief Hendy was appointed as the successor of Chief Clarence.

TURKEY AND RED CROSS.

Clara Barton Will Sail Despite Reports of the Sultan's Opposition.

Washington, Jan. 20.—Secretary Olney stated this morning that he had received no reply as yet to his telegram of inquiry to Minister Terrell at Constantinople, asking whether or not the Sultan had directed that the Red Cross officials should not enter his dominions for the purpose of distributing relief among the Armenians. In the meantime Miss Clara Barton, president, is busily engaged in perfecting preparations for the voyage to Turkey, which she and her associates will undertake despite the report that they will not be permitted to discharge their charitable trust. She will leave Washington Tuesday and go to New York, sailing from that port a day or two later.

Otto Sutro Dead.

Baltimore, Jan. 20.—Otto Sutro, one of Baltimore's best known business men and musical educators, died at the Maryland university last night. Two months ago he was operated upon at the hospital for an affection of the bladder. He was subsequently discharged, but suffered a relapse and returned to the institution ten days ago.

Railroads in North Carolina.

Raleigh, N. C., Jan. 20.—The annual report of the North Carolina railroad commissioner for the past year shows that there are 3,616 miles of road in the state. The value is $24,502,080, an increase since 1890 of no less than twelve and one-half millions. There are ten thousand officers and employes.

THE WEEK IN CONGRESS

Matters of Importance Before Both Branches.

Senate To-day Discussing the Monroe Doctrine Resolutions and Free Coinage Substitute—Urgency Deficiency Bill Reported in the House—Other Matters.

Washington, Jan. 20.—The report from the senate committee on foreign relations of the Monroe doctrine resolutions to-day will probably cause that subject to divide the time with the senate free coinage substitute to the house bond bill, which is still the unfinished business. The extreme position taken by the committee resolutions in one direction and those of Mr. Sewell of New Jersey in the other, will give the debate wide range. Mr. Davis has been instructed by the committee to urge prompt action on the resolution, and while it cannot supersede the financial question as unfinished business it will probably receive much discussion this week. Mr. Sewell may address the senate to-day on his resolution, which declares that the president has gone too far in his message in enunciating the Monroe doctrine. The resolutions will doubtless be discussed by Messrs. Morgan, Sherman, Cullom, Lodge, Frye, Davis and others in favor, and antagonized probably by Mr. Gray. It is believed that the result will be almost unanimous in favor of their adoption and the vote may be taken this week. Mr. Teller and Mr. Daniel have given notice that they will speak this week on the financial question and Mr. White and Mr. Cockrell may also speak. An additional interest to the week's proceedings will be given should the financial committee report the tariff bill. This will be done, it is understood, without another meeting being held. The nature of the report will depend upon the position taken by Mr. Jones of Nevada. Should he still insist upon increasing the duty on raw sugar an adverse report will be made. Should he vote with the republicans then the bill will be reported as it came from the house. As soon as Mr. Jones signifies how he desires to vote, the bill will be reported. This may be done this afternoon.

House of Representatives.

In the house of representatives the programme of business for the coming week is about as follows: The urgency deficiency bill will be reported by the committee on appropriations to-day, and it is expected that immediate consideration will be given it. Following that, the bill making appropriations for the military academy for the next fiscal year will be taken up. But little time will be occupied in considering these and opportunities for action on bills by unanimous request will be numerous. It is expected that next Friday the common invalid pensions will invoke the rule providing for night sessions on that day to begin the consideration of private penson bills. During the week the committee on ways and means will give several hearings. On Monday advocates of a bill to establish a sub-treasury at Savannah will be heard, and on Wednesday will be held the final hearing on the customs administrative act.

FOR THE CONVENTION.

Republican Sub-Committee in Session in St. Louis To-day.

St. Louis, Jan. 20.—The sub-committee of the republican national committee is in session at the Southern hotel to-day. One of the things to be done by the sub-committee is the election of a sergeant-at-arms for the convention. Mr. Ewing of Wisconsin brought a candidate with him in the person of George M. Winnell of Milwaukee, Wis. In the matter of presidential preferences Mr. Ewing says that Wisconsin's choice in the convention for president will be McKinley.

To Evade Law Against Betting.

St. Louis, Jan. 20.—"Pool alley" is to be revived, and henceforth money can be wagered here on horse races run outside of the state, the Missouri statutes to the contrary notwithstanding. The scheme to is have money telegraphed to Louisville where it is placed in one of the pool rooms there. The courts have decided that this is no violation of the law.

Earthquake in Colorado.

Craig, Col., Jan. 20.—An earthquake shock was experienced in this city and vicinity at 6:45 o'clock Saturday evening. Articles were thrown off shelves and clocks were stopped, but no serious damage is reported. Shortly after the earthquake a terrific wind came up which lasted half an hour.

Whist Contest.

Washington, Jan. 20.—The contest Saturday night between the Capitol Bicycle club of this city and the Hamilton club of Philadelphia for the possession of the American Whist league trophy was won by the Capitol club by

CAMPOS' SUCCESSOR

Gen. Weyler Now To Command the Cuban Forces.

He Is Very Popular and Will Adopt Severe Measures—Duke of Tetuan, Minister of Foreign Affairs, Resigns and Senor Elduayen Named in His Place.

Madrid, Jan. 20.—It is officially stated here that the government has appointed Gen. Weyler to succeed Gen. Campos in Cuba. He will sail from Barcelona for Havana on Jan. 25. Gen. Weyler is very popular. He is an energetic soldier and it is expected that he will adopt more severe measures than did Campos towards the insurgents and their direct and indirect aiders. The government will give Gen. Weyler twenty-five squadrons of cavalry and several mountain batteries. Fresh reinforcements will be sent to Cuba in February. All the money requiried to push operations decisively before the rains of May set in will be furnished to the new commander.

Second in Command.

Madrid, Jan. 20.—Gen. Suarez Valdex has been appointed second in command under Gen. Weyler.

TETUAN RESIGNS.

A New Spanish Minister of Foreign Affairs Selected.

Madrid, Jan. 20.—Owing to differences with his colleagues the Duke of Tetuan, minister of foreign affairs, has tendered his resignation to the queen regent, who has accepted it. He will be succeeded by Senor Elduayen.

De Lome Notified.

Washington, Jan. 20.—Senor Duppy de Lome, the Spanish minister, has received notice that Senor Elduayen, the new Spanish minister of foreign affairs whose title is Marquis del Paso de La Merced, had taken the oath of office and entered upon the discharge of his duties. The minister's advices from Cuba were to the effect that only minor engagements between the insurgents and royal troops had occurred in the past day or two, none of them being of importance.

To Drill Cuban Cavalry.

St. Louis, Jan. 20.—Henry Floerichind, for five years a drill sergeant in the German army, has accepted an offer from the Cuban patriots to join the forces and drill their cavalry.

JOHN B. ALLEY DEAD.

He Was the Defendant in the Famous Snow-Alley Case.

Newton, Mass., Jan. 20.—John B. Alley, a prominent manufacturer and politician died yesterday at the residence of his son, John S. Alley, at West Newton. In 1857 he was a member of the republican state central committee and was in Gov. Boutwell's executive council. In 1858 he was elected to congress and served four terms. He was the defendant in the famous Snow-Alley case, which was fought from the lower courts up to the supreme court, took years of litigation and was the cause of his final breaking down physically, and was finally settled by him at an expense of one-half of the claim made by the plaintiff, outside of legal fees.

MOST SERIOUS STEP.

A London Paper's Comment on the Davis Monroe Doctrine Resolution.

London, Jan. 20.—The Daily News to-day says that it regards the adoption by the United States senate Friday of the resolution of Senator Davis supporting the Monroe doctrine as a most serious step. It adds: "The sooner Lord Salisbury discovers a method of arbitration the better. The Venezuelan commission hangs fire, not, perhaps, without President Cleveland's connivance. If he is giving us time we would be foolish not to take it."

Funeral of Gen. E. B. Fowler.

Brooklyn, N. Y., Jan. 20.—The funeral of the late Gen. Edward B. Fowler took place yesterday afternoon at 2 o'clock from the Simpson M. E. church. At 1 o'clock the body was removed from the city hall, where it had been lying in state since Saturday. The pallbearers were. Generals Benjamin F. Tracy, John B. Woodward, Daniel Butterfield, James McLeer, Theodore B. Gates; Mr. St. Clair McKelway and Seth Low.

WORKING FOR HOLMES.

New Evidence Proving His Innocence Said To Have Been Found.

Chicago, Jan. 20.—A special from Indianapolis says: Interest in the celebrated case of H. H. Holmes has been revived here by the employment of H. M. Bullock in the case. The discoveries which he professes to have made, if true, will show that Holmes is by no means as black as he has been painted. Mr. Bullock claims that he has traced Holmes through Chicago, New York, Philadelphia and other cities and will be able to show all the facts in connection with the castle at Chicago and with the mysterious Hatch who is said to have figured with Holmes in various murders. The evidence thus collected, says Mr. Bullock, will demonstrate beyond a doubt that Holmes was not present at the times and places where the murders for which he is about to suffer were committed. He says the revelations will be in the nature of a sensation, for they will show that the newspapers, and not Holmes, have "killed" the victims attributed to him. The result, it is claimed, is such as to satisfy any unprejudiced mind that Holmes is not the villain he has been held up to the public eye to be.

VENEZUELA IS FOR PEACE.

Nothing But Aggression on the Part of England Will Cause Hostilities.

New York, Jan. 20.—C. Marxen-Eraso, who is now in this city after an extended stay in Venezuela, where he represents large commercial interests, stated to a reporter that the reports published in the newspapers here as to the warlike spirit and excitement in Venezuela were grossly exaggerated. He had been traveling for the last two months over a large portion of Venezuela, from Ciudad Bolivar to the capital, and he was impressed everywhere with the absence of anything like bravado, and the feeling prevailing among Venezuelans that pending questions would ultimately be settled without war. The people of Venezuela are entirely satisfied with the prospects of arbitration, and both in official and unofficial circles there is a determination to abide by it, whether contrary or favorable to Venezuela, but they are at the same time determined that they shall not be despoiled by force without a hearing. Marxen-Eraso, in conclusion, said that nothing but positive aggression on the part of England could bring about war.

THE ABYSSINIAN WAR.

Reported That King Menelik Has Offered To Treat for Peace.

Rome, Jan. 20.—A dispatch from Massowah states that the situation at Makalle, the Italian position which the Abyssinians have been trying for some time to capture, is unchanged. It is reported that Menelik, king of the Abyssinians, has offered to treat for peace, but on what conditions is not positively known. It is alleged that he offers that the Italians will not be harmed if they abandon the fortress at Makalle and retreat. It is believed that the negotiations on the part of the Abyssinians are only for the purpose of gaining time in which to make preparations for another attack on the Italians. The Abyssinian force numbers 55,000 men, most of whom are armed with Remington rifles. Ten thousand of them are armed with lances. A majority of the troops who were at Adigrat have advanced to Adagamus under the command of Gen. Baratieri.

CONNECTICUT BLUE LAWS.

A Firm of New York Contractors Feel Their Effect at New London.

New London, Conn., Jan. 20.—Ridgeway & Chapman of New York ran up against the Connecticut blue laws yesterday when they put a gang of men to work on an excavation for the Munsey building. The site of the building is on State street, close to the Congregational and First Baptist churches and fully 1,000 people pass it in going to these churches. A complaint was made to the mayor that the work was contrary to law and he appeared on the scene and stopped the work. The contractors agreed to have a seven-story building ready by May. They are rushing the work day and night.

New York Germans Celebrate.

New York, Jan. 20.—The Liederkranz singing societies celebrated the 25th anniversary of the crowning at Versailles of King William of Prussia, grandfather of the present emperor, and the establishment of the German empire, with a grand concert at Carnegie music hall last night, which was packed to the doors with an enthusiastic audience.

Could Not Stand Defeat.

GILLAM PASSES AWAY

Famous Cartoonist Dies at Canajoharie, N. Y.

The End Came Suddenly from Heart Trouble Resulting from Typhoid Fever—He Worked with Thomas Nast, Then for Puck, Later Purchasing an Interest in Judge.

Canajoharie, N. Y., Jan. 20.—Bernhard Gillam, the famous cartoonist of Judge, died suddenly yesterday at his home here. He was 38 years of age. Death was caused by a heart clot resulting from a severe attack of typhoid fever.

Mr. Gillam was born in Bambury, Oxfordshire, England, on October 28, 1856. His father was a foundryman. His mother had decided artistic ability, although she never cultivated it save for her own amusement. When Bernhard and his three brothers were mere children the father decided to try his fortunes in the States, and the family settled in Brooklyn. After leaving the Brooklyn high school Bernhard became a student in the office of a Brooklyn lawyer, but one day he drew a comical sketch of his employer and lost his position. In 1879 he took a place on Frank Leslie's Weekly, and during the Garfield-Hancock campaign he made cartoons for Harper's Weekly, working with Thomas Nast. In 1881 Keppler & Schwarzmann of Puck engaged him at what was said at the time to be the highest salary ever paid to a cartoonist. In 1886, in company with W. J. Arkell, he purchased Judge. Seven years ago Mr. Gillam married Miss Bertelle Arkell, the youngest daughter of ex-senator James Arkell of Canajoharie, and the sister of his business partner. There is one child, a little girl named Beatrice. After his marriage Mr. Gillam made his home in Canajoharie.

"DEERFOOT" DEAD.

The Famous Indian Runner Expires Near Buffalo.

Buffalo, Jan. 20.—"Deerfoot," the famous Indian long distance runner, is dead on the Cattaraugus reservation. His proper name was Louis Bennett, the name "Deerfoot" being given him for his prowess in running. He was born on the reservation in 1826. In 1861 he went to England where he defeated the English champion runners and was received by the Prince of Wales who presented him with a purse and a souvenir. In 1863 he returned to this country and subsequently took part in races in New York and Chicago, defeating all comers. "Deerfoot's" greatest record was made in London where he ran ten miles in fifty-two minutes.

EVIDENCE OF FOUL PLAY.

A Woman's Body Found in the Water Off Willow Island.

Middletown, Conn., Jan. 20.—Yesterday afternoon a fisherman found the body of a woman on the north end of Willow island. The woman was about 45 years old and was dressed in coarse clothing without shoes or stockings. She had evidently been in the water three weeks as she was covered with ice and chips of wood. Her hands were clenched and held over her face as if warding off a blow. An autopsy will be held to-day to determine whether she was alive when put into the river.

GARCIA AT WASHINGTON.

May Again Become Active Among the Cuban Patriots.

Washington, Jan. 20.—Gen. Calisto Garcia, who commander the Cuban patriots in their last war, lasting from 1868 to 1878, is in the city conferring with the Cuban delegates Palma and Quesada, upon the inauguration of the insurgent policy which are expected to give a decided additional impetus to that cause. It is the impression that Gen. Garcia will again become active in the military movements of the patriots, but nothing definite as to his course is yet determind.

The Remains Identified.

Bridgeport, Conn., Jan. 20.—The body of the man killed at Burr road crossing Wednesday night has been identified as that of Patrick Flaherty of Philadelphia by his two brothers, who came here yesterday and returned with the remains. Flaherty had been out of work and was coming to Bridgeport to seek employment.

New Jersey State Treasurer Swain and Comptroller Gibson, of Newark, have introduced an innovation in financial affairs which is receiving the commendation of all who know about it. It is the temporary loaning of idle State funds to the city of Newark at three and a half per cent interest.

The civic display at the inauguration tomorrow promises to surpass anything of the kind ever seen in Trenton on inaugural occasion. The new Governor will review the procession from a platform erected in front of the Capitol, and will subsequently receive the public in the Governor's reception room.

After murdering thousands of her Christian subjects and rendering the remainder of them destitute, Turkey has finally ended the chapter of her atrocities by closing her ears to the appeals of humanity and by rejecting a peaceful attempt to give aid to a distressed people. It is an act that will call forth the indignation of the Christian world, and may result in the downfall of the present Turkish Government.—Washington Times.

It is announced that Gov. Werts is a candidate for counsel to the Hudson County Board of Chosen Freeholders. The office was made vacant by the death of Judge McGrath. Ex-Judge Thomas Noonan, Assistant Prosecutor Joseph M. Noonan, Judge E. T. Paxton, Norman L. Rowe, and John Griffin are also candidates. It is said that Mr. Griffin will probably be selected, as he is backed by ex Sheriff Davis. The salary is $3,000 a year.

Every State in the Union except New Jersey, that had troops engaged in the battles of Chattanooga and Chickamauga, has marked the position of its troops by suitable monuments on the battlefields now converted into a magnificent National Park. New Jersey is the sole exception. No appropriation has been made for the purpose by our Legislature and there is no money either to pay for services performed for the State Commissioners. There is no excuse for this neglect by a State that is more fortunately situated financially than any other of her sister States and the Legislature should hasten to remove the approach.—Newark Adver

In days gone by Editor Runyon, with his compound intellect and alleged college education, has penned white heat editorials catechising The Daily Press for printing advertisements of firms doing business outside of Plainfield, and at the same time growing red in the countenance with thoughts that he printed his paper for Plainfield business men only. But what a fall from grace and professed principles this humpty-dumpty journalist and employer of sweat shop labor has taken. Last Saturday he published a piece of alleged enterprise in the shape of a supplement booming a number of New York business houses. The supplement was printed in New York and sent here by freight or express and folded in the sweat shop sheet. The price he received for printing the advertisements was in conformity with the sweat shop wages which he pays his employes, and was a rank injustice to the Plainfield merchants who pay him good rates for advertisements.

The annual reports of the State Comptroller and Treasurer are in. They show a marked increase in expenditures in most of the State departments. The militia cost the State $187,540.84, an increase of $56,658.10 over the previous year. Adding to this the sums of $75,295.26 and $139,590.23, paid respectively for the Jersey City and Paterson armories, the grand total is $402,726.33, or an increase of $182,652 61. Next to the big State Hospital, the militia costs more than anything else in the State. The latter cost $214,953.01, an increase of $85,666.55, which includes payments of $57,651.50 and $17,555.82 for the new buildings at Morris Plains so badly needed, and other extraordinary expenditures. The county lunatic asylums cost the State in addition, $114,887.05. The courts have only run a little over the previous year, their cost being $175 237.12. The disbursements on account of advertising were $141,511.23, an increase of $62,972.59. The State Prison maintenance cost $175,812 08, an increase of $13,203.89 What are known as extraordinary expenses for the year were: Public roads, $76,515.90; public "war debt," $65,000; completing State Capitol, $28,252.52; Senate investigation, $12,563.32; census, $3,143.87; school census, $2.002.73.

Diversity of Amusement.

There was the usual good attendance at the Park Club Saturday night of members, their wives and lady friends. The former indulged chiefly in pool and billiard playing, while several passed their time on the alleys. About 9 o'clock some of the younger set participated in dancing. In view of the fact that the regular Saturday night dances have become a feature, it is a little surprising that so few take advantage of the opportunity. However, that may be, everyone has their hobby and among the members of such a lively society, diversity of amusement can hardly be unexpected.

THEATRICAL.

Al. G. Field's minstrels come to Music Hall Thursday night with decidedly the cleverest list of people this popular amusement purveyor has ever surrounded himself with. Among the novelties are the Patterson Brothers, horizontal bar experts; the three Korrulos, the famous French grotesque comiques, and the Brothers Mohring, the acrobatic meteors. Mr. Field will have as his honored guest this season Uncle Dan Emmitt, the oldest living minstrel, who is making a farewell tour of the country through which he traveled in his younger days. Uncle Dan will have a sumptuous stateroom in Mr. Field's private car Dixie. His only duty with the show will be to lead the orchestra when they play and the vocalists sing his world famous song "Dixie" as it was never sung before.

The Commercial Palace,

during the year just closed inspires the proprietor to still greater efforts during the coming year. The figuring up of the business year of 1895 shows a gain on sales of a good many thousand dollars over last year.

This is taken as conclusive evidence of the growing popularity of the house and that the great masses of the trading public like to patronize just such a large, up-to-date metropolitan house in Plainfield instead of going to New York.

In fact we feel so good over the magnificent showing that we are going to celebrate the same by inaugurating our first

CYCLING COMMENT.

Wheels, wheels, wheels of every kind, shape, size and model, a perfect wilderness of them until the beholder began to think that they were in his head also. Such was the opening night of the New York Cycle Show. The displays far excelled those of any previous show and introduced many novel electrical affects. The crowd was simply enormous, completely packing that vast hall with enthusiasts in the delightful sport of wheeling. The show itself was a perfect education to the cyclist and deserves to be visited by any who take any interest in the popular sport. There were 360 exhibits and each was worthy of an extended examination. The show will be open every afternoon and evening this week.

BASKET BALL.

The Y. M. C. A. basket ball team went to Trenton Saturday evening and were again defeated by the champion team from the Y. M. C. A. of that city by a score of 9 to 0. The Plainfield boys played a good game in the first half but lost their nerve in the second half. The visiting team consisted of J. Koechli, H. Jessup, E. Morraller, C. Sutphen, M. Morraller, C. Rittenhouse and V. Christofferson.

AT THE TRAPS.

The Somerville Gun Club will have a live bird shoot on their grounds next Thursday.

Epworth League Officers.

The Epworth League of Grace M. E. church held their annual election of officers at the church on Saturday evening. The following officers were elected for the ensuing year: President, Charles M. Hummer; secretary, Dyckman Winckler; treasurer, Miss Grace Carroll; first vice-president, chairman of devotional committee, George Nelson; second vice-president, chairman of committee on mercy and help, Mrs. William Lunger; third vice-president, chairman of literary department, Miss Alice Carroll; fourth vice president, chairman of social committee, Mrs. Annie Most.

Important Business.

The German Lutheran church on Grove street will have an important business meeting tonight, in the church at 8 o'clock. A report of the year's work will be read and other important business transacted.

Eleven Doomed to Disappointment.

Already there are about twelve applicants for the position of Overseer of the Poor.

Stuart Robson made no mistake when he hastened to London and secured the farce, "Mrs. Ponderbury's Past," with which he is achieving a triumph at the Garrick Theatre in New York, where it is amusing large audiences nightly. Mr. Robson is admirably fitted to the role of the submissive yet scheming husband, and the play is one mighty peal of laughter from start to finish. New Yorkers have taken kindly to the play, which will no doubt have a long and profitable run.

NEUDORF CONVENT PRISON.

Where Austrian Female Murderers Leave the World and Start Life Afresh.

The women in the Neudorf Convent prison were all so kindly in their ways, so peaceful and good humored, they differed so completely from our preconceived ideas of criminals, that we were puzzled to imagine what could have brought them into prison. We had never a doubt but that their offenses were of the most trivial nature, and we said so. The superior gave us one of her odd, humorous smiles.

"Did you notice that woman in the corridor?" she asked. "She is Marie Schneider."

That insignificant looking little woman, who had stood aside with a gentle deprecative smile to allow us to pass, Marie Schneider! Why, in any other place one would have set her down at once as the hardworking wife of a struggling curate, so thoroughly respectable did she look. And she is Marie Schneider, a European celebrity with more murders on her conscience than she has fingers on her hands!

"And you let her stay here?"

"We have nowhere else to put her," the inspector, who had joined us, replied, "and we don't hang women in Austria."

Nor is she, as we soon found, the only notoriety in the place. One of the prisoners is a delicate looking girl, with large brown eyes and golden hair—a type of beauty almost peculiar to Austrians. She has a low, cooing voice and a singularly sweet, innocent expression.

"What on earth can that girl have done to be sent here?" I whispered.

"Done?" the inspector replied grimly. "Set a house on fire in the hope of killing a man with his wife and five children."

The girl must have had extraordinarily sharp ears, for, although we were standing at some distance away, she heard what he said, and she gave him a glance such as I hope never to see again in my life. It was absolutely diabolic; had there been a knife within reach the man would have died on the spot. Yet only a moment before she had been looking up into my face with a smile an angel might have envied.

Several of the prisoners are in the convent for killing their own children; some for killing or trying to kill their husbands; others for stealing or embezzling; others again for no more serious crime than begging. There are all degrees of guilt there, in fact, and all ages, from girls of 16 to women of nearly 80. And they all live together on terms of perfect equality, for there are no distinctions of rank there—no one is better or worse than her neighbor. When the convent door closes behind them, they have done, for the time being, not only with the outside world, but with their own past. They start life afresh, as it were.—Cornhill Magazine.

A Little French Lesson.

For those who have no knowledge whatever of French the fashion magazines and the menu cards of restaurants bristle with difficulties. When the strange words are ventured upon, it is with fear and trembling—which the result often justifies. The following is a short list of some of the most used and worst pronounced:

Chouz (shoo)—A small rosette.

Chic (sheek) is untranslatable, but perhaps "stylish" comes nearest to its fashion book meaning. In its own home the word is slang and considered vulgar. French ladies do not say "chic" any more than we say "nobby"—which word is really its equivalent.

Peignoir (payn-war)—A wrapper as fine as it can be made.

Saute de lit (so-de-lee) being our bath robe.

Cerise (sir-ease)—Cherry, hence the name of the color.

Bandeaux (bahn-do)—Braids of hair.

Soutache (soo-tash)—Braid for trimming.

Riz de veau (ree-de-vo)—Sweetbreads.

Bouillon (boo-yon)—Clear soup.

Menu (mur-new)—A bill of fare.

Roux (roo)—A mixture of butter and flour, which, after being baked, is used to thicken sauces.

Saute (so-tay)—Lightly fried in butter.

Hors d'œuvres (hear d'urver)—Light dishes as appetizers served after the soup.—Philadelphia Ledger.

Not to Be Beaten.

In a certain manufacturing town in Yorkshire it was a common thing not many years ago for skilled workmen to save sufficient money wherewith to build houses for themselves.

A great deal of rivalry existed among these men as to who should have the best house, with sometimes curious architectural results. A and B were two rivals. A having built a house, B, whose turn soon afterward came, determined to "best" him. So he called in a well known architect to prepare plans.

Asked what spect he would like to his house, B, scratching his head, inquired: "Aspect! What's that? Has A got one?"

"Why, of course," said the architect. "He couldn't possibly"—

"Then put me on two!" was the prompt and emphatic reply.—Strand Magazine.

Experienced.

Sarcastic Reader—I noticed that you had a communication in the first number of your paper signed "Old Subscriber."

Editor—Well, that was all right.

Sarcastic Reader—How so?

Editor—Why, that communication was written by a man who began subscribing to different newspapers and magazines more than 30 years ago.—Somerville Journal.

The objection made to the first gold pens manufactured was mainly to the points, which were so soft that they were bent or worn out very quickly.

Good humor is the very air of a good mind, the sign of a large and generous soul, and the peculiar soil in which virtue prospers.—Goodman.

EXIT THE BLUEJACKET.

In Modern Steam Battleships Athletic Sailors Play a Minor Part.

A proportion of the bluejackets of any fully rigged ship were necessarily athletes. The "upper yardmen" in a line of battle ship or a frigate were exceptional men in this way, and much more so perhaps just about the time that sail power was receiving its death warrant than ever before. These young men had to race aloft to nearly the highest points, at top speed, eight or ten times a week when the ship was in harbor, to keep their heads and maintain their breath while "holding on by their eyelids," as the phrase went, and manipulating with a careful and measured order of action the various and intricate arrangements for "crossing" or "sending down" the royal and topgallant yards. It was all done at full speed, for it was universally held that the upper yardmen gave a character to the whole ship and that one which was foremost in this exercise was ever considered "the smartest ship in the fleet." The upper yardmen were always the coming men. They had most opportunities for distinguishing themselves, were the best known, and were most under the eye of the authorities. They developed great muscular power in chest, shoulders and arms. Their lower extremities suffered, and one always knew the men who had been upper yardmen by their tadpolelike appearance when they were bathing.

But in the modern steam line of battle ship and frigate these extremely athletic specimens formed a very small minority of the "ship's company," and none of them could lose his turn at being upper yardman so long as the ship's reputation depended on the speed with which the upper yards were crossed and sent down. To harbor the rest of the bluejackets had the handling of yards and sails for exercise once or twice a week, but at sea the use of sails for propulsion grew less and less important, and most of the work aloft was more of an exercise and less of a necessity.—North American Review.

CRACKERS FOUND ALL OVER.

Wanderers of the Tribe In the West and North as Well as the South.

"You'll find crackers in other parts of the country than the south," said the tall, grizzled sea captain like man at the inn. "I've seen them in every land—yes, and on Long Island. I take it the cracker belongs to a class by himself. The crackers, all the way from the foothills of the Alleghanies in Lancaster county, Pa., to the mountains of Georgia, are, as I take it, the descendants of men from the north of Ireland. Some of them reached this state from Canada and went south by way of the old Cherry Valley turnpike into Pennsylvania, and thence into Maryland and Virginia. They are the best of the cracker tribe. They still have some of the religion they started with and a remnant of energy.

"You find a southern or western cracker now and then with a good New England name. There was an early New England emigration to the south. I met out in the mountains of Missouri a cracker who was a direct descendant of the old provincial governor of Massachusetts, Endicott. He bore the family name and had a trace of the New Englander in his face, though he could neither read nor write. He had, however, his grandfather's diploma from Harvard college. The grandfather had removed to North Carolina, and part or perhaps all of the family had drifted west and finally reached Missouri. The crackers had a way of traveling along the mountain valleys from state to state, and a good many went into Tennessee and Georgia."—New York Sun.

Brave Sepoys and Sikhs.

The siege had lasted altogether 46 days, and there had been 39 men killed and 62 wounded. The sepoys had suffered greatly from want of food, as to eat horseflesh like the officers would have been against their creed, and the ghi had long run out. They had only half rations of flour, and when the relief came, they were weak and emaciated from want of food and sleep, but their endurance and pluck were most admirable. The sikhs especially showed extraordinary nerve. The worse the outlook the cheerier they grew. They would sit all day cleaning their rifles, with a quiet smile, as though the anticipation of defeat had never entered their mind. They felt sure, they said, that the government would not desert them and that in due time help would come. As one of them tersely put it, "The arm of the government is slow, but it reaches very far." Indeed, no praise can be too great for the Sikhs, who were the very backbone of the defense. They not only endured hardship and privation without a murmur, but they fought with a quiet, dignified courage that in itself inspired confidence.—"The Chitral Campaign," by Thompson.

Amputation.

Dr. A. Pearce Gould, one of the highest medical authorities in England, has recently said that surgeons amputate less frequently now than formerly. The science of medicine has made such progress that the knife is rarely used. The old days of cut and slash are over. Amputation, says Dr. Gould, is a confession of failure, a therapeutic tragedy. Dental science has also made long strides. I can remember a time when if a man had a single tooth ache the tooth was immediately yanked out. But nowadays dental skill is concentrated in saving every tooth in the head. The world moves, and you have to strike a good gait to keep up with it.—New York Herald.

The Ready Answer.

A Pittsburg little girl, who was very fond of the inside of cream puffs, but who did not care for the crust, was carefully removing the latter the other evening at dessert, when her mamma said:

"What are you doing, dear?"

"Peelin my cweam puff," was the reply.—Pittsburg Chronicle.

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

THE POTENT PEANUT.

ONE WOULD HARDLY THINK THE HUMBLE GOOBER SO IMPORTANT.

About Four Million Bushels Raised In This Country Every Year—The Most Nutritious and by Far the Cheapest of Foods—Substitute For Olive Oil.

But little is known of the peanut outside of localities in which it is grown, and even where it is most largely grown its possibilities are for the most part not at all realized, and it is not by any means made to yield the highest results it is capable of. Taking into account all its sources of value, the peanut ought to be one of the most profitable of the general farm crops in the south. The following facts about it are in the main condensed from a bulletin of the United States department of agriculture prepared by R. B. Handy of the office of experiment stations.

The yearly production of peanuts in this country is about 4,000,000 bushels of 22 pounds, the bulk of the crop being produced in Virginia, Georgia, Tennessee and North Carolina. These 4,000,000 bushels, while fully supplying the present demand of the United States, constitute but a small part of the peanut crop of the world, as the exportation from Africa and India in 1892 amounted to nearly 400,000,000 pounds, of which 222,000,000 pounds went to Marseilles for conversion into oil.

The largest part of the American crop is sold by street venders, but small amounts are used by confectioners, chocolate manufacturers and for the manufacture of oil. Peanut oil is used for lubricating and soapmaking and is a good substitute for olive oil for salads and other culinary purposes and as a substitute for lard and cottolene and butter in cooking. The residue from oil-making, known as "peanut cake," is a highly valued cattle food in the countries of Europe and is also ground into fine flour and used as human food. It makes good soup, griddle cakes, muffins, etc., and is one of the most nutritive of foods. The vines, when dried, become a very nutritive hay, readily eaten by stock, though requiring care in the feeding lest it produce colic.

The present uses of the peanut and its products are likely to be greatly extended and new channels of utility found for it, as has been the case with cotton seed. With better methods of tillage and a larger yield per acre the cost of production could be greatly lessened. According to the eleventh census, the average yield of peanuts in the United States in 1889 was 17.6 bushels per acre, the average in Virginia being about 20 and in Tennessee 32 bushels per acre. This appears to be a very low average, especially as official and semi-official figures give 50 or 60 bushels as an average crop, and 100 bushels are not an uncommon yield.

While the peanut has been cultivated in the United States to a limited extent for a number of years, it is only since 1866 that the crop has become of primary importance in the eastern section of this country, which seems peculiarly adapted to its production. Between 1865 and 1870 the rapid spread of the culture of peanuts was phenomenal. Each year doubled and at times increased threefold its crop over that of the preceding year, so that this country, from being a large importer of west African nuts, was soon able to supply the domestic demand with the home raised article.

Virginia, North Carolina and Tennessee produce a large part of the peanut crop of the United States. Within the last few years this crop has ceased to be as profitable as heretofore. The method of culture—the annual planting of nuts on the same land, the lack of proper rotation of crops, the complete removal of all vegetation from the land and the failure to replenish the soil by means of fertilizers—has been a great factor in reducing the profits of the crop by reducing the ability of the land to produce such crops as were previously secured in that section, so that now instead of an average of 50 bushels per acre, with frequent yields of over 100 bushels, the average in the peanut sections is not over 30 bushels, while the cost of cultivation has been but slightly reduced.

As regards food value, peanut kernels, with an average of 29 per cent of protein, 49 per cent of fat and 14 per cent of carbohydrates in the dry material, take a high rank and should be classed with such concentrated foods as soja beans, cotton seed, etc. The vines are shown by analysis to be superior to timothy hay as a feeding stuff and but slightly inferior to clover hay.

The ground hulls are used to a considerable extent as a coarse fodder in European countries. Peanut meal, the ground residue from oil extraction, is a valuable feeding stuff highly appreciated and extensively used in foreign countries. It contains, as the averages of over 2,000 analyses show, about 52 per cent of protein, 8 per cent of fat and 27 per cent of carbohydrates and is one of the most concentrated feeding stuffs with which we are familiar, ranking with cottonseed meal, linseed meal, etc., and in some cases ahead of them.

In describing the uses of peanuts it is scarcely necessary to more than refer to the use to which fully three-fourths of the American raised crop is devoted. The nut is sorted in the factory into four grades, the first, second and third being sold to venders of the roasted peanut either directly or through jobbers, while the fourth is sold to confectioners to be used in the making of "burnt almonds," peanut candy and the cheaper grades of chocolates. The extent of the use of the peanut by the American people will be more fully appreciated when it is remembered that they use 4,000,000 bushels of nuts yearly, at a cost to the consumers of $10,000,000, which do not form a part of the regular articles of food, but are eaten at odd times.—Boston Herald.

TO AID THE LIBRARY.

The Sewing Class of St. Stephen's Church Gives a Charming Tea.

A delightful tea was given by the sewing class of St. Stephen's church Saturday afternoon in the parish rooms, and it proved very successful financially as well as sociably. The net receipts were $21.56, and went to the library fund.

Dainty little cups of tea were served to all the guests at the tea table at which Mrs. N. P. T. Finch presided. A table covered with a tasty display of homemade cakes was under the supervision of Mrs. A. J. Beil, while Mrs. E. H. Woodward looked after the table of useful articles, and two little girls attended to the fancy articles. The attendance was good and the articles were almost entirely disposed of.

Lost One Looking for Another.

Dennis O'Brien, of this city, left his horse and wagon standing in front of a house on South avenue last evening and when he came to look for it the rig was gone. He got his saddle horse and went in search of the first but in his hunt he left this horse for a minute and it too disappeared. The police of this city found both horses straying around town and finally restored them to their owner.

Broke His Arm.

Last Friday evening about 8 o'clock one of the steam fitters who are engaged in piping the Jackson building, corner Front street and Madison avenue, went into the building on the first floor and was so unfortunate as to make a misstep and fall into the cellar, breaking his right arm.

Thirty-Eight Men for Each Place.

Three extra policemen are to be appointed by Mayor Gilbert Feb. 1st, and already there are 116 applications.

Julius Williams, of Elmwood place, left town this morning for an extended business trip, which will probably include the Pacific coast.

HOLES IN THE CANVAS.

An Important Discovery Increasing the Efficacy of Sails.

An Italian sea captain, Gio Batta Vasallo of Genoa, has made a very interesting innovation in the use of sails of ordinary sailing vessels. He claims that the force of wind cannot fully take effect in a sail, since the air in front of it cannot properly circulate in the inflated part and remains stationary immediately in front of part of the sail proper. He avoids this stagnation of air, as he calls it, by the application of a number of small holes in that part of the sail where the depression is deepest when it is filled. These holes are re-enforced like a buttonhole, so that they will not tear out.

Trials made in various weather have resulted as follows: With a light wind a boat with ordinary sails made 4 knots, while the new sail increased the speed to 5¼ knots. In a fresh breeze the respective speeds were 7 and 8¾ knots, and in a strong wind they were 8 and 10 knots an hour. It stands to reason that the doing away with a layer of air which cannot escape past the sides of a sail must increase the efficiency of the sailboat. Where the wind formerly struck a cushion of air, which acted like a spring mattress, decreasing the actual pressure of the wind against the canvas, this current of air now strikes the sail direct and of course has a greater efficiency. Vasallo has received much encouragement from practical sailors as well as theoretical scientists.—Philadelphia Record.

Football In Africa.

Englishmen are proverbial for taking their games with them into whatever part of the world they go. Golf, as we know, is played in the shadow of the pyramids and in the very heart of the Himalayas, but football in the middle of darkest Africa is something of an innovation. Yet football is rapidly becoming popular on the shores of Lake Nyassa, and at Kotakota, which a few years ago was notorious as the greatest depot for slaves on the western shore of the lake, mixed teams of black and white meet every Saturday with as much regularity as do our home teams, though the local chronicler omits to say whether Rugby or Association has won the suffrages of the Nyassa teams. One startling feature of the game is that the black players decline to hamper themselves with boots and find apparently no inconvenience in playing with bare feet.—London Cor. Manchester Guardian.

Brevet Rank.

The story is told of a soldier of the Army of the Potomac who had his own ideas as to his financial value, as well as the method by which that value could be realized.

He was a white man and was detailed for service as a teamster in a train which was driven for the most part by negroes. The negroes were hired at the rate of $25 per month, but the white soldier received no more than his regular pay of $16.

He appeared somewhat dissatisfied with this arrangement and made an application to his captain.

"I should like," he said gravely, "to be appointed a negro by brevet, and be assigned to duty in accordance with my brevet rank!"—Youth's Companion.

A BRITON'S LUGGAGE.

ATTEMPTS OF AMERICAN IMITATORS TO INTRODUCE IT HERE.

Ponderous British Hat Boxes, Portmanteaus and Hold Alls—The Baggage on a Steamship Wharf Is a Study—The Traveler and His Bathtub.

As the traveling Briton is known in this country by his luggage, so the American woman was once hated in Europe because of her saratoga trunk. The world has escaped the general adoption of the saratoga trunk, but a worse thing seems possible, as British luggage threatens to become international. Even now you may buy in this town all the impedimenta with which the traveling Briton cumbers himself and bedevils the rest of mankind. A Broadway trunkmaker has for some years past undertaken to fix the thraldom of these things upon his fellow country men and women, and many traveling Americans, especially the wealthy and fashionable, are to be recognized by the multiplicity of British impedimenta that they carry to and fro in their frequent journeyings between the old world and the new. More curious still, those clever and imitative Japanese have begun to produce British luggage identical with the original in the minutest details, even down to hand sewed straps on leather trunks, portmanteaus and the like; but, drolly enough, the whole outfit is merely a paper counterfeit of the real thing.

American imitators of things British, lacking the fine humor of the Japanese, have made no substitution of light material for heavy, but have taken on the full burden of ponderous British hatboxes, portmanteaus, rugs, bags, hold alls and even bathtubs. It was a traveling American who gave to the world an account of a refreshing scene on board a Mediterranean steamer bound to Tangier or some such Mohammedan port of north Africa. A British passenger with his bathtub had nearly pestered the life out of a meek, coffee colored Mohammedan, who accepted the Briton's curses without a sign of reproach, but when in the course of getting the luggage ashore the precious bathtub fell overboard and sank like lead, the harmless follower of the prophet was seen to pause in his work and dance gleefully upon the deck, exclaiming in triumph, "Oh, Mr. Goddam, Mr. Goddam!" It is since that incident that traveled Americans in their aping of British ways have accepted even the burden of the bathtub.

A study of baggage at a steamship wharf or even at a large railway station in New York is an instructive lesson as to the cosmopolitan character of the city. There is one article of British luggage that seldom survives more than one journey within the limits of the United States and sometimes gets no farther inland than the New York hotel at which the traveler makes his first stop. This article is the little trunk or box of japanned tin much used by travelers in Great Britain. The flimsy trifle hardly survives the first encounter with the American baggage handler, and after the first journey of 600 miles in this country is battered out of all resemblance to its original rectilinear self. It is an article of luggage not suitable to the exigencies of American travel.

A pathetic feature of the baggage at the railway stations that are doorways to the west is the immigrant's luggage. Sometimes it is a mattress from the steerage wrapped about the few belongings of the new made American. Again it is the corded box of the Irish, English or Scotch immigrant. It will be recalled how important a preliminary to Charlotte Bronte's journeyings out into the great world from her Yorkshire home was the cording of her box. The corded box is as rare among the luggage of an American traveler as the old hair trunk, though both are occasionally seen. The seaman's locker, rectilinear for a stable stowage and strong against accidents, figures in the luggage at steamship wharves. One knows instinctively its contents of old clothes, protographs, curios, tobacco and long treasured letters from home and the array of pictures from the illustrated papers pasted on the inside of the lid.

The elaborate dressing cases that some Americans and all well to do Englishmen used to travel with are going out of fashion. It is almost a necessity that the traveler with this pretty piece of luggage take along a valet, for the thing weighs like so much lead and is too precious to be trusted to the tender mercies of the baggage department. The traveling desk also has nearly disappeared, though some ingenious trunkmakers now produce trunks that open so as to form desks. The luncheon hamper that used to accompany every traveler across this continent in the days before dining cars came into use has almost entirely disappeared. The California millionaires of early transcontinental travel carried enormous and richly laden hampers and dispensed often a princely hospitality to their fellow travelers. The dinner hour on board a transcontinental train was a picturesque incident of travel in those days. The traveling Briton in Europe still sometimes carries his luncheon hamper, and it is often one of the nuisances of European travel.

Some of the English theatrical companies have become so used to traveling in America that they have adopted our methods with baggage. They accept with grace the great American trunk, dispense with the hatbox, the bathtub, the rugs, shawl straps and the rest and calmly see their belongings carted off by a stranger, who leaves behind as evidence only a bit of brass bearing a few letters and numbers.—New York Sun.

Wheeler—And don't you think the bicycle will ever be useful in warfare?

Walker—No. I doubt if it will ever get farther than its present status as a mere instrument for assault and battery.—Indianapolis Journal.

ANNUAL SALE
OF
Muslin Underwear, Waists, Wrappers, Corsets.

Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.

So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.

We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that those who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

GRIGGS IS GOVERNOR.

BIG DEMONSTRATION BY REPUBLICANS AT TRENTON TODAY.

Union and Somerset Counties are Taking a Prominent Part—Judge DeMeza Marshals the County Clubs—Committees.

(Special to The Daily Press.)

Trenton, N. J., January 21st.—Over a century ago the British were driven from the then fertile fields of Trenton, and today, after thirty years of the most prosperous prosperity, the able, the defenseless Democracy of a State that they had learned to honor and to proclaim as their own is turned over to an enemy.

The session opened last night in both Houses in a slow and in an un-Democratic way. Never before in the past decade has there been a more slim attendance at an opening previous to an inaugural. The hotels are deserted and still the Republican party are not Prohibitionists. Governor-elect Griggs is receiving at the Trenton House and President of the Senate Thompson is entertaining friends at The Windsor.

The first bill introduced into the House of Assembly was made by that sterling Democrat of Old Hunterdon, Assemblyman John Queen, a brother of Paul Queen who is a member of the State Democratic Committee from that county.

The appointments of the committees that will most interest The Press readers is that Assemblyman Codington is chairman of the miscellaneous committee, a member of the educa tion committee, the judiciary and also a member of the joint passed bills committee. The ex-Judge is in ex ceedingly good luck. That astute Corporation Counsel for the largest populated town in Somerset county, who occupies the only seat in the House of Assembly from that county, has been more than fortunate. The President of the famous Park Club and "our" Assemblyman from "Old Somerset" is chairman of the committee on incidental expenses, on the revision of the laws, and also a member of the joint committee on the State Reform School grounds.

Little "Will Sebring, who has been appointed a page through Assemblyman Codington's efforts, is a distinguished person by his activity.

The following Senate committees were announced:

Judiciary—Voorhees, Johnson, Daly.
Revision of the Law—Williams, Herbert, Kuhl.
Appropriations—Rogers, Ross, Gould.
Finance—Parry, Stokes, Vreeland.
Corporations—Stokes, Packer, Staats.
Municipal Corporations—Skinn, Ketcham, Daly.
Railroads and Canals—Herbert, Ward, Engle.
Banks and Insurance—Ketcham, Williams, Ward.
Education—Hoffman, Vreeland, Stokes.
Militia—Skinn, Williams, Kuhl.
Games and Fisheries—Ward, Gould, Staates
Riparian Rights—Bradley, Ross, Johnson.
Agriculture and Agricultural College—Packer, Parry, Ward.
Miscellaneous Business—Ross, Vreeland, Engle.
Unfinished Business—Vreeland, Hoffman Kuhl.
Engrossed Bills—Ward, Stokes, Staates.
Labor and Industries—Rogers, Ward, Kuhl.
Boroughs—Bradley, Parry, Johnson.
Claims and Pensions—Engle, Packer, Ross.
Elections—Williams, Voorhees, Hoffman.

In the Assembly Speaker Derousse announced the following standing committees:

Agriculture and Agricultural College—Wildes, Coursen, Powers, Jackson, Flummerfelt.
Banks and Insurance—Smith, Lloyd, Thorn, Gledhill, Hoos.
Bill Revision—Coursen, Jones, Clauss, Ullmann, Bullock.
Boroughs and Borough Commissions—Voorhees, Wildes, Powers, Lloyd, Bauer.
Claims and Revolutionary Pensions—Jackson, Snyder, Schober, Righter, Ruempler.
Corporations—Christie, Tice, Francis, Roll, Lawshe.
Education—Stanger, Smith, Hicks, Codington, Mullin.
Elections—MacPherson, Lower, Ludlam, Voorhees, Fleming.
Engrossed Bills—Austin, Harrison, King, Scovel, Hewitt.
Game and Fisheries—Francis, Powers, Scovel, Hutchinson, Fleming.
Incidental Expenses — Reed, Voorhees, Schober, Snyder, Ruempler.
Judiciary—Skinner, Robertson, Codington, Scovel, Queen.
Labor and Industries — Hicks, Stanger, Stainner, Stimpson, Smart.
Militia—Hopkins, Harvey, Gledhill, Lloyd, Queen.
Miscellaneous Business—Codington, Jones, Jackson, Righter, Bullock.
Municipal Corporations—King, Slover, Christie, MacPherson, Cagney
Railroads and Canals—Lower, Tice, Hopkins, Harvey, Alpaugh.
Revision of the Laws—Robertson, Hicks, Borton, Reed, Walling.
Riparian Rights—Ludlam, Stanger, Scovel, Righter, Allen.
Stationery—Duncan, Ludlam, Hicks, Benedict, Bowers.
Towns and Townships—Harrison, Coursen, Slover, Borton, Parslow.
Unfinished Business—Schober, Clauss, Thorn, Ullmann, Flummerfelt.
Ways and Means—Hogan, Clauss, Jones, Ullman, Fleming.

Speaker Derousse also announced the appointment of Andrew J. Mallette, of Camden, as his private secretary, and Johnson Cherry, of Camden, as assistant private secretary.

Mr. Queen, the Democratic leader, introduced an equal taxation bill, which provides that railroad companies shall pay tax at local rates, the State to get the amount equal to one-half of one per cent of the assessed valuation, and the different localities the remainder.

Mr. Fleming introduced a bill providing that railroads shall either elevate or depress their tracks at street crossings in first-class cities and bear the whole expense therefor.

Mr. Queen introduced a bill making the Supreme Court clerk's and Chancery clerk's offices salaried at $6,000 a year.

The Union and Somerset county delegations arrived here at about 10:30 and the members of the party immediately scattered over the city, going in parties of twos, threes and fours to various places where they were acquainted or else observing the big crowd that was present. Of course a great many people were there, but the hotel and saloon men had made preparations to handle a bigger crowd than was present and were consequently somewhat disappointed. Long before the hour of noon Taylor's Opera House was jammed full with G. O. P. adherents who were anxious to witness the inauguration ceremonies.

Several Plainfielders occupied seats of prominence on the platform where the impressive ceremonies were enacted. The programme was followed out as published in The Daily Press a few days ago. The oath of office was administered to the new Governor by Chief Justice Mercer Beasley, following which came the delivery of the great seal of the State to the new Governor by Governor Werts and the introduction of Governor Griggs to the members of the Legislature.

After the inauguration was ended and the Governor had delivered his address the Republican clubs formed in line and started over the line of march. It took the parade forty-five minutes to pass the corner of Green and Hanover streets. The clubs were led by the Essex county delegation, with the Frelinghuysen Lancers, of Newark, at the head, who presented a very military bearing, and received great applause from the multitude of sightseers.

The Union county clubs were led by the Republican county executive committee, J. F. MacDonald, of Plainfield, occupied the right of the line. Among the other Plainfielders in the executive committee were J. B. Coward, W. T. Kirk, and Councilman William Westphal. Following them came the rest of the delegation of the clubs who were marshaled by City Judge DeMeza. The Somerset county delegation made a fair showing. The U. S. Grant Club was commanded by President Fountain.

One of the most notable observations about the hotel corridors and in the legislative halls was the manner in which John Kean seemed to be feted. Every one seemed possessed to grasp his hand and interest him as long as possible.

The Governor's inaugural address will be found on the second page.

Summer School Arranged.

There were thirty members present at the meeting of the Primary Teachers' Union held yesterday afternoon in the Y. M. C. A. building. The lesson was taught by Mrs. George H. Batchelor. It was announced by the president, Miss Nettie Beeching, that a very interesting programme was being arranged for the summer school to be held at the Heath House, Schooley's Mountains, in August. Mrs. Shribble, of Philadelphia, will give a blackboard talk, Miss Williams, of Elizabeth, will tell something of kindergarten methods, Mrs. Pettit, of Elizabeth, will give an illustrated sand talk.

An Aged Man Dead.

Levi Bingham died yesterday at the home of his son, Samuel Bingham, 218 East Ninth street, of paralysis, in the seventy-second year of his age. He leaves a wife as well as his son to mourn the loss of a loving husband and father. His remains will be taken to Coventryville, Pa., and be buried from the M. E. church of that place on Friday afternoon, Jan. 24th.

Park Club Sociability.

An informal entertainment will be given at the Park club house on Friday evening, Jan. 31st. Some of the members of the Lehigh University Banjo Club, together with local talent, will furnish the entertainment.

A Dangerous Thing.

A wagon with a long ladder fastened in behind turned the corner of Front and Somerset streets yesterday afternoon. The ladder broke away and was thrown with violence across the sidewalk, narrowly escaping several passersby. No damage was done.

MASTER OF SCULPTURE

THE CHARACTERISTICS OF MICHAEL ANGELO TOLD BY MR. KENYON.

He Was a Master With the Chisel But Had a Queer Temperament and Found it Hard to be Agreeable to Others.

A very large and enthusiastic audience gathered at the Casino yesterday afternoon at 3:30 o'clock, and together with the members of the Monday Afternoon Club enjoyed a lecture by Kenyon Cox on Michael Angelo.

The subject is one of deep interest and the many personal traits in the life of the great sculptor were finely brought out in a way that made the lecture exceedingly interesting.

Born in Italy, March 6th, 1475, he spent his early life on a farm. When old enough he was taken to Florence, but he would do nothing but devote his time to drawing. After serving an apprenticeship of one year, he took up the study of sculpture, acquiring that mastery of the chisel which he always retained. His first work was remarkable. Later, he went to Rome where his reputation was great and continued to grow rapidly. He was given the work of reproducing twelve apostles, but never finished but one. He had no rival as a sculptor until Raphael began to master the art.

Angelo was a confirmed dyspeptic and somewhat quarrelsome, and in his habit of abstinence he was almost miserly, often subsisting on a piece of bread during a day's labor. He was often given to going to bed with his clothes on. At times he would keep his boots on for several days and nights and when he did take them off small pieces of skin would be removed. He was proud and had a bitter tongue and it was impossible for him to get along with pupils or assistants. His work was chiefly done at night by candle-light. He never married and there is little evidence to believe that he ever loved. His gloomy genius was in striking contrast to the sunny nature of Raphael, but his style was grand and beautiful. He was a master of drawing, colors and the art of sculpture.

Through the courtesy of Mrs. Perkins, a member of the club, a large collection of photographs of Angelo's were on exhibition, including an original drawing, "The Lost Soul," which was purchased by Mrs. Perkins' father in 1847.

FELL IN THE WATER.

Several Skating Accidents at Smalley's Pond on Saturday.

Smalley's pond was the scene of several accidents Saturday. Miss Jessie Saxton, of East Fourth street, fell in up to her shoulders, but was rescued by Miss Randolph. Miss Clara Woodward, of Norwood avenue, received a slight wetting, but managed to get out without assistance. Mrs. J. P. Emmons took her home in a carriage.

Frank Vail also tumbled into the icy water, but his comrades pulled him out and built a big bonfire by which he dried his dripping clothing.

Si Drake Talking Again.

Silas Drake says he is soon to commence the erection of a mammoth department dry goods store in Elizabeth which will eclipse in its appointments any similar building in the State. It will be located on Broad street.

Nourishing Bread.

The "Omnia" Bread prepared by the Hygienic Food Co., of Orange, has no equal for delicacy and nutrition. The bare hands do not touch the dough in making.

A New Hotel.

John Benner is building a new hotel on South avenue, just beyond the present location of his house.

Sprained His Ankle.

George Wilson, driver for Hillier & Co., met with an accident yesterday which will confine him to the house for a few days. He was delivering goods at the home of E. W. Mills, corner of Fifth street and Watchung avenue, and in leaving the stoop, his feet slipped causing him to fall. As a result his ankle was sprained. He succeeded in getting back to the store and had to be taken home where he is now confined.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

OFF FOR TRENTON.

A Large Delegation of Plainfielders Go to the Inauguration.

Fully 150 Republicans gathered at the North Avenue station this morning and boarded the 9:33 Trenton special for the Capitol, where they will witness the inauguration of Governor-elect John W. Griggs. There was about fifty members of the City Association, fifty of the U. S. Grant Club, of North Plainfield, and fifty colored Republicans. The train was composed of ten coaches and a dining car. Everyone was in the best of humor; a better natured crowd never left Plainfield.

Among some of the notables were: J. Fred MacDonald, J. B. Coward, Judge De Meza, Borough Clerk J. K. Arnold, City Clerk J. T. MacMurray, ex-Judge W. A. Coddington, Borough Tax Collector H. N. Spencer, Chief Marshal Van Horn, Editor Runyon, P. A. Emmons, Justice Newcorn, Councilman William Westphal and Town Committeeman R. M. Fountain. Each one wore handsome badges, while the North Plainfielders carried substantial canes cut from H. N. Spencer's bean-patch.

Raided by a Dog.

There was war on Park avenue yesterday afternoon and this morning in the vicinity of Ross's restaurant and the Postal Telegraph Company's office. The messenger boys of the office have a large black dog which hangs about the outside of the office. Yesterday the dog managed to get into the restaurant and into the show window where a choice lot of eatables was displayed. He was driven out by the indignant proprietor after he had devoured part of them. Mr. Ross complained to the police that the dog was a nuisance and this morning the boys were told to take the dog somewhere else.

School Teachers Meet.

A regular meeting of the Somerset county Teachers' Association was held in the Raritan Public School building, last Saturday. In the morning session, Wilbur F. Gordy, Supervising Principal, Hartford, Conn., spoke on the subjects: Elementary History, Cause and Effect in History. In the afternoon session, Miss Sydenham, of North Plainfield, gave a development lesson in technical grammar.

Several short talks upon subjects in practical physics were also given.

There was a large attendance, quite a number attending from the borough.

Where Do They Come From?

Does anyone doubt to whom the Republican party of this State belongs, after witnessing the free distribution of railroad tickets given out for the inauguration of Governor Griggs. Senators Sewell and Hobart are the real dispensers behind the screens. Who in New Jersey ever knew or heard of free tickets to the inauguration of a Democratic Governor? J. E. M.

Old Trustees Re-elected.

A meeting of the congregation of the Crescent Avenue Presbyterian church was held last evening. The financial report for the past year was submitted. The old board of trustees was re elected for the ensuing year. They are Charles Place, I. W. Rushmore, J. K. Myers, Charles J. Fisk, E. L. James, Will Arnold and J. W. Murray.

The Supper Tonight.

An error was made in the advertisement of the King's Daughters supper in The Press last night where it was announced that the event would be held last night. The supper will be held this evening and the proceeds will be devoted to the support of the city nurse and the city poor.

Supper for the Actors.

Those who took part in the rendering of the comedy, "Confusion," at Music Hall, last Thursday evening, will be given a supper tonight at the Plainfield Catholic clubhouse.

To Await Trial.

There was only one offender to appear before City Judge De Meza this morning. Charles Berro was charged with violating the hack ordinance and was paroled to await his trial.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." A TIME OF JOLLIFICATION.

Entertaining Services of Patriotic Sons of America Last Night.

The members of Washington Camp, No. 30, Patriotic Order Sons of America, had a jollification time last evening in the rooms corner of Park avenue and Front street. An entertainment was presented, followed by a lunch box sociable. There was a large delegation present from Camp 16, of Perth Amboy, and they assisted in the entertainment, which consisted of banjo and accordeon solos; address, N. H. Saxton, Camp 30; singing, Red, White and Blue; remarks, President Glenn, Camp 16; singing, District President Taylor, Camp 16; recitation, "I Am Proud to Be an American," Mrs. A. A. Wyckoff, Camp 30; remarks, G. Taylor, Camp 16; song, "The New Woman," E. Danzler, Camp 16; recitation, "Our Country's Home," Mrs. A. A. Wyckoff, Camp 30; vocal selections, musical trio, Camp 16; singing, "My Country 'Tis of Thee"; benediction, President Taylor, Camp 16. The rest of the evening was devoted to sociability, and a good sum was realized from the sale of lunch boxes.

The committee in charge was W. W. Stratton, C. B. Dennis and H. S. Thatcher. Camp 30 and Lucetta Council, D. of L., received an invitation from Camp 16, of Perth Amboy, to attend the anniversary exercises of the latter camp Friday evening, Feb. 21st. It was accepted. The visitors left for home about 11:30, going to South Plainfield in stages and from there by train.

ANOTHER BRANCH.

It is Calculated to Establish an English Lutheran Church.

There was an important meeting of the congregation of the German Lutheran church last evening in their edifice on Grove street. The report of the last years growth of the society was read and was very gratifying. Five new members were received and will unite with the church next Sunday. The matter of establishing an English Lutheran church was considered and it was decided to make the effort. It is calculated to hold the English services every other Sunday evening in the German church at which time Rev. E. Kionka will preach in English. A debt of $500 on the church was also paid off at the meeting. The congregation parted with good hopes for the year.

THOUGHT HE SAW A GHOST.

Was Near the Quaker Burying Ground; Disappeared Among Tombstones.

Plainfield, at last, has a ghost, or is said to have one, at least. Last Friday night a reputable man, who is employed about one of the local livery stables, was going home and was just about to pass by the Quaker church, when, he says, he saw a form dressed in white come down East Third street. It turned in at the gate and passed into the yard, disappearing among the tombstones. The man owns up that he was badly frightened and rapidly put a good distance between himself and the scene of the midnight prowler. He has no explanation to offer, but thinks that he has seen a ghost.

Almost Suffocated by Coal Gas.

A colored family living on West Fourth street was almost asphyxiated by coal gas last night. The gas came from a small coal stove in one of the rooms. The condition of the family was discovered by one of them who came in late and it was only by great exertions that the almost suffocated sleepers could be brought back to consciousness.

Two Boys Killed.

Two small Hungarian boys were instantly killed at Bound Brook this morning by the New York train due in this city at 10:04. They were standing on the track watching the Trenton special train pass by, when the other train struck them. Their bodies were taken care of by the station officials and removed for burial.

Mission People to Meet.

The Upper Division of the New Jersey Branch of the Woman's Missionary Auxiliary will meet in Grace Church, on Wednesday of this week at 11:15 a. m. Addresses will be made by Arch-Deacon Jenner and Miss Emery.

Elected Directors.

G. W. Bullman and A. P. Voorhees have been elected directors of the Somerset county board of directors.

One Minute Cough Cure touches the right spot. It also touches it at the right time if you take it when you have a cough or cold. See the point? Then don't cough. L. W. Randolph, 143 W. Front St.

BE SAVED TO SERVE.

REV. C. E. HERRING IMPLORES THOSE OF THE LORD TO WORK.

Second Week of the Revival Meetings Started Last Night—Attendance Not so Large But the Interest Was Great

The attendance at the revival meeting held in the First Methodist church last evening was not quite so large as on previous evenings, but there was no decrease in the interest. The usual song service, led by H. J. Martin, preceded the opening prayer by F. H. Andrews, after which Rev. C. E. Herring took charge. He read the third chapter of Paul's Epistle to the Ephesians and his text was taken from the eighteenth verse: "To the end that ye, being rooted and grounded in love, may be strong to apprehend with all the saints what is the breadth and length and height and depth, and to know the love of Christ which passeth knowledge, that ye may be filled unto all the fullness of God." In part he said:

God speaks through His Son, Jesus Christ. The sea is a type of God's mercy, for it is just as wide. In the prayer that was made this evening the words "Saved to Serve" were used, and they impressed me. We shall better understand the question of election when we are saved to serve. God says to each individual, daughter! son! give me thine heart. Our Heavenly Father loved us before the foundation of the world. Human love dies and is crushed out, but there is no death or crushing out with the great love of God. We love Him because He first loved us. There is an inspiration in knowing that we are loved. O, the depth of God's love; it reaches from glory to Gethsemane. If God should look in your heart what would he find there that was a hindrance to your accepting him? If we are rooted and grounded in that great love the devil cannot pluck us out of the Divine Hand. Let the cross of Christ be the foundation of your life, and may the prayer of our hearts tonight be that we may grow more like Christ every day.

The congregation then united in singing "There is a green hill far away."

Dr. Barnes followed with a few remarks, after which a short testimony meeting was held in which several persons told how they were converted. In most cases everyone experienced a change of heart during a special series of meetings. The testimonies were very helpful and interesting.

This evening Rev. C. L. Goodrich will preach.

DR. OPDYKE MAY BE TRIED.

His Alleged Unprofessional Conduct Being Inquired Into.

Dr. John Truax, Chairman of the Medical Board of Harlem Hospital, is making an investigation of the alleged unprofessional conduct of Dr. Opdyke, formerly of this city, ambulance surgeon of the hospital, at the bedside of Courtlandt Babcock, the insurance agent, who died on Sunday morning of a self-inflicted pistol wound in the head. Dr. Truax says that if the charges are found to be true Dr. Opdyke will be tried by the Board. Dr. Opdyke says they are not true.

He declares he did not shake the patient to see if he was conscious, or remove the bandages placed by Doctors Smith and Marvin. He admitted that he placed new bandages over those applied by the other practitioners, but he did so because blood was coming through those bandages. He also admits that he told the family that he would have to remove the patient, but says he did not intend to do so.

A Baptism.

There was a pretty baptismal service, Sunday afternoon, at the Church of the Redeemer, when the infant daughter of Captain and Mrs. George F. Edwards was baptized by Rev. Dr. Jocelyn Johnston. The altar was tastefully decorated with pink and white carnations by the Ladies Guild of the church.

Injured His Wrist.

The slippery sidewalks had at least one victim yesterday. An elderly man was passing Edsall's Commercial Palace when he slipped on the ice and snow and fell, injuring his wrist.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

GOV. GRIGGS' INAUGURAL ADDRESS.

Gentlemen of the Senate and General Assembly:

With these brief and simple ceremonies the executive administration of the state passes from my predecessor to a new incumbent. Such simplicity is befitting the nature of a republic, where the imposition of the authority of government is not the conferring of personal title, but the official investiture of the power of public service upon the selected agent of the people. Trite though the remark may be, it cannot be too often repeated, that the public officer is merely the trustee of the commonwealth and owes to the people the duty, superior to all other considerations, of loyal and unselfish service.

It would be an affectation were I to leave unmentioned the fact that is in the thought of every citizen, that this event implies the passing of the executive control of New Jersey out of the hands of a party that has held it for nine successive terms.

The valuable function of political parties in republican government is too well established to be questioned and too universal to be ignored in official addresses. It is well, however, to keep clearly in mind the truth that they are themselves but agencies, whereby the people are enabled to obtain the first and only desideratum of an organized state—that is, good government for the whole people. When the popular voice dismisses the representatives of one party and calls those of the opposition into office, it is not for the purpose of enabling the new incumbents to wreak vengeance on political adversaries or merely to strengthen their own organization; it is to improve upon the quality of service theretofore rendered and secure greater efficiency and devotion to the public welfare. In so far as I may on this occasion with propriety address the representatives of the party that now assumes control, I would conjure them not to imitate, but to avoid the mistakes of their political opponents. Where they have been weak, let us be strong; where they have unduly hesitated, let us be bold; where they have been excessive, let us be moderate; if they have been selfish, let us devote ourselves entirely to the interests of the commonwealth, with an eye single only to her glory and the prosperity of all her people. The fairminded and patriotic official can readily distinguish the line across which partisan considerations should not go and will find no difficulty in rendering aid of the most important kind to his party if he will govern his conduct by the primary motive of true public service.

It is fortunate that there are few if any subjects of legislation in our state that furnish the occasion for party differences. You will therefore be able to give to each matter your independent, deliberate judgment and to share with your political opponents the labor and responsibility.

It is scarcely my proper function at this time to call your attention to particular topics upon which legislation is desirable. If I deem it necessary, I will hereafter, by special message, communicate to you such matters as may need especially to be brought to your notice.

I consider it most important, however, that you should at once take into consideration the object of restriction in the volume of legislation. The mass of statute law has now become so immense that it may be said to be almost beyond the power of the legal mind to acquire it or the judicial mind to interpret it. It was intended by the amendments to the constitution adopted in 1875 to decrease the quantity of statute law by the abolition of special legislation upon several subjects, notably the government of counties and municipal corporations. Such decrease was for several years effected. But gradually, aided by experience and a sharpened ingenuity, the draftsmen of statutes came to know how to draw up laws, which, while possessing the form of generality required by the constitution, had all the substance of special application to the desired locality, without becoming fastened to any unwilling municipality. It was the undoubted object of the constitutional amendments referred to to provide a uniform system of laws for all the counties, cities, townships and other political subdivisions of the state—a system not merely applicable to all, but to be compulsorily applied to all, so that all cities, all counties, all townships of the same class should be governed by the same uniform systems. Unfortunately our courts have held that this constitutional requirement is satisfied in a statute when by its terms it is applicable to all the members of a class, although as a matter of fact it may be practically applied to only one of the class. In other words, the courts hold that it is only necessary that all members of a class may take the benefit of a statute, but that the law need not be compulsory on all.

So it has become easy, by means of different forms of local option, such as popular elections for or against the adoption of any act, to pass laws in form of the most perfect universality, which in effect are special charters for a single city. On account of this unfortunate interpretation of the constitutional intent the so called general laws relative to cities have become multitudinous. They fill over 350 pages in the new volume of general statutes, and the laws under the title of "Municipal Corporations" will fill as many more. This condition of legislation as to cities might not have been unexpected in view of the fact that when the constitutional amendments requiring general legislation were passed all the cities of the state were already in existence under different special charters.

But a more striking instance of manifold legislation exists in the laws relating to boroughs. These forms of local government did not exist until recently. They were all created under so called general laws. The spirit and letter of the constitution required that they should be governed by a uniform system. Yet we find three different general acts now in force regulating the creation and government of boroughs. At each session of the legislature numerous amendments to each of the three systems are passed, until this one title in the general statutes now covers 111 pages. So variant, inconsistent and confused are these acts that no legal adviser or judicial interpreter can safely say what the law is on many subjects relating to boroughs. Besides boroughs, we have separate systems respectively for borough commissions, for towns, for villages, for seaside resorts and for townships, each possessing indiscriminately similar powers and differing only in name and arrangement.

For some years past the annual volume of the laws has been growing in thickness. As an example, let me refer to the most recent, that of 1895. It contains 106 different acts relating to cities, 43 relating to boroughs, 33 relating to townships, 13 relating to villages. It cannot be that any such number was necessary.

Take some other subjects. There are nine separate amendments to the school law, seven different acts on the subject of sidewalks, eight relating to the statehouse, five relating to swamps and marshes. Similar variety and multiplicity will be found in any volume of annual statutes for the last six or seven years.

When we consider that the power of legislation is the greatest that can be exercised by any human agency—that every law changes the rights and modifies the duties of a greater or less number of citizens—it is proper to inquire whether proposed laws are sufficiently considered before they are adopted. The same tendency to multitudinous and slipshod legislation prevails in other states of the Union and has attracted the attention of many thoughtful persons.

Besides the uncertainty and confusion that ensue from the existence of so many separate statutes, the easy change of existing law tends to create popular disrespect for the sanctity of the law. What can be so readily made and so easily altered can fairly be considered as of small importance.

The general statutes of the state now in press will comprise three large volumes of over 1,000 pages each and in bulk will be about twice as large as the general statutes of the United States. Unless we are to have to confess that our legislative system is a failure, we must find a method of remedying this excess. It is not yet too late to pass a system of laws of comprehensive form for the government of municipalities, which should be compulsory upon all, so that the uniformity of local government contemplated by the constitution may be attained.

This increase of laws, affecting almost every interest in life, cannot continue without involving many important subjects in serious confusion and difficulty. Many of the acts relating to one or another kind of municipal bodies affect the levying and collection of taxes and the issue of bonds—matters in which not only the public but many private persons are financially interested. I shall offer some suggestions which, if adopted, will, in my opinion, mitigate, even if they do not entirely remove, the difficulty.

No law should be passed unless there is some public necessity demanding it. The fact that a proposed law is, as is often said, unobjectionable in itself, is no reason for its enactment. There should be positive reasons for lawmaking, not negative ones. Settled rules should not be easily disturbed. It is not enough to say of a bill that it does no harm; it should be one conferring positive benefits and demanded by public necessity or convenience to entitle it to the solemn sanction of the legislature and the governor. Every bill should be carefully considered in committee before submission to the proper house for passage. Its verbiage should be tested to see if it is accurate and expresses only what it is intended to effect. It should be compared with the existing law on the same subject, to ascertain if it harmonizes or is inconsistent therewith. It would save much trouble and confusion if, where there are several amendments proposed to the same law, they should be consolidated into one act.

And let it be remembered that in the discharge of the duty of a legislator there can be no consideration for such things as courtesy to a fellow member or to the introducer of a bill when the rights of the people of the state are to be affected.

In accordance with these views I shall consider it my duty to withhold executive approval from all bills that have no positive advantages to the public or are trivial or ill considered in substance. I believe it is better to bear some inconvenience than to be constantly altering the statute law of the state.

These expressions are not intended to discourage or impede the passage of necessary laws in the interest of reform. Reform is necessary in the matter of legislation as well as in other things.

There are subjects to which I hope the legislature will give their most serious attention. The protection of life, limb and health against danger from public uses of the highways and streams of the state is one. Some well considered and equitable plan of providing overhead or underground crossings where railroads intersect the streets of populous cities should be devised and enacted. The experience of other progressive states that have dealt efficiently with the subject is available for our instruction and guidance.

We all know how the calendars of our courts are crowded with causes arising from accidents from trolley cars. Doubtless many such accidents are due to the carelessness of the injured party. Nevertheless it is the duty of the legislature to guard, if possible, even against the carelessness of people, because there are many, including especially children, not endowed with the full measure of ordinary carefulness. The existence of this new agency of electrical propulsion, which, through the most crowded of our streets, impels at speed such dangerous vehicles, makes it obligatory on the legislature to provide such legal safeguards as are possible, consistently with necessary public convenience, in order to minimize the danger of accident. How far these lines should be permitted further to be constructed upon the streets and highways should be a matter of consideration for the legislature. In some instances, especially in country districts, it would seem only right to require that electric railroads should hereafter be constructed either on the side of the road or entirely off the limits of the highway, thus preserving the roads for the use of the public in the manner originally intended.

The pollution of the rivers of the state by cities and towns through sewers and otherwise, whereby a public nuisance and menace to health is created, is another subject that I am informed will be brought to your attention.

All these subjects are of the highest importance and extremely difficult to deal with. They call for the exercise of the highest ability and judicial spirit in the attempt to deal fairly with the rights of all concerned. Possibly upon some of these subjects you may not be able to advance beyond the stage of investigation. If so, it would be wise to have the result of your inquiries embodied in such form as to be available to the next legislature.

I consider the result of the recent election in this state as a declaration of the people that they approve the policy of keeping our state charitable, educational and penal institutions free from political control; that they desire the most rigid economy in the management of state affairs; that no useless offices shall be created or continued; that officers who are receiving inordinate compensation through fees shall be put upon the basis of a fair salary and the fees be paid into the treasury of the state for the benefit of the people; that public officials shall be held to strict account, not only for the discharge of their ordinary duties, but also for the public funds which they may handle; that frauds upon the state shall be fittingly punished, and moneys fraudulently gotten shall be recovered, if possible.

If I have learned anything of the sentiments of our people, it is that they desire, above all partisan considerations, the very highest, purest and best government that human wisdom can give them. The prosperity, the peace, the honor of our state, are dear to them all. They want strict economy, wise counsels, prudent and guarded legislation absolutely honesty, fearless and unswerving adherence to those things that make for righteousness and exalt a people.

To the attainment of these things I am already pledged; but here, in this presence, with all the earnestness and solemnity that befits this occasion, I renew the pledge. To the service of the people, all the people, of our loved and honored state, I devote whatever of wisdom, whatever of patience, whatever of ability it has pleased God to endow me with.

And for my assistance I invoke the good will, the patience, the loyalty and the patriotism of my fellow citizens and the favor of Almighty God.

What a Kurd Is Like.

In color they are usually no darker, and often not nearly so dark, as southern Europeans. The eyebrows and lashes and eyes are generally black, and nose aquiline and fine, and the mouth well formed. The face is long and oval, while in stature a medium height seems to be general. The chin is shaved, the mustache alone being left, and over it no end of trouble is taken with comb and wax. The hair is usually shaved along the top of the crown, but left long on either side, though little or nothing of it is visible, owing to the peculiar and characteristic manner in which the men deck their heads. The Kurd's costume is distinctly his own, and except in the south, where he has come more or less under Persian influence, he never abandons it. A high silk pointed cap crowns the head, round which is woven a number of silk scarfs and handkerchiefs in skillfully arranged disorder.

The favorite colors for these turbans are dark claret and gold, with here and there a narrow stripe of some brilliant hue. The rough fringes are left hanging down, as often as not covering the eyes and ears of the wearer and adding not a little to his fantastic appearance. Over a white linen shirt, with sleeves that end in points more than a yard long, so that they touch the ground, a silk coat is worn, crushed strawberry being the favorite color, though cherry color and white satin are almost equally common. These coats are made collarless and open at the neck and fold across the breast, being held in place by a wide silk sash skillfully folded and intertwined. In this sash the long pipe and curved dagger are thrust.—Blackwood's Magazine.

Aroma and Bouquet In Wines.

"Aroma and bouquet," said a well known wine expert, "are too often taken to mean the same thing in wine. Flavor pertains especially to the lingering aftertaste of wine when swallowed. Aroma and bouquet appeal only to the smell, and the former exists in the grape itself, while bouquet only manifests itself long after fermentation is completed. Bouquet is never present except in the purest wines. It seems to arise from a union of several agreeable odors, and any mixture would surely destroy it. There are no truly fine wines without a strikingly marked agreeable bouquet, and where all other qualities are of equal perfection the bouquet makes the distinction that gives to the wine possessing it always the preference."—New York Sun.

Knew What He Would Do.

It was a Gardiner youth of very tender age who, when asked recently by his maternal parent the solemn question, "What would you do if mamma were taken away?" quickly blurted out, "I would take my meals at Mrs. Haley's." The lad's worldly response knocked the pathos out of the scene in double quick order.—Bangor News.

Hood's Sarsaparilla Demonstrates Its Merits.

A scrofulous or catarrhal condition of the intestines is often the prime cause of chronic diarrhœa, and when the tissues are built up and healed by the pure blood made by Hood's Sarsaparilla, a cure is effected. Read this:

"I believe it my duty to tell what benefit I have received from Hood's Sarsaparilla. I was afflicted with chronic diarrhœa for four years, and

Bovinine

that greatest of concentrated food preparations, that creator of strength, maker of flesh tissue, and blood enricher, which, putting the vital organs in their normal condition, enables them to dispel disease. Dr. G. Curson Young of Philipsburgh, N. J., says, "I have used Bovinine with great satisfaction. One case, an old lady of seventy years, convalescing from typhoid fever, but very slowly, gastric irritation complicated with extreme prostration gave but a faint hope of recovery. I gave her Bovinine,—a complete restoration to health followed."

Pineola Cough Balsam
is excellent for all throat inflammations and for asthma. Consumptives will invariably derive benefit from its use, as it quickly abate the cough, renders expectoration easy, assisting nature in restoring wasted tissues. There is a large percentage of those who suppose their cases to be consumption who are only suffering from a chronic cold or deep seated cough, often aggravated by catarrh. For catarrh use Ely's Cream Balm. Both remedies are pleasant to use. Cream Balm 50c per bottle; Pineola Balsam 25c, at druggists. In quantities of $2.50 will deliver on receipt of amount. WANTS FRIENDLY AID

Venezuelan Commission's Suggestion to Olney.

Not a Tribunal of International Character, Unofficial Co-operation with England and Venezuela Would Greatly Assist in the Work. Ready for Business.

Washington, Jan. 21.—The Venezuelan commission is now almost ready to begin the real work for which it was chosen and Friday, the date fixed for its next meeting is set down for its first business day. The only employe so far selected is S. Mallet Provost of New York, who was yesterday accepted as secretary, or executive officer, and a stenographer, doorkeeper and messenger are yet to be selected. The commission, finding that in New England and elsewhere there are collections of ancient maps, desire it to be understood that any documents of this kind entrusted to them for their information will be carefully preserved and returned to the owners.

Of No International Character.

The following letter, addressed to Secretary Olney by the president of the commission, Justice Brewer, has just been given out for publication: "I have the honor to state that the commission appointed by the president of the United States to 'investigate and report upon the true divisional line between the republic of Venezuela and British Guiana' has organized by the election of the Hon. David J. Brewer, as its president, and is entering upon the immediate discharge of its duties. In so doing, it has, after careful consideration, concluded to address you on the question of securing so far as possible the friendly co-operation and aid of the two nations which are directly interested in the now pending boundary differences. It must have suggested itself to you, as it no doubt has to the president, that this commission thus authorized to ascertain and report the boundary line between two foreign nations, bears only a remote resemblance to these tribunals of an international character, of which we have had several examples in the past. They were consituted by or with the consent of the disputants themselves, and were authorized by the parties immediately concerned to pronounce a final judgment. The questions at issue were presented by the advocates of the various interests, upon whose diligence and skill the tribunal might safely rely for all the data and the arguments essential to the formation of an intelligent judgment. Their functions were therefore confined to the exercise of judicial powers and they might fairly expect to reach a result satisfactory to their own consciences, while it commanded the respect of those whose interests were directly involved.

Seeks Friendly Co-operation.

"The present commission, neither by the mode of its appointment nor by the nature of its duties, may be said to belong to tribunals of this character. Its duty will be discharged if it shall diligently and fairly seek to inform the executive of certain facts touching upon a large extent of territory in which the United States have no direct interest. Whatever may be the conclusion reached no territorial aggrandizement, nor material gain in any form, can accrue to the United States. The sole concern of our government is the peaceful solution of a controversy between two friendly powers for the just and honorable settlement of the title to disputed territory and the protection of the United States against any fresh acquisitions in our hemisphere on the part of any European state. It has seemed proper to the commission, under these circumstances, to suggest to you the expediency of calling the attention of the governments of Great Britain and Venezuela to the appointment of the commission and explaining both its nature and object. It may be that they will see a way, entirely consistent with their own sense of international propriety, to give the commission the aid that it is no doubt in their power to furnish in the way of documentary proof, historical narrative, unpublished archives, or the like. It is scarcely necessary to say that if either should deem it appropriate to designate an agent or attorney, whose duty it would be to see that no such proofs were omitted, or overlooked, the commission would be grateful for such evidence of good will, and for the valuable results which would be likely to follow therefrom.

The Suggestion Acted Upon.

"An act of either government in the direction here suggested might be accomplished by an express reservation as to her claims, and should not be deemed to be an abandonment or impairment of any position heretofore expressed. In other words, and in lawyers' phrase, each might be willing to act the part of an amicus curiae, and to throw light upon difficult and complex questions of fact, which should be examined as carefully as the magnitude of the subject demands. The purposes of the pending investigation are certainly hostile to none, nor can it be of advantage to any that the machinery devised by the government of the United States to secure the desired information should fail of its purpose.
"DAVID J. BREWER."

To this communication Secretary Olney replied, stating that he had communicated the suggestions of the commission to Sir Julian Pauncefote, the British ambassador, and to Minister Andrade, the Venezuelan representative, for transmission to their respective governments.

SKETCHES BY M. QUAD

Speaking of Mr. Tompkins.

I had come out of the Fifth Avenue hotel and turned into Twenty-third street when a well dressed middle aged man overtook me and exclaimed:

"I beg your pardon, but how do you do, Mr. Tompkins; how do you do? I just caught sight of your face as you turned the corner and wasn't quite sure it was you. And how are things in Akron?"

"Moving along all right," I replied as I shook hands with him.

"How long have you been in town?"

"Oh, a couple of days."

"Here on business, of course? You were always a busy man. How's my brother Dan? You know Dan, of course—president of the First National bank?"

"Certainly. Dan is all right and as hearty as a buck. He said I would be apt to run across you in New York."

"He did, eh?" queried the man, seeming to be quite surprised. "Are you going to remain long?"

"Three or four days."

"I shall be glad to show you around a little. I don't think you exactly remember me, do you?"

"N-o, not exactly."

"I saw you in Akron often for three or four years, and I made many purchases at your store. I think we were introduced by my brother Dan."

"No doubt. Your brother Dan is a keen, sharp fellow, isn't he?"

"Yes, pretty sharp," he replied in a noncommittal way and looked at me very sharply.

"Yes, he's a sharp one. The day I left Akron I met him on the street, and he said to me, 'Tompkins, if you meet my brother Bunko down in New York, tickle his chin for me.'"

"He said Bunko, did he?" queried the stranger as he began to draw off.

"That's what he said, sir. How is business in your line?"

"You think yourself a cute one, don't you?" he sneered as he looked me over.

"Well, Tompkins of Akron is no spring chicken. Do you make mistakes of this sort often?"

"None of your business."

"No, of course not, but I just thought I'd inquire, you know. I'll tell your brother Dan I met you, but that you were off your feed. Good day, Bunko."

I went back to the hotel and found, sure enough, that Tompkins of Akron was registered there. The bunko man had gotten the two of us mixed.

He'll Top the Crowd.

He entered the car on which I was seated on the Sixth avenue elevated, and after a bit he leaned over and whispered in my ear:

"I'll be hanged if they haven't done it!"

"Done what?" I asked.

"Got my watch!"

"Who?"

"Dunno. Some feller picked it out of my pocket!"

"Well, that's too bad. You ought to have been more careful. Are you a stranger in the city?"

"Yes, perfect stranger. Got here only two hours ago. Say, it's immense, ain't it?"

"I don't exactly understand."

"Don't you? Waal, I do."

"Do you know what'll happen when I git back home?"

"The folks will laugh at you for losing your watch."

"Will they? Not as I knows of. You jest let me git down alongside the stove in White's grocery and tell the crowd that some feller down here in New York picked that watch offen me and I never felt a touch, and I'll be the biggest man in town fur the next two weeks!"

"And if you lost your wallet you'd be a bigger man yet?"

"You bet I would! Here she is, stickin right outer my pocket, and there's $9 in her, and if somebody'll sneak her out and not let me feel 'em I kin go home and knock the socks off'n the feller who was clubbed by a policeman and run over by a cable car down here!"

Caused by a Boy.

The other afternoon a boy of 10 years of age who was crossing Broadway at Murray street fell down and hit his head on the cobblestones. The result was a trifling scalp wound, but the boy burst into tears and sat down on the curbstone. Inside of 60 seconds a crowd of 100 persons had gathered. In another 60 the crowd blocked the street.

"What is it?" yelled one.

"Who's been run over now?"

"Has a call been sent in for the ambulance?"

"That's the third man killed right here."

For five minutes the crowd held the fort. The cable cars had to run slow, the mail wagons and trucks came to a dead stop, and City Hall park was black with people streaming across it to find out what had occurred. I saw a dozen men have their hats knocked off or their heads punched while trying to crowd to the front, and I followed four policemen into the mass, expecting to see nothing less than the mangled remains of three or four persons. When we reached the boy, one of the officers demanded:

"Here, what's the matter with you?"

"Got hurt," blubbered the lad.

"How? Where?"

"Fell down and hurt my head."

"Is that all? Get along with you! Come, now, gentlemen, scatter. Away you go! Nothing but a boy got a tunk on the cocoanut."

"Oh! Ah! Um!" exclaimed the crowd, and the next minute Broadway had resumed its normal condition.—M. Quad in Detroit Free Press.

THE WILD GEESE.

The wild geese, flying in the night, behold
Our sunken towns lie underneath a sea
Which buoys them on its billows.
Liberty
Those have we, but such as those frail barks of old
That crossed unsounded mains to search our wold.
To them the night unspeakable is free;
They have the moon and stars for company;
To them no foe but the remorseless cold,
And froth of polar currents darting past,
That have been nigh the world's end lair of storms.
Enormous billows float their fragile forms.
Yes, those frail beings, tossing on the vast
Of wild revolving winds, feel no dismay!
'Tis we who dread the thunder, and not they.
—James H. Morse in Scribner's Magazine.

LITTLE KENTUCKY.

It May Some Day Be Claimed as a Part of Tennessee.

Little Kentucky, as it might be dubbed very appropriately, is located opposite Island No. 10, where Kentucky and Tennessee meet. The river, by gradually cutting out the Kentucky bank, had worn off a narrow strip of land, until one bright morning several people who lived on this side of the line woke up to find themselves on the other side. In other words, the swift current had washed away the neck of earth which made the extreme southwestern corner of this state a part of the commonwealth of Kentucky. The section of territory thus separated from its parent, as it were, is ten miles long and five miles wide—quite a good mouthful to take in at one bite, even for the greedy Mississippi.

Every well posted river man and every person who is acquainted with the geography and topography of this state will understand how such a thing could happen. Right at the state line the river forms a loop about ten miles long. The loop extends up into Fulton county. The swift stream has simply drawn this noose tight and formed an island out of what was formerly a peninsula. Hickman is the closest town of any size to the place where all this landmaking occurred. Darnell, a little hamlet over in Obion county, Tenn., is quite near the spot.

The boundary line between Kentucky and Tennessee has always been rather complicated down about Island No. 10, owing to the peculiar bend in the Mississippi mentioned above. The lakes, bayous and sloughs which bisect that corner of Fulton county in all directions also serve to mix matters. The biting off of such a large strip of soil will add to the general confusion, and the question may arise as to whether Little Kentucky will hereafter belong to the domain of the Volunteer State or still be a part and parcel of the dark and bloody ground.—Paducah News.

Freeman's Sensitiveness.

One incident of Freeman's early life preserved by Mr. Stephens is thoroughly characteristic. Before he was of age he was in love, and as soon as he reached 21 he offered marriage and was accepted. Some opposition from Freeman's own kinsfolk seemed the only hindrance to a happy union. But another was created by the sensitiveness of Freeman's own conscience. "He had expectations of a sufficient income, but it was partly derived from coal mines, and the shocking disclosures recently made respecting the treatment of colliers made him doubt whether he could conscientiously draw an income from that branch of industry until the system was reformed." There we see the same temper at work which in later days made Freeman throw up a pleasant and lucrative connection with The Saturday Review because he disapproved of its foreign politics. His standard of right and wrong might sometimes be perverse, his judgments hastily formed, but seldom has any man lived to whom the call of duty, once made clear, was more absolutely imperative, in defiance of any pleas of convenience or of usage. His action was always in purpose the embodiment of George Eliot's fine lines:

Nay, falter not. 'Tis an assured good
To seek the noblest; 'tis your only good
Now you have seen it, for that higher vision
Poisons all meaner choice for evermore.
—Quarterly Review.

People Who Eat Hair.

It is difficult to imagine people eating hair, but there are many, especially girls and young women, who do so, as experience proves. Doctors conducting post mortem examinations have been surprised to find a large quantity of hair in the stomach of the deceased person.

Not long ago an English medical man found as much as four pounds of hair in the stomach of a woman about 30 years old, and similar cases have been officially reported from various parts of the world.

Dr. Swaim lately performed an operation for tumor, when, to his astonishment, the cause of complaint was a mass of hair weighing between four and five pounds.

In this case the patient confessed that she had contracted a habit of biting off the ends of her hair, just as some bite their finger nails.—Pearson's Weekly.

Three Strange and Remarkable Men.

As Dumas, the grandfather, prided himself more upon his wonderful strength and skill in athletics than his generalship; as Dumas, the second, prided himself more upon his knowledge of cookery than the authorship of "The Three Musketeers," so Dumas, the third, prided himself more upon his knowledge of art than upon the writing of "La Dame aux Camelias." They were three strange and remarkable men.—Rochester Post-Express.

The first manufacturing statistics were collected by the government in 1850, when it was discovered that the capital invested was a little in excess of half a billion of dollars.

The iron pen mentioned by Job in the book of that name in the Bible is supposed to have been a steel graver used for cutting inscriptions on stone.

Carbuncle at first meant nothing more than a little glowing coal.

At any rate Gov. Griggs had plenty of red fire at the inauguration.

The Populist national convention will be held in St. Louis on July 22d.

Thirty years of suppressed Republican enthusiasm was exploded at Trenton today.

Between 12 o'clock last night and 12 o'clock today noon New Jersey was nominally without a Governor.

Union county Assemblymen were fortunate in committee assignments. They all secured good places. Likewise Assemblyman Reed.

The bill introduced by Senator Johnson, of Bergen, in the interests of the preservation of the Palisades of the Hudson, will meet with no opposition.

There seems to be a plethora of men who think the policeman's lot is a happy one. One hundred and sixteen applicants for three places would seem to indicate this.

Now that the Democratic National Convention has given New York the go-by, the metropolis is laying plans to secure the New York State Republican Convention. Something is better than nothing.

The selection of C. H. Bateman, editor of the Somerville Unionist-Gazette, as secretary to Senator Thompson, president of the Senate, is a pleasing one to a large number of Mr. Bateman's journalistic friends.

The Daily Press has it on authority that James Martin will not accept the captaincy of the police force. The duties of the office are not agreeable to Mr. Martin, and he has firmly decided not to take the place. It is understood that the police committee had a meeting last night to determine on the new appointments to be made.

The only way to rescue the Armenian people is to put an end to the Turkish Government. It is an abomination and an anachronism. It cumbers the earth and should be cut down. Now let England come to agreement with Russia and wipe out the stanic power of the Turks. Let Russia march her legions into Armenia. Let the British and French fleets force the Dardanelles and compell the surrender and abdication of the Sultan, and the utter overthrow of the power of the Pachas. There is a point where patience ceases to be a virtue. We believe that the world has arrived at that point. The Turk must go!—Springfield Union.

THEATRICAL.

"Utopia" is a word the definition of which is ideal perfection of happiness. "Utopia" is the title of the closing burlesque of the Al. G. Field minstrels. The love of the negro race for the circus is proverbial; after watermelon the circus. "Utopia," as it will be seen on the minstrel stage, is an ideal circus performance as given by the Darktown Circus Company. Real live horses, ponies, etc., will be used. The Mohring Brothers, Charles Rench the Walton Brothers and other well-known acrobats will compete in trials of skill in Utopia. All the features of the latter-day circus will be introduced, even to the water carnivals. Appropriate scenery will add effectiveness to the scene. Nothing more laughable or effective was ever seen on any stage. They will appear at Music Hall Thursday night.

Dunellen.

Mr. Vreeland has returned home to Westfield from a visit with friends here.

Mr. Pennoyer, of Newark, has been visiting P. Voorhees and family, of Greenbrook.

Miss Camerson, of Glen Gardner, who has been visiting Mr. and Mrs. Ayers for several days has returned home.

Miss Zauine, of New York, has returned home after a visit with Mr. and Mrs. Elias Milligan, of North avenue.

The Epworth League of the M. E. church will hold a business meeting this evening in the lecture room of the church.

Rev. Mr. Custard, pastor of the M. E. church, will be assisted by Elder Ryman, of Elizabeth, in conducting the prayer meetings this week. All are invited.

New Market.

The Misses Halliet are entertaining New York relatives.

Mrs. Otto has been entertaining friends from South Orange.

Alfred Asmun led the young peoples' meeting Sunday evening. His topic was "Temperence."

Miss Edith Wilson, who received injuries by fall on the ice, is getting along nicely under the treatment of Dr. Nelson.

The revival meetings will continue this week in the Seventh-day and Baptist churches conducted by Evangelist Huffman.

Evangelist Huffman occupied the pulpit of the Baptist church Sunday morning and evening. His sermon in the evening was on "Character."

The funeral services were held last evening over the remains of Mrs. Staples. Mrs. Staples was in the seventy ninth year of her age. The services were conducted by Rev. Mr. Custard, of the Dunellen M.E. church, assisted by Rev. Frank Fletcher, of the Baptist church of this place.

Scotch Plains.

The ambulance had its first call to Scotch Plains yesterday, when Harry Flannery was removed to Muhlenberg Hospital. He is a lad of about nineteen years, living with his grandmother. He has been suffering with appendicitis and has gone to the hospital to have an operation performed on him. His father is J. E. Flannery, the East Third street blacksmith.

"I AM GLAD I AM ALIVE"

It Rings and Throbs From the Heart and Soul.

Even a Great Scientist May Be Mistaken.

This Will Possibly Throw Some Light on the Subject.

Dr. William James, writing on the question, "Is life worth living," in the Journal of Ethics, says:—

"Suffering and hardship as a rule, do not abate the love of life. The sovereign source of melancholy is repletion."

This is not true.

Suffering does abate the love of life, and the sovereign source of melancholy is nervous weakness and disease.

How many thousands of people there are today who can sadly bear out these facts! How many of earth's scattered millions can truld say that life is worth living! How many are there in whom the touch of melancholy is not the outgrowth of nerve or physical weakness!

Did you ever greet a man whose whole-souled smile, ruddy, beaming face and warm, pulsing hand grasp thrilled you as he cried joyously in answer to your salutation, "I feel first rate; I am glad I am alive."

Did you ever greet a pale, nervous, weak individual and mark the dull, haggard eyes, the lined face, the slow responding wan smile which scarcely came ere it disappeared, the cool, clammy hand lying like a dead thing in your grasp, while the feeble, quavering voice answers, echoing the hollow depths of melancholy within his soul: "I am feeling about the same—no use to myself or anyone else."

The first is the personification of good health, perfect digestion and sound sleep, the system aglow with buoyant spirits, the bounding pulse, the throbbing energies, the keen zest of living and of being alive.

The second is the incarnation of ill health, brain tired, nerve weary, weak of body and enervated of mind, melancholy and dispirited with power, energies and ambition all gone.

Ill health, from whatever cause, is the breeder of weakness, melancholy and despair. Good health means love of life and enjoyment of its every pleasure. If you are a sufferer, if you are not in perfect health, if you do not thoroughly enjoy life, the first thing for you to do is to recover your health by using that great strengthener and restorative, Dr. Greene's Nervura blood and nerve remedy. By its use you can be put in sound condition, with strong nerves, vigorous muscles, restored energies and learn again that to the person in health life is indeed worth living.

Mr. Andrew H. Olney, of Gieson, N. Y., speaking on this subject says:

"I was broken down with nervous and physical prostration before using Dr. Greene's Nervura blood and nerve remedy, and life was a burden. Now life is a joy and sleep is a luxury compared to it before taking Nervura. I relish my food my nervousness has left me and so has the numbness. I wish I could shout loud enough so all the world could hear, and tell them the good this wonderful medicine has done for me.

"It has made me from a weak, trembling, nervous, irritable man, to one who feels he is on the highway to long years of health and happiness through Dr. Greene's Nervura blood and nerve remedy and the blessing of God."

Do not fail to use Dr. Greene's Nervura blood and nerve remedy and get back your health. This is not a so-called patent medicine but the prescription of the most successful specialist in nervous and chronic diseases, Dr. Greene, of 35 West 14th st., New York City, who can be consulted without charge, personally or by letter.

—The 8:15 and 8:31 morning trains to New York now make connections for Newark at the same time.

J. W. Pierce Republic, Ia., says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself." L. W. Randolph, 143 W. Front St.

during the year just closed inspires the proprietor to still greater efforts during the coming year. The figuring up of the business year of 1895 shows a gain on sales of a good many thousand dollars over last year.

This is taken as conclusive evidence of the growing popularity of the house and that the great masses of the trading public like to patronize just such a large, up-to-date metropolitan house in Plainfield instead of going to New York.

The Diocesan League series will end on Feb. 6.

The two teams of the Crescent Wheelmen, the "Will Bes" and the "Has Beens," will roll a game on the Crescent alleys this evening.

The Crescent Wheelmen go to Elizabeth Thursday to roll a game with the Elizabeth Athletic Club in the Central Journal Bowling League.

It is expected that the E. A. C. ten will add another to its victories already won when it goes to Jersey City Wednesday night. The team will meet the ten of the Jersey City A. C., and a stiff battle is anticipated.

The Cranford C. C. are in excellent form, and when they meet the New Jerseys tonight at Bergen Point, expect to add another victory to their list. In their first meeting on the Jersey's alleys the home team was victorious by twelve pins, the Cranfords rolling 1477, their lowest score.—Journal.

A game will be rolled this evening in the Central Journal Bowling League at Cranford between the team from that place and the New Jersey Athletic Club. So far the Cranford C. C. has won every game rolled on their alleys. If the hoodoo continues, Cranford will strengthen her hold on second place, otherwise the New Jersey boys will step up from third to second.

The present situation in the Standard Bowling League is exciting to say the least, and on the two games that are to be rolled on the Park Club alleys tonight, between the Park Club and the Westfields, depends considerable. By winning two games last evening Roselle has left the Parks behind and jumped into second place. Westfield is only a short distance ahead and should the borough bowlers defeat them both games this evening the first place will be a tie between the Parks, Roselle and Westfield. In such a position as that, and with the Union County bowlers to meet next Friday, the Park Club would be a favorite in the race for first place. The little word "if" interferes with all those plans at present, however, and it remains to be seen whether the Parks can roll the game of their life tonight and defeat the Westfield champions.

It was hard luck that lost the first game for the Union County Country Club in their two games with the Roselle Casino bowlers on the former's alleys last evening. Most of the hard luck came to the share of one man and enabled him to break a record. The record was for making the most splits in one game, and Brown, of the Countries, broke it, making seven splits in the first game and four in the second. The first game was closely contested, and it was anybodys game up to the last frame when Roselle won by six pins. The second game was not as exciting except in the first few frames, for the visitors soon obtained a lead and held it to the end, finishing seventy-one pins to the good. The individual scores were as follows:

UNION COUNTY COUNTRY CLUB

	1ST GAME.	2D GAME.

CYCLING COMMENT.

F. L. C. Martin took a party of boys to the New York Cycle Show this afternoon.

The annual relay race from New York to Philadelphia will take place in June. New York, New Jersey and Pennsylvania will be represented by six riders each. The relays will consist of three men and will be about 25 miles each.

What can be done in case of an emergency was demonstrated last week by a member of the Harlem Wheelmen, who on returning from Coney Island had his tire punctured. He secured a heavy piece of rope, and, detaching his injured tire, substituted the rope and made the journey, some eight miles, that way.

No little sensation was caused last week by the announcement of A. G. Spalding that his firm will not employ a racing or class B team during the coming season. He declined to state any reasons for the stand he has taken, but said the whole subject would probably come up for discussion next Saturday afternoon at a meeting of the joint conference committee of the L. A. W. and the National Cycle Board of Trade, to be held in Madison Square Garden.

The cycle show still is the centre of attraction for thousands from New York and all the surrounding cities and towns. A good sized delegation went from Plainfield Saturday, but yesterday it was larger, over fifty going from here. The show was just in running order last evening and the crowd was greater then ever. F. L. C. Martin, W. H. Rogers and C. C. Lister were seen at the exhibits of the firms they represent. Quanities of souvenirs were given away, but most of them went only to the ladies and their escorts.

WHIST.

The national whist trophy, which the Park Club held for one match, is still being contested for. Another match was played Saturday, and the old rivals of the Park Club, the Hamilton Club players, of Philadelphia, were defeated by the Capital Bicycle Club team, of Washington, in an attempt to take the trophy away from the latter team.

EARLY INTELLIGENCE.

—Rugs! cheap, at Love's, North avenue.

—Washington's Birthday is the next holiday.

—The Grand Jury will probably be in session all the week.

—The residence of John M. Dayton, of East Sixth street, is being improved by the addition of a new piazza.

—L. W. Randolph, the druggist, has moved the electric motor in his store from the cellar to the first floor.

—Mrs. S. A. Cruikshank, of Belvidere avenue, has just purchased a handsome bay Kentucky saddle horse.

—Acquired or hereditary, blood poisons can now be permanently cured with "Pura Blood." It cures—yes—cures.

—Old Glory Council, Daughters of Liberty, will hold an important meeting this evening in the Borough Council rooms.

—A large number of No. 5 Gospel hymnals were taken from the Crescent Avenue church to the First M. E. church.

—Handkerchiefs are very popular this cold catching weather. Those sold at Peck's are the ones carried by most of the Plainfield ladies.

—The 7:53 train was on time this morning and there was the usual scurrying to catch it. The icy pavements made the situation an exciting one.

—A meeting of the Y's will be held at the home of Miss Lewis on Central avenue, Wednesday, Jan. 22d, at 3:30 p. m. All members are urged to attend.

—The Colored Republican State Committee meets this afternoon in the rooms of the Union Colored Republican Club of Trenton. W. A. Kline, of this city, is secretary of the committee.

—The initiating team of Lucetta Council, No. 28, D. of L., will meet at the residence of W. W. Stratton, of East Third street, this evening, as business of importance is to be transacted.

Quick in effect, heals and leaves no scar. Burning, scaly skin eruptions quickly cured by DeWitt's Witch Hazel Salve. Applied to burns, scalds, old sores, it is magical in effect. Always cures piles. L. W. Randolph, 143 W. Front St.

BROAD TIRES FOR PRESERVATION.

Building Good Roads is One Thing. Preserving Them is Another.

To the Editor of The Daily Press:

A great deal has been said and written, first and last, upon the subject of good roads, but so far very little on that other quite as important point, viz: their protection. Union county was the pioneer in the construction and probably has the largest percentage of macadam roads of any county in the State of New Jersey, if not in the United States. It went heavily into debt to build them, greatly to the benefit of the public outside as well as inside its own borders. How important that benefit has been and still continues to be the following facts will partially indicate.

Before the time of macadam and under the old dirt road system, a ton of 2,000 pounds, was considered a fair average load for two horses, except during the rainy season, when an empty wagon of itself was a big load.

Now a consultation of the weighmasters books at the stone crushers and coal yards will show that the load ranges from 2 to 3½ tons. The compensation of the teamster is doubled or thribled during the season when all roads are good, and he is now enabled to have constant employment, whereas before the time of macadam roads he was obliged on account of impassible roads to lose much time every year, when his team stood in the stable, "eating off their heads," and he was loafing at the store or what was worse, the saloon.

The man of moderate means is not the only one benefitted, all classes come in for their share, not omitting the bicyclist and the "four hundred" with their tandem and four-in-hand. Everybody is happy and pleased till the tax bill comes around, the size of which makes some of the happy ones think that something must be done to protect and prolong the benefits. On that subject something may be said in the future and the burden of it will be "broad tires" for heavy loads.

Yours Respectfully
Thos. S. Young.

—The next lecture before the Monday Afternoon Club will be given February 3d by Rev. Mr. Hamlin, of Columbia College, on "Architecture in Florence."

—Fanwood borough has asked the co-operation of Westfield in the passage of an ordinance relating to the use of broad tires on heavy wagons. The object is to preserve the macadam roads.

CAMPOS' FLAT FAILURE

Cuba Now Swarming with Insurgents.

Rapid Spread of the Insurrection While He Was in Command—Hard Task for His Successor—Rebels Only Expect To Extinguish Spain's Resources.

Havana, Jan. 18, via Tampa, Fla., Jan. 21.—Great have been the changes of a few days in Cuba. Barely two weeks ago all Havana was at Gen. Campos' feet protesting absolute confidence in him and urging him to continue at the head of the government of the island and command of the army. He had begun to realize the failure of his campaign and had cabled the home government offering to hand the leadership over to another and fight in the ranks. The home government and the three parties here were united in asking him to stay. Now two of those parties have protested against him and the government has turned him down. After a brilliant record of a lifetime Campos goes back to Spain a disappointed man. His successor will have no easy task. I was present when Campos arrived from Spain last April and disembarked at Santiago de Cuba. He then had about 25,000 regular troops ready for service and the insurgents were a disorganized mob, mostly blacks, numbering not more than 3,000 and not one-half of that number armed with rifles.

Now Swarming with Rebels.

Campos announced his intention to make short work of the bands back in the mountains of the eastern district. Gomez, the two Maceos, and Marti had just landed with small expeditions and were talking of moving west and invading Camaguey. Now Campos goes back to Spain and leaves his successor with bands of rebels moving apparently at will through the interior of the island from one end to the other and their numbers cannot be estimated with any accuracy. Those not in arms are so strong in their sympathies that almost every born Cuban can be classed as a rebel at heart. What is called the army of liberation is now ably commanded, has some pretense of discipline, and is for the most part armed and equipped with rifles and ammunition taken from either the Spanish regulars or volunteers.

To Extinguish Spain's Resources.

It fights only a guerrilla warfare, but it preserves itself from annihilation and Spain certainly has a big job to put it down. Cubans tell me that they do not expect to defeat and crush the Spanish army, but that they hope to extinguish Spain's resources and bring her to terms. Gomez and Maceo are still operating near Havana and say they are to make the war in this part of the island. The rebel army of the east is on the border of Matanzas, and will soon unite with the other forces. Should any detached portions of the Spanish army get mixed up with these wings of the rebel army there may be a genuine battle, but otherwise the operations of the future will follow the lines of those in the past.

J. FRANK CLARK.

Campos' Departure from Havana.

Havana, Jan. 21.—The departure of Gen. Campos from Havana has quickly followed his recall from the captain-generalship of this island. At 3 o'clock yesterday afternoon he left the captain-general's palace to go on board a steamer in the harbor. He was accompanied by Gen. Marin and other military and civil officials and by a governor's guard. The party proceeded on foot throught the streets to the mole, their route being lined by volunteers and regular troops. Arrived at the mole Gens. Campos, Marin and high military and civil officials embarked on the steamer Alfonso XIII., on which Gen. Campos will return to Spain. Much feeling was displayed as Gen. Campos bade farewell to those who had served under him. About 2,000 persons assembled at the mole to witness the departure of the retiring captain-general. There was no cheering, the crowd standing silent as Campos embarked. After he had gone many expressions of regret were heard. The warships in the harbor fired a salute as Gen. Campos boarded Alfonso XIII.

Favor Recognizing the Rebels.

Washington, Jan. 21.—The senate sub-committee on foreign relations, Senators Sherman, Morgan and Lodge, are a unit in their opinion as to what, under certain conditions, should be done in the Cuban matter. They are each in favor of the recognition of the insurgents as belligerents, but they have been unable to convince themselves that the time has come for such a resolution or that the insurgents have accomplished that which will justify the United States in taking such a step. Beyond this there is also the fact, which has been fully and carefully discussed, that the recognition of the insurgents is an act that belongs solely to the functions of the executive.

The Maryland Senatorship.

Annapolis, Md., Jan. 21.—The fifth joint ballot of the legislature for United States senator resulted as follows: Republicans — Wellington, 29; Westcott, 15; Mullikin, 8; Goldsborough, 22; Dixon, 2; Mudd, 1. Democrats—J. W. Smith, 8; John R. Patterson, 4.

International Arbitration.

London, Jan. 21.—Lord Playfair, who is prominently identified with the movement to establish a permanent board for international arbitration, had a long interview yesterdar with United States Ambassador Bayard.

THE EARTH GAVE WAY

Miraculous Escape of a Passenger Train.

A Brave Engineer, Who Himself Lost His Life, Prevents the Cars from Sinking Into a Coal Mine—Crushed Under His Overturned Engine—Fireman Fatally Injured.

Hazelton, Pa., Jan. 21.—A frightful catastrophe was narrowly averted on the Lehigh Valley railroad here last night. The Wilkesbarre express train approached Sugar Loaf, one mile east of here, just as the tracks began to sink into a coal mine. Engineer Michael Leonzer sized up the situation, and with great presence of mind put on a full head of steam. The earth dropped eight feet and there hung over the abyss. The engine then made the leap in safety, taking the train with it, but jumped the track on the outer edge. The engine then toppled over, pinning the brave engineer beneath it and crushing his life out. Fireman Fred Meyer sustained a fractured skull and may die. Brakeman Selwell was thrown through a window. All the passengers, about seventy-five in number, were badly shaken up, but, as far as can be learned, none were seriously injured. The earth has since dropped out of sight.

CUBANS LIKED CAMPOS.

His Retirement Will Probably Swell the Insurgents' Ranks.

New York, Jan. 21.—Passengers arriving per the Ward line steamer Vigilancia from Havana, were intensely integested when told that Campos had been recalled and succeeded in the command of the Spanish army in Cuba. Some of them were confident that the move was a good one for the insurgents because Campos, by his humane and considerate acts, had won for himself a genuine regard of many of the natives who on this account had been loath to join the ranks of the insurgents, although inclined to favor their cause. Now, however, that Campos was to be superceded no doubt many of these Cubans would declare themselves on the side of free Cuba rather than stand by the mother country in what was likely to be a bloody and cruel campaign.

Against the Fee System.

Washington, Jan. 21.—J. G. Cannon of Illinois, chairman of the committee on appropriations of the house of representatives, in his report on the urgency deficieney bill now pending before the house calls attention once more to the enormous expenses entailed by the fee system of paying United States commissioners, marshals, district attorneys and clerks.

Lord's Nomination Confirmed.

Albany, Jan. 21.—The nomination of G. P. Lord for civil service commissioner was unanimously confirmed by the senate last night. After Mr. Lord's nomination was sent in numerous complaints that he was not in sympathy with the working of the service led Gov. Morton to call on Mr. Lord to explain his position. This he did, refuting the charges.

Rolling Mill To Close Down.

Reading, Pa., Jan. 21.—The Brooks Iron company of Birdsboro have posted notices that the rolling mill, nail factory and minor departments will be closed down until February 1 and resumption may be postponed until April, depending altogether on the outlook of the iron trade.

May Play with Louisville.

New Haven, Conn., Jan. 21.—James E. Donnelly of New Haven, third baseman of the Springfield nine for two years, has received an offer from the Louisville team of the Nation league. He has sent on his terms, etc., and may sign.

Nat Goodwin Sues a Newspaper.

Chicago, Jan. 21.—Nat Goodwin has filed a suit against the Chicago Tribune for $60,000 damages for libel. The paper published a story to the effect that the comedian had gambled at faro and won $2,500 last Saturday night.

Sarah Bernhardt in Izeyl.

New York, Jan. 21.—Sarah Bernhardt appeared last night at Abbey's theatre in Sylvestre and Morand's drama Izeyl. Mme. Bernhardt was enthusiastically welcomed and frequently applauded by a very large audience

Murderer Hurd's Case.

Worcester, Mass., Public Buildings.

Washington, Jan. 21.—A. H. Kleinecke, Chicago, was the lowest bidder—$53,725—for completing the interior finish of the Worcester, Mass., public building.

Treasury Gold Reserve.

Washington, Jan. 21.—The treasury net gold reserve at the opening of business to-day stood at $53,402,160. The reported withdrawals yesterday were $189,000.

To Coach Harvard's Ball Team.

Boston, Jan. 21.—The Harvard baseball management has engaged T. J. Keefe, of the old New Yorks, as coach for the candidates.

England's Ashanti Campaign.

Cape Town, Jan. 21.—King Prempen will be brought to Cape Coast castle and held as a hostage.

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

A NEW STIMULANT.

Non-Intoxicating, Without Reaction.

You often need a stimulant to keep yourself going, to prevent your getting sick.

But a stimulant that makes you feel worse afterwards is worse than useless.

Following nature is the best way.

A pure, malted, unfermented beverage, like Malted-Koffee-Kola, is the only safe, certain and natural stimulant to take.

Malted-Koffee Kola is a Shaker non-intoxicating stimulant which cures nervousness, headache, neuralgia, indigestion, loss of appetite, low spirits, and the results of mental worry and overwork.

It is a wonderful builder for old people and convalescents.

Stimulants have been used in all ages. They are a necessity. But only food stimulants can give real strength without weakness.

Malted Koffee-Kola is a food stimulant.

It makes strength and keeps it. It creates lasting energy. It clears the brain and braces the body.

It is better than medicine; it is food. It is better than food; it is food stimulant.

Malt is nature's most concentrated, digestible and stimulating food.

Malted-Koffee-Kola is made of malted Caffea and malted Kola, and contains all the virtues of these plants as a perfectly harmless and health-giving stimulant.

Sold by druggists at $1.00 per bottle.

Use It in Time.

Catarrh starts in the nasal passages, affecting eyes, ears and throat, and is in fact, the great enemy of the mucous membrane. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucus discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears, and oftentimes a very offensive discharge. Ely's Cream Balm is the acknowledged cure of these troubles.

THE MONROE DOCTRINE

Discussion Over the Davis Rosolution Promised.

Senator Sewell's Antagonism May Pave the Way for Debate—Ambassador Bayard's Letters to Secretary Olney Regarding His Criticized Speeches Sent to the House.

Washington, Jan. 21.—Although there is little doubt that the senate will adopt the Davis resolution defining and confirming the Monroe doctrine as reported from the committee on foreign relations, the subject promises a source of more or less discussion before it is finally agreed to. Messrs. Wolcott and Daniels have signified their intention of addressing the senate on Mr. Sewell's resolution, which antagonizes the Davis resolution, next Thursday and this may open the way for a general discussion of the subject. Yesterday the decision of the committee as to the extent and meaning of the Monroe doctrine and as to its applicability to the Venezuelan dispute, was presented through Mr. Davis in the shape of a concurrent resolution. It makes both houses of congress reaffirm and confirm the Monroe doctrine and principles and declare that the United States shall deem any attempt by a European power to acquire new or additional territory on the American continents or adjacert islands or any easement in any interoceanic canal as dangerous to the peace and safety of the United States. One member of the committee on foreign relations, Mr. Gray, dem., Del., remarked that it was not the unanimous report of the committee. The concurrent resolution was placed on the calendar without discussion.

Sewell's Opposition.

The subject came up immediately afterwards in the shape of a resolution offered last week by Mr. Sewell, rep., N. J., limiting the application of the Monroe doctrine and condemning the Venezuelan message of President Cleveland as unwise and importune. Mr. Sewell addressed the senate in support of his resolution and argued that Mr. Cleveland's position was far in advance of what was contemplated in the Monroe doctrine and that the effect of it would be the establishment of a protectorate over Mexico and over each of the South American and Central American states. No progress was made upon the house bond bill with the free coinage substitute reported from the committee on finance. Mr. Jones, dem., Ark., who has charge of it, gave as a reason for not pushing it the fact that several senators who desired to speak upon it were not ready, but Mr. Hill, dem., N. Y., hinted that the vote was kept back until after the election of two senators from Utah. The Peffer funeral bill gave rise to some discussion and was disposed of by being referred to the committee on rules.

Bayard Correspondence.

The most interesting matter in the house was the president's message in response to the house resolution of inquiry relative to Ambassador Bayard's Edinburgh and Boston (England) speeches, with Secretary Olney's report thereon. The first letter was from Mr. Bayard to Secretary Olney, dated London, Dec. 21, in which he says he observes from the newspapers in England the action of the house of representatives looking to his impeachment, and he encloses a printed copy of the Edinburgh address. Mr. Bayard adds: "In the absence of precise information of the text of the resolution said to have been adopted by the house, and not proposing to anticipate the action of either or both houses of congress—yet observing that, in the course of the discussion reference was made to the personal instructions of the department of state to the diplomatic officers of the United States—I respectfully advert to article VII., and its sub-sections—in order that your attention may be drawn to the fact that the address in question was delivered before an institution purely literary and scientific in its character, and wholly unconnected with political parties—which had honored two of my official predecessors with similar invitations, which in both cases had been accepted; subjects political in their nature, "Democracy" and "The Law of the Land," having been respectively selected and treated with distingushed ability.

His Personal Opinions.

"No political canvass was pending or approaching in this country when my address was made, and no interference or participation in local or party political concerns in this country was therefore possible. The address consisted of my personal opinions upon government institutions in general—the moral force and tendencies which underlie them—and the government policies which assist in the conservation of the freedom of the individual as an essential integer of human progress and of the permanence of civilization. When the congress shall have concluded its action on the subject, it is possible that I may desire to submit a further statement—but, meanwhile, I consider it proper to place before you the address in full and the facts connected with its delivery."

No Prepared Speech.

Secretary Olney immediately on receipt of this cabled the ambassador on January 3 that the house resolution asked, not only whether the Edinburgh speech was made, but also whether in the Boston speech he used these words: "The president stood in the midst of a strong, self-confident and often times violent people—men who sought to have their own way. It took a real man to govern the people of the United States." Mr. Bayard wrote the following day confirming the statement. He said that his remarks at the Boston school were impromptu, that he went there without a note or prepared words of any kind. At a dinner which followed he explained his remarks as follows: "There were toasts and responses, and I responded to the health of the president of the United States, and subsequently to a toast to myself. So far as I was concerned, everything was impromptu, and a kindly, humorous, post-prandial tone prevailed. It seems a reporter was present, but I did not see him, nor did I know that any report had been made until the local newspaper was sent to me a few days after in London. I sent a copy to Mr. Cleveland, because the report contained a kindly reference to the family home circle of the president. And as I have grandchildren in Boston, Mass., I sent a copy into the household. This was the exent of 'publication' in the United States of which I have any knowledge."

England Tired of "Flaunting."

London, Jan. 21.—The Globe, commenting on the resolution supporting the Monroe doctrine adopted by the foreign relations committee of the United States senate, says that the people of Great Britain will not stand much more flaunting from anybody. It attributes the action of the committee to a desire to pander to the Irish voters, and says the members of the committee may find themselves facing an appalling situation.

SKELETONS IN A COLLERY.

Wilkesbarre Officials Will Investigate a Rumor.

Wilkesbarre, Pa., Jan. 21.—A rumor has been started here to the effect that three skeletons have been discovered in the old workings of the Diamond mines formerly operated by the Lehigh & Wilkesbarre Coal company, though idle for the past ten years. Supt. Morgan will send a party of miners into the workings to-day and if the skeletons are found they will be brought to the surface. The rumor started from a statement made by Pete Wassil, who is now in prison for shooting Krupsavage at Georgetown last week, in which he claims that he had killed a man some months before and hurled his dead body down the deep shaft of the Diamond mine. If there are any skeletons in the shaft they are probably those of foreigners who were murdered for their savings and their bodies hidden in the dark recesses of the mine. District Attorney Foll has been notified and with the aid of the county detective the matter is to be thoroughly sifted.

Dined by Gen. Harmon.

Washington, Jan. 21.—The attorney general gave a dinner last night at which the following named guests were present: The Postmaster General and Mrs. Wilson, the Brazilian Minister and Mrs. Mendonca, the Mexican Minister and Madame Romero, the Guatemalean Minister and Madame Arriaga, Senator and Mrs. John B. Henderson, Mr. and Mrs. Bowler, the Attorney General and Mrs. Harmon.

Heavy Sentences for Highwaymen.

Baltimore, Jan. 21.—Raymond Elroy and James E. Morse, the alleged highwaymen recently arrested in New York charged with "holding up" the inmates of a saloon in Harlem and killing a man named Pope, but on whom the New York police could not fasten the crime, were yesterday sentenced to ten years in the penitentiary for highway robbery in the western annex.

Site for the Sherman Statue.

Washington, Jan. 21.—The select commission consisting of Secretary Lamont, Gen. Miles and Gen. Dodge has agreed upon a site for the location of the statue of Gen. Sherman. It is just south of the treasury building and is in a direct line with Pennsylvania avenue and the statue will be in full view from the capitol.

New Court of Appeals Judge.

Baltimore, Jan. 21.—Gov. Lowndes will, to-day or to-morrow, send to the senate the name of George M. Russam for judge of the court of appeals, vice Judge Robinson, deceased. The new chief judge of the court of appeals will not be announced until later in the week.

ITS DESTINATION UNKNOWN.

Olney Has Made No Inquiry Regarding the Flying Squadron.

London, Jan. 21.—The United Press has the authority of the admiralty for the statement that no information whatever regarding where the flying squadron is going or where it is not going has been given to anybody. The London papers this morning print the following communication, which was issued to them by the foreign office: "With reference to a report from Washington of alleged telegraphic correspondence between United States Secretary of State Olney and Lord Salisbury respecting the movements of the British fleet, we are officially informed that no communication has passed between her majesty's government and the government of the United States upon any naval question."

ALLEGED OUTRAGES AT VAN.

Turkish Officials Deny the Story Sent Out by Miss Grace Kimball.

Washington, Jan. 21.—The Turkish legation has received from the sublime porte the following telegram under yesterday's date: "Please to contradict most emphatically the absurd assertions concerning a supposed destruction of five hundred Christian villages and towns out of five hundred and fifty in the province of Van, and a forced conversion to Islamism of Armenians, as alleged in a letter written by the American missionary, Miss Grace Kimball of Van to the president of a relief committee of New York, and given out to the press by the latter."

FRANK LAWLOR'S FUNERAL.

The Largest Seen in Chicago Since the Burial of Carter Harrison.

Chicago, Jan. 21.—The burial of the Hon. Frank Lawlor yesterday afternoon was accompanied by the largest popular and official demonstration of a civic character since the funeral of Carter Harrison. Thousands came to the humble family home and to the church on foot and in carriages, at least 20,000 people assembling on the streets. In the funeral cortege were 300 carriages, six being loaded with floral offerings.

EARLY INTELLIGENCE

—The next Assembly will be held Monday evening at the Casino.

—A Welsh rarebit supper will be given in the parish building of the Grace P. E. church on Thursday night by the guild of the church.

—A number of Plainfielders will visit Proctor's in New York this week to see George Thatcher in his monologue act. He was rousingly received at the Pleasure Palace last night.

—Ex-City Surveyor Frank Marsh, of Rahway, began yesterday morning the preliminary survey for a new road that is to be constructed at Iselin three miles from Rahway, and will, when finished, form a connecting link of the road from Rahway to New Brunswick. This road at present runs alongside the Pennsylvania Railroad for some miles, and the object is to move it away from such close proximity to the railroad to a point further west. A syndicate that wants to boom real estate at Iselin and vicinity is back of the scheme.

At the Opera.

Quite a number of Plainfield people attended the representation of "Faust" at the Metropolitan Opera House last Saturday. Among those that attended were Mr. and Mrs. C. W. McCutchen, Dr. F. C. Ard, Miss Haviland, Mrs. B. A. Hegeman, Jr., Miss Emily Tracy, Miss Lillian Erskine and Miss Durand.

A Sudden Plunge Into Darkness.

The main fuse in the electric lighting lighting system at the Y. M. C. A. building burnt out last evening in the middle of the Choral Society rehearsal. Another fuse lasted twenty minutes more. Extra heavy ones were put in after the last.

Slippery Streets.

A horse attached to one of Patterson Brothers' wagons slipped on the ice in front of their store on West Front street yesterday morning and fell. It was necessary to unharness the horse before it could rise.

Mrs. Lemuel William Serrell, of Crescent avenue, gave a "tea" at the Twelfth Night Club, New York, on Monday, January 20th, to her New York friends only. About two hundred guests were present.

Dr. E. W. Hedges assisted by Drs. Murray, Probasco and Carman, performed an operation on Harry Flannery, of Scotch Plains, today at the hospital. He was suffering with appendicitis, and the operation was very successful.

A $3,000,000 BEQUEST.

Will of Mrs. Anna R. Aspinwall of Philadelphia.

Pittsburg, Jan. 21.—The will of Mrs. Anna R. Aspinwall, who died recently in Edinburgh, Scotland, has been filed in the county court here. With the exception of a few paintings donated to the Academy of Fine Arts in Philadelphia, she bequeaths her entire fortune, estimated at $3,000,000, to the hospital of the Protestant Episcopal church, Philadelphia. The will will be contested by a niece of the deceased, Miss Dellafield of this city.

Assessments in Connecticut.

New Haven, Conn., Jan. 21.—Judge Thayer in the superior court of this state has decided, in a New Britain case, that a taxpayer cannot set up as ground for a reduction of assessment the habit of a local board of assessors of fixing property at a certain fractional part of its value. He holds that under the law property must go in at its full market value.

Charles B. Elliott Dead.

New York, Jan. 21.—Charles B. Elliott died at the Gravesend race track yesterday, from heart disease, aged 67 years. Thirty-four years ago he began the building of rowing shells and was the first to adopt the sliding seat and other improvements. He built shells for Yale, Harvard and other colleges. He accompanied the Harvard crew to

The wonderful cures that have been effected at Hot Springs, Arkansas, by its world-famed healing waters are truly miraculous. They almost require ocular evidence to be credited. Thousands and tens of thousands of patients who, from all sections of the world, have there been cured of rheumatism, gout, scrofula, paralysis, acquired or hereditary; blood poisons and all other diseases arising from an impure state or low condition of the blood, are living testimonials of its value.

If people cannot go to Hot Springs, Arkansas, they can now have this same treatment at their homes for $1 per bottle by asking their druggist for "Pura Blood," which contain the celebrated curative waters of Hot Springs, Arkansas, under grant from the United States Government. Physicians indorse "Pura Blood." Billups & Co., of 26 Cortlandt st., New York, are sole agents, and will send descriptive book free to any address.

MOUNTAIN SKETCHES

A PICNIC THAT WAS DECLARED A POWERFUL SUCCESS.

It Was Attended by Farmers, and Up to Three o'Clock Everything Would Be Lovely—The Man Who Told About It Didn't Mix In.

About 10 o'clock in the forenoon I reached a mountaineer's cabin and found the old man cleaning a long barreled gun at the door.

"Many bears about?" I inquired.

"Not a b'ar, stranger. I'm gittin ready to attend a farmers' picnic at Glen Cove."

Half a mile farther on I met a man with a rifle on his shoulder, and after the usual salutation I queried:

"Good hunting about here?"

"Nuthin 'tall, stranger. I'm a-takin this gun to be fixed. I reckon I'll drap down to the farmers' picnic at Glen Cove tomorrer."

Half an hour later I arrived at a crossroads where there was a general store, and a man sat on the platform, tinkering with the lock of a shotgun, while two or three others were buying powder and shot inside.

"Is there going to be a shooting match around here today?" I asked the storekeeper as he weighed out my cheese and crackers.

"Reckon not. Leastwise I haven't heard of anything of the sort. The folks is jest gettin ready for the farmers' picnic at Glen Cove tomorrer."

I didn't feel like going into particulars just yet, but at 1 o'clock, when I stopped at a comfortable looking cabin to make some inquiries about the road and found an old man oiling up an army carbine and his son molding bullets for an old fashioned revolver, I asked:

"Are you getting ready for the farmers' picnic at Glen Cove?"

"Exactly, stranger," replied the old man.

"I have noticed so many men cleaning up their guns for this picnic that I want to ask you if it will be different from the ordinary picnic?"

"How d'ye mean?"

"Why, a farmers' picnic, as I understand it, is a gathering of farmers and their wives and children in a grove. Each family brings its lunch, and they eat, drink and make merry. Isn't that your sort of picnic?"

"Waal, mostly, but not quite. Everything will go off like yo' say up to about 3 o'clock in the arternoon. Then that ar' Tom Morrison will suddenly remember that that ar' Bill Turk he cheated him on a mewl trade. Jest about that time old man Skinner will reckolect that his son Sam was killed by the Thompson boys, and Dave White will git to rememberin that Hank Trueman beat him on a lawsuit. Shouldn't a mite wonder if them five Henderson boys didn't reckon it was a right smart chance to wipe out the Colgates. May go off like a prayer meetin, but I reckon it's best to be on the safe side."

I encountered seven or eight more men that afternoon who were getting ready for the picnic, and the day after I fell in with a farmer who was there.

"I can't jest tell yo' all the pertick'lers," he replied to my inquiry. "The shootin began about 3 o'clock, and when I cum away I reckon thar was four or five dead and seven or eight wounded. It's likely they piled up some mo' arter I left!"

"So you didn't mix in?"

"No. I 'lowed I would and was all ready to when my son Tom was shot in the back, and I had to load him up and tote him hum. Kinder sorry I couldn't stay. They do declar' that ar' picnic was a powerful success!"

He Was Brought Low.

Away up on the crest of the Cumberland range I sat talking and smoking with a mountaineer in front of his cabin after the humble meal called supper, when a "native" came down the trail on a mule and halted to say:

"Howdy, Dan? Folks all peart?"

"Yes, rather peartish," was the reply.

"Got a Bible yit?"

"Noap."

"I'm a-sellin Bibles fur $1 now."

"Hain't got no $1 to buy with."

"Shoo! Say, Dan Hawkins, yo' orter hev a Bible in the house. It's monstrous like a heathen not to hev a Bible. Yo' jess orter be ashamed of yo'self!"

"I reckon I kin git along."

The man on the mule was a combination of preacher, circuit rider and colporteur, and he seemed considerably chagrined at not making a sale. He presently got off his mule and began to take off his coat, and then mine host inquired:

"What yo' gwine to do, Tom?"

"Look a-yere, Dan Hawkins, yo' has gin out that no man in this country has ever laid yo' on yo'r back!"

"That's true."

"If I lay yo' thar, will yo' buy a Bible?"

"I will."

"Then, with the help o' the Lord, I'm goin to do it! The Scriptur' says that the stiff necked and high headed must be brought low, and that's whar I'm goin to bring yo'. Come out yere and be laid!"

"Tom, yo' can't do it—can't do it nohow!" replied the settler as he rose up and prepared for the conflict.

"I've got to, Dan," said the preacher as he pulled off his vest. "I'm commanded by the Lord to sell yo' a Bible, and the Lord will strengthen my arms to lay yo' flat!"

They dodged around for a minute, looking for an opening, and then the preacher suddenly rushed in and got a back hold, and Dan didn't last 15 seconds under the strain. It was a fair fall, and as he rose up he took a silver dollar from his pocket and handed it out in exchange for a Bible.

"Didn't I say the Lord would help me?" asked the preacher as he mounted his mule to ride on.

"Yes, but it wasn't quite fa'r!"

Mr. L. C. Griffith, Carversville, Pa., says: "I was troubled with heart disease for years, and at times had spells when I was like one dead, would sink away and become cold, helpless and unconscious. Two years ago I had erysipelas, and this was followed by a severe form of rheumatism which spread to all parts of my body. I could scarcely walk, my hands were so drawn out of shape that I could not use them and I was almost a helpless cripple when I began taking Munyon's Rheumatism Cure. Our home physician had treated me for months without relieving me, but in five days after beginning Munyon's Pills I could walk around and now I am perfectly well. Munyon's Rheumatism Cure has made a complete and wonderful cure of all my troubles."

Analysis of Peanut Oil.

One of the most interesting discoveries which we have made is a characteristic test for peanut oil as distinguished from cotton and olive oils. When these oils are dissolved in equal volumes of petroleum and treated with a few drops of sulphuric acid of 1.635 gravity and thoroughly shaken, the ether solution of peanut oil becomes a magnificent red wine color, while the ether oils remain either colorless or become slightly brown. We have not applied this test to all vegetable oils, but it is completely characteristic of peanut oil as compared with the two mentioned. This reaction is entirely new and will become without doubt a standard one for distinguishing between the oils in question.—Richmond Dispatch.

Virginia is becoming important as a manufacturing state, having 59,591 manufacturing hands, who make a product valued at $88,363,824.

"I would die for you!" passionately exclaimed the rich old suitor, and the practical girl calmly asked him, "How soon?"

It Costs Little and Does Much.

Remark when you attend a play or concert how many people disturb the performance by coughing. One man begins and the cough seems to be contagious. The interruption is a great nuisance, and there is no need of it, for any one may cure a cough with the Pineola Balsam, which costs 25c. It soothes the inflammation in the throat and loosens the mucus which clogs the air passages. A few doses of Ely's Pineola Balsam stop a cough and heal a sore throat.

It not only is so, it must be so, One Minute Cough Cure acts quickly, and that's what makes it go. L. W. Randolph, 143 W. Front St.

MORE LECTURES TO COME

DR. RIGGS SO SUCCESSFUL THAT HIS TALKS WILL BECOME PERMANENT.

His Address Last Night Was on the English Power in India and the Sepoy Rebellion—The Conditions Thereof

"English power in India, and the Sepoy Rebellion," was the topic of the lecture delivered last night by Dr. James F. Riggs in the chapel of the Crescent Avenue church. There are three lectures still to be given in the University Extension course on the Eastern Question, and there is talk of forming a permanent organization for the purpose of continuing the plan which has been found so successful and helpful.

Dr. Riggs began his lecture by telling of the condition of India at the beginning of the rule of the East India Company; utterly different customs and languages prevailing in different parts of the country, the caste spirit very strong, and the Mohammedans and Hindoos strongly opposed to one another. In addition to the English troops under the control of the East India Company, they maintained a number of regiments consisting of natives, officered by Englishmen. These were known as Sepoy regiments. The men who commanded these regiments knew little of Eastern ways, and had no sympathy with their men, who served merely for pay. They resented the entrance of the English, and looked longingly back at the time of the empire of the Great Moguls. The immediate occasion of the mutiny was the arrival of a consignment of English rifles.

The men were obliged to bite the ends from the cartridges before using them, and the idea became current among the Sepoys that they were greased with a mixture of hog's grease and beef suet. This was against the religious principles of both Mohammedans and Hindoos. May 10, 1857, there was a general outbreak. The English officers had no control over their native troops, who shot down men, women and children alike. Then followed forty-eight days of unstrained violence. Through the prompt and vigorous action of Sir John Lawrence, Lahore was saved from the rebels, but at Cawnpore a horrible tragedy was enacted, the wives and daughters of the Englishmen being massacred in a manner almost too shocking to be believed. General Havelock and his devoted men arrived just twenty four hours too late. At Lucknow, in the meantime, Sir Henry Lawrence was endeavoring, for five dreadful months, to hold the Residency against the enemy. General Havelock and Sir Colin Campbell marched to his relief, but they were obliged to evacuate the Residency. Later, however, the city was retaken. The rebels found themselves beaten at every point by an English force far inferior in numbers, and all at once there was a general collapse of the rebellion. And nearly every Sepoy now insisted that he had been friendly to the English all the time.

The English government now abolished the East India Company, and the Queen became the direct sovereign, under the title of "Empress of India." It is to be hoped that the now enlightened policy now pursued by the English will prevent another such outbreak from ever taking place.

Well-known Hackman Dead.

James McCormick, the well known hackman, died last evening at his home on Linden avenue, from a complication of diseases, which date back to September last. He had been driving a hack for the past fifteen years, during which time he was employed by Dunster & Son, and Blair & Day. He was about forty years of age and leaves a wife and four children.

Little Tots Who Were Killed.

The names of the two Hungarian boys who were killed by the Central train at Bound Brook yesterday morning were Mike Jacob, jr., aged three years and six months, and Mike Anyzelik, aged four years and three days. County Physician Wagener granted a burial permit.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

MRS. HALL'S LECTURES.

The Talented Plainfield Woman to Talk in the New England States.

Mrs. Florence Howe Hall will deliver a series of lectures in Boston and vicinity, beginning with Attleboro, where she will read "Personal Reminiscences of Distinguished People" before the new Round Table Club. On March 25th she will give the same lecture at Manchester, N. H., to the Ladies' Benevolent Society. On March 27th she will read an essay, prepared especially for the purpose, before the Metaphysical Club, of Boston. Her lecture on "The Political Position of Women in England" is of special interest now. Her other lectures are: Ceremonial and Social Observances of Primitive Peoples; Pageants and Ceremonials of Ancient Times; Social Usages; One Hundred and One Mistakes; The English Language as it is Spoken in the Best Society; The Art of Conversation; The Civilized Man and the Savage; Whittier and the Anti-Slavery Period; Gen. Francis Marion and the Huguenots of South Carolina; The Influence of the Press on Manners and Morals; Byron and the Heroes of the Greek Revolution; Personal Reminiscences of Distinguished People; The Kindergarten, its True Aim and Scope; Equal Rights; Recent Objections Answered; The Political Position of Women in England; The Judgment of Minerva, (A Farce.)

MR. PITNEY INDIGNANT.

Accuses a Lawyer of Criminal Abuse of Confidence.

Vice-Chancellor Pitney in Chancery Chambers in Jersey City yesterday criticised Counsellor George H. Bruce, of Cranford, for alleged unprofesional conduct. It was during the hearing of a case in which Counsellor Bruce formerly figured as counsel for the defendants. The parties to the suit, which was for the foreclosure of a mortgage, were Robert S. Blanc, as administrator of the estate of the late Mary Baker, plaintiff, and Jennie S. Mead and Frank Mead, defendants.

Counsellor Carrick, in his argentum for the plaintiff, produced a letter from Mrs. Mead to Counsellor Bruce in which she confessed that the case was against her.

"Where did you get that letter?" inquired the Vice-Chancellor.

Counsellor Carrick said Counsellor Bruce gave it to him after he had been retained as counsel for the Meads.

"I never heard of such conduct," declared the Vice-Chancellor. "A lawyer betraying the confidence reposed in him by his client! This is scandalous.

High School Notes.

The regular meeting of the Kappa Delta Phi Society will be held Friday afternoon, January 24th, at 3 o'clock sharp. The programme will be extemporaneous speeches by the members upon the government, habits and social life of the people of the different nations of the globe.

The military company will soon take up the drill as regular work in the Columbia Cycle Academy, which has been obtained for that purpose. This year particular attention will be given to the study of the manual of arms. The boys are greatly pleased with the prospects of drilling this year during the cold and disagreeable weather in a closed and warmed place.

The Junior class have been granted three days of grace in which to finish the compositions which were due on Wednesday of this week.

Death of Mrs. Moore.

Mrs. Moore, aged eighty-one years, and widow of the late William R. Moore, died at the home of her daughter, Mrs. David Ryno, last evening about 7:30. Her advanced age, and a general breaking down seemed to have been the cause of death. Mrs. Moore was very well-known in this city and has for years resided with her daughter. She posessed many excellent qualities and was a thorough Christian. Notice of funeral will be given later.

After Event of Confusion.

An enjoyable evening was spent at the Plainfield Catholic Club house last evening by the actors that took part in the comedy, "Confusion," the committee in charge of the play, and the choir. After a bountiful repast, the rest of the evening passed very pleasantly with recitations, songs and dancing. About twenty-eight were present. Prof. O'Reilly furnished the music.

—It is desired that all who are indebted to the Firemen's Fair committee to please remit the amount due to A. Saltzman, treasurer, by Thursday night, as the committee wishes to settle up all business by then.

DELICIOUS THINGS TO EAT

PREPARED AND SERVED BY PRETTY AND PLEASANT YOUNG WOMEN.

Attractions in the Window Were Just an Inkling of What Was Inside in the Line of Things to Satisfy the Inner Man—Workers

It is not an uncommon thing in New York to see pancakes baked in the window of a restaurant, but it is a novel sight for Plainfield, and the novelty of it attracted many to the oyster, waffle, and welsh rarebit supper that the Dorcas Circle of King's Daughters gave in the Hart building on Park avenue last night. When the stranger ventured inside the door there was no use of trying to escape until he had purchased his supper there. Japanese screens separated the kitchen from the supper room, and in the latter were five tables, pleasing to the eye with their covering of spotless linen and silver and china dishes. Each table was presided over by two young ladies. Mrs. Samuel Clark and Miss Pangborn were in charge of one, another was under the supervision of Miss Ethel Green and Miss Alice Haynes, while Miss Lulu French and Miss Arline Crane were waitresses at a third. The fourth was looked after by Miss Elizabeth Cornwell and Miss Langdon, and the other was under the charge of Miss Etta Blish and Miss Little.

The room itself presented a very pretty appearance. Red and white bunting was draped and festooned in an artistic manner about the sides of the room, while a bunch of streamers from the corners of the room met in the centre of the ceiling. Parlor lamps were placed around the sides of the room and cast a soft radiance on the interior, while the electric lights, softened by pink shades, added to the artistic effect.

The decorating of the room was done under the charge of a committee composed of Miss Louise Pangborn, Mrs. Samuel Clark and Mrs. Harry Lowrie.

In one of the windows was a pancake griddle, heated by gas, and here Miss Nellie Langdon, in cap and apron, turned and re-turned the cakes. A fortune-teller's tent occupied the other window and a beautiful Gypsy maiden, impersonated by Miss Clara Woltmann, told fortunes in a most scientific and up-to-date manner.

The feature of the supper was, of course, the good things which were cooked by the young ladies themselves and the verdict of all was that they were simply delicious, especially the waffles. In the kitchen, where they were prepared, Miss Maud Lowrie exercised general control, assisted by Miss Landon, Mrs. Harry Lowrie and Miss Brown. The delicious Welsh rarebits were prepared by the experienced hand of Mrs. Charles Lyman. Creamed oysters were successfully looked after by Miss Langdon and Miss Bowers.

The supper was a great success, financially as well as socially, and Miss French, the cashier, was kept busy most of the evening. All the returns have not yet been made, but already the receipts far exceed the expenses.

An Entertainment Arranged.

The members of John Hand Camp, No. 28, S. of V., at their meeting last evening, decided to hold an entertainment Wednesday evening, February 12th, in honor of Lincoln's birthday. It will be held in their rooms and invitations have been sent to both G. A. R. Posts and the Woman's Relief Corps to attend. Captain Willard S. Sutton installed Fred Sutton as Quartermaster and Arthur Drake as Principal Musician, last evening. The meeting was well attended and the new officers assumed their several positions with credit. By vote, the Camp joined the Death Benefit Association and will at once become members.

The Junior Promenade

This week is one of the all important ones in society life at Yale as the great event of the year, the junior promenade, takes place during the week. Those that went from Plainfield to New Haven to spend the week are Mrs. F. H. Andrews, Miss Gertrude Andrews, Mrs. C. F. Abbott, Miss Florence Abbott, and Miss Florence Waring.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

IMPERIAL OF THE C. B. C.

A BOROUGHITE'S SOLILOQUY ABOUT THE PROPOSED CONSOLIDATION

A Man Has But to Meet the Invincible Newt. Spencer and His Favoritism for the Consolidation is Soon Dispelled.

To the Editor of The Daily Press:—I am in favor of annexation to Plainfield. Anything to escape from the iron rule and terror of Boss Spencer and the Cracker Barrel Club. Even the brainy and polished Reed, of the Park Club, bends and fawns, for votes, before Spencer, the Affable. Doud of sound, hard sense, Goodwin, the Jolly, Buell, the Genius, and the gay and bright band of followers—notwithstanding trousers bagging at the knees.

What I want, is low voiced, refined officials, neatly and stylishly dressed—pants creased with a mathematical nicety.

The city of Plainfield furnishes just the kind—civil engineers—even if they don't know how to build sewer beds.

The Cracker Bar Club do not underestimate the great force of my influence in this community.

The members know I am in favor of annexation. They wish to win my support—harsh, cruel office-holders opposing the intelligence of the age.

Note their treatment of me. Citizens arouse yourselves!!!

Whenever I enter the headquarters of the "C. B. C." the High and Mighty Spencer hands me a cigar, Doud dilates on manhole covers without ventilators, Goodwin mentions the North Avenue sewer, Buell speaks of annexation as a scheme for the vicious Democratic party, and the rest tell me I am willing to sell my home and country.

In reply to their various appeals I say: "Let us join the city and pay high tribute, in taxes or sentiments, or both, to Plainfield's brilliant banker-mayor and dazzingly scientific officials—go and see the sewer beds." Then we all join hands and sing "Hail to the Chief!" the Honorable Peter Emmons enters the door; contention stops and the "C. B. C." adjourns with a round of jolly good fellowship.

I no longer favor annexation. I was born in Somerset county and hope to die there. Yours truly.

Chatham Lochinvar.

MISSION WORKERS CONVENE.

A Brief Conference Being Held in Grace P. E. Church Today.

The Woman's Auxiliary to the Board of Missions of the Upper Division of the State of New Jersey met this morning at 11 o'clock in the Grace P. E. church. There were about two hundred delegates present. Rev. E. M. Rodman, rector of the church called the meeting to order and introduced Miss Emery, the general secretary of the Auxiliary, who gave a very interesting talk on missions. An adjournment was then made to the chapel for lunch.

The afternoon session was called at 1:30 when the delegates had the pleasure of listening to an address by Mrs. Sybil Carter, of New York, who told of her grand work among the Indians.

The meeting closed at 3 o'clock. Those who assisted in entertaining include Mrs. D. T. VanBuren, Mrs. J. W. Rhinehart, Mrs. E. T. VanBuren, Mrs. L. G. Timpson, Miss Betts, Mrs. Gilford Mayer and Miss Crane.

State Convention of the Y. M. C. A.

The twenty-seventh annual State convention of the Young Men's Christian Association will be held in Jersey City on February 13th, 14th, 15th and 16th. A large number of delegates are expected and elaborate arrangements have been made to receive them. The programme is of unusual merit.

Instead of each association in the State making a separate report, Wm. D. Murray, of this city, will combine them and give one joint report of all the associations.

Y. M. C. A. Entertainment Postponed.

On account of the evangelistic meetings that are being held in this city, the next entertainment in the Y. M. C. A. Star Course has been postponed. The Amphion Ladies' Quartette was to have appeared here on January 27th, but will now come on some date in March instead.

Scotch Plains.

Goodwill Lodge, No. 101, Knights of Pythias, meet tomorrow night.

Harry Flannery is doing very well at Muhlenberg Hospital after the operation which was performed on him yesterday.

—I. Jones was taken to the hospital yesterday, where he was treated for a wound on his foot which was cut by an ax.

LITTLE LEGISLATION SO FAR.

The Senate Receives a Few Bills—The House at Once Adjourns.

Both houses of the Legislature at Trenton adjourned yesterday afternoon until next Monday night. They convened immediately after the parade of the Rupublican clubs and were in session only a few minutes. The House did no business whatever. In the Senate during the morning session four bills were introduced.

Senator Voorhees presented in behalf of George B. Chicknor, of Somerville, an engraving of the "State Senate of 1859," and moved the adoption of a resolution thanking Mr. Chicknor for the gift, and ordering that the engraving be framed and hung on the Senate walls. The resolution was adopted.

Bill No. 1, introduced by Senator Voorhees, was advanced to second reading. The object of the bill, as explained by the Senator, is to simplify the wording of enactments, and Arabic numbers will hereafter be used to designate titles of bills instead of Roman numbers, and certain unnecessary verbiage will be omitted, so as to make the principal words of a section follow immediately after the section number.

The railroad taxation bill, introduced by Assemblyman Queen Monday night, stands little chance of enactment with this Legislature. Unless Mr. Queen makes a vigorous and able fight it may not even come out of committee.

REVIVAL NOTES.

Incidents of the Campaign of Christianity Now Going On.

The after meeting last evening was under the lead of F. H. Andrews, and was one of great interest. Mr. Andrews urged upon Christians to take an increasingly active part in the services, and seize upon every opportunity of inviting others. He said that he feared many in the churches are more or less backslidden, and besought any such to reconsecrate themselves to God. He hoped the laymen would feel that this work belonged to them as well as to the ministers. Deep feeling was manifested, at least two hundred rose to pledge themselves for work, and one man asked for the prayers of the church for his conversion.

The mothers' meeting yesterday afternoon was an occasion of deep interest. In response to request another will be held tomorrow, at 3 p. m. in Vincent chapel, led by Dr. Lewis.

Last evening Mr. Andrews used this illustration. "If you see a man who has been poisoned, and you have an antidote, but stand by and let the man die without offering it to him, you would be judged as guilty of murder. What shall be thought of the Christian, who having the gospel, makes no offer of it to his fellow-man poisoned by sin."

Mrs. Elwell's Lectures.

The second of the course of lectures by Mrs. Maria Huntington Elwell was given to a large and appreciative audience in Mrs. Kirtland Meyer's parlors yesterday afternoon at four o'clock.

Mrs. Elwell's subject was "Lowell as Known by His Letters." A sketch of the poet's life was the thread on which were strung pearls from his correspondence revealing his tenderness and truth, his courage and his boyishness, his humor and his modesty, his reverance and his faith. The great author was presented not only in the light of poet and man of letters, but as a statesman, diplomatist and patriot, Lowell was shown to be a symmetrical and commanding figure.

Mrs. Elwell's next and final lecture of this course will be at the same time and place next Tuesday, and her subject will be the "Ethics of Shakespere, as illustrated by Lear.

Trains Direct to Newark.

There is a strong probability that in the near future the Central Railroad will run a train direct from Plainfield through to Newark to accommodate the many commuters to that city. It is now necessary to make a change at Elizabethport.

Metuchen Postmastership.

The term of Charles Ayres as postmaster of Metuchen, expires in April and his successor is already mentioned. It is expected that Nathan Robins will succeed the present postmaster.—New Brunswick Times.

Plainfield's Evangelist.

Rev. Arthur Crane, of Carleton avenue, left Monday afternoon for Franklin, N. H., where he will conduct a series of revival services.

HOLD ON ETERNAL LIFE.

IT HAS MUCH TO DO WITH YOUR EXISTENCE OF TODAY.

Rev. C. L. Goodrich Delivers an Enthusiastic Appeal to All People to Live Better Lives—Interest Continues.

There was an evident deep interest in the revival service at the Methodist church last evening. The opening prayer was offered by Dr. Barnes. Rev. C. L. Goodrich then read the tenth chapter of the Gospel of John, beginning at the seventeenth verse.

A portion of his remarks follow: What a significant word "life" is. It is a most fascinating study, of interest to all men. Life, with all its cares, troubles, hopes, defeats, aspirations and encouragements, is a wonderful study. It deals with all kinds of men and women, and my chief wish is to bring to you an important theme. Jesus Christ says He came to bring life. No other teacher has claimed this, but there is still something better, it is eternal life. My text is first Timothy, 6:12—"Lay Hold on Eternal Life." What is eternal life? You don't want to think it is something for the hereafter. To know God is life eternal. When Admiral Farragut was at Mobile Bay he was perplexed, not knowing whether to go ahead or not. He prayed to God for help, and immediately he heard a still small voice telling him to go forth. He obeyed and won a victory. A young girl who had been naturally fretful and impatient, was converted, and everything seemed so different to her.

The circumstances at home were the same, but she was changed. A boy giving his heart to God becomes in reality another boy. He has eternal life. There are learned graduates of our universities who have said you cannot know God, and yet there are scholars in our primary and grammar schools who know better.

Death comes, what then? We want to live on, but not in misery. Does anyone know what will happen after death? We are sure of one thing and that is when we come to die we will wish that we laid hold on eternal life. I once read of a miser who had died and was afterward found clutching a bag of money, trying to take it with him. A dying girl's request was that her hair be not disturbed, and after death a large amount of money was discovered in her hair. It was impossible for her to take the money with her. The time will come when it will be too late to grasp eternal life. It is something to be secured as soon as possible.

My brother wake and catch the rope of salvation that is thrown to you. Some people are offended if you speak to them about their soul's salvation. Except ye be converted, ye cannot enter the kingdom of Heaven. How shall we get eternal life? Jesus Christ is the great Physician. Trust yourself to Him. Decide you will do as He directs. That is eternal life. Any little child can lay hold of that great truth when theologians fail to grasp it.

At the close of Mr. Goodrich's remarks, F. H. Andrews took charge and a special consecration service was held. Several signified their desire to become Christians by rising to their feet or raising their hand. Mr. Andrews gave a brief earnest talk, which was followed by several short prayers. Those present, mostly Christians, seemed to feel more than ever the necessity of preparing themselves for a united effort in the salvation of souls. The service closed in the usual manner, all feeling spiritually refreshed by the earnest words spoken.

Rev. G. Kennedy Newell will address the meeting this evening.

For the Public Schools.

City Treasurer Alex. Titsworth this afternoon received a check for $16,101.75 from County Treasurer B. Holmes as Plainfield's share of the fund for the support of the public schools. The money will be turned over to the Board of Education.

Grand Jury Want to Get Through.

The Union County Grand Jury will try to finish today the investigation into the alleged Sunday law violations by saloon-keepers. It is believed that several dealers will be indicted for open and persistent disregard of the laws.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

ENGLAND AND BRAZIL

Trinidad Trouble Causes Serious Concern.

The South American Republic Refuses Arbitration and Demands the Restoration of the Island—Argentine Joins Hands with Her—Urged On by Monroe Doctrine.

Washington, Jan. 22.—The cabled announcement that Lord Salisbury's note presented to the government at Rio Janeiro demanded that Brazil should accept arbitration to decide the ownership of the island of Trinidad before February 12, in default of which the island should be considered as belonging to Great Britain without further appeal, has caused serious comment here, which has not been diminished by the further statement that Brazil had definitely refused the proposal and had demanded that Great Britain should immediately restore the island to Brazilian control. Nor has the situation been rendered less acute by the intelligence conveyed in a United Press dispatch from Buenos Ayres announcing that the Argentine government had cancelled the English cable company's concession and had made common cause with Brazil. In official circles deep significance is attached to the concerted action of the two largest South American republics in directly antagonizing British claims to American possessions.

Conference with Olney.

Minister Mendonca of Brazil spent half an hour by special appointment with Secretary Olney at the state department yesterday afternoon, and it is suspected that the interview related to the decisive stand Brazil had taken in regard to Lord Salisbury's note. The Brazilian view of the matter is that to expect them to arbitrate the ownership of Trinidad would be as reasonable as to ask the United States to tamely submit to England's establishing a colony on an uninhabited Florida key under the British flag, because it was a desirable cable station and fit for nothing else.

Pender's Men Secretly Landed.

A naval officer who is entrusted with the duty of keeping account of the submarine cables of the world explained the Buenoe Ayres dispatches to-day as follows: "An English company holds an exclusive concession for coastwise cables in Brazil, the concession having about twenty years more to run. Sir John Pender, the cable king, several years ago determined to secure telegraphic connection between his great systems and the Pacific coast of South America. To that end he entered into negotiations, being successful in almost every country except in Brazil where he was antagonized by the English company. He asked Brazil for the use of the island of Trinidad as an intermediate station, but the English company in Brazil opposed this and defeated it through the very fact that Trinidad was Brazilian and therefore included in its own absolute concession. Sir John Pender went ahead, however, with his negotiations with other countries until a sufficient time had elapsed for an English warship to go secretly to Trinidad and land there a number of Sir John Pender's employes. The English flag was raised, the cable companies operatives were left in possession and the warship steamed away again. The only inhabitants of Trinidad to-day are Sir John Pender's men taken there by the English government.

Due to Cleveland's Action.

The concession of the Argentine government, which was especially favorable to that country, provided for the construction of a cable connecting with the company's main line on the African coast and proceeding thence to Trinidad, the new port of La Plata, the Falkland islands and so around to Caile, the Argentine government giving the right only for the landing at La Plata. It is learned from a member of the diplomatic corps, who has the confidence of the South American representatives, that Argentine's action in cancelling the concession is due to President Cleveland's special Monroe doctrine message, and is inspired by the hope that the United States will recognize the right of Argentine to the Falkland islands which were forcibly taken by Great Britain with the acquiesence of the United States subsequent to the Monroe doctrine's enunciation. The islands were owned and settled by Spain, and thus became part of the Buenos Ayres republic.

Still Adheres to Her Claim.

Argentine vigorously protested when they were seized by England and in a proclamation declared that though Argentine was unable to resist the powerful force of England it continued to firmly adhere to its claim to the rightful ownership of the territory. Under these circumstances Argentine on the 15th inst. informed the cable company that it considered the proposed landing place at Trinidad as illegal and that it could not recognize any alleged permit to use the Falkland islands, consequently by its own terms the concession fell to the ground. It is intimated that a specially accredited minister from Buenos Ayres will soon come to the United States to endeavor to reopen the dispute as to the ownership of the Falkland islands in view of the stand taken by President Cleveland on the Venezuelan boundary dispute.

RIFLE AND REVOLVER FIRING.

Percentages Made by the Men of the United States Army in 1895.

Washington, Jan. 22.—The results of the rifle and revolver firing of the United States troops during the year 1895 have been announced by the war department. The men of the department of the Columbia made the best percentage, securing 48.4 for the distances up to 600 yards, and also leading with 70.1 per cent. at 600 yards. The average for the entire army up to 600 yards was 41.8. The cavalry did not receive the new magazine arms before the close of the target season, and therefore had no practice. In the rifle firing of the infantry regiments the Fourteenth regiment led with 59.4 per cent. The lowest regimental record was 47.1. In the revolver firing by the cavalry the Fifth regiment led with 78.63 mounted and 80.41 dismounted, closely followed by the Seventh with 77.05 mounted and 73.36 dismounted. It was noticeable that in revolver practice the two colored cavalry regiments were at the end of the list in mounted revolver practice, and last and second from last in dismounted practice, while in the rifle firing one of the two colored infantry regiments was ninth and the other sixteenth out of twenty-five regiments competing.

JUSTICE FIELD NOT TO RETIRE.

The Venerable Jurist Still in the Best of Health.

Washington, Jan. 22.—Associate Justice Field of the United States supreme court, in regard to whose retirement perennial rumors have been published for many years, authorizes a denial of the latest statement to that effect, which was published yesterday. The venerable jurist says: "Of course, a man at my time of life might retire from the bench at any time. If my health should not permit me to attend to my duties easily I should not hesitate to leave the bench, but so long as I can attend to those duties with ease I have no intention of retiring." Born in 1816, and appointed to the supreme court by Abraham Lincoln in 1863, Justice Field has long since passed the limit entitling him to retire on full pay whenever he so desires. Chief Justice Marshall and Justice Storey have exceeded him in length of service, and they only by a few months.

RELIEF FOR ARMENIANS.

Clara Barton and Party Sail from New York This Morning.

New York, Jan. 22.—Miss Clara Barton, president of the American National Red Cross society, accompanied by five other members, sailed this morning on the American line steamship New York. She will visit London, Paris, Vienna and Baden Baden, and from there go to Constantinople, where she will endeavor to distribute relief to the Armenian sufferers. Those of the party besides Miss Barton are Miss Lucy Graves, Ernest Mason, Mrs. Mason, Dr. J. B. Hubbell and George H. Pullman.

GOLD RESERVE DECLINING.

Sub-Treasuries in the West Notified To Assist New York Treasury.

Washington, Jan. 22.—The treasury gold reserve at the opening of business to-day stood at $50,790,129. The withdrawals reported yesterday amounted to $2,582,000, of which $2,500,000 was for export. As the gold supply in New York has been considerably reduced by constant drains, the sub-treasuries of the west have been instructed to send a supply to New York.

DEATH OF GEN. EWING

Emblems of Respect Displayed in New York.

Flags on the City Buildings at Half Mast—End of a Long Career of Activity in a Number of States—Brief Sketch of the Life of a Soldier and Statesman.

New York, Jan. 22.—The flags on the city buildings are at half-mast on account of the death of Gen. Thomas Ewing, which occurred yesterday from injuries received the day before by being run down by a Third avenue cable car at Eighteenth street. The general did not regain consciousness and expired at the apartments occupied by his family in the St. George on East Seventeenth street.

Gen. Ewing's Career.

Gen. Thomas Ewing, son of Senator Thomas Ewing of Ohio (who was also secretary of the treasury under President William Henry Harrison and secretary of the interior under President Tyler), was born at Lancaster, O., Aug. 2, 1829. Graduating from Brown university, he served President Taylor as private secretary in 1849. In 1856 he moved from Lancaster to Leavenworth, Kan. He was a delegate to the first state constitutional convention, and in 1861 became chief judge of Kansas. The war breaking out Mr. Ewing resigned his high office and recruited the 11th Kansas regiment of volunteers, which, led by him, went into active service at once. Col. Ewing distinguished himself by personal bravery at the battles of Fort Wayne, Cane Hill and Prairie Grove. For gallantry at Prairie Grove he was brevetted a brigadier-general. With 1,000 men he repulsed Stirling Price on the Missouri border on Sept. 28, 1864, checking the confederates' invasion of the state. In 1865 he was made a brevet major-general of volunteers.

Stood High at the New York Bar.

After the war Gen. Ewing entered upon the practice of law in Washington, but soon returned to Lancaster, where in 1877 he was elected to congress as a democrat. In 1879 he suffered defeat as the democratic candidate for governor of Ohio and was later elected to congress again. In 1881 he moved to New York and soon made a commanding place for himself at the bar. At the time of his death he was a member of the firm of Ewing, Whitman & Ewing. Gen. Ewing was a brother-in-law of the late Gen. W. T. Sherman, who after being adopted by Senator Ewing, received at his hands an appointment to West Point and subsequently married his daughter Ellen. Two of Gen. Ewing's brothers, Hugh Boyle and Charles, distinguished themselves in the civil war, the former coming home a brevet major-general and the latter a brevet brigadier-general. Hugh Boyle Ewing was minister to Holland for several years after the war.

UTAH'S NEW SENATORS.

Cannon and Brown Will Leave for Washington To-day.

Salt Lake, Utah, Jan. 22.—In accordance with the provisions of the constitution and the resolution previously adopted by the state legislature a viva voce vote was taken in the legislature yesterday for United States senator, the result of which was that the republican caucus nominees, Frank J. Cannon and Arthur Brown, were elected on the first ballot. To-day the formality of comparing the vote of the senate and house and affirming the election of Cannon and Brown will be gone through. The new senators will leave for Washington this evening.

GOV. MORTON'S RECEPTION.

A Brilliant Affair at the Executive Mansion This Evening.

Albany, Jan. 22.—The governor's annual reception, which is to be held at the executive mansion to-night, will be a brilliant affair. Over 2,500 invitations have been issued and prominent men from all over the country with their wives will be present.

THE TURN OF LIFE.

WOMAN'S CRITICAL PERIOD

Contemplated with Less Fear than of Old.

[SPECIAL TO OUR LADY READERS.]

There is no period in woman's earthly career which she approaches with so much anxiety as the "change of life." Yet during the past twenty years women have learned much from a woman.

It is safe to say that women who prepare themselves for the eventful period pass through it much easier than in the past.

There is but one course to pursue. *Lydia E. Pinkham's* Vegetable Compound should be used in time to subdue the nervous complications, and prepare the system for the change.

It is well for those approaching the time to write Mrs. Pinkham, at Lynn, Mass., and get her free advice.

Such testimony as the following should be convincing:—

"Your Vegetable Compound has been a God-send to me: it saved my life when all else failed. I would have been in my grave ten years ago but for it. My womb had fallen and rested on the bladder. The doctor could not relieve me: my mind was deranged. Your Compound cured me. It helped me through the change of life all right: am now in good health. It has also cured my husband of kidney trouble: made him like a new man. Please state my words in the strongest terms. I am glad to send you my picture. I travelled twelve miles to have it taken for you. MRS. W. L. DAY, Bettsville, O.

MACEO PUT TO FLIGHT

Insurgents Under His Command Routed.

Reported To Have Left Twenty Dead on the Field Behind Them—Troops Said To Be Pursuing the Insurgent Commander—Slight Victories for Government Forces.

Havana, Jan. 22.—Gen. Luque reports that the force commanded by him on Sunday defeated the rebels under Antonio Maceo. The engagement took place near San Luis, a place southwest of the capital of the province of Pinar del Rio. The commander of the troops was informed Sunday morning by scouts that the rebels were encamped on the Tiaado estate and at once gave orders for an advance and attack upon them. The pickets around the camp fired upon the Spanish skirmishers, but they were driven into the camp, which had been thrown into a state of confusion by the sudden appearance of the troops. The rebels attempted to rally and hold their position but the steady fire of the troops proved too much for them and they were driven out. They left twenty-seven dead behind them. The insurgents retreated rapidly but were followed by the troops.

Again Routed.

Sunday afternoon the rebels again made a stand on the Guacamago estate. The troops soon attacked and completely routed them. The government force consisted of cavalry and artillery, both of which distinguished themselves in the action. The government losses in the morning were one officer and one private killed and one officer and fourteen soldiers wounded. Gen. Luque says in his report that he cannot give the precise losses sustained by the troops in the afternoon engagement.

Troops Pursuing Maceo.

The battle at Taironas, in which Maceo's command of 2,000 men was defeated by 290 troops under Col. Sanchez, took place on Friday last. Maximo Gomez is said to be on the Portugalete estate at San Jose de las Lajas, southeast of Havana. It is rumored that he had an engagement to-day with a government column in which he was defeated. The troops are said to be in pursuit of him. J. FRANK CLARK.

NOT TO MENACE ANYBODY.

Flying Squadron To Be Used Only as Other Squadrons Are Used.

London, Jan. 22.—The Right Hon. George J. Goschen, first lord of the admiralty, made a speech at Grinstead last night, in the course of which he said he wished to dissipate the alarming rumors that were in circulation. Referring to the flying squadron, he said it was intended for use in any emergency in any direction. It would go to Berehaven without taking sealed or other orders except to proceed to that place and await instructions. The squadron was not intended as a menace to any country, nor was it destined for any particular quarter of the world. It would be used as other squadrons are used. Mr. Goshen appealed to the public, if they heard that the squadron had been ordered anywhere, not to imagine that it had been sent to menace anybody.

ASTRUP'S BODY FOUND.

The Norwegian Explorer Perished in the Dovrefjeld Mountains.

Christiana, Jan. 22.—The party that went out in search of Eyvind Astrup, the Norwegian explorer, who was with Lieutenant Peary on his first expedition to Greenland, yesterday found his dead body in the Lille Elvedal valley in the Dovrefjeld mountains. Astrup started a few days before Christmas for the purpose of making a ski expedition in the mountains. He was gone about three weeks when his friends hearing nothing from him became alarmed and formed a party to go in search of him.

Promenade Week at Yale.

New Haven, Conn., Jan. 22.—Promenade week at Yale went out last night in a blaze of glory. Yesterday was the last day of festivities and the visiting guests and Yale hosts were busy with the crowded programme of closing hours. There were teas and receptions in abundance and last night the supreme affair of the week took place, the junior promenade.

INAUGURATION OF GRIGGS.

First Republican Governor of New Jersey in Thirty Years.

Trenton, Jan. 22.—The public reception held by Gov. Griggs last night was attended by fully 4,000 persons. The city was crowded with visitors last night not many who had come to attend the inaugural ceremonies leaving until late at night. It was estimated that there were fully 20,000 visitors to see Jersey's first republican governor in thirty years inducted into office, and while the inauguration ceremonies were going on in Taylor's opera house the vicinity was packed with a pushing, jostling crowd, all anxious to get a step nearer to the theatre. The inauguration ceremonies began at 11 o'clock, when both branches of the legislature met in their respective chambers and then adjourned to the stage of the theatre. The joint committee on inauguration met the same hour, and with the state officers, escorted Governor Werts and Governor-elect Griggs to the opera house. Cheers greeted the party along the route and as they entered the opera house. As soon as the applause had died away, Rev. Thomas Hanlon of Pennington seminary arose and offered prayer. The oath of office was then administered to the new governor by chief justice Mercer Beasley, following which came the delivery of the great seal of the state to the new governor by Governor Werts and the introduction of Governor Griggs to the members of the legislature. Immediately after the ceremonies at the opera house the gubernatorial party were driven to the state house, where they reviewed the parade from the stand erected in front of the capitol. The parade was the largest ever held in Trenton on a similar occasion. Close on 8,000 men were in line, and the enthusiasm was kept up continually from the start to the finish. The legislature has adjourned until next Monday.

THE DEADLOCK BROKEN.

George L. Wellington Chosen U. S. Senator from Maryland.

Annapolis, Md., Jan. 22.—The deadlock in the Maryland general assembly was broken last night in a joint caucus of republican members of the senate and house and congressman George L. Wellington of Alleghany county was declared the nominee for the seat in the United States senate now occupied by Hon. Charles H. Gibson. His six years' term of office will begin March 4, 1897. After a stormy session of almost two hours in caucus, the roll was called and Mr. Wellington received forty of the seventy-eight votes cast. After the names had all been called and it was shown that the Alleghany congressman had won, there was a rush to change votes. Before the result of the ballot was announced sixty members had been enrolled for Wellington as against seventeen for Goldsborough. Mr. Wellington's nomination was made unanimous. To-day at noon the general assembly will meet in joint convention and Mr. Wellington will be elected.

FOR BEING BLACKLISTED.

Damages Awarded an ex-Conductor of a Florida Railroad.

Jacksonville, Fla., Jan. 22.—In the United States circuit court a verdict for $1,750 has been rendered against the Florida East Coast railway (the Flagler system) for blacklisting W. E. Willets. Willets was a conductor on the East Coast road, and being offered a better position on the South Floriday railway, he left the East Coast road on two days' notice, but in three days was discharged from that road, no cause being assigned. He learned, however, that he was discharged because Superintendent Goff of the East Coast road had sent a circular letter to the officials of other Florida railways asking that Willets be not employed. He afterwards vainly applied for employment on every railroad in Florida.

FALLON REMOVED.

New York Tombs Warden Declared To Be Incompetent.

New York, Jan. 22.—Commissioner Robert K. Wright has announced his decision in the case of Warden Fallon of the city prison. He finds, after reviewing evidence adduced at the trial of the warden, that Fallon has been guilty of conduct inconsistent with his position, and that he was incompetent, and the commissioner removed him from office, the expulsion to take effect at once.

Allison Returned from Iowa.

Des Moines, Ia., Jan. 22.—In both houses of the legislature yesterday ballots were taken for United States senator. In the senate Allison received all republican votes, 42, and Judge W. I. Babb received the democratic votes, 6. In the house Allison received 74, Babb 13 and Frank Q. Stuart, populist, 1. To-day the house will meet in joint session and Allison will be declared elected.

Atlantic City, N. J., Jan. 22.—Henry Diddlebock, sporting editor of a Philadelphia newspaper, will manage the St. Louis Browns next season.

ASSAILED ON ALL SIDES

Chamberlain Talks of Great Britain's Troubles.

Her Success Imputed as a Crime By Jealous Competitors—Quarters Where She Might Have Looked for Friendship Confronted Her with Hate.

London, Jan. 22.—The Right Hon. Joseph Chamberlain, secretary of state for the colonies, delivered a speech last night at a banquet given by natives of Queensland residing or visiting in London. He referred to the solidarity of the imperial sentiment, which made it impossible for a blow to be struck or a chord sounded in the most distant part of the empire without its being re-echoed in every part of her majesty's dominions. Great Britain, he said, had been guilty of many sins of omission and commission towards her colonies. Still, she alone among the nations of the earth had been able to establish and maintain colonies in all parts of the world. A few weeks ago, he added, Great Britain seemed to stand alone surrounded by jealous competitors and was assailed with altogether unexpected hostility. Long standing differences appeared to suddenly come to a head and assumed threatening proportions.

Deserted Even by Supposed Friends.

The quarters whence she might have looked for friendship and consideration confronted her instead with suspicion and even hate. England had to recognize that her success, however legitimate, was imputed as a crime, that her love of peace was taken as a sign of weakness, and her indifference to foreign criticism as an invitation to insult. He regretted to be forced to admit that such feelings existed, but he rejoiced, seeing that they did exist, that they had found expression. No better service had ever been done the nation, for it enabled her to show her face to the world. England, while resolute to fulfil her obligations was equally determined to maintain her rights. (Cheers.) England, if isolated, stood secure in the strength of her own resources, in the firm resolution of her people without respect to party, and in the abundant loyalty of her children from one end of the empire to the other. At the conclusion of his speech Mr. Chamberlain was heartily cheered and applauded.

RESULT OF AN EXPERIMENT.

New Haven's Fatal Fire Caused by an Explosion of a Gas Cylinder.

New Haven, Conn., Jan. 22.—Definite knowledge as to the conditions of the experiments which were being made yesterday by Frank Phlegar and his son when the explosion occurred which resulted in the fire that caused the death of Joseph Hauser, J. T. Tool and Harbona Stevens and the destruction by fire of the building on Crown street occupied by English & Mersick and two other firms, cannot be ascertained to-day as the Phlegars positively refuse to talk beyond acknowledging the explosion. F. P. Phlegar, sr., a machine jobber, was experimenting with acetylene gas in his shop on the second floor of the building. Around him were a corps of assistants and it is said that Mr. Phlegar was working upon some sort of regulator to control the delivery of the gas from steel cylinders in which it is kept under high pressure, sometimes as high as 2,000 pounds to the square inch. It is known that when the explosion occured the Phlegars, father and son, and five men were working about a cylinder of the gas.

A German citizen of Winside, to win a wager, swallowed forty raw eggs within six minutes, and drank eight schooners of beer within twenty minutes thereafter.—Nebraska State Journal.

Already the signs of disappointment which must ensue from the ascendancy of one party over another, is evident among the New Jersey Republicans. The Newark Advertiser does not mince words to show umbrage over the victory of Assemblymrn Derousse for the Speakership, and proclaims that his committee assignments are not of a quality to ensure a clean administration in the Legislative branch of the State Government.

A bill came into the Legislature from Hudson county Monday night which is a hard blow at the railroads. It requires each company to pay a tax upon the true value of all real estate owned by it as ascertained by the State Board of Assessors, one-half of one per cent. to the State, and the local rate, less the one-half of one per cent., to the taxing district. The contest over such a bill was a long one last year and the railroads came out on top. It will be no less bitter this year.

Now Senator Foster Voorhees stands forth in a new light. He has not been seeking an office. The office has been seeking him. It is declared that the Union county Senator positively refused to accept the leadership of the Senate, not once, but twice and thrice, until his Senatorial colleagues implored him for the sake of the party to take up the reins and they would follow on. This, so it is said, he finally consented to do, on the condition that he be not hampered by receiving orders from a Boss, high or low. It is strange, therefore, that he was ever elected leader. Perhaps, though, it is all a fairy tale.

In all the big events that have transpired during the past summer, fall and winter, in which the public has been interested, The Daily Press has been the only paper in Plainfield to fully and accurately cover them. Notable examples of this was the sudden disappearance of Miss Lucretia Clark, the Dunham murder at New Market, the international yacht races, the county and State conventions of both parties, and yesterday it was followed up by the report of the inauguration of Governor Griggs. The Press printed nearly two columns of news from Trenton, a large portion of which was concerning Union and Somerset county's delegations and of manifest local interest. Readers of the sweat shop sheet were served with a half column of matter that could have been and probably was written in advance or else clipped from the New York papers.

THEATRICAL.

The Al. G. Field Big White Minstrels will be at Music Hall one night only, Thursday, January 23d. This season Mr Field has made a radical change in his minstrel performance. He has entirely done away with the old-time negro first part, presenting instead a magnificent scenic spectacle entitled "The Court of Momus." This is a scene of regal splendor. It is a representation of the Court of Momus, with the singers of the company costumed as courtiers. A party of modern minstrels pay a visit to the Court, and this introduces the comedians and dancers. For the delectation of the Court and the entertainment of the visitors, the courtiers render their superb ballads; returning the compliment, the dancers and comedians give the most finished modern minstrel performance.

Everybody Talking About It.

Everybody is talking about the great free offer of Dr. Greene's, the most successful specialist in curing nervous and chronic diseases, and who discovered that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. He makes a specialty of treating patients through letter correspondence, and all who accept his offer are astonished at the marvelous success of this method. His office is at 35 West 14th street, New York City, where he receives and carefully examines every letter sent to him by persons describing their cases and telling him their symptoms. After thoroughly studying each case he answers the letter, explaining the cause of each symptom and telling a sure way to get well and strong. He makes the patients understand exactly what ails them and tells them all about their complaint, and all this is entirely free of charge. They save the expense of a trip to the city, have no fee to pay, and have the benefit of the best medical advice and consultation. Here is an opportunity for you to get well, reader, you can either accept or reject it. Which will you do?

Tomorrow evening the Crescents will bowl the Elizabeth Athletic Club at Elizabeth. Next Tuesday evening a return game will be rolled in this city.

The next few games to be rolled in the Standard Bowling League will be of unusual importance to the Park Club. Tomorrow evening Cranford will go to Roselle and the probabilities are that the home team will get both games, giving them the lead. On Friday the Park Club goes to the Union County alleys and hope to win two victories. Roselle at Plainfield is the next opponent of the borough, after which they go to Westfield and then end the season February 7th at home with Cranford for their opponents. Their hardest game will be at Westfield.

Who would have thought it! The Park pulled the hitherto-victorious Westfield team from the lead and now the Parks, Westfield and Roselle are tie for first position in the Standard Bowling League. The Westfield bowlers came to this city last night and met the Park Club on their own alleys. The two games were a surprise as far as results were cencerned for the borough men put up a good game and took both games, the first by 92 pins and the other by 17. The home team did wonders in the first frame, not a man breaking and altogether scoring 106. That was too hot a pace for even Westfield to follow and the Parks dashed ahead with a big lead which was steadily increased almost every frame. It was a losing game for Westfield and their spirits went down below zero as the home team finished making a total of 838. Voehl made the high score of the evening, making seven strikes. The second game was no cinch for the Parks. They got a lead of three pins in the first frame and rolled it up to 82 in the fifth, as the Westfields seemed to feel badly over their recent defeat. The recovered from the effects in the sixty frame and started off at a lively pace. Splits by the Parks lessened the distance between the teams and they came up on a run. When the last frame began it looked rather dubious for the home club, but the excitement was too much for the Westfield bowlers and they managed to miss the pins at the most important juncture of the game. The Parks, on the contrary, came up with strikes and spares up their sleeves and finished in fine style with their opponents struggling 17 pins behind. Smith, of the Park Club, started in with a 220 score, but after rolling four strikes in the first five frames, fell down like the rest and only finished with 188 pins. The individual score and the score by frames show how the games went and what the bowlers did. They are as follows:

STRIKES AND SPARES.

The Y. M. C. A. alleys are being repaired by Dillingham, of New York.

A bowling match has been arranged between the Plainfield Y. M. C. A. and the Westfield Y. M. C. A. to be rolled at Westfield on Tuesday.

The Plainfield Catholic Club bowlers went to Orange Valley last evening and were defeated by 95 pins. The home team rolled 1447 and the Plainfield team 1352.

The Westfield team that came to bowl the Park Club last evening was greatly weakened by the absence of one of the best men, Elmer Love. Coming to the train last night he slipped on the ice, injuring himself so that he was unable to come to Plainfield.

There was no little excitement on the Creseents alleys last evening when the Will Bes and Has Beens met to do each other. The spirit of rivalry between the two teams increases, for the latter think they have won sufficient laurels and can rest upon them, while the former are an energetic set of bowlers, and see no reason why they should not sweep the whole field and be monarchs of all they survey. However, the game last evening was rather close, as the old timers only came out 90 pins ahead. This is very good, considering it was a two-ball game. Below will be found the score in full:

VARIOUS SPORTS.

Charles Krewson, of this city, lost his first game in Newark last evening in the championship pool tournament now in progress. He scored 106 points to his opponent's 125. Mr. Krewson will contest again next week.

There has been a movement on foot for some time to hold an indoor athletic meet at the old Crescent Rink, now the Columbia Cycle Academy. What was before a mere visionary scheme has now come to be a reality. The present plan is to have the meet under the auspices of the Football Association of the Y. M. C. A., and a meeting of that body will be called for next week. The field games that were held by the Plainfield Bicycle Club in the Crescent Rink about five years ago, proved very successful. Several efforts have been made since that time to hold similar games, but the plan has never been vigorously pushed. The proposed field day is supported by the athletic contingent from Leal's and the High schools besides the many athletes in the Y. M. C. A. who do not attend school. All of the regular track and field events will be included except the bicycle races and throwing the hammer. Several of the events will be opened to neighboring towns, while a relay race between the schools in the vicinity is one of the suggestions. The backers of the indoor meet include some of the most enterprising young men of Plainfield who propose to make it a prominent event in Plainfield athletic life.

CYCLING COMMENT.

A bill which affects a large number of citizens has been offered by Senator Johnson in the State Legislature. It is a general bill regulating bicycling all over the State. It empowers the governing boards in all municipalities to pass ordinances regulating the use of these venicles. All bicycles are required to carry lamps such as can be seen a hundred yards ahead one hour after sunset and one hour before sunrise. They must also carry a bell. Their speed can be regulated and riders can be prohibited from riding on the sidewalk. A fine not exceeding $5 is provided for every violation. The bicyclers are said to favor such a general law, as they are at present annoyed by the different laws in various places.

—Plainfield should be proud of her splendid banking institution. The surplus of the Dime Savings Institution is $17,202.14.

WHIST.

The State Whist trophy, which was won from the Park Club several weeks ago by the Orange Whist Club, was played for last week. The challenging club was the Montclair Club, but they were defeated.

EARLY INTELLIGENCE.

COUNT VON MULLER.

CHAPTER I.

THE EXPLOIT OF FRITZ, THE MILLER.

It is more than 500 years since this little valley and all the surrounding country were ruled over by the good margrave, Otto the Hunter.

Otto the Hunter was a brave man who in his younger days had borne arms against the kaiser in the palatinate, but afterward he did fealty to the emperor and became one of his bosom friends. He had three stalwart sons—who have nothing to do with this story—and one only daughter, the blue eyed Ermentrude, a little fair haired child 12 years old, who was the light of her old father's eyes, and whom he hoped to marry some day to some margrave or elector.

Now, in those days there were wolves in the Rhineland. Not many indeed, for his ancestors had pretty well hunted them down, but in the cold winter days they would sometimes steal out of the Black forest and be seen prowling about in search of prey.

The old castle of the margrave, which about a century afterward was battered into ruins by a French army, stood in those days on a craggy hill overlooking the fair plain on which the city of Wolfsteinberg now stands. Surrounding it was nothing but a noble stretch of woodland, where the great oaks and pine trees made miniature forests here and there, diversified with broad open glades, which the wild flowers in the springtime turned into natural gardens. It was in one of these glades, exactly where the grand duke's new schloss is now standing, and on the bank of the little stream that has now been used to form the artificial lake in the new park, that in those days Fritz, the miller, had his rude hut and his water wheel. Fritz Muller, as he was called, was a hale and hearty man in the prime of life, and many and many a time did the little lady from the castle wander down, sometimes with her nurse, sometimes alone, to gather the wild flowers on the banks of the brook and watch the mill wheel and the rushing water that foamed beneath it.

Now, the margrave, among his other good and generous acts, had published a solemn decree on the subject of wolves. There were many knights within the confines of his territory who hunted the wild boar and the deer, and it occurred to him that if they would only be as zealous in destroying wolves as in bagging big game for their own tables it would be far better for the poor people whom he ruled. Otto was a friend of the poor. And the edict which he published about the wolves was to this effect—that whoso should slay a wolf with his own hand should by that very act become the owner of the spot on which he spilled its blood and of one square acre roundabout, to hold unto himself and his heirs forever.

And now came a great and terrible event. It was a lovely November afternoon in what is called in Germany as well as England "all hallows' summer," when Fritz, the miller, was busy about his mill and moving carelessly to and fro among the piles of sacks that lay by his cabin door. He had been splitting wood for his winter's fire, and his cleaving ax was in his hand. Suddenly he heard a wild scream, and his blood ran cold, for the voice that pierced his ears was surely that of the little lady from the castle. He rushed to the door. Flying toward him, with her arms thrown forward and her long hair floating in the wind, was little Ermentrude, and a few yards behind her were three full grown wolves in hot pursuit.

Fritz dashed forward with the speed of thought. He was just in time. His ax was still grasped in his right hand, and he only just reached the child and snatched her from the ground with his left at the very moment when the wolves were making a fierce spring at her.

In their headlong charge they swept right past, and Fritz, seeing a tree at some little distance in front, made for it and reached it before the wolves could check their course and turn round again. Fritz saw at a glance that there must be a fight for life. The wolves were splendid specimens of their breed, and he saw hunger and ferocity gleaming in their eyes. Planting himself with his back to the tree and his little charge pressed firmly against his left shoulder, he brandished his ax above his head and waited for the attack.

Headlong came on the wolves with their usual impetuosity, but happily in turning round they had scattered, and one was before the other. The first that made a spring at the miller received his deathblow right in the center of his forehead. The miller's nerves were firm as steel, and he dealt the blows as truly as if he had been cleaving a log of wood for his fire. But the second wolf was too quick for him. Before he could bring his ax round again the wolf was at his throat. His teeth grazed his flesh and fixed themselves in the leathern apron that was tied round his neck. This gave way, and down fell the wolf. Fritz took two steps to one side to give his arm room to strike, and with a quick blow half severed the brute's head from his body. But he had still to try conclusions with the third, which was the largest and fiercest of the three.

When Fritz had first caught up the child, the third wolf's headlong speed had carried it far beyond its companions, so that it came to the attack several seconds after both of them had fallen. But when it did come it came in grim earnest. With a fearful howl it leaped right at the brave miller's throat. He stepped aside a little, causing it to miss its aim, but as it dropped the brute caught his right hand in its mouth and bit it horribly. It again returned to the charge and this time managed to get hold of the miller's jerkin with its teeth, where it hung for a second or two, pendulous. The miller could not strike and was at a sad disadvantage because his left hand was firmly holding his precious charge, who never uttered one cry, but clung to his neck with trembling arms. But he shook himself free from his assailant, which, however, again and again renewed the attack, bounding up time after time, evidently with the purpose of seizing the miller by the throat and giving him no chance to make a fair blow with his weapon. All the time the brute was howling in a fearful manner, and the stout miller, whose blood was now flowing freely, was beginning to think that his hour was come. But the thought of the precious charge that he sheltered on his shoulder buoyed up his courage, and mustering all his strength he gave a sudden jerk to free himself from the beast, and running several yards turned round in a new position.

With a savage howl the wolf rushed at him again open mouthed, but this time the trusty ax and the true hand did

With a savage howl the wolf rushed at him again.

their work, and the red blood spurted into the air from a death wound between the eyes.

Thus did Fritz slay the three wolves, saving the little lady of the castle from a ghastly death and her father's noble house from bitter mourning. The fame of the deed flew far and wide, and the name of Fritz Muller was soon in all men's mouths. Bonfires were lit on every hill in Otto's territory to show the people's joy at the saving of his daughter's life. Men and women came by hundreds from all parts to shake hands with the brave Fritz and congratulate him on his victory. Nor was the margrave behind his subjects in his gratitude to the savior of his child. With noble warmth he pressed him to his bosom, peasant though he was, and told him that he had saved two lives, his daughter's and her father's, for if she had fallen a victim it would have brought his own gray hairs with sorrow to the grave. He at once gave orders for a wolf stone to be cut and set up on the spot where the deed was done, and for three acres to be measured round it to be handed over forever to Fritz Muller and his descendants. But here a little thing cropped up that marred the joy of all the people and for a time caused bad blood between the nobles and the peasantry. The kaiser had lately renewed an old decree of the empire that no German soil could lawfully be held by any one but a German and a noble. Fritz, brave as he was, had no claim to belong to any but the peasant class, and the great men who had the ear of the margrave took good care that he should not forget the law. And so it came to pass that the brave Fritz, though he saw the wolf stone set up to commemorate his deed, yet was debarred from the more substantial fruit of his victory by an imperial law which was almost obsolete. But fate has sometimes in reserve a more than poetical justice, and after 450 years had passed away the wolf stone was heard of again.

CHAPTER II.

FRITZ MULLER, THE COURT TAILOR.

Our story skips over several centuries.

The social earthquake of the French revolution, which set up and pulled down so many royal houses, had left the dynasty of Wolfsteinberg untouched. The margrave of the day had been one of those who so unpatriotically assisted the great Napoleon, but the only reward that he received for his perfidy was the substitution of the grand ducal title for the time honored name of margrave. The old castle where Otto the Good had lived his time had long been in ruins, and a new palace had gradually grown out of a hunting castle, built close to the spot where Fritz, the miller, had immortalized himself. Their serene highnesses the first and second grand dukes had enlarged and decorated it in the style of the period, and the burghers of the new city that grew up round about it thought that Versailles itself could hardly eclipse it.

But, alas! there was a very big skeleton in the grand ducal cupboard. His serene highness was woefully in debt. He owed money everywhere. He was in arrears with his soldiers, and his court musicians, and his purveyors, and his ministers. Above all, if the truth must be told, he was terribly in debt to his court tailor. He had not a large family to support, having only one son and one daughter, but they were both old enough to help their illustrious father in piling up a heap of bills. The heir apparent had achieved great success in that line both in Paris and in Vienna, and the beautiful Princess Gertrude, who had just reached her twenty-first year, was as clever in making debts as in making conquests. Her dresses were the wonder of her father's subjects; but, sad to say, none of them had been paid for.

The court tailor was Heinrich Muller, the only son and successor of the late Herr Muller, who had made a considerable fortune in military tailoring during the wars of Napoleon, and who had bequeathed to his son not only a handsome business, but a name which in one sense was as illustrious as that of the grand duke himself, for, although he was only a tradesman, he was the lineal descendant of the heroic Fritz, the miller, whose deed of valor I have already chronicled. Add to this that the present court tailor, Heinrich Muller, was a well educated and handsome young fellow. He had studied at the University of Strasburg, and if a slight scar, which he got in one of his many duels there, took anything from his good looks it certainly made him more interesting and almost made up in popular opinion for his want of aristocratic blood. It was thought that when his old father died he would throw up the business and take a commission in the army; but, to the astonishment of every one, he did no such thing. He still continued to measure his serene master for pantaloons and the Princess Gertrude for riding habits.

If any one supposed, however, that Heinrich was without ambition, he was very much mistaken. It was often noticed how fond he was of getting into the great dining room at the schloss and feasting his eyes on the picture of his brave ancestor slaying the wolves, and he had made a model of the old wolf stone in the park and placed it on top of the great china stove that stood in his workshop.

Under the circumstances Heinrich Muller was a little bit of a mystery, but at last a rumor got abroad that struck every one dumb, and when it was carried by the prime minister, old Baron von Dernfeld, to the grand ducal ears his serene highness almost fell down in a fit. It was said that the rich and handsome young tailor was in love with the Princess Gertrude.

There was a long and anxious conference that night between the prime minister and the grand duke. The sun was already slanting his rays in at the window before they separated; but, turn the matter over as they could, they found no sufficient answer to the terrible question, "What is to be done?"

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

ANNUAL SALE

OF

Muslin Underwear, Waists, Wrappers, Corsets.

Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.

So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.

We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that these who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

Two Fresh Young Men.

Two young men of the borough made use of a farmer's horse and wagon standing on Somerset street yesterday afternoon and drove as far as Jackson avenue when they were stopped by Marshal Moore. He arrested them and later they were fined three dollars, which they paid.

A Deep Laid Plot.

"Is diss here a place whah dey sells dice?" she inquired as she entered a store that deals in sporting goods.

"Yes."

"Is yoh got er good reli'ble ahticle in de way ob a crap die?"

"We handle the very highest grades of goods."

"Cobes yoh does, honey. But I ain' lookin foh style. I wants sumpin dat kin be 'pended on. I wants sumpin dat'll fling seben when yoh needs it."

"H'm'm. You want loaded dice."

"Da's whut I wants. An I want 'em so's dat ole man ob mine won' know dey wus loaded. Sence he done gotter 'soshatin wif de Primrose Pleasure club he doan' bring no money home 'tall, an I'ze gwinter get some material foh mahketin an make home happy foh dat gemman bof at de same time."—Washington Star.

Too Much Extravagance.

Mrs. Blublud was describing the arrangements for her daughter's wedding.

"After that," she said, "the wedding epithalamium will be"—

"The what?" asked Mr. Blublud.

"The wedding epithalamium."

"I won't pay for it!" he exclaimed sharply. "You've spent all the money on flowers for that wedding that I can afford."—Chicago Post.

A Sudden Reformation.

"Charley is getting so economical!" said young Mrs. Tocker.

"That is quite an unusual trait in him."

"Yes. I have only observed it in him this week. He insists on wearing his old 50 cent necktie so as to save those for which I paid $1.50 apiece."—Washington Star.

Unanimous.

"How does it happen," remarked the captain to the lieutenant, "you didn't marry old Richman's daughter?"

"Oh, the family was dead against it!"

"But what about the girl?"

"Well, you see, she happened to be one of the family."—Tit-Bits.

An Extreme.

Miss Pert—Is Miss Strait Lace circumspect?

Miss Caustic—Circumspect! Why, she won't accompany a young man on the piano without a chaperon!—Salem Gazette.

Had Heard About It.

Miss Twenty Summers—Oh, what a terrible thing war must be!

Miss Forty Winters—Yes, I should think it must from what I have heard my mother say.—Somerville Journal.

Would Be Pleased.

Dinguss—Old man, I wish you could lend me about $5.

Shadbolt—I wish I could, Dinguss. I'd be mighty certain to keep it.—Chicago Tribune.

Same Penalty.

Tenaweek—Surely you do not regard poverty as a crime?

Miss Gotrox—No-o; still it is punishable by hard labor.—New York World.

"Give me a liver regulator and I can regulate the world," said a genius. The druggists handed him a bottle of DeWitt's Little Early Risers, the famous little pills. L. W. Randolph, 143 W. Front St.

A SUNBEAM BROKE A BANK.

The Faro Dealer Thought Its End Was a White Check.

"That piece in your paper 'bout the guy that cleaned up the faro banks out in Seattle," mused Bettam High, the Chicago gambler as he told the waiter to "bring on three fer a half," "ain't in it with my personal experience. This was out in Cripple Creek when the boom was way up an a good play agin a right bank, see, was wuth more to the banker than a split in the best claim you could git if they broke even. Do you know Eatem Up Jake? That wasn't his name of course, but the gang give him the handle 'cause he could chew so fast, see? Well, Eatem Up got hold of a piece of money in Chicago—he win out a roll off'n short money, see, an he goes off to Cripple Creek an starts to dealin. De lay out was in a little frame, pine board joint 'bout's big's a dry goods box. Jake gets a good play, you know—took a minute to settle after every turn, see? But I didn't tell you 'bout the knothole. You see, there's a knothole in a board right back of the dealer. Jake, he's in the lookout chair, see? Jake don't have no clock there, see, so nobody minds the daylight, only it makes the dealer a little sleepy, an Jake, he's kinda dopy.

"Well, there's a tin horn from over in another joint—a plugger in the stud game, see? He blows in an buys two red checks, waits fer cases, fergits the copper one play an gets whipsawed, see—loses both bets. Then he buys half a stack of whites an keeps the seat, playing mostly cases. He keeps his checks in his hands, an Jake don't keep cases on him. Well, he goes broke, but Jake doesn't know it.

"The jack's a case, see, an the sunlight's coming through the knothole over the dealer's shoulder, hits the jack right in the center, an it looks like a white check. The jack wins. Dealer pays a white check on the jack. Tin horn pushes the sleeper over between the queen an the king, an it wins again, see? An, on the level, the guy win and win, an nothin can stop him. Five deals afterward he has the check rack out, an Jack says:

"'I can't deal fer you no more. Me roll is gone.'

"Next day I stake Jake in the poker game an tell him how it happened, an he says:

"'Well, watyetink of that? Wouldn't that skin you? I've heerd of guys winning out de bank roll off'n eat money, but I never heard of winning out on a shadder.'"—Elmira Telegram.

PERCENTAGE OF POOR EYES.

Only One Person In Fifteen Has Both Eyes In Good Condition.

Only one person in 15 has both eyes in good condition, and in 7 cases out of 10 one eye, generally the right, is stronger than the other. It is found that just as people are right or left handed so they are right or left sighted, and while apparently looking with both eyes they often really use only one. Out of 20 persons whose eyes were tested by a German doctor two only were found to be left sighted.

The reason of the greater strength generally possessed by the right eye is not altogether understood, but probably the natural tendency to the greater use of the right side of the body has something to do with it. In using weapons, for instance, mankind has been taught to assume for ages attitudes in which the right hand and side have most exercise, and this discipline has undoubtedly had its effect on the eye.

Old sea captains after long use of the telescope find their right eyes much stronger than the left—the direct effect of exercise. This law is confirmed by the experience of aurists. If a person who has ears of equal hearing power has cause to use one ear more than the other for a long period, the ear brought into requisition is found to be strengthened and the ear not used loses its hearing in a corresponding degree.—Pittsburg Dispatch.

He Wanted a Plumber.

"Man you sent to fix that range of our'n a' poet?" asked a rural looking customer of the proprietor of a down town plumbing establishment.

"I—I—really, I don't know," responded the startled proprietor, with a look of sober inquiry.

"'Tain't as I got anything particular agin poets," explained the customer suavely as he took a chair and cleared his throat, "but I've hearn tell of folks missin their vocations—them as ought to be hoein petaters and huskin corn gittin into pulpits and lawyers' offices, for instance. Course I ain't sayin as I reelly seen any of your young man's poetry. I jest sort of s'picioned a leetle that he mought be one of them kind, 'cause that there range won't draw or bake since he tinkered with it. Poets may be all right enough in their place, and I reckon there's nicks in the world for every sort, but when a cookin range is out of gear one wants a plumber."—New York Sun.

A Little Encouragement.

J. L. Toole was once entertained by a party of Edinburgh gentlemen at dinner. After the cloth was removed a little sociability was indulged in, and Mr. Toole was asked to give a recitation. This the veteran comedian sternly declined to do. A worthy baillie, whose knowledge of things theatrical was somewhat primitive, approached Toole, patted him on the back and said in a fatherly way: "Come awa', my man; dinna be bashfu'. We're no ill to please."—Household Words.

What Other Kind?

"What a nasty smell burned powder has!" said Johnny.

"Powder?" exclaimed his elder sister, Miss Maud, looking up. "Why, it hasn't any sm—oh, you mean gunpowder!"

And she turned a lovely, creamy shade of vermilion and became absorbed in her fashion magazine again.—Chicago Tribune.

HOME DYES THAT ARE FAST.

Easy to Make Beautiful Colors With the Reliable Diamond Dyes.

Scores of women in Plainfield are today wearing dresses of fashionable color that would have been thrown aside long ago had it not been for Diamond Dyes. With a ten cent package of these simple home dyes, even the novice can dye a fast and beautiful color equal to the work of the professional dye-house.

Cloaks, capes and shawls are readily dyed, so that a faded garment will look as though it was right from the shop.

Out of the 50 different kinds of Diamond Dyes, 12 are special fast colors for cotton and mixed goods, that will not crock or fade, even when washed in strong soapsuds. These dyes are made from a peculiar combination of dye stuffs, and cannot be had except in the Diamond.

For over twenty years Diamond Dyes have been the standard home dyes, and have taken the place of crude dyestuffs and unreliable package dyes in all parts of the world. This marvelous success has naturally inspired more or less worthless imitations, sold to the trade at a less price, and which unscrupulous dealers urge upon their customers. The only way to ensure success in home dyeing is to use only the Diamond, the strongest, fastest, and most successful of all dyes.

A Nice Assignment.

Managing Editor (to applicant for situation)—What experience have you had as an interviewer?

Mr. Jack Gall—Well, I've been pitched out of a third story window, been kicked down five flights of stairs and been horsewhipped by a woman; had three of my ribs broken; I have certificates of discharge from four hospitals and—

Managing Editor—That will do. You go up to the house of Teddy O'Toole, the prizefighter, get him out of bed and ask him what he has to say about being thrashed by O'Keefe.—London Tit-Bits.

A Reserved Decision.

"Don't you think the mince pie is good, Willie?" asked the housewife who prides herself on her culinary accomplishments.

"Yes'm—I think it is probably."

"But you have eaten three pieces."

"I know it, but I can't tell for sure till tomorrow morning. I had some mince pie last year that I thought was pretty good, but it didn't make me dream a bit."—Washington Star.

Trying to Please Him.

Fond Parent—It is very cruel of you, Bobby, to throw hot pennies out to that monkey.

Bobby—That's all right, mamma. It makes him think he has money to burn.—New York World.

Overstrained Himself.

Sauftley—No; I'm not very well, you know, I've thought once or twice lately.

Topsy—Good gracious! And then you wonder why you're ill. You shouldn't do such reckless things.—Pick Me Up.

It not only is so; it must be so, One Minute Cough Cure acts quickly, and that's what makes it go. L. W. Randolph, 143 W. Front St.

LAST EDITION.

THE DAILY PRESS

LAST EDITION.

EMBRYO EDITORS.

High School Students Will Issue a Paper of Their Own.

It is the custom in most all the large preparatory schools to issue an Anuual. The Plainfield High School has developed so much during the past years that the school has grown into a first-class preparatory school in which a student may obtain a preparation for any of the higher schools of learning. The matter of a High School Annual has been talked over in the meetings of the Kappa Delta Phi society, and it has been debated by the members of this society, who consider it to be a very good plan and have decided to take the matter up definitely by putting it into the hands of a board of Editors. The following Board was elected: Editor-in-chief, Chas. Noble; associate editors, Wilbur F. Cornwell, Charles M. Dolliver and J. Hazlewood Craig. There will be a meeting of the Board of Editors this week, at which meeting, if it is decided to go on with the Annual, arrangements will be made and the work begun in earnest, and the society will work toward the end of making the High School Annual superior to the annuals of the neighboring preparatory schools. The Annual will be issued by the Kappa Delta Phi society, but will contain all interesting school matter, and will not be confined to setting forth the work and doings of the society alone.

A BIRTHDAY ANNIVERSARY.

Miss Millie Terrill Entertains Her Young Friends at a Party.

The anniversary of Miss Millie Terrill's birthday was pleasantly celebrated Tuesday evening at her home on Arlington avenue. The young people present had lots of fun trying to put a tail on the donkey, but Millard Atchison succeeded in receiving first prize, while Morris Sutphen was awarded the booby prize. Miss Etta Raybert then entertained the audience with a few pleasing selections on the piano, after which games and dancing were enjoyed, concluding with refreshments.

Those present were: The Misses Cora Scull, Lillian Thorn, Edith Vail, Florence Rugg, Minnie Ulrich, Mattie VanHorn, Fanny Mills, Etta Raybert; and Messrs. Clarence and William Thorn, Percy McVoy, Morris Sutphen, Millard Atchison and Walter Hetfield, Jr.

NO INDICTMENTS REPORTED.

Grand Jury at Elizabeth Adjourned Till Today and Saloon-Keepers are Anxious.

The Union county Grand Jury did not finish yesterday its investigation of the Sunday law violations at Elizabeth, but at noon adjourned until this morning. From the present outlook it is doubtful if the jury will be able to make a report to the Court this week.

It is openly asserted on the streets that several well-known saloonkeepers are almost certain to be indicted for habitual selling on Sunday.

A License to Preach.

The business meeting at the First Baptist church was a short one, owing to the desire of the members to attend the revival meetings. Chas. B. Brown, who is now associated with the Minneapolis Y. M. C. A., applied to the church, of which he is a member, for a license to preach. Dr. Yerkes presented the application and spoke a few words in relation to it. He said that Mr. Brown was often called upon to preach, and if he was licensed it would be a material help to him. It was voted unanimously to grant him a license. Two young men came before the church for membership, and after they were admitted the meeting adjourned.

A Park Avenue Fracas.

At a late hour last night loud noises and voices were heard over Margintino's store on Park avenue. Policeman Frederickson and Night Watchman Rockafellow were attracted there and a few minutes later Policeman Cooney appeared. There was no trouble, however, as the tenants were only enjoying themselves trying to keep Margintino out. When the policemen appeared, a woman stood at the door with a broom and they did not know whether they were going to be assaulted or not.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

EFFECTS OF CHRISTIANITY

THIS IS REV. MR. NEWELL'S SUBJECT AT LAST NIGHT'S REVIVAL.

Some People Are Hard to Reach With the Word of God Because They Are Perverse in Not Wanting to Hear.

There was not room enough in the First Methodist church last evening for all who desired a seat, and a great many were obliged to stand. The service of song was under the leadership of Joseph Moon. After Miss Grace Carroll sang effectively "Lamb of God I Come," Dr. Carroll offered the opening prayer, then Rev. G. Kennedy Newell read a portion of the third chapter of the Gospel of John. His text was taken from the seventeenth verse: "For God sent not the Son into the world to judge the world; but that the world should be saved through Him." His remarks in part were as follows:

In the Garden of Eden we see for the first time where "He came to His own and His own received Him not." Disobedience makes us want to hide ourselves from God. There are some special truths which some persons never like to hear as they stay away from the church and the Sunday-school for fear they will hear them.

They pick up a newspaper and their eyes meets this truth in some item, and they stop reading. The idea is that they want to escape this particular sin, and cover it up. How many persons there are that remain away from church and prayer meeting just because they are afraid they will hear something that don't suit them, then there are others who can attend services and not be affected in the least, no matter what the minister may say. I remember a professor in the Seminary I attended whose very manner of walk was an inspiration. He was a godly, upright man and yet he never talked to the students that he did not confess his own unworthiness. A man feels his sins most when he feels God's presence most. How many really desire his spirit and power to rule our lives and heart. Jesus Christ came to awaken us out of our sleep, and to save us from sin. "If we confess our sins he is faithful and just to forgive us our sins and cleanse us from all unrighteousness." If we could realize how the Lord Jesus Christ suffered for us on the cross, when he cried, "God why has Thou forsaken Me?" we would be willing to give him our hearts. Don't let your sins separate you from God, but give your hearts to him now.

Mr. Newell closed his remarks with a fervent prayer. Dr. Richards then announced that upon request the after meeting would be held in the chapel. He then gave a short earnest talk to those present, urging them to consecrate themselves to God and to give their hearts to him. A large number accepted the invitation and went to the chapel, where a most profitable service was held and many gave evidences of a desire to lead a better life. A feature of the first meeting was the presence of about thirty members of H. R Munger's Sunday-school class from Hope chapel who occupied reserved seats in the front of the church. They were also present at the after meeting and assisted in making the service one of blessing.

A Small Robbery.

The clothesline in the yard of Isaac R. Giles, of East Sixth street, was robbed Tuesday night of the clothes hanging on it, as was also the line in the yard of the Misses Scribner and Newton's School, at the corner of LaGrande avenue and Washington street, belonging to Mr. and Mrs. John Hafner, who occupy the school building. There is no trace of the thief.

Works of Art.

Several dainty pieces of china, decorated and fired by Miss Beatrice D. Craig, are on exhibition in the show window of J. Hervey Doane, the Park avenue jeweler. Miss Crane is giving lessons in painting and has a modern kiln and does the firing for herself and customers.

Thieves Active at Westfield.

Thieves Tuesday night stole a horse worth $100, and a set of harness valued at $15, from Ira Lambert, a milkman who lives on Broad street. A set of harness, a buffalo robe, a coachman's overcoat, and a new pair of rubbers, in all $50 worth, were also stolen from Mrs. Brieb, on Summit avenue.

The Inspector Sworn.

Thad. O. Doane was sworn in yesterday afternoon as inspector of buildings before City Judge DeMeza.

A New Librarian.

Clement B. Morgan is now filling the position of librarian at St. Stephens' church.

RARE OPPORTUNITIES.

Talented Men Giving Lectures in This City at Low Prices.

The lecture loving public has no occasion to find fault with the facilities for attending lectures in Plainfield this winter. The University Extension lectures given by Dr. Riggs, of Rutgers Theological Seminary, New Brunswick, are full of instruction and entertainment. Dr. Riggs is a thorough scholar with an entire mastery of his subject, "The Eastern Question," and his style of delivery is fluent and graceful. Now we are told that arrangements may be made for a permanent course of University Extension lectures, in which the low price of admission will place them within the reach of all.

In addition to these, the lectures delivered before the Monday Afternoon Club at the Casino, have been reduced to 25 cents each. The large audience that listened to the Art lecture given by Kenyon Cox, on Monday, showed the appreciation of the Plainfield public, who will doubtless avail themselves of the opportunity to hear the lectures that are to follow on the subjects under consideration by the club.

THE LINCOLN DINNER.

The Union County Lincoln Club Will Banquet at Plainfield.

The annual dinner of the Union County Lincoln Club will be held this year at the County Country Club house in Plainfield. The arrangements are nearly perfected, and the affair promises to be unusually interesting. Dr. Lloyd, who was the speaker last year, will make an address, and other speakers will be General John A. Wise, Senator Stokes and ex-Congressman Roswell G. Horr. A circular with full particulars will be issued shortly. A special train to convey Elizabeth guests home will leave after the dinner.—Journal.

AWARDED $1,000 DAMAGES.

Mrs. Camman Given a Verdict Against the Western Union Company.

The suit of Mrs. Ida. A. Cammon against the Western Union Telegraph Company for injuries received by falling into a hole dug by the company on Rahway avenue for a pole, was tried yesterday in the Union County, before Judge Van Syckel.

The jury retired at noon, and after being out only ten minutes, returned with a verdict for $1,000 for the plaintiff. She had sued for $10,000.

Cause of Sewer Leakage.

It seems that part of the leakage in the Richmond street sewer was caused by the gas explosion which cracked a number of pipes just north of Putnam avenue. The street is be opened towards LaGrande avenue in order to examine and re-cement any joints found defective. The ground was full of water when the sewer was laid, and probably will be wet again in the spring, so it is desired to make the sewer tight before the water rises and connections are made.

The Squirrel Retaliated.

Mr. Bennett, of Duer street, has several tame squirrels which he allows to run about his yard at times. Yesterday afternoon Walter Swain and John Doud noticed one of the squirrels in a tree near Mr. Bennett's house. Both boys attempted to get the animal first. Walter Swain succeeded, however, but as a result the squirrel bit him severely on his left hand. He now says that he will have nothing more to do with squirrels.

To Install the Officers.

A big time is to be held at the meeting of Queen City Lodge, No. 226, I. O. O. F., Monday evening, when the officers are to be installed. Plainfield Lodge, No. 44, has accepted an invitation to attend the installation. Representatives from several other lodges are expected.

Newark Branch, Telegraphers' Union, No. 18, gave their sixth annual ball in Germania Hall, Somerville, last evening. A large number from Plainfield attended. The music for dancing was furnished by O'Reilly and his full orchestra.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

NOT AS INDOLENT AS PICTURED.

Miss Carter Says That the Red Men Are Industrious as a Rule.

The afternoon session of the Women's Auxiliary to the Board of Missions of the Upper Division of this State, held yesterday in Grace P. E. church, was a most interesting one and Miss Sybil Carter, who is laboring among the Indians in the far west gave the address of the afternoon. Those who have heard Miss Carter need not be told that she is a very able speaker. She has her special line of work very much at heart and the entertaining manner in which she related her experience was a pleasure to all. She made an earnest appeal to those present to assist her in the work by generously contributing useful articles of clothing for the Indians. The idea that the Indians were a lazy and indolent race was dispelled by Miss Carter when she told about the genius that had developed within the past few years. They are very anxious to learn trades, receive instruction, and be able to earn their own living The women are also industrious, as was shown by the samples of elegant lace, which were on exhibition.

Her remarks were the means of enthusing all present to do more than ever in this branch of the Lord's work. Miss Carter now has charge of eight missions.

Mrs. Roberts, of Riverton, Vice-President of the Indian work, followed with a helpful talk on giving. She urged all to exercise more system in their beneficience. Mrs. White and Mrs. Williams, of Elizabeth, and Mrs. Ryder, of this city also made short addresses along the lines o fsystematic giving. Miss Carter received a number of gifts of money for her work as the result of the earnest words spoken. After a vote of thanks had been extended to the women of Grace church the meeting adjourned.

EXHIBITION OF ANTIQUES.

That Will be One of the Departments of the Hope Chapel Fair.

The Hope Chapel Industrial Fair will be held Wednesday, Thursday and Friday, Feb. 12th, 13th and 14th. The various committees are hard at work and the affair gives promise of being very fine. A feature will be a loan exhibition of articles that are very old. Mrs. Phœbe Foster, of the borough, has loanod a bound volume of "The Christian Watchman," which is 67 years old, and an old-fashioned butter ladle 100 years old, is loaned by Mrs. Radin. All goods loaned will be perfectly secure against fire or theft, as Rev. G. Kennedy Newell, H. R. Munger and H. G. Squires have the matter in charge and have taken necessary stops toward such protection. A large collection of articles will be loaned by the Camera Club.

Surprised By Friends.

A very pleasant surprise party was given to Miss Alice McAfee last evening at her home on East Second street. The affair was arranged by some of her friends. The evening was passed very enjoyably in dancing, games and singing. Supper was served at half past nine o'clock. Those present were the Misses Katie Lawless, Nellie Callahan, Katie Ryan, Alice Sharkey, Lucy Jennings, Clara Weber, Katie Kelly, Anabella McAfee, Annie Callahan, and Messrs. Leonard Jennings, John Callahan, Walter Sharkey, John Ryan, Donald Bectal, Chester Allen, Henry Roche, Joe Roche, Willie Gloak, and Daniel McAfee.

At Hymen's Altar.

Cards have been issued by Lemeul Wright Serrell inviting friends to the marriage of his niece, Miss Edith Harold to William Oscar Chapman on Thursday evening, February 6th, at half past seven o'clock in the First Baptist church. A reception will follow, given by Mr. Serrell and his daughter, Miss Serrell, at their home, 625 West Front street. Mr. and Mrs. Chapman will be "At Home," to their friends, on Mondays, March 2d, and 9tth, at 625 West Front street.

Verdict for the Plaintiff.

The contract case of Petke against Verette was tried in Justice Newcorn's court this morning and judgment rendered for the plaintiff. In the case of Barry against Verette on contract, also tried this morning, the Justice reserved his decision till January 24th.

Some Skating Still.

Despite the snow and warm weather there is still skating on New Market pond. Every afternoon the pond is frequented with skaters from Plainfield, Dunellen and New Market.

Miss Jessie Haynes, of Dunellen, entertained a few friends at her home last evening. A very pleasant even was spent.

JAWS OF DEATH OPEN.

MIRACULOUS ESCAPE FROM A HORRIBLE WRECK ON THE CENTRAL.

Express Stopped Just as the Axle of the Engine Broke—Train Had Been Running a Mile a Minute Before This.

The passengers on the six o'clock express from New York on the Jersey Central road had a narrow escape from being victims of a terrible accident last evening. As the train started out of the Elizabeth station the axle connecting the two rear driving wheels of the engine snapped and the heavy engine was wrecked.

When an investigation was made it was discovered that the steel axle, which is about eight inches in diameter, had snapped off close to the right hand driver and that an old flaw was in the steel, so that thus the heavy engine had run, no one knows how long, depending upon one-fifth of the axle, a piece about two inches thick in the centre.

The train consists of from eight to ten heavily loaded passenger cars, and runs to Elizabeth in twenty-two minutes at express speed, without any stops. Railroad men upon viewing the wrecked engine, were astounded at the miraculous escape the train had had from a terrible catastrophe, for, as an old engineer said:

"Had that small piece of axle given away while the train was making its run from Jersey City to the Elizabeth draw-bridge, during which it runs nearly a mile a minute, there would have occurred one of the most terrible railway accidents that has ever occurred in this section of the country."

"As you can see from the condition of the engine as she lies, the sudden collapse of that axle and the spread of the drivers would have piled the engine and her long train in a heap before you could say Jack Robinson. I tell you what, boys, that is one of the closest shaves I ever saw in my railroad experience."

Engineer Watson, upon being congratulated upon his lucky escape, interrupted the speaker by exclaiming:

"My friend, lucky escape doesn't express it. I and every passenger in my train has cause to express in prayer their thanks for a miraculous deliverance from a terrible death."

The train had stopped at the Elizabeth station, unloaded the Elizabeth passengers and had just started out for Dunellen, the engine having passed over the Union street bridge when the break occurred. The wheels had just before struck the point of a switch, and the sudden jolt this occasioned is supposed to have caused the weak axle to give way. The passengers bound for points west of Elizabeth were transferred to another train, and after hours of labor the wrecked engine was removed to the company's shop, after blocking the main track for four hours.

Indians in Town.

The howls of wild Indians could be heard last evening on West Second street. The occasion was that a pale face was found astray in the forest and was captured by the swift runners of tribe of Indians with the long name Paugh-Caugh-Naugh-Sinque. After being satisfied that the pale face would act in harmony with them they at once went in secret session, smoked the pipe of peace, and elected that popular young lawyer, Harry C. Runyon, as chief of records. Deputy Great Sachem Ulrich and staff installed the above chief as chief of records for the ensuing year. A committee was appointed to make arrangements to return the compliment of Po-Ambo Tribe of Perth Amboy.

More Lectures by Prof. Riggs.

The committee having in charge the lectures of Professor Riggs on the Eastern Question are happy to announce that he will deliver three additional lectures on the following subjects: The Russo-Turkish war of 1877-78; the Arabs and the Calphate; the Revolution of 1882 in Egypt. It is expected that these lectures will be delivered at the Crescent Avenue church on January 28th, February 4th, and February 11th.

Increasing Interest.

The Y. W. C. T. U. held the largest attended meeting of the season yesterday afternoon at the home of the president, Miss Lulu Lewis. Business of a routine nature was transacted. It was announced that Miss Campbell, of New Brunswick, would address the members next Thursday afternoon at 3:30 at the home of Miss Titsworth, 414 West Seventh street. It is hoped every member will be present.

For Breakfast.

Have you tried the new breakfast food "Grainlet" prepared by the Hygienic Food Co., Orange? At all grocers.

HE LOVED TOO MANY.

A Mechanic's Escapade the Gossip of His Shopmates.

There was a hurried departure at the Scott Press Works yesterday which is causing a great deal of gossip among the employes in the machinists department today. Sometime ago a young man came here from Westerly, R. I., and procured work at Scott's and boarded not far from the shop. He was a dapper young man and of good bearing and ready conversation. He soon made the acquaintance of a Plainfield young lady and became her steady company. Finally, Dame Rumor became interested in the pair and she soon spread the report that the darts of Cupid were soon to pierce the hearts of the two and make them beat as one. Shortly after this, or about the time that the shop shut down for repairs during the holidays, one of the dapper young man's shopmates took a trip to Westerly.

While there he met several people who knew the young man and made anxious enquiries as to how he was getting along. They stated that his wife was very anxious to hear from him.

This somewhat astonished the man from Plainfield and he immediately investigated and found that such was the case. He looked wise and said nothing, however, but came home. He learned that the Westerly youth was still smitten with the charms of the Plainfield girl and was making arrangement for the wedding soon to be held. A day or two ago he accused the embryo Don Juan of being married and blows between the two were narrowly averted by their shopmates. Yesterday, during the noon hour the Westerly young man quietly packed up his tools and when the hour of 1 o'clock came he was non est. Before this, however, the wife in Rhode Island had been notified of the condition of things in this city and she is momentarily expected here on a mission to call her hubby down, but now it will be a useless visit.

Got His Wheel Back.

Louis G. Timpson, who had his his Columbia wheel stolen during the week of the Kirmess, which was held in November, had the good fortune to recover it this morning. It happened that James F. Buckle, of the firm of Woolston & Buckle, had purchased the wheel and through a friend, Mr. Timpson learned where the bicycle was. No explanation was necessary as Mr. Timpson recognized his wheel at once.

Robert Wyckoff, of the Columbia Cycle Academy, managed to learn that the bicycle was purchased from T. J. Peppard. Mr. Timpson swore out a warrant before Justice Nash and Constable Mattox arrested him. He claimed that he purchased the wheel from a man named Frank Bird, in Pond's or Potter's works. No one by that name is employed there, however.

Printing In Three Colors.

What will be one of the greatest attractions at the loan exhibition of the Plainfield Camera Club has just been arranged for. The Sun and Shade Art Publishing Company has offered to send one of its new presses to the exhibition which prints in three colors at once. The press will be run and samples of the work done by it distributed. There will also be a large exhibit of this kind of work.

Preparing for the Exhibition.

The Plainfield Camera Club is making great preparations for the loan exhibition next month. Woolston & Buckle have been given the contract for tinting the walls in the main room an Indian red.

Justice Mosher's Court.

Summons was issued today by Justice Mosher in the case of Jessup against Kriney, on contract, returnable on Jan. 29th. S. S. Swackhamer represents the plaintiff.

—The Ladies' Aid Society of Hope chapel met yesterday afternoon in the chapel and spent a very profitable time making useful articles for the Children's Home.

—Jed and Will Smalley are negotiating for the purchase of the butcher shop of their brothers, David and Albert, corner of Somerset and Race streets, North Plainfield. If they get it they will close up their present place of business.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

GOLD IN UNITED STATES

$580,000,000 the Amount Estimated To-day.

$100,000,000 in the United States Treasury, $168,000,000 in National Banks and $312,000,000 in Private Banks, Trust Companies and the Pockets of the People.

Washington, Jan. 23.—The abstract of the condition of the 3,705 national banks on December 13 last, as compiled by Comptroller Eckels, has just been made public. It shows that they have $2,020,960,000 in loans and discounts, and $1,720,650,000 in individual deposits. The specie holdings are stated at $206,712,410 of which $168,244,430 was in gold. On September 28 last, the gold in the national banks was $162,925,290. The gold held by the national banks in the eastern states on December 13 last is as follows: New York, $57,708,485; Pennsylvania, $17,775,431; Massachusetts, $12,502,689; Maryland, $2,838,489; Connecticut, $2,318,133; New Jersey, $2,103,605; Maine, $921,283; Rhode Island, $736,941; Vermont, $515,226; New Hampshire, $445,319; Delaware, $154,030. On Jan. 1, 1896, the treasury's official circulation statement placed the stock of gold in the country at $613,205,000. Mint Director Preston estimates that to-day there is $580,000,000 of gold in the United States. According to the treasury's statement there is to-day in the treasury in round figures $100,000,000 in gold, of which $49,859,000 is covered by gold certificates outstanding. The treasury gold of $100,000,000 with that of $168,000,000 in the national banks makes $268,000,000, which, if Mint Director Preston's figures of $580,000,000 in the United States is correct, makes $312,000,000 of gold in trust companies, private banks and in the pockets of the people.

THE DEATH OF ASTRUP.

Herbert L. Bridgeman Talks About the Late Explorer.

Brooklyn, N. Y., Jan. 23.—Herbert L. Bridgeman, speaking of the loss of Elvin Astrup, of two Peary expeditions, said: "During the six weeks' constant companionship on the crowded little sealer Galcon we naturally became acquainted, and the friendship then begun continued to the end uninterrupted. He was rather more of a scientist than some of the other members of the Peary returning party. Last fall he was pursuing balloon work under the instruction of Andree, whose expedition to the north is proposed for next summer, writing in one letter that they had reached an altitude of over a mile, and were expecting soon to get much higher. There is in Astrup's end a striking likeness to that of his associate and companion on the first Peary expedition, Mr. Verhoeff, who, it will be remembered, separated from his companions to cross alone a glacier and was never afterwards heard of. One of the most imperative rules of every exploring party, whether in the Arctic or elsewhere, is that no one shall leave headquarters alone. Had either Astrup or Verhoeff been accompanied both might perhaps have been alive to-day."

MAY SUE THE TOWN.

Creditors of Foxcroft's Defaulting Treasurer Meet.

Foxcroft, Me., Jan. 23.—There was a meeting in the Dover court house yesterday afternoon of thirty odd creditors of the town of Foxcroft in the defalcation of S. J. Hale, late town treasurer. After a rather unsatisfactory session a committee of five was appointed by those present to confer with lawyers regarding the bringing of a suit against the town, the case to be entered at the February term of the court. A prominent lawyer here is of the opinion that several cases will come before the term of the supreme judicial court meeting here in February, then go to the supreme law court one year from June, which will be the earliest date that a settlement may be expected.

JAMESON SAILS FOR HOME.

Officers Who Accompanied Him in the Transvaal Raid Also Sail.

London, Jan. 23.—A dispatch from South Africa says that Dr. Jameson and the officers who accompanied him upon his invasion of the Transvaal have embarked for England at Victoria and Durban.

Seeking a New Trial for Chapman.

Washington, Jan. 23.—George F. Edmonds, Shellsburger & Wilson and A. J. Dittenhoefer, counsel for Elverton R. Chapman, convicted Saturday last of refusing to answer certain questions asked him by the senate sugar trust investigating committee, yesterday filed a motion for a new trial, and also one in arrest of judgment. There is little doubt that Judge Cole will refuse the motion.

Princeton Will Take Part.

Princeton, N. J., Jan. 23.—It has been decided by the management of the Princeton University Track Athletic association to take part in the indoor meet of the Boston Athletic Association to compete with teams from Yale and Harvard and the University of Pennsylvania on February 8 at Boston.

A Challenge from Yale.

Berkeley, Cal., Jan. 23.—The athletic team of the University of California has received a challenge from the Yale team to engage in a number of contests next May, when the local athletes expect to go east. The challenge will probably be accepted.

GOV. MONTON'S RECEPTION.

A Most Brilliant Event at the Executive Mansion Last Night.

Albany, Jan. 23.—Governor and Mrs. Morton last night gave their annual reception to the members of the legislature and the members of the state bar association and their wives. Invitations had been issued to the members of the legislature, state officers, members of the state bar association, judges of the court of appeals, supreme court justices, New York state representatives in congress, the mayors of cities, members of the republican state committee, the brigade commanders and staffs and the chairmen of the republican county committees. Thomas C. Platt, Chauncey M. Depew, Warner Miller, Frank Hiscock and others sent their regrets on account of previous engagements, and their absence took away the political aspect with which it was expected the reception would be imbued. The mansion was brilliantly lighted throughout and the interior resembled a conservatory, so plentiful were the flowers, plants and ferns scattered throughout the spacious rooms and halls. The entire first floor of the mansion was thrown open for the general assemblage of guests. The number of guests was so large, that dancing was not indulged in until nearly 11 o'clock. Just beyond the entrance to the drawing room the scene was especially brilliant. To the left, just within the heavy curtains, stood governor and Mrs. Morton, assisted by Mrs. Hamilton Fish and Helen Morton. About this central group were standing several members of Gov. Morton's staff, in full dress uniform, and prominent judges and politicians. As soon as the guests entered the line and came within reach of Col. Selden E. Marvis, jr., Gov. Morton's military secretary, the latter introduced them to the hostess, who greeted them warmly and in a second passed them on to the governor. Mrs. Morton was as usual becomingly gowned. Her costume was of rich violet velvet embroidered by hand with cut steel, and many superb diamonds gleamed in her masses of snow white hair or amidst the laces on her corsage. Miss Helen Morton was simply and very exquisitely dressed in pale pink satin with spangled tulle. Mrs. Hamilton Fish wore a handsome gown of heavy pink satin, embroidered with rhinestones, and with some fine old lace upon the bodice. She wore diamond ornaments.

CLAIMS OVER $100,000.

An Unrepealed Statute in Favor of Toronto University Unearthed.

Montreal, Jan. 23.—The senate of Toronto university has made a claim against the province of Ontario, or the Dominion of Canada, for more than $100,000. Thomas Hodgins, in searching through old papers in the possession of the province, discovered documents which are the foundation of the claim and is now preparing a report on his discovery. In 1828 an act was passed granting $1,000 a year to an educational institution, which afterwards became King's college, and later Toronto university. Records show that the grant was paid by the province in 1828, 1829, 1830, 1831 and half in 1832. It was then discontinued for no obvious reason, and no statute can be found which nullifies the act. From this source about $55,000 is due to the institution. From other grants made about the same time, the sum will be raised to almost double that amount. One of the questions to be determined is whether the province or dominion is responsible if the claim is established. The board of trustees, to whom the matter has been left by the university authorities and the senate, will meet the Ontario government to-day and discuss the question, and ask that the subject be left to the courts of law to decide.

MODJESKA SERIOULY ILL.

Suffering from a Clot of Blood on the Tissue of the Jugular Vein.

Cincinnati, Jan. 23.—Madame Modjeska is not only unable to fulfill her engagement here his week, but it is feared it will be many weeks before she can act again. Her doctors have issued the following bulletin: "Madame Modjeska was attacked with phlegmasia, a serious affliction. The swelling on the left side of the neck is very painful and renders any movement of the arm almost impossible and absolutely incapacitates her from filling her engagements. The doctor explained that phlegmasia is a clot of blood resulting directly from the inner tissue of vein injured or torn in some manner, possibly from a strain, preventing free circulation. In the case of Modjeska it is serious, for the reason that the clot is in the jugular vein. Although her case is considered serious the doctors are hopeful of her recovery.

State Bank Organized.

Albany, Jan. 23.—The Madrid bank of the village of Madrid, St. Lawrence county, has filed a certificate of organization with the state banking department. The capital is $25,000 and the bank will do a general discount and deposit business.

Chautauqua Association.

Buffalo, Jan. 23.—The twenty-fourth annual meeting of the Chautauqua association, comprising the assembly and university, was held here yesterday. The treasurer's report showed $126,821.51 had been received during 1895, and $122,102.18 disbursed.

MANY LEAVING HAVANA

Cuban Residents Fear for Their Safety.

Nothing for Them To Do But To Leave or Join the Insurgents—Business at a Standstill—Gen. Pando Consults as to Future Plans of Campaign.

Havana, Jan. 23.—Gen. Pando is here consulting Marin and other generals as to the future plan of campaign. Gen. Pando takes charge of field operations and Gen. Marin remains here until the arrival of Gen Weyler early next month. The Cubans here are alarmed regarding the safety of themselves and families though they have taken no active part in the war. Every steamer carries crowds. Since it was announced Gen. Weyler had been appointed, 1,000 holding American papers of citizenship have had them vised good for one month. The Cubans say they must choose between leaving the island and joining the insurgents. There is much wild talk regarding Gen. Weyler's methods in the last war. They fear a reign of terror after his arrival. Campos' departure is deplored by Cuban residents, foreign merchants and others, except the intense Spaniards.

Business at a Standstill.

Business is prostrated. The merchants close their stores evenings, saying that they cannot afford the cost of gas. The only sugar estate on the island known to be grinding is the Toledo, just out of Havana. It has a special guard of 3,000 troops. The rebels threaten to burn it. The fine crop of cane on other estates is uncut. Owners fear the loss of mills if they violate Gomez's order. The latter is now thirty miles southwest of Havana. Three columns of troops have pursued him for a week. As Gomez's men are mounted and the troops are on foot it is not likely that they will overtake him.

THE MURDER OF MISS HILLS.

Nothing of Importance Has Yet Been Brought Out.

Mamaroneck, N. Y., Jan. 23.—The only thing of importance that has developed within the past twent-four hours relative to the death of Miss Mary E. Hills, who was found murdered in her cottage in Bonny Brook park yesterday afternoon, is the fact that she had probably been dead for several days when found. The last time that she was seen alive was on Thursday last about 5 o'clock in the afternoon, when she went to John O'Connor's grocery store on Mamaroneck avenue and bought her usual supply of groceries. A cursory examination of the body made by Coroner Banning to-day revealed that the left shoulder was dislocated and that the body was badly marked. Another and more pronounced discovery was made by the coroner which, it seems, would tend to deepen the mystery. The coroner ordered a post-mortem examination which will take place this afternoon. It is said that the dead woman was subject to epileptic fits, but her brother flatly contradicts the statement. It will require the autopsy to determine the immediate cause of death. The coroner now says that he believes the woman smothered to death. There is a story afloat to the affect that Miss Hills' death was due to starvation and that no murder was committed. This, it is said, is based on an examination made by a coroner's physician.

Depew Feels Gratified.

Albany, Jan. 23.—Hon. Chauncey M. Depew before leaving here last night expressed himself as very much gratified at the action of the State Bar association, which, with an attendance of 300 lawyers, passed a resolution unanimously indorsing his proposition for the creation of an international court of arbitration.

DEATH OF BATTENBERG

Princess Beatrice Almost Crazed With Grief.

Queen Victoria, Greatly Affected, Abandons the Proposed Review of the Flying Squadron—Brief Sketch of the Prince, Whose Life in England Was Not a Happy One.

London, Jan. 23.—Prince Henry of Battenberg, who it is announced died of coast fever on his return voyage from Cape Coast Castle where he was engaged with a British expedition against the Ashantees, was the husband of Princess Beatrice, youngest daughter of Queen Victoria. Princess Beatrice is almost crazed with grief and the queen was intensely agitated on receipt of the news. She intended to review the flying squadron to-day, but this has now been abandoned. Latest dispatches say that the prince died on the 20th inst. on board the British cruiser Blonde.

The Court Circular.

The Court circular, referring to the death of Prince Henry of Battenberg, says a terrible blow has fallen upon her majesty and Princess Beatrice. Then follow brief details of the prince's illness and death, after which the circular says: "The queen is most deeply afflicted by seeing her beloved daughter's happy life crushed and by losing a most amiable and affectionate son-in-law, to whom she was much devoted."

Prince Henry's Career.

Prince Henry Maurice of Battenberg was a son of Prince Alexander of Battenberg (Hesse) and the Countess Von Lauck, daughter of a former Polish minister of war, who was raised to the rank of princess on her morganatic marriage with the ruler of Hesse. He was born on October 5, 1858, and married on July 23, 1885, Princess Beatrice Mary Victoria Feodora, the ninth and youngest child of Queen Victoria. On the day of his marriage he received the rank of royal highness by letters patent from the queen. He was later appointed governor of the Isle of Wight and of Carisbrooke castle. In November last Prince Henry joined the British Ashantee expedition in a special capacity and sailed on December 7. When the Ashantee picnic, as it was called, was organized there was considerable criticism of certain special arrangements which had been made for the comfort of the husband of the queen's favorite daughter. However, it is not believed that these plans had been made by the prince himself. His position in England was never a comfortable one.

Snubbed by His Royal Relatives.

His poverty previous to his marriage was well known. It must have galled a young man of some spirit to have his dependence cast up in his face at every opportunity. He was not loved by his royal relatives any more than by the average British taxpayer, who provided him with a salary that was not the reward for any work done. The general view is that Prince Henry was anxious to go on the expedition for the chance that it offered of winning his spurs. He was not without courage. At least it is impossible to imagine a brother of Alexander of Bulgaria absolutely without that quality. There can be no doubt that if there had been any fighting, and if Prince Henry had returned to England after a baptism of fire, his circumstances would have been very much improved, and he might even have obtained the respect of the public.

MINER DULY ELECTED.

The Theatrical Manager Given a Seat in the House.

Washington, Jan. 23.—The committee on elections No. 2 reported through Mr. Johnson, rep., Ind., resolutions declaring that Henry C. Miner, the regular democratic candidate for congress from the Ninth district of New York, was duly elected and entitled to the seat now occupied by him, and that Timothy J. Campbell, the independent democratic candidate, was not elected. The report showed that Campbell had produced no evidence to sustain the allegations made by him in his notice of contest.

Nantucket in Good Fighting Trim.

Raleigh, N. C., Jan. 23.—Francis Winslow, commander of the North Carolina naval reserves, reports that the monitor Nantucket at Wilmington, has in ten days been put in good fighting shape, as far as her machinery is concerned; that the engines are serviceable and that the turret revolves properly.

Interscholastic Athletics.

New Haven, Conn., Jan. 23.—It is announced here that an interscholastic track athletic league composed of teams from Andover, Lawrenceville, Hotcokiss, Westminster, Hill and Worcester schools is assured. The first meeting is to be held at Yale field in May or June of this year, and the next meeting at Princeton.

Encountered Terrific Weather.

St. Johns, N. F., Jan. 23.—The steamer Portia reports having encountered terrific weather, and that her decks were swept and her deckload carried away. She was also blown out of her course.

Kaiser and Czar.

Paris, Jan. 23.—The rumor that the emperor of Germany and emperor of Russia intend to have a meeting at Laturble is gaining strength in diplomatic circles.

QUEBEC'S ICE CARNIVAL.

Elaborate Preparations Now Under Way for the Winter Events.

Montreal, Jan. 23.—Advices from Quebec state that the preparations for the winter carnival are well under way, and it promises to be the most successful ever held in Quebec. The principal ice structure will be erected on the walls facing the parliament buildings in the form of a spiral tower 130 feet high. On each side of the tower a wall consisting of blocks of ice has been erected, and at both ends of this wall are ice forts. In the lower town a very large ice arch is now well under way, while at Champlain Market place a monument, with a statue in ice representing Champlain, will be erected. In St. Roch's a fort is being constructed near the railway station which will be manned by snowshoers on the arrival of Lord and Lady Aberdeen. Fortifications in snow will also be built around the square. At the Jacques Cartier Market place another fort is fast approaching completion, and another ice tower is being put up at the Place St. Pierre, St. Sauvir. Besides these ice constructions an immense snowball, sixty feet high, is building between the Basilica and new city hall.

THE RENAN LIBRARY.

Cornell University Fails in Its Efforts To Secure It.

Ithaca, N. Y., Jan. 23.—President Schurman has given out the following statement: "I regret to announce that A. Abraham of Brooklyn has been defeated in his effort to enrich Cornell university. Mr. Abraham authorized me to purchase the late Ernest Renan's great oriental library as a gift to Cornell. My offer was on the point of acceptance when Mme. Calmann-Levy, widow of Renan's publisher, telegraphs that she will present it to Bibliothique Nationale." The manuscripts and printed works annotated by Ernest Renan have already, in accordance with the terms of his will, been deposited in the National library at Paris, and soon the remainder of his books, with a few exceptions, will be at the service of the public. The exceptions are the books presented to Renan by his contemporaries. These will remain in the keeping of his family. The library purchased by Madame Calmann-Levy consists of 5,516 volumes.

WHITE CAPS ACTIVE.

Work of the Nocturnal Mobs in Carroll County, Va.

Winston, N. C., Jan. 23.—News has been received here that white caps in Carroll county, Va., near the North Carolina line, have become desperate in that section. During the past week they visited the houses of three different parties. One was Lacy Worrell, a man suspected of being a revenue informer. They cowhided him unmercifully and ordered him to leave the county at once. He is now in West Virginia and has sent for his wife and family. Another victim was Will Dalton. He was hung to a limb three times until almost dead, then, after a severe flogging, was turned loose.

PETER RELYEA DEAD.

The Undertaker Who Had Charge of Lincoln's Funeral.

New York, Jan. 23.—Peter Relyea, the undertaker who had charge of Lincoln's funeral, died of old age at his home in Williamsburg, yesterday. He was born in Ulster county, New York, in 1815, and came to this city in 1830. In 1841 he established the first undertaking shop on the east side. Relyea moved to Williamsburg twenty-five years ago. He commanded a company during the Astor place riots and was a member of the Masonic Veteran association of New York, and belonged to other Masonic organizations.

CONNECTICUT ARMORIES.

Their Use for Fairs, Meetings and Amusements To Be Prohibited.

New Haven, Conn., Jan. 23.—Gov. Coffin will soon issue an order forbidding the use of Connecticut armories for fairs, meetings, amusements, or any purposes not military. This will cut off the revenue several thousand dollars to the state, but will avoid constant and vexatious interference with drills and other military uses of the buildings.

SOME SAY UN-AMERICAN

Wolcott's Attack on Davis' Resolution Criticized.

The Colorado Senator, However, May Be Found To Have a Few Supporters When the Matter Comes to a Vote—One Part of His Speech Greeted with Applause.

Washington, Jan. 23.—While Senator Wolcott's speech antagonizing the proposed extension of the Monroe doctrine is characterized by some of the over zealous as decidedly un-American, and by others as tadying too much to the British lion, there is every reason to believe that the Colorado member has several friends on the floor of the senate who will be found with him when the the Davis resolution comes up for final action. With an ardor and eloquence that arrested the attention of senators on both sides of the chamber and of crowds in the galleries, Mr. Wolcott spoke of the aid given by Great Britain to the people of Venezuela in breaking the Spanish yoke, and said that those who were to-day attacking Great Britain as if she were the oppressor of Venezuelan liberties would do well to read the history of those early and bloody times. If it were not for the heroic and reckless valor of the British legion at one of the decisive batties in that war of independence, it was very possible, he said, that Venezuela would not now be free. He spoke contemptuously of the people of that republic, less than one per cent. of whom, he said, were white, the rest being Indians, negroes, mulattoes and zambos. And he expressed the hope that the boundary line would be found where it would leave the rich gold fields of that region where the English-speaking miners would not be subject to the cupidity of Venezuelan harpies, but would be under the shelter and protection of the English common law. He spoke of the diplomatic correspondence on the Venezuelan question as irritating; of the president's message as ill-advised, and of the appointment of the commission, without invitation of the countries interested, as premature and hasty. The peroration, which was heartily applauded, was in these words: "May these, the great nations of the same speech, tradition and lineage, be found standing together, shoulder to shoulder, in the interest of humanity, both in compelling peace and awaiting the day when 'nation shall no longer lift sword against nation, nor shall they learn war any more.'"

UNDER SUSPENDED SENTENCES.

Hyams Brothers To Be Released After Pleading Guilty to Fraud.

Toronto, Jan. 23.—The case of Harry and Dallas Hyams, charged with conspiracy to murder Mrs. Harry Hyams for her life insurance, was called in police court yesterday, but the defense not being ready another adjournment was taken until to-morrow when the case will finally be disposed of. It is understood that all the charges against the prisoners will be dropped except that of fraud, to which they will plead guilty, and will be allowed their liberty on suspended sentences, thus giving them an opportunity to leave the country, which they are anxious to do. Counsel for the Hyams admitted this morning that this course has practically been agreed upon by both sides.

DELAY FOR "BAT" SHEA'S CASE

Judge Mayham Will Not Hear the Motion for a New Trial.

Albany, Jan. 23.—The hearing on the application for a new trial for "Bat" Shea, which was to have been heard on Saturday before Justice Mayham of the supreme court at Schoharie, will not take place on account of the death of a son of Judge Mayham. Mr. Hitt, Shea's counsel, has not yet determined what course will be pursued.

Big Iron Works To Resume.

Buffalo, Jan. 23.—The firm of Pratt & Letchworth, malleable iron workers, which recently shut down, has been reorganized as the Pratt & Letchworth company and will resume business. Part of the works were put in operation yesterday and in about four weeks between 500 and 600 men will be employed.

Confirmed by Maryland Senate.

Annapolis, Md., Jan. 23.—The senate has confirmed the nomination of Hon. George M. Russum of Caroline county to be chief judge of the second judicial circuit in place of judge John M. Robinson, deceased. He is the only republican member of the Maryland court of appeals.

Call for National Convention.

Philadelphia, Jan. 23.—It is more than likely that Chairman Harrity will issue the official call for the national democratic convention within the next few days—either the latter part of this week or the beginning of next week.

Brooklyn's First Cavalry Troop.

Albany, Jan. 23.—Adjt.-Gen. McAlpin has issued a commission to Bertram M. Clayton, the first captain of the newly organized cavalry troop C of Brooklyn.

Movements of Our Warships.

Fort Monroe, Va., Jan. 23.—The flagship New York and the cruiser Columbia have finished coaling at Newport News and returned to the roads.

Treasury Gold Reserve.

Washington, Jan. 23.—The treasury gold reserve to-day at the opening of business stood at $50,618,656.

January 24—Ball at Mt. Bethel Hotel.

It is safe to say that there are now more anxious men over political preferment in Plainfield than has been the case in a long time.

Frank Deboe, of Crittenden county, Ky., has been arrested because he gave his sweetheart a glass of eggnog. She was a minor. The course of true love is rocky there as elsewhere.—Buffalo News.

"The valuable function of political parties in Republican Government is too well established to be questioned."—Gov. Griggs at Trenton.

Yet there is a satisfaction in having your own side in office. It is easy then to recognize the value of the other fellows as useful critics.—Evening Sun.

Henry C. Corsa is not eligible for the position of the captaincy of the police force. Mr. Corsa lost his residence in New Jersey when he accepted a position in the New York street cleaning department. He will have to reside continuously in the State for one year before he will be eligible for the office.

No single act ever conferred more honor upon Governor Werts than the graceful, courteous and dignified speech with which he turned over to his successor the great seal of the State. It was admirable in its tone, lofty in its sentiment, refined in its diction and undoubted sincere. The last act of Governor Werts was one of which he may well be proud.—Newark Advertiser.

Since Plainfield has but recently gone through the throes of a campaign for Sunday closing of barber shops, the following from the New York Tribune this morning is opportune:

The barbers of Jersey City want the Legislature to pass a law "requiring all barber shops to be closed at noon on Sundays, and providing severe penalties for violation." That sounds exceedingly funny when it is considered that the existing laws require the closing of barber shops all day on Sunday. The Jersey City barbers can't afford to stir up that question, unless they are prepared to rest one whole day each week.

Unable to resist the temptation to play politics with a simple question of international conduct and policy, the statesmen in the Federal Senate have begun to chop logic and split hairs over the Davis resolution, which proposes to confer upon the Monroe Doctrine, as popularly undertsood, a warrant of formal Congressional sanction. In the lack of substantial unanimity in regard to such a resolution, debate over it might well be intermitted. It is ridiculous, no doubt, for our public men to hurl the challenge of fierce defiance in the faces of all nations, but it would be contemptible to wave the white flag of capitulation in advance of a threatened hostile movement.—Newark News.

The Daily Press does not stand as the sponsor for any candidate for the office of captain of the police department and it fails to see the necessity, any more now than a year ago, for a change of incumbents. A year ago Editor Runyon was prolific in his disgraceful attacks on Captain Grant in his endeavor to influence the action of the police committee in making the nomination for the office. But the members were not men to be influenced by the arguments of one who was seeking to have Captain Grant retired simply that he might take personal gratification and vindication in the action, and like the conscientious and just men that they were, they made the nomination of Mr. Grant and the Common Council promptly confirmed the appointment. Now there seems to be a tacit understanding that there is to be a change in the office this year. The Press fails to see the impropriety of the argument that if Mr. Grant was fitted for the position one year ago he is equally as well qualified this year. It is a recognized fact that the police department of this city is an efficient one at the present time, so far as the limited number of men are able to make themselves efficient, and that the services of Captain Grant are generally satisfactory to the people, with the exception of an element which is always bound to maintain an adverse sentiment against some administrative portion of the local government.

—The Lotos Glee Club met for practice last evening at William E. MacClymont's studio.

Don't invite disappointment by experimenting. Depend upon One Minute Cough Cure and you have immediate relief. It cures croup. The only harmless remedy that produces immediate results. L. W. Randolph, 113 W. Front St.

THEATRICAL.

The first minstrel company of the season will be at Music Hall tonight. The Al. G. Field Big White Minstrel Company, which is to fill this engagement, is the best organization of its kind traveling. It is said to be the largest all white company before the public, and embraces over half a hundred of the brightest lights of the minstrel world. The company is especially strong in singers and dancers. The comedians are the best in the business, while the novelties offered are said to be the pick of the European talent. Al. G. Field is one of the ablest minstrel men in the country, and he takes particular pride in this company, which is the best he has ever organized. Recognizing that singing, dancing, and music are the prime necessities of a first-class minstrel show, he has engaged the best talent in the profession.

Scotch Plains.

Twilight Council, Jr. O. U. A. M., meets this evening.

A stag party held high jinks at at Paff's Hotel last night. The Blimm Brothers, proprietors of the hotel, had gone to considerable expense and arranged a terrapin supper that was well attended. There was a great many present from Plainfield who enjoyed the repast immensely. The party was entertained by a full orchestra which discoursed fine music throughout the evening.

—Unity Lodge, No. 102, K. of P., met last evening, and one candiate was worked in the third rank by the new officers.

Dr. Deane's Dyspepsia Pills.

For thirty years Dr. Deane has made a study of dyspepsia, and in thirty years has cured more cases of it than probably any other fifty physicians combined. He gave up the study of theology and took to medicine, because the most eminent physicians of that day gave him up as a chronic dyspeptic, with only a short time to live. The result of this change—a hearty, healthy, useful life, enormous practice, and a demand for his remedies greater than for all others combined wherever for sale at all druggists'. Send for a free book. White wrapper if constipated, yellow if bilious. DR. J. A. DEANE CO., Kingston, N. Y.

Quick in effect, heals and leaves no scar. Burning, scaly skin eruptions quickly cured by DeWitt's Witch Hazel Salve. Applied to burns, scalds, old sores, it is magical in effect. Always cures piles. L. W. Randolph, 143 W. Front St.

ORIGINATOR OF MINSTRELSY.

Uncle Dan Emmett, Author of "Dixie Land," Is in This City Today.

Next to the circus there is no more popular form of amusement in this country than minstrels. Its characters and performance being representations of phases of life not seen elsewhere than in this country, it is but natural that this sentiment should prevail. For the past week shop windows and billboards all over the city have been prominent with the lithograph of a kindly-looking old gentleman that has attracted the attention of nearly all passers-by who have stopped to gaze at his features and read the few sentences printed underneath. There they were told that the man whose face they were gazing on

was Daniel D. Emmett, originator of old-time minstrelsy, which our fathers now delight to become reminiscent about, and author of the famous song "Dixie Land." "Uncle Dan," as he is familiarly known throughout the country, arrived in this city last night with Al. G. Field's minstrel company, and later on was met by a Press reporter, with whom he conversed in a pleasant manner for some time. He is a wonderfully well preserved man for four-score and two years of age, his mental and physical faculties being as bright and vigorous as though he had just passed out of his teens. For the past several years Mr. Emmett has lived a quiet life on his farm near Mt. Vernon, Ohio, but this season he is traveling with Mr. Field's minstrels, who are making a feature of singing "Dixie Land," with "Uncle Dan" as conductor.

—A. D. Mallison has added to the fine appearance of his store by putting in a large old fashioned clock.

—Owing to the fact that two officers will be elected every member of the Woman's Relief Corps is urged to be present at the meeting tomorrow evening.

—All signs point toward a most successful entertainment at Reform Hall tomorrow evening, when the Sons of Temperance will present a pleasing programme.

United States Government Grant

"Pura Blood" and Suffering Humanity.

The past record of diseases cured at Hot Springs, Arkansas, requires no advertising further than to let sufferers, who cannot go to Hot Springs, Ark., know they can have at home the same treatment which they would receive at that famous sanitarium, in using "Pura Blood." Under grant from the United States Government, the world-famed healing waters of Hot Springs, Arkansas, are used in the preparation of this renowned and infallible blood purifier, which has the merited reputation of being one of the wonders of the world. "Pura Blood" is nature's own cure, and an absolute specific for all diseases of the blood. "Pura Blood" has received the highest indorsements from physicians. "Pura Blood" is for sale by druggists at $1 per bottle. Billups & Co., of 26 Cortlandt street, New York, are sole agents, and will send descriptive book free to any address.

A high liver with a torpid liver will not be a long liver! Correct that liver with DeWitt's Little Early Risers, little pills that cure dyspepsia and constipation. L. W. Randolph, 143 W. Front St.

THE MARVELOUS SUCCESS OF

The Commercial Palace,

during the year just closed inspires the proprietor to still greater efforts during the coming year. The figuring up of the business year of 1895 shows a gain on sales of a good many thousand dollars over last year.

This is taken as conclusive evidence of the growing popularity of the house and that the great masses of the trading public like to patronize just such a large, up-to-date metropolitan house in Plainfield instead of going to New York.

In fact we feel so good over the magnificent showing that we are going to celebrate the same by inaugurating our first

The Cranford C. C. took its hoodoo to Bergen Point last evening and defeated the New Jersey Athletic Club by thirteen pins. The victors rolled a score of 1,598 and their opponents, 1,585.

The recent defeat of the Will Bes of the Crescent Wheelmen has not discouraged them in the slightest and they are getting together a team for Monday evening, when they expect to show the Have Beens what bowling is.

The Crescent Wheelmen go to Elizabeth tonight to meet the ten-men team from the Elizabeth Athletic Club in a game in the Central Journal Bowling League. The Plainfield team will probably consist of Van-Emburgh, Thiers, Buckle, Petrie, Pope, Lyman, Vail, Stephenson, Kiely and Wilbur. The Elizabeth team will have several of the "Terrible Ten" among their number.

The ten-men teams of the Cranford Country Club of Elizabeth and New Jersey Athletic Club of Bergen Point rolled a schedule game in the series of the Central New Jersey Bowling League, on the latter's alleys, on Tuesday night. The wearers of the maroon had their colors trailed in the dust by the visitors. The scores:

VARIOUS SPORTS.

A pool tournament, games in which will be played every night this week, except Saturday, is now in progress at Murray's Arcade, in Newark, to decide the championship of New Jersey. On Monday night the players were Peter Bey, of Newark, and Charles Gibson, of Trenton, the former winning by a score of 125 to 97. On Tuesday night Joseph Todd, of Newark, defeated William Kauffman, of Nutley, 125 to 89. Thirteen players are entered from different parts of the State. The first prize is $50, second $25, third $15 and fourth $10. Newarkers entered are Peter Bey, George Bey, John McLaren and Joseph Todd.

ABSOLUTELY PURE

AT THE TRAPS.

An annual meeting of the New Jersey Trap Shooters' League was held yesterday afternoon in New York. Delegates attended from all clubs except the Union Hill Gun Club. It is expected, however, that the latter club will remain in the league. The monthly shoots for prizes for the year were arranged in the following order:

February, Dunellen Gun Club, Dunellen; March, Climax Gun Club, Plainfield; April, South Side Gun Club, Newark; May, Maplewood Gun Club, Maplewood; June, Union Gun Club, Springfield; July, Elizabeth Gun Club, Elizabeth; August, Union Hill Gun Club, Union Hill; September, Riverside Gun Club, Red Bank; October, Endeavor Gun Club, Jersey City; November, Boiling Spring Shooting and Fishing Club, Rutherford.

The by-laws were changed to stipulate that hereafter clubs must be represented by six instead of five men on a team in all prize shoots. Dr. T. F. Jackson was elected to succeed E. D. Miller as president. Both belong to the Union Gun Club. The other officers were re-elected, W. R. Hobart as secretary-treasurer, W. N. Drake as manager, and C. W. McPeek and R. E. Chetwood as directors. Last year over 35,000 targets were thrown at the league shoots, and an equally good year of sport at the traps is expected. Charles Smith represented the Climax Gun Club, of this city. The officers were elected and Mr. Smith was made one of a committee of three to secure prizes to be distributed at the end of the year. His donation was a keg of sauerkraut. The Dunellen Gun Club was admitted to the league.

CYCLING COMMENT.

William Kitchen has gone to the cycle show this afternoon.

Two Plainfield boys caused quite a sensation at Metuchen several days ago. A tandem carried them there and while there they ran into a cow and then they had to carry the tandem home.

An unknown cyclist collided with Fred Sheppard at the corner of Ninth street and Park avenue yesterday at noon. Sheppard was not seriously injured but had the front wheel of his machine wrecked by the collision.

The business men's gymnasium class at the Y. M. C. A. is becoming very popular among the business men of this city and those doing business in New York. After the regular gymnasium work a game of basket ball follows at which the men are becoming quite proficient. The young men will have to look out for their honors if they wish to keep them.

Pedestrians on Watchung avenue early Tuesday evening saw a strange sight. It was a safety bicycle with an immense dashboard lantern fastened on in front. The rider was Harley Apgar, who is employed at Neuman Brothers grocery store. He neglected to bring a lantern to the store and placed the large one on the front of his wheel in preference to walking home.

There are no signs of any decrease in the interest which is shown at the cycle show at Madison Square Garden. Every evening since the show opened a crowd of Plainfielders have attended and others are planning to go later in the week. The exhibition is now in full blast and all of the exhibitors are kept busy dilating on the excellence of their particular make of wheels. There are all sorts of wheels there. Among those that have attracted considerable attention are two sextettes, each holding six riders. There are a number of wheels fitted for war, with all the necessary equipments. A machine gun and a small breech-loading rifle each mounted on a duplex are two of the numerous novelties. A wheel for ice riding was made of a front runner and a spiked rear wheel. Perhaps the greatest freak was the 'Kangaroo," a wheel with regular-sized wheels, but with a frame that placed the rider fifteen feet above the gronnd. A long chain ran up to the crank and sprocket. The rush for souvenirs still continues and some of the schemes devised by the young men to secure the best ones are worthy of record. Those who who have been to the cycle show are noticeable by the buttons and pins of appropriate pattern which most of them wear.

—Mrs George Butscher, of 451 West Fourth street, died this afternoon.

—Central Lodge, A. O. U. W., will meet this evening in regular session.

—Justice Newcorn has issued a summons in the case of Powers and others against Baily and others, on contract, which is returnable January 31st.

"Give me a liver regulator and I can regulate the world," said a genius. The druggists handed him a bottle of DeWitt's Little Early Risers, the famous little pills. L. W. Randolph, 143 W. Front St.

BASKET BALL.

Basket ball is still very popular among the Y. M. C. A. members, but when it comes to put a first-class team on the field Plainfield is slow, lamentably so. The interest that was shown in the game at the beginning of the season warranted the belief that a winning team could be organized. Physical Director D. A. MacPhie appointed George P. Smith as captain and the choice proved an excellent one. There was plenty of material but the material did not care to work. Mr. MacPhie and Captain Smith were untiring in their efforts to organize the team, but it was in vain, for the candidates would not come to practice. Captain Smith refused to take a team to Trenton that had had no practice and so another team that had been practicing together was sent. Mr. MacPhie has decided not to make any further attempts to get a team together and the team that went to Trenton will play off the game scheduled with the Twenty sixth street branch of the Brooklyn Y. M. C. A. on February 1st. Victor Christofferson will act as manager of this team which is composed of J. Koechli, captain, H. Jessup, E. Morraller, A. Wagner, C. Sutphen and C. Rittenhouse.

—There will be no meeting in Reform Hall this evening owing to the special services being held in the First M. E. church.

—Lucetta Council, No. 28, D. of L., met last evening, and one proposition was received. During the evening the initiating team rehearsed to be in readiness for the institution of the several new councils that is to be instituted by this council in the near future.

—The Fourth Ward Social Club will give a dance in T. A. B. Hall this evening. It will be a pleasant affair and doubtless well attended.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Soothing, healing, cleansing, DeWitt's Witch Hazel Salve is the enemy to sores, wounds and piles, which it never fails to cure. Stops itching and burning. Cures chapped lips and cold sores in two or three hours. L. W. Randolph, 143 W. Front St.

It Costs Little and Does Much.

Remark when you attend a play or concert how many people disturb the performance by coughing. One man begins and the cough seems to be contagious. The interruption is a great nuisance, and there is no need of it, for any one may cure a cough with the Pineola Balsam, which costs 25c. It soothes the inflammation in the throat and loosens the mucus which clogs the air passages. A few doses of Ely's Pineola Balsam stop a cough and heal a sore throat.

COUNT VON MULLER.

CHAPTER III.

WHAT IS TO BE DONE?

The matter would have been easy enough to settle if it had not been for the horrible pile of bills that were due to the aspiring tailor. Now it was clear why he had been so accommodating. He had never once asked for a single mark. He had supplied suits for the grand ducal family, and court dresses for the servants, and theatrical dresses for the stage, and only a few months before he had supplied new uniforms to all the army—about 62 privates and 30 officers—without so much as a murmur. What was to be done?

Baron von Dernfeld was a shrewd old man. In appearance he was not unlike a weasel, but his blood was as blue as his master's, and he felt the terrible disgrace that threatened the grand ducal house. He was nearly 60 years old, and he had spent a tolerably long life in advising two successive grand dukes. He was a diplomatist, too, of the old school, and nobody appreciated more than he did the great diplomatic axiom that speech was given to man in order to conceal his thoughts. He was rather slow in seeing his way in any emergency, but the reason of this perhaps was that his way was always so roundabout that it took a very long time for his mind to get over the ground. Consequently it was not surprising that, although he had spent a whole night in discussing the great family difficulty with his serene master, he was as far from seeing his way out of it at the end as he was at the beginning. He had got far enough, however, to appreciate the situation in all its gravity.

The princess was evidently in love with the tailor. The tailor was certainly rich and handsome, and the grand duke was certainly hopelessly in debt to the tailor. But his diplomatic mind did not give up the great conundrum. For several days he secluded himself in his own apartments in the palace, and it

For several days he secluded himself in his own apartments.

was reported that he smoked more tobacco and drank more beer during those days than he had done for many a long year before. But, as the old adage goes, all things come to those who wait, and at length a bright idea flashed into the old minister's mind, and he hurried away to the grand ducal chamber to pour advice into his master's ear.

It was to this effect—the tailor must be dealt with diplomatically. He must be treated with the utmost cordiality, just as if his amorous designs were utterly unknown and unsuspected. The bills must be all paid, not in the coin of the realm—for that was impossible—but in some other equivalent, for princes can give gifts which aspiring young men who are not poor prize more than money. And when once the bills were receipted in full then the audacious tailor should be duly kicked out of the palace and the grand duchy. This was the baron's scheme.

The grand duke fully indorsed his adviser's opinion, as indeed he always did. It was therefore determined that the tailor should be smiled on, and that confidential pourparlers should be commenced, with a view to induce the tailor to forego his pecuniary claims in consideration of his being made a "von."

No one who has not been in Germany can understand the boldness of this step. To be a "von" is to be a noble man, even though no title stands before it. It raises a man at once above the class of bourgeoisie and places him among the aristocracy, and not only himself, but all his children and descendants forever. Nay, more, it has a backward as well as forward effect and ennobles his family, root and branch, ancestors and descendants. Consequently such a patent of nobility was and is beyond price, and if the grand duke could only bring himself to confer it upon Heinrich Muller he would be more than repaid for all that was owing to him. It was, however, a bold and unusual step to take, and Baron von Dernfeld would scarcely have ventured to make such a suggestion to the grand duke, even under the pressure of the heaviest difficulties, if he had not been prepared to back it up by weighty diplomatic arguments.

But this is how he reasoned: "This impudent tailor is secretly in love with the Princess Gertrude. He fully understands that between him and her stands the impassable gulf that yawns between the common people and the nobility. If we offer to create him a 'von,' he will think that heaven itself is favoring his suit; that the chasm is about to be filled up, and that, when he is a real Von Muller he may be able with some hope of success to declare his passion. We will make him a 'von,' then, in order to get out of his financial clutches, and that once done leave the rest to us."

The scheme was not ill conceived. Heinrich Muller had no inkling at all of what was going forward, but if he had been a diplomatist he would have suspected that some mischief was brewing from the fact that both the grand duke and the minister were so extraordinarily polite to him. They smiled at him whenever they passed him in their carriages, and the old baron actually went down to the shop himself to be measured for a new court dress. Shortly after a valet from the schloss brought him a command from his serene highness to be at the castle the next evening after dinner. He obeyed and was closeted for a short time with the prime minister and then for a short time with the grand duke. Everything was arranged without a hitch. The minister commenced by explaining that the high character and education of Herr Muller had evidently raised him high above his position, and that his serene highness had come to the conclusion that he could efficiently fill a court office if he would retire from all connection with trade. The grand duke, therefore, had for a long time contemplated asking him to give up his present occupation, for which there could be no further necessity, seeing how great was his well known wealth, and thereupon conferring on him a diploma of nobility and creating him a "von." Only one difficulty stood in the way. His serene highness felt bound in honor to liquidate all outstanding liabilities to him before making any such proposition; but, to tell the candid truth, he began to fear it would be several years before he would be able to do this in full. The prime minister, therefore, anxious to be of service to such a superior young man as Heinrich, took upon himself to let him know what was designed for him, and in the interest of all concerned ventured to suggest that it would be far better for Heinrich, in view of his future career, which was certain to be distinguished, to secure the honor at once. He could certainly do so if he would generously forego his pecuniary claims and give a receipt in full for all that was owing to him by the court.

Heinrich listened to all this with grave attention. There is no denying that his heart beat fast as he heard the unexpected good news. Willingly indeed would he have paid thrice the sum that was owing to him in order to become a "von," and without a moment's hesitation he accepted the offer. But he was not a simpleton. He took all the courteous sayings of the old minister for exactly what they were worth, and as he shook hands with him at the conclusion of the bargain and was shown to the grand duke's apartments he mentally told himself that the "noble scruples" and "long cherished intentions" of his serene highness were fictions of the minister's brain, and that, as a matter of fact, he was buying his vonship with a certain number of thousands of marks. The grand duke himself was all affability and condescension, and it was agreed that in the course of a few days the patent of nobility should be drawn up and formally bestowed upon him, and that at the same time he should sign a receipt for all moneys due to himself or to his father.

And now a curious circumstance occurred. During the few days that elapsed between the promise of the grand duke and its performance Heinrich Muller made a journey to the city of Strasburg, where, it may be remembered, he had studied at the university. It was generally understood that he had gone there on business, and the prime minister and his master thought it only natural, as he would no doubt have plenty of matters to arrange in connection with retiring from trade. But, as a matter of fact, Heinrich, as soon as ever he found himself in the learned city, betook himself, not to any tradesman, but to a certain snuffy old gentleman named Dr. Schlippenhammer, a man whose name was famous throughout the fatherland as a learned jurist and the highest living authority on feudal and imperial law. What passed at the long interviews between Heinrich and the doctor need not here be related, but suffice it to say that many ancient tomes were consulted and compared, and the statutes of emperors and diets, ranging over hundreds of years, were unearthed and pondered over. After three days Heinrich returned to Wolfsteinberg, and it was observed by every one that he seemed brimful of happiness.

On the day before he was summoned to the palace to receive his patent he casually met Baron von Dernfeld in the park. They greeted each other most cordially. The old man was gushing and fatherly, the young man was smiling and full of reverence, but an observant bystander would have been puzzled to decide which had the more diplomatic eye.

CHAPTER IV.

THE DIPLOMA OF NOBILITY.

In due time his serene highness the Grand Duke of Wolfsteinberg commanded the attendance of Heinrich Muller at the schloss. With a firm, quick step, the young man hastened to obey the summons. The gorgeous lackeys of the palace, whose plush suits had been made at his own expense, ushered him with great respect into the state dining room. Heinrich was pleased at this, for the thought flashed through his mind that nowhere could the scene that was to follow be more appropriate than in that great chamber where the heroic deed of his brave ancestor was commemorated on the wall. On entering the room he found the grand duke and his prime minister chatting quietly by the table. Evidently the affair was to be merely an informal one. Perhaps Heinrich was a little disappointed at this, for he had thought that the grand duke might have made a court ceremonial of the affair and so invested it with more dignity. But no matter. He was received with quiet politeness—cool politeness would perhaps be more accurate.

"His serene highness," said the old baron, "has been graciously pleased to affix his seal and signature to this document, whereby, in virtue of the rights and privileges granted to his house by the Emperor Conrad IV, he is authorized to ennoble any of his subjects who have done good service to the commonweal. It will now be my pleasing duty to countersign it, while you will have the goodness to place your signature to the receipt which I have here prepared for you."

There was something so stiff and even hostile in the smoothness with which this was spoken that Heinrich's face grew very pale. For a moment he suspected treachery.

"Will you allow me, baron, to read the diploma?"

"Certainly," said the minister, spreading it out on the table.

Heinrich, with the quick eye of a student, read it from beginning to end. It was correct in every form. He felt sure that not even the forensic acumen of his friend Dr. Schlippenhammer could have questioned its validity. He ran his eye over the receipt which had been prepared for his signature, and that also was correct.

The minister handed a pen to Heinrich, and taking another himself they each signed their names, Heinrich putting his to the receipt, the baron countersigning the diploma.

"I think that business is finished," said the baron, handing the receipt to the grand duke.

"Shall I now retire?" said Heinrich, with equal coldness, folding up his diploma and placing it in his breast pocket.

"No, not quite yet," said the old baron, glancing quietly at the grand duke, who all the time had stood silently on one side, giving an occasional twirl to his Napoleonic mustache, "not quite yet. To be candid with you, Herr von Muller, this is a mere preliminary to the real business that we have to discuss together."

"A preliminary, baron? Pray, explain your meaning!"

"I will do so in the fewest possible words. You, sir, have up to the present time had certain heavy claims upon the house of Wolfsteinberg. Those claims are now paid off, and it is my painful duty to charge you with an act of audacity which has determined our sovereign to expel you from his dominions."

A Special Sale of Muslin Underwear.

We invite inspection of this great muslin underwear stock, including lines of high-class goods, daintily made and prices fixed specially for this sale, leaving us a modest margin. Of course, in such a variety there is plenty to suit every taste and every purse. You'll notice too that just as much care has been taken in the making of the cheaper wear as in the higher priced.

The Cloak Price-Cutting

is attracting many buyers. There's still a good assortment possibly a size missing here and there. Every coat price-cut so that we'll not have any to "carry over."

LEDERER'S.

Fire

Don't lay awake nights for fear your "open fire" will burn your carpets, or do other damage, when you can buy a "spark guard" for $1.25. Mantles, tiles, and "everything for the fire-place."

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

thin baby

To be thin, for a baby, is to be deprived of its natural ease; to suffer and not be able to feel it; to wear a sad pinched face; to live on the edge of sickness; to grow imperfectly; and to lose the power of resisting disease. When a baby is thin it needs more fat than it gets from its food; it is starved, fat-starved. Scott's Emulsion is the easiest fat it can have; the fat it needs.

ANNUAL SALE

OF

Muslin Underwear, Waists, Wrappers, Corsets.

Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.

So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.

We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that those who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

He denies the charges, and says that the relations between himself and Dr. Smith are of the pleasantest.

It not only is so, it must be so, One Minute Cough Cure acts quickly, and that's what makes it go. L. W. Randolph, 143 W. Front St.

ANONYMOUS.

I was wrought by a maiden with beautiful hands,
Who painted my sides in a day
And stitched me with silk and bedecked me with bands
And afterward sent me away.

I went through the mail with her card in my grasp
To a bachelor man who lived near,
And when he beheld me he gave quite a gasp
And sighed o'er the message of cheer

That she, with her dainty and feminine pen,
Had written above her fair name;
And he looked me all over again and again
With a look that was ever the same.

"Oh, tell me," he muttered, "for I must reply
To the one who has wrought with such grace,
Are you to hold photos? Are you a necktie?
Or are you a handkerchief case?

"Maybe you're a toolbag to tie on a wheel,
Or a mat for a swell jardiniere,
Your name and vocation now straightway reveal."
And his voice was the voice of despair.

But how could I tell? For she didn't tell me.
So he wrote an acknowledgment fit
To express his surprise and his absolute glee,
And referred to me all through as "it."
—Life.

An Inquisitive Child.

"Talk about children," said a young woman the other day. "Why, I'm honestly afraid of them. I feel just about as safe when a youngster is around as I would if a dynamite bomb was rolling about under my feet. It seems to me children are always striving to make a sensation. Sometimes I can't tell whether it is pure guilelessness or wicked premeditation on their part to do or say something that gives a want-to-sink-through-the-earth feeling to their elders.

"Now, just imagine my sensations as a hostess when several people paid a most unexpected visit to my suburban home on Monday, the scrap day of all housekeepers, and settled down for luncheon.

"I hadn't time to get up any extras except hustle a few of my company preserves on the table and make a raid on my cake box. My only meaty relish was hash; but, honestly, it was 'all original goods,' as the boarding house lady declared.

"One of my visitors brought with her an inquiring young man of five. It seems this child has a mania for investigating the former conditin of all eatables before they have passed into the cook's hands. I didn't know this at the time, so you can imagine my horror when the hash was brought on to see that child fasten his eyes upon it and in the interests of culinary science loudly ask, 'Mamma, what was that when it was alive?'"—Philadelphia Inquirer.

Disposing of Back Numbers.

A good story is told of a certain London preacher who used to run a publication of his own. He was asked to preach a sermon at the opening of a chapel in the suburbs, and as an inducement an offer was made that a certain portion of the collection should be handed over to him.

"I never accept money for preaching," said the great man loftily, "but if you like to purchase £5 worth of copies of The Bubbler for distribution I have no objection."

The offer was accepted, the sermon was preached, and down came the copies the following week. Naturally the deacons expected a little account of the opening of the chapel, but grievously were they taken aback. The copies were all back numbers!—Tit-Bits.

Putting It to Vote.

"I need a new hat," remarked the man who had come in last at the club, "and I don't know whether to get a stovepipe or a Fedora."

"Suppose we put it to vote," suggested the man who had his feet on the table. "Will you agree to be bound by our verdict?"

"Yes."

The vote was taken. Six were in favor of the stovepipe, and six declared for the Fedora.

"I bow to your decision, gentlemen," said the man who had come in last, "although it looks like a put up job. I will merely buy a tie."—Chicago Tribune.

A Provident Suitor.

"I am afraid," said the girl's father, "that Harold will not be much of a success in life."

"He seems very prudent and farseeing."

"In what way?"

"He said that if we were to marry he was sure that there was no reason why our lives should ever know want."

"H'm. What makes him so sure?"

"He said he had looked up your rating in the commercial agencies."—Washington Star.

J. W. Pierce, Republic, Ia., says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself." L. W. Randolph, 143 W. Front St.

WELL WORTH TELLING.

A Well-Known Senator Tells a Remarkable Story.

No Possible Doubt as to Its Absolute Truth,

From the High Standing of the Senator.

Higher the Position, More Interesting the Facts.

Our Readers Eager for Just Such Details.

Senator Frank Plumley, of Northfield, Vt., is a man of national reputation. No man today stands more prominently before the people of the State of Vermont than he.

A lawyer by profession, he was elected to the House of Representatives in 1882, is Trustee of Schools, Trustee of Northfield Bank, and Trustee of Norwich University (a military school under patronage of the U. S. Government), and has been trustee of the Montpelier Seminary, Chairman of the Republican State Convention in 1886, was United States Attorney for Vermont 1889 to 1894, and is now State Senator.

Senator Plumley is well known throughout the United States, having been selected by the National Republican Committee as speaker to stump the State of Michigan for Blaine in 1884, and again in 1888 and 1892 he spoke through the West for the Republican Presidential candidate.

When he came out of the Presidential campaign in '92, owing to overwork, he was almost a complete nervous wreck.

To our representative the Senator said:

"In the fall of 1892 I came out of the Presidential campaign with my nervous system almost broken.

"Rest and ordinary remedies did not assist me. Some of my personal friends advised me to take a course of Dr. Greene's medicines, which I did with entire success.

"I used Dr. Greene's Nervura blood and nerve remedy for that exhaustion caused by long continued mental work, and think well of it."

We understand that Senator Plumley's cure is radical and complete, and while we congratulate the popular Senator on his recovery, we cannot but add that this is a distinct triumph for that marvelous medicine, Dr. Greene's Nervura blood and nerve remedy, which, owing to the high standing of Senator Plumley, and the fact that he is so widely known, will give Dr. Greene's Nervura a great boom.

The remedy deserves it, for it is in truth a most wonderful curer of disease, a restorative and invigorator which stands at the present day without a rival in making people well: a remedy which is always sure to cure, to give health and strength, to make whoever uses it strong and vigorous.

This most valuable remedy is not a patent medicine and should not be classed as such, for it is the discovery and prescription of one of our leading specialists in nervous and chronic diseases, Dr. Greene, of 35 West 14th st., New York City. The doctor gives an added value to his great remedy by allowing all who desire to consult him without charge, either in person or through the mail.

EVENT OF INFORMALITY.

DELIGHTFUL TIME PROVIDED BY THE LADIES OF GRACE P. E. CHURCH.

Several Well Known Entertainers Made Up a Pleasing Programme of Singing and Recitations—Those in Charge.

The ladies of the Grace P. E. Church Guild held a delightful reception and entertainment in the chapel last evening. Previous to the entertainment light refreshments were served in one of the rooms. The affair was notable for its absence of formality and every one present had a thoroughly pleasant time. A small admission fee was charged and the proceeds will be devoted for church purposes.

The entertainment opened with two finely executed piano solos by Miss Sprague, following which William N. Runyon delighted the audience with a choice selection of topical songs for which he is noted. He was the reigning favorite as usual and received several encores. Miss Meredith, who is a soprao soloist, and has become a favorite, rendered two pleasing solos for which she won hearty applause. Arthur Freeman, accompanied by Mrs. Freeman on the piano, sang several topical selections in his usual excellent manner. The closing number was a pleasing tenor solo by Charles Angleman. He received an encore and rendered a favorite selection.

The women who had the affair in charge and presided over the tables were: Mrs. VanBuren, Mrs. Waring, Mrs. Mayer, Mrs. J. W. Rhinehart, Mrs. Mimford, Mrs. Brooks, Mrs. Lawson, Mrs. Fleming, Mrs. Stockton and Mrs. James T. Scott. Those who assisted as waitresses were: Mrs. E. M. VanBuren, and the Misses Langeton, Rodman, Smith, Morgan, Peterson, Crane, Fender, Harriott and Waring.

NEW TELEPHONE COMPANY.

A Trunk Line for North New Jersey Has Been Organized.

The articles of incorporation of the New Jersey Trunk Line Telephone and Telegraph Company have been filed at the office of County Clerk Howard. The incorporators are: George H. Bruce, William A. Topping, Arthur S. Carter, all of New York; William J. Lansley and Benjamin A. Lawrence, of Elizabeth. The capital stock is given as $50,000. The routes of the proposed company are through Hoboken, Jersey City and other places in Hudson county; Kearney and Newark in Essex county; and Elizabeth, Rahway, Plainfield, Westfield, Roselle and other sections of this county. The company will build and equip telephone and telegraph lines.

Game Fowls in the Parlor.

Among those who eujoy sporting contests, but do not care to attend a regular cocking main, a miniature glove contest is provided. Small chamois skin gloves are fastened about the spurs of the game cocks and then they are released. The gloves do not hamper them, but prevent any injury. A number have been held in this city and, this evening, one of the spacious parlors of a Plainfielder's residence will contain a party of ladies and gentlemen who will come to witness one of these contests.

Getting Down to Routine Work.

Chief Doane is busily engaged in getting down to the routine work of Building Inspector. He has already had several applications for permits and in one case was obliged to order a builder to make some alterations. It was a lack of knowledge of the law, however, that was the cause of the trouble. All persons who intend building must first submit their plans for approval before they start work.

Willow Avenue Improvements.

J. H. Manning & Son are now engaged in building two large houses on Myrtle avenue, for William J. Roome, which are nearing completion. Messrs. Manning have purchased the triangular plot of ground at the junction of Myrtle and Willow avenues, upon which they will soon break ground for three large houses, with all modern improvements.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

BIG FIRE AT WESTFIELD.

W. W. Gilby's Mercantile Store Totally Destroyed Last Night.

Shortly after 2 o'clock this morning J. H. Schmidt, who runs a bakery on Broad street in Westfield, noticed flames issuing from the store of W.W. Gilby on the opposite side of the street. He immediately gave an alarm and the volunteer fire department quickly responed and did their best to extinguish the flames, but their work was useless as the fire had got too much under way when they arrived on the scene. They devoted their energies to saving the surrounding property and were successful in this, although at one time the flames worked their way through the rear end of the building into the store of Decker.

The flames are supposed to have caught from a stove in the store. The loss will be about $10,000, as the entire stock of goods were destroyed and only the walls of the two-story brick building remain standing.

Mr. Gilby was one of the biggest merchants of Westfield and carried a large stock of general merchandise. This morning he immediately rented another store and is putting in another stock and will resume business at once. At one time the fire became so threatening that it was thought that the fire department of this city would have to be called on.

IT WOULD HAVE BEEN A BLIZZARD

But the Rain Drops Came Instead of the Snow Flakes.

Suppose it had been snow instead of rain? Plainfield would now be struggling in the throes of a blizzard. The weather bureau has been predicting this storm for some time as it approached from the south west and last evening as the large crowd poured out of Music Hall, shortly after eleven o'clock, a cold mist began to fall. It soon changed to a steady downpour which the chilly east wind drove into every nook and corner. It was a war of the elements and when in the morning the commuters ventured out, the wind spitefully whisked away ungaurded hats and the cold rain pelted the cowering pedestrians. The depot platform was almost deserted for the commuters took refuge in the waiting rooms. The weather prophets suggest that as a cold wave follows the storm, the latter part may be snow instead of rain.

The torrents of water which did come down during the morning, flooded many cellars and at Roberts' stable, it had to be carried out by the pail full.

Country Store Robberies.

Of late there has been several robberies committed in and near Pluckamin, and the farmers in that vicinity are up in arms and think it's about time they were stopped. The last robbery was at John Dolliver's store. He keeps a general store and sells most everything you can think of. Recently some person or persons broke into the store and stole many valuable articles, together with some money. The theft was discovered the next morning, but no trace of the robbers could be found. The farmers and other citizens are now lying in wait with shot guns, hoping they will meet their enemies. Mr. Dolliver is a brother of G. Q. Dolliver, of Manning avenue.

Suppers Arranged.

At the meeting of the Parliamentary Club in the Y. M. C. A. building yesterday the members decided to give the members of the association two suppers. The first will be served next Sunday evening and the second one the following Sunday evening. They are given to compensate in a measure for the courtesy of the Y. M. C. A. in allowing the use of the rooms for the club meetings.

To Entertain Po Ambo Tribe.

Arrangements will be made at the meeting of Miantonomah Tribe, No. 118, I. O. R. M., this evening to entertain Po Ambo Tribe, of Perth Amboy, who expect to visit the Red Men in this city at an early date. A committee will be appointed to confer with a like committee from Paugh-Caugh-Naugh-Sinque Tribe, for the purpose of receiving the visitors.

To Examine the Engine.

Chief T. O. Doane, of the Fire Department, went to Baltimore today to examine the chemical engine that is now in process of construction for Plainfield.

—Tomorrow morning Rev. Dr. Lewis, of the Seventh-day Baptist church, invites the members of the other churches to hear him on the theme, "Why People Backslide." Text, Jeremiah 8:5. The services are held at 10:30.

PLAINFIELD'S GLEE CLUB.

Some Facts About It and Who It Is Composed Of.

From all appearances the Plainfield public will be treated to a glee club concert, all by local talent, before the grass is green again. The Lotos Glee Club, the organization of which was exclusively announced by The Daily Press, is the society which hopes, soon after Easter, to give a concert. The singers are already hard at work and meet every Wednesday night for practice. W. E. MacClymont is the leader and, so far, the members are: Herbert Schutt, Herbert Moore, Chas. H. Angleman, J. E. Douglass and Willard M. Miner tenors; Harry Yaeger, Robert B. Douglass and William Thiers 2d, second tenors; Charles Hazeltine, A. H Cornish, Fred Pope and Thomas U. Smith, first basses; Raymond A. McGee, Wyatt Barnes, Fred H. Freeman and Stacy R. Raynolds, second basses.

PRESENTED WITH A PIN.

Rebekah Degree Lodge Give Mrs. Kettering a Present.

There was a very large attendance of members at the meeting of Rebekah Degree Lodge, No. 4, I. O. O. F., last evening. A pleasant feature of the meeting was the presentation of a very handsome degree pin to the district deputy, Mrs. Kettering. She, in responding, presented each member with a small package which they were not to open till they got home. When this was done each found an excellent photograph of their deputy. It was decided to hold a sociable at the home of Mrs. Hicks, on West Third street, next Thursday evening, and it was also decided to invite several other lodges to be present at the next meeting of the lodge in February. An excellent collation was served at the close of the meeting.

OFF WITH AN AMATEUR.

Miss Sheppard's Parents Hear She Has Married A. A. Cartelle.

Miss Nellie Sheppard, of 1056 East Grand street, Elizabeth, has ran away from her home and so far as can be learned has eloped with Harlan A. Cartelle, who belongs to the Third Regiment Gun Detachment.

Miss Sheppard is seventeen, and is the daughter of Mr. and Mrs. Edward S. Sheppard. Her father is an old employe of the Singer Manufacturing Company. She has known Cartelle a year and a half. He is a barber and an amateur actor.

The girl, it is said, became stage-struck and infatuated with Cartelle because he told of his exploits before the footlights. Miss Sheppard is an excellent banjo player.

Mr. Love to Branch Out.

A word of explanation is in order to the great sale of wall paper, paints, oils, glass, window shades and rugs taking place at Love's, corner of of North and Watchung avenues. Mr. Love has decided to go out of the retail business and devote all his efforts to the wholesale wall paper business and the making of designs and print rollers. For this business he needs a larger building. He will consequently sell his present building and secure one better fitted for manufacturing and wholesale business. Everyone purchasing goods in his line will do well to buy there while the clearing-out sale continues.

A Pleasant Affair.

A large number of guests including a party of fifty from Rahway, were present at the home of Councilman and Mrs. W. C. Smith, on Grandview avenue, last evening, and passed the time in sociability and dancing. The affair was arranged in honor of Miss Sadie Smith, and was one of real pleasure to all. They met at the home of Mr. and Mrs. Smith, and later adjourned to Edward Smith's house nearby where dancing was enjoyed. Refreshments were served about midnight and the party broke up about 3 o'clock this morning.

—Henry Windham, of the borough, has a subscription list that he is passing among his friends for the benefit of the widow of James McCormack, who was buried this morning.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

HEIR TO THOUSANDS.

MRS. EDWARD LAUFFER, OF THE BOROUGH, LEFT A FORTUNE.

The Good News Came Day Before Yesterday—She Is an Equal Heir to $15,000—Property Located in the City of Newark.

Mrs. Edward Lauffer, an employe at the Manhattan Hotel on Somerset street, received word day before yesterday from Lawyer Hey, of the Prudential building, Newark, that an aunt of hers had died a few weeks ago in that city and that another niece and herself were left a fortune amounting to something over $15,000.

Mrs. Lauffer has engaged as her counsel Chas. B. VanWinkle, who has already investigated the case and found that besides one three-story brick house there is four frame buildings, besides some cash in bank to be divided among these two women. The husband of Mrs. Lauffer was formerly employed at Chapot's kid glove factory, but is now engaged in the huckstering business.

PROFITS OF THE FIRE LADDIES.

Each Company Will Receive $200 From the Fair Recently Held.

The joint committee in charge of the Firemen's Fair met last evening and came to a final settlement. The treasurer made his report and the balance remaining was divided among the companies, each receiving about $200, making a total profit of $800.

A vote of thanks to all who had assisted at the fair was passed and ordered published.

The bronze statuette of a fireman, which was on exhibition at the fair, has been purchased by Mayor Gilbert and presented to the Chief to be placed in his office. The elegant silver fireman's trumpet, which the fair commitee voted to the Exempt Association, will be presented to that body next Wednesday evening.

After remarks by some of the members in regard to the entire harmony displayed throughout by each company, the committee adjourned sine die.

BROKE INTO HER OWN HOME.

She First Locked Herself Out and Locked the Keys In.

It is a rather novel experience to have to break into one's own house, but that was the case yesterday afternoon with Mrs. Charles Dunham, of Central avenue. She started to go out in the afternoon and shut the door after her, As the sound of the closing of the door died away Mrs. Dunham recalled the fact that there was a spring lock on the door and that her keys were in the house. She went to several of the neighboring houses for help, and at last got a passing colored lad to play burglar for her. He pushed the button off that held one of the cellar windows, jumped in and unlocked the door. So ended the adventure.

Resolutions of Thanks.

At a meeting of the firemen's fair committee held Thursday evening, January 23d, the following resolutions were adopted:

That the thanks of the committee be tendered to Madame Bartlett for her successful and untiring efforts to make the entertainment part of the fair so great a success, not forgetting Prof. O'Brien, the Misses Quinn and Thomas Schaeffer, also the young ladies, gentlemen and children for the parts taken by them. We also desire to express our thanks to VanEmburgh & Son, and R. C. Rand for use of lantern, flags, etc.; to G. Q. Packer, Woman's Temperance Aid Society, W.C.T.U. and Mrs. Ira Riker, for the loan of chairs; to the ladies who had charge of the booths; to Boice, Runyon & Co. and D. C. Ivins & Co., for lumber, and Geo. O. Stevens for coal. We are also greatly indebted to the daily papers for courtesies extended to us.

Realizing that it would be almost impossible to name all, we trust they will accept this as a personal communication to each and every one who gave us their aid, and we will always hold in pleasant remembrance those who by their efforts aided us either financially or otherwise.

Death of an Estimable Young Woman

In the death of Miss Carrie M. Runyon, daughter of Mr. and Mrs. Isaac M. Runyon, which occurred this morning at her home 462 West Front street, a most estimable young woman is lost. She had been unwell for a long time past and gradually grew worse until the end. She was a model Christian and was a faithful attendant when able at the First Baptist church where she was interested in all branches of church work. The funeral services will be held Monday afternoon next at 2:30 from her late home.

Mistaken As Usual.

District Deputy Grand Master L. S. Pocock and staff, go to Rahway tonight to install the officers in Essex County Lodge, I. O. O. F., instead of last Wednesday night, as was stated in the News.

OF PATRIOTIC DESCENT.

Continental Chapter of Daughters of the Revolution Meet Here Yesterday.

The first meeting of the Continental Chapter of New Jersey of the Daughters of the American Revolution was held yesterday afternoon at the residence of J. K. Myers. Mrs. Judge Depue, of Newark, Regent of Nova Caesaria Chapter, and Mrs. W. W. Smith, Historian of Eagle Rock Chapter, of Montclair, were honored guests of the chapter on this occasion. The officers of Continental Chapter are: Regent, Mrs. J.K. Myers; vice-regent, Mrs. Alex. Gilbert; secretary, Miss Dumont; treasurer, Mrs. John B. Dumont; registrar, Mrs. David H. Rowland. Others present were Mrs. C.W. McCutchen, Mrs. David P. Hall, Mrs. Charles E. Brooks, Mrs. Henry McGee, Mrs. M. E. Dwight, Mrs. Henry Opdyke, Mrs. J. F. Harman, Mrs. Isaac N. Field, Mrs. S.R Struthers, Mrs. F. H. Andrews, Mrs. C. J. Ames.

TOOK UP THEIR PLACES.

Exercises Incident the Installation of the Sangerbund Society.

The new officers of the Saenger and Turn Verein Society took their offices last evening. The president, M. Schoetlin, presided, and gave a toast to the society, after which the following toasts were given by J Richter, the vice-president, on the singing section; H. Haurand, turning section; I. Kohner, financial secretary, non-active members; L. Moraller, treasurer, dramatic section; Charles Dresselt, ex-president, our new president; Otto Kellar, new officers. The following then gave recitations: Martin Huber, Charles Duvier, J. Richter, Otto Kellar, G. Houseman, M. Schoetlin. Charles Dresselt rendered a song, and the singing section also gave several selections. An amusing feature took place when H. Haurand proposed a "Salamanda to the Prince of Carnival." In conclusion the members were all served with refreshments.

NO DYSPEPSIA HERE.

Cooking Lessons Given to Plainfield Women Yesterday.

The first of the six demonstrative lectures on cookery by Miss C. C. Bedford was given in the Y. M. C. A. building yesterday afternoon. The attendance was not very large, but more are expected to attend this afternoon. Miss Bedford is a woman that thoroughly understands her profession, and her lecture yesterday was very helpful. The dishes cooked and served included lyonnaise potatoes, stewed kidneys with brown sauce, creamed eggs, omelet, Sally Lunns and quick corn bread. The demonstrations were very plain and interesting, and formulas for making the above were distributed. Each person attending is asked to bring their own napkin, spoon and fork.

Miss Bedford uses her own cooking utensils and demonstrates thoroughly her subjects. Today the lecture will be on "Breads," including rolls, popovers, quick rolls and cinnamon buns.

A DESERVING CHARITY.

Work of Love That Received Encouragement—Quick Responses.

Willie Anderson is the boy who was unfortunate enough to lose one of his legs while catching on a coal train on Thanksgiving Day, He was cared for in Muhlenberg Hospital, and returned to his home here last week. He is now going to school walking with the aid of crutches. Mrs. John Merlett conceived the good idea that the boy, who is naturally bright, deserved to have an artificial limb. She could procure one for $75. The subject was talked over among the teachers and children of the Bound Brook public school, and so popular is Willie in that institution that the teachers and scholars promptly raised the handsome sum of $22.83, and Mrs. Merlett has raised the balance necessary to purchase the artificial limb.—Bound Brook Chronicle.

A Sad Death.

The announcement of the death of Mrs. George Butscher at her home on West Fourth street yesterday afternoon cast a gloom over her family that will take a long time to erase. Mrs. Butscher has been ill for a long time. She was an exemplary wife and mother. She leaves two sons and two daughters. The funeral will be held at her home at 9 o'clock tomorrow morning and at St. Mary's church at 9:30.

Hay for Ice Packing.

John Coley yesterday purchased 2,300 pounds of salt hay at Sewaren for which $7 was paid. The hay will be used in packing away ice at the ice house near the Sanitarium on Somerset street.

THE SICKLE OF SERVICE.

CHRISTIANS SHOULD WORK FOR A HARVEST OF SOULS.

Threatening Weather Prevented a Large Attendance at the Revival, But Rev. Mr. O'Donnell's Sermon Made Much Interest

The threatening weather prevented such a large attendance at the union evangelistic service last night as was seen there the evening before, but the First M. E. church was well filled, nevertheless, and the service was one of the most interesting that have been held.

The song service was led by F. H. Andrews, and the familiar hymns, with their stirring call to service, or their tender invitation to come to the Saviour, were a fitting preparation for the impressive service that followed.

The sermon was preached by Rev. W. C. O'Donnell, from the text Joel 3:13, "Put ye in the sickle, for the harvest is ripe." He spoke of "that little, great word, 'now.'" Those three little letters spell eternity. Now is the accepted time; now is the day of salvation. Are you squandering your present, in the hope that you may atone for it by the future?

The text has a message for both Christians and non-Christians. To the Christian it is a call to put in the sickle of service, and work for a harvest of precious souls. Laziness is more than a habit; it is a sin for which we shall be called to answer, when we give account of our conduct during these meetings. The truly happy man is the man who works hardest for the salvation of others. Some day there will be a great gathering together out of all nations; men and women coming with song and great rejoicing, "bringing in the sheaves." I want to be there then. You want to be there then. Then get your sheaves ready, now.

To any here tonight who may be in the darkness of doubt, the text brings you the message to put in the sickle of faith, and reap a harvest of joy and blessedness. Satan has put a drop of his deadliest poison, doubt, into your heart, but the Lord Jesus has a cure for that poison; simply faith in Him.

If there is one here tonight who has never accepted Christ as his Savior, God's spirit now whispers, oh so lovingly, in his heart, "Repent and turn to Him." But no messenger of God has a right to assure you of salvation tomorrow. Put in the sickle of repentance and faith, now. How can a man realize sin, and not repent? For you there may be no tomorrow. Christ stands pleading, waiting to welcome you now.

The after meeting was conducted in the church, instead of the chapel. Earnest words were spoken by Dr. Barnes and Rev. Cornelius Schenck, emphasizing the fact that the "accepted time" might that night come to some for the last time. Fervent prayers were offered; then, while the choir sang softly, "Come, sinner, come," the ushers distributed cards on which there was printed a promise of surrender to Christ. A number of these cards were signed, after which Rev. Mr. Schenck dismissed the company with the tender words of the benediction.

Tonight's meeting will be the last of the week-day services held in the M. E. church. Next week services will be begun in Crescent Avenue church, and Monroe Avenue chapel. Sunday evening, union services will be held as on last Sunday.

Suspicious Actions.

Two well-dressed men were in town last evening trying to bunco several persons. One of them had a watch and chain which he claimed were solid gold. He went into several stores and tried to sell his goods, but found no victims. The man claimed he was waiting for a friend. Presently his friend appeared, but they did not recognize each other. The one with the watch and chain showed them to the would-be stranger, whereupon the latter expressed himself as having no money, but recommended the goods as first-class. Policeman McCue was given a tip and watched the men. They finally escaped, however.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

THROWN INTO PRISON

General Pando Arresting Prominent Cubans.

Others Accused in an Anonymous Circular Join the Rebels — Reward Offered for the Capture of Insurgent Supplies — Garza Reported Killed.

Santiago de Cuba, Jan. 14, via Key West, Fla., Jan. 24.—The steamer Julia arriving here yesterday afternoon brought from Baracoa three political prisoners, planters and proprietors of that city, and one from Holguin. All have been lodged in jail. Gen. Pando arrived in this city yesterday, coming from Gibara and Baracoa. The general went from Baracoa to Gibara in the Spanish steam launch Alvarado. The launch was caught in a heavy storm and had to take refuge in the port of Banes, where Dumois & Co. offered the general the steamer Brisson to continue his trip. Yesterday, after the arrival of Gen. Pando, several handwritten circulars were distributed through the city denouncing to the general many prominent persons of this city as disaffected from the Spanish government. In the anonymous letters the general was asked to use strict measures against the denounced persons, and to exterminate all the Cubans. As a consequence of this denunciation some of the persons were arrested and thrown into prison and others who heard that their names were in the list joined the rebels.

Several Slight Engagements.

Yesterday morning, the 13th, the guerrilla of the Cristo met near that place a party of insurgents, having an encounter, in which ten guerrillas joined the rebels. Nine were killed and twenty wounded. Last night a rebel party, 100 in number, visited the village of San Vincente, one of the American railroad stations, eight miles from this city. The rebels were commanded by by Capt. Antonio Quintana. They took provisions in two stores and took with them the mayor of Caney, Marcelino Pena, a Spaniard, and several other men. On the 11th instant the Spanish column, led by Commander Pantoja, had an engagement with the rebel party of Cartagena, in Achotal, jurisdiction of Sagua de Fanamo. The insurgents had two killed and lost some arms and horses. The Spaniards had three killed and seven wounded.

GARZA REPORTED KILLED.

Fell in an Engagement with Spanish Troops in Cienfuegos District.

Havana, Jan. 24.—An official report has been received from the commander of the Cienfuegos district saying that a detachment of Spanish troops encountered a party of rebels on the Bravo Gresento estate. The insurgents numbered between 250 and 300 men and were commanded by Aulet and the famous Mexican Bandit Catarino Garza. After a severe fight the troops captured the rebel position and it was found that four of the insurgents had been killed. One of the bodies was identified by the superintendent of the estate as that of Catarino Garza. Many of the rebels were wounded, but were carried off by their comrades. Ten of their horses were killed. Three revolvers and four machetes were found by the troops.

J. FRANK CLARK.

Funeral Party Frightens a Town.

San Juan de Las Lajas, Jan. 15, via Tampa, Fla., Jan. 24.—The town of Taposte was greatly alarmed yesterday afternoon. Advices received there showed that a body of rebels were about to attack the place. Immediately there was a closing of shops and doors to private houses and the streets were instantly deserted. A few prominent people met and decided to constitute themselves a commission to proceed to the rebel commander and ask him to spare them and their properties. On Templadena streets they met the rebel band, numbering thirty or forty men, steadily advancing. In great fear the self-appointed commission advanced and asked for a parley. Great indeed was the surprise of the leader of the party when asked for clemency. The situation was ludicrous as he explained to the townspeople that they were accompanying the body of a dead comrade that they wished to bury in the cemetery of the town of Taposte. The commission then returned to the town and the shops were reopened.

Reward for Capture of Supplies.

Gen. Pando has issued a proclamation offering a reward to any person who will deliver to the authorities any arms, horses or ammunition taken from the insurgents or that may have been prepared for them. The reward offered is as follows: The person who presents a Mansur rifle will receive $20; for an ordinary rifle, $15; for a Remington, $14; for a carbine, $8; for a machete, $3; and for every ten cartridges, $1.

The "Bat" Shea Case.

Albany, Jan. 24.—The attorney general has received a letter from Justice Mayhew of the supreme court notifying him that the "Bat" Shea case would be heard before him next Tuesday morning at Schoharie.

First Law of the Present Session.

Albany, Jan. 24.—The first law of the present session was signed yesterday. It was Senator Lexow's bill to enable the village of Goshen to bond itself for an additional water supply.

Gold Reserve To-day.

Washington, Jan. 24.—The treasury gold reserve to-day stands at $50,343,336.

DOINGS IN CONGRESS.

Three Set Speeches in the Senate—House Adopts Rules.

Washington, Jan. 24.—There were three set speeches delivered in the senate yesterday. The first was by Mr. Warren, rep., Wyo., on a resolution offered by him about a week ago in reference to the "unprecedented shrinkage, in numbers and values, of farm animals throughout the United States." The speech was largely a laudation of the system of high protective duties as embodied in the McKinley act and a condemnation of the Wilson act. The second speech was made on the house bond bill, with the free coinage annex, by Mr. Dubois, rep., Idaho. Mr. Dubois declared his purpose to vote for the free coinage substitute, and only expressed his regret that its adoption by the senate would not avail to secure its enactment. The Monroe doctrine was the subject of the third speech. This was made by Senator Daniel, dem., Va., and was an argument in favor of the Davis resolution and in defense of the course of the administration in the Venezuelan matter.

House of Representatives.

"The nervous irritation produced by the indulgence of an afternoon of constitutional debate," as Mr. Dolliver, rep., Iowa, wittily expressed it, was responsible for the enlivening feature of an otherwise dreary stretch in the house proceedings. Immediately after the reading of the journal Mr. Henderson, rep., Iowa, reported the quorum-counting rule from the committee on rules, as amended to meet objections made to its original form. The changes provided for adjournment pending a roll call and exempted Friday night sessions (until further ordered by the house) from the operations of the rule, and it was agreed to. Mr. Crisp, dem., Ga., moved to substitute for the rules as a whole the rules of the fifty-third congress. This was defeated and the rules as reported were adopted.

LIE PASSED IN THE REICHSTAG.

Hot Words over an Inquiry Regarding Bimetalism Resolution.

Berlin, Jan. 24.—In the reichstag yesterday afternoon Dr. Barth, a leader of the radical-unionist party, asked Chancellor von Hohenlohe what had been done with the resolution in favor of bimetalism that had been introduced during the last session of the reichstag. The chancellor replied that he was not yet able to make any statement to the chamber concerning the resolution. Dr. Barth then declared that the bimetalic agitation had been fomented outside of Germany, adding that perhaps American gold had assisted the agitation. Herr von Kardoff, the German champion of bimetalism and leader of the agrarian party, challenged the production of proof that any one of the German bimetalists had been paid to represent American interests and declared that Dr. Barth was an infamous liar. Dr. Barth sprang from his seat and hotly declared that such a remark was an infamy and an outrage on debate. The president of the chamber called Dr. Barth to order, stating that he had not heard the remark imputed to Herr von Kardoff.

INTERNAL REVENUE RECEIPTS.

A Decrease of Over $5,000,000 During the Past Six Months.

Washington, Jan. 24.—The receipts from internal revenue for the past six months of the current fiscal year aggregate $76,807,522, a decrease as compared with the corresponding period of 1894-95 of $5,040,198. The principal decrease is in spirits of $6,667,709, owing to the increase of tax. Receipts from fermented liquors increased $1,190,533, and those from tobacco $768,364.

Considering the Civil Service Law.

Washington, Jan. 24.—Mr. Brosius of Pennsylvania, chairman of the house committee on reform in the civil service, says that his committee is carefully considering the civil service law prior to reporting on measures before it. The object of the committee is to ascertain if there is any flaw in the act necessitating a strengthening of the present law.

An Indian Pardoned.

Washington, Jan. 24.—Daniel Watkins, a Cherokee Indian who was sent to the Kings county (Brooklyn, N. Y.) penitentiary in April, 1894, as a United States prisoner, to serve a four years' sentence for larceny at Fort Smith, Ark., has just been pardoned by the president. The pardon is an unconditional one.

The Aspinwall Will Not Contested.

Pittsburg, Jan. 24.—The will of the late Anna R. Aspinwall, contrary to expectation, will not be contested. The probating of the will insures the bequest of property estimated at $3,000,000 to a Philadelphia hospital.

Sympathy for Armenians.

Washington, Jan. 24.—The house committee on foreign affairs has unanimously adopted a resolution offered by Mr. Quigg, rep., N. Y., expressive of this government's sympathy with the Armenians.

Money Nominated for U. S. Senator.

THE BOERS' PRISONERS

Unnecessary Alarm Concerning Their Safety.

Ambassador Bayard, in Answer to a Cablegram from Secretary Olney, Says the Transvaal Government Is Extending To All, Americans Included, Humane Treatment.

Washington, Jan. 24.—Telegrams and numerous letters have been received at the state department in regard to the case of John Hays Hammond, the California mining engineer under arrest at Pretoria for alleged complicity in the Uitlander plot against the Transvaal government. Many of these are from persons high in national reputation, and social, political and personal influence has been brough to bear with a view to securing clemency for Hammond. The information cabled from the Transvaal that Hammond was in danger urged his friends to greater effort, and yesterday Secretary Olney sent another cablegram of inquiry to Ambassador Bayard to ascertain whether Hammond and other Americans in the custody of the Boers were entirely safe and accorded good treatment. Mr. Bayard answered promptly, and the substance of his dispatch was made public last evening in the following statement from the state department: "In response to an inquiry Ambassador Bayard telegraphed that, according to his present information, uniform humane and indulgent treatment is being extended to all persons, including Americans, by the Boer government."

VENEZUELAN CONTROVERSY.

London Daily News Again Pleads for a Settlement of the Matter.

London, Jan. 24.—The Daily News to-day again pleads for a settlement of the Anglo-American dispute. It will sum up the British advances, but will say it is equally true that ample justice has been done by the press and public in the United States to the strength of England's position and the equity of her conduct. The paper remarks upon the silence of Lord Salisbury and declares that the matter cannot be left to the foreign office. "The public," it adds, "is widely content that professional diplomats shall deal with technical diplomacy, but there are broad principles concerning which the nation must be heard and its voice heeded. The British people will not have war with the United States and there is the end of it."

H. ALFRED ANDRE DEAD.

Banker, Philanthrophist and Leader of the French Protestant Church.

New York, Jan. 24.—A private cablegram from Paris states that H. Alfred Andre, banker, chevalier of the Legion of Honor, regent of the bank of France and one of the wealthiest and most influential gentleman of that city, died very suddenly Wednesday. M. Andre was about 70 years of age and was actively engaged in business life. He was the leader in the French Protestant state church and in all the philanthropic and benevolent agencies in France. He was the president of the French national committee of the Young Men's Christian association.

Want McKinley Schedules.

Rochester, N. Y., Jan. 24.—At the meeting of the Shropshire breeders of the state of New York, in session in this city yesterday, after a discussion of the depressed condition of the sheep industry, a resolution was adopted calling for the restoration of the McKinley schedule on wool, and such reciprocity treaties as affect the transportation of American meats.

Cleveland Transfer a Fake.

St. Louis, Jan. 24.—President Von der Ahe of the St. Louis Browns and president De Hass Robinson of the Cleveland baseball club both deny the report of a contemplated deal whereby the Cleveland baseball club was to be transferred to St. Louis. The story originated in Pittsburg, the hotbed of baseball fakedom.

Youngs and Mrs. Haun Indicted.

Fonda, N. Y., Jan. 24.—The Montgomery county grand jury has indicted William Youngs of Fort Hunter, who shot his wife a short time ago, and also indicted Mrs. Florence V. Haun, who shot Charles Landry in Amsterdam.

Capt. Hughes Acquitted.

Charleston, S. C., Jan. 24.—Captain Hughes, master of the steamship Laurada, who was charged with violating the neutrality laws of the United States, was acquitted last night in the United States district court.

No Punishment for Jameson.

London, Jan. 24.—The law officers of the crown are unable to find an offense in the English law for which Dr. Jameson, the leader of the raid into the Transvaal, can be either civilly or criminally tried.

LAX PRISON RULES

Clinton Convicts Went Fishing and Hunting.

Played Ball with Village Boys Outside the Prison Grounds.—One Youth Testified To Having Often Bought Whiskey for Them—How Two of the Convicts Escaped.

Albany, Jan. 24.—Testimony brought out at the Lathrop prison investigation showed that at one time discipline in some respects at Clinton prison was very lax. D. F. Benham, a former hall guard, testified that he knew a convict who had a key to the guard room which gave him access to the armory. He used to go in there and sleep. He had on two or three occasions seen prisoners playing ball inside the fence. W. W. Wright, a blacksmith at Dannemora, gave testimony with regard to the conduct of prisoners prior to a certain escape. Eddie La Ford, a boy of 13 and a friend of Eddie Thayer, the warden's son, said he formerly had access to the prison grounds and went shooting with young Thayer and a convict. Both had guns. He also frequently went fishing with the boy and the convict. They would stay away from half a day to a day at a time. In the summer of 1894 he got liquor four times for convicts who worked around the prison barn. This money was given him by the contracts and he purchased the liquor in a bottle. He told no one of it but his mother. He had played ball with convicts outside the prison walls at one time on Sunday.

Went Fishing with a Convict.

At the latter time the deputy warden stopped them. On cross-examination the youngster said that "He did not play in Eddie's yard any more." Warden Thayer had learned of his getting the liquor for the convicts and had placed a sign in the prison barn forbidding anybody to go near the barn or the convicts. Charles Parrott, a boy of 18, testified that he brought whiskey to convicts and gave it to them in the barn eighteen or nineteen times in 1894. He had never seen convicts drunk, but saw them acting as frisky as colts. He had seen some convicts playing ball evenings in the field just outside the prison wall. It had been the custom of some of the village boys to join the convicts in the game. He had gone fishing with convict Johnson, who attended the boiler in the warden's house. All this was stopped so far as he was concerned after the warden placed his sign up. The warden warned him he would have him put in jail if he furnished any more liquor to the convicts.

Escape of Two Convicts.

Alexander La Porte, a prison guard said he knew of ten or twelve convicts who slept in the barn nights, until during the summer of 1894, when they broke into Storrs' hotel in Dannemora. He had met prisoners two and three miles from the prison unattended with guns and dogs. He had seen them playing ball in the field on Sundays. He testified as to the escape of Rafter and Kearney, who got away while working on the private house of Keeper Bogan. La Porte was the last witness heard, and at the conclusion of his testimony Mr. Kisselburgh charged that the $6,000 spent in recapturing these two prisoners was wrongly charged up to the prison road fund.

Connecting Rod for Steamer Saale.

Bethlehem, Pa., Jan. 24.—The Bethlehem Iron company last night sent to New York the connecting rod for the steamship Saale of the North German Lloyd line. The rod weighed 10,000 pounds and was one of the greatest and quickest jobs in steel work that was ever undertaken in this country. The work was completed in two weeks upon the receipt of the order.

Currency Legislation.

Washington, Jan. 24.—Representative Walker, chairman of the banking and currency committee, is receiving letters every day from bankers and financiers urging action by the committee, of which he is chairman, but thus far as a whole, the public has not given the committee that emphatic support necessary to justify it in reporting a measure of radical reform.

House Letter Box System.

Washington, Jan. 24.—Postmaster General Wilson has issued an order establishing a house letter box system of distributing and collecting mails, experiment to be made, among others, in the following cities: Alleghany, Pa.; Boston, Mass.; Buffalo, N. Y.; East Orange, N. J., Portland, Me.; St. Albans, Vt.; Springfield, Mass.; Syracuse, N. Y.

Unknown Schooner Sunk at Sea.

Delaware Breakwater, Jan. 24.—An unknown schooner is believed to have been run into and sunk at sea by the British steamship Sicilian, which arrived last night from Pernambuco and sailed for New York. The steamer's officers refused to give particulars. The steamship was herself slightly damaged.

Mrs. Worman Commits Suicide.

New York, Jan. 24.—Mrs. Emma Worman, wife of the principal owner of Outing, magazine, committed suicide last evening in an apartment over the the offices of the magazine on Fifth avenue. Her suicide is attributed to anxiety for an invalid son's welfare.

Yorktown Sails for Nagasaki.

Washington, Jan. 24.—The Yorktown sailed from Shanghai, for Nagasaki, yesterday afternoon.

BANKRUPTCY LEGISLATION.

The House Expected to Pass a Bill with Satisfactory Promptness.

Washington, Jan. 24.—A bankruptcy law is on the programme for one of the fruits of the present congress. A majority of the judiciary committee of the house is in favor of such legislation, and its members believe that the house will pass a satisfactory bill with sufficient promptness and with a large enough vote to send it to the senate with a momentum which will greatly aid its passage there. The two measures which now engage the attention of the committee are the Torrey bill, which has been discussed so much in congress that its friends believe they have rounded off all its sharp corners, and the Powers bill, so named in honor of Representative Powers of Vermont. As a bill providing for involuntary bankruptcy as well as voluntary must appeal very strongly to a good many interests in order to get through congress, it is probable that the committee will try to combine the features likely to be most popular in the two bills now before it, and offer a third bill of its own as a substitute for both.

NEARLY OUT OF GOLD.

Prospects of a Lay-off for Employes at Philadelphia Mint.

Philadelphia, Jan. 24.—No gold has been received at the mint for some time, but the demand for gold coin has been kept up and the presses have been kept busy all fall and winter turning out half eagles, eagles and double eagles. The result has been that the supply of gold on hand has steadily diminished until there is so little left that it will be exhausted in less than two weeks. By the end of next week, unless more gold arrives, it will be necessary to stop all the gold coinage and those employes engaged in it must be laid off. There has been no silver coined recently and there is no order for any now, but it is hoped that an order will be issued in case no more gold is received soon, so that as many presses my be kept going as possible. One reason for the failure to send more gold to the mint is that the supply of bars in the treasury has been depleted by exports.

WHITE HOUSE RECEPTION.

The President Entertains Congress and the Federal Judiciary.

Washington, Jan. 24.—The President and Mrs. Cleveland were "at home" last night to congress and the federal judiciary. It was the second of the official evening receptions of the present social season and despite the rainy weather was attended by a large number of senators, judges, army and navy officers, members of the diplomatic corps and government official. Mr. and Mrs. Cleveland were asssisted by the ladies of the cabinet. Secretary Herbert and Miss Herbert were not present owing to illness at the home. No invitations "to stand behind the line" were given, but a group of the wives of prominent senators, representatives and federal judges stood there most of the evening.

TRAPPED BY SENATOR HILL.

Mr. Pugh Discovered That His Silver Resolution Had Lost Its Place.

Washington, Jan. 24.—Before the speechmaking of the day began in the senate yesterday a rather amusing scene was presented when Mr. Pugh, dem., Ala., discovered, to his apparent surprise, that his resolution declaring government obligations payable in silver had lost its advantageous place as unfinished business and had gone to the calendar. He finally admitted having been "trapped by the senator from New York" (Mr. Hill), and gave notice that he would move to-day to take it from the calendar and bring it before the senate for a vote.

FOR CAUSING A GIRL'S DEATH.

Bogus Doctors Sentenced to Prison at Boston.

Boston, Jan. 24.—In the superior court yesterday "Doctor" George L. Lang and "Doctor" Frank D. Hagar were sentenced to the state prison for a minimum period of not less than seven years and a maximum period of not more than thirteen years. Henry J. Reardon was also sentenced to the state prison for a minimum period of not less than five years and a maximum period not more than eight years. They were concerned in the death of the 15-year-old East Boston girl, Lillian Ray.

HER LATEST DILEMMA

England Excited Over Russo-Turkish Alliance.

The Report Given So Much Credence That Stocks Are Visibly Affected—Indications That France Is Also in the Agreement—Russia Preparing To Enlarge Her Navy.

London, Jan. 24.—The newspaper dispatch from Constantinople announcing that an offensive and defensive alliance had been established between Russia and Turkey meets with so much credence here that the stock market has become visibly affected, British consuls having declined ½. The fact that Mr. Cambon, the French ambassador to Turkey, had an audience with the sultan on Tuesday last which lasted for several hours, is construed by many as indicating that France is also a member of the new alliance, if one really exists. The basis of the treaty is said to be on the lines of the Hounkiar-Iskelessi agreement. It was signed in Constantinople and ratified in St. Petersburg. The Hounkiar-Iskelessi treaty bound the Russian and Turkish governments to mutually assist one another to resist foreign aggression and to help each other in case of internal dangers. As Turkey was at the time of the conclusion of the agreement in a state of utter collapse, Russia waived the matter of assistance promised by Turkey and received instead permission, in the event of Russia's being at war, to close the Dardanelles to warships of all nations. The western powers refused to recognize the treaty, which was soon tacitly abandoned. For a time a general European war seemed inevitable. A monument near the shores of the Bosporus was erected at the time in commemoration of the peace so happily secured by the treaty of Hounkiar-Iskelessi; the inscription expresses a hope that it may be perpetual.

Russia To Enlarge Her Navy.

The dispatch from St. Petersburg saying that 18,000,000 roubles had been appropriated by the Russian government for naval construction in 1896 also strengthens the belief that a Russo-Turkish alliance has been formed. The main object of Russia, according to the dispatch, is that for every new warship, especially of the cruiser class, which England shall add to her fleet Russia shall produce one equally as good or superior. The dispatch adds that seven vessels are now in course of construction for the Russian navy.

Discredited in Official Circles.

In official circles the report of the alliance is discredited. At the same time there is a disposition to regard an amicable arrangement between Russia and Turkey as a natural solution of the eastern question.

THE WAR IN ABYSSINIA.

Six Thousand Additional Italian Troops Ordered to Massowah.

Rome, Jan. 24.—Additional troops to the number of 6,000 men have been ordered to proceed to Massowah, capital of the Italian colony of Erythrea, whence they will be dispatched to the interior of Abyssinia to reinforce the troops now campaigning against the forces of King Menelik. The banks here expect that the government will call for a loan of 200,000,000 lire to meet the expenses of the campaign against the Abyssinians.

Will Wait for Surrender.

London, Jan. 24.—The Times to-day publishes a dispatch from Adagamus, Abyssinia, which states that an escaped prisoner who has arrived at that place says that owing to the losses sustained in their several attacks on the Italian garrison at Makelle the Abyssinians will not attack that place again. It is their intention to wait until the failure of the water supply of the place compels the surrender of the Italian force. The dispatch adds that the garrison have been reduced to a glass of wine and water once a day. Communication with the beleaguered town is almost impossible.

Rescued by Firemen.

New York is throwing any number of bouquets at Chicago for capturing the Democratic Convention. Why shouldn't she? She threw her the convention.—St. Louis Star.

The silver leaders in secret session at Washington have decided to hold a national convention next summer, no matter what action is taken by the Republican and Democratic conventions.

Equal taxation is generally regarded as a good thing, but if steam railroads should pay full local taxes on the lands covered by their right-of way, how much should the electrical railroads pay on their main stems?—Newark News.

Assemblyman Samuel Bullock, of Paterson, announced yesterday that he intends resigning from the committees to which he was appointed by Speaker Derousse. Bullock last fall was refused a renomination by the Passaic county Republicans and ran independent with a Democratic indorsement. He was purely a labor candidate, and was undoubtedly elected by the members of that party. He was anxious to be made a member of the labor committee in the Legislature, but that position was denied him.

Gov. Griggs finds out very early in his official life what kind of opposition he is going to encounter in living up to his ideal of a Governor's duty. In its comments on the inaugural the Trenton Gazette, the Republican organ at the Capitol, which has so long shared in the Capitol plunder and was smirched before the Voorhees committee last summer, says: "It is gathered from the tone of the address that Gov. Griggs does not intend to be guided by partisan influences in making appointments to public office. This is a determination which may be carried to a dangerous extreme, to a point far beyond the approval of the people, and it is slippery ground for a man to tread upon. * * * The people want the management of the affairs of the State to rest in the hands of the Republicans, and they will not be satisfied with any act that may neutralize or weaken the strength of that party."

A New Social Club.

A new social club for young men was organized at Pierson's store on Watchung avenue, Wednesday evening. As soon as the membership of the club is enlarged sufficiently to warrant the expense, club rooms will be rented in the Babcock building. So far, the following have become members: Clarence Thorn, William Thorn, Henry Vosseller, Walter L. Hetfield, Jr., Irving Pierson, Werner Pierson, Harry Dencklau, Percy McVoy, Raymond McVoy, Elwood Sebring and Mr. Mapleton. The club meets again next Tuesday evening.

Pleasant Affair.

The Fourth Ward Social Club gave their third ball in the T. A. B. hall, last evening to a good sized attendance. Despite the inclemency of the weather, those that did attend had an enjoyable time. Music for the occasion was furnished by O'Reilly. Charles McCarthy was the efficient floor manager with P. Mack as assistant.

—Jed and Will Smalley are negotiating for the purchase of the butcher shop of their brothers, David and Albert, corner of Somerset and Race streets, North Plainfield. If they get it they will close up their present place of business.

There was a "large time" at the meeting of Goodwill Lodge, No. 101, K. of P., last evening. Deputy Grand Chancellor James Patterson, of Plainfield, installed Past Chancellor Robert John as master of work. The room was then cleared and the ladies joined the party. The rest of the evening was spent very pleasantly with music, dancing, singing and recitations. Deputy Grand Chancellor Patterson with a few well chosen words presented Past Chancellor John with a Past Chancellor's jewel as a token for his long and excellent services in the lodge. Mr. John responded with a pleasing little speech. A bountiful collation was served.

THE MINUET DANCER.

So, my enchantress in the flowered brocade,
You call an elder fashion to your aid,
Step forth from Gainsborough's canvas and advance,
A powdered Galatea, to the dance.

About you clings a faded, old world air,
As though the link boys crowded round your chair.
As though the Macaronis thronged the Mall,
And the French horns were sounding at Vauxhall.

They tread the stately measure to its close,
The silver buckles and the silken hose,
Ladies and exquisites, that bend and sway,
Brilliant as poppies on an August day.

You dance the minuet, and we admire,
We dullards in our black and white attire,
Whose russet idyl seems a mere burlesque,
Set in a frame so far less picturesque.

Yet I take heart; for Love, the coatless rogue,
Can scarcely heed what raiment be in vogue,
Since in good sooth his negligence is known
As something scandalous anent his own.

And so he whispers, Eyes were bright and brown
Long ere the powder tax dismayed the town,
And faithful shepherds still shall babble on,
Although the rapiers and the frills be gone.
—Alfred Cochrane in Spectator.

ODD FACTS ABOUT MADAGASCAR.

The Policemen Sleep on Their Beats. The Curfew Is of Ancient Use.

Probably the sleepiest policemen in the world are those of Madagascar. At Antananarivo, the capital, there is little evidence of the force by day, for its members are all peacefully wrapped in slumber. At night, too, the guardian of property is seldom to be seen, and that he is actually guarding is only to be told by the half hourly cry that is sent up to police post No. 1 alongside the royal palace.

"Watchman, what of the night?"

"We are wide awake, keeping a sharp lookout, and all's well."

Antananarivo has no lamps and no streets. It is simply a great collection of houses tumbled together. There is a big force of night police, known as the "watch." The men gather themselves together into groups, and choosing snug corners, wrapping themselves in straw mats, they drop into long and profound slumber. One member of each group remains awake to respond to the half hourly call from the palace. As he calls back, the others, half awake, mechanically shout back the response. It makes little difference, however, that the police continually sleep, for robbery is rare.

Curfew, though popularly supposed to be purely an early English and Norman-French custom, has been established in Madagascar for centuries. In every town and village between 9 and 10 the watchmen go around shouting out in the Malagasy dialect, "Lights out!" and they see that all is in darkness in every house. After these hours no one is allowed to travel around without a special pass.

There is no criminal code of any account, and when a man is caught in the act of stealing the populace is apt to ignore the police and surround him and stone him to death. The Madagascans have no "swear words" in their language, and when their feelings are overwrought against a man the only thing they can do is to execute summary vengeance on him.—New York World.

How Fast the Earth Moves.

Everybody knows that the earth makes one complete revolution on its axis once in each 24 hours. But few, however, have any idea of the high rate of speed at which such an immense ball must turn in order to accomplish the feat of making one revolution in a day and a night. A graphic idea of the terrific pace which the old earth keeps up year after year may be had by comparing its speed to that of a cannon ball fired from a modern high pressure gun. The highest velocity ever attained by such a missile has been estimated at 1,626 feet per second, which is equal to a mile in 3 2-10 seconds. The earth, in making one complete revolution in the short space of 24 hours, must turn with a velocity almost exactly equal to that of the cannon ball. In short, its rate of speed at the equator is exactly 1,507 feet per second. This is equal to a mile every 3 6-10 seconds, 17 miles a minute.—St. Louis Republic.

The Park Club Jr's went to Elizabeth Wednesday evening and downed the Elizabeth Athletic Club Jr's in two games. The Parks won the first, 755 to 714, and the second, 763 to 656. The Parks had their opponents from the start in each game.

Two more games are to be rolled in the Standard Bowling League this evening between the two local clubs, the Parks and the Union Counties. They meet on the latter's alleys. In these games will depend whether the Park Club remain on top of the heap or start on the toboggan. The Union Counties are unfortunate in losing one of the regular team, Brown, who will be unable to bowl. They will, however, put up a good game especially as it is on their own alleys. The game is sure to be an exciting one.

The last team in the Central Journal Bowling League had the audacity to defeat the first team, the Crescent Wheelmen, last evening, to the great disgust of the latter. The glowing visions of the trophy that filled the minds of the Crescent Wheelmen are not quite so bright, as the Cranford C. C. is only one game behind. The Elizabeth boys have been tagging along in the rear, and when the team from this city went down to Elizabeth last evening they had no doubt as to the result of the game. The first frame was a big surprise to the visitors, for the Elizabeth team, strengthened by five of the "Terrible Ten," jumped ahead 40 pins at a time. Eight pins more was added to the lead in the second frame, while at the end of the third Elizabeth was 63 pins ahead. Then the Crescent bowlers began to pull and they pulled the lead down to 25. It was a stern chase all the way for the visitors and they worked like beavers to catch up. The Elizabeth team was just beyond their reach and there they remained until the last frame. After nine men of each team had bowled in the last frame, Plainfield was six pins ahead. Howard, the Elizabeth man, made a double header and then eight, scoring 28, while Petrie made 9, Elizabeth winning by 13 pins. A noticeable thing on the Crescent score is the excellent bowling of the younger contingent, the members of the "Will Be" team. The following individual scores show the facts:

CYCLING COMMENT.

A book of great interest to cyclists has just been put on the market It describes, with profuse illustrations, how to make different repairs to a bicycle. The author of this book is Samuel D. V. Burr, of Central avenue, and it is published by the Iron Age Publishing Company. A copy was presented to each of the exhibitors at the cycle show.

Bicycles are not, by any means, the only things on exhition at the cycle show. Sundries, accessories, tools, cycling clothing, everything, in fact, that is of the slightest interest to cyclists. And the crowd that has thronged Madison Square Garden every day this week is not an ignorant crowd They understand a good thing when they see it and can talk intelligently on any part. There is a surprisingly large number of tandems on exhibition, combination tandems and double diamond-framed tandems, but the greatest of all the "Bicycles Built for Two" is the one on which the riders set side by side. There are only two wheels, but there are separate pedals and handle-bars The inventor claims that as long as one rider knows how to ride, the machine will go without any trouble, and that considerable difference between the weight of the riders will not change the balance of the wheel. A delegation of Plainfield people went to the show last night and another party is preparing to go tonight. This evening is ladies night and all the exhibitors will be particularly lavish in their distribution of souvenirs. The Quill Wheelmen, the cyclists from the ranks of the journalists, have also prepared a souvenir to be distributed among the fair sex.

AT THE TRAPS.

A yearly contest was opened by the members of the Independent Scheutzen Corps yesterday afternoon at Hyde's grove, and matches will be held once a month. Owing to the very heavy wind yesterday Henry Wedemeyer was the only one who scored a point. He made 20 out of a possible 25. A sweepstake contest followed, in which Williams, VanDyke and Trust secured first money, and J. A. Blatz second money. The club will have a live bird contest next Thursday afternoon.

Sound Advice.

"Look here," he said to the newspaper man who had called for an interview, "do you think you can get things into the paper just as we talk them?"

"I wouldn't guarantee them," was the honest reply.

"Well, is there any way I can be sure that what I say, and only what I say, will go into print?"

"There is. In the first place, get pencil and paper."

"Yes."

"Then lock yourself in a room and write what you want to."

"I see."

"Then go down and figure with the advertising department at regular rates."

"Yes."

"Have the proofs sent to you to be read and corrected?"

"Exactly."

"Then buy out the whole office for one whole day, and after your article is out sell the concern back to the company for what you can get. The chances are that your article will come out about as you wrote it, but if it doesn't you'd better keep still forevermore. In fact, keep shut anyhow and say nothing to anybody about anything!"

Taking Down a Porter.

The porter of a Pullman palace car stood outside the Fort Street depot the other day, leaning against the wall with his arms folded. Two colored men coming down the street caught sight of him and halted, and the first observed:

"Some folks would reckon he owned dat big depot."

"But he doan'."

"No; he doan' eben own de railroads."

"Nor he doan' own de kyar on which he runs."

"No."

They were silent for a minute or two as they looked across at him, and then the first remarked:

"He doan' eben own Misser Pullman."

"No."

"All dere is about it is dat when de train is about to go out Misser Pullman comes down an says, 'Gawge, I wish you'd be second boss in dis kyar to Buffalo an back, an I'll gin you fo' dollars.' An Gawge goes wid de kyar an den comes back an leans up agin de depot an wants eberybody to take him for de biggest man in Detroit. Shoo! It makes me tired!"—M. Quad in Detroit Free Press.

PLANTS AND SEEDS.

INTERESTING INFORMATION ABOUT FLOWERS AND VEGETABLES.

The Art of Improving Plants by Cross Breeding—Certain Colors Not Yet Obtained—High Priced Seeds—Large Quantities of Some Kinds Used Annually.

The cultivation of plants for seeds has assumed such enormous proportions in recent years that, as practiced under the intense systems of the present day, the occupation combines both an art and a science.

The original individuals of almost every garden vegetable and every garden flower have been trained from a wild state, improved through cultivation and patient selection.

The garden cabbage serves as a good illustration in this respect, for here we have the highest cultivated type of a useless plant that is still found growing in a wild state upon the Kentish cliffs, and yet, if this pedigree form were not carefully guarded while in the hands of the expert, it would be only too ready to revert back to its original condition.

As an example of the operation of cross breeding, which has had so much to do with the improvement of the ordinary species, we will take the garden pea. The operator, we will say, is anxious to obtain a variety with pods as long as that popular sort called "Telephone," only that he wants it two feet shorter in the haulm and to bear its pod three weeks earlier.

His first course is to grow a row of two kinds side by side—sorts which, in his opinion, give the desired result. At the proper time he fertilizes the flowers of one with the other. As soon as the pods are ripe and the peas come to be shelled out it is sometimes found that they are composed of a regular mixture of round seeds in various shades of blue and white and wrinkled seed bearing similar distinctive characteristics, and this in face of the fact that the seeds of the parents were almost identical.

The progeny is sorted and sown the following season in rows side by side, and the outcome is astonishing. One row will perhaps be quite a fortnight earlier than its neighbor. Another will only grow one foot high. A third will be six feet, and to such an extent does this variation exist that it quite negatives the old saying, "As like as peas in a pod."

Sowings are repeated each season, always retaining those showing the points aimed at in the greatest degree, and it ultimately occupies six years before the selected variety is ready for placing on the market.

Hybridizing is quite a distinct process from the aforementioned—the one being the intermingling of two varieties of one species; the other the fusion of two distinct species. As a very fair example we will take the hybrid fruit exhibited in London between a gooseberry and a black currant. Although the means to bring about such a curious result were applied by the art of man, the outcome can only be classed as a freak of nature.

Among flowers there are many beautiful things that have been obtained by this means.

With all the resources at man's command there are certain colors in flowers that have not yet been obtained, and a handsome fortune awaits the first lucky raiser of a blue dahlia, a blue rose, a yellow geranium, a blue carnation or a pure white or blue nasturtium.

It will astonish many who read this article to know that it requires several tons of such seeds as mignonette, sweet peas, nasturtium, nemophila and candytuft to supply the contents of the millions of packets that are distributed each season. One large London firm gets through six tons of mignonette and 12 tons of sweet peas, while among vegetables they have laid themselves out to distribute 50,000 bushels of garden peas.

When it is stated that each bushel scales about half a hundredweight, it will be seen this represents the astounding weight of 1,250 tons, or sufficient to fill 13,000 sacks, or 156 ordinary railway trucks. Of turnip seeds they expect their crops to give them several hundred tons, the greatest market for this seed just now being New Zealand, where the root is largely grown for producing the mutton so popular in this country. Clover and grass seeds are also handled by the hundred tons in the course of a season.

The little canary and other cage birds require several hundred tons of the canary grass seed every year. Astonishing as it may seem, it is nevertheless true that one seed firm distributed over 100 tons of this bird seed in 12 months.

Although certain seeds are handled in such enormous quantities, there are others that are worth many times their weight in gold. These mostly consist of choice strains of flowers. Take, as instances, the double begonia, worth about $200 an ounce, calceolaria about $60 and certain sorts of pansies $10.

Some of these seeds are as minute as dust, yet the contents of each tiny packet as offered for sale comprise so many seeds, the exact number being counted in by an operator skilled at the work and who is obliged to wear specially constructed glasses.

A flower farm is a delightful sight in summer, where breadths of one to ten acres of brilliant colors make an effective mark in the landscape and produce a series of chromatic hues of the most striking character. A recent visit to a field garden of this description calls to mind a few of the beautiful things we saw.

The first to arrest attention was a new chrysanthemum, with a rosettelike center and broad margin of ray florets of a pale peach color and dark brown and claret at the base—a singular combination of colors, attractive and distinct.

From this neutral tint the eye was irresistibly drawn to a fiery mass of orange scarlet, a selected variety of nasturtium, so bright that workmen only spend an hour or two at a time for weeding, the intensity of the color affecting the eye. Large breadths of poppies were gorgeous, but less dazzling, for, being in mixture, the effect of the richly colored varieties was subdued by the neutral tints.

Fancy ten acres of ground covered with larkspur in "bands" of separate colors, with intervening blocks of nemophila for preventing any accidental mixing of the larkspur seed.—London Answers.

An Official Purgatory.

Messrs. Allen and Sachtleben, who made a bicycle tour around the world, describe their journey from Samarkand to Kulja in The Century. Of one city on their route they say:

Tashkent has long been known as a refuge for damaged reputations and shattered fortunes, or "the official purgatory following upon the emperor's displeasure." One of the finest houses of the city is occupied by the Grand Duke Nicholai Constantinovitch Romanoff, son of the late general admiral of the Russian navy and first cousin to the czar, who seems to be cheerfully resigned to his life in exile. Most of his time is occupied with the business of his silk factory on the outskirts of Tashkent and at his farm near Hodjent, which a certain firm in Chicago at the time of our sojourn was stocking with irrigating machinery. All of his bills are paid with checks drawn on his St. Petersburg trustees. His private life is rather unconventional and even democratic. Visitors to his household are particularly impressed with the beauty of his wife and the size of his liquor glasses.

The example of the grand duke illustrates the sentiment in favor of industrial pursuits which is growing among the military classes, and even among the nobility of Russia. The government itself, thanks to the severe lesson of the Crimean war, has learned that a great nation must stand upon a foundation of something more than aristocracy and nobility. To this influence is largely due the present growing prosperity of Tashkent, which, in military importance, is rapidly giving away to Askabad, "the key to Herat."

A Lesson From the Chicago.

Nelson once saw an American squadron in European waters. Whether it was Captain Richard Dale's squadron, in 1801, Captain Richard Valentine Morris' squadron in 1802-3 or Captain Edward Preble's squadron in 1803 I do not know, but it is said that the great chief paid much attention to the vessels, and that his verdict was, "There is in the handling of those transatlantic ships a nucleus of trouble for the navy of Great Britain."

The trouble came in 1812. Great Britain had waged for many years a naval war of unexampled proportions, and by devotion and valor had broken the back of the most vigorous maritime combination that in all her history had been arrayed against her. The fleets of France, Spain, the Netherlands and Denmark had, once or oftener, together or singly, been met and beaten as fleets had never been beaten before, and although hostilities still dragged on Great Britain was entitled, if ever in her career, to consider herself supreme mistress of the ocean. But from the remote west, where Nelson had detected the premonitory warning, an innocent looking cloud quickly overspread the horizon, and in a short space grew so black and threatening as to make it appear to many capable observers that the colossal power which had been built up with so much labor, time and treasure at the cost of the old world was destined to be suddenly, and even easily, shattered by the prentice lightnings of the new.—Fortnightly Review.

Highway Strategy.

"I don't want nothin to eat, ma'am," said the tramp, "but would you mind tellin me who lives next door south?"

"A family named Higgins," replied the woman of the house.

"Do you know anything about 'em?"

"No; they've only lived here a little while. They came from Kansas City."

"That'll do, ma'am. Thanky."

A few moments later he appeared at the kitchen door of the Higgins mansion.

"I don't suppose you want to be bothered by beggars, ma'am," he said to the woman who came to the door in response to his knock, "but I ain't no perfessional. I'm a pore man that's been tryin fur 10 years to make a livin in St. Louis, and I've had to give it up. The town's too dead. I'm makin my way now to Kansas City, where a man's got some chance, and if you can give me a bite o' cold victuals and a kind word I'll be ever so much"——

"Why, certainly, certainly! Come right in. It won't take five minutes to fry you a slice of nice ham, and I'll put the coffeepot on right away. Ten years in St. Louis! Well, well!"—Chicago Tribune.

Novel Advertising.

In a Maine seaside town a man who kept a toy and paper store hit upon a clever advertising dodge. He noticed that strangers who came there invariably amused themselves by walking along the beach and picking up shells, so he procured a wagon load of mussel shells, and upon their white interiors stamped in red ink an advertisement of his business. Every morning he sent out a boy with a basketful of these shell circulars to distribute them along the sandy promenade. The visitors eagerly picked them up, and the toy dealer's ingenuity was rewarded by frequent calls for children's shovels, pails, etc. Brains will win every time.—Lewiston Journal.

Dog or Snake Bite.

If you or a companion should be bitten by a dog or a snake, suck the wound as hard and as long as you can. You would not be likely to swallow the blood, but if you were to do so it would not hurt you, for such poison is serious only when injected into the veins or arteries. The life of an English king, Edward I, was once saved by his brave wife, the good Queen Eleanor, who sucked the wound made by a poisoned dagger.—New York Times.

A Model Letter.

The following letter was actually written by a French countess to the absent count: "Dear Husband—Not knowing what else to do, I will write to you. Not knowing what to say, I will now close. Wearily yours, Countess de R."—San Francisco Argonaut.

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

A NEW STIMULANT.

Non-Intoxicating, Without Reaction.

You often need a stimulant to keep yourself going, to prevent your getting sick.

But a stimulant that makes you feel worse afterwards is worse than useless.

Following nature is the best way.

A pure, malted, unfermented beverage, like Malted-Koffee-Kola, is the only safe, certain and natural stimulant to take.

Malted-Koffee Kola is a Shaker non-intoxicating stimulant which cures nervousness, headache, neuralgia, indigestion, loss of appetite, low spirits, and the results of mental worry and overwork.

It is a wonderful builder for old people and convalescents.

Stimulants have been used in all ages. They are a necessity. But only food stimulants can give real strength without weakness.

Malted Koffee-Kola is a food stimulant.

It makes strength and keeps it. It creates lasting energy. It clears the brain and braces the body.

It is better than medicine; it is food. It is better than food; it is food stimulant.

Malt is nature's most concentrated, digestible and stimulating food.

Malted-Koffee-Kola is made of malted Caffea and malted Kola, and contains all the virtues of these plants as a perfectly harmless and health-giving stimulant.

ANNUAL SALE

OF

Muslin Underwear, Waists, Wrappers, Corsets.

Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.

So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.

We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that those who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

COUNT VON MULLER.

A quiet smile stole over Heinrich's face as he said: "Go on, baron. Pray go on."

"We are not so blind, sir, as to be unaware of the fact that you have taken advantage of your position as the court tailor"——

"I note your sarcasm, baron. Pray go on."

"Taken advantage, I say, of your position to try to win the affections of the Lady Gertrude, an act of insolence and audacity which is beyond pardon. I have only to say, therefore, in the name of his serene highness, that without a day's delay you must leave the grand duchy and never venture to show your face here again. I hope you understand me. We will now say good evening."

"Yes," chimed in the grand duke, "you are a detected intriguer, and I give you fair warning that if you remain in my capital more than four and twenty hours I will order my officers to expel you by force."

With another twirl of his mustache the grand duke marched toward the door, followed by his prime minister, leaving Heinrich standing by the table.

"Stay!" cried out Heinrich, still quiet and collected, but with a strange light in his gray eyes. "Your serene highness has been good enough to express your views to me. I have now a few views to express to you." Saying this, he stepped forward quickly and placed himself between his sovereign and the door. "You will have to hear me, and you may as well hear me at once."

If all the German heroes who were painted on the wall had jumped down into the room, the grand duke and his minister could not have appeared more thunderstruck.

"Donner und Blitz!" shouted the grand duke, laying his hand upon his sword. "What does this mean?"

"It means, your highness, that in the last half hour you and I have changed places. Do you know who I am?"

"What in the name of heaven do you mean?" stammered the old baron.

"Do you know, I ask, who I am, and do you know the feudal laws of Germany? But I see you are hopelessly in the dark. Look yonder to that fresco on the wall and tell me if you remember the deed of my great ancestor, Fritz, the miller?"

"What do you mean, base born varlet?" cried the duke. "What has that old legend to do with us?"

"I am no longer base born," replied Heinrich. "I am a noble, with the patent of nobility in my possession, and not only all who come after me, but all who went before in my house, are noble.

Yonder hero, who slew the wolves on this very spot, was noble, and being noble this land and all that stands on it are his, and in his right I claim it. This is no madness, sire. This is the old law of the empire, and I will enforce it."

"Great God," cried the grand duke as the gravity of the situation dawned upon him, "can this be true, or is it all a hideous dream?"

"Nay, more," continued Heinrich, "I have searched the feudal statutes of the last 400 years, and I find that, by a solemn decree issued at the time when the old castle of the margraves was destroyed and this schloss was erected in its stead, the margravate of Wolfsteinberg was attached forever as a fief to the owner of this castle, so that, if I am the owner of Wolfsteinberg, as owner I surely am, I am also by that very fact margrave and grand duke. I claim, therefore, that by my becoming a nobleman the only bar has been removed that stood between me and the throne, and that it is no longer you, but I who am the master here."

The grand duke stood like a statue. He was simply thunderstruck. Even the old baron's diplomacy was at fault, and he was at a loss for words, when suddenly the door by which they were all grouped was opened, and in walked the Princess Gertrude.

"I have come to congratulate you," she said, with a beaming smile, "on your new rank. I hope I am the first to do so."

This was an awkward speech, for what Heinrich's rank at that moment precisely was perhaps no one was quite sure—not even the great Schlippenhammer.

However, Heinrich accepted her proffered hand, and saluting it respectfully thanked her gravely for her good wishes.

"Gertrude," said the grand duke (if we may still give him this title), "we are engaged on serious business. We have discovered some unexpected difficulties in our way."

"Then, papa," replied the maiden, with a smile, "perhaps I can help to solve them. I know that you have determined to get rid of Heinrich, but I may as well say now as later that for six months we have been betrothed to one another, and nothing you can do and nothing you can say will ever make me give him up."

A dead silence fell upon all the company at these firm and impassioned words. Had the princess made this declaration half an hour sooner her father would certainly have burst out into a storm of grand ducal indignation and discharged a volley of Teutonic expletives that would have made the palace ring. But at the present moment he was quite cowed. He covered his face with his hands and sank into a chair without a word. Even Heinrich was touched at the sight of the old man's sorrow, and while Gertrude sprang to her father's side and tried to take his hand into her own—for she was a gentle, womanly creature, after all, and loved her father dearly—the young man who was the cause of all her trouble plucked the old baron to one side and hastily suggested that nothing further should be said at present, but that they should meet again tomorrow and look at the situation calmly

"But remember this," said Heinrich, with a return of firmness, "as sure as there is law in Germany I have your master in my power. You know now what I really want. I love the princess with all my soul, and she loves me, and I will risk everything I have to win her. That done, I care for nothing else besides."

Saying this, he gave one passionate glance in the direction of the now weeping Gertrude, and walking rapidly down the long hall passed out at the farther door.

The thought flashed into the old minister's mind as he watched the retreating figure—that just as they had bought off the tailor's bills with a diploma of nobility they might now be obliged to buy off his new and extraordinary claims by the hand of the princess. Alas for the glory of the old house of Wolfsteinberg!

It is not necessary to give a full account of the anxious conference that took place that same evening between the heartbroken duke and his crafty minister. They both commenced by declaring emphatically that Heinrich's claims were preposterous and absurd. But then there was an unpleasant look of reality in them nevertheless. Certain it was that the grand ducal schloss stood upon the land on which Fritz Muller, several hundred years ago, slew the three wolves. There was the wolf stone still standing to prove the fact. And certain it was, too, that the land would have passed into the possession of Fritz and his descendants if only he had possessed the rights of nobility, and now, by the very terms of the patent which the duke had that day signed, not only Heinrich Muller, but all his ancestors in the direct line were ennobled. It might be argued that this posthumous nobility could not carry absolute rights back with it; but, on the other hand, it was notorious that the very object of ennobling ancestors was that in law they might be held to be the owners of some rights at least which the children could not enjoy unless their ancestors

He covered his face with his hands and sank into a chair.

had enjoyed them. Altogether the situation was grave.

Then, if the land belonged to Heinrich, all that was built upon it was certainly his, and if the margravate had been attached by the Emperor Conrad to the present schloss the feudal law would certainly vest the margravate in the present owner of the schloss. On the other hand, however, they felt pretty sure that the grand dukedom, which had been conferred on the present grand duke's father by Napoleon I, was probably safe, seeing that it was not a creation of feudal law at all, but what was the value of the title of grand duke if everything else were lost?

Then it was that the grand duke began to thank heaven that he had a daughter. He sent for her to come to him at once, and before she left him it was agreed that, if she could induce Heinrich to relinquish all claims upon the property and the title of the grand duke, he might have her hand. Furthermore, for the honor of the family, he should be created a count, and the old and long disused castle of Hammersdorf should be handed over to him and his bride and their descendants forever.

That very evening Heinrich was closeted once more with the grand duke. Documents were drawn up and signed and sealed, and the next day the little world of Wolfsteinberg was electrified by the news that their fellow townsman, the rich tailor, had been created Graf von Muller and was shortly to be married to the only daughter of the grand duke. The diplomatic old prime minister went about to all his friends, explaining to them that, in the grand ducal archives, secret instructions had been found in the handwriting of successive margraves of Wolfsteinberg to the effect that the great deed of Fritz, the miller, was never to be forgotten by the family, and that if ever his lineal descendant and heir should distinguish himself in arms or letters he was forthwith to be ennobled and to be married to a princess of the reigning house, seeing that his great ancestor had saved the life of a princess. The old baron was certainly clever at fiction, if at nothing else.

And so everything was amicably settled, and the rich young tailor had the old castle of Hammersdorf prepared for his bride in the lovely valley near the Rhine. In due course the wedding was celebrated in the grand ducal schloss by the prince archbishop of Mayence with much pomp and ceremony. Great was the interest all through Germany, and among the wedding presents was a silver casket presented to the bridegroom by the kaiser of Austria, on which in high relief was a picture of Fritz, the miller, clasping the fair Ermentrude to his breast and brandishing his cleaver in defiance of three galloping wolves.—London Society.

A DOG THAT REASONED.

He Knew When It Was Safe to Sleep on His Master's Bed.

No one that knew Bombshell ever doubted that he reasoned and thought, but occasionally I would find a stranger who was not inclined to believe it, and then I would tell him the following story: My parlor was a front casemate which opened by an arch into my bedroom, a back casemate. A casemate may be described as a room in the wall of a fort, generally intended, in war time, to hold a gun or powder, while in time of peace many of them, like mine, are fitted up for use as quarters for officers and soldiers.

Bombshell had his own bed in the back casement, but he preferred my bed and would use it whenever he could. I had tried to break him of the habit, but had not been successful.

One day he came in wet and muddy, and, as usual, curled up on my white counterpane. The result was awful. As much as I hated to do so, I felt obliged to give him a thrashing.

I never caught him on my bed again. He would still get on it; but, no matter how quietly I came in, I would always find him on the floor, though I could see from the rumpled condition of the bed that he had been on it, and often the spot where he had slept would still be warm.

One evening I went out, leaving Bombshell lying by the parlor stove. Out of curiosity I peeked through the half turned slats of my shutters and watched him. From my position I was able to see the whole of both of my rooms.

For awhile Bombshell did not move; then he raised his head and looked at the door; finally he got up, stretched himself, yawned sleepily, walked to the bed, jumped up, and put his fore paws on it. Standing in this position, a thought struck him, and he said to himself:

"Suppose that my master hasn't gone? He will catch me and then I shall get a licking. I'll go and make certain that he is not coming back."

I know that he said this because he took his paws off the bed, walked cautiously back to the front door, and, with his ear close to the crack, he listened. At last, satisfied that I had really gone, he trotted back to the bed, jumped on it, curled up and went to sleep.

After such a clever act I thought that he had earned his sleep, so I went away and left him.—St. Nicholas.

Pleased Him.

Hans Christian Andersen received one Christmas a box of cakes from an unknown admirer and was all gratification at the compliment. Suddenly a strange apprehension assailed him. He had just read some account of poison conveyed in this fashion. Possibly the gift was the murderous device of a rival. With more aptitude than grace he decided, in a half absent fashion, to send them on to his friend, Mme. A——, to test their quality. A day or two later he called. "Is Mme. A—— in?" "Yes, sir." "Is she quite well?" "Quite, sir." "Could I see her?" "Certainly, sir." Face to face with Mme. A——, he recurred to the same anxiety. She was well? Yes. The children well? Yes. And had she received the cakes he sent? Eaten some? And was quite well? And the children had eaten some? And were quite well? And then at last the old man's excitement boiled over. "You can't think how pleased I am," he said. "Those cakes were sent me by an unknown admirer, and I was afraid they might be poisoned. So I sent them on to you. And you have eaten them and are quite well. You can't think how pleased I am!" And he passed out, smiling and in high good humor.—Critic.

—Creamery butter 20 cents at J. F. MacDonald's.

—A birthday party will be held at the residence of George Shaefer, on West Second street, this evening.

—The Thursday Night Whist Club met last evening at the home of Dr. J. H. Carman, of Somerset street. A pleasant evening was spent.

—H. M. Jacquett, the gents' furnisher, of East Front street, is making a specialty of men's suits from $4 to $20. For quality, wear and style they are full value.

—John R. Naylor, assistant superintendent of the Metropolitan Insurance Company, who has charge of the Somerville district, by hard work is building up quite a large business for the company at that place.

—There was a very large attendance at the meeting of Central Lodge, A. O. U. W., last evening, and the session was one of great interest to the members. Past Master Workmen Smith, Westphal and Spicer were appointed a committee to see about purchasing new paraphernalia for the amplified form. They will report at the next meeting.

Oil Paintings Cause a Suit.

Valuable oil paintings were the cause of the suit of Baker against Warman that came before Justice Mattison, of the borough, yesterday afternoon. At the request of the attorney for the plaintiff, Harry C. Runyon, the case was adjourned thirty days to allow testimony to be taken from James S. Mason, a witness that lives out of the State. Clarence L. Murphy represented the defendant.

Bargains.

Ten cents seems little money for such big value in White's house-furnishing department, Plainfield's busiest store. Just think of a good quality parlor broom, three-sewed, also a heavy zinc washboard, with hardwood frames and well made, the regular 25-cent kind, to go while they last at 10 cents each.

Sprained Both Arms.

While walking off of the back porch at her home 305 East Third street, yesterday afternoon, Miss VanCleef's dress caught in the foot scraper, throwing her to the ground. Both arms were severely sprained, which will confine her to the house for several days.

Blew Out a Cylinder Head.

Engine 375, of the Jersey Central, which pulled the west-bound train due at Plainfield at 11 o'clock, blew out a cylinder head at Cranford this morning. The train was delayed for about half an hour, until another engine arrived from Roselle.

THERE IS NO NATIONAL HOLIDAY.

Not Even the Labor Day Act Creates One, Say the Lawyers.

There would seem to be no such thing in this country as a national holiday. Lawyers assert that even Labor day, which was set apart by act of congress in 1894 in such manner as to lead the confiding layman to suppose it at least to be a national holiday, is not such outside of the District of Columbia unless by state enactment. The creation and regulation of holidays have been left entirely to the legislatures of the individual states.

The act of congress concerning Labor day was approved June 28, 1894. It provides "that the first Monday of September in each year, being the day celebrated and known as Labor day, is hereby made a legal holiday, to all intents and purposes, in the same manner as Christmas, Jan. 1, Feb. 22, May 30 and July 4 are now made by law public holidays."

Clearly the proper construction of this statute can be arrived at only by reference to the provisions bearing upon the other holidays named. The act making holidays of Jan. 1, July 4, Christmas and "any day appointed or recommended by the president of the United States as a day of public fast or thanksgiving" was passed in June, 1870, and was restricted in its effect to the District of Columbia. These days are holidays in the various states only as they are made so by the various state legislatures.

The act of Jan. 31, 1879, makes Feb. 22 a legal holiday, and the act of Aug. 31, 1888, does the same for May 30, and both are restricted in their application to the District of Columbia. The act referring to Labor day says nothing about the District of Columbia, but it does say that the first Monday of September shall be a legal holiday, "to all intents and purposes, in the same manner as Christmas, Jan. 1, Feb. 22, May 30 and July 4 are now made by law public holidays."

The intents and purposes for which and the manner in which those days are made holidays are expressly limited to the District of Columbia, and so, by necessary inference, is the act referring to Labor day.

The misleading language of the Labor day act has led to a prevalent statement that the first Monday of September is a holiday throughout the United States by congressional enactment.—New York Tribune.

THE OLDEST OBELISK.

It Stands on the Banks of the Nile Not Far From Cairo.

The oldest of all the obelisks is the beautiful one of rosy granite which stands alone among the green fields on the banks of the Nile not far from Cairo. It is the gravestone of a great city which has vanished and left only this relic behind. That city was Beth-shemes of Scripture, the famous On, which is memorable to all Bible readers as the residence of the priest of On, Potipherah, whose daughter Asenath Joseph married. The Greeks called it Heliopolis, the city of the sun, because there the worship of the sun had its chief center and its most sacred shrine. It was the seat of the most ancient university in the world, to which youthful students came from all parts of the world to learn the occult wisdom which the priests of On alone could teach.

Thales, Solon, Eudoxus, Pythagoras and Plato all studied there; perhaps Moses too. It was also the birthplace of the sacred literature of Egypt, where were written on papyrus leaves the original chapter of the oldest book in the world, generally known as "The Book of the Dead," giving a most striking account of the conflicts and triumphs of the life after death, a whole copy or fragment of which every Egyptian, rich or poor, wished to have buried with him in his coffin, and portions of which are found inscribed on every mummy case and on the walls of every tomb. In front of one of the principal temples of the sun in this magnificent city stood, along with a companion long since destroyed, the solitary obelisk which we now behold on the spot. It alone has survived the wreck of all the glory of the place. It was constructed by Usertesen I, who is supposed to have reigned 2800 B. C., and has outlived all the dynastic changes of the land and still stands where it originally stood nearly 47 centuries ago. What appears of its shaft above ground is 68 feet in height, but its base is buried in the mud of the Nile, and year after year the inundation of the river deposits its film of soil around its foot and buries it still deeper in its sacred grave.—Pall Mall Gazette.

LONDON'S GREAT PARK.

The Hum of the Metropolis Penetrates It With Ever Varying Cadence.

The greatest attraction of Hyde park is one which Londoners and most visitors fail to discover and appreciate. It is a unique and subtle charm whose meaning only those can know who have fallen under its spell. Hyde park, be it remembered, is the only great plot of verdure in the world set in the very center of a great city. Boston Common is but a garden compared with it. Central park may soon be hemmed in by New York's teeming millions, but not yet. Hyde park is a grateful refuge of silence in the midst of turmoil. Only upon its outer borders does the restless mob infringe. Within, away from Rotten row, away from carriage drive and fashionable promenade, there is always rest, tranquillity, silence—no, not silence, but in its place the thing which is the mysterious charm of the spot.

Find a seat upon a bench in the midst of the wide, sweeping, open green where the eye sees only grass and trees, with no sign of the vast city on any side. Sit for a few moments and listen—listen, and there will come to your ears the most wonderful sound in all the world. It is the voice of London—an ever changing, inarticulate, pregnant soliloquy. One day it will be the gentle murmur of a sea shell. Again it is the harsh grinding of the mill of the gods crushing human grain beneath its upper and nether millstones. The mighty but distant reverberation is sometimes a triumphant harmony, sometimes a minor note, melancholy and despairing. The myriad tongued voice which comes from the east is sullen, protesting, enduring; that from the west is a careless chorus of pleasure and prosperity; that from the north is a hopeful strain of patient progress; that from the south is a cadence of struggle and sorrow, and the whole is a symphony of human life, majestic, inspiring, infinitely pathetic.

Nowhere save in this spot does the greatness of London impress itself upon me.—Boston Transcript.

A Genius For Farming.

Miss Annie Dennis of Talbottom, Ga., is a fine looking young woman of 25, who seems to have a genius for farming. According to a Georgia paper, she owns a handsome estate of 1,000 acres, which she cultivates with great skill and success. Upon it she conducts a dairy, a stock farm, a cannery, a preserving establishment, a vineyard and wine distillery and a piggery. Each of these is prosperous to a high degree. The owner is public spirited and exhibits her products at every fair and exposition. She began this work in 1888 and in seven years has carried off nearly 100 prizes. She ascribes her success to a good education and careful reading. She makes a special study of the application of science, particularly chemistry, to her fields of industry and utilizes every new idea which appears.

Wasted Energy and Expense.

A new advertising wagon introduced in New York is fitted up with two cylinders which keep revolving, giving a momentary view of various business announcements. There are people who would rather spend $10 to catch the eye of 2,000 or 3,000 people with a contraption of this kind than invest 50 cents to reach 100,000 readers in a good newspaper.—St. Louis Globe-Democrat.

North Carolina has risen rapidly in the line of manufacturing states. At present her factories employ 36,214 hands and turn out $40,375,450 worth of product.

It is not true that equality is a law of nature. Nature has no equality. Its sovereign law is subordination and dependence.—Vauvenargues.

Dram once meant neither more nor less than a handful.

Appearances Deceptive.

There is a well attested story of an officer of the Army of the Potomac who won great renown for his personal courage. In every action of consequence his post was in the heart of danger, and it was noticed that no matter how thickly the bullets were flying he sat his horse in apparent disregard of them and never moved, even when the enemy's fire seemed concentrated upon him. It wasn't until 20 years after the war was over that he confessed that the secret of his apparent indifference to danger lay in the fact that he was so badly scared each time that he didn't dare to move for fear of running against some bullets.—New York Herald.

Her Devotion to a Cause.

"Marguerite," he murmured, "will you be mine?"

"Harold," she answered, "I believe in the emancipation of our sex. My zealous devotion to the cause compels me to insist upon what may, to you, seem a punctilious absurdity."

"Nothing you say can seem absurd," he protested.

"Modesty forbade me," she went on, "to frame the original question, but now that you have spoken there is no impropriety in my offering an amendment. Do not ask me if I will be yours. Ask me if I will permit you to be mine."—Washington Star.

Effect of Cold Upon Metals.

A series of experiments was recently made with a view to testing the relative strength of metals when heated or cold. The result was surprising even to those who conducted the tests. Under a very low temperature the tensile strength of many metals was enormously increased. The breaking strain of tin was increased from 200 pounds to 400 pounds; that of fusible metal from 140 pounds to 450 pounds. The magnetic powers of metals seem to be in some way closely related to their tensile strength, and these as well are many times multiplied by excessive cold.—New York Ledger.

The Needful Inspiration.

This little story is told of Mrs. Ward's most famous book. When the manuscript was completed, the hero bore a name altogether unsatisfactory to the author. She had fixed on Robert, but, although she went through long lists of names, could not get a surname which pleased her. Mrs. Ward was in London just then, and her husband playfully suggested that the fresh air about their home at Haslemere might bring her the needful inspiration. "Haslemere," the novelist repeated dreamily, "Haslemere—Elsmere! I have it—Robert Elsmere!" And so the novel was named.—New York Times.

Egyptian Hieroglyphics.

The Egyptians had four separate and distinct styles or forms of writing—the hieroglyphic, the hieratic, the enchorial and the Coptic. The hieroglyphic was probably in use as early as the year 4000 B. C., and at first was made up entirely of pictures. About the year 2000 B. C. the hieratic form or style was introduced. In this the picture hieroglyphics were greatly simplified, finally developing into forms purely linear.—St. Louis Post-Dispatch.

J. W. Pierce, Republic, Ia., says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself." L. W. Randolph, 143 W. Front St.

JUNIORS HAVE A GOOD TIME.

And Give a Goodly Sum Toward Supporting a Missionary.

The Junior Christian Endeavor society of Trinity Reformed church enjoyed themselves immensely yesterday afternoon when a regular social was held. The attendance was very large notwithstanding the stormy weather. Martie Anthony had the programme in charge which included piano solos by Emma Line, Bessie TenEyck, Lucy Coriell and recitations by Bessie Randall, Emma Line and Jennie Thorn. The balance of the afternoon was enjoyed playing the latest games, after which refreshments were served. Mrs. Cornelius Schenck was in charge of these and she was assisted by the following members of the society: George Reynolds, Martie Anthony, Grace Emmons, Jennie Thorn, Bessie Martin and Fred Dunavan. The members contributed $11.94 toward the support of their own missionary, Miss Leila Winn, who is laboring in the town of Aomori which is located in the island of Japan. She is supported by all of the Junior Christian Endeavor societies, each having a share in the work.

JAMES SEEING THINGS.

The City Clerk Confabs With Notabilities at Washington.

City Clerk James T. MacMurray has been in Washington, D. C., since Thursday, visiting the nation's capitol for pointers on the proper way to conduct large bodies of various proclivities. While at the Capitol yesterday Congressman Fowler piloted him about and exhibited the various curiosities on hand. Mr. MacMurray heard Senator Frye's great speech against Great Britain during the day's visit.

You're Another.

The initials J. E. M. to the following letter in "The Plainfield Press" probably represent the name of that hard-shell Democrat, James E. Martine:

Does any one doubt to whom the Republican party of this State belongs, after witnessing the free distribution of railroad tickets given out for the inauguration of Governor Griggs? Senators Sewell and Hobart are the real dispensers behind the screens. Who in New Jersey ever knew or heard of free tickets to the inauguration of a Democratic Governor?

That would be interesting, if true. Perhaps some opulent and enthusiastic Republicans around Plainfield bought tickets for their poorer Democratic neighbors who wanted to see the show, but all through the rest of the State the visitors to Trenton bought tickets for themselves. As to railroad influences, it is a matter of history that those and all other corporations obtained most of their privileges and concessions from Democratic Legislatures.—New York Tribune.

This is the old argument, when cornered. You are another. Still the above does not deny that the Republican party in New Jersey belongs to Boss Sewel and other corporation influences. J. E. M.

A Quick Settlement.

James McCormick, whose funeral took place yesterday morning from his late residence on Linden avenue, was insured in the Prudential Insurance Company for $500. Supt. R. M. Dawson, of that company, has the widow's receipt for the full amount of the $500 policy which he paid to her yesterday. Mr. McCormick's life was also insured in the Metropolitan Insurance Company for $339.

Postponed on Account of the Storm.

The temperance rally which was to have been held yesterday afternoon by the Junior Christian Endeavor society of the Park Avenue Baptist church, was postponed for one week on account of the stormy weather.

A Scripture Cake.

A feature of the social to be given next month by the Ladies Aid Society of Grace M. E. church will be a "Scripture Cake." Every ingredient in the cake will have a scripture name.

Library Not Quite Completed.

The new library at Trinity Reformed church will not be ready for use tomorrow as there is yet considerable work to be done in arranging the books.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." THE ST. PAUL STRANDED.

The Crews from the Life-Saving Stations at Seabright and Monmouth Beach to the Rescue—All On Board.

The American Line steamship St. Paul ran ashore in the fog off Long Branch at 1:30 this morning. Signals sent up from the vessel attracted the attention of the life-saving patrol of the Long Branch life-saving station. The patrol at once gave the alarm, and the entire force of life savers at the station hurried down to the beach. The great hull of the vessel could be seen looming up indistinctly on the outer bar, just off the Hotel Brighton.

A heavy sea was running and the long ground swell rolling up along the Jersey coast was so powerful that the life-savers decided that it would be impracticable to launch their big lifeboat until the sea went down to some extent.

All those on board were then informed that they might go ashore if they chose, but the fact that they would be in no danger by remaining on board was again emphasized.

As quickly as possible a message was sent ashore from the ship, to be telegraphed to the agents of the American line in New York, notifying them of the accident.

Owing to the light shock with which she had struck, her officers thought that with slight assistance she might be pulled off in case the tugs reached the spot before the big hull of the vessel had time to work its way down into the sand of the bar.

The St. Paul's own engines had of course been reversed as soon as the vessel ran on the bar, but their efforts to drag the ship back were unavailing.

The life savers had sent messages up and down the Jersey coast to the neighboring life-saving stations as soon as they had established the identity of the big steamship.

The crews at Seabright and Monmouth Beach were the first to arrive to assist the Long Branch life savers.

The wind was blowing off shore, and consequently was not calculated to increase the size of the big rollers that came in from the sea and broke with terrific force on the bar.

Another big steamship, supposed to be the Cunard liner Campania, was seen at anchor at daylight this morning a mile below Long Branch. The life savers said that, judging from the position in which she was anchored, she must have had a very narrow escape from grounding also.

Mr. Clement A. Griscom, President of the American Line, said this morning that the vessel was in no danger and would in all probability be hauled off at the next high water, at two o'clock this afternoon.

Capt. Jamieson, who is in command of the vessel, told them that none of the passengers were in a hurry to land and that he would await the arrival of the tugs from New York before doing anything further.

At the time when the St. Paul ran ashore the life savers said there was only about four feet of water over the shallowest part of the bar.

The wind at 9:30 o'clock was still blowing from the southwest at the rate of eight miles an hour.

The sea was still high and the surf rough. The fog was dense, but observers on the beach thought it appeared to be clearing up.

As the air became clearer between 9 and 10 o'clock it was seen that the vessel was only about a quarter of a mile from the iron pier at Long Branch.

Her bow was pointing almost directly toward the shore. The life-savers reported that her bow was buried in the sand for 100 feet.

A Great Curiosity.

A regular No. 4 size mail pouch was received at the Plainfield postoffice this morning from New York. The pouch is a great curiosity from the fact that it has traveled all over the United States, from Maine to California, and as evidence of this it is covered with the names and addresses of people who have handled it. In addition to the above the names of the Plainfield employes were added to it today. The pouch is in good condition and none the worse for wear. It goes to Easton from here.

NOW IT'S "BICYCLE COOKERY."

Plain Bread and Cinnamon Buns Must Give Way to Wheeling Compounds.

The second lecture on Cookery was given by Miss Bedford in the Y. M. C. A. Hall yesterday afternoon before a good-sized audience. The lecture related to the making of various kinds of breads and cinnamon cakes. The work was demonstrated by Miss Bedford in her usual interesting manner. There is a desire on the part of some of the members to have Miss Bedford give a lesson on pastry and one on chafing dish work. If a sufficient number of women will signify their willingness to enter the class these lectures will be given next week. "Lectures on "Bicycle Cookery" will also be added to the course if the requisite number join.

It is very necessary that those wishing to join should notify Miss Bedford at once. She has been engaged to give the last named lectures before the Michaux Club, of New York, which is the swell cycle club in that city, and an effort will be made to interest the Plainfield Lady Cyclers. The expense for the additional lectures will be small.

These lectures are purely for the benefit of Miss Bedford, and not in any way connected with the Woman's Suffrage movement. "An Easy Company" dinner will be given this afternoon.

RETURNED AT LAST.

One of the Youthful Runaways Had Enough of Wandering.

One of the young adventurers that started for the West to kill Indians last week, returned Tuesday perfectly willing to stay in Plainfield for a while. According to John Devine, who was the lad that returned, they had some exciting adventures. After they left Plainfield, the two boys worked their way to Philadelphia and from there to a place about fifty miles South, according to Devine's reckoning. They returned on the Pennsylvania railroad to Newark. Here Smith, who was the other would be Indian fighter, made the acquaintance of a genuine "knight of the road." Devine was not particularly struck with his appearance, and when Smith and his new friend went into one of the free lodging houses in Newark to spend the night, Devine started for home. He finally reached home safely.

The revolver which was borrowed from Sam Vail, was given away in Philadelphia, as the boys were afraid that the police might discover it. Smith is still missing.

Odd Fellows to Install.

The recently elected officers in Queen City Lodge, No. 226, I. O. O. F., will be installed Monday, by District Deputy Grand Master Pocock and staff. The local lodges and most of the other lodges in this district have been invited and a great turnout is expected. All members of the Queen City Lodge are especially requested to be present.

Looking After Her Fortune.

Mrs. Edward Lauffer, the lady whom The Press yesterday told of being one of two women who are to receive some $15,000 from the estate of a recently deceased aunt, has gone to Newark today, with counsel, to look after her interests.

Night Lamps Free to Each Purchaser.

At White's housefurnishing and china department, tonight, a night lamp will be given free to each purchaser in the above departments, between the hours of seven and ten. Go with the crowd to Plainfield's busiest store.

Metuchen's Postmaster.

Nathan Robins, of Metuchen, has been named as postmaster of that town by President Cleveland, and his name was sent to the United States Senate on Wednesday last. Mr. Robins is well known in this city.

An Enjoyable Surprise.

A surprise party was given to Chas. Woolston, of Fairview avenue last evening by some of his friends. About twenty-five young people were present and the evening passed away very pleasantly.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

REVIVALS NEXT WEEK ALSO.

Services to be Held in the Crescent Avenue Church, and Hope and Monroe Chapels.

Last evening concluded two weeks of Union Revival services in the Methodist church, and all who have been privileged to attend them can testify to their great profit. The attendance has been large, the spirit thoughtful and reverent, and the results, we believe far reaching and permanent. Between thirty and forty persons, either by rising, or signing of a card, have signified their desire to become Christians.

The original plan was to so change the places of meeting as to accomodate the largest numbers. In accordance therewith, notice is given that union services will be held next week in the Crescent Avenue Presbyterian church, and also alternately in the Hope and Monroe Avenue chapels.

Tomorrow evening there will be union services in the First Baptist and Crescent Avenue Presbyterian churches and in Hope chapel. We trust that prayer will be offered in all the churches tomorrow, that the Divine Spirit may be present with his people. Committee.

SONS OF TEMPERANCE ENTERTAIN

The Entertainment Was An Excellent One, But the Storm Kept Many Away.

A delightful entertainment was given at Reform Hall last evening by Howell Division, No. 97, S. of T., but the inclement weather prevented a large attendance. The programme was a very good one and elicted loud applause. It was as follows:

Musical Selections	Volunteer
Recitation—"Broken Hearts"	Bertha Clum
Song—"Brave Boys Are They"	W. C. Smith
Recitation—"Last Hymn"	W. R. Mattox
Song	Arron
Recitation	A. Scribner
Music	Volunteer
Recitation—"The Watermelon"	Trixie
Hut Scene from Uncle Tom's Cabin.	
Legree	W. R. Mattox
Cassy	Bertha Clum
Sambo	Harry Bradly
Third Act of Uncle Tom's Cabin. OR Death of Eva	
Eva	Little Sadie Mattox
Marie	Maggie Sommers
Topsy	Trixie
St. Clare	Charles Mumpford
Aunt Ophelia	Bertha Clum
Uncle Tom	Louis Sams

The programme concluded with the grand tableau, "Eva in Heaven."

The committee in charge consisted of S. B. Scribner, W. R. Mattox and W. B. Ayres.

PRIDE OF PIONEER

A New Council of the Daughters of Liberty Instituted at Bound Brook.

A council of the Daughters of Liberty was instituted at Bound Brook last night to be known as Pride of Pioneer, No. 66, by State Councilor Wilcox, of Long Branch, assisted by Deputy State Councilor Yard, of Newark, and Lucetta Council, No. 28, of this city.

The following officers will serve the council for the ensuing term: Junior ex-councilor, B. T. Clark; junior ex-associate councilor, Miss Anna Mott; councilor, J. Mousley; associate councilor, Miss Carrie Deihl; vice-councilor, J. L. Durn; assistant recording secretary, Miss Apgar; treasurer, Miss Clark; guide, Mrs. Carrie Lair; inside guard, Mrs. Baker; outside guard, V. Brown; trustees, B. T. Clark, J. Mousley, J. L. Durn.

The initiatory work of Lucetta Council was highly complimented by the State officers, as it was their first appearance in public since the team was organized.

BUTTERMILK FALLS RAILWAY.

An All-Rail Route to Chimney Rock to Be Built at Once.

Sometime ago The Press told of a proposed railroad from Bound Brook to Chimney Rock that had been surveyed by Sylvanus Ayers, Jr., and of that gentleman's endeavors to persuade the officials of the Central Railroad to build the same.

Mr. Ayers has received word from President Maxwell that the Board of Directors of the New Jersey Central Railroad Company has agreed to build the branch to Chimney Rock, running for a considerable distance over the Herbert farm. Work will be begun as soon as possible.

The line will be constructed for the primary purpose of reaching the trap rock quarries, as the demand for crushed stone is constantly increasing. Furthermore the quarries at the foot of the Palisades, which supply a large quantity of this stone, are liable to become Government property, and will thus be forced out of business.

Ice Cutting at Demler's Pond.

The ice taken from Demler's pond for the past few days was ten inches in thickness and was cut into cakes 22x32 inches, which weighed about 275 pounds each. About twenty-five tons was gathered in the rain yesterday morning.

WHERE IS THY BROTHER?

Rev. Dr. Barnes Discourses on Cain and Abel.

An Interesting Sermon, Full of Truth, Listened to by an Attentive Audience—Next Week in Crescent Avenue Church.

There was a continued deep interest in the revival service at the First Methodist church last evening, and though the audience was comparatively small, the services were very helpful.

Horace J. Martin had charge of the song service which was a soul-inspiring one. Following this L. S. Bond sang effectively "Over the Line," the choir singing the chorus. Prayer was then offered by Rev. C. L. Goodrich, after which Dr. Barnes gave one of the best talks yet listened to at the series of meetings. His remarks were based on the text "Where is Thy Brother!" as taken from Genesis, 4-9. In substance he said:

All men go down unless they are in communication with God. Without His power they are helpless. In the case of Cain and Abel we see how they started to work out the problems of life. Like most men they wanted their own way. You never find a good man who thinks of himself first. He may build railroads, because there is money in it. His great desire is the cup of prosperity and amusement, but never the cup of death for others' sake. Abel represents the obedient element of humanity, the law of righteousness and God. Cain and Abel came to worship. Cain had the air of self-complacency in offering his sacrifice. Like some people he never had a keen sense of sin so it hurt him. Never felt that he had broken the law and that he was unworthy of God's mercies.

There are men, who when they pray, thank God that they are not like other men. They are so filled with self, amusements and the world that they have no use for God. In fact, they would rather there was no God. One thing is certain and that is God knows us through and through, better than we know ourselves.

Cain's nature was self-assertive, while Abel was conscious of his sin. They stood as representatives of a race of sinners. Look at these two characters and see if you cannot picture yourself.

We must worship in spirit and truth. You believe this, but you have never offered one bit of yourself to God. You hold on to your money as if it belonged to you, when in fact it doesn't. The words that comes to us tonight is, "My son give Me thine heart, thyself and all that thou hast." Jesus Christ wants the loving, loyal service. We are partakers of the divine nature and Christ wants to see us changed from death unto everlasting life. I want you to join God, not the church. This is no club or society where you are in good standing if you pay your dues. We see in our subject tonight one man without grace and the other with God for his ideal. The great question now is, "Where is thy Brother?" Don't you, like Cain, feel a disrelish for righteousness? Why is it that you are continually picking flaws in your fellow-workman?

Cain possessed jealousy, which is the twin brother of hate and hate is the mother of murder. You are trying to kill someone's reputation to fortify yourself against God. "Where is thy Brother?" You have a brother, the incarnation of the word of God. This brother of yours suffered, drank the cup and gave himself to die. Has he the chief place in our hearts? My brother without peace and hope you are nothing but a tomb without any risen Christ. You cry, "My Lord! My Lord!" but there is no response.

Dr. Yerkes then took charge and made a few remarks in which he earnestly besought all to give their hearts to Christ. He said that the audience present was larger than the one in the upper room in Jerusalem, and that they could receive just as large a blessing. He referred very tenderly to the death of a young woman, a member of his church, which occured yesterday, and said that he knew she was a child of God, having given her heart to him when a young girl. Only a short time ago her mother remarked that she hoped she would get well, when she replied, "I hope so too, but if I don't, I am ready to go." The doctor brought the lesson out very plain and strong, and it had a remarkable effect on the audience. In the after meeting the results were very encouraging and many expressed a desire to give up their life of sin and serve God.

The union meetings will be continued next week in the Crescent Avenue church. Tomorrow evening a meeting will be held in Hope chapel, commencing at 7:45 with a fifteen minute song service. Rev. W. C. O'Donnell will preach.

Monday night a meeting will be held in Monroe Avenue chapel, and others will follow during the week. There will also be union services tomorrow evening in the Cresent Avenue and First Baptist churches, commencing at the usual hour.

WHITE'S FURNISHING DEPARTMENT.

Thomas A. Neely Is in Charge and a Great Success Is Assured.

Today was the opening day of White's new housefurnishing department, under the management of Thomas A. Neely, and a very good impression it gave. The stock room, which occupies half of the basement, is filled to overflowing with goods ready to be marked. The other half of the basement is devoted to the housefurnishing department, and here the wooden and willow ware, matting, oil-cloth and carpets are arranged in choice array. The division of the first floor of the store on the left is also devoted to this department. In the rear, household specialties, granite, tin, japanned and iron wares, cutlery and the like are displayed. The crockery, china and glass ware occupy the front and middle portions of this division. Several open-stock patterns of English tea and dinner ware have just been put on sale. They are Mr. White's exclusive importation and can be matched at any time. Hanging from the ceiling is an elegant display of library and hall lamps. Some very pretty tea sets of Carlsbad and English porcelain adorn one of the tables. A large variety of toilet ware makes a handsome display. The Victoria ware which is on sale is a lot of sample pieces, which are marked at one-half the regular price. Mr. Neely has been put in full charge of the department, buying and managing all connected with it. He intends to make the department the leading one of its kind in the State, and his long experience and knowledge of the trade, as well as his well-known enterprise, are likely to make it so. He and his able corps of clerks will give the public courteous treatment and prompt service.

The department is lighted by skylights during the day and thirty Welsbach burners at night.

ADDITION TO POTTER PRESS WORKS.

The New York Office to Remove to This City.

A new building 22x45 is being erected at the Potter Press works, two stories in height between the main shop and the pattern house with two arches underneath and offices above where the clerks of the main offices in the Potter building in New York City are to occupy. The main office is to be located here at the works and all the business is to be transacted there. Lewis Titsworth of Dunellen is doing the carpenter work and William Pangborn is the mason.

Will Give a New England Supper.

At the meeting of the Woman's Relief Corps last evening, Mrs. Charles Westphal was elected secretary, and Mrs. Walter Walker treasurer. They were both installed and assumed their offices at once. The members decided to give a New England Supper on Washington's Birthday.

The Sanitarium to Open.

There is a possibility that the Netherwood Hotel will be opened at an early date as a sanitarium. A new company is now being organized under the direction of Mr. Crossman, of New York, for the above purpose.

An Art Department Added.

The Plainfield Business College in the Babcock Building will open an art department on Wednesday, Feb. 12th, with competent instruction in a variety of lines. Visitors will be cordially welcomed.

A Livelier Month Coming.

Next month promises to be a livelier one in society than the last has been. The next Assembly will be held Monday evening and there are several large receptions and weddings to be held in February.

Choral Rehearsal Changed.

Nelson Runyon, secretary of the Choral Society, announces that the rehearsal of the society will take place next week on Tuesday evening, instead of Monday evening.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

CONDITION OF TRADE

Features of the Week Not Over Encouraging.

Non Action of Congress an Injury to All Classes of Business—Money Market Easier, But Not Healthy—Textile Industries and Boot and Shoe Trade Dull.

New York, Jan. 25.—Dun's weekly review of the condition of business for the week just closing will to-day say: The week has been marked by improvement apparent rather than real. Prices of some products have risen, but only because supplies are supposed to be smaller than was expected. Prices of pig iron and billets have risen, but only because coke and ore have been made dearer, and not because of any better demand for finished products. Money has been easier, but only because more has been borrowed from Europe at a time when the actual balance of trade takes money hence to Europe. The senate still injures all business by doing nothing, and the treasury cannot expect to gain in gold as yet, but loses less than was expected. It is generally assumed that the new loan will be placed without difficulty, though the successive payments may cause continued disturbance. Business at the mills does not revive, nor is it to be expected while congress does nothing, and payments through clearing houses for the week are 6.5 per cent. larger than last year, but 29.3 per cent. less than in 1893, being less satisfactory than for a long time.

Textiles and Boots and Shoes.

Textile industries do not gain. With materials practically unchanged, they halt because the demand for future delivery is so narrow. Cotton manufactures have for months been storing up staple goods, but prices have gradually declined ever since October 17, and now average 6.4 per cent. lower than at that point, when the rise from the lowest average of quotation in March, 1895, had been 22.9 per cent. Woolen goods also tend lower, with small demand, and are practically at the prices of a year ago, though wool is higher. Nor is there anything new in the boot and shoe industry, for though hides are about 3½ per cent. lower than a fortnight ago, leather does not change, and boots and shoes are but slightly lower. Many shops have stopped, and others have discharged cutters, expecting to stop in about two weeks. Sole leather cutters are said to be working half to two-thirds their capacity. Retail dealers still look for lower prices, so that jobbers cannot afford to move.

Little Demand for Finished Iron.

The Iron and steel business finds encouragement in the advance of Bessemer pig to $13 at Pittsburg, and Gray forge to $11.26, but these are results of the advance ordered by combinations in coke and ore. Finished products are not stronger; while pig iron has advanced 10.9 per cent. since January 1, prices of finished products average 1.7 per cent. lower than at that time. The demand is plainly too small for the supply, and the works in operation are killing profits for each other by underbidding. In such a case lower prices for pig, ore and coke would seem inevitable, but last year the raw materials hoisted everything else, and some expect the operation to be repeated. While thirteen furnaces in the Pittsburg region have stopped since January 1, the demand for products of iron has not on the whole increased, partly because the bar, nail and rail associations have all refused to lower prices. Minor metals are all weak.

Money Markets Not Healthy.

The money markets are a shade easier, but by no means healthy. There is a constant fear that preparations to pay for bonds will cause trouble, and bankers are protecting themselves as best they can, the more because the magnitude of recent failures leads to a belief that maturities within a short time to come may result disappointingly. Failures for fifteen days of January have shown liabilities amounting to $12,538,617 against $7,501,209 in seventeen days of last year, and $13,658,990 in eighteen days of 1894. Manufacturing liabilities were $4,214,669 against $1,572,043 last year, and $6,072,873 in 1894, and trading liabilities were $7,767,426 against $5,894,166 last year, and $6,800,353 in 1894. The failures for the week have been 373 in the United States, against 363 last year, and 61 in Canada against 59 last year.

Y. M. C. A. Convention.

Hagerstown, Md., Jan. 25.—The twenty-fourth annual convention of the Young Men's Christian association for Maryland, Delaware, West Virginia and the District of Columbia was opened here yesterday afternoon. The sessions will continue until Sunday night.

The Angeliers Indicted for Murder.

Baltimore, Jan. 25.—The grand jury has indicted Mattie V. Angelier and her husband, Frank Angelier, on the charge of killing Charles F. Parker of Athol, Mass., in their store on North Charles street on Jan. 11.

President Cleveland's Condolence.

London, Jan. 25.—The foreign office has announced the receipt by the queen of President Cleveland's condolence on the death of Prince Henry of Battenberg.

Gold Reserve Still Declining.

Washington, Jan. 25.—The treasury gold reserve stands at $49,985,261 today. The reported withdrawals of gold yesterday were $189,000.

ARMENIAN OUTRAGES.

Highly Interesting Discussion in the Senate on the Subject.

Washington, Jan. 25.—The concurrent resolution reported last Wednesday from the committee on foreign relations on the subject of the Armenian outrages was taken up in the senate yesterday afternoon and was passed, after a highly interesting discussion. Mr. Cullom, rep., Ill., who had reported it, opened the debate and described the occurrences in Turkey as a "massacre of innocents, unparalleled for ages." Mr. Blanchard, dem., La., thought that the resolution did not go far enough, and intimated that the committee on foreign relations had been slow in its report. The committee was defended by Mr. Frye, Rep., Me., who made a very fiery speech against the sultan and against the European governments which had not interfered to protect the Armenians. He said that if he had his way congress would memorialize Russia to take possession of the Armenian provinces, and would inform her that the United States would stand behind her in doing so. And he declared that if it were necessary to protect American citizens and their property in Turkey, he would order United States ships of war, in spite of forts and in spite of agreements as to the closing of the Dardanelles, to place themselves before Constantinople and demand that protection to which American citizens are entitled. The concurrent resolution was passed without a division, and now goes to the house of representatives. It expresses the earnest hope that European concert may speedily be given its just effect in such decisive measures as shall stay the hand of fanaticism and lawless violence and shall secure the rights of the unoffending Christians of the Turkish empire.

WILL BE DEPORTED.

Several Skilled Workmen Held at New York as Contract Laborers.

New York, Jan. 25.—Five Hungarians who arrived here on the steamer Italia from Hamburg are detained as alien contract laborers. The fact that the men are skilled puddlers and had come, according to their story, under contract to work for Andrew Carnegie at Homestead, Pa., was brought out. The men are all skilled and can command a salary of from $3.50 to $5.00 a day. They will be deported. Six Germans who also came on the Italia acknowledged that they were going to work for a sugar house in Chicago. They too will be sent back.

WILL MOVE TO BRIDGEPORT.

Tait Paper Mills, Located in Trumbull for 100 Years, To Leave.

Bridgeport, Conn., Jan. 25.—Tait & Sons, paper manufacturers, whose mills have been located in Trumbull for nearly 100 years, have made preparations to remove to this city, and will occupy a site in north Bridgeport. The mills contaminated the stream from which the local hydraulic company furnished the city's water supply, and the owners were finally induced to sell it. A liberal offer was made to the firm to remove to New Jersey, but it preferred to remain in this vicinity.

TROUBLE IN HAYTI.

Continued Rioting Reported in the Streets of Port au Prince.

Kingston, Jamaica, Jan. 25.—The steamer Hordel has arrived here from Gonaives, Hayti. Her passengers report continued serious rioting in the streets of Port au Prince for the past few days. The government is exercising a strict censorship over news.

Gridiron Club's 11th Anniversary.

Washington, Jan. 25.—Preparations for the eleventh anniversary of the Gridiron club to-night indicate that it will be one of the most successful of its kind. The guests who have accepted include many officials and other prominent personages. Presidential possibilities and presidential managers will be numerous around the gridiron table.

Damages for Personal Injuries.

Bridgeport, Conn., Jan. 25.—The United States circuit court has allowed Louis Gross of this city $3,500 damages for injuries sustained in an accident at the Sterling street crossing in this city nearly a year ago.

FIGHT, IF NECESSARY

Hart Line Steamers Have Been Fully Armed.

The Company, Tired of Having Their Vessels Chased by Spanish Boats, Are Now Prepared To Defend Themselves—Will Not Depend on Uncle Sam.

Philadelphia, Jan. 25.—Capt. W. W. Ker, counsel of the Hart line of steamers, declared to-day that the steamers of that line were fully armed with guns which will be used against the Spaniards if necessary. He said the acquittal at Charleston of Capt. Hughes of the steamer Laurada of the charge of carrying arms and men to Cuba will be followed with similar verdicts here next month in the cases of the steamers Leon and Horsa, because as was shown in the Laurada case the vessels of the line have done nothing wrong and that the "trumped up evidence" can justly have no weight with a jury. Capt. Ker said the Spaniards are a suspicious people. They employed Pinkerton detectives to watch vessels to see if Cuban expeditions were being sent out. These detectives, anxious to make records for themselves, went around among the firemen and deckhands, treated them to rum, of which they are very fond, and pointed out to them how they could make money by giving information to the Spaniards. A story is fixed up for them to tell, which they are drilled into repeating. These witnesses are given two dollars, free board, free whiskey and a suit of clothes, and an extra witness may get $5 a day with rum, board and clothes.

Will Protect Themselves.

"I am told that the Spanish authorities have said that if they catch any of the vessels of the Bart line in Cuban waters they will make it hot for the vessel," said Mr. Ker. "This information may not be true, but I have every reason to believe that the Spaniards have no love for them. We are not going to give up the West India trade, and we know that there are no United States vessels there to protect us. We have concluded to go into the protecting business ourselves and we will put the guns on our boats and use them if necessary. There are lots of well-trained young men from our naval training vessels that would only be too glad to get a position where they could show themselves, and there are no better gunners in the world than they are. We are not going to seek trouble with the Spaniards, but we cannot afford to have our vessels chased."

HOUSE NIGHT SESSION.

Two of the Pension Bills Acted Upon Favorably.

Washington, Jan. 25.—There was a fair attendance of members when at 8 o'clock last night the house met for the first pension session of the Fifty-fourth congress. Among the thirteen bills which received favorable consideration was senate bill granting a pension of $75 per month to the widow of the late Brig.-Gen. and Representative William Cogswell of Massachusetts, and house bill increasing to $72 per month the pension of the widow of the late Col. William Dulancy. At 10:30 p. m. the house adjourned till Monday.

Lincoln Association.

Washington, Jan. 25.—Asa W. Dickinson, one of the ex-presidents of the Lincoln association of Jersey City, who is in Washington, has arranged with representative Towne of Minnesota to deliver one of the speeches at the annual meeting of the association next month. Gov. Griggs of New Jersey will be the other speaker.

Delaware Senatorship

Washington, Jan. 25.—The senate committee on privileges and elections had the Delaware senatorial contest under consideration yesterday, but did not take any action. Another meeting will be held early next week, when it is hoped the matter may be finally passed upon by the committee.

Roanoke Reaches San Francisco.

San Francisco, Jan. 25.—The American ship Roanoke, Capt. Josh A. Milton, which left New York 217 days ago, has at last reached port after a season of delay and disaster. Three of her original crew were lost in the Atlantic and eighteen were left in the hospital at Rio Janeiro.

The Storm at Gloucester.

Gloucester, Mass., Jan. 25.—The northeast storm that commenced yesterday forenoon gradually increased and all last night it blew with great severity, accompanied by rain.

The Finest Cake

Heart Failure.

Often first manifested by extreme general debility, with sudden reactions for the better; a general dying out of the fires of life, that brighten up at intervals, giving hope of returning health, but eventually subside, go out on the spot, and another "dropped dead on the street" is reported. A general collapse of the great vital centres, due to a lack of sufficient nourishment is the cause. In such cases take

Bovinine

and live to join the great army who today sing its praise. Dr. P. B. Carpenter, of 430 Friendship St., Providence, says, "I have never seen a case of general debility which Bovinine failed to cure, when taken as I directed." It cures in every instance where mal-nutrition is experienced. It is not a medicine, but a powerful condensed food that makes blood, flesh and bone, and by invigorating the life-generating organs dispels disease.

CENSURE FOR BAYARD

Probable Action of the House Committee.

Our Ambassador to England To Be Lightly Reminded That His Recent Speeches Are Disapproved at Home—A Warning to Other Diplomatic Representatives.

Washington, Jan. 25.—A mild resolution of censure will probably be adopted by the house committee on foreign affairs as an expression of their disapproval of the sentiments uttered by Ambassador Bayard in the speeches delivered by him in England some weeks ago. The full text of these speeches together with the correspondence between the state department and Mr. Bayard relating to the matter were sent to the house early this week and referred to a sub-committee of which Mr. Draper of Massachusetts is chairman. This sub-committee met yesterday afternoon and discussed the matter for an hour and a half. The other members of the committee were Mr. Pearson of North Carolina and Mr. Dinsmore of Arkansas. None of the three was willing to make public the details of the session, but it is understood that in a general way the majority felt that the house should take some action calculated to express its dissatisfaction with the position taken by Mr. Bayard, the argument being that the American diplomatic representatives abroad cannot be too circumspect in their utterances. What the full committee may do when the sub-committee shall make its report is a matter of speculation, but it is not doubted that it will adopt the conclusions of the sub-committee.

BURGLARS AT CAPE MAY.

Postoffice, Stores and the School House Entered.

Cape May, N. J., Jan. 25.—Three burglars had full possession of Cape May Court House village during Thursday night. They robbed the postoffice of $80 in stamps, a registered letter and made three holes in the safe and filled them with dynamite, but must have been scared off. They also entered the stores of Mrs. Ray Sharp, Luther Harrison and Edward Benezet. They broke in the school house and had the horse of Edward Foster harnessed to a wagon ready for their escape. Officers are in pursuit.

DWYER MULCTED FOR $15,000.

Gideon Awarded Damages Against the Horseman for Slander.

New York, Jan. 25.—The suit brought by David Gideon, the racing man, against Philip J. Dwyer, president of the Brooklyn Jockey club, for $50,000 for slander, was concluded last night before a sheriff's jury. The jury were out ten minutes and returned with a verdict for the plaintiff, Mr. Gideon, for $15,000. An appeal will now be taken to the court of appeals.

RELIEF FOR ARMENIANS.

It Cannot Be Distributed by Members of the Red Cross, as Such.

Constantinople, Jan. 25.—The porte will not permit the Red Cross, as a society, or any member as such, to distribute relief to Armenians, but it will permit any persons whom Minister Terrell names to conduct such work in the interior, the Turkish authorities to be kept constantly informed of their movements and what they are doing.

Worst Storm of the Season.

Portsmouth, N. H., Jan. 25.—The worst easterly storm of the season raged here all last night. The streets are filled with water and slush and are almost impassable. It is impossible to learn whether any marine disasters have occurred as the telephone line between this city and Jerry's Point life saving station is down.

Getting Even with Massachusetts.

Hartford, Jan. 25.—Insurance Commissioner Betts has declined to admit the new burglar insurance company recently organized in Massachusetts to do business in this state. The laws of Massachusetts would not permit a Connecticut company of that character to do business there, and reciprocal action is necessary.

Money Chosen Senator.

Jackson, Miss., Jan. 25.—The legislature took a joint ballot for United States senator yesterday, resulting: Money, 166; Burkitt, 2. These two votes were from the populist members of the house and were given complimentary to editor Frank Burkitt, their candidate for governor at the last election.

Made Death Certain.

Fort Plain, N. Y., Jan. 25.—Jerome Ward, formerly proprietor of the Fort Plain Iron foundry and a prominent citizen, committed suicide at the Jermania hotel yesterday by taking Paris green and chloroform. He was a bachelor. Business reverses furnish the cause of the suicide.

Separation for Mrs. Austin.

Dedham, Mass., Jan. 25.—In the superior court Judge Blodgett yesterday granted Alice Elizabeth Austin of Medfield separation from her husband, Henry W. Austin of New York city, the well-known author and writer, on the grounds of desertion.

Steamer Alamo Floated.

Jacksonville, Fla., Jan. 25.—The Mallory line steamer Alamo which went ashore on Pelican shoals, near Key West, Wednesday, has been floated. The wreckers have libelled the vessel for $65,000 salvage.

THE HOWELLS DESTITUTE.

New Disclosures Regarding the Woman Acquitted of Murder.

Wellsboro, Pa., Jan. 25.—Mrs. Charlotte Howell, who was recently acquitted of the charge of murdering Libbie Knapp, after a sensational trial of three weeks duration, made application to the commissioners of Tioga county for relief. She and her husband represented that they and their two children were on the verge of starvation. The sequel of the recent famous murder case has features that have not as yet been made public. During the trial it developed that Mrs. Howell had never been married to Chauncey Howell, the father of her two children. They had lived together ten years. It was further shown that the woman is the sister of three brothers who are wealthy residents of New York city. It was they who paid the expenses of the trial. At the conclusion of the trial they offered a home for herself and children, but the stipulation was that if she accepted this home she must forever forsake Chauncey Howell and assume her maiden name, which is Button. It is said that the woman acquiesced in this plan, but later reconsidered the matter and decided to live in the humble home that Howell provided for her and her children. It will be but a short time until the Howell family will number five members instead of four. The county commissioners were powerless to aid the Howells. In order to get away from the house in which Libbie Knapp was murdered, the Howells have left the borough of Tioga and have gone to Elkland, this county, where Chauncey expects to find work in a tannery.

SOLDIERS AND SUPPLIES.

Spain Constantly Strengthening Her Forces in Cuba.

Havana, Jan. 17, via Tampa, Jan. 25.—Nearly all the steamers arriving here from Spain bring soldiers and supplies for the navy. The Spanish transatlantic line steamer Alfonso XII., which arrived here day before yesterday from Barcelona, brought 1,324 passengers, official and public mail, as well as a general cargo. Among her passengers were Major Albacetee, marine artillery; captains of frigates Rivera and Tirado, captains of marine infantry, naval and military officers and surgeons, and 1,163 petty officers and soldiers. Among military supplies she brought the following: Eight cases of rifles, 2,002 cases of cartridges, $1,000,000 in silver for the government, 14 cases of hospital stores, 252 packages of shells, powder and other supplies for cannon, 15 Ordonnes cannon, large and small. To the order of the navy department, 15 packages of cartridges. The Hamburg-American packet Saxonia, that arrived here on the 14th inst., brought 160 cases of Mauser rifles and one case of bayonets.

THE BOERS' PRISONERS.

All To Be Released on Bail Except Hammond and Three Others.

London, Jan. 25.—The Times to-day publishes a dispatch from Pretoria saying that all the members of the reform committee who were arrested at Johannesburg will be admitted to bail with the exception of Lionel Phillips, president of the chamber of mines; Col. Francis W. Rhodes, brother of Cecil Rhodes, ex-prime minister of Cape Colony; Percy Farrar, proprietor of the South African paper, Country Life, and John Hayes Hammond, the American mining engineer.

HARRISON AT WHITE HOUSE.

The ex-President Pays a Visit of Courtesy to the President.

Washington, Jan. 25.—Ex-President Harrison paid a visit of courtesy to President Cleveland at the White House yesterday afternoon. Gen. Harrison reached the mansion at 3 o'clock and spent about five or ten minutes with Mr. Cleveland in friendly conversation in the cabinet room.

No Public Bequests.

Haverhill, Mass., Jan. 25.—The will of J. H. Winchell, just made public, disposes of an estate valued at $250,000. There are no public bequests. Thirty thousand dollars go to the grandchildren, $5,000 to Ida S. Hewes, and the residue to the testator's daughter, Mrs. Myron L. Whitcomb.

To Accept the Ericsson.

Washington, Jan. 25.—Secretary Herbert has decided to accept the torpedo boat Ericsson from the builders, the Iowa Iron works, subject to a dock trial at New London. The only deductions made from the contract price of $150,000 will be $16,000 on account of delay in the completion of the craft.

Demented Man Captured.

Philadelphia, Jan. 25.—David Hickey, aged twenty years, son of Lawrence Hickey of Washington, was captured yesterday on the outskirts of this city in a demented condition. He made an attempt to end his life by severing an artery in his wrist.

Wellington Much Improved.

Cumberland, Md., Jan. 25.—United States senator-elect George L. Wellington is much improved to-day. He is able to sit up and his physicians say he will be entirely recovered in a few days. He was suffering from a slight attack of pneumonia.

To Increase Cuban Customs Duties.

Madrid, Jan. 25.—In order to meet in part the expenses of the war in Cuba the government has decided to increase the customs on goods imported into the island.

Prince Bismarck Honored.

Berlin, Jan. 25.—Emperor William has appointed Prince Bismarck a knight of the Order of Pour le Merite, for science and art, with voting power.

United States Government Under Grant

Have Permitted the Celebrated Waters of Hot Springs, Ark., to Be Used in the Preparation of

"PURA BLOOD."

Which has the merited reputation of being one of the wonders of the world, having received the highest indorsement from prominent physicians.

Rheumatism and gout—for these troubles the waters of Hot Springs, Arkansas, are famous the world over. "Pura Blood will absolutely cure rheumatism and gout. Neuralgia is one of the most painful affections. It may effect not only one nerve, but a whole set of nerves. "Pura Blood" cures neuralgia. In the cure of skin diseases "Pura Blood has no equal. Thousands who have heretofore found no relief have been cured by this remedy. Eczema, boils, pimples, oil sores are all cured with "Pura Blood." It does not drive the eruptions in, but cures by the action on the blood, purifying it, and, in fact, renewing and invigorating the entire body. It will cure when all other remedies fail. Any person wishing to be permanently cured of a blood disease, ask your druggist for "Pura Blood," which is prepared with the curative waters of Hot Springs, Arkansas, under grant from the United States Government. Billups & Co., of 26 Cortlandt st., New York, are sole agents, and will send descriptive book free to any address.

Soothing, healing, cleansing, DeWitt's Witch Hazel Salve is the enemy to sores, wounds and piles, which it never fails to cure. Stops itching and burning. Cures chapped lips and cold sores in two or three hours. L. W. Randolph, 143 W. Front St.

WEATHER INDICATIONS.

(Furnished by Weather Observer Neagle.)

Fair Tonight and Sunday; Cooler Tonight.

At 2½ o'Clock Leggett's Thermometer Registered 52 Degrees.

The United States pays $900,000 for its weather service. This is cheap. Louisville alone gets more than $900,000 worth of weather a year.—Louisville Courier-Journal.

Speaker Reed's smile is thus described by a New England admirer of the Maine statesman: "The Reed smile is a revelation. It is the very apotheosis of geniality. When it comes, not by gentle gradations, hesitatingly, as smiles sometimes come, but in a sudden burst of effulgence, overspreading that rotund, hairless countenance and dispelling the shades of care, it would compel a responsive tribute from dumb brutes."

Philip D. Armour, the Chicago millionaire, carries into his business the working habits he learned as a boy on his father's New York farm. He rises with the sun every morning, has his breakfast at 6 o'clock, and is at his office at 7 o'clock. At noon he has a simple luncheon, usually consisting of nothing but bread and milk, after which, of late years, it is his custom to take a short nap. He is in bed usually by 9 o'clock every night. He belongs to several clubs, but rarely visits them. He thinks a young man stands as good a chance to make a fortune now as at any time in the past. "There was never a better time than the present," he says, "and the future will bring even greater opportunities than the past."

If some, who might be written heroes, are losing the chance of their life time, one heroine has not lost her's. The eyes of the civilized world are turned with admiring interest on Clara Barton, the founder of the Red Cross society, as she sails from American shores on her mission of love and kindness to the suffering Armenians. Had she gone by the invitation of the Sultan of Turkey, there would be much in her attitude to compel admiration, sympathy and co-operative interest, but starting, as she does, under the protest of the Sultan, her position is unique, showing the stuff of which heroes are made. But Miss Barton's heroic act is done in a way that is "pure womanly." Disclaiming the idea that there is anything heroic in her attitude, she makes no rash resolutions or promises, but simply goes to be near the scene of danger that she may avail herself of the first opportunity to minister to dire need. Trusting in her Samaritan-like kindness that puts to shame the priest and levite in authority, and depending on the judgment that will not fail through rashness, she carries with her not only relief for a suffering nation, but the hopes, wishes and prayers of the best people in every land, that she may find an open door for her humane ministrations.

A Consolidation in Business.

The contemplated purchase by W. L. & J. M. Smalley, the Somerset street butchers, of the meat market corner of Somerset and Race streets, owned by their brothers David and Albert, as exclusively reported in these columns, was consummated last evening. They will take possession Monday morning, when their present place of business will be closed.

A New Cycle Industry.

Horace J. Martin and Philip Zimmer, of the borough, have formed a partnership under the name of the Plainfield Cycle Manufacturing Company, and will commence at once the manufacture of a bicycle called the "Plainfield." There will be several new features in the wheel, and strictly high grade. It will sell for $75, and the usual guarantee will be given.

Impure Blood

Scrofula Breaks Out in Running Sores

The Poison Perfectly Cured by Hood's Sarsaparilla.

"A year ago a sore came on one of my limbs. It spread, and soon four others, which proved to be as bad as the first, broke out. I could not account for them and my physician did not seem to do me any good. The eruptions would spread to the size of a half dollar, and the flesh would become ulcerated nearly to the bone. I finally decided to try Hood's Sarsaparilla, and after taking several bottles of the medicine I am glad to say that my limb is now perfectly well, and I am in better health than I have been for some time. Soon after the sores appeared I was compelled to take my bed, but

DR. GREENE'S NERVURA

Alexander Salvini, the Great Actor, Says Dr. Greene's Nervura Cures.

What He Says Means Health to You If You Use This Grandest and Surest of All Medicines, Dr. Greene's Nervura.

ALEXANDER SALVINI.

The word of an illustrious actor, like that of a great general or statesman, commands the attention of the world.

Alexander Salvina, son of the greatest actor that ever lived, is rapidly taking his father's place in the minds and hearts of the people. Every word of his, therefore, like the utterances of Jefferson or Irving, whom everybody honors and reveres, will be read with deepest interest and profoundest attention by all.

Mr. Salvini writes to the people:—

"Traveling as I do, I cannot fail to notice the great use of Dr. Greene's Nervura blood and nerve remedy, and especially among my friends and acquaintances.

"From my own experience I can strongly recommend it as a most excellent and reliable family remedy, especially for rheumatism and neuralgia, nervousness and all nervous affections, which illness in our profession, we are most liable to cantract."

Weak nerves, poor blood, low vitality, rheumatism and neuralgia, are the bane of life, the th ef of comfort, the destroyer of happiness. It is the height of folly to suffer when a cure is easy, sure and speedy by using Dr. Greene's Nervura blood and nerve remedy. Use this great and wonderful remedy and the nervous, irritable, weak and trembling feelings will disappear; your sleep will be natural, calm restful and you will wake morning's feeling strong and vigorous instead of tired and exhausted; all gloomy depression and sense of anxiety will fade from the mind; your nerves will become strong and steady as steel your strength, energy and ambition will be restored, and perfect health take the place of weaknes and debility.

This remarkable discovery, Dr. Greene's Nervura blood and nerve remedy, should not be classed with ordinary patent medicines. It is the prescription of the most successful specialist in nervous and chronic diseases Dr Greene, of 35 West 14th St., New York City, and he can be consulted by all without charge, personally or by letter.

High School Notes.

On Wednesday evening of this week the astronomy class of the High School went to Bound Brook, for the purpose of becoming better acquainted with the heavenly bodies. Through the kindness of Mr. Loomis, a prominent electrician of Bound Brook, the class was permitted to use his telescope, thus bringing the stars into closer view and making it possible to see the satelites of the different planets. A good view of the surface of the moon was also obtained. Those of the class who availed themselves of this privilege were Lyman R. Allen, instructor in science at the High School, the Misses Etta Raybert, Helen Hazen, Flora Bowman, Hattie King, Mary Hull, and Grace E. Overton, and Messrs. Wilbur F. Cornwell, J. Haz ewood Craig and Henry Eggerding.

Paul W. Kimball has returned to his duties in the High School after an absence of several days caused by an injured ankle. Kimball badly strained the same returning home from school last Monday, getting it wedged between two stones which formed part of the curb.

There was mourning in the camp of the Cranford A. C. Thursday evening when the bowling team of the Roselle Casinos defeated them in both games in The Standard League, on the latter's alleys. It took good bowling to do it, however, as the following scores show:

ROSELLE.

	1ST GAME.	2D GAME.
Harris	175	203

The Y. M. C. A. alleys are now in good condition, having been thoroughly repaired. Two new sets of pins have been added.

The bowling team of the E. A. C. will come to Plainfield Tuesday night to roll another game with the Crescent Wheelmen in the Central Journal Bowling League. It will be a fight to the finish, as both teams want the game very much.

There will be a lively game on the Crescent Wheelmen's alleys Monday night, when the Will Be's and the Have Beens meet in battle. The veterans have been giving their younger opponents a handicap of 100 pins, but the result of the last game has caused the handicappers to reduce it to 50 pins. The Will Be's expect to win, however, and will put up a very good game.

The novelty of being number one in the Standard Bowling League had its effect on some of the Park Club bowlers and they put up low scores at the Union County Country Club alleys last evening. The home team managed to roll lower ones, however, and the Park Club is still on top of the heap in company with Roselle, while Westfield has to fall behind for a change. The first game last evening between the Parks and the Union Counties was an exciting one despite the low scores. The home team took the lead in the first frame and managed to hold it for the first three frames, then the visitors led them by 6 pins and held it until the end, although their opponents struggled hard to get back again, while 36 pins separated the two teams at the end. The Park Club began to bowl in the first frame of the second game and came in ahead by 1 pin. That difference was increased in the following frames until the Parks won without much excitement by 66 pins. None of the individual scores were very high, VanBuren, of the Parks, doing the best by rolling 177. The scores of the two teams were as follows:

PARK CLUB.

The Parliamentary Club Supper.

To the Editor of The Daily Press:—I fear that the article in yesterday's Daily Press relative to the suppers to be given by the Parliamentary Club at the Y. M. C. A. may convey the idea that the ladies are to give all the members of the Y. M. C. A. a supper on Sunday evening. What the club really purposes is to serve tea to those attending the Evangelistic Bible class which meets every Sunday at 5:30 p. m. This class is for those who are non-Christian and is almost exclusively attended by such. The class has been taught by Messrs. A. C. La Boyteaux, William D. Murray, E. L. Suffren and Capt. Morrison.

The Big Swing Door.

The outer door to the office building was a massive affair that swung either way.

The man who entered was in a hurry, but he considerately looked behind him to see that he did not let it swing in the face of any one who might be following.

The woman who was following seemed to be paying no attention to the door, so the man held it open for her to enter.

The thought that occurred to the woman just as she got in the doorway appeared to make her doubtful as to whether she wished to go in or out.

The man still held the door open.

The woman said, "I wonder if I have the paper that he told me to bring to his office," and began to search through the little bag that she carried in her hand.

The man said—well, never mind what the man said. He still held the door open in order to prevent it sweeping the woman into the street.

The woman found the paper she was after and looked across the street, as if uncertain whether she had the right address.

The man said, "Pardon me, madam, but I am in a hurry."

The woman said, "Sir!"

The man said, "I cannot remain here and hold this door any longer."

The woman said, "Sir, you are the most insulting man I ever met!"

The man swore softly to himself, the woman entered, and the door swung back with great force.

The woman looked scornfully at the man and said something about telling her husband how she had been insulted.

The man made no reply, but later he was heard saying to himself, "And yet people claim that it pays to be polite."—Chicago Post.

SKETCHES BY M. QUAD

It Was on Suspicion.

I had been walking all day to reach the hamlet of Bentonville, and as I entered the place at sundown and was inquiring my way to the tavern a rough looking man accosted me with:

"Look a here, stranger, I don't quite like yer looks."

"Sorry for that, but can't help it," I replied.

"No; I don't like yer looks," he continued. "Fact is, ye 'pear to be a suspicious character, and I guess I'll lock ye up!"

"Have you authority to do that?"

"I should smile that I had! I'm a constable, and I shall lock ye up as a suspicious character."

I tried to argue the matter with him, but he was "sot" and ugly to boot, and he was taking me to the lockup when two or three men interfered to the extent of suggesting that I be taken before the justice of the peace for immediate examination. After some hesitation this was agreed to, and a crowd numbering a score of people accompanied us. The "jedge" was eating supper, but he hurried up and came over to his office in the back end of a store and opened court. When all was ready, he asked of the officer:

"Tom, what's the charge agin the prisoner?"

"Suspicion," replied Tom.

"Suspicion of what?"

"Dunno; jest suspicion."

"I don't see anything suspicious about him," said his honor as he looked me over. "Stranger, who be ye?"

I told him.

"Whar ye from?"

"Blissfield."

"Whar ye goin?"

"On to Monroeville tomorrow."

"Nuthin suspicious about that. What made ye think him suspicious, Tom?"

"Dunno, but it come over me that he was."

"Do you want to sw'ar out a warrant agin him?"

"Guess not."

"Then the prisoner is discharged."

I went to the hotel and got supper, and after the meal sat down on the veranda for a smoke. In the course of five minutes the same constable walked up the steps and approached me and said:

"Stranger, I've cum to apologize."

"For arresting me? Yes, you were hasty, but it's all right."

"Thank ye. Ye see, it's jest this way: I've bin a constable in this county fur 22 years and never arrested a critter yit. Got to thinkin of it today and made up my mind to uphold my diguity or bust a leg, and as ye looked like a kuss who hadn't any friends and wouldn't kick about bein locked up I run ye in. Cum hev a drink with me, and I'll resign tomorrow!"

She Was a Poetess.

An hour after dark, and, the wind blowing a gale and rain threatening, I rode up to a Nebraska dugout and uttered the usual "Hello!" After a minute a woman appeared at the door and asked what was wanted.

"Can I have lodgings for the night and a feed for my horse?" I asked.

"Was you a gineral in the late war?" she queried.

"No, ma'am."

"Do you belong to the legislature?"

"No, ma'am."

"Mebbe you are a jedge or a sheriff?"

"Neither one, ma'am."

"Ain't you the mayor of Roseville or the big man of the railroad?" she persisted.

"No, ma'am. I am only a traveler seeking lodgings for the night."

"But you must do something. Did you get up Webster's Dictionary?"

"I am sorry to say I didn't."

"Don't you belong to congress?"

"No, ma'am."

"Never run for governor of Nebraska?"

Auntie: "Well, Effie, did you enjoy your party last night?"
Effie: "Very much, thank you, auntie."
Auntie: "And I suppose mamma was there to look after you?"
Effie: "Oh, no! Mamma and I don't belong to the same set."—Punch.

Domestic Economy.

"What's this!" exclaimed the young husband, referring to the memorandum she had given him. "One dozen eggs, a pound of raisins, bottle of lemon extract, can of condensed milk, dime's worth of ground cinnamon and 50 cents' worth of sugar. What do you want of all these things, Belinda?"

"I've got a dry loaf of baker's bread," replied the young wife, "that I'm going to save by working up into a bread pudding. I never let anything go to waste, Henry."—Chicago Tribune.

She'll Giggle Constantly.

"I'm so worried about my daughter," said the woman in the new fur cloak. "She goes about so solemn, so depressed. I'd give the world, doctor, to see her smile again."

"That's easy enough," answered the doctor briskly. "Get her into a church choir."—New York Recorder.

An Interesting Device.

"I say," said one British official, "what'll we do with this remote little country of ours? It isn't much good as it lies."

"Oh," was the reply, "just put one of our patented india rubber boundary lines around it and let it be awhile."—Washington Star.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "**Castoria**" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished for **35 cents,** or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher. is on every wrapper.

A Special Sale of Muslin Underwear.

We invite inspection of this great muslin underwear stock, including lines of high-class goods, daintily made and prices fixed specially for this sale, leaving us a modest margin. Of course, in such a variety there is plenty to suit every taste and every purse. You'll notice too that just as much care has been taken in the making of the cheaper wear as in the higher priced.

The Cloak Price-Cutting

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

ANNUAL SALE

OF

Muslin Underwear, Waists, Wrappers, Corsets.

Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.

So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.

We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that those who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

A PHYSIOLOGIST'S WIFE

Professor Ainslie Grey had not come down to breakfast at the usual hour. The presentation chiming clock, which stood between the terra cotta busts of Claude Bernard and John Hunter upon the dining room mantelpiece, had rung out the half hour and the three-quarters. Now its golden hand was verging upon the 9, and yet there was no sign of the master of the house. It was an unprecedented occurrence. During the 12 years that she had kept house for him his younger sister had never known him a second behind his time. She sat now in front of the high silver coffee pot, uncertain whether to order the gong to be resounded or to wait on in silence. Either course might be a mistake. Her brother was not a man who permitted mistakes.

Miss Ainslie Grey was rather above the middle height, thin, with peering, puckered eyes and the rounded shoulders which mark the bookish woman. Her face was long and spare, flecked with color above the cheek bones, with a reasonable thoughtful forehead and a dash of absolute obstinacy in her thin lips and prominent chin. Snow white cuffs and collar, with a plain dark dress, cut with almost Quakerlike simplicity, bespoke the primness of her taste. An ebony cross hung over her flattened chest. She sat very upright in her chair, listening with raised eyebrows and swinging her eyeglasses backward and forward with a nervous gesture which was peculiar to her.

Suddenly she gave a sharp, satisfied jerk of the head and began to pour out the coffee. From outside there came the dull thudding sound of heavy feet upon thick carpet. The door swung open, and the professor entered with a quick, nervous step. He nodded to his sister, and seating himself at the other side of the table began to open the small pile of letters which lay beside his plate.

Professor Ainslie Grey was at that time 43 years of age, nearly 12 years older than his sister. His career had been a brilliant one. At Edinburgh, at Cambridge and at Vienna he had laid the foundations of his great reputation both in physiology and in zoology. His pamphlet on "The Mesoblastic Origin of Excito-Motor Nerve Roots" had won him his fellowship of the Royal society, and his "Researches Upon the Nature of Bathybius, With Some Remarks Upon Lithococci," had been translated into at least three European languages.

He had been referred to by one of the greatest living authorities as being the very type and embodiment of all that was best in modern science. No wonder, then, that when the commercial city of Birchespool decided to create a medical school they were only too glad to confer the chair of physiology upon Mr. Ainslie Grey. They valued him the more from the conviction that their class was only one step in his upward journey, and that the first vacancy would remove him to some more illustrious seat of learning.

In person he was not unlike his sister—the same eyes, the same contour, the same intellectual forehead. His lips, however, were firmer, and his long, thin lower jaw was sharper and more decided. He ran his finger and thumb down it from time to time as he glanced over his letters.

"Those maids are very noisy," he remarked as a clack of tongues sounded in the distance.

"It is Sarah," said his sister. "I shall speak about it." She had handed over his coffee cup and was sipping at her own, glancing furtively through her narrowed lids at the austere face of her brother.

"The first great advance of the human race," said the professor, "was when, by the development of their left frontal convolutions, they attained the power of speech. Their second advance was when they learned to control that power. Woman has not yet attained the second stage." He half closed his eyes as he spoke and thrust his chin forward, but as he ceased he had a trick of suddenly opening both eyes very wide and staring sternly at his interlocutor.

"I am not garrulous, John," said his sister.

"No, Ada. In many respects you approach the superior or male type."

The professor bowed over his egg with the manner of one who utters a courtly compliment, but the lady pouted and gave an impatient little shrug of her shoulders.

"You were late this morning, John," she remarked after a pause.

"Yes, Ada. I slept badly—some little cerebral congestion, no doubt due to over stimulation of the centers of thought. I have been a little disturbed in my mind."

His sister stared at him in undisguised astonishment. The professor's mental processes had hitherto been as regular as his habits. Twelve years' continual intercourse had taught her that he lived in a serene and rarefied atmosphere of scientific calm, high above the petty emotions which effect humbler minds.

"You are surprised, Ada," he remarked. "Well, I cannot wonder at it. I should have been surprised myself if I had been told that I was so sensitive to vascular influences, for, after all, all disturbances are vascular if you probe them deep enough. I am thinking of getting married."

"Not Mrs. O'James?" cried Ada Grey, laying down her egg spoon.

"My dear, you have the feminine quality of receptivity very remarkably developed. Mrs. O'James is the lady in question."

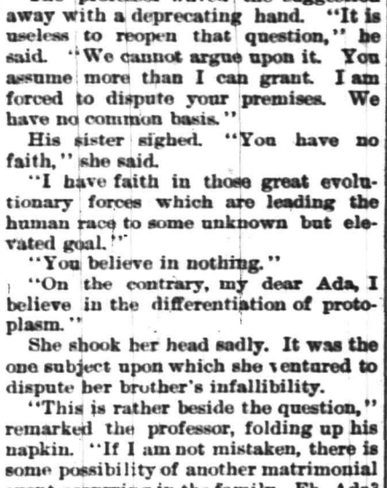
"But you know so little of her. The Esdailes themselves know so little. She is only an acquaintance, although she is staying at the Lindens. Would it not be wise to speak to Mrs. Esdaile first, John?"

"I do not think, Ada, that Mrs. Esdaile is at all likely to say anything which would materially affect my course of action. I have given the matter due consideration. The scientific mind is slow at arriving at conclusions, but having once formed them it is not prone to change. Matrimony is the natural condition of the human race, and indeed of all races, save those lower forms of life which preceded the differentiation of sex. I have, as you know, been so engaged in academical and other work that I have had no time to devote to merely personal questions. It is different now, and I see no valid reason why I should forego this opportunity of seeking a suitable helpmate."

"And you are engaged?"

"Hardly that, Ada. I ventured yesterday to indicate to the lady that I was prepared to submit to the common lot of humanity. I shall wait upon her after my morning lecture and learn how far my proposals meet with her acquiescence. But you frown, Ada!"

His sister started and made an effort to conceal her expression of annoyance. She even stammered out some few words of congratulation, but a vacant look had come into her brother's eyes, and he was evidently not listening to her. "Frown," he muttered thoughtfully—"frown!" Rising from the table, he turned over the pages of a thick volume which lay upon a desk in the window. Then, with a quick nervous gesture, he drew down his left shirt cuff and wrote hurriedly across it. The memorandum was, "Frown—what origin? Vide Darwin, 'Expression of Emotions'—drawing forward of occipito frontalis." His sister waited patiently, for she was accustomed to see him dive down every scientific bypath which led out of the main track of conversation.



He drew down his left shirt cuff and wrote hurriedly across it.

"I am sure, John," she said when he had resumed his seat, "that I wish you the happiness which you deserve. If I hesitated at all, it is because I know how much is at stake, and because the thing is so sudden, so unexpected." Her thin white hand stole up to the black cross upon her bosom. "These are moments when we need guidance, John. If I could persuade you to turn to spiritual"——

The professor waved the suggestion away with a deprecating hand. "It is useless to reopen that question," he said. "We cannot argue upon it. You assume more than I can grant. I am forced to dispute your premises. We have no common basis."

His sister sighed. "You have no faith," she said.

"I have faith in those great evolutionary forces which are leading the human race to some unknown but elevated goal."

"You believe in nothing."

"On the contrary, my dear Ada, I believe in the differentiation of protoplasm."

She shook her head sadly. It was the one subject upon which she ventured to dispute her brother's infallibility.

"This is rather beside the question," remarked the professor, folding up his napkin. "If I am not mistaken, there is some possibility of another matrimonial event occurring in the family. Eh, Ada? What!" His small eyes glittered with sly facetiousness as he shot a twinkle at his sister. She sat very stiff and traced patterns upon the cloth with the sugar tongs.

"Dr. James McMurdo O'Brien," said the professor sonorously.

"Don't, John, don't!" cried Miss Ainslie Grey.

"Dr. James McMurdo O'Brien," continued her brother inexorably, "is a man who has already made his mark upon the science of the day. He is my first and my most distinguished pupil. I assure you, Ada, that his 'Remarks Upon the Bile Pigments, With Special Reference to Urobilin,' is likely to live as a classic. It is not too much to say that he has revolutionized our views about urobilin."

He paused, but his sister sat silent, with bent head and flushed cheeks. The little jet cross rose and fell with her hurried breathings.

"Dr. James McMurdo O'Brien has, as you know, the offer of the physiological chair at Melbourne. He has been in Australia five years and has a brilliant future before him. Today he leaves for Edinburgh, and in two months' time he goes out to assume his new duties. You know his feeling toward you. It rests with you as to whether he goes out alone. Speaking for myself, I cannot imagine any higher mission for a woman of culture than to go through life in the company of a man who is capable of such a research as that which Dr. James McMurdo O'Brien has brought to a successful conclusion."

"He has not spoken to me," murmured the lady.

"Ah, there are signs which are more subtle than speech," said her brother, wagging his head. "But you are pale. Your vasomotor system is excited. Your arterioles have contracted." He scribbled again upon his shirt cuff. "Let me entreat you to compose yourself. I think I hear the carriage. I fancy that you may have a visitor this morning, Ada. You will excuse me now." With a quick glance at the clock he strode off into the hall, and within a few minutes he was rattling in his quiet, well appointed brougham through the brick lined streets of Birchespool.

It not only is so, it must be so, One Minute Cough Cure acts quickly, and that's what makes it go. L. W. Randolph, 143 W. Front St.

It Costs Little and Does Much.

Remark when you attend a play or concert how many people disturb the performance by coughing. One man begins and the cough seems to be contagious. The interruption is a great nuisance, and there is no need of it, for any one may cure a cough with the Pineola Balsam, which costs 25c. It soothes the inflammation in the throat and loosens the mucus which clogs the air passages. A few doses of Ely's Pineola Balsam stop a cough and heal a sore throat.

Manager Chicago Journal.

Col. F. C. Pierce Was Made a Well Man By Paine's Celery Compound.

At the door of every newspaper office might be posted the general order —Rush!

The busiest concerns in the busiest streets are sluggards compared with these newsgathering hives where human fingers and brains are matched to keep up with machinery.

The brunt of this fatiguing mental strain, unavoidable in getting out one of the big city dailies, for example the Chicago Evening Journal, falls on its business manager—in the case of this oldest daily in Illinois, Colonel Frederick C. Pierce.

Colonel Pierce is one of the busiest men in Chicago, a city of early and late workers. Brain workers in every profession will thank Colonel Pierce for the following statement recently made by him:

"For several years I have been troubled with sick headache, caused by constipation; otherwise I have always been in perfect health, and never sick but for two weeks in my life. This sick headache has been very annoying. I have taken a number of different medicines which have been used and recommended by others, but not until I took Paine's celery compound did I find any relief.

"This season I took one bottle and was not troubled with headache for at least six months. Since that time I have kept the medicine in the office and used it occasionally, and have not been troubled with headache since.

"I have recommended it to a number of my friends, who have been benefited as I have. For a person who is disposed to constipation, it is unquestionably one of the best medicines that there is on the market today.

Yours respectfully,
"F. C. PIERCE.

"Business Manager Chicago Evening Journal."

A black cloud is no surer indication of an approaching storm than persistent headaches are of dangerous debility.

There is no one specific that can permanently cure headaches unless it goes to the seat of the trouble. That great nerve and brain restorer, Paine's celery compound, does get rid of them and leaves no chance for their return, because the deep-seated cause—the weakened nervous system at last is supplied with the food it has so sadly felt the need of.

The best physicians in every city in this country prescribe Paine's celery compound, where a rapid building up of the system is imperative. As an invigorator in cases of nervous exhaustion, sleeplessness and a poor state of the blood it is the mainstay of the ablest practitioners throughout the United States.

A mere glance at the faces of weak, nervous, run down persons after they have begun to use this greatest of all remedies shows how rapid is the nourishing effect of Paine's celery compound.

There are thousands upon thousands well today because they used Paine's celery compound.

WHY PEOPLE BACKSLIDE.

Rev. Dr. Lewis Preaches on the Backslider and His Cure.

Rev. Dr. Lewis, of the Seventh-Day Baptist Church, preached a thrilling sermon this morning on the theme. "Why People Backslide," his text being taken from Jeremiah 8:5.

An invitation was given to the members of other churches of the city to attend the service, and in response to this invitation many people from the other churches were present.

Dr. Lewis said in part: My sermon is not great; I did not intend to be, but the truth behind it which is found in the text is great and worthy of consideration.

Why do men backslide? It is because they have wandered far from the presence of God, and have yielded to the influences around them.

There are many evil influences that lie round about us which are very hard not to yield to. People who are saved are apt to fall into a state of evil complacency unless they renew their allegiance to God frequently; they say what is the use of our attending to our religious duties? Does not everybody know that I am a Christian. I say there is just as much need in attending to our religious duties as there is in attending to our business. If we slight our business we fail; just so with our religious duties, if we slight them we fall far short of attaining a place in God's mercy. Our lives must be kept from backsliding by frequent committal.

This is no time for argument upon this subject; there is time only for warning and help. Let us try to save ourselves from backsliding and after that do all in our power to prevent it in others.

BURIAL OF MRS. GEORGE BUTSCHER

A Large Number of Friends Attend the Obsequies This Morning.

Appolona Butscher, the wife of George Butscher, who died on Thursday of this week at her late residence, 451 West Fourth street, was buried from St. Mary's R. C. church this morning at 9:30. The funeral was one of the most largely attended of any that has occured in this city lately. Mrs. Butscher was 55 years of age and was a sister of Mrs. Joseph Maier, of Dunellen, and of Philip Eder, the Bound Brook contractor. There were friends present from New York, Brooklyn, Rahway and other parts of this State.

FRIGHTENED AT A WHEEL.

Then the Horse Ran Away and Collided With a Passing Vehicle.

A runaway occured at Washingtonville Thursday afternoon, that ended with an accident which came near being fatal to a resident of Mt. Bethel. Mr. Stiglitz, of that place, was returning from Plainfield that afternoon in his two-seated gig. A passing bicycle frightened the horse which became unmanageable and ran away. Zeller & White's delivery wagon was coming in the opposite direction, and the runaway crashed into it. Stiglitz's wagon was almost demolished while the owner was thrown violently out The harness of the frightened horse was torn off and the equine ran home. George Mobus, of Washingtonville, took Mr. Stiglitz to the same place. He was stunned and somewhat bruised by the fall, but luckily escaped serious injury.

WHIST.

A whist tournament begins this afternoon in the rooms of the Brooklyn Whist Club which will be continued several suceeding Saturday afternoons All of the principal four-men teams from New York, Brooklyn and New Jersey have entered. Among them is the team from the Park Club of the borough.

A TRUE STORY.

A MIRACULOUS ESCAPE.

Herbert Chamberlain Falls 25 Feet and is Not Injured.

Herbert Chamberlain, lineman for the New York and New Jersey Telephone Company, narrowly escaped fatal injury Saturday afternoon while working at Col. John F. Wilson's home, Tunlaw. He was running a telephone wire through the yard, and in order to pass a certain point with the wire he was obliged to climb an electric light pole. When he neared the top the pole broke at the base, very suddenly. Mr. Chamberlain attempted to save himself by catching the limb of a tree near by. He missed his aim and fell a distance of 25 feet to the ground. Mr. Johnson, the company's inspector, was not far off, and hearing the noise hastened to the place and assisted Mr. Chamberlain to a resting place, and later he was brought to Fire Headquarters in one of Mr. Wilson's carriages, where he was met by Manager Charles W. Runyon, of the telephone company. He placed him in a bath tub, examined him thoroughly, and finding that no bones were broken gave him an alcohol bath. He then sent Mr. Chamberlain home. Aside from a few bruises and scratches it is not thought he is injured. He is able to be out, though he feels very lame. An examination of the pole disclosed the fact that the wood was rotten. In view of this it seems that there are other poles in the same condition and they should be replaced by new ones.

WORK OF THE RIGHT KIND.

The Street Committee of the Borough Deserve Much Credit.

Councilmen Smith, Lounsbury and Schutt, composing the Committee on Streets and Public Health, of the borough, certainly deserve great credit for the work they have accomplished in these departments during the past year. The health of the borough has never been better than at the present time, and every precaution is taken to keep it so.

In regard to the streets and avenues they are in the best of condition, while a big stride has been made in the improvements of sidewalks. During the past twelve months over 9,000 feet of sidewalk has been put down under their direction, and the work is not yet completed. With all these advantages the tax rate remains the same, and the residents of the borough are to be congratulated on having such an excellent body to govern these matters for them. The mayor and the other members of the council also deserve praise for their earnest efforts.

Caught in the Act.

William H. Bohl, the contractor and builder, of Stone street, has of late missed a considerable amount of lumber, which he keeps in an adjoining lot. Saturday morning Mr. Bohl and a friend detected a woman taking the lumber, and she confessed to having removed lumber on previous occasions. Mr. Bohl warned her that if it occurred again he would have her arrested and make her pay for the lumber.

New Sidewalks Laid.

A. C. Lazzi has received the contract for the laying of four hundred feet of blue stone flagging in front of the various pieces of property belonging to Col. John F. Wilson, of Greenbrook road. Mr. Lazzi has about completed the laying of twelve hundred feet of flagging and several crosswalks for William J. Buttfield, at West End.

Convenient for All.

For the convenience of those living in the western section of Plainfield and the borough who are unable on account of the distance, to attend the union meeting at the Crescent Avenue church, a prayer service will be held in the lecture room of Trinity Reformed church, on Wednesday evening at 8 o'clock, to which all are invited.

Funeral Services.

The funeral services over the remains of the two-year and seven-months-old child of Mr. and Mrs. Peter VanHouten, of 533 South Second street, were held this afternoon at 2:30. Interment was in St. Mary's cemetery.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues. T. S. Armstrong, manager.

THREE UNION SERVICES

HELD IN THE FIRST BAPTIST AND TWO PRESBYTERIAN CHURCHES.

Excellent Sermons, Inspiring Music and a Very Large Attendance Make Them a Power for Good—Services for the Week.

The First Baptist church with its large seating capacity was unable to seat all who attended the union revival service last evening, and in consequence many were obliged to stand.

The service opened with prayer by Dr. Yerkes, thereading of the seventh chapter of Matthew by Dr. Lewis, an anthem by the choir and prayer by Rev Herbert Randolph. After the choir had rendered another anthem, Dr. Lewis took charge. His text was taken from Matthew 7:20: "By their fruits ye shall know them." In part, he said: If any person in this audience has come here tonight because they have no other place to go, I would advise them to go home. If you have come here carelessly your service will only be a mockery. If you decided at 7:15 tonight to come because you had nothing interesting to read or because you couldn't find the right sort of a company to play whist, you had better leave at once and go home. "By their fruits ye shall know them." There are two great forces at work tonight, one at the Crescent Avenue church and one here. There are other forces at work that are evil. What I want you to do is to contrast the good and evil and find out where you are bearing fruit. You are with God or against him. What the saloons want represents their fruitage. They call for men and women who have lost their purity and forgotten God. They are calling for the boys and girls. Their is not a saloon that does not bid for the boys and girls. They rejoice in their down fall. There is not an evil influence in this city that does not in some sense hate these meetings. The church wants earnest, noble, pure men and women to undo this evil. I saw two noble young men put on Christ this morning near the place where I am standing. The evil one wants those young men, but we want them too. Young people are needed in our Christian Endeavor and Epworth League societies and our churches. The business world wants good pure men and women, but they don't go to Baxter street for them. It wants sober coachmen who can take home people who are not sober enough to get home. I have drawn these pictures tonight so that you could locate yourself. You can't be excused, in fact, you are already located. The Recording Angel has checked you off during the past two weeks and knows just where you stand. This is a time for great opportunities. Don't think you can escape. Whatsoever you sow, you must reap. Jesus Christ comes to you with something far better than the world can give, and yet you refuse. Oh, the folly and wretchedness of it. May the Lord help you to take the step tonight.

Miss Bessie Blair then sang "What Shall the Harvest Be?" after which Drs. Yerkes and Barnes made a few appropriate remarks. A short after-meeting was held in which several confessed Christ.

Plainfield church unity was very evident at the union meeting of Monroe Avenue and Hope chapels, held at Hope chapel last evening. A soul-stirring song service opened the meeting, led by Rev. G. Kennedy Newell. After the Lord's prayer and a hymn, Rev. Mr. Newell spoke about the excellent beginning of the series of union meetings, and said that the way to increase the attendance was not to find fault with those who did not attend, but ask them kindly to come. James McGee led in prayer and Rev. W. C. O'Donnell read a Scripture selection.

For his sermon that followed, Rev. Mr. O'Donnell took his text from a part of Luke 5:20. "Man, thy sins are forgiven thee," and Luke 5:24. "The Son of Man hath power on Earth to forgive sin." He said in part:

Perhaps some people may think it strange that we hold so many meetings, but with such a Gospel as this, it is not a wonder we do not hold more. There is not any nobler work of God than man. A man is never a complete man until he has taken Jesus Christ as his ideal, and has approached as near that ideal as possible. What is a complete man? A Christian, perfect in all ways. There are people whose souls are blacker than Egyptian midnight that would be insulted if you said they were not men. They are not men! We preach to you so that you may become men and women.

Christ's statement was direct. It has been a weaknes in Christian people that they are too general in their statements. Christ places first the spiritual nature of man. The soul is the first thing to be taken care of. You have a soul, how is it today? You don't have to wait until tomorrow, you can tell now. We don't want you to have religion to die by but to live by. Christ is the only one that can forgive sin. We have broken all His laws, He says he will forgive us if we ask Him. We are here to influence others to turn from sin. If we can only save one poor soul. let us do it, no matter if others do call us undignified. He ended with an earnest appeal to all to take Jesus as their Saviour and an impressive period of prayer and testimony closed the meeting.

This evening and Thursday evening, the meetings will be at Monroe Avenue chapel, and tomorrow and Friday at Hope chapel. The regular prayer meetings will be held Wednesday evening. Rev. G. K Newell preaches tonight.

The union service held in the Crescent Avenue Presbyterian church last night was very largely attended, and was one of the most solemn and impressive that have been held during this period of special interest.

The choir sang a beautiful arrangement of the hymn "Art Thou Weary, Art Thou Languid," after which there was Scripture reading and prayer by Rev. C. L. Goodrich. The sermon was by Rev. Cornelius Schenck, on the story of the prodigal son, from the text Luke 15:18—"I Will Arise and Go to My Father."

When the prodigal son said that, Mr. Schenck began, the victory was practically won. What followed was the natural consequence of his determination. There are certain experiences which in almost every case precede the determination of a soul to return to its Father, and this story outlines the steps which are usually taken by the soul. First, there is the wandering from the Father's house. We have all wandered from God; we have all sinned, and come short of the glory of God; there is no exception. We may not have taken the same course, or traveled in the same vehicles, but there has been a general centrifugal movement away from God. Our wickedness may have been of the refined sort, of the Chesterfield type, but very likely we are further away from God than some of those whom we tonight look down upon and despise. We have wasted our substance; we are wasting it tonight, unless we have given ourselves to God in loving obedience. Perhaps we have given precedence in our thoughts to business and pleasure, and pushed aside those things which are of immortal importance to every child of God.

We have said to our souls, "Wait, the affairs of this life must be attended to first." We have said to the Lord Jesus, "Wait, just wait, till a more convenient season, when I will call for You."

A realistic sense of sin must precede the return to the Father. The prodigal knew that he was in want. Do you know that you have come short of the glory of God? You must know it. The Spirit of God is here tonight, convicting you of sin. Your want can be satisfied, your craving for love and sympathy stilled, by the presence of the loving Saviour. Perhaps you have imagined God as awful, severe; you have seen Him through the distorted medium of your own sinfulness. You will find Him gracious, kind, and loving when you turn to Him. His face has been toward you all the while; it is only you who have turned your back.

If you know that you have sinned, just arise, and go to your Father. Say, "I will." Destiny hangs upon that little hinge of your will. Whether the door shall swing in, and admit you to joy and light, or whether it shall swing out, and shut you into loneliness and outer darkness, depends upon yourself. Will you, or won't you? Jesus comes to you tonight with the entreaty to receive Him as your Saviour. Why not settle it now, by an active, absolute choice of Christ? It is a little thing, yet a tremendous thing to do, simply to arise and go to God. Will you accept Christ?

The bass solo which followed the sermon echoed the same appeal: "Step over the line; why wilt thou remain with a step between you and Jesus?"

The service was closed by the benediction, pronounced by Rev. Cornelius Schenck, but an after-meeting of prayer was held in the chapel.

Rains Cause Cave-in.

The severe rains of Friday caused a cave-in of the sewer trench on Woodland avenue near the residence of W. A. Lord. Street Commissioner Meeker was at once notified and the cavein repaired before any accidents to passing teams happened.

"AN EASY COMPANY DINNER."

Miss Bedford Continues Her Interesting Lectures on Cookery.

The subject of Miss Bedford's third lecture on Cookery given in the Y. M. C. A. building Saturday afternoon was "An Easy Company Dinner," and to those who are perplexed oftentimes as to what to do when company unexpectedly arrives, it was a treat. The menu included celery soup, string beans, delicate pudding and several other dishes. They were cooked by Miss Bedford in the presence of the women and her explanations were very interesting. Those present were given an opportunity of tasting each dish, and all were agreed that the cooking could not be improved upon. This afternoon the subject will be "Left Overs." If a sufficient number of women desire lectures on chafing dish work and pastry they will be given tomorrow and Wednesday mornings. It is absolutely necessary, however, that those desiring them leave their names at the Y. M. C. A. The morning lectures will commence at 10 o'clock, if given.

SETTLED WITH FISTS.

Two Young Men Tried to Decide a Quarrel When the Police Appeared.

There was a quarrel in the borough Saturday night between two young men and they decided to settle matters on the outskirts of town. Accompanied by a crowd of friends they walked out to Farragut avenue and East Front street and the fight began. Residents in the vicinity heard the noise and notified the police. Officers Frederickson and Cooney immediately started for the scene of the fracas. Officer Saunders was there first, however, and captured Thomas Fahey, who was looking on. The other officers made three of the crowd prisoners, but before they could capture any more the rest ran away. The names of the participants in the fight could not be learned and all of the prisoners when arraigned before City Judge DeMeza, in the city court this morning, claimed that they were simply spectators. The Judge, however, gave each man his choice between a fine of $3 or ten days at Elizabeth. The other three that were arrested gave their names as Thomas Scully, John Coster and Charles Williams.

SKIPPED WITH $33.

Wm. Dalton Absconds With His Employer's Cash.

Wm. Dalton, who has lately been in the employ of Mrs. James Burke, of Plainfield avenue, as a hay carter, was sent with a load of hay to sell at Newark, Friday, sold the hay, brought the horses as far as Fanwood, stabled them there, and then skipped out with the money he had received for the hay, $33 in all. Mrs. Burke's son James went for the horses and he had to pay $2.50 for their board. This is only one of Dalton's various number of petty thefts.

The Organized Aid Association.

As the work of this Association is frequently misunderstood, attention is called to Article II, Section 2, of the constitution, which reads: "The Association shall not directly dispense alms in any form." The objects of the Association are as follows:—

To be a centre of intercommunication between the various public, private and individual charities in the city. To foster co-operation between them, and to check the evils of the overlapping of relief. To investigate cases which call for relief and to advise relief societies and individuals of the result of such investigation. To study the best methods of providing work for the unemployed, and to obtain for the worthy unemployed assistance from benevolent individuals, societies, churches, etc.

To discover frauds and impostors, who live by begging and to aid in framing laws to stamp out professional begging.

Sunday Afternoon Meeting.

Rev. Dr. Lowry made a very interesting address to a large audience of men at the Y. M. C. A. meeting yesterday afternoon. Miss Bessie Blair's solo was sung in her usual acceptable manner and was enjoyed by all.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

A FORCED MARRIAGE.

NOW MRS. BOATE, OF TERRILL ROAD, IS TRYING TO SECURE A DIVORCE.

Mr. Boate Fell in Love with Her, Compelled Her to Marry Him, and Now He Refuses to Support Her.

The initiatory step in what promises to be one of the most interesting divorce cases on record, has just been taken. The case is that of Mrs. Anna Boate, recently of Terrill road, against Thomas W. Boate, of Ocean Grove, for divorce, on the grounds of non-support, cruelty and desertion. On motion of Mrs. Boate's lawyer, W. K. McClure, testimony was taken in the case Jan. 17th, before Justice Nash. Mr. Boate was represented by his lawyer from Ocean Grove. A Daily Press reporter interviewed Mrs. Boate in relation to the case and found that she was very free to talk. She said that while living in Ocean Grove in 1889, for her health, she met Mr. Boate's sister and through her became acquainted with Mr. Boate. He became infatuated, and after he returned to Philadelphia, where he was then working, he repeatedly wrote love letters to her. Miss Anna St. LaMade, that being her maiden name, paid little attention to them until she received one that was very insulting.

She showed the letter to a friend, who advised her to demand an apology. Accordingly she went to Philadelphia on March 8th, 1889, and met Mr. Boate. He apologized for what he had written, and she thinking everything was satisfactory started for the train to return to Ocean Grove. He offered to accompany her to the depot, and while on the way he stopped her and demanded that she marry him. If she refused, he said, he would have her arrested. To prevent any disturbance she went with him to Camden where they were married. That night she returned to Ocean Grove, packed her trunk and went to New York where she remained for awhile. Mrs. Boate says that he has never supported her, and she was compelled to work for her living. A residence was leased in Philadelphia already furnished, she purchasing the furniture. While out one day he sold my furniture, she continued, and compelled me to go to Ocean Grove and live with his mother.

His cruel treatment and neglect forced me to leave him. Since then I have heard nothing from him until last spring, when Mr. Boate's mother came to my place and said that if I would pay for the balance of the furniture which he had sold, and the cost of the divorce proceedings he would be willing to grant the divorce My lawyer informed me that I could not obtain a divorce on those grounds, and I sent word to Mr. Boate asking him what he was going to do. He replied that he never intended granting me a divorce unless I wound give him $10,000. Otherwise he would compel me to live with him. My lawyer advised me to go to Fargo, North Dakota, and apply to the court for a divorce. Tomorrow I leave for that place and will attempt to secure a divorce from my husband. Mrs. Boate has been residing in her house on Terrill road for sometime. Mr. Boate is a prominent baker in Ocean Grove and is well known both there and in Philadelphia.

Two Excellent Sermons.

Rev. Samuel Studdiford, D. D., of Trenton, who was pastor of the First Presbyterian church of this city in 1860, exchanged pulpits with Rev. C. E. Herring, yesterday morning and evening, and delighted many of his old friends and admirers with two most excellent sermons. At the evening service his discourse was founded on the text, "But if our Gospel be hid, it is hid to them that are lost," Second Corinithians 4:3, and was an encellent discourse.

Pepard Released on Bail.

Thomas Pepard, the man who was arrested last week charged with stealing L. G. Timpson's wheel last November and then selling it to J. F. Buckle, was given a hearing before Justice Nash Saturday evening. Pepard was held in $200 bail to await the action of the Grand Jury. J. J. Kenney went bail for him.

Forgot To Pay His Fine.

The police don't forget, and David McLerned learned that fact Saturday night. He was arrested some time ago and fined, but was given a chance to earn the fine. Neither McLerned nor the money appeared until Saturday, and then McLerned was arrested. His father paid the fine, however, and he was allowed to depart.

—Theo. Gray received the contract on Saturday for the mason work on the new house to be built by Jacob Cose on Grant avenue.

MOLLIE STEVENS BACK AGAIN.

She Has to Answer for One of Her Old Offences.

About a year ago, one of the most prominent characters to figure in the city court was Mollie Stevens. She was constantly getting into trouble which had to be settled in court. Her last escapade in this neighborhood was at Roselle. In company with two men and a woman, Mollie went into a saloon and finally started to clean it out. The constable appeared and arrested and handcuffed the women. The men showed fight and did up the officer of the law, while the female revellers ran away with the handcuffs on.

Mollie went to New York after that, and Plainfield was bothered no more. Yesterday morning she appeared in town and the police, remembering the Roselle incident, promptly arrested her. She was arraigned before Justice of the Peace Newcorn who gave Mollie her choice between a fine of $15 or twenty days in jail. Some of her friends paid the fine last evening and Mollie is free again.

WELLS RUNNING DRY.

Water Scarce in Plainfield Wells, and Scotch Plains Wells Dusty.

An unusual dearth of water is noticeable in this city and surrounding towns at the present time, although the recent heavy rainfall has improved the situation wonderfully. Many wells about town that have never been known to run dry are now useless, and those depending upon their supply have been forced to put in city water.

At Scotch Plains, water is being carried by some people for a quarter of a mile and more, while one or two residents have made a regular business of furnishing water to those whose wells have been drained dry. The question arises as to the cause of the unusual absence of water from localities long accustomed to a certain and bountiful supply. Can it be possible that the report of an immense quantity of pure water underneath Plainfield is a myth and that the city's best natural product is being gradually used up, and for the benefit of other towns less fortunate?

Ancient Scotch Plains.

The Mail and Express of Saturday has an interesting article on "Ancient Scotch Plains," signed "Prescott." We guess his other name is David, and as an Englishman would say, "That is hall there is about it." A pleasant description of the quaint old place is followed by mention of some of its famous residents; a loving tribute to Rev. Charles L. Sykes, according to the writer, "One of the best Christian gentlemen I ever knew;" Honorable mention of Charles Kyte, Esq., and family and a history of the public library and its needs.

Thrown from a Moving Train.

There was a narrow escape for a brakeman on the Jersey Central Railroad last evening. Austin Brown, of Glen Gardner, was standing on a box car of a freight train passing by the tanks, near Dunellen. He either lost his balance or some irregularity in the roadbed threw him from the car and he struck on his back. He was taken to Muhlenberg Hospital. He was injured in the back, the extent of which is not yet known. The only wonder is that he was not killed.

Change in Date of Prof. Riggs' Lecture.

The committee in charge of the series of lectures being delivered by Professor Riggs on the Eastern Question beg to announce that owing to the fact that religious services are to be held in the Crescent Avenue church this week, the next lecture of the course will be delivered on Tuesday, February 4th, at the chapel of that church instead of Tuesday, January 28th.

Plainfield's Morning Circus.

To the uninitiated observer at the North Avenue station, this morning, the 7:53 train appeared to be the last one to New York. The train was on time and the commuters ran and tumbled over each other in their efforts to catch it. Several fell, but luckily did not fall under the train.

A Daring Robbery.

A bold sneak thief stole a cash box containing about $17 out of a drawer in the office desk of Dr. O. L. Jenkins a few days ago.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

KAISER AND BISMARCK

Not in Harmony on Germany's Foreign Policy.

The Old ex-Chancellor Disapproves of the Young Rulers Interference in Matters Not Directly Concerning the Fatherland—Other News of General Interest from Berlin.

Berlin, Jan. 27.—Three times within the past week rumors were in circulation in Berlin that Prince Bismarck was dead. These reports had the effect to cause a rush of inquiries to Friedrichsruhe to learn the truth. Among the large number of visitors whom the prince received personally and with such courtesy and activity of movement as to dispel the last vestige of anxiety concerning his health was an old and intimate friend and coworker in the political arena, who has given to the United Press the substance of an interesting conversation he had with the ex-chancellor, which serves to correct certain impressions upon the public mind in regard to Prince Bismarck's relations with the kaiser. Not once since his resignation of the office of chancellor, Prince Bismarck said to his friend, has the emperor spoken to him upon the subject of politics, except upon the memorable occasion of the kaiser's visit to Friederichsruhe on March 23 last, when his majesty came to the ex-chancellor's residence with General Count von Waldersee. The emperor was at the time very angry about the vote in the Reichstag refusing to pay the united respects of that body to the prince upon the occasion of his birthday.

Emperor's Action Disapproved.

Prince Bismarck admitted to his friend that he was well able to go to Berlin on January 18, when the twenty-fifth anniversary of the founding of the empire was celebrated, but he said he did not go because he emphatically declined to lend his name as a flag for the present course of politics which is being directed by the kaiser upon lines which the ex-chancellor regards as radically wrong and of which he profoundly disapproves. It was a move of rare cleverness on the part of the emperor, the prince said, to make a spontaneous call at Friedrichsruhe recently, thereby creating at home and abroad the impression that the imperial policy had the full approval of Prince Bismarck or at least his tacit assent. Nothing of the kind was true, however. The recent moves of the kaiser, he said, were grave mistakes. Germany had no business whatever to meddle in foreign complications unless German interests were directly menaced or assailed. If the powers have grouped themselves definitely either for or against certain causes, what of it. Germany has still time to decide to what extent her interests are involved.

The Kaiser Is the Boss.

The rash actions which the emperor has sometimes indulged in, the United Press' informant said, must be credited to the fact that the kaiser's state of health is not always normal. His irritability caused by frequent violent headaches had quite often accounted for a quick word or deed on his part. It may be added, too, that he sleeps very little, in fact not at all sufficiently to enable him to maintain his health. The present government of Germany is deprived of all initiative in the management or direction of politics. The emperor directs everything personally, and his ministers and secretaries of state are merely his executive officials. Among his many irresponsible counsellors it is always the last one having the ear of the kaiser who is charged to see that the ideas of the emperor are carried out.

German-Americans.

A case affecting Germans becoming American citizens has just been decided by the supreme court of the empire in Liepsic. F. W. Boehme, a druggist in Brooklyn, N. Y., and a native of of Liepsic, was sentenced to pay a fine of 200 marks for emigrating to a foreign country without having fulfilled his term of military service. He appealed through his father from the decision of the court. The supreme court in rendering its decision upon the appeal finds that Boehme as a duly naturalized citizen of the United States could not be punished for any act committed prior to his emigration. The court therefore reversed the decision of the lower tribunal. If Boehme had left the country to escape military service the judgment of the supreme court would have been different.

American Race Horses.

The American trotting horse owner and sportsman A. H. Welch of Hartford, Conn., has nominated Minnie D. and Algeric Queen for the spring two-in-hand trotting race on the Berlin course. Agents of the New York manufacturers of a lightning stamping machine have exhibited to the German postoffice authorities a machine capable of stamping 500,000 letters an hour. It does not appear that they have induced the postal officials to adopt the machine, however, as the latter still prefer to continue the present practice of stamping each letter by hand.

Valuable Acquisition.

Hans Premier, manager of Flinsch's paper mills at Berlin, has absconded to America with 30,000 marks of his employer's money. Besides his defalcation he was a leading witness against Baron von Hammerstein, the absconding ex-editor of the Freuz Zeitung, who was recently arrested in Athens by a commissary of the German police. It is suggested that Hammerstein will now take advantage of Premier's absence to blame him for the forgeries of which Hammerstein is accused.

THEO. RUNYON DEAD

Our Ambassador To Germany Dies Suddenly.

Passed Away Yesterday in Berlin of Heart Disease—He Had Been Slightly Ill, But Nothing Was Thought of It By Either His Family or Himself.

Berlin, Jan. 27.—The Hon. Theodore Runyon, the American ambassador here, died of heart failure at 1 o'clock yesterday morning. While he had been complaining for some time as not feeling in the best of health, nothing was thought of the matter by either his family or himself.

Mr. Runyon's Career.

The Hon. Theodore Runyon was born at Somerville, N. J., October 25, 1822. He graduated from Yale college in 1842, and in 1846 was admitted to the bar. In 1853 he was made city attorney, and in 1856 city counsellor of Newark, N. J., a position retained until in 1854 he became mayor of the city. He was appointed in 1856 a commissioner to revise and codify the militia laws of New Jersey, and in 1857 was made brigadier general and subsequently major-general of the New Jersey national guard. At the outbreak of the civil war he was placed in command of the New Jersey brigade of volunteers. In 1865 he was democratic candidate for governor of his state, but was not elected. From 1875 to 1887 he was chancellor of New Jersey. In March, 1893, he was appointed by President Cleveland American minister to Germany, and shortly afterwards was made ambassador. The degree of LL. D. was conferred upon him by Yale, Rutgers and Wesleyan colleges.

The News in Washington.

Washington, Jan. 27.—The sudden death in Berlin of the American ambassador Theodore Runyon last night, was communicated to the president by the United Press. Beyond that information the government had not been advised of the startling news. Its occurrence at so late an hour of the night of course prevented the possibility of anything like general circulation. The president and the state department received official notice this morning and action that is necessary will be taken promptly.

MURDERED AND ROBBED.

Fate of an Old Woman Who Had No Faith in Banks.

Oxford, Pa., Jan. 27.—Mrs. Mattie Porter, aged 80 years, was found dead with three bullets in her head late yesterday afternoon. The body was lying on a bed. The neck of her dress in which she hid money was cut off. Mrs. Porter had lived alone for years on a farm about five miles from Oxford. She had no faith in banks and carried large sums of money on her person.

Attempted To Poison Her Husband.

Erie, Pa., Jan. 27.—A sensation occurred yesterday afternoon at Girard, this county, when Mary H. Nellis was arrested for poisoning with intent to kill her husband, Peter H. Nellis, proprietor of the Nellis house, and Edward Gardner was arrested as an accomplice. The prisoners were brought here last night and lodged in jail.

Died in a Poor House.

Memphis, Tenn., Jan. 27.—Benjamin Folger, a nephew of the late Charles Folger, who was secretary of the treasury under Arthur's administration died in the poor house here Saturday, aged 60 years. Benjamin Folger was at one time one of the most prominent bankers and financiers in the country.

Work of Incendiaries.

Lancaster, Pa., Jan. 27.—Another incendiary fire broke out last evening in the cellar of the furniture store of Keiper & Rertzler, on North Queen street. The stock was badly damaged. The loss will reach $10,000; insured. The art store of Zicholtz & Bowman, adjoining, was also damaged.

Jumped to Her Death.

New York, Jan. 27.—Hannah Moylan, 29 years old, who had come to this city from Brookline, Mass., to sail on Wednesday for Ireland, killed herself late yesterday afternoon by jumping from a fourth story window of the St. Denis hotel at Broadway and Eleventh street.

Nearly Swamped by a Tidal Wave.

Philadelphia, Jan. 27.—The British steamer Ailsawald, which arrived here yesterday from Hamburg with a general cargo of merchandise, was nearly swamped last Friday afternoon off the George's shoal by a tidal wave.

Pierre Gustave Brunet Dead.

Paris, Jan. 27.—A dispatch from Bordeaux announces the death in that city of Pierre Gustave Brunet, distingished French litterateur. He was born in Bordeaux, Nov. 18, 1807. His works are very numerous.

For Abducting Young Girls.

Albany, Jan. 27.—Casper Leake was arrested at Gloversville yesterday on the charge of abducting young girls to his house. He gave bail for examination.

Another Cuban War Loan.

London, Jan. 27.—The Standard publishes a dispatch from Madrid saying that the Bank of Spain has advanced another 50,000,000 pesetas to the Cuban treasury.

VICTORY FOR YANKEE BOAT.

Ocean Race from Caleta Buena, Chili, to New York.

New York, Jan. 27.—A long distance race between the British ship Allerton and the Yankee packet Willie Rosenfeld was ended when the Rosenfeld dropped anchor in Quarantine yesterday. Both vessels are from Caleta Buena on the Chilian coast with cargoes of nitrate of soda. The Allerton left port seventeen days ahead of the Rosenfeld, but was towed into this harbor nearly twelve hours after her. As the Allerton slowly passed the anchored Rosenfeld the crew of the former sprang into the rigging and gave three hearty British cheers for their successful rivals. The Rosenfeld's men were not slow to respond, and there came floating across the mile of intervening water such a ringing "hip, hip, hurrah" as did credit to the brassy throats of the Yankee tars. Both vessels had a hard time of it from Cape Hatteras to port and were caught in the strong easterly gale which prevailed along the coast last Thursday night, but neither ship sustained any damage. When off Cape Horn the Willie Rosenfeld encountered much ice, more bergs than Capt. Dunphy could count being in sight at one time. The captain was afraid he would collide with the ice during the night and, putting his ship about, ran for clear water. The next day the Cape was rounded, but immense icebergs were seen at intervals until the Falkland islands were passed. The Allerton reports sighting one huge berg, half a mile long and 150 feet high on November, 20.

THE WAR IN ABYSSINIA.

Peace Not Expected Without a Battle with King Menelik.

Rome, Jan. 27.—A dispatch from Massowah says that a messenger has arrived at the camp of Gen. Baratieri, the commander of the Italian forces, bringing letters from Menelik, king of the Abyssinians, to King Humbert and Gen. Baratieri. Col. Galliano, the commander of the Italian forces who were recently compelled to evacuate the town of Makelle after a long siege by the Abyssinians, has not yet arrived at Gen. Baratieri's camp. It is reported that Col. Galliano exploded the magazine and blew up the fortress at Makelle upon leaving the town. It is reported that the Abyssinan chiefs are angry at the release of the garrison by King Menelik, as they believe they would have eventually forced the Italians to surrender unconditionally. It is said that the Abyssinian army is disposed to march on Axum, in the state of Tigre. King Humbert has signed a decree declaring the province of Erythrea to be in a state of war. It is not expected that peace can be arranged with King Menelik without giving him battle. The dispatch to Massowah of reinforcements, munitions, cannon and shells continues.

TO TAX CHURCH PROPERTY.

A Big Legal Fight Against Roman Catholics in Cincinnati.

Cincinnati, Jan. 27.—A legal fight which will attract the attention of Roman Catholics the world over will be instituted this week. Attorneys Stephens, Lincoln and Smith, who represent this diocese, have been notified to appear before the county auditor to hear an application on behalf of some persons whose identity is not at present established, for the placing on the tax duplicate of all the property in this county owned by the Roman Catholic church and not used as a place of worship. Auditor Hagerty will refuse, as he did privately some time ago, and a suit in mandamus will be filed against him in the supreme court. The property in question is valued at $1,000,009 and an effort will be made to have charges for the last six years on an increased valuation of $6,000,000. The contract for doing this work was signed late Friday afternoon. The move is said to originate with the A. P. A.

UNITED STATES HONORED.

Bogota Residents Gratified Over Cleveland's Venezuelan Message.

Colon, Jan. 27.—Tranquility has been restored in the province of Barranquilla and the state of siege proclaimed there a few days ago has been raised. At a banquet given in Bogota to the American and Venezuelan ministers the former declared that President Cleveland's message to the American congress on the Monroe doctrine as applied to the Anglo-Venezuelan boundary dispute voiced the sentiment of 70,000,000 freemen. The banquet was made the occasion for a great public demonstration in honor of the United States.

Philip Ripley Dead.

New York, Jan. 27.—Philip Ripley, at one time possibly one of the most widely known newspaper men in this country, died shortly before midnight Saturday night at Bellevue hospital of Bright's disease. He was 69 years old, and was born in Hartford, Conn.

Skating Race.

St. Paul, Minn., Jan. 27.—The one-mile skating race at Aurora park Saturday afternoon for the championship of Minnesota was won by Harley Davidson, in 2:27 4-5, with McDaniels second and Sudheimer third.

THE WEEK IN CONGRESS

Forecast of the Work Before Both Houses.

Bond Bill To Be Disposed of by the Senate This Week—Jones Confident That the Free Coinage Bill Will Be Adopted—The Tariff Measure—House of Representatives.

Washington, Jan. 27.—The week beginning to-day ends the second month this congress has been in session. Despite the fact that there has been no holiday recess but little has been accomplished, owing largely to the consideration in the senate of the substitute to the house bond bill. Although this measure was speedily disposed of in the house it has been the unfinished business of the senate for several weeks. The end however is in sight, for on Friday last Mr. Jones of Arkansas, in charge of the bill, gave notice that he would ask the senate to remain in session Thursday next until the bill was disposed of. It is hardly likely that a vote will be reached on that day as a number of senators have expressed their intention of speaking to the pending substitute and the time is too short, after the morning business of each day has been attended to, to permit of the delivery of speeches. It, is probable, however, that before the week is out the vote will have been taken and the free coinage substitute adopted by the senate. There can be little doubt as to how the vote will result. Mr. Jones has steadfastly refused to agree to the time for a vote until after the election of the two new senators from Utah. They are due to reach this city to-day and as soon as their election has been announced Mr. Jones will give notice to the senate of his desire to reach a vote this week. Mr. Jones asserts positively that the free coinage substitute will be adopted and he places the majority at between five and eight votes.

Monroe Resolution.

Incidentally during the week there will be more or less of discussion on the Monroe resolution reported by the committee on foreign relations. Mr. Thurston of Nebraska, one of the new senators, but a man well known in national politics has given notice that he will address the senate on these resolutions and a speech of some force is expected from the Nebraska senator. Quite an array of talent has been secured for the discussion of the silver bill this week, and if all the gentlemen who have signified their intention are prepared to speak promptly there need be no lagging in the debate. Senator Knute Nelson of Minnesota will address the senate to-day. Mr. Tillman will take the floor, according to his present expectations, to-morrow. It will be his maiden speech in the senate and the reputation of the man at home is such as to lead to great expectations from him in the senate. Other speakers of the week will be Senator Voorhees, ex-chairman of the finance committee, who, it is said, will take Senator Sherman to task for his attitude on the financial question, and pay his respects to the recent bond syndicate. Mr. Cockrell of Missouri, Mr. Mitchell of Oregon, Mr. Bacon of Georgia, Mr. Hansbrough, and possibly Mr. Hill of New York, will also speak on the money question.

The Tariff Measure.

Immediately after the silver bill is out of the way the tariff measure passed by the house will be reported to the senate and that will take precedence as the unfinished business. It is not known whether this will be favorably or adversely reported. All depends upon the vote of Mr. Jones of Nevada. He has not yet given his final answer on the subject. If it should be unfavorably reported the republicans will have it placed on the calendar and they claim to have enough votes to call it up and give it the right of way. They also claim to have a sufficient number of votes to pass it when the time for taking the vote shall arrive. Both the Utah senators, although acknowledged as silver men, are both said to be favorable to the republican policy of protection, and will vote for the measure agreed upon by that party in its recent caucus. The financial question is not expected to be effectually disposed of by the vote on the free coinage substitute. It can be as easily discussed on a tariff bill and while the bond substitute may be the last effort to pass a free silver bill through congress, it will hardly be the end of the discussion of the subject. There is a disposition to take hold of the appropriation bills as soon as possible and for that reason the tariff measure will be debated by those in its favor as little as possible. Already leaders are beginning to figure on an early adjournment in the hope that the congress can get away before the presidential campaign is fairly on.

House of Representatives.

The time of the house this week will be largely occupied in the consideration of appropriation bills. The diplomatic and consular bill is ready to be reported. Debate upon it may begin immediately. Under the rules to-day is assigned to the District of Columbia, but the committee on affairs of the district has placed before the house only two unimportant measures relating to the study and practice of medicine. The diplomatic and consular bill will probably be good for several days debate, and when it is disposed of the District of Columbia appropriation bill will be ready for report to the house. The committee on elections, particularly committee No. 2 of which Mr. Johnson, rep., Ind., is chairman, will be prepared with reports on one or two of the contests referred to to-day in case the house should lack occupation.

INSURGENTS BURN A TRAIN.

Passengers Ordered To Alight and Make the Journey on Foot.

Havana, Jan. 27.—The insurgents, despite the government's asseverations to the contrary, appear to be doing just about as they please in the neighborhood of Havana. Yesterday afternoon a band of rebels stopped a train that was running between Guanajay and this city. They ordered the passengers, who were in a state bordering on panic, to leave the train, which was obeyed with alacrity. The passengers feared that they would be maltreated by the insurgents, but their fears were groundless, as the rebel leader courteously informed them that they would not be harmed, nor would their personal effects be molested. They would, however, he added, have to pursue their journey on foot as it was his intention to destroy the train. He then gave orders for the torch to be applied to the cars, and soon nothing was left save the ironwork. The train was captured about a mile from San Antonio, to which place the passengers walked and informed the authorities of what had occurred. Troops were immediately dispatched to the scene, but when they arrived the rebels had disappeared.

MRS. HOLTON MOODY DEAD.

She Was the Mother of Evangelist D. L. Moody.

Northfield, Mass., Jan. 27.—Mrs. Betsey Holton Moody, widow of Edwin Moody of Northfield, Mass., and mother of evangelist D. L. Moody, died yesterday. She had suffered from a cold for a week and on Saturday morning she took to her bed. The doctor who was called said she had an attack of the grip. All of her family were with her except one daughter who resides in Wisconsin. The funeral will be held in the Congregational church on Wednesday. Mrs. Moody was in her 91st year, and is survived by four sons—Isaiah, George, Dwight and Edwin—all residing in Northfield, and two daughters—Mrs. Cornelia Walker of Northfield and Mrs. Lizzie Washburne of Racine, Wis.

AMERICANS ALARMED.

Residents at Pretoria Want a Diplomatic Agent from Washington.

London, Jan. 27.—The Times to-day publishes a dispatch from Pretoria, capital of the south African republic, saying that a meeting of Americans was held Saturday at which it was decided to cable to Secretary of State Olney requesting, in view of the arrest of American citizens and the fact that their property is in danger, that a diplomatic agent be sent to the Transvaal to protect their interests. The Americans are friendly towards the Transvaal government, but they desire that their grievance be redressed.

New York Legislature.

Albany, Jan. 27.—Speaker Fish sounded the keynote for an early adjournment of the legislature when on Friday last he called the chairmen of the various committees of the house together, and urged them to act as soon as possible upon the hundreds of local bills which, during preceding years were left until the last days of the session and were lost in the closing rush of the legislature.

More Trouble for Venezuela.

London, Jan. 27.—The Standard's Berlin correspondent telegraphs confirming the report that the German minister at Caracas has delivered to the Venezuelan government a note demanding on behalf of German capitalists and shareholders in the Venezuelan Railway company payment for the construction of the railway.

To Aid Irish Prisoners.

New York, Jan. 27.—At a meeting of the municipal council of the Irish national alliance held at Cody's hall last night resolutions were adopted pledging the support of the alliance, both moral and material, to the movement in favor of the Irish prisoners, and promising assistance to their suffering families.

Going Out of Business.

San Francisco, Jan. 27.—After the arrival of the steamer Washtenaw, the Panama steamship company will go out of business. Since Dec. 15 the company's employes have been chiefly engaged in winding up the operations, and leases on the other steamers of the line have been relinquished.

To Take the St. Paul's Place.

Philadelphia, Jan. 27.—The St. Louis, a sister ship of the St. Paul, left Cramp's shipyard at 7 o'clock this morning for New York and will take the St. Paul's place for the present on the American line.

THE STRANDED ST. PAUL

Crowds at Long Branch View the Unlucky Ship.

Wreckers Succeed in Hauling Her a Number of Feet to Seaward—Denied That She Was Racing with the Campania—The Big Steamer's Bottom Not Damaged.

Long Branch, N. J., Jan. 27.—Ten thousand visitors from the numerous resorts north and south of this place as well as from New York, Philadelphia and the larger Jersey towns flocked here all day Sunday and repaired to the beach to watch the efforts made to pull the steamer St. Paul, the famous ocean greyhound, over the bar into deep water. The ship was moved 170 feet seaward, but the flood tide was not of sufficient duration to enable the crews of the steamer and the wrecking companies to haul her into water deep enough to float. There were fifty powerful tugs opposite the St. Paul ready to render assistance, but they were not utilized. Six immense hedge anchors were planted in the sea about 1,000 yards from the stranded vessel. Fastened to the hedges were several steel hawsers which were connected with the powerful capstan on the stern of the ship. This capstan was rotated by steam power furnished by the steamer's boilers and engines. Everything in readiness for the haul, the engines were started. The hawsers tightened, the capstan creaked and inch by inch the big St. Paul was pulled seaward. When the tide turned to the ebb the boat had been moved nearly one-third of her length and placed in a more advantageous position, and at low tide she was only six feet in the sand and in eleven feet of water. The strain on the hawsers was kept up moderately during the day in order to keep the ship from moving toward the beach. No attempt was made to float her while the afternoon tide was at the flood. Those in charge predict that this afternoon's high tide will be higher than that of yesterday, and with favorable conditions they expect to complete the work begun so auspiciously Saturday.

Surf Boats Busy.

The sea was almost as quiet as the proverbial mill pond all last night, and this state of affairs caused the life saving crews to remove from the ship the line thrown to her when she stranded, which was used to run the breeches buoy to and from the liner. Scores of surf boats, manned by the hardy fishermen of Long Branch and Seabright, have been launched, and the professional fishermen are raking in money hand over fist conveying curiosity seekers through the surf to the sides of the vessel. By order of Capt. Jamison, however, no one, no matter what his position is, is allowed to ascend the ladder leading up to the deck, except the custom house officers and those officially connected with the ship. Clement A. Griscom, senior and junior, of Philadelphia, president and manager, respectively, of the International Navigation company; William Cramp, a member of the firm that built the St. Paul; Marine Superintendent Shockford and other high official of the American line visited the unlucky ship and spent hours in consultation with Capt. Jamison and his staff.

Deny the Story of a Race.

Officers of the St. Paul strongly deny that the St. Paul was engaged in a race with the Campania prior to the accident. This story is not generally believed, as Captain Mulligan of Life Saving Station No. 4, who was the first to board the ship in the breeches buoy on Saturday, states that the first question put to him by the passengers when he stepped foot on the deck was: "Where is the Campania?" All the passengers of the St. Paul were taken to New York in tugs, but the entire crew, numbering 400, including many women, remain on board and have not come ashore since the St. Paul struck. The steamer carries a cargo of fruits, nuts, gold and general merchandise.

The Big Vessel Not Injured.

The officers of the St. Paul also deny the report that the vessel was injured when she struck. They say there is no water in her hold and her plates are just as intact as they were the day she was launched. The dirty water seen pouring out of the holes in her side comes, they say, from the condensers. One of the novel features of the accident was the rigging of a telephone on board the boat to connect with the shore. The wire runs from Ocean avenue to the smoking room. It is kept slack to allow for any anticipated rolling. The shore end is connected with the local telephone system and by this means the ship's officers are able to communicate with their agents in the city. The scene on Ocean avenue in front of the beached steamer yesterday resembled a county fair; improvised lunch rooms, cigar stands and traveling "speak-easys" furnished food and drink to the multitude. On the portico of one of the big summer hotels, now closed, was a large sign reading: "seats to let," and the enterprising man in charge reaped a harvest of sheckels. The local railroad from Asbury Park to Long Branch carried thousands of passengers. Farmers from a distance of twenty miles drove to the scene of the accident and mingled with the fashionably dressed visitors from the city. There were bicyclists galore. Some of them rode as far as Lakewood, the fashionable winter resort.

ONCE A RESIDENT OF PLAINFIELD.

Hon. Theodore Runyon Lived Here With His Father Many Years Ago.

Honorable Theodore Runyon, American Ambassador to German, whose death is announced on page two of this issue, lived in Plainfield for some time. His father, Abraham Runyon, moved here about 1836. Theodore Runyon attended Yale College while his father lived in this city, and then studied law in Newark, making his home during that time in this city.

In 1843, his father purchased the old Seminary opposite the First Baptist church and made two dwelling houses of it. After living here for some time, Abraham Runyon moved away and resided with some of his children. He afterwards returned to this city where he died several years ago at the age of 91 years.

Mrs. William Stanbury, a sister of the deceased, resides in Scotch Plains. There are a number of Plainfielders who are more distantly related to Mr. Runyon.

"One of The Bravest."

"One of the Bravest," will hold the boards at Music Hall, Saturday evening, February first. This play was intended primarily as a melo-drama, but has in its composition a generous dose of specialties, which rather make the "trimmings" its mainstay. The fire scene in the second act is one of the best ever seen, and virtually makes the list of the performance. Larry Howard as the life-saving hero, is a typical type of a fireman. The other characters are familiar to the Bowery, and include a Chinaman, newsboy, negro, tough, villian, policeman, Irish women, the banker, fireman, etc.

The Last Industrial Fair Social.

The seventh and last of the series of sociables in aid of Hope Chapel, Industrial Fair management fund that was to be held at the home of Mr. and Mrs. S. Smith, South Second street, will not be held there owing to the serious illness of Mrs. Smith and also on account of the evangelistic services to be held this week in the West End. It will be held instead at the residence of Mr. and Mrs. F. Wharton, 926 West Third street, on Saturday evening, February 1st, from seven until eleven.

Her Mind Affected.

The condition of Mrs. Lewis Wyckoff, of Howard streeet, North Plainfield, is pitable. She has been sick for some time with intermittent fever, and was being treated by Dr. Zeglio. The severe mental strain was too much for the woman to stand, and her reason is gone with only slight hopes of its ever returning.

The Chemical Engine Almost Ready.

The chemical engine for the Plainfield Fire Department will be shipped on Wednesday from Baltimore. Chief Doane, who went there and examined it, declares it is one of the finest on the market and is entirely satisfied with it. In Baltimore twenty-four per cent. of the fires are extinguished with chemical engines.

No Special Services at Warren Chapel.

There will be no special meetings at Warren chapel this week. The preparatory service will be held on Friday evening, however. The Sacrament of the Lord's Supper will be observed on Sunday.

OBITUARY.

William Henry Wilcox.

A large circle of friends and acquaintances will learn with profound sorrow of the death of William H. Wilcox, only son of Mr. and Mrs. James C. Wilcox which occurred Saturday afternoon at his home on Fairview avenue.

In his death a loving dutiful son and brother is missed from the home while North Plainfield will lose a valued citizen. He was a noble, conscientious Christian young man, held in the highest esteem by everyone who knew him, and he leaves a vacant place that will never be filled. The bereaved ones at home have the deepest sympathy of all in the loss of their loved one. He was in fellowship with the Brethren, and was a constant attendant at their meetings. His Christian qualities and disposition had endeared him to the hearts of all with whom he was associated, and especially was this evident in his business relations.

Mr. Wilcox was born in Somerville 27 years ago, and when quite young moved with his parents to North Plainfield, where he attended the public school, and graduated from there June 27th, 1884, with high honors. After that at odd times he carried papers for W. H. Williams, the Park avenue newsdealer, was employed by Cook Bros., at their lumber yards, and worked a short time for B. R. Force in his shoe store, until he secured a position in the First National Bank, where he remained for several years. His health was then very poor, and about three years ago in July, he went to the Adirondack Mountains for a month. When he returned to Plainfield he felt much better until the following spring, when he found it necessary to return to the mountains. He remained there about two years. A year ago he came home and secured a position in the Bank of the Manhattan Company, New York, which is the second bank in the city. His health was very good, and he seldom complained of feeling ill. A week ago last Wednesday while on his way to the train for the city, he was taken ill and had a very severe hemorrhage, the only one he ever had. He was taken home and medical assistance summoned at once. As soon as an examination was made, little hope of his recovery was entertained. He grew weaker each day until the end came. Through his illness he was perfectly conscious and ready to go whenever he was called.

The funeral services will be held tomorrow afternoon at 3 o'clock from his late home on Fairview avenue.

Mrs. John Case, who has been visiting her daughter, Miss Hattie Case, of New York, has returned home.

Mrs. Oakley, who has been visiting her mother, Mrs. Swackhamer, has returned home to New Brunswick.

Miss Annie Fenner, who has been visiting her sister, Mrs. Harry Swackhamer, has returned home to Pluckamin.

Miss Lulu Lewis has returned home to Elizabeth, after a visit with her sister, Miss Regina Lewis, of Front street.

Mr. and Mrs. Esty, of Bergen Point, formerly of this place, were in town Friday to attend the funeral of Charles Boice.

The first bluebird of the season was seen Thursday by a number of school children in the vicinity of the Whittier School.

Eugene Runyon, the storekeeper and real estate agent, has to stand the jokes of all his friends over his calico horse. Last week he purchased a new horse blanket which was covered with colored stripes and checks. It was first used last Friday, the day of the severe storm. The blanket was thoroughly saturated with water and the coloring matter began to run. After the blanket was removed Mr. Runyon's horse had the appearance of a combination checkerboard and American flag.

Your Spring Clothing

Rather early to speak of it, but if it needs cleaning or dyeing, it isn't too early to have us do that work for you. This is our dull season—our employes are here ready for work. We'd like to have your goods now. We can give them better attention than in the rush of the spring season. Then we'll have to have more time or rush them at the expense of good work. Now we can take our time, do the work better than if hurried and you'll have the clothing all ready for warm weather.

Look in the closet or trunk and find your spring wear that needs cleaning and dyeing and bring it to us now, or better still, our wagon will call for it if you will send us word.

A game will be rolled tomorrow evening between the first and second teams of the Plainfield Catholic Club.

The next game in the Diocesan Union Bowling League will be rolled tonight at Newark between the Institutes and the T. A. B's.

The Has Beens and the Will Bes, the two teams of the Crescent Wheelmen, meet this evening on the Crescent Wheelmen's alleys.

The Union County Roadsters' bowling team, that twice defeated a five-men team from the Crescent Wheelmen at Rahway, broke even with the Westfield A. C. last week.

The bowlers of the Westfield Y. M. C. A., who roll against the local Y. M. C. A. team tomorrow night, defeated the Roselle Casino Juniors two games last week, scoring 748 and 741. Plainfield will have to bowl.

Plainfield is quite a bowling city with two teams, each at the head of a different league. Tomorrow will be an important day for both teams, for it will then be decided whether they continue their victorious career or take a back seat. Four games will be rolled in the Standard Bowling League in the evening. The team from the Roselle Casino will meet the Park Club bowlers on the latter's alleys. The Roselles and the Parks are both tie for first place, and neither club cares to play second fiddle. A great game may be expected. The other two games are to be rolled at Cranford between the team from the Athletic Club of that place and the Westfield Athletic Club. Westfield is now second, but only two games behind the leaders, and should Westfield win both, and either of the leaders lose two games, Westfield will step by them into second place. As the Cranfords are last, Westfield is likely to win. All four of the Central Journal Bowling League teams meet tomorrow evening. The New Jersey Athletic Club rolls at Cranford, and the Elizabeth Athletic Club at Plainfield. The Crescent Wheelmen have got to win their game if they want to continue in first place, as Cranford, which is only one game behind, is likely to down the Bergen Point boys without very much trouble. Elizabeth outrolled the Crescents last week, and she expects to do it again tomorrow.

BASKET BALL.

A game of basket ball is scheduled for next Saturday between the teams from the Plainfield Y. M. C. A. and the Twenty-sixth Ward Branch of the Brooklyn Y. M. C. A.

The Brooklyn Y. M. C. A. basket ball team, that defeated the local Y. M. C. A. team several weeks ago, lost its first game Saturday night to the Yale University team.

WITH ROD AND GUN.

The Belvidere Gun Club, of Warren county, received about twenty dozen quail last week from Wichita, Kansas. The club will house, feed and care for them during the winter and in the spring, when the weather will permit, they will be turned out in the fields of the upper part of the county for future hunting.

CYCLING COMMENT.

John S. Johnson, the Minneapolis racing man, will sail for Europe on March 1st. Johnson will do his racing abroad this year.

E. B. Rider, of Central avenue, spent the week in New York, where he has been busy at Hurlburt Brothers' exhibit at the Cycle Show.

The Associated Cycling Clubs of New Jersey will hold a century run from Newark to Asbury Park passing through Plainfield in June. This is an annual event.

That the bicyle is more popular than either the dog or the horse was very plainly shown at Madison Square Garden last week when over 125,000 people attended the Cycle Show, a much larger attendance than was ever present at either Dog or Horse Show. The show is over now but its influence will be felt for a long time yet. Thousands of orders for new wheels were received and the manufacturers seem amply satisfied with the result. It was, by far, the largest exhibition of its kind that was ever held. Representatives from all over the country were present and even Plainfield sent a delegation that averaged almost fifty a day, if not over that. Trade has been helped wonderfully and local dealers have also felt its influence. Those who did not attend the Cycle Show certainly missed a great sight. The wheels were an education in themselves but there was lots to see besides the bicycles. One of the smaller rooms of the Garden was devoted to the machinery used in making bicycles. Then there were endless numbers of sundries, of every kind. Many of the exhibiting companies, in their efforts to attract attention, used novel methods. There were several bloomer girls who distributed catalogues and an immense fat boy, weighing 580 pounds who did likewise. A colored man, seven feet in height, attracted considerable attention. The crowd that thronged the Garden every day was not merely the cycling clubmen and the racers, it was a representative gathering from every trade and every occupation, small boys from school, grey haired men from positions of honor, everybody was there and all understood something of cycling.

WHIST.

The Elizabeth Chess and Whist Club will send a team to East Orange tonight to compete with the Orange Whist Club for the possession of the State cup, now held by the Orange organization, which has won it twice. Challenges for the trophy are pending from the Park Club of this city, North End Club of Newark, Bayonne A. C., and the Jersey City Whist Club.

VARIOUS SPORTS.

The New Jersey Athletic Club will hold a Carnival of Sports at Madison Square Garden next Saturday.

A call was issued today by the delegates from the Plainfield High School for a convention of school athletes to form the New Jersey Interscholastic Athletic Association. Such an association was organized some time ago by representatives of the High School and Steven's School, of Hoboken, but that organization will be completed and a constitution adopted at the convention. It will be held in this city at the High School on Saturday morning at 10:30 o'clock. All of the public and private schools in the State have been invited to send two delegates or, if that is impossible, to notify the committee of their willingness to join. All such communications should be addressed to George P. Smith, 143 Crescent avenue. The committee from the High School consists of George Proctor Smith, chairman, and Wilbur F. Cornwell. This is the introductory step in a movement that promises to be very beneficial to interscholastic sports.

PLAINFIELD VS. NEW BRUNSWICK.

Tally One, a Small One, For New Brunswick.

Plainfield is to have a tally-ho running to Morristown and Newark. But, thanks to John Willis, this city has had a tally-ho for several years and is therefore ahead of Plainfield.—New Brunswick Home News.

Yes, New Brunswick has a tally-ho, and it has also a city full of hoodlums. Only a night or two ago the captain of the Salvation Army was brutally beaten by canal toughs, and driven into hiding. Armenia isn't in it with New Brunswick. In Armenia the Americans are protected from personal injury, but in New Brunswick the rough element rules the streets. Tally-ho, indeed!

It not only is so, it must be so, One Minute Cough Cure acts quickly, and that's what makes it go. L. W. Randolph, 143 W. Front St.

A PHYSIOLOGIST'S WIFE

His lecture over, Professor Ainslie Grey paid a visit to his laboratory, where he adjusted several scientific instruments, made a note as to the progress of three separate infusions of bacteria, cut half a dozen sections with a microtome and finally resolved the difficulties of seven different gentlemen who were pursuing researches in as many separate lines of inquiry. Having thus conscientiously and methodically completed the routine of his duties, he returned to his carriage and ordered the coachman to drive him to the Lindens. His face as he drove was cold and impassive, but he drew his fingers from time to time down his prominent chin with a jerky, twitchy movement.

The Lindens was an old fashioned, ivy clad house which had once been in the country, but was now caught in the long red brick feelers of the growing city. It still stood back from the road in the privacy of its own grounds. A winding path, lined with laurel bushes, led to the arched and porticoed entrance. To the right was a lawn. Under the shadow of a hawthorn a lady sat in a garden chair, with a book in her hands. At the click of the gate she started, and the professor, catching sight of her, strode across the lawn in her direction.

"What! Won't you go in and see Mrs. Esdaile?" she asked, sweeping out from under the shadow of the hawthorn. She was a small woman, strongly feminine, from the rich coils of her light colored hair to the dainty garden slipper which peeped from under her cream tinted dress. One tiny well gloved hand was outstretched in greeting, while the other pressed a thick, green covered volume against her side.

Her decision and quick tactful manner bespoke the mature woman of the world, but her upraised face had preserved a girlish and even infantile expression of innocence in its large, fearless gray eyes and sensitive, humorous mouth. Mrs. O'James was a widow, and she was two and thirty years of age, but neither fact could have been deduced from her appearance.

"You will surely go in and see Mrs. Esdaile," she repeated, glancing up at him with eyes which had in them something between a challenge and a caress.

"I did not come to see Mrs. Esdaile," he answered, with no relaxation of his cold and grave manner. "I came to see you."

"I am sure I should be highly honored," she said, with just the slightest little touch of brogue in her accent. "What are the students to do without their professor?"

"I have already completed my academical duties. Take my arm, and we shall walk in the sunshine. Surely we cannot wonder that eastern people should have made a deity of the sun. It is the great beneficent force of nature—man's ally against cold, sterility and all that is abhorrent to him. What were you reading?"

"Beale's 'Matter and Life.'"

The professor raised his thick eyebrows. "Beale!" he said, and then again in a kind of whisper, "Beale!"

"You differ from him?" she asked.

"It is not I who differ from him. I am only a monad—a thing of no moment. The whole tendency of the highest plane of modern thought differs from him. He defends the indefensible. He is an excellent observer, but a feeble reasoner. I should not recommend you to found your conclusions upon Beale."

"I must read 'Nature's Chronicle' to counteract his pernicious influence," said Mrs. O'James, with a soft, cooing laugh. "Nature's Chronicle" was one of the many books in which Professor Ainslie Grey had enforced the negative doctrines of scientific agnosticism.

"It is a faulty work," said he. "I cannot recommend it. I would rather refer you to the standard writings of some of my older and more eloquent colleagues."

There was a pause in their talk as they paced up and down on the green velvetlike lawn.

"Have you thought at all," he asked at last, "of the matter upon which I spoke to you last night?"

She said nothing, but walked by his side, with her eyes averted and her face aslant.

"I would not hurry you unduly," he continued. "I know that it is matter which can scarcely be decided offhand. In my own case it cost me some thought before I ventured to make the suggestion. I am not an emotional man, but I am conscious in your presence of the great evolutionary instinct which makes either sex the complement of the other."

"You believe in love, then?" she asked, with a twinkling, upward glance.

"I am forced to."

"And yet you can deny the soul?"

"How far these questions are psychic and how far material is still sub judice," said the professor, with an air of toleration. "Protoplasm may prove to be the physical basis of love as well as of life."

"How inflexible you are!" she exclaimed. "You would draw love down to the level of physics."

"Or draw physics up to the level of love."

"Come, that is much better," she cried, with her sympathetic laugh. "That is really very pretty, and puts science in quite a delightful light." Her eyes sparkled, and she tossed her chin with the pretty, willful air of a woman who is mistress of the situation.

"I have reason to believe," said the professor, "that my position here will prove to be only a stepping stone to some wider scene of scientific activity. Yet, even here, my chair brings me in some £1,500 a year, which is supplemented by a few hundreds from my books. I should therefore be in a position to provide you with those comforts to which you are accustomed. So much for my pecuniary position. As to my constitution, it has always been sound. I have never suffered from any illness in my life save fleeting attacks of cephalalgia, the result of too prolonged a stimulation of the centers of cerebration. My father and mother had no sign of any morbid diathesis, but I will not conceal from you that my grandfather was afflicted with podagra."

Mrs. O'James looked startled. "Is that very serious?" she asked.

"It is gout," said the professor.

"Oh, is that all? It sounded much worse than that."

"It is a grave taint, but I trust that I shall not be a victim to atavism. I have laid these facts before you because they are factors which cannot be overlooked in forming your decision. May I ask now whether you see your way to accepting my proposal?" He paused in his walk and looked earnestly down at her.

A struggle was evidently going on in her mind. Her eyes were cast down, her little slipper tapped the lawn, and her fingers played nervously with her chatelaine. Suddenly, with a sharp, quick gesture, which had in it something of abandon and recklessness, she held out her hand to her companion.

"I accept," she said.

They were standing under the shadow of the hawthorn. He stooped gravely down and kissed her glove covered fingers.

"I trust that you may never have cause to regret your decison," he said.

"I trust that you never may," she cried, with a heaving breast. There were tears in her eyes, and her lips twitched with some strong emotion.

"Come into the sunshine again," said he. "It is the great restorative. Your nerves are shaken. Some little congestion of the medulla and pons. It

is always instructive to reduce psychic or emotional conditions to their physical equivalents. You feel that your anchor is still firm in a bottom of ascertained fact."

"But it is so dreadfully unromantic," said Mrs. O'James, with her old twinkle.

"Romance is the offspring of imagination and of ignorance. Where science throws her calm, clear light, there is happily no room for romance."

"But is not love romance?" she asked.

"Not at all. Love has been taken away from the poets and has been brought within the domain of true science. It may prove to be one of the great cosmic elementary forces. When the atom of hydrogen draws the atom of chlorine toward it to form the perfected molecule of hydrochloric acid, the force which it exerts may be intrinsically similar to that which draws me to you. Attraction and repulsion appear to be the primary forces. This is attraction."

"And here is repulsion," said Mrs. O'James as a stout, florid lady came sweeping across the lawn in their direction. "So glad you have come out, Mrs. Esdaile! Here is Professor Grey."

"How do you do, professor?" said the lady, with some little pomposity of manner. "You were very wise to stay out here on so lovely a day. Is it not heavenly?"

"It is certainly very fine weather," the professor answered.

"Listen to the wind sighing in the trees!" cried Mrs. Esdaile, holding up one finger. "It is nature's lullaby. Could you not imagine it, Professor Grey, to be the whisperings of angels?"

"The idea had not occurred to me, madam."

"Ah, professor, I have always the same complaint against you—a want of rapport with the deeper meanings of nature. Shall I say a want of imagination? You do not feel an emotional thrill at the singing of that thrush?"

"I confess that I am not conscious of one, Mrs. Esdaile."

"Or at the delicate tint of that background of leaves? See the rich greens!"

"Chlorophyll," murmured the professor.

"Science is so hopelessly prosaic. It dissects and labels and loses sight of the great things in its attention to the little ones. You have a poor opinion of woman's intellect, Professor Grey. I think that I have heard you say so."

"It is a question of avoirdupois," said the professor, closing his eyes and shrugging his shoulders. "The female cerebrum averages two ounces less in weight than the male. No doubt there are exceptions. Nature is always elastic."

"But the heaviest thing is not always the strongest," said Mrs. O'James, laughing. "Isn't there a law of compensation in science? May we not hope to make up in quality for what we lack in quantity?"

"I think not," remarked the professor gravely. "But there is your luncheon gong. No, thank you, Mrs. Esdaile; I cannot stay. My carriage is waiting. Goodby! Goodby, Mrs. O'James!" He raised his hat and stalked slowly away among the laurel bushes.

"He has no taste," said Mrs. Esdaile, "no eye for beauty."

"On the contrary," Mrs. O'James answered, with a saucy little jerk of the chin, "he has just asked me to be his wife."

CHAPTER II.

As Professor Ainslie Grey ascended the steps of his house the hall door opened, and a dapper gentleman stepped briskly out. He was somewhat sallow in the face, with beady black eyes and a short, black beard, with an aggressive bristle. Thought and work had left their traces upon his face, but he moved with the brisk activity of a man who had not yet bade goodby to his youth.

"I'm in luck's way," he cried. "I wanted to see you."

"Then come back into the library," said the professor. "You must stay and have lunch with us."

The two men entered the hall, and the professor led the way into his private sanctum. He motioned his companion into an armchair.

"I trust that you have been successful, O'Brien," said he. "I should be loath to exercise any undue pressure upon my sister Ada, but I have given her to understand that there is no one whom I should prefer for a brother-in-law to my most brilliant scholar, the author of 'Some Remarks Upon the Bile Pigments, With Special Reference to Urobilin.'"

"You are very kind, Professor Grey—you have always been very kind," said the other. "I approached Miss Grey upon the subject. She did not say 'No.'"

"She said 'Yes,' then?"

"No; she proposed to leave the matter open until my return from Edinburgh. I go today, as you know, and I hope to commence my research tomorrow."

"On the 'Comparative Anatomy of the Vermiform Appendix,' by James McMurdo O'Brien," said the professor sonorously. "It is a glorious subject—a subject which lies at the very root of evolutionary philosophy."

"Ah, she is the dearest girl," cried O'Brien, with a sudden little spurt of Celtic enthusiasm. "She is the soul of truth and of honor."

"The vermiform appendix"—began the professor.

"She is an angel from heaven," interrupted the other. "I fear that it is my advocacy of scientific freedom in religious thought which stands in my way with her."

"You must not truckle upon that point. You must be true to your convictions. Let there be no compromise there."

"My reason is true to agnosticism, and yet I am conscious of a void—a vacuum. I had feelings at the old church at home between the scent of the incense and the roll of the organ, such as I have never experienced in the laboratory or the lecture room."

"Sensuous, purely sensuous," said the professor, rubbing his chin. "Vague hereditary tendencies, stirred into life by the stimulation of the nasal and auditory nerves."

"Maybe so, maybe so," the younger man answered thoughtfully, "but this was not what I wished to speak to you about. Before I enter your family your sister and you have a claim to know all that I can tell you about my career. Of my worldly prospects I have already spoken to you. There is only one point which I have omitted to mention. I am a widower."

The professor raised his eyebrows. "This is news indeed," said he.

"I married shortly after my arrival in Australia. Miss Thurston was her name. I met her in society. It was a most unhappy match."

Some painful emotion possessed him. His quick, expressive features quivered, and his white hands tightened upon the arms of the chair. The professor turned away toward the window. "You are the best judge," he remarked, "but I should not think that it was necessary to go into details."

"You have a right to know everything—you and Miss Grey. It is not a matter on which I can well speak to her direct. Poor Jinny was the best of women, but she was open to flattery, and she was liable to be misled by designing persons. She was untrue to me, Grey. It is a hard thing to say of the dead, but she was untrue to me. She fled to Auckland with a man whom she had known before her marriage. The brig which carried them foundered, and not a soul was saved."

"This is very painful, O'Brien," said the professor, with a deprecatory motion of his hand. "I cannot see, however, how it affects your relation to my

A Special Sale of Muslin Underwear.

We invite inspection of this great muslin underwear stock, including lines of high-class goods, daintily made and prices fixed specially for this sale, leaving us a modest margin. Of course, in such a variety there is plenty to suit every taste and every purse. You'll notice too that just as much care has been taken in the making of the cheaper wear as in the higher priced.

The Cloak Price-Cutting

Keeping Clean

As Far as One's Person is Concerned, is Easy Enough - -

Keeping one's clothes clean is quite a different matter. The most careful man will accumulate grease spots—they're a mysterious sort of thing, as to their coming. They leave just as mysteriously when we clean your your suit. We take them out, and those particular spots stay out—a whisk broom, a sponge and a hot iron will make a grease spot disappear—that's not the way we do it. We get 'em out by the roots, so to speak. When your suit needs dyeing, we do that too. Maybe give it a color that you'll like better than the old one. We do either sort of work, very reasonably.

Laundry drivers will receive your bundle.

ANNUAL SALE

OF

Muslin Underwear, Waists, Wrappers, Corsets.

Greater in all its proportions than ever before—far greater and far better in every way, than anything ever attempted in Plainfield.

Look Before You Buy.

So thoroughly familiar has the public become with the importance of our underwear sale, and absolute superiority of the merchandise offered, that we deem it only necessary to mention the conditions, which govern this sale.

We sacrifice all profits, and in many cases offer the articles at less than the cost of the material only. We offer only goods made of standard muslins. The cheapest at 25c. are as well-made and finished as the best. All we ask is, that those who intend buying Underwear, Waists, Wrappers and Coats will carefully compare our goods with others usually offered at so-called sales.

THE ST. PAUL STILL ASHORE.

Will Not Be Gotten Off Today and is Sinking in the Sand.

[Special to The Daily Press.]

Long Branch, January 27th.—The American line steamer, St. Paul, still remains in the same position, and there is no hope that she will be gotten off today. Efforts are being constantly made to get her out of her present serious position. She is about ten feet deeper in the sand than she was yesterday. Those in charge are still confident of releasing her eventually. They are now waiting for a strong east wind and high tide.

Relief Association to Purchase.

The Plainfield Relief Association made an appeal to the churches in this city yesterday asking them to assist in raising $2,700, which amount is to be used in securing the property at 544 West Front street. Three men have given $800, and this together with the above sum will purchase the place. It is the intention to use it for carrying on the relief work on a larger scale, and it is hoped that all who can will respond liberally. The response from the churches is very encouraging.

Results of Friday's Storm.

The severe rain storm of Friday left many unpleasant results for those that live out of the city proper. The frozen ground prevented the water from sinking into the earth rapidly, and great pools of water in streets and on sidewalks resulted. The frost in the upper layer of the soil was driven out by the rain, and in consequence it was muddy. Very muddy in fact, so that those who did not have the advantage of stone sidewalks, had rather unpleasant experiences.

Sad News.

H. M. Clark, of Grandview avenue, received a telegram today telling him of the death of his father, Stewart E. Clark, of Westfietd, which occurred at his home last evening, in the 76th year of his age. His funeral will take place tomorrow afternoon at 2:30.

A Sad Bereavement.

A Dog Purse Snatcher.

Pointer dogs can always be trained to steal. Many of them are natural thieves without training, and any of the species can be taught. There is a dog of this kind in northwest Washington. He will pick up anything he can find around a yard or outside of a store, but his specialty is ladies' pocketbooks and handbags. When he sees one of these, he grabs it and runs, always succeeding in getting out of sight before he can be captured or followed. No owner has ever been seen, hence no complaints have been made at police headquarters, but there is but little doubt, if it were possible to follow the animal, that it would be found that he has been carefully trained as a purse snatcher and that he takes his booty home to his master. He seems to be aware that he is doing wrong, jumping fences and dodging around houses when running away. —Washington Star.

An Old Colonial Blockhouse.

Among the attractions of the town of Bourne, Mass., are two historic cellars. One was dug by the Plymouth colony and the other by the Dutch traders. These cellars lie side by side, and the structures built over them were filled with goods so necessary for the comfort of the early pilgrims as well as the Dutch. The pilgrims needed manufactured goods such as the Hollander had for sale and the Dutch required products such as the colony could supply. Governor Bradford, in his diary, states that this block house was built as early as 1627, only seven years after the landing of the Mayflower.—St. Louis Globe-Democrat.

About Girls.

"Girls," remarked the small boy in his composition upon the subject, "is of several thousand kinds, and sometimes one girl can behave like several thousand girls. Some kinds of girls is better than some other kinds, but they ain't any of them up to boys. This is all I know about girls, and father says the less I know about 'em the better."—New York Advertiser.

A PICTURESQUE SPOT.

Fertility and Beauty of Strawberry Point, Alaska.

The Best Place in the Northwestern Territory for Agricultural Pursuits—A Perfect Wilderness of Plants and Grasses.

The season that is just finished has been the most profitable in the matter of tourists as well as gold miners that Alaska has ever had. Now that it is over, and the regular inhabitants of the territory have had a chance to think about it a little, they are beginning to talk about the great things in store for them. Alaska is gorgeous in summer. Nowhere else in the world is there such scenery as along the island-dotted channel from Port Townsend to Juneau. Not only is nature dressed in her best to receive the tourists who are going there in ever-increasing throngs, but the inhabitants also get on their good clothes and their good behavior, and for four or five months the whole territory is arrayed in its Sunday best. But this good clothes exhibition comes only in streaks. It occurs for about two days of each week, when the steamer from "down below" is in. The tourists come and go with the steamers, and rarely stay over from one boat to another. As the steamers lie in each port only a day or less, the tourists have not much chance to make a lasting impression. Now, however, there is likely to be a change. Juneau men are nothing if they are not hustlers, and with the recollection of this season's profits and possibilities they are arranging to put up a big hotel on Strawberry Point, at the entrance to Glacier bay, in southeastern Alaska.

Strawberry Point is one of the most beautiful and picturesque spots in all Alaska. It lies between Juneau and Sitka at the entrance to Glacier bay. It is a glacial moraine, which extends out into icy straits about ten miles from the mainland, and separates the entrance to Glacier bay on the east from the little narrow strait between Pleasant island and the mainland on the west. The moraine has an elevation of from 50 to 100 feet above high tide, and contains hundreds of acres of fertile level land. If there is a place in the territory where agricultural pursuits can be carried on it is at Strawberry Point. The soil is a rich, sandy loam, and the benches are mostly free from the marshy ground which characterizes most of the level land along the coast in southeastern Alaska. The whole peninsula is covered with a luxurious growth of blue joint and other grasses, and many acres of it are dotted with the strawberry plants which give the point its name. They are so thick that when they are in blossom in the early summer the land resembles a New York farmer's field of daisies, and in September, when the berries ripen, they fairly make the ground red.

The climate of Strawberry Point is much pleasanter than at most other places in Alaska. At Sitka, for instance, the average is 220 days of rain, snow or fog in a year. Juneau is about as bad. It never gets very cold because of the influences of the warm Japan current, but there are very few days of clear skies and bright sunshine. But at Strawberry Point the precipitation of rain in summer, and the corresponding fall of snow in winter, are much less than at Juneau. This is because across the bay in the west the lofty Fairweather range lowers like an army of giant sentinels stationed there to protect this little garden spot from the terribly icy winds that would sweep across from the Pacific if these mountains did not hold them back. The rainfalls in summer are like those of the interior, and not like the long, steady drizzles and downpours of Sitka and Juneau. Strawberry Point is probably the only place in Alaska where the lightning plays and the thunder roars in a typical summer shower. In places on the benches there are bunches of young cedar and spruce, with occasional thickets of alders, but most of the ground is clear and rolling.

The grandest scenery in Alaska is on view from Strawberry Point. Besides the giants of the Fairweather range, there are the great ice cathedrals of the Muir and Pacific glaciers, which loom up 20 miles away and send off a continuous procession of tremendous icebergs, which pass down by the point like a great fleet of white war ships in review. The waters about the point teem with fish, and there is game aplenty in the near-by woods. Already the enthusiastic Juneau men are planning their summer hotel and calling Strawberry Point the "Saratoga of the Northwest."—N. Y. Sun.

Drill at Life-Saving Stations.

On Tuesdays there is boat practice, this consists in hauling the boat carriage to the bench, unloading, launching her and pulling out through the surf—backing, turning, or doing just what the keeper commands, he steering the boat. After practice, the boat is put on the carriage, hauled back the boat house, cleaned and left in perfect order. Wednesday is signal drill day. There is an international code of signals, composed of flags representing the different letters of the alphabet. Each surfman has a set of minature flags, and he signals to the keeper, who answers them with his flags—so any man at the station can read a message from a wrecked ship. All the principal maritime nations have adopted this code, and as vessels are provided with flags, and books containing the key to different signals, printed in many languages, communication between vessels and stations can be easily carried on, whatever the ship's nationality.—Teresa A. Brown, in St. Nicholas.

ANTARCTIC POSSIBILITIES.

Explorer Borchgrevink Thinks There May Be a Future for Commerce There.

The recent antarctic expedition was a commercial one, and commercially it was a failure, because we did not find the right whale, so valuable for its whalebone. The Antarctic was fitted out for the hunt of that particular kind of whale; nevertheless, I have no doubt that the commercial result of the expedition would have been much better had we worked under more favorable auspices.

I do not by any means consider the fact of our not having met with the right whale in those seas as conclusive proof of their nonexistence in the bay at Victoria Land. The Antarctic found the right whale at Campbell island in the winter time; the boats fastened to five of them, of which, however, only one was caught. Now, to me it does not seem improbable that these whales go south to the bay of Victoria Land, where Ross saw them, in the summer, and then return north in the winter. It would seem incredible that a man of Sir James Ross' standing, supported as he was by able scientists and experienced whalers, should have made a grave error when he said that this valuable whale was to be found in large numbers in these southern latitudes.

The difference in the appearance of the blue whale, as we found it there, and the right whale, in the method of spouting, is so striking that even the most casual observer could not easily be deceived. Very possibly, had we penetrated farther into the large open bay discovered by Ross in the vicinity of the volcano peaks Erebus and Terror, we, too, would have found the right whale in great numbers. We saw very many blue whales, but had not the appliances to take them.

As I remarked at the international geographical congress, we found few seals. They increased, however, in number as we worked eastward, and seemed afraid of the land. All of the seals that we met on the shore showed much uneasiness and speedily made for the water, a fact which strengthened my belief in the existence of a large enemy of the seal on the continent. I do not doubt that the seals congregate together in larger numbers at some places on the bay.

I consider the guano beds which we discovered of great commercial importance, and they ought to be well worth the attention of enterprising business men. The specimen which I brought back with me contains a large percentage of ammonia.

Furthermore, from the analysis of the specimen of rock which I brought back with me, the possible and probable presence of valuable minerals on the continent is proved, although the lava and the volcanic aspect of the coast line do not speak favorably for the presence of heavy metals near the surface.—C. E. Borchgrevink, in Century.

MAN AT THE WHEEL.

Some of the Ingenious Devices for Navigating a Great Steamer.

Let us spend an hour with Capt. Randall, of the American liner St. Louis, on the bridge in midocean. He first takes us into the wheelhouse. It is a room ten feet wide with a curved front. A wheel about three feet in diameter is placed in the center of the room, and you are surprised to see that the quartermaster keeps turning it almost constantly. You have always thought that he had simply to keep his eye on the floating compass in the box directly in front of him and hold the ship steady on her course. As you look at the compass you see the ship veering now this way and now that, as she rolls and plunges, or as one screw turns faster than the other, and thus pulls the ship around. It is hard to make two independent screws go exactly at the same speed, and so this man at the wheel is busy all the time turning the ship straight. He has to fight the waves and the screws and the winds at the same time, and he is a busy man.

This steering wheel controls the ship by means of a small column of oil in a little tube. By turning the wheel this way or that the oil in the tube is forced up and down, and that opens or closes certain valves in the steam-steering gear 400 feet away, and the rudder is turned as easily as if a child had done it. In most steamships the steam-steering gear is controlled by hydraulic power—that is by water—but the use of a column of oil is an improvement.

As you look about you see fastened to the cornice directly in front of the wheelman a little scale in black with white lines marked off on it. There is a dial on it, and as the ship rolls you see that this is a device to mark the degree of the roll. You may notice that it takes about a second for every degree of a roll. On each side of the room is another long black gauge, and the dials point to cerain figures, generally between 90 and 95. These dials are little electrical devices, showing exactly how many revolutions the screws are making. The captain at a glance knows what is going on in the engine-rooms.

Over in the corner of the room is another curious electrical device. It is a little box with a clock in it. The captain tells you it is the machine that controls the whistle in time of fog. The law requires a long blast of the whistle at such times every two minutes. By pressing a button on this little clock apparatus, and by setting the clock in a certain manner, the whistle is blown automatically for seven seconds every minute. There can be no error of man in that work. Just as sure as every minute comes around that whistle will blow seven sconds. Under the old way, when a man pulled the whistle cord, there was no exactness in the work. When the fog is over the button is released and the whistle stops.—Harper's Round Table.

ODD ONLY IN THE TITLE.

THE ODD FELLOWS ENJOY A BIG TIME LAST EVENING.

Installation of the Officers of Queen City Lodge Attended by Many Visiting Members—Banquet and Speeches Followed.

The members of Queen City Lodge, No. 226, I. O. O. F., may be Odd Fellows, but they certainly are a hospitable set and know how to entertain most royally. District Deputy Grand Master L. S. Pocock and staff have been busy for over a month installing the officers in the different lodges of Odd Fellows in this district. Last evening their duties came to an end until next summer with the installation of the officers of their own lodge, Queen City. After their visits to the other lodges, they always entended an invitation to the members of the home lodges to come to Plainfield and witness their installation.

It was a jolly crowd that assembled last evening, there were the members of Queen City, most of those of Plainfield Lodge, No. 44, and a sprinkling of Odd Fellows from most all of the other lodges in the ditsrict.

The officers of Queen City Lodge were installed with the usual solemn ceremonies, and in a most correct manner, for the month of practice had not been wasted on the District Deputy and his staff.

Then followed speech-making by local and visiting Odd Fellows, after which everybody was invited to the banquet hall where a sumptuous collation awaited them. Everything was excellent and the warmth of friendship and good eating warmed the hearts of the assembled guests. Then, when the blue clouds of tobacco smoke curled and floated over the heads of the Odd Fellows, entertainment was called for. John H. Carney, of Plainfield Lodge, was equal to the occasion and gave his companions a very humorous recitation about the "New Woman," and a cycling adventure with a dog. Mr. Carney's quaint manner of telling the story added greatly to the enjoyment and he was forced to respond to the prolonged applause. His encore was an original speech on America as viewed from a German standpoint, in which he introduced many bright local hits which kept his hearers in roars of laughter. After other stories and jokes, the visitors had to take their departure, but all agreed that no other lodge meeting had been more enjoyable.

This was probably the largest affair that the Odd Fellows ever held in Plainfield.

District Deputy Grand Master Pocock's staff consisted of the following: Grand marshal, Frank Smith; grand warden, T. C. Smith; grand recording secretary, C. H. Rugg; grand permanent secretary, H. O. Hance; grand treasurer, C. W. De Graw; grand guardian, E. R Mosher.

The officers installed were past grand, A. G. Barber; noble grand, D. P. Hicks; vice grand, Lewis DeCamp; recording secretary, James Neal; permanent secretary, H. H. Hoffman; treasurer, J. P. Allis; chaplain, W. J. Conroy; warden, James D. Brown; conductor, J. B. Higgins; inside guardian, Fred Welch; outside guardian, W. E. Barber; right supporter to noble grand, C. W. DeGraw; left supporter to noble grand, G. Thorn; right supporter to vice-grand, J. B. Patterson; left supporter to vice-grand, C. B. Dennis; right scene supporter, B. Frederickson; left scene supporter, C. E. Wilcox; trustees, L. S. Blackford, J. B. Brown and George Morehouse.

The committee in charge of the entertainment consisted of Lewis DeCamp, James D. Brown and W. E. Barber.

Work at the Hospital.

At the meeting of the Board of Governors of Muhlenberg Hospital, held yesterday afternoon, Dr. E. W. Hedges, medical director for the month of January, presented the following report for the month:

Patients admitted, 18; patients discharged, 14; patients discharged improved, 2; died, 1; total number treated, 32; dispensary patients treated, 16. The patient that died was in the hospital only a few hours, and was brought there with a broken back.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

ATTEMPT TO BREAK JAIL.

Burglar Dayton Attempted to Liberate Sixteen Somerset Prisoners.

When Sheriff Wyckoff made his rounds in the Somerset county jail on Friday night he detected a bulging spot in the outer wall of the men's corridor. Clo er investigation showed that a hole had been dug in the wall large enough for a man's body to pass through. The bricks had been replaced carefully and sealed loosely. At the time there were sixteen prisoners in the jail.

In the cell of James Dayton a detective found that one foot of the iron bedstead had been sawed off and shaped into a pick. The foot had been replaced and the break concealed. With this implement Dayton and his fellow prisoners had attempted to dig their way to liberty. Dayton, who is now awaiting trial for burglary, confessed that he was the leader of the plot and that all hands would have escaped before morning if the hole in the wall had escaped detection.

Murderer Jacob S. Johnson, who is in solitary confinement in the upper tier, could not have escaped unless liberated by the other prisoners. The authorities have employed additional watchmen and the jail will be closely guarded until the prisoners are disposed of by the courts.

TWO CITY COLLECTORS.

Johnson Holds the Fort But Bird is Taking Taxes Just the Same.

Few people about the city are probably aware that though John Johnson holds the fort in the collector's office so far as possession of the books and papers of the office are concerned, that Elias H. Bird is receiving taxes from all who tender them to him. A Press reporter called at J. F. MacDonald's grocery store, where Mr. Bird is manager, this morning, and was somewhat surprised to see a prominent citizen and taxpayer settling up his quota of the city expenses with Mr. Bird, who gave him a receipt. Mr. Bird turns over to City Treasurer Titsworth whatever he collects. He will continue to accept whatever taxes are paid to him as collector.

Along Legal Lines.

In Justice Newcorn's court yesterday the case on contract of Lawler against Keeley was adjourned for one week and an application for a six men jury granted. The case of Brooks, administrator, against Conklin, was adjourned for two weeks. Summonses were issued in the contract cases of Linke against Parker, returnable February 3d, and O'Brien against Berbout, returnable February 5th. On the affidavit of Alonzo Angervine, salesman for D. H. Johnson & Co., of New York a capias adrespondendum was issued yesterday by Justice Newcorn, against William Peebles. The latter was taken in custody by Constable W. R. Mattox, but on the motion of Lawyer Charles A. Reed, his counsel, setting forth that the affidavit was not ample, the Justice dismissed the case.

They Want Booth to Remain.

James T. McGee, of this city, formerly president of the Produce Exchange, is one of the distinguished and influential speakers announced to appear on the platform of Carnegie Hall the night of February 3d, at the mass-meeting in New York, called in the interest of Commander Ballington Booth and wife. At this meeting resolutions will be drafted and cabled at once to Gen. Booth, calling upon him in the name of the thousands who are lovers of Commander Booth, and wife to change his decree and rescind the order which recalls the younger Booth and wife from their work in this country. The movement started with the Auxiliary League and without the knowledge of Commander and Mrs. Booth.

Religious Interest Among Colored People.

The revival meetings in the Fillmore Avenue Baptist church have been very successful during the time they have been held. Christians have been revived and backsliders reclaimed. The meetings are conducted by Rev. W. D. Johnson, assisted by Rev. L. Marshall, of Richmond county, Virginia. This week the meetings have been arranged as follows: Tuesday night, Rev. W. D. Johnson will speak on the "Power of Faith;" Wednesday night, Rev. L. Marshall will preach on the "Blessedness of the Righteousness;" Friday evening, Rev. P. S. Gibson will preach, and Saturday evening will be an experience meeting.

MIRACLES OF CHRIST.

REV. C. L. GOODRICH IMPRESSES AN AUDIENCE WITH HIS WORKS.

Christ Has Helped Thousands to Overcome Difficulties and the Appeal For All Plainfielders to Take Him Is Made.

The revival service in the Crescent Avenue church last evening was one of especial interest to the large congregation present, owing to the earnest words spoken by Rev. C. L. Goodrich who was in charge.

He took his text from Hebrews 1:1, and a portion of his remarks follow:

I shall not attempt to argue with you tonight, but if Jesus Christ should be so exalted as to draw you to Him I shall be glad. If I could so speak by the aid of God s spirit that one person should get a clearer view of Jesus Christ I would be glad. We need to look to God. The people of old did not have a clear conception of God. They thought He was a person hard to approach and one to whom they should bow in fear. We look at Jesus of Nazareth in life, we find Him on the wild sea. A quiet word and the wind ceases and the waves are smooth. We see two loathsome lepers which no man dares touch. Christ touches them and their disease is healed. In every part of His life He was triumphant, and men were drawn to Him. The humble fishermen followed Him and little children were won by His smile. I watch the same Jesus of Nazareth for a fault, but find none. The world has tried Him, but can find no fault. He possesses a holiness that bends over the sinner in compassion. It draws men and kindles in their heart a love for God. The word of God is worked out in human history and spelled with four letters, "love." There is not one thing God could do that He would not do. Jesus was in Palestine to show that God was easy to approach, and He is just as easy now. He is not afar off. Would you like to see God? Would you like to be ushered into His presence just now? Would you shrink? I think I should like to see Him, but if I cannot, I know He is with me. He has helped thousands to overcome difficulties and be a power for good. Doesn't that fact draw you to Him? I confess it does me. I recommend Him to you tonight and trust you will accept Him.

A few remarks were made by Dr. Richards at the close when he announced that Dr. Rodman would preach this evening. W. D. Murray conducted the after-meeting which was held in the chapel and very largely attended.

One of the best services held in connection with the revival was the one at Monroe Avenue chapel last evening. Rev. G. Kennedy Newell was in charge and spoke from the text Mark 15:43.

His principal thought was daring to be a Christian and used the example of Joseph of Arimathea when he asked Pilate for the body of Jesus. He followed Christ secretly until the crucial moment when he came out boldly for him.

The attendance was very large and during the latter part of the meeting two expressed a desire to be Christians. Tonight the service will be at Hope chapel.

Off For the Mission Field.

W. P. Spangenberg, of Netherwood, started this morning at 7:30 for Santa Cruz, Island of Teneriffe, to engage in missionary work among the natives. Mr. Spangenberg is a member of the Young People's Society of Christian Endeavor of the First Baptist church of this city and served as chairman of the missionary committee for about a year. While the society regrets his departure, it feels that if he puts as much energy in his new labors as he did in his society and committee work here, his efforts will be crowned with success.

Grew Dizzy and Let Go.

Another man fell from a freight train late last evening near Bound Brook. His name was James Leston, of Philadelphia, and he was stealing a ride from that city to New York. Near Bound Brook he grew dizzy and fell off, striking on his back. He was taken to Muhlenburgh Hospital. No bones were broken, but he was badly bruised by the fall.

St. Paul Still Ashore.

The big American line steamship St. Paul was still hard aground in the sand this morning, with no more prospects of getting her into deep water than there were yesterday. For the past twenty-four hours no effort has been made to budge her, although in that time there have been two high tides.

—The Grand Jury at Elizabeth adjourned this morning until Thursday morning at 9 o'clock.

WHEELS OF LEGISLATION

THEY BEGAN TO REVOLVE SLOWLY AT TRENTON LAST NIGHT.

In Both Houses Appropriate Resolutions Over the Death of Ambassador Runyon Adopted—Appointment by the Governor.

At Trenton yesterday Gov. Griggs intended to issue a proclamation reciting the public services of Ambassador Runyon and expressing the sorrow of New Jersey over his death, but upon investigation he found that there was no precedent for such action, except in the case of ex-Governors. In both the Senate and House last night resolutions appropriate to the occasion were adopted.

Gov. Griggs sent to the Senate the first of his appointments, nominating Lewis W. Starr to be Prosecutor of Gloucester county.

Senator Daly is ill, and did not come to Trenton to introduce his resolutions sustaining the Monroe doctrine, upholding the President in his Venezuela message, and condemning Senator Sewell's attack on Mr. Cleveland. In the House, Mr. Lowell of Ocean offered his resolutions reciting the severe struggle for liberty and independence being carried on by the Cubans, and expressing the sympathy of the people of New Jersey with the efforts of the heroic patriots of Cuba on behalf of national liberty and wishing them ultimate success. A second resolution requests the New Jersey Representatives in Congress to support any measure calculated to give recognition to the struggling patriots.

A petition was received in the House from a committee of the North Jersey Conference of the Congregational church asking for the passage of a local option law regulating the granting of liquor licenses. It was referred.

Among the measures introduced in the House were a joint resolution authorizing the Governor to reappoint a Commission to determine the advisability of erecting a home for disabled soldiers and their wives; requiring public schools to celebrate holidays by patriotic exercises on the day preceding; limiting to ten hours per day or sixty hours per week the service of employes of express companies; bills fixing the salary of the Supreme Court Clerk at $5,000 a year, and Chancery Clerk at $6,000, and turning all fees into the State treasury; reducing the salary of every public officer of the State, excepting the Governor, Chancellor and Supreme Court Justices, by twenty-five per cent. after August 1st, next; officials receiving less than $2,000 a year are exempted from the act; making Good Friday a legal holiday; requiring all surface railways to erect and maintain waiting rooms and transfer stations, limiting street railway fares to five cents over all lines, requiring street railway companies to properly heat and ventilate their cars.

How to Cook "Left Overs."

Those who attended the fourth lecture on cookery, given by Miss Bedford in the Y. M. C. A. building yesterday afternoon, felt sure that if every woman could cook like Miss Bedford there would be a greater demand for wives. The subject "Left Overs" was a very appropriate one for Monday, and the menu, including China chilo, meat ragout in edible cups, Genoa ramequins, French toast and Japanese fritters, would certainly please the most particular. It was cooked just to suit the taste and all were delighted with the dinner. This afternoon the lecture will be on "Entrees and Salads." The additional lectures will not be given as Miss Bedford is unable to devote the time to them at present.

A New Whist Club.

The young people that formerly were members of the Sixth Street Social Club, are now organizing a whist club. A meeting will be held next Tuesday evening to regularly organize.

New Roads.

Next year Middlesex county will build the road from Stelton to Dunellen, a distance of six miles. The road will be fourteen feet wide and eight inches thick.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

THE THIRD ASSEMBLY.

A Festive Time Spent on the Floor of the Casino Last Night.

Another of the prominent social events of the season, the third Assembly, was held at the Casino last evening. It was by far the most successful third Assembly ever held in Plainfield and was quite largely attended. While outdoors all was quiet and still, in the ball room of the Union County Country Club all was the reverse. The inspiring music, the beautiful gowns, and the artistic appearance of the room, all lent their aid in making the place seem almost like fairyland. The Casino was decorated in the same manner as for the previous Assemblies.

The floor was filled as long as the music lasted and all expressed themselves as having passed a delightful evening. The patronesses that received were Mrs. Joseph W. Reinhart, Mrs. W. L. Saunders, Mrs. Louis G. Timpson, Mrs. Marion S. Ackerman, Mrs. Orville T. Waring, Mrs. Frederick H. Wells, Mrs. James T. Scott and Mrs. William J. Roome.

Among those present during the evening were:

Mr. and Mrs. J. W. Reinhart, Mr. and Mrs. L. G. Timpson, Mr and Mrs. T. E. H. Curtis, Mr. and Mrs. C. A. Marsh, Mr. and Mrs. J. T. Scott, Mr. and Mrs. E. M. VanBuren, Mr. and Mrs. W. J. Roome, Mr. and Mrs. Clifton Wharton, Jr., Mrs. O. T. Waring, Mrs. F. H. Wills, Mrs. M. S. Ackerman, Mrs C. F. Abbott, Mrs. W. L Saunders, the Misses Holly, Middledith, Abbott Stewart, Waring, Wilson, Murphy, Evans; Miss Price of Philadelphia; Miss Hutton, Miss Lefferts, Miss Loder, of New York; Messrs. Beebe, Erickson, Frost, Lowe, Walz, Waring, Finch, Bull, West, VanBuren, Huntington, Murphy, VanBoskerck, Faber, Henderson, Murray, Hutchins, Patten, McGee, Elwell of Brooklyn; Stillman, Bigelow of Elizabeth; Dr. Price of Philadelphia; Blagden, Miller, Strong and Wheeler of New York.

Disgraceful Journalism.

The harum-scarum methods employed on the sweat-shop News in the gathering and compilation of local events and happenings is evidenced in the large number of errors and false reports which that sheet circulates each day. Scarcely a day passes but what people call at The Press office and ask that this or that item in the scab sheet be denied or corrected in The Press. Some time ago the sweat-shop sheet and dispenser of Tenderloin classic announced the marriage of Miss Mamie Walsh to George Schaefer. The report was absolutely without foundation of fact. Newspaper men who think that it is enterprise to fill their columns full of such cruel and disreputable hoaxes as this, simply that a few people of their ilk may enjoy themselves at the humility and embarrassment of estimable young people, are parodies on and disgraces to the profession.

Helping the Workers.

There was a very large attendance at the meeting of the Primary Teachers' Union held yesterday afternoon in the Y. M. C. A. building. Mrs. Powlison conducted the devotional exercises and the lesson was taught by the president, Miss Nettie Beeching. The subject was, "The Power of Jesus," and she illustrated it through the use of the sand map and blackboard, making the lesson one of great interest to all. A very helpful talk was given on "Tardiness" by Miss Maggie Rocap. Owing to the increased attendance the meeting next week will be held in the hall on the second floor. Mrs. Mosher will have charge of the devotional exercises, and Mrs. Darby will teach the lesson. The subject will be, "The Sermon on the Mount." A business meeting will follow.

Suspected of Many Robberies.

John Hart, of Liberty Corner, who was arrested at Newark last week while trying to sell a cow that he had stolen from a Mr. Cornish, of Sterling, and who is now confined in the Morristown jail awaiting trial, is suspected of being implicated in the numerous robberies which have terrorized the farmers in that section during the past few months.

A Demurrer Filed.

Reed & Coddington, attorneys for John Johnson in the collectorship contest, have filed an answer to the quo warranto proceedings in the shape of a demurrer, and it is expected that in a few days a date will be set for the argument of the case in the Supreme Court at Trenton.

Officers Installed.

Regent Lightfoot, of Westfield, installed the officers-elect of Plainfield Council, No. 711, Royal Arcanum, last evening. J. Howard Leggett was made a member of the council after the ceremonies.

MORE TROLLEY TALK.

A LINE FROM ELIZABETH TO THIS CITY STILL DISCUSSED.

It Is Said That the Consolidated Traction Company Will Apply for the Franchise—Elizabeth Capital In It.

Barnard M. Shanley and David Young, of the Consolidated Traction Company, visited a number of the leading capitalists of Elizabeth Saturday afternoon, in the interests of a big trolley scheme, says the Newark Advertiser.

The Consolidated TractionCompany, aided by local capitalists, will propose to the cities of Elizabeth and Plainfield and connecting points the extension of the company's line through Elizabeth, Cranford, Westfield and Roselle to Plainfield. The company will ask that a franchise and the right of way be given without expense to itself.

This will be an offset, the projectors of the scheme say, to the large amount of money they will inevitably lose during the first ten years or so of the operation of the road.

Accompanied by several well-known men of Elizabeth, Messrs. Shanley and Young went over the proposed route on Saturday. They said that it was their plan to begin the construction of the line at once, if the franchise was granted.

It is the intention of the projectors of the scheme to build a trestle over the Sound from Elizabeth avenue and connect Elizabeth with Staten Island by trolley.

Several similar propositions have been made to Elizabeth in recent years, but the city has not received them favorably. Of late there has sprung up a feeling among the citizens that the city's interests may have been retarded in growth by such conservatism, and it is thought that the application for a franchise, which is soon to be made, will be granted.

In 1892 the Suburban Traction Company, of Elizabeth, headed by Senator Foster M. Voorhees, made application for a franchise similar to the one which the Consolidated Traction Company desires. It was denied.

The proposed line is to run into Elizabeth by Westfield avenue. It is thought that the other points to be touched will be as ready to grant the franchise as Elizabeth is supposed to be.

Elizabeth's Board of Trade will discuss the new trolley scheme at its annual dinner on Washington's birthday.

THE TRICKY WIND.

It Accompanies a Small Cold Wave to the Discomfort of Pedestrians.

If variety is the spice of life, then this winter should certainly be a very healthy one. Sunday was almost springlike in its mildness, yesterday was an ideal late autumn day, and today King Winter is appearing. A cold wave was the cause of it all, however. It made its first appearance yesterday and with it came the chilly north wind. It was not felt to any extent until the afternoon when the mercury began to fall and the wind to rise. The streets were hidden in clouds of dust which filled the eyes of the unwary pedestrian who searched vainly for his hat, now being swept along the street by the naughty wind. The wind was cold and piercing, and those who had been willing to linger in the balmy air of the day before, were now glad to hasten to some place of shelter.

Although the present weather is likely to improve them, the ponds in the vicinity are not as good as they might be. Despite that fact, there was quite a number that spent last evening gliding about Smalley's pond.

Last "At Home."

Yesterday was the last of Mrs. Stuart Hayt Patterson's receptions, Mondays in January being her "At Home" days to her friends at 316 Franklin place. She was assisted in receiving by her sister, Mrs. Kleinicke and Mrs. A. Stuart Patterson, and in the dining room by Mrs. Harry Depew, Mrs. Drayton, Miss Ewing from Philadelphia and others. Pink roses and white carnations were the decorations. A large number of callers extended their congratulations.

—Unity Lodge, No. 102, Knights of Pythias, meets tomorrow night.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

NEW UTAH SENATORS

Cannon Wins the Draw for the Long Term.

Their Entrance into the Senate Swells the List of Members to Eighty-nine—Both Classed as Republicans and Favoring Free Coinage—One Vacancy Still Exists.

Washington, Jan. 28.—The United States senate now consists of eighty-nine members, the swearing in yesterday of the two new Utah senators swelling the list to that number and there is still one vacancy, that from Delaware. Both of the Utah members are classed as republicans and as favoring free coinage. Lots were drawn to decide which was to fill the long term, closing March 3, 1899, and which was to fill the short term, closing March 3, 1897. Mr. Cannon was fortunate enough to win the long term, his colleague, Mr. Brown, having to take the short one. The joint resolution reported from the committee on agriculture directing the secretary of agriculture to comply with the law requiring the purchase and distribution of seeds was debated in the senate. Mr. Hansbrough, rep., N. D., arguing in favor of it, and Mr. George, dem., Miss., against it. No action was taken, and then the house bond bill with the free coinage substitute, was laid before the senate as unfinished business. Two speeches were made on the bill—one against free coinage by Mr. Nelson, rep., Minn., and one in favor of bimetalism and free coinage by Mr. Bacon, dem., Ga. The bill went over without action, Mr. Lodge, rep., Mass., giving notice of an amendment for the issue of 100 millions of 3 per cent. bonds for coast defenses. In the opening prayer the senate chaplain made an impassioned invocation in behalf of the people of Armenia, praying that the powers and people of Christendom may be aroused and united to force the sultan to "sheathe his bloody sword and to stay the frenzied rage and cruelty of his fanatical soldiery and subjects."

House of Representatives.

House yesterday discussed for four hours and passed, by a vote of 143 to 26, the senate concurrent resolution declaring it to be an imperative duty, in the interest of humanity, to express the earnest hope that the European concert brought about by the Berlin treaty may be speedily given its just effect in such decisive measures as shall stay the hand of fanaticism and lawless violence, and as shall secure to the unoffending Christians of the Turkish empire all the rights belonging to them as men and Christians and as beneficiaries of the explicit provisions of that treaty; requesting the president to communicate these resolutions to the five signatory powers thereof, and declaring that congress will support the president in the most vigorous action he may take for the protection and security of American citizens in Turkey, and to obtain redress for injuries committed upon the persons and property of such citizens. Various amendments were offered to the resolution, on the ground that it did not go far enough—one by Mr. Hepburn, rep., Iowa, calling for the dismissal of diplomatic relations with Turkey, but they were all rejected. Messrs. Turner, dem., Ga.; Grosvenor, rep., Ohio; Walsh, dem., N. Y.; Adams, rep., Pa.; Johnson, rep., Cal., and Bailey, dem., Texas, argued against the resolution. The diplomatic and consular appropriations for the coming fiscal year were then reported.

ALL DEPENDS ON JONES.

Tariff Bill May Be Reported to the Senate To-day.

Washington, Jan. 28.—It is thought that the senate committee on finance, which meets to-day, will be unable to report the tariff bill to the senate. Mr. Jones, Neb., has steadfastly refused to give any intimation whether or not he has changed his mind on the sugar schedule which he insists shall be added to the house bill, but his associates believe that he will relent and permit the bill to be reported.

Public Building Contract Annulled.

Washington, Jan. 28.—Secretary Carlisle has decided to annul the contract for constructing the Allegheny, Pa., public building, awarded to M. P. Scully of Cincinnati, at $64,000, for noncompliance with the terms of the contract. The figure at which he bid was generally recognized as so low that he would not sign the contract.

Postal Service Reforms.

Washington, Jan. 28.—Representative Gillett, rep., Mass., has introduced a bill in the house of representatives for continuing fourth-class postmasters in office during good behavior. It is in substance the De Forest bill of the last congress.

Caucus of Republican Senators.

Washington, Jan. 28.—A call has been issued this afternoon for a republican caucus to be held next Thursday to consider the subject of the reorganization of the elective officers of the senate.

St. Louis in Dock at New York.

New York, Jan. 28.—The American line steamer St. Louis from Philadelphia, which is to take the place of the stranded steamer St. Paul to-morrow, has arrived at her dock here.

Postmaster Nomination Confirmed.

Washington, Jan. 28.—The senate in executive session confirmed the nomination of Lewis W. Reed to be postmaster at Beaver, Pa.

READING'S EARNINGS.

A Deficit of Over $400,000 for the Month of December.

Philadelphia, Jan. 28.—The statement of the Philadelphia & Reading railroad company for the month of December, 1895 (the first month of the company's current fiscal year) shows gross receipts of $1,883,256.81 and gross expenses of $1,017,518.37, thus leaving a profit in operating of $815,738.44. Net recipts from other sources of $75,339.47, brings the profit for the month up to $891,077.91. From this, various charges amounting to $853.167.94 is deducted, leaving a surplus for the month of $37,909.94. From this surplus $520,000 for payments of car trust cirtificates is deducted, leaving a deficit after all payments of $482,090.06. Appended to the statement is the following note in reference to the car trust certificates: "These certificates matured during the years 1894 and 1895, and are not charged against the business of December." For the month of December, 1894, the deficit was $188,584.09.

CHARITABLE BEQUESTS.

Will of the Late J. E. Troup of Providence.

Providence, Jan. 28.—The will of J. E. Troup, of the Callender, McAuslan & Troup company, gives $25,000 in equal sums to charitable and missionary societies, including the Children's Friend society, Colored Shelter, Society for the Prevention of Cruelty to Children, Sophia Little home, Women's City Missionary society, American Board of Foreign Missions, American Home Missionary society, Missionary Society for the Cause of Freedmen and Indians, and the St. Elizabeth home; $25,000 is given to the Rhode Island hospital, to found the Jane Graham Troup ward for the treatment of cancerous diseases. Should the testator's daughter, to whom is willed most of the estate in trust, die without issue, the Rhode Island hopital is to receive the residuary estate.

STRONG REPLIES TO PLATT.

Offers a Reward of $500 for Proof of the Latter's Charges.

New York, Jan. 28.—Mayor Strong has issued a statement replying to the charges made by ex-Senator Platt in an interview that the present reform administration has been a thousand times more disgraceful than any of the known transactions of Tammany Hall, that it is no secret that positions with salaries of thousands of dollars a year have been offered to republican leaders to betray the organization, and that neither is it a secret that the men who obtained positions have been threatened with dismissal or have been dismissed when they failed to obey orders of the bolting bosses. The mayor offers a reward of $500 to any one who will establish the truthfulness of any one of the above charges, the offer to stand good during his term of office.

DEATH FROM STARVATION.

Verdict of the Coroner in the Case of Mary E. Hills.

Mamroneck, N. Y., Jan. 28.—The inquest into the death of Mary E. Hills, who was found dead in her cottage in Bonny Brook park, this place, on Tuesday last, was held in the town hall yesterday afternoon by Coroner Running and a jury. Nothing new was developed and the jury returned a verdict that the deceased died of starvation.

BELONGS TO UNITED STATES.

Ontario Government Releases All Claim to Coleman Island.

Toronto, Ont., Jan. 28.—The Ontario government has relinquished all claim to Coleman island, in Lac Lacroix, west of Port Arthur, an official survey demonstrating that it lies south of the international boundary line and in United States waters. The government had an impression that the island was within Ontario's boundary.

Free Delivery Postal Service.

Washington, Jan. 28.—On April 1 next free delivery postal service will be established at the following cities: Laconia, N. H.; Rockville, Conn.; Amhurst, Mass.; Jamaica, N. Y.; Belvidere, N. J.; Burlington, N. J.; Englewood, N. J.; Washington, N. J.; Dubois, Pa.

WILL INTERCEPT HER

Custom Officers on the Look Out for the Hawkins.

Spanish Officials Believe She Is Engaged in a Filibustering Expedition and Has Garcia Abroad with Arms and Ammunition and Men for the Cuban Insurgents.

Washington, Jan. 28.—Acting Secretary Wike has instructed collectors of customs to look out for the steamer J. W. Hawkins alleged to have left New York last Friday on a filibustering expedition to Cuba. Senor de Lome, the Spanish minister, says Calixto Garcia is aboard the Hawkins with arms and ammunition and men and that the steamer will take on more men and stores at Palma Beach, Fla.; that she will pass in United States waters near Key West; that the arms confiscated at Cedar Keys, Fla., are in readiness to be put aboard the Hawkins and that the famous steamer Commodore at Wilmington, N. C., forms part of the conspiracy. Orders have been sent to the revenue cutters Morrill, McLone and Colfax to proceed to sea and if possible intercept the Hawkins, provided the allegations of the Spanish minister are found to be correct. Little doubt is now entertained that it is to intercept if possible this expedition that the cruisers Raleigh and Montgomery have been ordered to sea.

Government Making No Headway.

Havana, Jan. 28.—The government operations against the rebels are being rapidly pushed, but as yet do not appear to be productive of any decisive results. The rebel commander-in-chief, Maximo Gomez, who has been reported to be attempting to make his way back to the eastern part of the island, is still somewhere a short distance east of the railway line running from Havana to Batabano. The rebel leader Lacret is reported to be near Jovellanos, in the province of Matanzas. Antonio Maceo, the second in command of the rebel forces, entered Mantua, a town in the western part of Pinar del Rio, on January 23. He was accompanied by half his command. The other half remained at Escortina, while wounded men belonging to Maceo's force were at Guane. It is believed here that Maceo's men will be compelled to abandon Guano and Escortina owing to the activity of Gen. Luque.

Recruits of '95 for Cuba.

Havana, Jan. 21, via Tampa, Fla., Jan. 28.—Cable dispatches from Madrid state that the government of Spain on the 21st instant will call into active service the recruits of the 1895 class. Hitherto they have not been called to the colors. The plan for sending reinforcements to Cuba has been modified. On the 10th of February nineteen battalions of 1,200 men each will sail for Cuba. General, the Marquis Ahumada, appointed as second in command in this island, is a distinguished member of a noble family. He also has been associated with the liberals and for many years was adjutant to the Duke of Torre.

FREE SILVER APPEAL.

Thurman Advises Democrats Not To Leave Their Party.

Columbus, O., Jan. 28.—Allen W. Thurman has issued a circular to the democrats of Ohio advising them not to leave the democratic party but to continue their fight for free coinage in its ranks. He argues that the populist party is impotent; that the republican party has always been the enemy of silver. The free silver democrats can now assure the election of free silver delegates to the national convention and thus put an end once and for all time to the greatest trust that ever existed—the gold trust, he says.

Could Not Be Cured

So They Said and So I Thought

But Hood's Sarsaparilla Did Cure.

"For 7 long years I was a constant sufferer with indigestion, and I tried prescriptions and remedies until I became so low that I had given up all hopes of recovery, and my friends thought also that I could not be cured. The poison in my blood had set in deeply, and my limbs were a

Solid Mass of Sores.

I was confined to the house and to my bed most of the time. I happened to read an advertisement of Hood's Sarsaparilla in the paper and I at once prevailed upon my husband to let me try it. I got one bottle and it did me so much good that I kept using it until I had taken twelve bottles and now I am entirely cured. I am a well and hearty woman and can do my work with all ease and comfort." MRS. LOUISA MATLOCK, Bonita, Texas.

Hood's Sarsaparilla Cures

Hood's Pills are purely vegetable, and do not purge, pain or gripe. Sold by all druggists.

General Debility.

That complete collapse of the entire system, when the organs improperly perform their functions, and as a natural result a cessation of nourishment to the body ensues, a continual loss of flesh is experienced, and death from starvation is the end. This trouble is in every instance averted by the use of that greatest concentrated food product

Bovinine

Retained by the weakest stomach, readily assimilated, new flesh and nerve tissue is created, the blood is enriched, the vital organs resume their natural functions and a return to health is the result. In this connection, Dr. M. W. Van Denburg of Fort Edward, N. Y., says, "I have used Bovinine in cases of extreme debility where no other food would be tolerated and with very satisfactory results." Physicians everywhere tell the same story.

TALES OF SUFFERING

Fugitive Armenians Detained at New York.

Liable To Deportation, Which Might Mean Death to Them, and Certainly Imprisonment—One of the Unfortunate Men's Family Slain Before His Eyes by Kurds.

New York, Jan. 27.—Two Armenians, whose families have been slaughtered in Turkey by the Kurds, are now prisoners on Ellis island without the necessary amount of money to secure their admission to this country. They came on the Cunarder Servia, which arrived Jan. 20. Their tale of injustice and sufferings is piteous, and they plead for admission on the ground that they are not paupers and that deportation means to them, perhaps, the loss of life, and certainly imprisonment. The men are Peter Der Garabedian and D. N. Ghacherdoorian. The first is unmarried and 22 years old. The latter is now a widower and is 30 years old. Both were residents of Harpoot, near Alexandretta, Turkey, until four months ago, when they stole away at midnight and after many hardships reached Smyrna.

Children Slain; Wife Kidnapped.

Ghacherdoorian was in bed with his family when he was aroused by the fierce yells of the Kurd soldiers and the sound of shots. Before his eyes his three little children were torn from their mother's arms and slain. Then the wife was seized by brutal hands and carried away the while crying to the helpless husband to rescue her from the fate that the Armenian woman fears more than death. She was never seen again by the husband. Daylight came, and Ghacherdoorian remained in a cellar all day. At night he and Garabedian stole away. All night they walked and the next day they hid again. And so they travelled until they reached Smyrna, where they found friends whom tney could trust. From Smyrna they went to Marseilles and from there they took the steamer to Liverpool. There they sailed on the Servia for America. But as they had no money Dr. Senner, the commissioner of immigration at this port, was compelled to detain them. The Armenian Relief association of this city has become interested in the case and every effort will be made to have the two fugitives liberated.

DEMAND HIS RESIGNATION.

Dorchester Church Members Are Against Congressman Atwood.

Boston, Jan. 28.—At the service in the First Parish Unitarian church, Dorchester, Sunday, Rev. E. R. Shippen, the pastor, informed his congregation of a petition requesting the resignation of Congressman Atwood, which such of the voters and taxpayers present as desired to do so could sign in the vestry after the services. The announcement created considerable suppressed excitement and at the conclusion of the services quite a number of the worshipers passed into the vestry to sign the paper. The congressman's resignation is demanded because of certain facts connected with his administration of the office of city architect, which were brought out in the recent Atwood-Peabody libel suit.

KAISER'S 37TH BIRTHDAY.

Celebrated in Germany with Great Ceremony.

Berlin, Jan. 28.—The emperor's 37th birthday was celebrated yesterday with great ceremony. Divine service was held in the morning in the castle chapel, and later a grand reception was held in the white hall of the Schloss, which was attended by a large number of guests, including the foreign diplomats, a number of the royal and reigning princes, the ministers of state and many others of the high government officers.

Quebec's Winter Carnival.

Quebec, Jan. 28.—The official opening of the Quebec winter carnival took place yesterday afternoon in the presence of an immense crowd of spectators. The city is full of visitors, most of whom are Americans, and incoming trains are crowded. The ice bridge over the St. Lawrence forms a great attraction and hundreds crossed on it to-day.

Against a Second Track.

Trenton, Jan. 28.—Vice-Chancellor Bird has filed an opinion in the litigation instituted to prevent the Pennsylvania Railroad company from laying a second track through the middle of Broad street in the city of Burlington, and grants an absolute injunction restraining the railroad from carrying out its project.

Car Robbed of Its Brass Work.

New Haven, Conn., Jan. 28.—It has just come out that a few weeks ago President Clark's private car was completely stripped of all of its outside brass work to the value of $600. The car was in the railroad yard at the time. There is no clue.

World's Fair Medals Received.

Washington, Jan. 28.—The World's Fair medals, 23,857 in number, were received at the treasury department last evening. The medals will be held here until the commission meets and adopts measures for their proper distribution.

Pensacola Aground.

Galveston, Tex., Jan. 28.—The steamer Pensacola is aground on a spit just to the north of the quarantine station. She is lying easy and will probably come off at the next high tide with the assistance of wreckers.

MURDERED BY A BURGLAR.

A Yonkers Woman Choked to Death.

Yonkers, N. Y., Jan. 28.—A daring robbery followed by a murder occurred in this place last night. The victim was Mrs. Edmund Tucker, who resided on Central avenue. Mr. Tucker arrived at his home shortly after 7 o'clock, and found the doors locked. He climbed in through a window and found his 5-year-old boy in a back room. The child informed him that a man wearing a beard had entered the house about dusk and struck and choked his mother. Mr. Tucker immediately began a search and found the body of Mrs. Tucker, who was shortly to become a mother, in a small hallway off the sitting room. She had been choked to death, as several finger marks were plainly visible upon her throat. There were also several bruises on her breast and body showing that the burglar had repeatedly hit and kicked her. The child has an injury on the right temple. After the finding of the body a search of the house was made and it was found that considerable jewelry and clothing had been stolen. The general opinion is that Mrs. Tucker discovered the burglar in the sitting room and when she made an outcry he killed her.

WOMAN SUFFRAGISTS.

Officers Elected by the Convention at Washington.

Washington, Jan. 28.—The woman suffragists have elected the following officers for the ensuing year: Honorary president, Elizabeth Cady Stanton, New York city; president, Susan B. Anthony, Rochester, N. Y.; vice-president-at-large, Rev. Anna Shaw, Philadelphia; corresponding secretary, Rachel Foster Avery, Philadelphia; recording secretary, Alice Stone Blackwell, Boston; treasurer, Harriet Tyler Upton, Warren, O; chairman committee on organization, Carrie Chapman Cate. As under the constitution auditors of the national association must be changed every year, Miss Loury Clay of Kentucky and Miss Sarah Cooper of San Francisco were newly elected to those positions.

ST. PAUL STILL AGROUND.

She May Be Gotten Off at High Tide To-morrow

Long Branch, N. J., Jan. 28.—The American line steamship St. Paul is still fast in the sand off the beach here and it is not likely that she will be hauled off before to-morrow morning, when an extra high tide is expected, if even then. The work of removing her cargo to lighters is being speedily pushed forward. The steamer is somewhat listed to port and the sand is being banked up against her by the ground tide. The wrecking tugs are standing by and additional hawsers have been run out to kedge anchors to guard against the waves carrying her farther up the beach. One of her propeller blades is broken.

NEWPORT COTTAGE TRANSFER

L. L. Lorillard's House Bought by H. McK. Twombly.

Newport, R. I., Jan. 28.—One of the largest real estate sales ever consummated here took place yesterday, the purchaser being H. McK. Twombly, brother-in-law of the Messrs. Vanderbilt of New York. The estate sold is "Vinland" at Ochre point, owned by Louis L. Lorillard, to whom it was bequeathed by his aunt, the late Miss Catherine Wolfe of New York. The asking price was $1,200,000, but a much less price was paid. The sale was made by De Blois & Eldridge of Newport and New York.

TO STOP TURKISH OUTRAGES.

A Suggestion That the Powers Invite the United States To Act.

London, Jan. 28.—The Chronicle today publishes a leader advocating that the powers, who, owing to their respective interests and mutual suspicions, seem powerless to act, invite the United States to send a fleet to force the passage of the Hellespont and compel the sultan to stop the barbarism prevailing in Anatolia. The paper says it does not suppose that fighting would be necessary, but if it were it urges that a British fleet should co-operate with American warships.

Wanamaker To Sail for Europe.

Philadelphia, Jan. 28.—Ex-postmaster general John Wanamaker will sail from New York to-day on the steamer Fuerst Bismarck for Genoa, Italy, where he will join Mrs. Wanamaker and their daughter, and will proceed to Palestine, where they will make a brief stay.

Against the Raines Bill.

Buffalo, Jan. 28.—The board of aldermen has adopted resolutions requesting the assemblymen and senators from Erie county to earnestly oppose the passage of the act in relation to the traffic in liquor known as the Raines bill.

Baseball Prospect Bright.

Waterbury, Conn., Jan. 28.—Roger Connor and Frank L. Donahue, who have signed with the St. Louis nine as first baseman and pitcher, respectively, say that baseball prospects were never better than at present.

Gold Reserve Slightly Increased.

Washington, Jan. 28.—The treasury gold reserve to-day at the opening of business stood at $50,533,313. There was deposited yesterday at New York $1,000,000 in gold and $131,400 in gold was withdrawn.

Will Not Resign at Present.

Baltimore, Jan. 28.—It may be definitely stated that president John K Cowen of the Baltimore & Ohio railroad will not resign his seat in congress until the close of the present session

THE DEAD AMBASSADOR

Funeral Services at the Runyon Residence.

Public Services To Be Conducted at the Episcopal Church in Berlin Thursday—Message of Condolence from Emperor and Empress—Mrs. Runyon Prostrated with Grief.

Berlin, Jan. 28.—The emperor and empress have sent their condolence to Mrs. Runyon. The room in which the body of the ambassador lies contains a large number of wreaths sent by friends. All receptions in the American colony have been postponed. The Rev. Mr. Dickie will officiate at the services that will be held at the Runyon residence this afternoon at which only members of the family will be present. At the services which will be held at the Episcopal church on Thursday the Rev. Mr. Dickie and the Rev. Mr. Fry will officiate. Mrs. Runyon is prostrated with grief and declines to see any one except the members of her family. Mr Runyon seemed to have a presentiment that he would die suddenly. On Saturday he had a somewhat lengthy conversation with J. B. Jackson, the first secretary at the embassy, and told him that his private affairs had been arranged against his death. Last summer Mr. Runyon had planned an extended trip through Norway, but on the advice of his physician he abandoned it, and instead, went to Carlsbad, where he took the cure. He subsequently went to Axenstein, in Switzerland, for the purpose of taking an after cure. Since that time he has manifested great activity in the discharge of the duties of his office, which have been more than usually onerous on account of the complications in European affairs which have more or less demanded the attention and care of the diplomatic representatives of all nations.

No Request for a War Vessel.

Washington, Jan. 28.—It is said at the state department that no request has been made by Mrs. Runyon for a war vessel to convey the remains of her deceased husband to America. Should such a request be made and granted considerable time must elapse before it can be carried out. The three United States vessels attached to the European station are all in Turkish waters, and it would be several weeks before they could reach a German port for the purpose of receiving the ambassador's remains. One of the vessels of Admiral Bruce's squadron, now at Fort Monroe, Va., might be assigned to the duty, but this would cause great delay.

Action of New Jersey Legislature.

Trenton, Jan. 28.—The senate last night adopted the following resolutions on the death of Ambassador Runyon: Whereas, Announcement has this day been made of the sudden demise of Gen. Theodore Runyon, United States ambassador to the court of Berlin, and whereas, Gen. Runyon, throughout the whole of his notable career has been identified with the best interests of his state and nation, therefore, Resolved, That in his death the state of New Jersey and the nation at large lose an upright citizen, a distinguished representative, a patriotic soldier, and, above and beyond all, an honorable, Christian gentleman. Resolved, that his careful regard to subserve the rights of the lowly as well as those of high estate have made his memory blessed to the hearts of all the people. Resolved, that this senate affirm its high esteem of the character of our departed friend and hereby orders that these resolutions be spread upon the record and that a copy be sent to the stricken family. The assembly also adopted suitable resolutions.

RELIEF WORK IN ANATOLIA.

Over 100,000 Depending for Bread on Anglo-American Fund.

London, Jan. 28.—The Daily News to-day says that satisfactory reports have been received of the relief work in thirteen centres in Anatolia. In the districts covered from these centres there are 120,000 persons depending upon the Anglo-American fund for their daily bread.

Hebrew School Incorporated.

Albany, Jan. 28.—The Rochester Hebrew Religious school has been incorporated with the secretary of state to establish and maintain a school for the prosecution of literary, scientific, philosophical and theological studies in harmony with and in conformity to the teachings of the Jewish church.

Lightship Damaged by Storm.

Newport, R. I., Jan. 28.—Brenton's reef lightship was somewhat damaged in Friday's storm, and Capt. Fogarty was only able to report the fact yesterday, when he came ashore for the first time in a month. The davits and boats were broken up by the heavy seas.

B'nai B'rith Convention Adjourns.

New York, Jan. 28.—The convention of the Improved Order of B'nai B'rith was ended in Webster hall last night. The principal headquarters of the secretary are to be in Baltimore with a branch office in New York city.

Minister Ransom at New Orleans.

New Orleans, Jan. 28.—Hon. Matt Ransom, United States minister to Mexico, is in this city on his way back to the city of Mexico. He will rest a day or two before he resumes his journey.

Escaped Convicts Recaptured.

Birmingham, Ala., Jan. 28.—Four of the seven convicts who escaped yesterday from Coalburg prison mines have been retaken.

WEATHER INDICATIONS.

(Furnished by Weather Observer Neagle.)

Fair Tonight and Wednesday; Stationary Temperature.

At 2 o'Clock Leggett's Thermometer Registered 46 Degrees.

Ex-Senator McPherson is mentioned as the successor to Ambassador Runyon.

The newest new thing that has startled New York is the conviction and sentence of a man for stealing diamonds from an actress.

Richard Croker has again proclaimed that he is out of politics. For the past year this seems to have occupied a large portion of Mr. Croker's time.

It is evident that Sheriff Wyckoff of Somerset county is not afflicted with Tamsenism; otherwise desperate people might be roaming free in this locality.

If Governor Griggs shall faithfully and courageously carry out the platform which he has outlined in his inaugural, he will write his name high on the scroll of the distinguished Governors of our State who have made its name famous in the annals of our nation. That he has the ability to see what is needed in the administration of the affairs of our State and the courage to point them out, is in evidence in his remarks on the platform on Tuesday last. If he shall now unselfishly bend his energies to the reforms which he declares ought to be made, and the accomplishment of the objects which he deems to be necessary to honor and prosperity of our people, he will retire from office with the respect and high esteem of all that portion of the commonwealth whose good opinion is worth having. If, on the other hand, he shall begin to cherish hopes of future advancement, and yield to the blandishments of partisan leaders, he will fail of his high mission, throw away his golden opportunity, and like too many who have occupied high and responsible positions, retire to private life and deserved obscurity.—True American.

EARLY INTELLIGENCE.

—Neuman Brothers are making a specialty of their delicious Greening apples at 30 cents a basket.

—The members of Thule Lodge will enjoy a dance in Red Men's Hall, Thursday evening of this week.

—Minerva Temple, Rathbone Sisters, will probably hold an entertainment Tuesday evening, February 11th.

—Marsh, Ayers & Co. started work today in the house of John Keely, on Kensington avenue, which they will completely paper and decorate.

—The right thing in the right place is your right hand in one of Peck's kid gloves. N. B.—You can put your left hand in the one that is left of the pair.

—A reception will be given Easter Monday at Saengerbund Hall by the International Order of American Machinists. Rogers will furnish the music.

—It was a regular holiday crowd at White's Saturday and the new house furnishing department was crowded. Over 800 of the little night lamps were given away to the visitors.

—The Rev. E. M. Rodman, of Grace church, assisted Sunday at the dedication services of St. John's Episcopal church at Somerville. The handsome new edifice is of Gothic architecture, unique and harmonious in design.

—Great Incohonee Charles Litchman, of Boston, will not be able to make an address at the the entertainment of Miantonomoh Tribe, No. 118, I. O. R. M., February 11th. There will be an entertainment, however, to be followed by a dance.

—The following new telephones have been put in bo the New York and New Jersey Telephone Company: J. F. Wilson, Greenbrook road, No. 52; ex-Councilman F. E. Marsh, Madison avenue, No. 16 1B; George B. Cobb & Co., East Fourth street, No. 129 F; A. R. Dyett, Belvidere avenue, No. 67 F.

PARTICULAR MENTION.

Frank Havens, of New York, is visiting friends in town.

W. F. Bartlett, of West Front street, is out after a week's illness.

Frank Linbarger, of Elizabeth, visited friends in town Sunday.

George Snediker, of Grove street, is out again after a short illness.

Bronson Smith, of West Eighth street, spent Sunday in Brooklyn.

Ernest Millard, of Randolph's pharmacy, visited friends in Newark on Sunday.

Miss Perrine, of East Fourth street, who has been ill for sometime is not quite so well.

Herbert L. Richardson has returned to his work in the High School after a week's illness.

Mrs. Isaac Smalley, of East Front street, is very much improved from her recent illness.

Rev. J. W. Richardson, of the Park Avenue Baptist church, has entirely recovered from his illness.

Rev. J. O. McKelvey, after a painful illness, is once more able to attend to his duties as pastor of Warren chapel.

Howard Roome, of Sycamore avenue, is wearing his arm in a sling on account of a serious cut on his hand.

George Wilson resumed his work at Hillier & Co's yesterday, having recovered from a recent accident to his foot.

Thomas H. Keller has left San Antonio, Texas, and gone to Fort Worth, Texas, where he will remain for a time.

Editor Runyon attended a dinner Saturday evening in New York given by the college society of which he is member.

Bertie Coddington, the youngest son of S. Coddington, of 155 Grove street, has been very ill, but is slowly recovering.

Henry Leal, of Madison avenue, who has been confined to his home by sickness, has returned to his studies at Leal's school.

The little daughter of Henry Brick, of South avenue, has been confined to the house with a cold instead of the typhoid malaria.

Miss Jennie VanFleet, of Rahway, and Miss Blanche Miller, of Newark spent Sunday with Miss Louise Snediker, of Grove street.

The engagement of Miss Anna S. Sanger, of Scott, Pa., to David Bodine, of Grandview avenue, is announced. The marriage will take place in the spring.

Mr. Rousel, of Somerville, the representative of The Jersey Knight, a paper devoted to Knights of Pythias matters, has been in town canvassing among the local Knights.

Miss Hattie Willis, of Johnston Drive, left yesterday for Union Course, L. I., where she will act as assistant postmaster to her brother in law, Charles Dietz, who formerly resided in this city.

—The marriage of Miss Catherine Agnes Mullen and George Lawrence Hughes will take place tomorrow afternoon at 4:30 o'clock in St. Mary's church, and not at 7 o'clock as was announced in Yesterday's Daily Press.

—All bills against the city for the month of January must be in the hands of the City Clerk by Thursday night and all applications for licenses must be in his hands by Saturday night to be acted upon by the Common Council next Monday night.

J. W. Pierce, Republic, Ia., says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself." L. W. Randolph, 143 W. Front St.

AN OLD CITIZEN.

Leonard R. Proctor Celebrates His Ninety-First Birthday in Plainfield.

Leonard R. Proctor, of Hartwick, Otsego county, N. Y., father of Mrs. Seymour G. Smith, of Crescent avenue, who is spending the winter in Plainfield, celebrated his ninety-first anniversary Sunday. Mr. Proctor was born in Brookfield, Madison county, N. Y., in 1805. He was well acquainted with the parents of the late George H. Babcock and also with the parents of Charles Potter, and knew them both as boys. His early education was obtained in a log schoolhouse. One of his earliest teachers was Asha Babcock father of the late George H. Babcock. He attended the Seventh-Day Baptist church in Brookfield when Mr. Potter's grandfather was a deacon in the church, and Elder Bailey, who many of the old residents of this vicinity well remember, as he frequently preached here and in New Market, was pastor of the church. Mr. Proctor's early business was in farming and droving. His market for stock was principally in Monmouth and Middlesex counties. Fifty-eight years ago he passed through Plainfield with his first drove. He says at that time this city was a small hamlet. On his return trip he was ferried from New Jersey to New York on a boat propelled by horsepower. He was well acquainted with Nathan Vail, who was president of the Plainfield Bank, and many others of the old residents. About twenty years ago he met with the sad affliction of losing the sight of both eyes by a cataract. Mr. Proctor is hale and hearty, enjoying excellent health, and is a vigorous as most of the men nowadays are at fifty.

THEATRICAL.

"One of The Bravest," will be the next attraction at Music Hall, which will appear here on Saturday evening. This is a play in which the career of a New York fireman is given its full title to glory, and Larry Howard, the young actor, succeeds in carrying the idea through to the end with genuine enthusiasm. The spectacular feature of the performance is a scene at a fire, where a life-saving apparatus, a jumping fire-net and scaling ladders are worked, as if in real service, aside from the scenic effects. Several specialities, singing and dancing by members of the company add to the pleasure of the entertainment.

"Clyde Line," From New York to Jacksonville, Fla., Reduces the Time Twenty-Four Hours.

The growing popularity of the "Clyde Line" has necessitated their building new, commodious, fast, steel steamships which make the run right through to Jacksonville, Fla., without change, in two-and-a half days, including six hours stop in Charleston. The "Clyde Line" steamers sail from Pier 2, East River, New York, Mondays, Wednesdays and Fridays, at 3 p. m. If you go to Florida once by the "Clyde Line" you will always go that way. The "Clyde Line" is certainly an all-around up to-date concern, and is untiring in its efforts to give their patrons entire satisfaction. They are not afraid to spend a dollar, when by so doing they can add to the comfort or pleasure of their patrons. In fact they owe their great popularity and increase in passenger travel to this very liberal system, always contending that their passengers shall have the best, regardless of cost, so that when they leave the steamer at the end of the journey they become itinerant advertisements for the "Clyde Line." Low rates; quick time; perfect safety. Write "Clyde Line," New York, for descriptive matter, mailed free

—Business will be transacted at the meeting of Winfield Scott Post, No. 73, G. A. R., this evening that requires the attendance of every member.

—The second annual conference of the Women's Auxiliaries to the Young Men's Christian Association of New Jersey, will be held at Trenton, next Friday.

STORY OF THE WRECK.

And a Story Fraught With Bitterest Memories.

The Awful Grandeur The Terrible Meaning.

Echoes of a Lost Courage—The Star of a Rising Hope.

A decaying wreck on a wave-washed shore. Bare-ribbed, sun-bleached, rotting inch by inch a perfect picture of utter uselessness.

Is there not a strange analogy between this desolation and the wreck of you own health, your own hopes, your own life?

You are prostrated by physical and nervous weakness, unable to do your work with ease and comfort; every duty is a burden and you are weak, tired, enervated, exhausted. You feel that you are daily growing more and more nervous, you become worried and anxious in mind, blue, disinheartened and discouraged. You cannot eat or sleep well, and your liver and bowels are irregular in action.

In fact, you are fast becoming a wreck. You will soon become useless—useless to yourself, useless to your family, useless to the world. And you will lie on the shores of time like the slow decaying ship, a burden to your family and friends, an object of pity or contemptuous indifference, while the winds of unfulfilled hopes, desires and ambitions disturb your repose, and the waves of bitter and vain regret lash you with the knowledge that you might have been cured if you had only taken your case in time.

What is the moral?

Don t delay!

Delay has sacrificed more lives than war and famine combined Thousands languish under nervous and physical disease that are easily and readily curable now. Tomorrow or next week it may too late, and the sufferer who delays when cure is within grasp is more foolish than the fool, more idiotic than the idiot. If you will use Dr. Greene's Nervura blood and nerve remedy your cure is assured It will give you vigor of brain, power of intellect, strength of nerve, create a new digestion regulate the action of all the organs, invigorate the blood, and restore the weak and run-down system, languishing under its weight of disease, to all its old-time health—bounding pulse, elastic step, strong and steady nerves, keen zest of mind and heart, renewed ambition and enjoyment of each hour as it passes.

It did all this for Mr. E E Adams, of South Walpole, Mass., who says:

'One year ago I was, to speak within bounds, or to tell the truth, all broke up. Could not sleep, and eating was a burden, and for over three months I could not lie down nights on account of rheumatism. Was way down in weight only about 140 pounds and did not care if I went up altogether.

'I then, after trying everything heard of and all local doctors, began taking Dr Green's Nervura blood and nerve remedy, which has done the work. I can sleep all night, eat with the best of them, and what I do eat does me good. Nervousness all gone; rheumatism almost forgotten, and my weight 167 pounds, and all with six bottles of Nervura. It is the one all-round remedy. I recommend it to everybody. Could give two or three cases that are as high in its praise as I am, through what it has done for me.

"There is no person living who can use Nervura and use it faithfully without being benefited. What it has done for me it will do for others, if its directions are faithfully followed. All praise to Dr. Greene's Nervura."

Use Dr. Greene's Nervura blood and nerve remedy, for it is a physician's prescription, the discovery of our most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City, who can be consulted concerning any case, without charge, personally or by letter.

High School Notes.

Examinations in the High School commenced today and will be continued for about two weeks, two examinations each week.

Today the senior class was examined in geometry; the junior class in modern history and the third and fourth classes in algebra.

All recitations coming before recess were omitted, and only the two which occur after the recess period were held, and these the first part of the morning, the last three hours of the day were given to the examinations.

On account of the stormy weather last Friday the attendance was small, and the meeting of the Kappa Detta Phi was postponed for one week.

A Children's Party.

A birthday party was given to Russell Adams, of East Sixth street, last week, and a very pleasant evening was spent. Among those present were Charles and Katherine Hebard, Margaret Hebard, Harry Messersmith, Walter Hockridge, Kendall Mason, Lindley Adams and Harold Adams.

Scotch Plains.

The revival services will be held tonight, Wednesday and Friday nights, instead of tonight, Thursday and Saturday nights as stated in yesterday's Daily Press.

Charles Vail, the veteran bowler of the Crescent Wheelmen, rolled 215 last week in practice.

The game between the Crescent Wheelmen and the Elizabeth Athletic Club tonight on the Crescent's alleys will begin promptly at 8 o'clock.

Tomorrow evening, the Y.M.C.L.A., of Elizabeth, will meet the Orange Valleys in the Diocesan League. The game will be rolled at Elizabeth.

The Y. M. C. A. bowling team goes to Westfield tonight to roll the Y. M. C. A. there. The Plainfield team will consist of Laing, Lederer, Smith, Sutphen and Carroll.

A game has been arranged between the junior five-men teams of the Park Club and the Crescent Wheelmen It will be rolled Friday evening on the Park Club alleys. Both teams are confident of victory.

The Union County Roadsters will roll a return match here with the Crescent Wheelmen on Monday. The Wheelmen will be represented by the same team that went to Rahway—Anderson, Clarkson, Bamberger, Homan and Baker.

At the close of the bowling match on the Crescent Wheelmen's alleys last evening another match between two other teams was arranged for Thursday, February 6. An announcement on one of the clock boards stated that the "Single Men," VanEmburgh, Clarkson, Coward, Baker, Anderson, Price, Bamberger, Sanders, N. Titsworth and Maltby, would roll a ten men team of "Married Men" on any open date that could be chosen. The Benedicts held a council of war and decided to meet them with the following team: VanSickle, Kiely, Nash, Stephenson, Vail, Buckle, Lowry, Lister, Hand and Wilbur. The date was chosen and beneath the list of the two teams was written the very significant phrase "Bring your lady friends."

The Will Bes, or, as some of the bowlers called them, the "Trilbys," were not in it last night with their veteran rivals, the Has Beens. Even if the handicap had remained 100 pins, as previously, it would not have made any difference in the final result. The Has Beens were ahead the first frame, the last frame, and all the intermediate frames, and that's the whole story of the game. The Will Bes made a few inefficient kicks to get to the top, but it didn't do any good, and the silvered bowling pin with the bow of orange and blue ribbon, went to the Has Beens. Clarkson, of the defeated team, managed to secure the envied position of high man by rolling three strikes in his last frame. Wilbur was only one pin behind him. The individual records of those who rolled were as follows:

HAS BEENS.		WILL BE'S.	
Kiely	167	Anderson	172
Lowry	146	French	140
Coward	172	Sanders	142

VARIOUS SPORTS.

The San Antonio (Texas) Daily Express recently printed a column about the return of a hunting party, a member of which was Tom Keller, of this city. The Express says of him:

Tom Keller, whom the United States Cartridge Company sends out to do missionary work for the sport and to revive interest in the gun, wherever it may be drooping, says he's got a text that will last a year since he came to San Antonio just two weeks ago.

"I have never seen such fine hunting in my life," Mr. Keller said to an Express reporter last night. "I thought I had shot on all the best fields in the United States, but now I unhesitatingly award the distinction to Southwest Texas. It was a revelation to me, as it was to everyone with us. But, for that matter, our trip to San Antonio and Southwest Texas has been nothing but a series of revelations. Will I be here next winter? The only preventing power lives up yonder," and he pointed upward. "I can't conceive of anything but death that can keep me away. Yes, I'll be here. So will Mrs. Keller. We'll be down three weeks before the tournament, and while Mrs. Keller is seeing the quaint and beautiful scenes about San Antonio, I'll be down southwest of here looking after game."

CYCLING COMMENT.

Dave Cox, a well-known young man of Elizabeth, recently invented a plan by which a bicycle tube will retain its normal shape after being punctured.

The new '96 Cleveland tandem that has been on trial at F. L. C. Martin's Cycle Company's salesrooms for the last few weeks, was shipped to Kerr & Martin, at Newark, yesterday, for trial in that place.

The Eldridge Bicycle Company has just received two new '96 Columbia tandems, one a combination and the other a man's. They will be placed in the rental department as soon as the riding season begins.

AT THE TRAPS.

There will be a meeting of the Sportsmen's Club this evening at the office of Percy C. Ohl, in the Babcock building, at which time the committee on resolutions will report.

Edward Earl, proprietor of the Rahway Avenue Hotel, and manager of the Midway Plaisance Gun Club, of Elizabeth, has made every arrangement for a big live bird shoot on his Rahway avenue grounds on Saturday, Feb 8. There will be an interesting programme of sweepstake events and in addition three match shoots. Chas. Wooden, of Woodbridge, will meet Fred Ackerman, of Rahway, in a 25-bird race for $25 a side; Fred Ackerman and Clarence Lambert, the latter of Plainfield, will shoot the same kind of a race, and N. H. Astfalk and Edward Earl, both of Elizabeth, will shoot at ten birds each for $15 a side.

GOLF.

The most interesting event in the golfing world at the present time will be the annual meeting of the United States Golf Association, to be held early next month in New York. Several important matters will be decided, for, besides the election of officers for the coming year, the delegates will have to decide upon the course to hold the amateur and open championships next October, and few minor changes are also proposed in the constitution.

BOROUGH PROSPERTY.

Many New Residences That Are Going Up In the Borough.

During the past six months there has been a great demand for borough real estate, and many new houses have been completed, while numbers are now in course of erection. Contractors J. H. Manning & Son, have purchased from B. A. Hegeman, Sr., lots on Mercer and Willow avenues, where they will break ground in the early spring for three large houses. Isaac Vail, of Basking Ridge, has purchased, through the agent, J. B. Coward, a lot 50x150, at the corner of Somerset street and Mountain avenue, where he will erect a handsome residence in the spring. William J. Buttfield has just completed three large dwellings on West End Rockview avenue. Edward White, the Front street merchant, is having a fine new home built on Myrtle avenue, which is to be completed about May 1st.

Contractors Pierson & Gayle are hurrying the completion of Borough Councilman John Valiant's new house on Myrtle avenue, which is to be ready for occupancy about April 1st. On the same avenue, houses are being built by William J. Roome, Geo. T. Rogers, and Jeremiah Manning and Woolston Buckle, of North avenue, are erecting a large house on Willow avenue. Mannning & Son have just completed an eight room house, with latest improvements, for B. A. Hegeman, Sr., on the corner of Myrtle and Washington avenues. Sycamore avenue has also been improved by the erection of two large houses for F. S. Brown. A. E. Faber, of Mercer avenue, has had three very pretty five room cottages erected at the upper end of Grove street, which are ready for occupancy. The German Reformed church has now in course of erection a seven room cottage for a parsonage, at the corner of Duer street and Park place. On Stone street, William H. Bohl has just completed one house, in which he resides, and has another on the same street nearing completion. There are also three houses going up on Fairview avenue, the owners of which are Chas. H Hand, E. A. Lowe and E. A. Cobb. On Coddington avenue, F. W. Hargrave, of Vine street, has about completed a new home, which he will occupy about March 1st, and plans are being figured on by carpenters for a home for Corra Ryno, bookkeeper in the Daily Press office, also on Coddington avenue. J. W. Mundy, of Somerset street, will soon reside on Summit avenue, in the house just built by him. George A. Schelerth is also erecting a new house on the lot belonging to him on Chatham street.

The steady growth of the borough is due to good government, good roads and low taxes.

—Cranford has followed Plainfield's lead and held a union meeting of the churches Sunday night to pass resolutions protesting against the Armenian outrages.

—An oyster supper will be given in Marconnier chapel next Thursday from 2 to 10 p. m. Oysters will be served in three styles—raw, scolloped, and stewed.

—The record of remarkable cures effected enables us to truthfully say that Hood's Sarsaparilla is the only true blood purifier prominently in the public eye today.

—Leggett, the druggist, is having a very busy season just now, and the uptown people find it very convenient to stop in his new store and have their wants supplied. He is located in the Y. M. C. A. building, and has an unequaled supply of everything to be found in a first-class drug store.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

It Costs Little and Does Much.

Remark when you attend a play or concert how many people disturb the performance by coughing. One man begins and the cough seems to be contagious. The interruption is a great nuisance, and there is no need of it, for any one may cure a cough with the Pineola Balsam, which costs 25c. It soothes the inflammation in the throat and loosens the mucus which clogs the air passages. A few doses of Ely's Pineola Balsam stop a cough and heal a sore throat.

"Give me a liver regulator and I can regulate the world," said a genius. The druggists handed him a bottle of DeWitt's Little Early Risers, the famous little pills. L. W. Randolph, 143 W. Front St.

FIRESIDE FRAGMENTS.

—Gum arabic and gum tragacanth in equal parts, dissolved in hot water, make the best and most convenient mucilage to keep in the house.

—A Rich Pudding. — One pound of raisins stoned, one pound of currants, half a pound of beef suet, quarter of a pound of sugar, two spoonfuls of flour, eight eggs, a cupfuls of blanched almonds and one of sweetmeats. Mix well and boil in a mold for eight hours. —N. Y. Observer.

—Jumbles.—One-half pound butter; one pound sugar mixed to cream; two eggs; two tablespoons extract of rose; add flour enough to make dough stiff enough to roll out quite thin, cut in any shape, bake on well greased cake tins, when baked should be one-sixth of an inch thick.—Mrs. S. B. Sheets, in Womankind.

—Coffee Cream Cake.—For any good layer cake make a filling as follows: Three tablespoonfuls of coffee and a cup and a half of cold water; steep and strain. Thicken with corn starch, sweeten. Add whipped cream to taste. Milk may be added to the coffee before thickening, in place of the cream. It tastes like coffee ice-cream soda.—Farmer's Voice.

—Apple Rice Pudding.—Pare, quarter and core three tart apples and spread loosely in a buttered agate pudding dish. Add three-quarters cupful of sugar and three tablespoonfuls rice to one quart of milk; turn the mixture over the apples, spread a few bits of butter over the tops and bake in a moderate oven four hours. Serve hot with sweetened whipped cream.—Orange Judd Farmer.

—Steamed Bread and Fruit Pudding. —One pint of bread broken into small pieces. Add one cup of milk, one-third of a cup of molasses, one egg, well beaten, and one cup of raisins, stoned and cut in halves. Mix thoroughly, then sift in half a teaspoonful each of cinamon, grated nutmeg, salt and soda. Turn into a buttered pudding boiler and cook in boiling water about two hours.—Chicago Chronicle.

—Boiled Plum Pudding. — Half-pound white bread crumbs, four ounces sugar, four ounces chopped suet, four ounces raisins, four ounces currants, half- coffeecupful milk, one egg or two yolks, one teaspoonful mixed ground spices, a little salt and a pinch of soda. Mix the dry articles together, the bread grated or chopped very fine; add milk and egg with salt and soda dissolved in them; tie up in a bag and boil for four hours.—Chicago Record.

Large Enough.

A foot-traveler through one of the ailly regions of Ireland came one day upon a curious little cabin, so small as to seem hardly large enough for a human habitation. While she was whimsically considering as to whether it might not be the abode of the famous "good people," about whom so many loving superstitions cling, the figure of a short, stout old man emerged from the cabin, and stood confronting her in smiling silence. After salutations had been exchanged, the traveler laughingly told the old man that she had half fancied his dwelling the home of fairies. "No, indade, ma'am, but it's a good warm place, God bless it," replied the old man. "But surely you cannot stand up in it?" said the traveler, curiously. "An' fwhat nade to shtand, ma'am?" returned the owner of the tiny house. "Shure, an' Oi can come outside to do that same, an' whin Ol'm insoide, it's mesilf that can either go to bed or sit down, ma'am!" There was such warmth in the smile with which this cheerful philosophy was propounded that the traveler was not disposed to pick flaws in it, and smiled acceptance of its truth.—Youth's Companion.

"Good Morning" in Samoa.

I had to go down to Apia five or six different times, and each time there were 100 black boys to say "Good morning" to. This was rather a tedious business; and, as very few of them answered at all, and those who did, only with a grunt like a pig's, it was several times in my mind to give up this piece of politeness. The last time I went down, I was almost decided; but when I came to the first pair of black boys and saw them looking so comic and so melancholy, I began the business over again. This time I thought more of them seemed to answer, and when I got down to the tail-end where the carts were running, I received a very pleasant surprise, for one of the boys, who was pushing at the back of a cart, lifted up his head, and called out to me in wonderfully good English: "You good man—always say good morning." It was sad to think that these poor creatures should think so much of so small a piece of civility, and strange that (thinking so) they should be so dull as not to return it.—Robert Louis Stevenson's "Letters to a Boy," in St. Nicholas.

"Mother's Pies."

We none of us realize that it is ourselves who change, and not the food that delighted us in our youth. Said a crusty, hard-to-please husband: "Wife, I wish you would make pies that would taste as good as my mother's used to do." "Well, my dear, you run out and bring me in a pailful of water, a hodful of coal and an armful of wood, just as you used to do for your mother, and maybe you will like my pies as well." He concluded the pies would answer the purpose just as they were. Good Housekeeping.

A Ravenous Insect.

Commenting on the amount which a spider actually consumed during 24 hours, Sir J. Lubbock says: "At a similar rate of consumption a man weighing 160 pounds will require a whole ox for breakfast, an ox and five sheep for dinner and for supper two hillocks, eight sheep and four hogs, and just before retiring nearly four barrels of fresh fish."—Chicago Chronicle.

United States Government Grant

"Pura Blood" and the Fair Sex.

The celebrated waters of Hot Springs Arkansas, have acquired a world-wide reputation of recent years as a beautifier. Ladies from all over the world have journeyed to Hot Springs, Arkansas, in large numbers to preserve a beauty already theirs, or to renew the beauty of a complexion ruined by cosmetics or other agencies, causing boils, pimples, blackheads, etc.

Ladies who cannot go to Hot Springs Arkansas, and desirous of preserving their beauty, renewing their beauty, improving their complexion, or purifying the blood, can obtain all this by asking their druggist for "Pura Blood, which is prepared with the famous curative waters of Hot Springs, Arkansas, under grant from the United States Government. "Pura Blood" costs $1 per bottle. "Pura Blood is indorsed by physicians. Billups & Co., of 26 Cortlandt street, New York, are sole agents, and will send descriptive book free to any address.

An Art Connoisseur.

Madame goes with her maid to purchase a still-life picture for her dining-room. She selects at the picture dealer's a painting representing a bouquet of flowers with a pie cut in two and a half-penny roll. She paid 500 francs for the lot.

"Madame," whispered the bonne, "you have made a bad bargain, let me tell you. I saw a picture like that sold for 400 francs."

"And was it as good as this one?"

"Of course it was; there was a lot more pie!"—Moniteur Oriental.

Low Prices in Indiana.

Benson—I suppose you are put to great expense in catching the horse thieves with which I hear your county is infested?

Farmer Barns—Nope; we jest start th' bloodhoun's on ther trail.

Benson—Then a great outlay is not necessary to apprehend them?

Farmer Barns—Jest wan scent.—Judge.

An Optical Illusion.

She dressed up in her brother's clothes
A promenade she took,
And everyone who knew her said:
"How girlish you do look!"

—Life.

JUST DID IT.

Jagabout—And why do you like champagne?

Miss Clincher—I don't know; perhaps because it p-p-pops so beautifully. —(Scene 2—Trinity church.) — Ally Sloper.

Voices of the Night.

"And does your husband sleep sound?" chirped the caller.

"Sound!" cried Mrs. Dobbs, with her hands in the air, "well, I should say! I don't believe you ever heard such sound. It's enough to burst our alarm clock."

The caller murmured that some men were that way.—N. Y. Recorder.

Uses of a Livery.

Son—Father, I want to drive to Blank's Corners this afternoon. Do you need the span?

Father—My son, to get to Blank's Corners and back in time for supper will require very hard driving. I think it will be wiser to hire a livery horse.—N. Y. Weekly.

A More Modern Method.

Lawyer—Yes, I think we can break your uncle's will.

Client—Insanity?

Lawyer—No, I think we'll try hypnotism. Hypnotism is going to supersede insanity as a remedy for disappointed legatees, and it won't cost you a cent more.—Brooklyn Life.

A Familiar Phenomenon.

Oh, the man who comes talking and talking and talking,
And keeps up his talking for aye;
Seems somehow to be
Invariablee
The man who has nothing to say.

—Washington Star.

Squelching a Fact.

Said a Dallas poet to Hostetter McGinnis: "In my poems you can discern the picture of my lady love."

"Is she lame, too, like your verses?" asked Hostetter, and now they do not speak as they pass by.—Dallas (Tex.) Sifter.

Height of Feminine Felicity.

The Hostess—Oh, yes! Her people were as poor as churchmice; but since her marriage to wealthy John Gotmore she has it easy.

The Visitor—Easy? I should say so! Why, she hasn't a single thing to do all day but sit and worry.—Puck.

Or With a Knife.

"Most wonderful woman, Daisy Hawkins—such eyes—by jove, there's nothing she can't do with 'em!"

"Really? Well, that is wonderful. I'd like to see her sharpen a lead pencil with 'em."—Harper's Bazar.

Your Spring Clothing

Rather early to speak of it, but if it needs cleaning or dyeing, it isn't too early to have us do that work for you. This is our dull season—our employes are here ready for work. We'd like to have your goods now. We can give them better attention than in the rush of the spring season. Then we'll have to have more time or rush them at the expense of good work. Now we can take our time, do the work better than if hurried and you'll have the clothing all ready for warm weather.

Look in the closet or trunk and find your spring wear that needs cleaning and dyeing and bring it to us now, or better still, our wagon will call for it if you will send us word.

A PHYSIOLOGIST'S WIFE

"I have eased my conscience," said O'Brien, rising from his chair. "I have told you all there is to tell. I should not like the story to reach you through any lips but my own."

"You are right, O'Brien. Your action has been most honorable and considerate. But you are not to blame in the matter, save that perhaps you showed a little precipitancy in choosing a life partner without due care and inquiry."

O'Brien drew his hand across his eyes. "Poor girl!" he cried. "God help me, I love her still! But I must go."

"You will lunch with us?"

"No, professor; I have my packing still to do. I have already bade Miss Grey adieu. In two months I shall see you again."

"You will probably find me a married man."

"Married!"

"Yes; I have been thinking of it."

"My dear professor, let me congratulate you with all my heart. I had no idea. Who is the lady?"

"Mrs. O'James is her name, a widow of the same nationality as yourself. But to return to matters of importance. I should be very happy to see the proofs of your paper upon the vermiform appendix. I may be able to furnish you with material for a footnote or two."

"Your assistance will be invaluable to me," said O'Brien, with enthusiasm, and the two men parted in the hall. The professor walked back into the dining room, where his sister was already seated at the luncheon table.

"I shall be married at the registrar's," he remarked. "I should strongly recommend you to do the same."

Professor Ainslie Grey was as good as his word. A fortnight's cessation of his classes gave him an opportunity which was too good to let pass. Mrs. O'James was an orphan, without relations and almost without friends in the country. There was no obstacle in the way of a speedy wedding. They were married accordingly in the quietest manner possible and went off to Cambridge together, where the professor and his charming wife were present at several academical observances and varied the routine of their honeymoon by incursions into biological laboratories and medical libraries. Scientific friends were loud in their congratulations, not only upon Mrs. Grey's beauty, but upon the unusual quickness and intelligence which she displayed in discussing physiological questions. The professor was himself astonished at the accuracy of her information. "You have a remarkable range of knowledge for a woman, Jeannette," he remarked upon more than one occasion. He was even prepared to admit that her cerebrum might be of the normal weight.

One foggy, drizzling morning they returned to Birchespool, for the next day would reopen the session, and Professor Ainslie Grey prided himself upon having never once in his life failed to appear in his lecture room at the very stroke of the hour. Miss Ada Grey welcomed them with a constrained cordiality and handed over the keys of office to the new mistress. Mrs. Grey pressed her warmly to remain, but she explained that she had already accepted an invitation which would engage her for some months. The same evening she departed for the south of England.

A couple of days later the maid carried a card just after breakfast into the library, where the professor sat revising his morning lecture. It announced the rearrival of Dr. James McMurdo O'Brien. Their meeting was effusively genial on the part of the younger man and coldly precise on that of his former teacher.

"You see there have been changes," said the professor.

"So I heard. Miss Grey told me in her letters, and I read the notice in The British Medical Journal. So it's really married you are. How quickly and quietly you have managed it all!"

"I am constitutionally averse to anything in the nature of show or ceremony. My wife is a sensible woman—I may even go to the length of saying that, for a woman, she is abnormally sensible. She quite agreed with me in the course which I have adopted."

"And your research on vallisneria?"

"This matrimonial incident has interrupted it, but I have resumed my classes, and we shall soon be quite in harness again."

"I must see Miss Grey before I leave England. We have corresponded, and I think that all will be well. She must come out with me. I don't think I could go without her."

The professor shook his head. "Your nature is not so weak as you pretend," he said. "Sexual questions of this sort are, after all, quite subordinate to the great duties of life."

O'Brien smiled. "You would have me take out my Celtic soul and put in a Saxon one," he said. "Either my brain is too small or my heart is too big. But when may I call and pay my respects to Mrs. Grey? Will she be at home this afternoon?"

"She is at home now. Come into the morning room. She will be glad to make your acquaintance."

They walked across the linoleum paved hall. The professor opened the door of the room and walked in, followed by his friend. Mrs. Grey was sitting in a basket chair by the window, light and fairylike, in a loose flowing pink morning gown. Seeing a visitor, she rose and swept toward them. The professor heard a dull thud behind him. O'Brien had fallen back into a chair, with his hand pressed tight to his side. "Jinny!" he gasped; "Jinny!"

Mrs. Grey stopped dead in her advance and stared at him with a face from which every expression had been struck out, save one of utter astonishment and horror. Then, with a sharp intaking of the breath, she reeled and would have fallen had not the professor thrown his long, nervous arm round her.

"Try this sofa," said he. She sank back among the cushions with the same white, cold, dead look upon her face. The professor stood with his back to the empty fireplace and glanced from one to the other.

"So, O'Brien," he said at last, "you have already made the acquaintance of my wife?"

"Your wife!" cried his friend hoarsely. "She is no wife of yours. God help me, she is my wife!"

The professor stood rigidly upon the hearth rug. His long thin fingers were intertwined, and his head had sunk a little forward. His two companions had eyes only for each other.

"Jinny!" said he.

"James!"

"How could you leave me so, Jinny? How could you have the heart to do it? I thought you were dead. I mourned

The professor stood with his back to the empty fireplace.

for your death—aye, and you made me mourn for you living. You have withered my life."

She made no answer, but lay back among the cushions with her eyes still fixed upon him.

"Why do you not speak?"

"Because you are right, James. I have treated you cruelly, shamefully, but it is not as bad as you think."

"You fled with De Horta."

"No; I did not. At the last moment my better nature prevailed. He went alone. But I was ashamed to come back after what I had written to you. I could not face you. I took passage alone to England under a new name, and here I have lived ever since. It seemed to me that I was beginning life again. I knew that you thought I was drowned. Who could have dreamed that fate would throw us together again? When the professor asked me"— She stopped and gave a gasp for breath.

"You are faint," said the professor. "Keep the head low. It aids the cerebral circulation." He flattened down the cushion. "I am sorry to leave you, O'Brien, but I have my class duties to look to. Possibly I may find you here when I return." With a grim and rigid face he strode out of the room. Not one of the 300 students who listened to his lecture saw any change in his manner and appearance or could have guessed that the austere gentleman in front of them had found out at last how hard it is to rise above one's humanity. The lecture over, he performed his routine duties in the laboratory and then drove back to his own house. He did not enter by the front door, but passed through the garden to the folding glass casement which led out of the morning room. As he approached he heard his wife's voice and O'Brien's in loud and animated talk. He paused among the rosebushes, uncertain whether to interrupt them or not. Nothing was further from his nature than to play the eavesdropper, but as he stood, still hesitating, words fell upon his ears which struck him rigid and motionless.

"You are still my wife, Jinny," said O'Brien. "I forgive you from the bottom of my heart. I love you, and I have never ceased to love you, though you had forgotten me."

"No, James; my heart was always in Melbourne. I have always been yours. I thought that it was better for you that I should seem to be dead."

"You must choose between us now, Jinny. If you determine to remain here, I shall not open my lips. There shall be no scandal. If, on the other hand, you come with me, it's little I care about the world's opinion. Perhaps I am as much to blame as you. I thought too much of my work and too little of my wife."

The professor heard the cooing, caressing laugh which he knew so well.

"I shall go with you, James," she said.

"And the professor?"

"The poor professor! But he will not mind much, James. He has no heart."

"We must tell him our resolution."

"There is no need," said Professor Ainslie Grey, stepping in through the open casement. "I have overheard the latter part of your conversation. I hesitated to interrupt you before you came to a conclusion."

O'Brien stretched out his hand and took that of the woman. They stood together with the sunshine on their faces. The professor stood on the casement with his hands behind his back, and his long black shadow fell between them.

"You have come to a wise decision," said he. "Go back to Australia together and let what has passed be blotted out of your lives."

"But you — you" — stammered O'Brien.

The professor waved his hand. "Never trouble about me," he said.

The woman gave a gasping cry. "What can I do or say?" she wailed. "How could I have foreseen this? I thought my old life was dead, but it has come back again, with all its hopes and its desires. What can I say to you, Ainslie? I have brought shame and disgrace upon a worthy man. I have blasted your life. How you must hate and loathe me! I wish to God that I had never been born!"

"I neither hate nor loathe you, Jeannette," said the professor quietly. "You are wrong in regretting your birth, for you have a worthy mission before you in aiding the life work of a man who has shown himself capable of the highest order of scientific research. I cannot with justice blame you personally for what has occurred. How far the individual monad is to be held responsible for hereditary and ingrained tendencies is a question upon which science has not yet said her last word."

He stood with his finger tips touching and his body inclined as one who is gravely expounding a difficult and impersonal subject. O'Brien had stepped forward to say something, but the other's attitude and manner froze the words upon his lips. Condolence would be an impertinence to one who could so easily merge his private griefs in broad questions of abstract philosophy.

"It is needless to prolong the situation," the professor continued in the same measured tones. "My brougham stands at the door. I beg that you will use it as your own. Perhaps it would be as well that you should leave the town without unnecessary delay. Your things, Jeannette, shall be forwarded."

O'Brien hesitated, with a hanging head. "I hardly dare offer you my hand," he said.

"On the contrary, I think that of the three of us you come best out of the affair. You have nothing to be ashamed of."

"Your sister"——

"I shall see that the matter is put to her in its true light. Goodby! Let me have a copy of your recent research. Goodby, Jeannette!"

"Goodby!" Their hands met, and for one short moment their eyes also. It was only a glance, but for the first and last time a woman's intuition cast a light for itself into the dark places of a strong man's soul. She gave a little gasp, and her other hand rested an instant, white and light as thistle down, upon his shoulder.

"James, James!" she cried. "Don't you see that he is stricken to the heart?"

He smiled gently and turned her quietly away from him. "It is a little sudden," he said, "but I am not an emotional man. I have my duties, my research on vallisneria. The brougham is there. Your cloak is in the hall. Tell John where you wish to be driven. He will bring you any things you need. Now go."

His last two words were so sudden, so volcanic, in such contrast to his measured voice and masklike face, that they swept the two away from him. He closed the door behind them and paced slowly up and down the room. Then he passed into the library and looked out over the wire blind. The carriage was rolling away. He caught a last glimpse of the woman who had been his wife. He saw the feminine droop of her head and the long curve of her beautiful arm.

"She is weeping," he muttered. "She is sorry to leave me." Then he pulled down his left cuff and scribbled a memorandum. It was, "Influence of emotion upon the lachrymal secretion—how and why?"

CHAPTER III.

There was little scandal about this singular domestic incident. The professor had few personal friends and seldom went into society. His marriage had been so quiet that most of his colleagues had never ceased to regard him as a bachelor. Mrs. Esdaile and a few others might talk, but their field for gossip was limited.

The professor was as punctual as ever at his classes and as zealous in directing the laboratory work of those who studied under him. His own private researches were pushed on with feverish energy. In vain his friends assured him that such a life must undermine his health. He only lengthened his hours of work.

Gradually under this discipline a change came over his appearance. His features, always inclined to gauntness, became even sharper and more pronounced. There were deep lines about his temples and across his brow. His cheek was sunken and his complexion bloodless. His knees gave under him when he walked, and once when passing out of his lecture room he fell and had to be assisted to his carriage.

This was just before the end of the session, and soon after the holidays commenced the professors who still remained in Birchespool were shocked to hear that their brother of the chair of physiology had sunk so low that no hope could be entertained of his recovery.

Two eminent physicians had consulted over his case without being able to give a name to the affection from which he suffered. A steadily decreasing vitality appeared to be the only symptom—a bodily weakness which left the mind unclouded.

He was much interested himself in his own case and made notes of his subjective sensations as an aid to diagnosis. Of his approaching end he spoke in his usual unemotional and somewhat pedantic fashion. "It is the assertion," he said, "of the liberty of the individual cell as opposed to the cell commune. It is the dissolution of a co-operative society. The process is one of great interest."

And so one gray morning his co-operative society dissolved. His two physicians felt some slight embarrassment when called upon to fill in his certificate.

"It is difficult to give it a name," said one.

"Very," said the other.

"If he were not such an unemotional man, I should have said that he had died from some sudden nervous shock, from what the vulgar call a broken heart."

"I don't think poor Grey was that sort of a man at all."

"Let us call it cardiac anyhow," said the older physician. So they did so.—Romance.

The Inquisitive Small Boy.

"Father," said the little boy, looking up from his picture book, "if I ask you a question, will you answer it?"

"Certainly," was the affable reply.

"And not get angry?"

"Of course not."

"Nor say it's time I was in bed?"

"I won't do any of those things."

"Well, what I want to know is where does a snake begin when it wags its tail?"—Washington Star.

GONE TO HER REWARD.

Final Obsequies Held Over the Remains of an Estimable Young Woman.

The funeral services of the late Miss Carrie Runyon were held yesterday afternoon from the residence of her parents on West Front street. There was a large attendance of relatives and friends, and also a number of the members of the Christian Endeavor Society of the First Baptist church, of which she was a member.

A beautiful selection, "Sometime We'll Understand," was rendered by E. E. Runyon, B. T. Barnes, Miss Gussie Runyon and Miss Bessie Blair. Dr. Yerkes, who conducted the service, read appropriate scripture selections, after which he made a few remarks. He spoke of the very exemplary Christian character of the departed one and of her quiet life that went from this world early in the morning. She lived a peaceful, happy life, notwithstanding a life of pain. She regretted so often that she could not attend the services of God, and especially the revival services that have been held lately. Her death is sad to the ones left, but joyous for her, having received her reward.

The decedent reposed peacefully in a handsome casket, which was surrounded with roses and smilax. She held a beautiful cream rose in her hand. The floral tributes consisted of a wreath of smilax and roses, bearing the letters "C. E.," from the society of the First Baptist church, an anchor of white and pink roses, and a large and beautiful bunch of bush rosebuds.

At the close the quartette sang "Rock of Ages" very impressively. After an opportunity had been given those present to look for the last time on the form of their loved one, interment was made in Hillside cemetery.

Married a Decade.

Mr. and Mrs. Jeremiah VanWinkle, Jr., of 423 West Fourth street, celebrated the tenth anniversary of their marriage last evening. There were about fifty guests present, and the event was one of genuine pleasure to all. Mrs. VanWinkle gave several recitations in her usual excellent manner, and the balance of the evening was devoted to games and refreshments. Many handsome and useful presents were received.

A Rare Bird.

A long-eared owl, a bird seldom seen in this part of the country, and then only in the winter, was shot in South Plainfield December 23d by William R. Thompson, of this city. It was a very fine specimen and the young man has placed it for a time in the reading room of the Plainfield Public Library.

Had No License.

Officer McCue arrested Louis Vosseller, of New Brunswick, this morning for peddling without a license. City Judge DeMeza fined the peddler $5.

—There are a few in town who do not trade at Peck's. That is not his fault; but it is their loss.

—The chemical engine will be shipped from Baltimore tomorrow and is expected to arrive in this city the latter part of the week.

—W. L. and J. M. Smalley, the progressive meat dealers, of 94 Somerset street, have the finest chickens to be found in Plainfield, which they are selling for 15 cents a pound. A great many of them weigh six pounds apiece and are as tender as can be desired.

Speakers Secured.

Rochester, N. Y., Jan. 28.—The committee of the chamber of commerce has secured the following speakers for its annual banquet, to be held Thursday Feb. 13: Hon. Charles Emory Smith, editor of the Philadelphia Press; Rev. Samuel A. Elliott, minister of the First Unitarian church of Brooklyn, and St. Clair McKelway, editor of the Brooklyn Eagle. John N. Beckley will act as toastmaster.

Jumped His Bail.

Boston, Jan. 28.—Franklin A. Martin, the druggist and alleged bigamist of this city, who was arrested on January 7 and had his case assigned for trial in the municipal criminal court yesterday has defaulted. His bail was $800 and his bondsman was George L. Johnson. It is said that Martin is now in southern California.

Believe Elwood Is Innocent.

Delhi, N. Y., Jan. 28.—Although the charge of criminal assault on a little girl, which has been preferred against Postmaster Elwood, has created a great sensation here, public sentiment is with the accused, as it is believed his innocence will be proven. He is under bond.

To Preach at New Haven.

New Haven, Conn., Jan. 28.—It is announced that Rev. Clarence W. Bispham of Washington is to become an assistant at Trinity Protestant Episcopal church here, making three assistants in all. Mr. Bispham is now at the church of St. Michael in Washington.

Creedon Easily Defeats Smith.

London, Jan. 28.—The fight between Dan Creedon and Jem Smith for a purse of £400 at the National Sporting club last evening resulted in an easy victory for Creedon in the second round.

BEFORE THE CADI.

Three Cases, One of Them a Family Quarrel, In City Court.

There were three offenders to come before City Judge DeMeza and each on a different charge. The first was an Italian with a name unpronounceable and impossible to spell which, when translated into English, is John Long. He was charged with raiding a coal car last evening and appropriating some of its contents for his own use. The Judge was not satisfied with his excuses and made the punishment a fine of five dollars or twenty days in jail. The Italian thought the fine the best of the two evils and paid it.

William Drake, a small lad, had to answer for two charges. Detective John Blackford accused him of stealcoal and he was also charged with throwing stones at the sign of an Italian cobbler on Cottage place and destroying it. For the first offense, the Judge thought a fine of three dollars or ten days in jail sufficient, and in the other case he made it two dollars or ten days. The two fines were paid.

The other case wes the continuation of a family quarrel. Thomas Waring was the prisoner and William Green the accuser. The latter said that Waring called him abusive names. The Judge tried to unravel the mystery of the cause of the quarrel and found that it originally started between the wives of the two men and has several times made its appearance in the city court. After reprimanding Waring for using bad language, the Judge suspended sentence on him.

PRANKS OF SCOTTISH FAIRIES.

A Firm Belief In the "Fair Folk" Still Lingers.

There still lingers a widespread belief in the north of Scotland that the "fair folk," or "gweed neebors," as the fairies are called, still live in the hills, and during the first days of convalescence a mother must be zealously guarded lest one of the "wee people" come and rob the child of its nourishment. Sometimes they succeed in carrying off the mother. Here is one of the superstitious legends:

A north country fisher had a fine child. One evening a beggar woman entered the hut and went up to the cradle to gaze into the eyes of the babe. From that time good health left it, and a strange look came into its face, and the mother was troubled. An old man begging for food passed that way. When he caught sight of the child, he cried:

"That's nae a bairn. It's an image, and the gweed folk has stoun his speerit."

Thereupon he set to work to recall the fisher's bairn. A peat fire was heaped high on the hearth and a black hen held over it at such a distance that it was singed and not killed. After some struggling the hen escaped up the lum. A few moments elapsed, and then the parents were gladdened by the sight of a happy expression once more on the child's face. It throve from that day forward.—Scottish Review.

Why Everybody Smiled.

An amusing scene was witnessed by many pedestrians one day at the corner of Thirty-seventh street and Broadway. A fence, about 30 feet high, covered with theatrical lithographs, incloses a lot on that corner, where the foundations of a new building are being laid. It was the noon hour, and six brawny sons of Erin were seated on a slightly raised platform, resting against the fence. They were eating their luncheon and were joking and laughing to their hearts' content. Those who stopped to look at the group could not withhold a smile, for directly above this jolly group of Irishmen, in bold, lurid letters, were the words "The Gay Parisians." Here indeed was a pleasant satire, the result of accident. No wonder the workingmen wondered why people smiled at them so much.—New York Herald.

Heat and Thirst In India.

The handling of a gun after the sun had played upon it for an hour or two was sufficiently warm work when done in gingerly fashion and with the least possible contact with the metal of barrel or trigger guard. The sudden clutching of a barrel suggested collision with the wrong end of a redhot poker.

And the thirst! When once the man who is out in that heat yields to the temptation of his water, or cold tea, or lime juice and water bottle, he is there after for the rest of that day a lost creature, the slave of any fluid with which he can wet his parching lips and allay his insatiable thirst.

Then would he drink kerosene or ink or sherry at 18 pence a quart, or any other abomination that possessed, in his view, the indispensable qualification of being liquid. So, too, will the natives—the mahouts and others—descend from the elephants and drink greedily from any ferid pool, though death be in the cup.—Blackwood's Magazine.

The Eiffel Tower Dissected.

The total weight of the ironwork in the Eiffel tower is 7,767 tons, and the foundations of each of its four independent legs are sunk to a depth of 50 feet. It is constructed of iron throughout (most people think it is of steel), the pieces of that metal used in its construction being 112,000. The exact height of the great iron skeleton is 984 feet (usually given as even 1,000), and it is to be the property of the builder for 20 years, beginning with 1889, after which time the sole ownership reverts to the city of Paris.—St. Louis Republic.

A Puzzling Legacy.

A famous London will bequeathed "all my black and white horses" to a certain devisee. After the lawyers had wrangled to determine whether all the black horses and all the white ones were meant, or only the piebald, or black and white ones, witness testified that all the horses of the dead man were mares, and confusion was worse confounded.—Detroit News.

Korea's Sacred King.

It is high treason to touch the sacred person of the Korean king with any instrument of iron or steel, though one of Li Houi's predecessors came to his death simply because no one dared to lance an abscess from which he was suffering. Queer country, Korea—queer people, Koreans.—Boston Globe.

STRENGTH FROM FOOD.

But the Food Must Be Digested.

There is no way to get strong without food. Food is the strength maker.

Just enough food, properly digested, makes the strong and healthy man or woman. Too much, to little, or even the right quanity, not digested, will make anybody weak.

The beginning of all sickness is weakness. The beginning of all weakness is indigestion. So to keep strong, look after your digestion. That is the most important of all.

When your food ferments in your stomach and forms gas, causes dizziness, nausea, bad taste, sick headache, full feeling, nervousness, irritability, etc., you have indigestion. You are losing a part of your life. Every hour you are sick causes a loss of strength.

The way to cure it is to take Shaker Digestive Cordial. A few doses will relieve. If you take it long enough you will regain the strength you have lost.

Shaker Digestive Cordial is made from herbs and plants by the Shakers of Mount Lebanon. It contains very strong digestive tonic properties. It creates strength. It makes your food make you strong and bright and healthy. It clears your complexion and strengthens your body against disease. If you want to get strong and well, try a bottle.

Sold by all druggists at 10, 25, 50 cents and $1.00 a bottle.

A SPIRIT OF DEVOTION.

AS THE REVIVAL MEETINGS CONTINUE INTEREST IS MAINTAINED.

Dr. Rodman Preached Last Night on Paul's Sermon to the Jews and Draws Admirable Conclusions for People Today

There was an earnest spirit of devotion noticeable among those attending the service in the Crescent Avenue church last night.

After the song service, Mr. Lewis sang very tenderly "Where Is My Wandering Boy Tonight," the choir joining in the chorus. Rev. Dr. Richards read the twenty fourth chapter of the Gospel of Acts, commencing at the seventeenth verse. Prayer was offered by Rev. Jocelyn Johnstone. The sermon was preached by Rev. E. M. Rodman. He announced his text as Act 8:24: "And some believed not."

He spoke of the peculiar circumstances surrounding Paul's notable discourse to the Jews on this particular occasion, when some believed not the Word he preached. Continuing, in part, he said: We can almost feel the glow of his soul and catch the earnest words he spoke. There was no man better qualified to handle the Jews than Paul, who was also a Jew. He knew just what to say, how to say it and what not to say. The fact that the preacher belonged to the Hebrew race accounts for the fact that some believed and some did not. There were many strong barriers that had to be torn down, and Jesus did not come the way they had expected.

They scorned at Christ and Nazareth, and in consequence felt justified in rejecting him. If almost persuaded as we believe some were, we could almost understand their actions. Christ who had not a place to lay his head was despised by them. No one reason would account for their rejection of the truth. They probably had many excuses, such as pride, family position, and a nationality which they were not disposed to give up, but when Paul got through preaching they absolutely had no excuse. God worked by ordinary means, just as he does now through his servants.

It makes me tremble sometimes when I hear such words as we sang tonight. "I Will Follow Jesus." It means a great deal, and to test it, Christ often places a trial in our lives that we may make the declaration stronger. Then in our rebellion we say "I could stand anything but that!" It's our place to defend the truth and die for it if necessary. It is dangerous to postpone action as some are doing now. God has prepared a place in us for the reception of his truth, and nothing else will fill that place. Without it we are incomplete, and he has sent his spirit to lead us into all truth. Many persons pass their lives in learning, yet never able to come to the truth.

It is high time that the community was awakened, it will not hurt the Christians and there are a number of unsaved people who are only waiting to have you speak to them about their soul. In closing, Dr. Rodman related one or two very touching incidents in his experience, which were followed with a solo, "One Sweetly Solemn Thought," by Mr. Lewis.

Dr. Richards then announced that Dr. Lewis would have charge this evening. He also stated that a special service would be held tomorrow evening for the Christian Endeavor, Epworth League and other kindred societies. Everyone is invited, however, to be present.

The after meeting last evening was in charge of Dr. Barnes, and was especially helpful.

The revival service at Hope chapel last evening was very largely attended and there was a deep interest manifest. Rev. G. Kennedy Newell conducted the service, using the words "Thou hast the words of eternal life" for his text. He gave a brief, earnest talk. Rev. W. C. O'Donnell followed with a few remarks along the same line of thought. The meeting was then thrown open and a large number testified. When the invitation was given several raised their hands, thus signifying a desire to become Christians.

Tomorrow evening the service will be in Monroe Avenue chapel and Rev. W. C. O'Donnell will preach. Friday evening it will be held in Hope chapel and Rev. G. Kennedy Newell will be in charge. Sunday evening a union service will be held in Monroe Avenue chapel, when Rev. Mr. Newell will speak.

Woman.

A free illustrated lecture will be given by Madam Swanstead, of New York, on "Woman, Her Mental and Physical Needs, Her Present and Future Possibilities," at the Y.M.C.A. hall, on Friday afternoon at three o'clock.

MRS. ELWELL'S LECTURES.

The Last One Attended By Representative Women of Plainfield.

The third and last of Mrs. Maria Huntinton Elwell's course of lectures was given before a representative and deeply appreciative audience at Mrs. Kirtland Myers yesterday afternoon. The subject was "King Lear." Mrs. Elwell first spoke of the difficulty most readers find in understanding the play, owing to the strongly intellectual conception and to its style being as it were "over-packed with meaning." Modern criticism throws much light on these difficulties. The chief characters were carefully analyzed, even the accessories of the play were shown to add to the ethical import of the whole. The following ladies have been present: Mrs. H. B. Opdyke, Mrs. Charles Fiske, Mrs. Runkle, Mrs. Newhall, Mrs. Case, Mrs. Lowe, Miss Lowe, Mrs. M. H. Eaton, Mrs. Rowland, Mrs. Florence Howe Hall, Miss E. E. Kenyon, Mrs. Gilbert, Mrs. L. V. F. Randolph, Mrs. Wright, Mrs. Baker, Miss Baker, Mrs. Souther, Mrs. Saunders, Mrs. Talmadge, Mrs. Henderson, Miss Henderson, Mrs. D. W. Pond, Mrs. Wills, Miss Coard, Mrs. Kimball, Mrs. Edgar Mumford, Mrs. W. L. Brown, Mrs. Booth, Mrs. Harman, Mrs. Stillman, Mrs. Hedges; Mrs. Burlingham and Miss Langworthy, of New York, and others.

TO TRY IT AGAIN.

A 78 Year Old Widower Weds a 40 Year Old Divorcee.

John Smalley and Mrs. Hattie Fisher, both of Bound Brook, were married Monday night at 7 o clock at Mrs. Fisher's house on Front street. Rev. Dr. Thomas Elwood Davis, of the Presbyterian church, performed the ceremony. The bridegrooom is a wealthy widower, 78 years old. The present Mrs. Smalley is 40 years old, and is the divorced wife of Jeremiah R. Fisher. Among the gifts which Mr. Smalley gave his bride was a deed for a handsome mansion and grounds in Middlebrook.

Mrs. Smalley is a daughter of Isaac Colthar, of Grandview avenue.

A Dangerous Practice.

The habit of jumping from a train before it stops is a dangerous one and now a man lies in Muhlenberg Hospital suffering from injuries received by a two hurried leaving of the train. The injured man is Morris Luduski, a Pole who keeps a little cobbler's shop at 58 Somerset street. He was returning to Plainfield on the train due here at 7:34 o'clock in the evening. He attempted to step off the train before it came to a standstill and was thrown heavily to the ground. No severe injuries resulted, but "Con" Guinee, the hackman, took him home. The ambulance soon after carried him to the hospital.

Good Skating at Smalleys.

Although the weather is not the best for skating, Smalley's pond is in excellent condition for that most delightful of winter sports, a large crowd gathered there yesterday afternoon and evening to find the ice as smooth as glass, and very hard. It might be stated for the information of those who do not know the location of the pond that it may be found by following West Seventh street out toward New Market and taking the first road to the left beyond Clinton avenue. It may also be reached by Clinton avenue.

Engagement Announced.

The engagement is announced of Miss Sadie E. Smith, daughter of Mr. and Mrs. W. C. Smith, of Grandview avenue, to Harry T. Baglin, of Newark. The wedding will take place at the home of the bride's parents on April 12th, and will be quite a large event. The couple will probably take an extended bridal tour, after which they will take up their residence in Newark.

Entertained at Cards.

The Central Avenue Euchre Club met last evening at the home of Mrs. Charles Case and a very pleasant evening was spent. Mrs. Howard Fleming and George H. Chapin won the first prizes while the second prizes were taken by Mrs. Alex. Gilbert and E. H. Booth. Mrs. Charles F. Abbott received the consolation prize.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

CITY'S TERMS ACCEPTED.

STREET RAILWAY EXTENSIONS WILL BE MADE IN PLAINFIELD.

The Officers and Directors of the Company Decide on the Matter This Afternoon—Time Limit Would Expire Tomorrow

A meeting of the officers and directors of the Plainfield Street Railway Company was held this afternoon. They will accept the conditions of the street railway extension ordinance. The time limit for them to give a decision expired tomorrow.

It is also probable that the question of selling their stock to the Consolidated Traction Company, who operate the street railway between Newark and Elizabeth, will also be discussed. It is understood that the latter company are anxious to get hold of the Plainfield road.

Those who are attending the meeting are Thomas Nevins, of Orange, president; Dr. Fritts, of this city, vice-president; Edwin Riker, of Newark, secretary and treasurer; C. W. Riker, Cortland Riker, Thomas Nevins, Jr., and J. B. Brown, directors.

LIBRARIANS TO MEET.

The New Jersey Association Will Hear Addresses by Talented People.

An important meeting of the New Jersey Library Association will be held in the Free Public Library of Newark, Thursday, January 30th.

At this meeting action will be taken looking to the introduction in the Legislature of a bill authorizing the appointment by the Governor of a State library commission similar to those of Massachusetts, New Hampshire and other States. The State library commissioners have a general oversight of free library interests throughout the State, and, when composed of men well fitted for the position, such a commission is capable of doing a large amount of good.

Among the speakers at the meeting in Newark will be Melvil Dewey, of Albany, Secretary University State of New York, Samuel Swett Green, of Worcester, Mass., of the Massachusetts Library Commission, Miss See, of the New Brunswick Library, and Miss Emma L. Adams, of the Plainfield Public Library.

A number of persons from Plainfield will attend this meeting, and any others who are interested in the subject are invited to be present. The morning session will begin at 10:30, the afternoon session at 2:30.

MUNYON GOING TO EUROPE.

He Leaves in a Few Days to Open Branch Stores in London.

The marvelous growth and great success of the Munyon Homoeopathic Remedy Company is an object lesson well worth studying. This company has been in existence only four years. They launched into a business which seemed already overcrowded, where the sharpest competition had to be met, yet we are told that this company earned last year over a quarter of a million dollars, and that the remedies are used in every civilized country. This shows what merit, backed by ceaseless energy and liberal advertising, can accomplish.

Mr. Munyon says he attributes his success to two reasons: First, making sure that his remedies were just what he claimed for them; second, telling the people the truth about them by liberal newspaper advertising.

"There have been times in the history of this company," said Mr. Munyon, "when prospects looked pretty black, but I summoned the great army of newspapers to my aid. I told the people about my remedies. I asked them to believe me. I kept everlastingly telling the truth, and today these remedies can be found in every town in America, and the demand is so great in foreign countries that I leave in a few days to open branch establishments in London, Paris and Berlin.—Philadelphia Record.

Still Fast.

The attempt to pull the St. Paul out of the sand at Long Branch this morning was a success so far as merely moving the ship was concerned. When the tide was at its highest, at about 6 o'clock this morning, the St. Paul was moved to the northeast, which means up the coast and outward, about thirty feet. But the boat is still fast in the sand.

Mr. Hubbard for Senator.

Director Hubbard of the Board of Freeholders has been very favorably spoken of as a candidate for State Senator. He would make an excellent senator, but what would we do for a man to take his place as director? No man has ever filled this position more conscientiously, more impartially or more satisfactorily—Elizabeth Journal.

—The last meeting of the present members of the Board of Health was held last evening.

ANTI-GARB BILL AGAIN.

SENATOR ROGERS INTRODUCES THE MEASURE IN THE LEGISLATURE.

Prevents the Wearing in Public Schools of Any Dress or Insignia Indicating Membership in a Religious Order.

The Legislature adjourned for the week yesterday for want of business. The Senate went before noon and the House after sessions lasting about fifteen minutes each, morning and afternoon. Assemblyman Bullock of Passaic county, who claims to be the special representative of the workingman, has a grievance because he was not assigned to the committee on labor and industries. Monday night he approached Speaker Derrousse and asked authority to exchange one of his committee assignments with Mr. Skinner of Essex. The Speaker refused to sanction the trade and yesterday Bullock sent in his resignation as member of three unimportant committees.

Speaker Derrousse took no action, saying it was a private communication. Bullock was turned down for renomination last fall by the Republicans of Passaic county, but ran as an independent candidate and was endorsed by the Democrats and elected. He has been ignored in the make-up of committees, having received last place on three. Neither the Republican nor Democrats take him into their counsels.

A concurrent resolution was introduced by Mr. Barton tendering to Congress from New Jersey support in any action that Congress may take to suppress the Armenian outrages. Bills were introduced as follows:

Limitting the season for hunting game in this State to between Nov. 10 and Dec. 10. Providing that no debt shall be a lien against a builder unless it be for labor or material and the claim be filed within four months and unless the claim be prosecuted within a year it shall be discharged.

The Senate confirmed as Prosecutor of Pleas for Gloucester county, Lewis Starr, whose appointment was made by the Governor Monday night. Mr. Starr will be the first Republican prosecutor for a quarter of a century. Senator Rogers of Camden introduced his "anti garb" bill of last year, with a few changes. It prevents the wearing in the public schools by any teacher of any dress, insignia, marks or emblem indicating the fact that such teacher is an adherent or member of any religious order, sect, or denomination, and imposing a penalty upon the Board of Education or trustees permitting violations of the act, for the first offense the penalty is $100 fine, and for second offense the same fine and loss of office, with disqualification to election or appointment for five years. Teachers offending are liable to suspension for one year for first offense, and for second offense they are to be forever disqualified from teaching in this State.

The bill was referred to the labor and industries committee, of which Rogers is chairman. President Thompson explained that this reference was made that it might be reported soon. Other committees would hold it, and the Senate would be besieged by the advocates of the bill. A similar bill was defeated last year in the Senate by a vote of five to sixteen, but Senator Rogers says it will pass this year as all the councils of American Mechanics in the State will urge the legislators to vote for it, and south Jersey councils requested its introduction.

Governor Griggs left for home yesterday afternoon after a full day spent with the office-seekers, who kept him till after midnight, Monday night, and caused him to lose his dinner yesterday. They are seeking the Chancery clerkship, the prison keepership, and the inspectorship of factories and workshops, besides a number of minor places. There are scores of candidates for all the places. The Governor gave no intimation of his intention, but is firm in his demand that the Chancery and Supreme Court clerks shall receive salaries in lieu of exorbitant fees. Many prominent Republicans want the offices kept as they are, now that they are to fall into Republican hands.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." A HAPPY SURPRISE.

Miss Maude Kinsey Passes Her Twenty-First Year Very Pleasantly.

One of the most enjoyable birthday surprises of the season was held at the home of Mr. and Mrs. Kinsey, 22 Duer street, last evening, when their daughter, Miss Maude Kinsey, celebrated her twenty-first birthday anniversary. The event was arranged by the Misses Jennie and Jessie Saxton, of 215 East Fourth street, and those invited met at their home and then proceeded to the home of Miss Kinsey. The latter had no knowledge of the affair, and when the jolly party of young people walked in she was completely surprised

During the evening games and dancing helped to pass the time, which seemed very short. Miss Kinsey received another surprise when her little sister presented her with a gold watch and chain. The watch was the gift of her father and the chain was given by Miss Saxton. Other handsome presents were received by the young hostess. At a late hour excellent refreshments were served and the guests departed wishing Miss Kinsey many years of joy and happiness. Those present were: Misses Jennie and Jessie Saxton, Van Fleet, Giles, Holder, Morris, Dayton, Eggerding, Coriell, Messrs. Abram Holder, John Holder, Edhraim Vail, Rolland Dunbar, Henry Eggerding, Mr. and Mrs. Saxton, Mr. and Mrs. Elliott, of Plainfield; Mr. Clark, of Bound Brook.

LAST TRIBUTE OF RESPECT.

Funeral Services Over the Remains of the Late W. H. Wilcox.

The home of the late Wm. H Wilcox was filled with relatives and friends yesterday afternoon who had come to pay the last tribute of respect to the departed. The Plymouth Brethren, of which the decedent was a member, had charge of the services, which were opened by the singing of a hymn. Paul J. Loizeaux then read the fifth chapter of First Thessalonians. This was followed with prayer by Alfred Jennings, after which he made a few remarks in testimony of the high Christian qualities of the departed. He said that the last time Mr. Wilcox attended meeting he asked to have his favorite hymn, "When We Meet Face to Face," sung, and it impressed all very much. At this point the above hymn was sung by the Brethren. James Parker then read the fourth chapter of First Thessalonians.

An opportunity was then given all to view the remains. Interment was in Hillside cemetery. A large beautiful bunch of roses, the gift of friends, rested on the casket during the service. Members from the Brethren acted as bearers.

MAY INDICT OFFICIALS.

Union County Grand Jury to Come Into Court This Week.

The Union County Grand Jury, it is believed, will come into court this week with a big batch of indictments. The jury have been out three weeks. It is persistently reported that the jury will either bring in an indictment against the Mayor and Chief and the Board of Excise of Elizabeth, or offer presentments against them all because of the alleged liquor law violation, in accordance with the charge of Judge Van Syckle of the Supreme Court.

Famous Riders.

William Gabriel, one of the rough riders of Buffalo Bill's Wild West, is visiting his old comrade William Brace, who is spending some time in Plainfield. Brace has just been appointed chief of the department of cow boys and rough riders in the show and starts for London next month to see about obtaining some English cavalry men for the show.

Good Things to Eat.

There was an increased attendance at the lecture on cookery in the Y. M. C. A. building yesterday. The lecture was on "Entrees and Salads" and were cooked and served to please everyone. The last lecture will be given this afternoon, for the present, and no doubt there will be a large number of women present.

Officers Take Their Seats.

The new officers of Winfield Scott Post, No. 73, G. A. R., took their seats last evening and there was a very large attendance of comrades who discussed plans for advancing the objects and increasing the interest in the post. It was decided to hold from time to time such fraternal meetings as would tend to interest everyone.

They Desire to Thank Them.

The District Deputy Grand Master, his staff and all of the members of Queen City Lodge, No. 226, I.O.O.F., wish to extend their heartiest thanks to the members of Rebecca Degree Lodge, No. 4, I. O. O. F., for their donations of cake, etc., for the collation served after the installation Monday night.

CHANCE FOR A HOME.

THE PLAINFIELD RRLIEF ASSOCIATION APPEALS TO CHARITABLE PEOPLE.

A House and Lot Given to the Association Subject to a Mortgage of $3,000—Members Anxious To Cancel This Mortgage.

The circular letter of the Plainfield Relief Association read on Sunday last by the pastors of most of the churches to their congregations was in the following form:

The Plainfield Relief Association has, for seventeen years, pursued its quiet way, and has each year, with careful and systematic management, done much in helping, cheering and encouraging the poor and miserable. It has now an opportunity to secure a permanent place for its offices, stores and work rooms. It asks aid in seizing this opportunity.

The gift of a house and lot, No 544 West Front street, has been offered the Relief Association, subject to a mortgage of $3,000. The ladies of the Relief Association ask in the sacred name of Christian charity for contributions toward paying the mortgage, so that they can take the premises free of debt. The Relief Association will thus be saved alike from the ever recurring expense of rent and the burden and danger of debt.

It asks, also, for $500 beyond the amount of the mortgage to fit the house for its occupancy, making $4,500 in all. The subscription for this has been started by the pledges of four gentlemen, aggregating $800. Thus only $4,700 more will be required.

To the members of the churches, all of which have been represented on the Relief Board, appeal is made, and opportunity is given to all our citizens to assist in the entire completion of the subscription, so that the Relief Association may go to work in its new home with renewed assurances of usefulness and success.

The Board of Managers of the Relief Association, by acquiring this property, will be able to establish a nucleus for the various public charities of our community.

By order of the Board,
Emily C. F. Randolph,
741 East Front street. President.

The first attempt at organized charity in Plainfield was made by the ladies of the Relief Association in 1878. Prior to that it was quite possible for any impostor to be drawing "relief" or money from the City Poor Fund, from private individuals, and from a half dozen or more churches or benevolent societies. Lazy beggars in some cases "lived on the fat of the land" at the expense of the industrious and charitable. Ex-Mayor Randolph in 1881 appointed an Overseer of the Poor with the distinct understanding that he would co-operate with the Relief Association. Since then through co-operation with the churches and the benefit societies (in part through the "Organized Aid" movement) the distribution of alms and the ministering of relief has gone on with a well considered plan. Nobody starves in Plainfield, and at the same time beggary and idleness are discouraged.

The operations of the Association have been carried on at some disadvantage, owing to their quarters being rented, and thus held under temporary arrangements. The chance is now open to secure permanent quarters at small cost. The Press is informed that nearly half of the sum needed has already been promised. It is a cause that speaks for itself—one in which every citizen and householder as well as every personal of charitable disposition should be interested, and one which therefore should need no pleading or urging. The ladies of the Relief Association give freely of their own time and means, and the whole community should cordially participate in this enterprise. Subscriptions may be sent to the president or to Mrs. H. P. Reynolds, the treasurer.

Attending the Grand Lodge.

The annual session of the Grand Lodge of Masons of the State of New Jersey is being held in Trenton today. Those present from this city include C. C. Howard, H. W. Marshall and W. A. Coddington, of Anchor Lodge, No. 149; C. H. Rugg, W. A. Freeman, Stephen Beeching, W. H. Sebring, D. C. Adams and W. F. Bartlett, of Jerusalem Lodge, No. 26. This evening W. H. Sebring, who has been appointed by the Grand Lodge, will make an official visit to Corson Commandery, of Lambertville. He will be accompanied by D. C. Adams and H. W. Marshall.

C. B. C. Festivities.

H. N. Spencer is today having a frolic with several members of the Cracker Barrel Club on his wood lot on Johnston Drive. With axes and fodder-corn scythes they intend to clear a good section of his valuable land on that thoroughfare. Lunch, with frozen frost grapes, gathered on the ground, will be served. A cottage is to be erected there soon.

Vocal Sight Reading.

Miss Anna O. Marsh of 915 Madison avenue, will organize a class for boys and girls between nine and twelve years about the first of February. Three dollars for ten lessons. For further particulars address as above. t s

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

FORT CHUCHO TAKEN

Regulars and Volunteers Surrender to Rebels.

Outrageous Arrests of Innocent Persons Continue in Holguin—More Than 150 Men and Women Taken into Custody — Touching Scenes at the Jail.

Santiago de Cuba, Jan. 20, via Tampa, Fla., Jan. 29.—The Cuban leader Matias Vega, with a strong party of insurgents, appeared at the entrance of the town of Mayari on the 17th inst. and began to fire on Fort Chucho, defended by regular soldiers and volunteers. The soldiers and volunteers had to surrender because the rebels set fire to the fort. The other volunteers of the place, instead of getting ready to defend the town, came out and joined Vega with their arms and ammunition. They were about forty in number. This evening at 5 o'clock Gen. Pando left this port on board the south coast steamer A. Menendez, but nobody knows where he is going. While Gen. Pando was leaving, the Spanish gunboat Estrella came in from Aserradero and brought twenty-five soldiers, wounded and sick, who were taken to the military hospital.

Outrageous Arrests in Holguin.

In Holguin the imprisonment of prominent persons continues to increase. More than 150 men and women have been arrested in the last few days. An immense number of persons are applying to the governor here for passports since they have heard that Gens. Weyler and Polavieja are coming, and greater still is the number of men who are daily joining the rebels. Last night the most touching scenes were witnessed at the door of the jail here, on the occasion of the taking from the institution of twenty-three men, residents of the town of Cristo, who were to be embarked for Ceute, Africa. Mothers, wives and children crowded the street, crying and sobbing pitifully. The unfortunate men were hurried on board the steamer B. Iglesias and taken away.

War to the Bitter End.

(From a Staff Correspondent.)

Havana, Jan. 25, via Tampa, Fla., Jan. 29.—There is no talk now of compromise between Spain and the Cuban insurgents. It is to be a fight to the bitter end. Martinez Campos, the pacificator, has failed and has been recalled mainly because of his lack of severity in the treatment of Cubans who have taken up arms or have aided the rebellion in other ways. Campos was honest, upright, earnest, active and possessed of great military genius, but he was humane. He remembered that Cubans are sons of Spain, and that they are not fighting without some cause. When Campos arrives in Spain he will doubtless tell some plain truths and make some politicians regret his recall. Gen. Weyler is in many respects the opposite of Campos. He has a reputation for severity and harshness which he may not deserve. He announces that he comes to meet war with war, and has nothing to do with reforms. Such utterances, coupled with the stories in circulation here as to alleged harsh and inhuman doings in the war of 1868-78 have resulted in a sudden exodus of peaceful Cuban residents of this and other cities.

Rebels Warmly Welcomed.

The practices which are ascribed to Gen. Weyler belong to the wars of barbaric times. Cubans of the better classes say that only two courses are open to them—either to flee from the island of Cuba or to join the rebel army. As every steamer to Key West and Tampa since the retirement of Campos has been crowded the indications are that more will go to the United States from this city than to the field. Just what will happen when Gen. Weyler and the additional 25,000 troops arrive from Spain cannot be foretold. Gomez and Maceo are widely separated; not because the Spanish troops have driven them apart, but because it was planned that Maceo should extend the rebellion into Pinar del Rio, the western province, and Gomez should wait for his return in the province of Havana. Maceo has gone as far west as towns of importance exist, has sent detachments along the north coast, while he went along the south coast and visited the great tobacco region of Vuelta Abajo. In no province of Cuba have the rebel armies been received as they were in Pinar del Rio. Town after town welcomed them with open arms. White flags fluttered from house-tops in token of surrender, and in only a few instances did Spanish volunteers or Spanish regulars oppose them.

Big Accessions to Rebel Ranks.

A safe estimate of the rebels under arms now in Pinar del Rio, a province which was quiet three weeks ago, is 4,000. The railroads and telegraphs have been stopped. But little other damage has been reported. Tobacco in the field has not been injured and warehouse tobacco has not been burned. The rebels have friends whom the tobacco industry supports in the United States. Horses have been taken, and the care of the growing crop has been interrupted, however, and the lack of transportation will doubtless seriously affect the size of this year's yield. Pinar del Rio city, the capital of the province, is located inland and Maceo has captured sufficient convoys of provisions from the coast to make flour and other articles of food scarce.

Hundreds of Towns in Rebel Hands.

The winter season is rapidly passing and the rains will soon be here. Then the same old complaint of bad roads will be made and little can be done to suppress the trouble. At present there are three or four flying columns of say 5,000 men altogether in pursuit of the insurgents, but the main army of 120,000 regulars and 80,000 volunteers is doing garrison duty in cities and towns and building forts, block houses and barricades for self protection in case of attack. From Cape Maysi on the east to Cape Antonio on the west the rebels occupy the productive interior and hundreds of towns are in their hands.

Why the Spaniards Have Not Won.

There are many reasons why the Spanish army has not crushed out the rebellion before this time. In the first place the size and ability of the enemy has been underestimated. He has had the country people, with him. Again, in all the western operations the rebels have been mounted and Spain has had only infantry to send in pursuit of them. There are to-day only 500 mounted guerrillas or cavalrymen in service. The rebels have fully 10,000 mounted men. The Spanish soldiers have no heart in this fight. They are not defending their own soil from invasion. They are not in conquest of new territory. They are not making war upon a foreign nation. They find that the Cubans speak the same language and are practically brothers who rebel through the same oppression which they themselves have felt. The cost of Spain's army is enormous, and the question of how long men and money can be poured into Cuba is one that should set European financiers thinking. Spain endeavors to blind the world as to the actual condition of affairs by a press censorship, which has been made more strict as the situation here has become more grave.

J. FRANK CLARK.

HICKS-BEACH ON ARBITRATION.

He Believes It Would Be Impossible in Every Question.

London, Jan. 29.—Speaking at Leeds last night, Sir Michael Hicks-Beach, chancellor of the exchequer, paid a tribute to the good intent of the proposers of a permanent court to arbitrate all questions between Great Britain and the United States, but said he believed that arbitration of every question would be impossible. He instanced the possible absorption of Canada by the United States against Canada's and Great Britain's wishes. Such a matter could not be settled by arbitration. "If Canada," Sir Michael added, "is ready to fight for us, we must be ready to fight for Canada." Sir Michael was much applauded when he referred to the messages of fraternity and support that the government had received from the British colonies throughout the world.

FOR HAZING NEGRO GUNNERS.

Sentences of Four White Seamen Approved by the Navy Department.

Washington, Jan. 29.—The navy department has approved the sentences imposed by courtmartial at the Washington navy yard upon four white seamen gunners for hazing several negroes who had enlisted for gunnery instructions and were in a class at the naval ordnance foundry here with white men. The accused will be confined two months on board the Vermont at the New York navy yard and then dismissed from the service.

ACCUSED FROM THE BENCH.

Cook County Commissioner Charged with Bribery in a Murder Case.

Chicago, Jan. 29.—Judge Payne, of the circuit court, created a sensation yesterday by the announcement that he had full proof that one of the commissioners of Cook county had accepted a bribe of $300 in connection with a murder case before the grand jury.

Republican National Delegates.

Washington, Jan. 29.—The republicans of the District of Columbia have elected Perry Carson, colored, and Andrew Gleeson, white, delegates to the republican national convention at St. Louis. Mr. Gleeson is an outspoken McKinley man.

Signed by Gov. Morton.

Albany, Jan. 29.—Gov. Morton has signed the Manhattan State hospital bill which transfers New York city and county insane to state care and brings the New York asylums under control of the state commission in lunacy.

WOMAN SUFFRAGISTS

Resolutions Adopted at the Washington Convention.

Suffrage Demanded for All Citizens of the United States Regardless of Sex—Sympathy for Cubans and Armenians—NonSectarian Plank Adopted by a Close Vote.

Washington, Jan. 29.—The National Woman Suffrage association has adopted resolutions demanding suffrage for all American citizens of the United States, women and men, upon reasonable conditions, attainable by all, as a right and not as a privilege; rejoicing in the admission of Utah to the union as a third woman suffrage state; declaring organization the watchword of the hour and their primary object; petitioning congress and the state legislatures to secure to the women of this nation the full rights of citizenship; congratulating the women of Kentucky upon having recently secured the election of four women and four men upon the municipal board of education in Lexington; appealing to congress to take measures for stopping the Armenian massacres, and also expressing sympathy with the men and women of Cuba in their struggle for independence. In addition to above the following, standing as the eighth plank in their platform, was adopted by a vote of 43 to 40: "That this association is non-sectarian, being composed of persons of all shades of religious opinion, and that it has no connection with the so-called 'Womans' Bible,' or any theological publication." The resolutions also demand state and national legislation that mothers shall have equal custody and control with fathers over their minor children.

THE MURDER OF MRS. TUCKER.

Four Men Under Arrest on Suspicion at Yonkers.

Yonkers, N. Y., Jan. 29.—The authorities have been very active in their efforts to capture the burglar who murdered Mrs. Edward Tucker at her home Monday evening. Four arrests have been made, Joseph Sutte, at Tuckahoe, a Swiss rag picker; Michael Byrne, 35 years old; James Lewis, 34 years old, and Charles Meyer, 30 years old, all of Williamsbridge. Byrne is the most suspected of the three as he had on shoes with a whole in the centre of the sole of one of them exactly fitting footprints in the rear of the Tucker residence. Upon being closely questioned by the police he admitted having been near Mr. Tucker's residence but said that while he was there he was engaged in cutting umbrella heads. Lewis and Moyer, Byrne's companions, had a wagon with them when arrested and declared that they had been cutting umbrella sticks in the neighborhood for some time past. The police are hard at work on the case and hope to clear up the mystery surrounding the murder before another sun sets.

PALMER FOR RUNYON'S PLACE.

Prominent Chicagoans Urging His Name Before the President.

Chicago, Jan. 29.—Many prominent people are endorsing Potter Palmer for United States ambassador to Germany and the movement which was started in his behalf yesterday has attained considerable proportions. A number of prominent citizens of Chicago, including P. D. Armour and John W. Doane, telegraphed the endorsement of Mr. Palmer as a fit successor to the late Mr. Runyon, to President Cleveland.

American Cranberry Growers.

Trenton, Jan. 29.—The American Cranberry Growers' association has elected Dr. J. H. Brakeley, Bordentown, N. J., president, and C. L. Holman, Lakewood, N. J., secretary and treasurer, and the following corresponding secretaries: Connecticut, D. C. Spencer, Old Saybrook; Rhode Island, John M. Rounds, Providence; New York, George Roe Raynor, Manorville.

Against an Open Sunday.

Albany, Jan. 29.—Secretary Osborne of the Sabbath Day society of New York appeared before the assembly committee on codes against the bill authorizing the sale of ice, soda water, milk and cooked food on Sunday.

For Duty in Rhode Island.

Washington, Jan. 29.—The secretary of war has ordered first lieutenant Charles W. Abbott, jr., 12th infantry, to report to the governor of Rhode Island for duty with the militia of that state.

MEN GROPE.

A WOMAN SEES THE LIGHT.

She Best Understands a Woman's Ills.

[SPECIAL TO OUR LADY READERS.]

How gladly would men fly to woman's aid, did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances!

Those things are known only to women, and the aid a man would give is not at his command.

This is why so many women suffer.

Twenty years ago Lydia E. Pinkham gave to the women of the world the result of her years of study in the form of her Vegetable Compound,—a universal remedy for all female complaints.

She well deserves the title, "Saviour of her Sex." She saw the light of reason, and gave it to her suffering sisters.

All female diseases put forth their symptoms, such as nervousness, lassitude, paleness, dizziness, faintness, leucorrhœa, faltering steps, sleeplessness, bearing-down pains, backache, and consequent melancholy and the blues.

Lydia E. Pinkham's Vegetable Compound has for twenty years saved women from all this. Hear this woman speak:—

"Five years ago at childbirth I did not have proper attention. I became very weak; could lift nothing without bleeding from the womb, which was ulcerated badly. I was examined by a physician, and treated for a time, but was compelled to leave the city before I received benefit from the treatment. I decided then to give your medicine a trial. I improved rapidly on the first bottle of Compound, and now feel like a new woman. Ulcers have ceased to form on the womb as they did. I advise all women in any way afflicted with female troubles to take your remedies, and trust that my testimonial will be seen by friends who knew me when I was so sick, and that they may know I am now well, and that I owe it all to your Vegetable Compound." MRS. JOHN OSTRANDER, 340 East Fifty-fifth Street, New York City, N.Y.

HAWKINS LOST AT SEA

The Suspected Filibuster Was Not Seaworthy.

Sprung a Leak Soon After Leaving the Port of New York—Ten Members of the Expedition Lost While Being Transferred from a Small Boat—Others Picked Up.

Boston, Jan. 29.—Last Sunday night the steamer J. W. Hawkins, commanded by Capt. Woodrow, sailed from New York with a party of between seventy-five and a hundred men, bound, it is claimed, for Cuba, where the party was to enter the ranks of the insurgent army. When the steamer was off the eastern end of Long Island she sprung a serious leak and the water gained so rapidly that all hands were obliged to take to the boats. Monday morning the men were picked up by passing schooners, among which was the three-masted schooner Helen H. Benedict, Capt Brockett, bound from Norfolk for Boston with a cargo of coal. The Benedict picked up twenty-five of the men and landed them at Vineyard Haven late Monday night, from which place they were transferred by the steamer Sisie D. and landed at Woods Holl, where they took an early train for New York.

Ten Were Drowned.

The four-masted schooner Alice B. Crosby, Newport News for Boston, fell in with another boat from the steamer about sixty-five miles southeast by east of Sandy Hook lightship, which contained twenty-three persons, but owing to the rough sea only thirteen were saved, the other ten being drowned. The Crosby landed the survivors at Woods Holl yesterday where they took a train for New York. Another vessel, a three-masted schooner, picked up a number of the wrecked people and it is supposed put back with them to Delaware breakwater. The men were mostly Spaniards and would say very little concerning the disaster. It was said, however, that the steamer's true destination was Cuba; that her cargo consisted of $25,000 worth of ammunition, one gun on board having cost $5,000.

The Vessel Not Seaworthy.

The J. W. Hawkins was a steamer of 125 tons net and 188 tons gross. She was built at Kennebunk, Me., in 1880 and hailed from Onancock, Va. The steamer has been engaged in the fishing business, but has been lying idle in Baltimore harbor for some months. Two weeks ago a Mr. Tinsley appeared in Baltimore and desired to purchase the steamer for a Mr. Smith of New York. Those interested in the sale noticed that plenty of money for the purchase was apparently at hand, but whatever suspicions the sellers may have entertained they were very careful to keep to themselves, and in an incredibly short time the boat was delivered to her new owner free from debt. She was at once taken to New York, where, it is alleged, a little band of men were gathered in readiness to get on board, their intention being to join the Cuban army and fight in the ranks. In spite of the vigilance of the Spanish authorities the steamer was fitted for sea and the men taken safely on board. Last Sunday night she sailed from that port, commanded by a Capt. Woodrow. Unfortunately, however, the boat was unfit for sea and the hasty preparations had allowed no time for a thorough examination of her bottom, for she had proceeded only as far as the eastern end of Long Island when she sprung a dangerous leak and began to settle in the water. In spite of all the crew could do the leak gained with fearful rapidity, and in a short time they were compelled to take to the boats. There were about 100 men on board.

Seventy Survivors Reach New York.

New York, Jan. 29.—The ocean tug Fred B. Dalzell brought to this city seventy men supposed to be Cuban filibusters whom Capt. Denyse picked up from the schooner Leander V. Beebe yesterday morning at a point ten miles due east from the stranded steamship St. Paul off Long Branch. Capt. Henry Denyse, who commands the Dalzell, was lying off Long Branch looking for a tow, when he sighted the three-masted schooner Beebe. An American flag, inverted, flew from her rigging, and the Dalzell ran up and hailed her. "The schooner's deck," said Capt. Denyse this morning, "swarmed with men in all stages of undress. Wretchedness was written in every line in their faces. Very few wore hats.

Garcia Among Those Rescued.

The tug captain said that none of the men made any secret about their efforts to reach Cuba and there fight for her freedom. "The most dejected man on board was an old man, who told me he was Calixto Garcia," said the captain, "and he was in charge of the expedition. He was accompanied by his son Carlos. Garcia seemed completely broken down. He said that the Cubans had played one of their strongest cards of the revolution in sending out this expedition, and that more than $200,000 worth of arms and ammunition had been lost by the sinking of the Hawkins.

Costly War Material Lost.

"He said they loaded the steamer Hawkins for the expedition at Port Morris. All day the hatches were closed and nobody ever had any suspicion that we had thousands of dollars worth of arms in her hold. All the work was done at the dead of night. We sailed on Friday night and went out by Long Island Sound. On Monday morning early the vessel sprung a leak. The water gained inch by inch despite many efforts to keep the streamer free, and finally the coal went overboard, and then the costly arms and ammunition. It broke our hearts to throw these arms away, but we had to keep the vessel afloat somehow. Gradually the Hawkins settled down and at 11:30 o'clock on Monday morning we took to the lifeboats and deserted the sinking steamer. When she went down she was forty-five miles south-southeast of Barnegat and the sea was very wild."

Probably a Ruse of the Cubans.

At the headquarters of the Cuban junta in this city it was declared by the leaders this morning that the Hawkins was not a filibuster as far as they knew. Many shipping men do not believe that the Hawkins was a filibuster. They think she was a boat bought by the Cuban junta to throw the Spanish off the track of the real filibuster, which will soon be heard from at a distant point of Cuba.

CAMPANIA ALSO GROUNDED.

Report of the Keeper of the Long Branch Life Saving Station.

Washington, Jan. 29.—Keeper Wardell, of the Long Branch, N. J., life saving station, has made his official report to Supt. Kimball, which seems to establish the fact that the Campania grounded as well as the St. Paul. He mentions the fact that the St. Paul grounded, and then referring to another steamer, says: "The morning of the 25th inst. Surfman Sexton while on his north watch from 12 to 4 a. m. discovered a large steamer ashore. He burnt his Coston signal and at once returned to the station to give the alarm. We started with our beach apparatus for the wreck at 2 a. m. While we were on our way we heard a steamer blowing north of the station, close to the bench. Surfman Chasey Kundgist ran to the beach and burnt his Coston lights and signalled to us that she was ashore. We had the apparatus hauled abreast of the steamer. I was having the gun placed in position to fire a line over her. I waited a few minutes to let her get still, when we saw her begin to go astern. She backed off all right. After waiting a while to see that she was all right we proceeded on our way to the steamer in front of the Brighton hotel." This other steamship was undoubtedly the Campania of the Cunard line, about whose grounding contradictory statements have been made.

SUNDAY CLOSING BILL.

Provisions of the Malone Measure Before the New York Assembly.

Albany, Jan. 29.—The assembly codes committee will to-day report favorably Assemblyman Malone's bill regarding the sale of certain articles on Sunday. As it will be reported the bill will read as follows: "All manner of public selling or offering for sale of any property on Sunday is prohibited, except that articles of food may be sold and supplied at any time before 10 o'clock in the morning, and except also that meals may be sold to be eaten on the premises where sold or served elsewhere by caterers; and prepared tobacco, milk, ice and soda water, in places other than where spirituous or malt liquors or wines are kept or offered for sale, and fruit, confectionery, newspapers, cooked food, drugs medicines and surgical appliances may be sold in a quiet and orderly manner at any time of the day."

To Return with Liberty Bell.

Philadelphia, Jan. 29.—The committee of the city council which will bring the liberty bell from Atlanta left here last evening on a special train. Mayor Warwick accompanied the committee. The bell will be welcomed back and escorted to its resting place in Independence hall by a big military and civic parade. Atlanta's mayor and other Atlanta citizens will come on with the bell.

Accused of Murdering Her Son.

Long Island City, L. I., Jan. 29.—The coroner's jury in the case of William E. Lawlor, who was found dead in bed at his home, hacked almost to pieces, on January 2, returned a verdict that he came to his death from blows on the head and face with an axe in the hands of his mother, Mrs. Minnie Lawlor, and that John Fleischauer and Anthony Forstell were accessories to the crime. All the accused are under arrest.

Mr. Dana Will Address the Women.

New Haven, Conn., Jan. 29.—The ladies' committee of the New Haven Colony Historical society has secured Charles A. Dana of New York to deliver the second lecture in the society's course, on March 10. Mr. Dana will speak upon "Abraham Lincoln and His Cabinet."

Not To Send Warships.

Berlin, Jan. 29.—A semi-official denial is published of the report that Germany was about to send warships to Venezuela to compel the payment to German capitalists of the fund guaranteed by Venezuela for the construction of the Venezuelan railway.

Nominated for State Treasurer.

Annapolis, Md., Jan. 29.—The republican members of the general assembly met in caucus last night and nominated Thomas J. Shryock of Baltimore for state treasurer. Mr. Shryock received 62 of the 77 votes cast.

Fatal Explosion on Board a Steamer.

London, Jan. 29.—An explosion occurred yesterday in the hold of the British steamer British Army, Capt. Nicholson, at Barry. Two men were killed and five injured. The steamer was badly damaged.

Steamer Pensacola Floated.

Galveston, Tex., Jan. 29.—The steamship Pensacola, which went aground in Galveston bay Sunday night, has been floated, uninjured.

ARMENIAN MASSACRES

British Blue Books Issued on the Outrages.

Newspaper Stories of Murder, Torture and the Violation of Women Confirmed—Extermination of the Armenians the Main Desire, and Not Suppression of Alleged Revolt.

London, Jan. 29.—Two blue books on the Armenian massacres have been issued by the government. The first contains the dispatches between the consuls and diplomats, while the second give the process verbal of the Armenian commission. The blue books deal only with the Sassoun outrages and do not mention the later reports. The consuls confirm the newspaper stories so far as the nature of the outrages go, telling of brutal tortures, burning alive, the violation of women, the cutting open of enceinte women, the tossing of children on bayonets, etc., by Kurds and soldiers. Long extracts are given from the report of the consular delegates on the commission to Sir Phillip Currie, the British ambassador to Turkey.

Kurds and Soldiers Acted Together.

This report states the fact that the Kurds accompanied the troops, and that no steps were taken to compel them to withdraw may be regarded as proved. It must also be regarded as having been established that the Kurds and soldiers were the joint authors of the burning of entire villages. Moreover, it was not proved that the Armenians were in revolt. The victims at Gheliguzan are estimated to have been about forty. The report does not support the newspaper stories which stated that the victims numbered thousands, but it protests against the difficulty thrown in the way of the inquiry and the duplicity of the Turkish commissioners and officials.

Long-Standing Armenian Revolt.

The second blue book contains an important memorandum by Consul Shipley upon the report of the delegates. This declares that the consul is compelled to regard the stories told by the newspapers and similar stories told elsewhere as being enormously exaggerated and, in certain instances, absolutely invented for the purpose of adding to the horror. Nevertheless, Consul Shipley says, it is impossible to doubt that in certain ravines of the Antok mountains fugitive villagers were attacked by soldiers and Kurds and massacred with savage brutality regardless of age or sex. Consul Shipley remarks that an agitation subversive of government authority has proceeded for years among the Armenians in the Moesh and Talori regions. This agitation was instigated by the Armenian committee abroad. It was the failure to successfully cope with the agitation that finally exasperated the Turkish officials.

Extermination the Main Desire.

On the other hand, the government entirely failed to protect the Armenians from the constant extortions of the Kurds and rapacity of the officials. The Armenians were obliged to pay tribute to the Kurds to prevent their houses from being burned and their cattle stolen, the government never attempting to prevent such outrages. It was impossible to expect the Armenians to be contented under such conditions. Mr. Shipley concludes that it was not so much the suppression of a psuedo revolt that was desired by the Turkish officials as the extermination of the Armenians in the Gheligrizan and Talori districts. He estimates at 900 the number of victims in Sassoon.

Call for Rev. Percy Barnes.

New Haven, Conn., Jan. 29.—The parish of Grace Episcopal church has extended a call to Rev. Percy Barnes of Yantic, Conn. Mr. Barnes has held in New York and Providence, and the present call is by unanimous vote of the parish.

The days of the cider joint in its old-time form of prosperity are numbered.

From all over the country come suggestions for the successor to Ambassador Runyon. In the west many persons are endorsing Potter Palmer, of Chicago, for the place.

The information comes from Hudson county that Assistant Secretary of the Navy Wm. McAdoo has practically made up his mind to enter the lists for the Democratic Congressional nomination in that county next fall.

It seems to be recognized on all sides that this country in preparing for or in preparing to prevent war should, as much as anything, assume necessary protection for the sea coast cities. It is estimated that it will cost $80,000,000 to properly fortify the sea coast.

The Jersey City News severely attacks the principles and work of the Salvation Army as worthless to Christianity and a waste to society. The Salvation Army, like all great, just and admirable organization whose object is the uplifting of the class of humanity who have descended so low in morality that ordinary society will not lend a helping hand or word, have proved their worth as an important factor in the religious world, and the public's good opinion cannot be shaken by such disgraceful attacks as The News emits.

PARTICULAR MENTION.

Miss Maude Kinsey, of Duer street, will attend a large masquerade ball in Newark this evening.

The three-months-old son of Mr. and Mrs. E. E. Hann, of Somerset street, is very ill with pneumonia.

A Revolutionary Relic.

Yesterday Tony Lazzi, of Grove street, while grading a sidewalk in West End avenue, Washington Park, in front of the MacFarland property, previous to laying a stone sidewalk, unearthed a one ounce musket ball about the size of a small marble. There is no doubt but the ball was used by the Continental army in the Revolutionary war. The ball was last evening presented to a direct decendant of one of the old Revolutionary stock, H. N. Spencer.

Reckless Riding Stopped.

East Second street was excited yesterday afternoon by the sight of a man riding at full speed up and down the street to the danger of all those passing by. Sergeant Kiely ordered him to appear before City Judge De Meza this morning, which he did, and was fined $5.

James McCann and John Kiely were each given their choice by City Judge De Meza between a fine of $3 or ten days in jail for trespassing on the railroad cars Monday.

—The women's prayer meeting at the Park Avenue Baptist church will be held in the fifth class room Friday afternoon at 3 o'clock. Miss Baker, of Westfield, will address the women at 4 o'clock. All are cordially invited.

HOOD'S PILLS Cure Indigestion

J. W. Pierce, Republic, Ia., says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself." L. W. Randolph, 143 W. Front St.

THEATRICAL.

"One of the Bravest" will be the attraction at Music Hall next Saturday night. The play is a story of New York life, and deals with characters familiar to us all. It is a clever melodrama, the entertainment being meritorious and deserving. While it has its serious aspects, there is a rich vein of comedy running through the play. The situations are thrilling and follow each other in rapid succession. The specialties introduced by the members of the company, together with the singing, is a special feature. The scenic effects are decidedly realistic to life.

Of Wonderful Value, and Free.

Tired bodies, pale and sunken cheeks haggard eyes, sleepless nights and weak nerves, and ruining our lives and killing our people. No wonder these poor sufferers bless Dr. Greene for his great offer. He is the most successful specialist in curing nervous and chronic diseases, and the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. He has established a system of letter correspondence at his office, 35 West 14th street, New York City, by which all can write him about their complaints, and by mentioning the symptoms they suffer from and telling him how they feel, they will receive an answer from him, free of charge, giving a complete description of their case and telling just what ails them. He gives most careful attention to every letter, tells just what to do to be cured perfectly and permanently, and makes all understand exactly what their complaint is And all this costs nothing. No journey to the city, no doctor's fee, the best medical advice and consultation in the world, and nothing to pay. The Doctor makes a specialty of treating patients through letter correspondence, and it is successful. Write him at once, reader, and you will almost certainly be made strong and well.

The Crescent Wheelmen's Junior team will not roll the Park Club Juniors Friday evening. The Wheelmen will go instead to the Y. M. C. A. alleys and roll the five men team from that association.

It's gone, gone to the little town of Cranford, but it is hoped that, like the cat, it will return some day. It, in this case, is the lead in the Central Journal Bowling League, and by the Crescent Wheelmen being defeated by the Elizabeth Athletic Club, in this city last evening, it left the Crescents and now stands perched on the shoulders of the Cranford Country Club team, waiting to be sent for. The scores were not high, but the game was a very interesting one nevertheless. The lead in the first frame went to the wheelmen, but by some very good bowling, Elizabeth took it in the second. The third frame was a remarkable one for the visitors. They made nine breaks and one strike. The next frame was not much better and then both teams held their own for a time. The E. A. C. boys diminished the lead very slowly until the ninth frame when they were only one pin behind. It was neck and neck down the home stretch, but Elizabeth managed to get there although only by nine pins. That was enough, however, to send sorrow into the hearts of the big throng of rooters who came to cheer the Crescents on to victory. Kiely, as usual, managed to finish highest of his team. Pope had an off night, never made a strike and only scored 104. Baker was tried for the first time in a tournament game, but showed that he is a coming bowler. He was sixth in line with 156 pins. This is only the second game that the Crescents have lost on their alleys since their organization.

The detailed scores were as follows:

Westfield is a great town for bowlers, but it takes Plainfield to beat it. While two Plainfield teams were fighting on their own alleys the Plainfield Y. M. C. A. sent a five-men team to Westfield to meet the Y. M. C. A. of that place last evening. The teams broke even after one very hard game and one very easy one. At the start the home team appeared to be devouring their latest victims with great relish. At the end of the sixth frame Westfield led by almost 100 pins, and then the visitors showed the spectators what kind of bowlers they have in Plainfield. All five set a rousing pace and rapidly overhauled the home team, but it appeared that the great finish came too late, for, in the last frame, when everybody but Smith had bowled, Westfield was 22 pins ahead. Tommy thought of the football game last fall when he made a touchdown,

running from the centre of the field, and he rose to the occasion. The pins, however, all laid down and the umpire yelled "strike for Plainfield." Smith braced himself and tried again. The result was the same. The other Plainfield boys went wild and then Smith rolled his last ball and scored 7, winning the game for Plainfield by five pins. The second game was a complete walkover for Westfield, as the intense excitement of the previous game seemed to affect the nerves of the visitors. Westfield won by over 100 pins. A return game will be rolled in this city Monday night. The individual scores were as follows:

Two good games were rolled on the Park Club alleys last evening, one of which was good in the eyes of the home team and the other good in the eyes of the Roselle Casino contingent. The two teams, the Parks and the Roselles, met to decide which should be first in the Standard League, for they have been tied for that honor and they finally settled it to remain together, each winning a game. In the meantime Westfield managed to take two games from Cranford and jumped into first place. The first game on the Park Club alleys was a lively one, although the borough boys managed to maintain the lead throughout, but it took good bowling to do it. In the fourth frame the Parks led by 47 pins, then the Roselleites went in and reduced that 19 pins in the fifth and 6 in the sixth. But Matthews, Worth and Thiers came to the rescue and in the next frame the home team was 81 pins ahead. The Roselles are always famous for their rattling finishes and they came up to time but the effort was too late and the Park Club won by 31 pins. The second game was the most exciting of the two. In the first frame the local bowlers averaged almost 23 pins and led their opponents by 21 pins. This lead they slowly increased until it reached 39 in the fifth frame, then they struck the tobbogan. Now the visitors began to overhaul the Parks and were only 2 pins behind in the seventh. The audience began to feel worried and then followed a Garrison finish by the Roselle team. Strikes and spares followed each other in rapid succession while the smile faded off the genial face of "Doc" Thiers and to be worn by Captain Grieves of the Roselles. The last frame was begun by VanBuren. He led off with a strike and managed to make 27 on the windup. There was some hope for the home team after all but Patterson knocked that thought out by making 28 and Roselle got the decision by 34 pins. The scores were both quite high, 860 to 826. The individual scores were:

Special interest is now attached to all the games placed in the Standard Bowling League, as Plainfield is so directly concerned through the Park Club which is struggling hard for first place. Westfield has been leadmost of the season, but last week Roselle and the Park Club passed her. Last night she went back again to the lead by taking two games from Cranford, the first by 22 pins, and the second by 112. The individual scores were as follows:

CYCLING COMMENT.

Mrs. Lindaman, of West Front street, has just learned to ride a wheel and enjoys the sport very much.

WITH THE ROD AND GUN

SPORTSMEN WANT BETTER HUNTING AND FISHING IN JERSEY.

Sportsman's Game and Fish Protecting and Propogation Society Organized—Members to be Taken in Three Counties

The adjourned meeting of sportsmen for the organization of a society, whose object is to provide means for co-operating with land owners and farmers, and to purchase game for restocking and propagating purpose, thereby insuring good sport to its members, and benefitting the property owners by stocking their lands with game and their ponds and streams with fish, and strickly enforcing the laws of trespass and any violation of the game laws, that may occur on the land given under the control of the society. Percy C. Ohl, at whose office the meeting was held, called the meeting to order and on his motion John Goff was chosen to preside. Mr. Henry Haurand acting as secretary. The committee for drawing up a constitution reported, and the constitution was adopted as read.

The organization is to be known as The Sportsmans Game and Fish Protective and Propagating Society of the Counties of Union, Middlesex and Somerset. The meeting was well attended and enthusiastic. Representatives from all the counties were present.

Many assurances were given by property owners and farmers, pledging their support. Several large tracts have already been secured. F. C. Phoebus, of the Green Brook Kennels, informed the meeting of a large consignment of live quail from Northwestern Virginia, now intransit to his address in this city, which would be liberated under the society's direction.

He also gave information as to the procuring of rabbits and other game. Other communications on the subject were read from various parts of the country, making it apparent that the success of this organization simply depended upon the efforts of its members.

The meeting for the election of officers, etc., will be held Friday evening, February 7th, at 8:30 o'clock at the same place.

VARIOUS SPORTS.

Charles Krewson, of this city played against Kraufman and Bey Monday evening at Newark in the pool tournament for the championship of the State. The scores were: Krewson, 115; Kraufman, 69; Krewson, 112; Bey, 125. Mr. Krewson played a match game afterwards with George Todd for $20. He scored 100 points and Todd 41.

KAFFIR CORN.

Proves to Flourish in All Kinds of Climate.

Is Remarkably Hardy, Prolific and Produces a Cereal That Is Better for Feeding Purposes Than the Ordinary Indian Corn of Commerce.

The question of successful farming in the semi-arid regions of the great west is solved at last.

Kaffir corn, first introduced on the American continent from the Kaffir country, in Africa, less than a decade since, is still an unknown product to nine-tenths of the people of the United States.

At first planted here and there as a curiosity, it was found to grow readily in all localities and under all conditions, and experiments developed the fact that it would mature a crop in the driest and hottest seasons on the high western plains. A more extended planting of the new grain and a comparison of results obtained soon developed the fact that whether the season was wet or dry, cool or hot, long or short, this new product would thrive on all kinds of soils with the minimum of care and cultivation, and planted any time between the first of April and the middle of July it would mature an absolutely sure crop of grain and fodder before the frosts of autumn.

The stalk looks something like a single shoot of common corn, but shorter, attaining a height usually from 4½ to six feet, and having pointed leaves of a rich green color. The grain forms in a head at the extreme point of the shoot, where the tassel is on ordinary corn, the heads being from seven to 12 inches in length and six to eight in circumference, and when ripe look like great white or red plumes.

The grains are almost round, a little larger than a grain of rice and much resembling a grain of wheat in interior structure.

There are two varieties, red and white, the latter being the favorite crop. Though raised as an experiment here and there throughout the west for several years, it was not until the present year that it became a prominent crop. When the drought of last spring killed the wheat and oats and seemed almost certain to ruin the corn, the few who had had experience with the new grain began to advise their neighbors to plant Kaffir corn, as it would grow all right in dry weather, and they could thus at least raise food for their stock. The newspapers took up the advice and soon farmers were planting Kaffir corn, utilizing the ground where wheat and oats had failed at planting on sod or scattered patches where early corn had been burned out.

The planting was continued until well along in August, the acreage being in many sections greater than that ever devoted to a single crop. In Oklahoma alone nearly 50,000 acres were planted with the new crop. And every grain of it planted grew and thrived to maturity, and before the summer was over the farmers began to wonder what they would do with it all. They knew it was good food for stock, but there was not stock enough in the territory to consume it, and the product was yet so new that it was not recognized in the outside markets.

Experience had already developed the fact that it made a most admirable feed, either to winter stock or fatten them for market, but with an abundance of the grain on hand Oklahoma farmers soon discovered that it was better for horses than either corn or oats, making them fat and stout, and giving them a sleek, glossy appearance.

When it came to feeding hogs it was found that they gained flesh more rapidly than when fed on common corn, and poultrymen have found the Kaffir grain an admirable egg producer, and when fed unthrashed the fowls are given exercise in picking it from the head.

The boys and girls soon discovered that it would pop as well as popcorn, the grains popping out large, white and tender, and women in the country found that boiled like rice the grain was excellent eaten with cream and sugar, that mashed into a pulpy mass it made an excellent pudding, and it was also a first-class substitute for hominy.

Still the quantity produced was so great that the people continued to wonder what they would do with it.

The owner of the roller mills at Medicine Lodge, Kan., ran some of the grain through his cornmeal grinder, and produced a meal pronounced in every way equal to the ordinary cornmeal, but he was not content with this, but rigged up a special set of burrs and produced a new product that bids fair to create a revolution in the world's breadstuffs —Kaffir flour.

Some of this flour was made into light bread. The bread was fully as white as bread made from second grade wheat flour, and was sweet and palatable.—St. Louis Globe-Democrat.

The Southern Aurora.

On February 1, in latitude 66 degrees, longitude 172 degrees 31 minutes, we ran into open water again, having this time spent only six days in the ice pack. On the 17th the aurora appeared, stronger than I ever saw it in the north. It rose from the southwest, stretching in a broad stream up toward the zenith and down again toward the eastern horizon. The phenomenon this time had quite a different appearance from what we saw on October 20. It now presented long shining curtains rising and falling in wonderful shapes and shades, sometimes seemingly close down to our mastheads. It evidently exerted considerable influence upon the magnetic needle of our compass.—C. E. Borchgrevink, in Century.

—"How do you sell this music paper?" asked the customer at the stationery store. "I'm not certain about it," said the new clerk, "but I think we sell it by the choir."—Chicago Tribune.

BURIAL OF A GREAT ARTIST.

Story of Paganini's Death Recalled by a Recent Exhumation.

The late exhumation of Paganini's remains, near Parma, brings to memory all the other peregrinations they have gone through since they were first taken to the Nice cemetery in 1840—when Nice still belonged to Italy. Being refused there, however, because Paganini was not of Nice, the remains were taken to Marseilles, where they were also refused admittance. Not even Genoa, where Paganini was born, would receive his body because an epidemic was then raging. A like refusal was received at Cannes.

Shall I tell you why it was so hard to find a resting place for his bones? It was a common belief that Paganini had sold his soul to the devil, who would take it immediately after the poor man died! So, for five years, the body was left on the rocks of San Ferreol, where it might be still had not the duchess of Parma insisted in having it buried in the Villa Gaime. In 1855, the coffin had to be changed, and in 1876 the body was again removed, this time to the cemetery of Parma. Then, however, all the people in Parma crowded the river side, down which the body was carried by night, to the light of hundreds of torches. Baron Attilius Paganini, a grandson of the violinist, was also present. Once more, in 1893, the vault was opened, and the features of the great man were again seen. And now again the vault has been opened for repairs. A friend writes and says that the face is still perfectly preserved. The lower part of the body is mere bone; the face, however, is as perfect as ever, and has been photographed. Baron Achilles, Paganini's son (now an old man), has caused the body to be placed in another coffin, and this time a large piece of glass has been placed in the coffin. Thus any artist visiting Parma may now see the features of Paganini by asking Baron Achilles' permission.

I am told that much of the music which bears Paganini's name was never written by him at all. His real compositions, however, are now going to be published, and they will be a surprise to artists on account of their mechanical difficulties, which will be a perfect test of ability to many of our modern violinists—great as they may be. He used to practice exercises by the hour together with a weight tied to his right arm. Then after this weight was removed his playing sounded as if it were a complete orchestra playing. There are some old people who still remember hearing him practice in this way. Whilst practicing he would also walk up and down the room, rarely looking at the music on the desk. From his youth he always had the preference for one bow. It never left him. It was very long and was mended over and over again. It always lies on the chimney piece of the Green room in the Villa Gaione. It stands in a gold column, protected by a crystal shade, and on it is a paper telling what it is.—Footlights.

PHRASES THAT STICK TO US.

Curious Figures of Speech That Have Become Incorporated in Our Language.

The queer phrase "My friend and pitcher" was still sometimes heard in Maryland and Virginia—also, I am told, in Pennsylvania, until within recent years, but would seem now to be obsolete hereabouts. Is it still in use elsewhere? "Pitcher" had the meaning of chum, crony or familiar acquaintance—preferably, perhaps, said of, or to, one of the opposite sex. The saying "Little pitchers have long ears," and the briefer Shakespearean "Pitchers have ears" furnish possibly some analogy.

Here in Maryland a long lease of life, or at all events of memory, was secured for the phrase by its use in the name of a patent of land in Baltimore county granted in 1799, the full name of which, "My Sweet Girl, My Friend and Pitcher," has met the amused glance of many a conveyancer searching the indices of our land records. The same day when this patent was issued out of the land office of Maryland the patentee received patents for five other tracts, and the cheerful spirit of an expectant or recent bridegroom is perhaps reflected in the names he chose for them, for three of the others are: "Here is Life Without Care and Love Without Fear." "With Little Am I Content" and "Hug Me Snug." One regrets to learn that within the year our patentee sold all six of the parcels (nearly 500 acres) for "£200 current money," $533.33.

For some years in the earlier part of this century the indices of the land records of Baltimore county give not only the names of granter and grantee, but the names of the tracts conveyed, and very whimsical these often are. Besides many such names as "Meg's Recompense," or "John's Last Chance," or "Repentance," or "Folly," we come across such curious titles as the following: "Bad Roads at Midnight," "Come by Chance," "Cuckold Maker's Palace," "Fingal and Ossin," "Habnab (hobnob) at a Venture," "Harry's Delight in Army Garden," "Poor Jamaica, Man's Plague," "Silent Cyphers of Africa," "Seek No Further, for Better Can't Be Found" and "Gen. Rochambeau, the Friend of Washington, and, Therefore, the Friend of Universal Liberty."

Returning to the phrase "My friend and pitcher," it is interesting to note that although the word "pitcher" in the sense in which it is here used is not to be found—so far as I know—in any dictionary, the expression was certainly not unknown in England some 55 years ago, for it is introduced in one of Barham's Ingoldsby Legends, "The House Warming," in the following characteristic passage:

Room for my lord, proud Leicester's earl,
Retires awhile from courtly cares,
Who took his wife, poor hapless girl,
And pitched her neck and heels down stairs,
Proving, in hopes to wed a richer,
If not her "friend," at least her "pitcher."

Your Spring Clothing

Rather early to speak of it, but if it needs cleaning or dyeing, it isn't too early to have us do that work for you. This is our dull season—our employes are here ready for work. We'd like to have your goods now. We can give them better attention than in the rush of the spring season. Then we'll have to have more time or rush them at the expense of good work Now we can take our time, do the work better than if hurried and you'll have the clothing all ready for warm weather.

Look in the closet or trunk and find your spring wear that needs cleaning and dyeing and bring it to us now, or better still, our wagon will call for it if you will send us word.

MISCELLANEOUS ITEMS.

—In both Egypt and Assyria porcelain rings were in common use. They were often painted with great delicacy, the painting being burned into the enamel.

—When Alaric besieged Rome, A. D. 408, and was on the point of taking the city, he demanded as its ransom from pillage an immense quantity of gold, silver and jewels, and, among other things, 3,000 pounds of pepper.

—Perhaps the most striking evidence of thrift since that referred to by Hamlet is furnished by a Maine town, where apple trees are to be planted in a grave yard and the proceeds from the sale of the fruit are to be devoted to the repairing of the fences and the cutting of weeds.

—As far as recorded, the loss of life by shipwreck in 1895 was 4,250; by railway accidents, 3,632, and by other casualities over 24,000. Add to these dismal figures the 5,759 reported murders in the United States alone, and we have a total of 37,641 violent deaths, or an average of over 100 for every day in the year.

—The fox's reputation for smartness was well sustained by a member of the tribe near Falmouth, Me., the other day. A couple of hounds and a hunter were after it, and the fox led the hounds to a frozen pond, and out on ice so thin that it just supported the fox, which escaped, while the hounds went through and were drowned.

—Passmore Edwards, editor of the London Echo, a paper which the Spectator describes as "the most honest and most faddy in the world," gives away thousands of pounds every month to philanthropic undertakings of various kinds. These he is said to select with great judgment, but he always takes care to exploit his good deeds at great length in his own paper, and persistently asks other journalists to do the same in their own publications.

—A $150 lawsuit over a $1.25 pig has just been ended in Michigantown, Ind., and the town treasury is out the former amount. A month ago the city marshal impounded a pig belonging to a farmer named Hillis. The farmer refused to pay the $1.50 pound charge and replevined the pig. The town sued him, and after three trials the circuit court gave a verdict for Hillis, with $1.01 damages. More than half the people in town were summoned as witnesses, and the total amount of money lost over the pig runs to a pretty high figure.

—Edison believes that he can solve the problem of air ships either by using balloons or aeroplanes; but, to use his own words: "I would construct actual ships of the air—yachts, schooners and brigantines—which would tack and jibe, and sail before the wind. My idea is that the lifting power for these air ships should be gas stored in the sails. In other words, you apply the balloon principle in such a way that the gas bag, instead of being an impediment, as it at present, would be the actual means of propulsion. I would construct gas bags shaped like the sails of a yacht."

RED TABBY CATS IN LONDON.

Entertainingly Described by a Milwaukee Lady Who Saw Them.

A Milwaukee lady who has recently returned from abroad says that one of the most interesting exhibits which she saw in Europe was the National Cat show of England, which was held at the Crystal palace, London, in which about 700 cats were shown, says the Milwaukee Sentinel. "The decided feature of the exhibition," she said, "was the number of superb red tabbies, together with a fine assortment of pure blacks, smoke-colored cats and cats with that peculiar tone of glossy coat known as cat blue. The efforts of the English cat breeders this last year have been blue and black cats. In the opinion of many experts a black cat without any markings whatever of white is the most perfect variety that is known, and it is proof of the appreciation of this that certain dishonest people pluck the white hairs out of a cat one by one. It has been noticed that the classes that are open to workingmen in this national exhibition are particularly strong in fine black cats. Blue-eyed, white-coated cats are getting to be highly valued in England now, and one of these bore off the other day a substantial money prize that was offered by Louis Wain, the great cat artist. Another prize-winner of the show was a brown tabby tom, Champion Xenophon, which its owner values at $5,000."

Sure Proof.

It is said that Hon. Samuel Galloway, of Columbus, O., was one of the plainest men ever known in the state. He told many stories relative to his own personal ugliness of face with great good humor. One which he often related with much relish was that of the remark made by the little daughter of a friend in another city with whom he was dining. "Mamma," he heard the child say, in an awe-struck whisper, after a prolonged survey of the peculiar features of the guest, "that gentleman's mamma must have loved children mighty well." "Why so, my dear?" inquired the unsuspecting parent. "Oh," returned the child, in the same audible whisper, "'cause she raised him!"—Youth's Companion.

Common Case.

The Scotchman's disposition to regard his own judgment as the best that can be found is well illustrated in a story once told of the moderator of a Scotch presbytery. This man's opinion differed widely on a certain question relating to church discipline from that of the associates with whom he was ostensibly consulting. At last he said that he would lay the matter before the Lord in prayer and then wait for His guidance. "O Lord," said the moderator, fervently and with perfect sincerity of purpose, "O Lord, grant that we may be right in this matter, for Thou knowest we are very decided."—Youth's Companion.

Her Bad Little Brother.

Hostetter McGinnis was in the parlor talking love to Sallie Chaffie. She murmured:

"I have had many suitors for my hand, but you are the only one I ever loved, Mr. McGinnis."

Just then Johnnie bobbed up from behind the sofa and said:

"Sallie, I'll bet that he don't come here any more. None of the others did after you told them that."—Dallas (Tex.) Sifter.

A Sudden Reformation.

"Charley is getting so economical," said young Mrs. Tocker.

"That is quite an unusual trait in him."

"Yes. I have only observed it in him this week. He insists on wearing his old 50-cent necktie, so as to save those for which I paid a dollar and a half apiece."—Washington Star.

Professional Courtesy.

The casual visitor of the bland disposition leaned over the shoulder of the regular humorist.

"So you are the man who sees the funny side of everything?" he chortled.

"Yes," the police reporter hastened to say. "He even sees the funny side of his own jokes." — Cincinnati Enquirer.

She'll Giggle Constantly.

"I'm so worried about my daughter," said the woman in the new fur cloak. "She goes about so solemn, so depressed. I'd give the world, doctor, to see her smile again."

"That's easy enough," answered the doctor, briskly; "get her into a church choir."—N. Y. Recorder.

WROTE A "GILDED GOD."

The Latest Interview With Mrs. E. Burke Collins.

Famous Novelist Recovered from Nervous Prostration.

Paine's Celery Compound Made Her Vigorous and Energetic.

Du Maurier has made Paris studios familiar to every one. But not until the appearance of Mrs. E. Burke Collins' story of "A Gilded God" did novel readers dream of the wealth of material ready for some gifted novelist's pen in the brilliant artist life of our own New Orleans.

In a recent interview by a New Orleans paper she said: "Of course, to a certain extent, my characters are drawn from life, though never exact portraits. My favorite heroine is Mam'selle in my story of a Modern Heathen.' No, I rarely urge aspirants to take up a literary career. Success is obtained only at the price of the

most exhausting labor."

Although Mrs. Collins' writing has always been a labor of love, yet such incessant mental exertion could not fail to have its effect on her nervous system.

At one time she found herself tired out and weak from her uninterrupted work; she became nervous and incapable of work; she even saw nervous prostration staring her in the face. The general toning up that her system needed so badly she found in Paine's celery compound. Today she is perfectly well and strong again, busy as ever with her brain and pen, and grateful to Paine's celery compound for the timely help when failure and trouble and despair seemed about to close round her and shut her off from everything that was dear.

"Your constant brain work must tell on your strength," observed the reporter. "Yes; you have no idea how much. I am at my desk for nine or ten hours a day," she replied, "I am careful to obey the laws of health and I am never without a supply of Paine's celery compound. When I feel weak and nervous and there is a heaviness in my brain or a shooting pain over my eyes, which warns me that my energy is flagging, I take a little of the compound, and I am strong and free from pain at once. I never enjoyed such buoyancy of spirits and soundness of body before I made the acquaintance of Paine's celery compound. Scarcely a day passes that I do not urge some friend to take it. For neuralgia, indigestion, nervous prostration and blood disorders, I am convinced that there is nothing like Paine's celery compound. I am not surprised that physicians use it in difficult cases."

Paine's celery compound is found to best supply the great need of studious, sedentary people. Its extensive use by brain workers, both men and women, suffering from sleeplessness, indigestion or other effects of a deficient nerve force, shows its ability to feed tired, emaciated, nervous tissues. Nothing else has ever possessed anything like the power of Paine's celery compound to restore a healthy nervous tone to the entire body, and to thoroughly cleanse the blood. School teachers, professional men, newspaper men, ministers, public officials, men whose daily outlay of vitality, because of hard, trying, anxious work, is excessive, fine renewed strength, not only of the nerves, but through their healthy action, of the entire body, in Paine's celery compound. Its use shortly dispels headaches, rheumatic pains, dyspepsia, heart trouble, general debility and languor, and all other outward signs of the grave mischief that comes from disordered nerves and impure blood.

AN IDEAL SUMMER HOME.

BEAUTIFUL SCENERY SURROUNDING FRENCH & VAIL'S NEW HOTEL.

Work is Being Rapidly Pushed on the Hotel and it Will be Opened This Summer—A Trolley Road to Be Built To It.

Situated on a summit of the Watchung mountains near Johnston's drive, a beautiful undulating section spreading out to the East, with Plainfield in the foreground, rugged, mountainous territory piling up in the rear and wooded land hemming it in all around save where avenues of ingress or egress have been cut out, are the picturesque surroundings which will characterize the summer hotel that Messrs. John H. French and J. T. Vail are now having built. It will be an ideal place, when finished, to while away the spare moments devoted to rest and recreation during the humidity of summer. In company with Mr. French a representative of The Daily Press visited the grounds and partly finished hotel, yesterday, and was struck with the favorableness of the locality for such an enterprise. The building which is being erected is a large roomy structure and is now up to the third story, while the carpenters are pushing their work to completion as rapidly as possible. The building will be about 100x38 feet, with an L extension 16x40, underneath of which has been excavated an immense cellar. The bedrooms in the house will all be large, compared with the ordinary summer hotel. The plans are such that the dining room, parlor and large reception hall can be thrown into one room and used for dancing.

Broad piazzas, supported by rustic stone arches, will surround the house. Every modern improvement will be put in the house. The water will be procured from flowing springs and forced into the house by an electric pump, already in position and use. The power is supplied by the trolley railroad. In every detail the place will be up-to-date. While the grounds will be left as naturally rustic as possible, yet the owners will go to a heavy expense in clearing away underbrush and leveling off certain portions for swings, games and various pastimes usually indulged in by the summer boarder.

The hotel will only be eight minutes walk or ride from the trolley road and is accessible through a macadamized horseshoe loop.

One of the most important things in connection with the erection of the hotel is the statement by Mr. French that an electric railway will eventually be built to the hotel. It is probable that it will be reached by a line through the Notch and then a loop back into the grounds from Washingtonville, as the grade is not as heavy that way as it is from front.

The 125 acres which constitute Messrs. French & Vail's plot, and surrounding the hotel property, will be improved and cut up into building lots. Already several of them have been sold.

Messrs. French & Vail deserve great praise for their enterprise in improving this mountain property, and will doubtless meet with great success.

Tried to Find Her Husband.

A woman came to Plainfield from Trenton last week, saying that she was in search of her husband. His name, she said, was Miller and that he worked at Rheaum's mill. She investigated but found it was not the same man. Her funds were low and she told some of her listeners that she had not the money to buy her ticket home. She left town in some manner, however.

"Grainlet."

A MURDEROUS ASSAULT.

BOUND BROOK MAN BROUGHT TO THE HOSPITAL SERIOUSLY HURT.

Attacked By Three Negroes in Bound Brook on Christmas Morning and Was Unconscious for Over Three Days.

Bound Brook was greatly aroused last Christmas day by the murderous assault of a white man by three negroes. Today the victim was brought to Plainfield in an unconscious condition for treatment. His name is John Vandeveer. Last Christmas Eve. he attended a ball and returned early in the morning. He went home and changed his clothes, and shortly after five o'clock started for the stable where he works as driver for the paint factory. On his way there he was waylaid by three negroes who struck him at the base of the skull with a club and cut his face with a razor. It is supposed their object was robbery. His body was found by some workmen and taken home. He was unconscious for three days and then recovered his senses and told the names of his assailants. He did not recover but grew gradually worse and it was at last decided to take him to Muhlenberg hospital for treatment. He was brought down this morning on a train as far as Grant Avenue, from where the ambulance took him to the hospital.

BACK TO THE FATTED CALF.

Dime Novel Runaway Boys Think Home is a Good Place Now.

In boy life, the excitement of running away and becoming a Wild Westerner, soon fades away after a short experience. Not long ago The Daily Press recorded the fact that John Devine and Alba Smith, two victims of the lurid dime novel, had left for parts unknown. Since that time John Devine has returned home, very much happier and wiser. He is thoroughly well pleased with his home and says he had enough of tramping.

Today Alba Smith returned. He was found by the Chief of Police in Baltimore a few days ago, and upon inquiring learned that the boy belonged in Plainfield. He telegraphed to his mother who immediately sent money back to bring the boy home. Alba was delighted to get home, and his experience has taught him a great lesson.

LOOKING FOR A SENSATION.

Union County Grand Jury Have Found Several Indictments.

The Union County Grand Jury, it is said, is nearly ready to make a formal report next Monday, and Elizabeth will therefore have another dry Sunday. The jury is holding a session today and probably one tomorrow to wind up its business.

It is reported that the jury has indicted about twenty saloon keepers, and that some women are among them. It is also alleged that a poker joint was unearthed by the Grand Inquest, and likewise a disorderly house. It is said that the latter will make a sensation. Detectives from New York were hired by the Christian Citizenship Tnion to work up the cases.

An Old Veteran Sick.

Quincy Brokaw, of Smalleytown, a well-known old war veteran and a famous huntsman and fisherman, is lying at his home dangerously ill. Mr. Brokaw is over seventy years of age and has always heretofore enjoyed the best of health. He and his wife have lived on the little farm, where they now reside, for nearly twenty years, previous to which time they resided at Greenbrook. They have four children, three girls and one boy, all married. Dr. P. J. Zeglio is attending Mr. Brokaw who is well known in this city.

Ran Away With a Dump Cart.

A horse, attached to a dump cart, belonging to Moses Carney, the grader, ran away yesterday. The horse was eating in Mr. Carney's yard at the corner of West Third street and Central avenue when it became frightened and ran away. It was caught at the corner of Watchung avenue and East Fourth street. No damage was done.

To Select a Name and Officers.

The young men's social club, the account of the organization of which was exclusively told of in The Daily Press at the time, met again on Monday night, but no definite action was taken. They all seem to be in favor of organizing regularly, and a meeting for that purpose will be held tomorrow evening.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

HAPPY NUPTIAL EVENTS

TWO COUPLES ENTER INTO WEDLOCK AT ST. MARY'S CHURCH.

Both Weddings Held Yesterday Afternoon and Largely Attended by Friends and Relatives—Names of Bridal Parties.

It was a brilliant assemblage of people that gathered at St. Mary's R. C. church yesterday afternoon at 4:30 to witness the marriage of Miss Catherine Agnes Mullen to George Lawrence Hughes. The wedding was one of the prettiest ever witnessed in the church, which was crowded with relatives and friends of the bride and groom

Previous to the ceremony Miss St. Leger, the organist, gave a rendition of classical music in her usual excellent manner, and when the appointed hour arrived the church presented a picture of beauty, with the altar candles burning brightly.

The ushers, William Addis, John Powers, Frank Blatz and James McCann, entered first, followed by the bridemaid, Miss Ella Mullen, sister of the bride. She wore a charming gown of brown cloth, trimmed with Dresden velvet, and a becoming hat to match She carried a bouquet of pink roses. Then came the bride leaning on the arm of James Bailey. She was gowned exquisitely in old blue cloth, trimmed with Dresden lace, also with hat to match. She carried a beautiful ivory-bound prayer book.

The groom and best man, Fred Hughes, entered from the front of the church and met the bridal party at the altar. The perfect rendition of Mendelssohn's wedding march as the party were entering gave a decided finish to the ceremony, which was performed by Rev. Father Smyth.

On retiring from the church the wedding march from Lohengrin was finely executed.

A reception was held at 7 o'clock at the home of the bride on West Fifth street, where a number of relatives and friends were present to extend hearty congratulations to Mr. and Mrs. Hughes. An excellent wedding supper was served during the evening

The bride and groom left early for a short wedding tour. They will return Saturday and immediately go to housekeeping in a new house recently built and furnished throughout by Mr. Hughes, on East Second street, near Richmond street. Mr. and Mrs. Hughes received a very large number of handsome and useful presents from their many friends.

The groom's gift to the ushers were diamond and pearl crescent stick pins.

The marriage of Miss Katy Gavaghn, of New York, to Patrick Raigan, of this city, took place yesterday afternoon at 3 o'clock, in St Mary's church, Rev. Father Smyth officiating. Miss Sarah Gavaghn, of New York, sister of the bride, acted as bridemaid, and Martin Raigan, brother of the groom, was best man.

A reception was held in the evening at the groom's home, 680 West Third street, which was attended by a large number of relatives and friends. Early in the evening the guests began to dance, and it was nearly five o'clock this morning when they left for their homes.

Mr. and Mrs. Raigan were handsomely remembered by their friends, receiving a number of presents.

Mr. Raigan is coachman for Samuel St. John McCutchen, of the borough, and is a well-known and popular man. Music for dancing was furnished by O'Reilly.

MR. RUNYON'S FUNERAL.

The Late Ambassador's Memory Honored by the Imperial Family.

Berlin, January 30.—Memorial services were held at noon to-day in St. George's chapel, in honor of the late Theodore Runyon, United States Ambassador to Germany.

All of the 300 seats of the chapel were occupied by a distinguished congregation, and the imposing looking catafalque upon which the remains rested, was buried under floral offerings from the deceased statesman's admirers, including tributes of respect from Emperor William of Germany, the Empress, ex-Empress Frederick, the German Foreign Office, the members of the Diplomatic Corps, the American colony and German friends of the deceased.

In addition, there were handsome floral tributes from the staff of the American Embassy and that of the United States Consulate here.

Dr. Dorland Dead.

Dr. W. W. Dorland, formerly of this city and a partner of Dr. Thiers, the Grove street dentist, died in Bound Brook, Tuesday, from consumption. His funeral will be held tomorrow He was well known in this city.

—John Tingley, who keeps a restaurant on West Second street, will move to Dunellen soon.

SIN AND EXCUSE MAKING

THAT WAS THE THEME OF DR. LEWIS LAST EVENING.

Excuse Making Comes Very Near the Borderland of Sin—People Are Putting Off Religion With Trivial Excuses Daily

Every pew in the Crescent Avenue church last evening had its occupant, and all were thoroughly in harmony with the spirit of the meeting. There was a noticeably large attendance of young people. The rousing song service, led by Horace J. Martin, was followed by an earnest prayer by Rev. C. L. Goodrich. After a hymn, Rev. A. H. Lewis, D. D., read a part of the fourteenth chaper of Luke, beginning with the fifteenth verse. He took for the central thought of his sermon, a portion of the eighteenth verse of that chapter. "And they all, with one consent, began to make excuses." The selection told of the bridal feast and how the invited guests did not come. Dr. Lewis compared it to the heavenly feast, and how so many that receive an invitation begin to make excuses. He said in part:

"Sin and excuse-making go near together. Adam was the first to make excuses for sin and man has done so ever since. This excuse making goes very near the border land of sin. The first element in this excuse-making is falsehood, perhaps you can call it deceit. There is an element of robbery which is very prominent and very serious. A man is never a man in the fullest sense until he is permeated with the sense that he must do whatever is right, no matter what. Making excuses to God comes near profanity and the robbing of God of His due. It is the simple things that we ask to be excused in and fail. God wants you to come just as you are without any excuses. Do you expect to stay in your present condition of ignorance? You must take a step forward if you do not want to. It is not a bad motive that leads you to make exeuses but only a way to get around your responsibility. You are one of Christ's children and the obligations are the same on all. You never feel like moving and you never will until you do move. You say, wait, it will be just as well to do it some other time. Suppose when you come down to breakfast in the morning your wife should say, won't day after tomorrow do instead. What would you say? Let these excuses you have been making be stopped. All those forms of excuses are making it worse. Are you willing to say that you are satisfied with what you are doing now? Don't you want to go any higher in the Christian life? You are saying you don't when you make these continual excuses. A man never makes an excuse but that he feels ashamed. Don't make any more excuses whatever you do. If tonight the plea or the invitation come, answer it. Dr. Lewis closed with a powerful appeal to the sinner to stop making excuses and give himself to the Lord.

After a prayer by Rev. W. R. Richards, D. D., and another hymn, the after meeting was held in the main body of the church. Almost all the entire congregation remained. The after meeting was led by Fred H. Andrews. He said that the most of those present were church going people and knew the path to heaven. "What a terrible thing it is," he said, "to be so close to the Kingdom of God, but not be in it." He compared it very appropriately with the magnificent steamer, the St. Paul, stranded almost within sight of her harbor. A very helpful season of prayer and testimony closed the meeting.

New York's Poultry Show.

At 9 o'clock on Tuesday morning, February 4th, and continuing from that hour in the morning until 10:30 o'clock at night each day until Saturday, February 8th, the New York Poultry and Pigeon Association's Seventh Annual Exhibition will be an attraction at the Madison Square Garden for New York people and everybody else. What the Poultry Show is to the breeders of poultry and to the public in general, is proven by the large attendance each year and as the premiums amount to over $6,000, and the entries in all the classes are very full, this year's exhibition will undoubtedly be the best which the Association has yet given.

Grip Drove a Doctor Crazy.

It is feared thrt Dr. Westfall, a popular physician of Rahway, has become insane from the effects of a severe attack of the grip. He now lies in a critical condition at his home on Grand street.

Wants to Be State Hangman.

John VanHise, of Newark, who is an expert hangman, and who was some time ago mentioned as a candidate for the position of State Hangman, called on Governor Griggs Tuesday.

BIG MEN OF FINANCE.

L. V. F. RANDOLPH AT THE HEAD OF A TRUST COMPANY.

Leander N. Lovell is a Director—High Compliment Paid to the Executive Ability and Services of Mr. Randolph.

A Philadelphia magazine publishes the following in relation to the Atlantic Trust Company, in which two Plainfield gentlemen, Messrs. L. V. F. Randolph and Leander N. Lovell, hold places of important trust:

This organization, founded in 1887 and located at 39 William street, New York, has enjoyed a career of success due very largely to the character and business capacity of the men to whose management its affairs are entrusted. The standing of the organization and the confidence of its shareholders are shown in a recent event of its history. A short time ago it was decided to double the capital of the concern, making it $1,000,000 instead of $500,000, at which it had remained since it commenced business. The additional $500,000 of stock (par $100) was immediately subscribed for at $150, thus yielding $750,000 to the company. It was all taken by those already holding stock in the company. The business of the Atlantic Trust Co. embraces all the functions included in the operations of such institutions, and it is especially successful as a bank of deposit. Its holdings from individuals and business concerns exceed $5,000,000. Its investments are made with care and conservatism, and these elements in its management constitute the principles underlying its prosperity. Its surplus fund exceeds $500,000, and it has a considerable amount of undivided profits. The last quarterly dividend of the company was declared payable January 1, 1895, and was for 2 per cent.

The official staff of the company is as follows: L. V. F. Randolph, president; John L. Riker, first vice-president; William Carpender, second vice-president; James S. Suydam, secretary, and James D. Fowler, assistant secretary.

Lewis V. F. Randolph was elected president of the company in January last, following the retirement of William H. Male; and the company was fortunate in securing as its new chief executive a man well qualified by training and experience to fill the position. Mr. Randolph has spent his business career in close touch with corporations and large estates, and has gained a reputation for the energy, quick judgment and integrity necessary to the successful management of great business enterprises. He was formerly treasurer of the Illinois Central Railroad Company, having been elevated to the position through promotions from one important trust to another in the service of that company.

More recently he was identified with the settlement of the estate of the late Samuel J. Tilden, and his services in this connection are highly commended by Hon. John Bigelow in his new history of "Governor Tilden and His Times." He was also secretary of the Tilden Trust, the Library Corporation, which is now to form one of the integers in the consolidation to be known as the New York Public Library. Mr. Randolph is popular outside the prescribed limits of busines affairs. He was a Union soldier in the War of the Rebellion, and was at one time mayor of Plainfield, N. J. He has been for many years active in railway and financial matters.

The Board of Trustees of the Atlantic Trust Co. is divided into three groups, whose time expire at different periods, and are as follows: Class of 1899: Lewis Cass Ledyard, William B. Isham, W. H. H. Moore, W. R. T. Jones, J. L. Riker, Andrew H. Green and Frederick Sturges; class of 1897: Leander N. Lovell, Anton A. Raven, John F. Halsted, Clifford A. Hand, Joel F. Freeman, Joseph H. Chapman and J. Landon Ward, class of 1898: William H. Male, H. H. Rogers, C. D. Leverich, Alfred Waystaff, Matthias Nicoll, L. V. F. Randolph and William Carpender.

Plainfield Man at the Head.

At the head of the list of incorporators of the Grimpton Drug and Chemical Company, which was incorporated at Trenton last week, is the name of Willard M. Miner, of East Sixth street. Mr. Miner is one of the directors of the new company which prepares tablets and other druggists' supplies for the trade. Their specialty is pepsin, which is prepared by a new improved method. The factory of the company is at Jersey City.

Prizes at Euchre.

The Euchre Club was very pleasantly entertained by Mr. and Mrs. L. G. Tompson at their home, Grace Court, last evening. At the close of the game prizes were awarded as follows: Miss Sydney Wharton, first; Mrs. J. F. Raymond, second; G. Harry Squires, first; James H. Hallock, second. Delightful refreshments were then served, completing an event of genuine pleasure to all.

Coming Back.

The last lecture on cookery was given by Miss Bedford yesterday afternoon in the Y. M. C. A. building. The subject was "Deserts" and was really one of the best in the course. Several favorite dishes were cooked and all present received better ideas on the cooking and serving of these important dishes. Miss Bedford will return to this city in two weeks and give two lectures, one on chopping dish work and one on pastry.

To Raise Cane in Africa.

John E. Lager, ex-superintendent of the United States Nurseries at Short Hills, will start for South Africa on February 8th, where he will establish sugar cane and coffee plantations in the provinces of Savilla, Honda and Barananquilla, and interest himself in gold mining. Mr. Lager, while in Africa, in 1890, sent to this Government some of the most valuable tropical plants now in its possession.

Judge Rice in Beekman's Place.

The news of the appointment of Judge J. Kearney Rice, of the Middlesex Court of Common Pleas, to succeed John W. Beekman, resigned, as United States District-Attorney, has caused surprise in New Brunswick. Mr. Beekman was appointed in 1894, after the name of Capt. James Parker, of Perth Amboy, had been withdrawn by the President. Judge Rice is a personal friend of Miles Ross.

—Justice Newcorn has rendered his decision for the plaintiff in the contract case of Barry against Verette.

TRUMPET PRESENTATION

FIREMEN'S FAIR COMMITTEE MAKE A PRESENT TO THE EXEMPTS.

The Old Fire Bell Also Given to Them—Alex. Titsworth Accepts the Gifts in a Neat Speech—Other Speakers

It certainly did the hearts of the Exempt Firemen a great deal of good last evening when a delegation from the Fire Department entered their room, while they were in session, for the purpose of presenting the very handsome silver trumpet to them. The trumpet was recently presented to the firemen by Mayor Gilbert to be contested for at the fair, but owing to the fact that a sufficient amount of money was not turned in it was held by the firemen and later they decided to present it to the Exempt Firemen.

L. M. Dunavan, for the committee, made a very appropriate speech and then handed the valuable trumpet over to President Augustus Saltzman. The latter called on Orator Alex. Titsworth, who in his usual happy manner, received it for the Association. Other excellent remarks followed by D. W. Littell and W. A. Woodruff, members of the board of trustees, Charles Burnett, Jacob Blimm, Sr., J. K. Arnold, L. E. Barkalew and L. J. Spicer.

President Saltzman then, on behalf of Mayor Gilbert, presented the firemen with a very pretty bronze statue representing a fireman. It will be kept at Fire Headquarters.

Another surprise was in store when Messrs. De Camp and Force retired from the room and returned with the old fire bell which was the first ever used in Plainfield. It was the property of E. P. Thorn, but had been presented to the Association. The bell has an interesting history from the fact that it was on duty for a long time at the old railroad station, which many of the older residents will remember. Later it was placed on the engine house which stood where Eugene Laine's barber shop is now located. When that place was torn down, E. P. Thorn captured it and has held it ever since, until given to the Association. The latter will make arrangements to have the bell suspended in the room.

The last surprise, but not the least, was the presentation by John Chandler, through Mr. Demarest, of his trumpet to the Asssociation. Again Orator Titsworth was called upon and he was equal to the occasion in receiving it for the Association. It was presented to Mr. Chandler by the members of Zephyr Hook and Ladder Company, No. 1, when he was foreman of the company, July 30th, 1872.

During the speech-making and festivities good cigars were passed and the evening was spent in a most enjoyable manner.

President Saltzman's description of the Ireland and Germany fire departments was postponed till next meeting.

Pleasant and Profitable.

An informal tea and cake sale was held at the residence of Charles H. Smith, of 35 Grove street, yesterday afternoon by the members of the Young Ladies' Missionary Society of First Baptist church. In one of the parlors, chocolate was poured into dainty cups by Miss Ida Yerkes and passed to the guests. The cakes were on sale in the other parlor and here Mrs. Charles H. Smith and other members of the band were in charge. Mrs. DeWitt Brokaw, president of the society, assisted by other members, received the guests. A very pleasant afternoon was spent and quite a number dropped in during the afternoon.

Good Things Coming.

Thursday evening, February 13th, is the date settled upon for the supper to be given by the Ladies Christian Work Society, of Trinity Reformed church, in the lecture room of the church. Their reputation for serving a first-class meal is so well known that a large gathering of friends of the church is looked forward to. Instrumental music will also be a feature of the evening. The price of tickets, including supper, has been fixed at thirty-five cents.

—Werner deals right with his patrons, and what his new ad in today's Press has to say can be depended on.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

TOOK THEM AGHAST

Senators Discussing Tillman's Speech.

Something Out of the Ordinary Was Expected, But the Fiery South Carolinian Outdid Himself. Fierce Denunciation of the President and Secretary of Treasury.

Washington, Jan. 30.—Senators and representatives to-day are discussing the sensational remarks made by the South Carolina senator, Mr. Tillman, in his speech in the senate yesterday, and while something out of the usual was expected from the erratic southerner, no such utterances as he indulged in were expected. The announcement that the South Carolinian was to make a speech had the effect of filling the senate chamber and galleries. His address was ostensibly in favor of the free coinage substitute for the house bond bill, but really in denunciation of the president and the secretary of the treasury. Mr. Tillman was on this occasion a splendid combination of orator and actor, giving to senators and spectators two hours of entertainment. The way in which he spoke of the president might have exposed him to interruption and censure, but seemed to be rather enjoyed than found fault with. He described him as "bullheaded and self-idolatrous." "Never," said he, "had the high office of president been so prostituted, and never had the appointing power been so abused. With relentless purpose he had ignored his oath of office and given no heed to the interests of any but his moneyed friends—his owners or partners." He spoke of Secretary Carlisle as "that Judas from Kentucky who had in his old age come to a pitiful pass," and referred to the two other southern members of the cabinet (the secretaries of the navy and the interior) as "apostates from their principles."

Raised His Hat to Sherman.

Talking of the Sherman act, Mr. Tillman exclaimed: "I would take my hat off to him, as I do typically (suiting the action to the word) as the victor of victors in this financial conflict of a quarter of a century." He said that he would append to his speech "that infamous contract with Stetson (the syndicate contract), also an extract from the democratic year book of 1888 showing the purchase of bonds "with that surplus which used to keep this man awake at nights." (Laughter). "And it must be authentic," he added, "coming as it does from the democratic national committee." (Laughter). "I just want to put the two, cheek by jowl, you know, in juxtaposition."

Denounced All as Cowards.

Coming once more to a denunciation of the president, Mr. Tillman snapped out the question to republican senators: "Why have you not impeached him?" Mr. Hawley, rep., Conn., replied that the last congress was democratic. "I have already paid my respects to the last congress," Mr. Tillman said, "and I hoped better things from the congress which the people have now sent here. But you are all of a kind—cowards, tools of monopolists. (Sensation). He is not impeached because he is carrying out republican policy." Mr. Tillman spoke for exactly two hours, delivering with great dramatic power and effect the last sentence in which he predicted a national cataclysm "unless you take your hands off the people's throat and give them an opportunity to breathe, to work, to live."

Scenes of History Enacted.

Before Senator Tillman began to speak the senate chamber was a theatre in which scenes of history were enacted. First came a concurrent resolution reported from the committee on foreign relations requesting the president of the United States to use his good offices with the government of Spain to have belligerent rights extended to the Cuban revolutionists. This was followed by a minority report from the same committee—Mr. Cameron, rep., Pa., composing the minority—with a concurrent resolution requesting the president to use his good offices with the government of Spain "for the recognition of the independence of Cuba." The reports accompanying the resolutions, lengthy arguments, were read and the resolutions were placed on the calendar to be taken up for debate and action whenever the committee on foreign relations may deem it advisable. The resolution heretofore offered by Mr. Call, dem., Fla., requesting the president to report to the senate in regard to the arrest at Havana of three American citizens, Mark E. Rodriguez and Louis Soumellan and son, and to demand their immediate release, was reported back from the committee on foreign relations with the last clause struck out, and was also placed on the calendar.

House of Representatives.

In the house the consideration of a bill reported from the committee on invalid pensions, directing the pension bureau to accept as satisfactory evidence of the death of a soldier proof of his unexplained absence for seven years, was begun, but a vote to order the previous question on a proposed amendment developed the lack of a quorum, and at 1:50 o'clock adjournment was taken for the day. Some time was spent in dissecussing a resolution offered by Mr. Brewster, rep., N. Y., to give to the Grand Army veteran brigade, Rochester, N. Y., four condemned cannon Numerous amendments were offered to include other G. A. R. organizations and soldiers' homes and the whole matter was finally referred to the committe on naval affairs.

DIED OF ARSENICAL POISON.

Result of the Investigation into the Death of Wm. McGregor.

Altoona, Pa., Jan. 30.—Coroner Foust has received the report of the Philadelphia chemist who made the analysis of the contents of the stomach of William McGregor, who died from the effects of drinking coffee into which it is charged 13-year-old Minnie Swanger emptied a box of "rough on rats." The report says that Mr. McGregor's death was due to arsenical poisoning. The coroner's jury investigating the matter will meet Saturday evening, when the evidence of all the witnesses will be taken and a verdict rendered. Old Mrs. McGregor, mother of the dead man, and who also narrowly escaped death from the poison, has gone insane since the terrible tragedy and, owing to her mental condition, will not be called to the stand. She still maintains that her grandchild, Minnie Swanger, had nothing to do with the poisoning. The verdict of the coroner's jury is being awaited with great interest by all the residents of this and adjoining counties. An impression has become general that another arrest will be made when the evidence in the hands of the officials is all gathered up. Minnie Swanger is now under arrest.

CANADIAN SHIPPING.

Remarkable Decline in that of the Maritime Provinces.

Montreal, Jan. 30.—The shipping of the maritime provinces of the Dominion—Nova Scotia, New Brunswick, and Prince Edward island—continues to show astonishing decrease, and bids fair, if the shrinkage goes on at the present rate, to be practically wiped out of existence in another decade. During the last twelve years the total tonnage has declined nearly one-half, or by from 890,810 tons in 1884 to 489,765 tons in 1895. In the first year, 1884, Nova Scotia had 3,019 vessels, of a total tonnage of 543,835, while she now has only 2,689, with a tonnage of 344,981. New Brunswick owned 1,096 vessels, with a tonnage of 307,762 in 1884; now she has 983 vessels, with a tonnage of but 125,461. Prince Edward island possessed 534 vessels with a tonnage of 39,213 in 1884, and now she has 190 with a tonnage of 19,323.

MRS. TUCKER'S MURDERER.

Yonkers Officials Believe That Lancaster Is the Guilty Man.

Yonkers, N. Y., Jan. 30.—Officers here believe they have the murderer of Mrs. Tucker in the person of Thomas Lancaster, aged 51, the Dexter, Me., weaver whom they arrested yesterday. He said he was working two weeks ago. He had $40 in a small bag when arrested at Purdy's station and was spending money freely. He talks with a north of England accent. Since his arrest he has acted in a nervous and frightened manner.

An Arrest in New York.

New York, Jan. 30.—A man answering the description sent out by the Yonkers police of one of the men whom it is alleged murdered Mrs. Edmund Tucker, was arrested by the police of this city late last night. He was begging at the time. When brought to the station house he said his name was Thomas Sullivan and that he had no home. He was locked up on a charge of vagrancy.

NEW JERSEY MASONS.

The 109th Annual Session of the Grand Lodge at Trenton.

Trenton, Jan. 30.—The 109th annual session of the grand lodge of Free and Accepted Masons of New Jersey is in session in Masonic hall here. Grand Master Belcher presides. The report of Grand Secretary Redway showed a total membership in the state of 15,666, an increase over last year of 441. The election of officers will take place to-day.

Celebrated Her 102d Birthday.

Brooklyn, N. Y., Jan. 30.—Helen Dean yesterday celebrated her 102d birthday at her home on Carlton avenue. She is still possessed of all her faculties and alert to everything that goes on. She received many telegrams of congratulation and affection from myriad of friends.

Wealthy Woman Commits Suicide.

Rochester, N. Y., Jan. 30.—Mrs. S. O. Alton, of Perry, Wyoming county, committed suicide last evening by taking chloroform. She was very wealthy, prominent in church work and especially active in the Woman's Christian Temperance union. No cause is known for the deed.

Removed to Manchester.

Rockville, Conn., Jan. 30.—Herkheimer Bros., of Wheeling, W. Va., one of the largest firms of wool dealers in the country, have removed the entire wool pulling part of their business to Manchester, where they have this week started up the Union mills, which they have leased.

Belle of Nelson Distillery Failure.

Louisville, Jan. 30.—The assignees of the Belle of Nelson Distillery company have presented in court a statement of the assets and liabilities, as follows: Liabilities, $709,262; assets, $498,219. The fraudulent receipts are estimated at $160,727.

Quail Shooting Record.

Denison, Tex., Jan. 30.—Joe Hazelton made yesterday the greatest quail shooting record ever heard of in the southwest. He shot over a Gordon setter and from sunrise to sunset killed 151 birds. Hazelton is from Kansas.

Declines Discussion.

Birmingham, Ala., Jan. 30.—Capt. Jos. F. Johnston, candidate for the democratic nomination for governor of Alabama, has declined a challenge from congressman R. H. Clarke to a discussion on the financial question

PARDON FOR DEMPSEY

Final Chapter in the Homestead Poisoning Case.

Pennsylvania Board of Pardons at Last Acts Favorably on the Petition—A Boy Murderer's Death Sentence Commuted—Same Mercy Also Extended to James McMullen.

Harrisburg, Pa., Jan. 30.—At a meeting of the board of pardons yesterday afternoon action was finally taken in the case of Hugh Dempsey, the Homestead poisoner, and his pardon was recommended. Dempsey was convicted and sentenced to a long term of imprisonment for poisoning the water and food of the non-union men during the famous strike at the Homestead works of the Carnegie Steel company. William Penn Bowman, a 19-year-old boy, who is under sentence of death for the murder of an Arabian peddler in Luzerne county, had his punishment commuted to life imprisonment, and the same mercy was given to James McMullen, an Allegheny county murderer.

FIREBUGS ACTIVE.

Another Incendiary Blaze at Lancaster, Pa.

Lancaster, Pa., Jan. 30.—This city is suffering from an epidemic of incendiary fires. Another one, which started last night in the tobacco warehouse of Julius Lederman on Harrisburg avenue, completely destroyed the warehouse with its contents consisting of about 500 cases of tobacco, valued at $15,000. The contents of an adjoining tobacco warehouse, occupied by C. W. Bitner & Co., Cyrus Adams and F. W. Friescher of New York, among which were 1,000 cases of leaf tobacco, valued at $50,000, were ruined by smoke. The aggregate loss in this warehouse will be $60,000.

RUSSIA AND TURKEY.

Belief at Constantinople in a Tacit Understanding.

Constantinople, Jan. 30.—It is now believed here that a tacit understanding between Russia and Turkey really exists, and that by its terms Russia has engaged to support Turkey in certain events, such, for instance, as the passage of the Dardanelles by a British fleet. On the other hand Turkey agrees to permit Russia to occupy and pacify Armenia. The position of France in regard to this understanding is much discussed here, and it is thought in certain circles that she will be constrained to separate herself from Russia, as the latter's policy is held to be opposed to French interests.

SENOR PALMA NOT TO RESIGN.

Will Not Abandon His Post Until Cuba Is Free.

New York, Jan. 30.—It was rumored that Senor Palma, president of the junta, had tendered his resignation. This is not true, and Senor Palma said last night "I will not resign or abandon my post until Cuba is free. The resolution of the committee on foreign affairs is the first step toward our recognition of belligerent rights, which will come later on. The report that we have been the victim of a traitor is false." Notwithstanding Senor Palma's denial, many Cubans believe the filibusterers on the steamer Hawkins were betrayed.

Quebec's Winter Carnival.

Quebec, Jan. 30.—The third day of the winter carnival was ushered in with splendid weather and crowds of visitors arrived by every train. From the present appearance this year's carnival will beat the record. To-day and to-morrow will witness the carnival drive and the attack and defense of the ice tower, both of which promise to surpass anything of the kind ever seen on this continent.

Health All Gone

Unequal to Family Duties--No Appetite

Hood's Sarsaparilla Gave Strength and Courage to Work.

"I was in such condition I could not walk even about the house to attend to household duties and care for my children and family. I did not have the strength of a child. I was treated by several physicians, who pronounced my trouble Scrofula and Female Weakness. I could eat only a slice of bread and drink a cup of tea, three times a day. Sometimes I could stand a soft boiled egg for dinner. I became reduced to skin and bones; at last they had to draw me about the house seated in a rocking chair. I was in a terrible state when my husband, having noticed advertisements of Hood's

Mrs. John Hase

Sarsaparilla, urged upon me to give it trial. After taking one bottle I received sufficient benefit to know that I had at last found the right medicine. I have now taken several bottles and am able to

Consumption—Collapse

in this disease is what physicians constantly are on the look-out for, knowing that it means the end. Just keep up the strength; keep the body nourished properly, so that waste of tissue is checked, and with proper medicines death is delayed indefinitely, or a permanent cure, as has been proved in thousands of cases is accomplished. To effect this much desired result, give the patient

Bovinine

Dr. W. E. S. Preston, House Physician of the "House of Rest for Consumptives," of Tremont, N. Y., says, "I have never known a case where the stomach has rejected Bovinine. In cases of collapse, so common among consumptives, we always use it." Bovinine being easy to take, and quick of assimilation and a wonderful food product, at once starts on its mission of creating strength, flesh and blood. It tones up the vital organs and by thus invigorating them, enables them to throw off disease and gives to the sufferer a new lease of life where such a thing is possible.

STOLE NEARLY $50,000

H. M. Fowle, 26 Years Old, an Embezzler.

Robbed the Shepard & Morse Lumber Firm of Boston, by Whom He Was Employed, by Forged Checks Speculated in Real Estate—Married Only a Year.

Boston, Jan. 30.—Since October, 1893 Harry M. Fowle, 26 years of age, formerly of Roxbury, but now of Newton Centre, has embezzled the sum of $47,613 from the Shepard & Morse lumber company of this city. That fact Fowle admitted last evening in the private office of Chief Inspector Watts in the presence of that official and H. H. Shepard, treasurer of the company. Mr. Shepard would not believe the startling statement until figures corroborating it were produced, when he had to accept the statement as true. Nearly all of the cash has been obtained on checks, to which Fowle admits having forged the signature of Mr. Shepard. That fact, the lawyer of the lumber company claims, will make the banks responsible. Many banks throughout New England will be affected, so it is said, as a result of Fowle's crookedness. To get back the money it may become necessary for the Shepard & Morse lumber company to become entangled in many civil suits, but this they claim they will do, if it becomes necessary.

Spent in Real Estate Speculation.

Fowle has for at least two years kept a bank account at the Old Colony Trust company, and during that time has placed to his account there hundreds of checks bearing the forged endorsement of Mr. Shepard beneath the stamped name of the Shepard & Morse Lumber company. After making his confession Fowle said that if allowed to go to the Boston Safe Deposit company, where he rented a box, he would be able to show just how much he had stolen. He was accompanied to that place by the inspector and from his box he took memoranda, which he had kept since he began his wrong doing, and when the figures by months had been footed up it was found that the statement that he had embezzled in the vicinity of $50,000 was correct. Of that amount less than $2,000 taken was in cash.

Married Only a Year.

Fowle was employed by the lumber company as ledger clerk. It was through that agency that he was able to steal checks from time to time, and his clever understanding of bookkeeping, etc., prevented his being caught before this. He claims that most of his money was used in real estate speculations. Fowle was married a little over a year ago and has one child. He will be arraigned to-day, being held in default of $20,000 bail.

DEATH WAS FROM VIOLENCE.

Result of an Autopsy on an Insane Asylum Patient.

New York, Jan. 30.—The examination made by Coroner's Physician Huber on the body of Wilhelm Theims, who died last Tuesday at Ward's island insane asylum, the man whom it is alleged was beaten by Patrick Ward, an attendant, shows that death was due to shock from violence. A number of ribs were broken and there was a hemorrhage of the fatty tissue around the kidneys.

GLEASON FOR REED.

The Washington Delegate Pledges His Support to the Speaker.

Washington, Jan. 30.—Andrew Gleason, who was Tuesday elected one of the delegates to the republican convention, called at the capitol yesterday afternoon and informed Speaker Reed that he was for him first, last and all the time, and had been since the death of Blaine. He further said that any statement that he was for McKinley was based upon misapprehension.

"BAT" SHEA'S CASE.

His Fate Now in the Hands of the Court at Troy.

Troy, N. Y., Jan. 30.—After arguments closed last evening in the "Bat" Shea case briefs were submitted and the fate of Shea left to the decision of the court, which will be rendered before February 4, the date when the reprieve of the governor expires.

Masons for Peace.

Nashville, Tenn., Jan. 30.—The grand lodge of Tennessee Masons, now sitting in annual communication in this city, in sending a greeting to all masons throughout the world, urges upon every grand lodge of Free and Accepted Masons meeting during the year 1896 to issue some fraternal sentiment favoring a peaceful termination of all international strife.

New Haven Steamboat Officials.

New Haven, Conn., Jan. 30.—The New Haven Steamboat company at its annual meeting accepted the resignation of William Scott, general agent and treasurer, and appointed in his place E. F. DeYoung, with headquarters at New York.

Hugh C. E. Childers Dead.

London, Jan. 30.—The Rt. Hon. Hugh C. E. Childers, formerly first lord of the admiralty, secretary for war, chancellor of the duchy of Lancaster and financial secretary to the treasury, is dead.

Steamer Pouyer Quartier Floated.

St. Johns, N. F., Jan. 30.—The French cable steamer Pouyer Quartier, which went ashore at St. Pierre a month ago has been safely towed here.

MISS MARY QUAY MARRIED.

The Senator's Daughter Is Now Mrs. Louis R. Davidson

Washington, Jan. 30.—Miss Mary Quay, eldest daughter of senator M. S. Quay, was married last evening at the family residence to Louis R. Davidson of Beaver, Pa. The bride was dressed in white satin and was attended by her sister, Miss Carol Quay. The groom was attended by his brother, F. Davidson. The house was beautifully decorated with palms and pink flowers. There were but few guests present, except relatives, who came principally from Pennsylvania, and are guests of the senator and Mrs. Quay. After the ceremony the bridal couple left on a wedding tour to Florida, and upon their return will take up their residence at Beaver. The wedding presents were numerous and valuable.

THE DOMINION BUDGET.

A Decrease of $170,242 from the Amount Last Year.

Montreal, Jan. 30.—The estimates of the expenditure of the Dominion of Canada for the fiscal year 1896-'97 have just been presented to parliament. They amount to $41,230,681, a decrease of $170,242 from the amount last year. The principal increases are: Public debt (sinking fund), $250,983; superannuation, $3,700; militia, $372,716; railways and canals, $247,470; geological survey, $22,000; Indians, $80,263; northwest mounted police, $30,000; collection of revenue, $262,110. The principal decrease is in reduction of debt, $1,617,900. The large increase in the militia vote is caused by the intention of the government to drill all of the force this year for twelve days, instead of one-half as formerly.

DUCK SHOOTING BY MOONLIGHT

The President Spent a Good Time in Virginia Waters.

Quantico, Va., Jan. 30.—The president's steamer Maple anchored early last night a short distance down the river from here, opposite Wide Water station on the Richmond, Fredericksburg & Potomac railroad, and the president enjoyed duck shooting by moonlight. As the game was plentiful the evening was an enjoyable one for Mr. Cleveland. He was out early in the afternoon on the grounds of Col. Thos. J. Waller and was soon in the duck blinds. It was a surprise when the party left later in the evening for Washington.

ST. JOHN'S UNEMPLOYED.

They Petition for Work and the City Comes to Their Relief.

St. Johns, N. F., Jan. 30.—A deputation of 100 employed workingmen visited Gov. Murray yesterday and presented him with a petition praying that they be given work. The governor promised to place the matter in the hands of the government. The authorities, after considering the matter, decided to begin relief work, and to-day a large number of men are engaged in clearing the streets of snow.

MR. RUNYON'S SUCCESSOR.

A Report That Consul General De Kay Will Be Promoted.

Washington, Jan. 30.—The latest story, coming as quoted from Senator Smith, dem., N. J., is that the place left vacant by Ambassador Runyon will probably be filled by the promotion of Charles DeKay, the present consul general at Berlin. The name of Edwin F. Uhl, the assistant secretary of state, is also mentioned prominently in connection with the Berlin embassy.

MR. BAYARD PRESENT.

Benchers and Barristers Cheer the Ambassador at Their Dinner.

London, Jan. 30.—A grand dinner was given last evening by the benchers and barristers of the middle temple. Many distinguished guests, among them Hon. Thomas F. Bayard, United States ambassador to the court of St. James, were present. Upon his entrance Mr. Bayard was enthusiastically cheered.

Ex-Congressman Van Horn Dying.

Lockport, N. Y., Jan. 30.—Ex-congressman Burt Van Horn of this city is dying. He represented this district in congress three terms from 1862. He is 71 years old and was the anti-Conkling leader of Niagara county.

MISS BARTON IN LONDON

Armenian Relief Party Arrive in England.

The American Red Cross President Expressed Gratification When Informed That the Sultan of Turkey Will Permit Contributions To Be Distributed to the Sufferers.

London, Jan. 30.—Miss Clara Barton, president of the American National Red Cross society, and her staff, who are on their way to Turkey to distribute relief to the suffering Armenians, arrived from Southampton this morning, having reached the latter place late last night on the American line steamer New York. A representative of the United Press secured an interview at her hotel with Miss Barton and George M. Pullman, her secretary. Miss Barton stated that their voyage from New York had been a pleasant one and that all of the party were well. When shown by the press representative the announcement that the porte had agreed to permit persons nominated by Hon. A. W. Terrell, the United States minister at Constantinople, to distribute the fund for the relief of the Armenians, Miss Barton said she was very glad to see that the sultan had accorded such permission, which she considered a great concession after all that had been said against Turkey. She preferred to say nothing concerning her mission except to tell the American people that the committee of the Red Cross society had not altered their plans, which were to proceed to Turkey and there decide what to do. Further than this they really had no plans.

Red Cross Claims No Credit.

Miss Barton said further that she had undertaken the mission at the earnest and unanimous request of the people. The Red Cross had not given utterance to any opinion, but had merely engaged to distribute, in the best way possible, what money should be collected, and they intended to try to do this. It depended on the facilities afforded by the Turkish authorities how this would be accomplished. Miss Barton spoke kindly and lovingly of the earnestness of the Americans, who had gone heart and soul into the scheme, and emphatically declared that the Red Cross society had initiated nothing, but had merely carried out the plans originated by others. Mr. Pullman said it was possible that the sultan would permit the relief fund to be distributed under the auspices of the Red Crescent society, which is the Turkish branch of the Red Cross. If this be so the committee will avail themselves of the privilege.

WORK FOR MANY MEN.

Bethlehem Steel Works To Resume —Pushing Government Work.

Bethlehem, Pa., Jan. 30.—The Bethlehem Iron company is pushing work on government contracts. Last night four turret top-plates for the battleship Oregon were shipped to the Union iron works at San Francisco. Notices were posted last night to the effect that the company's steel rail mill would resume operations next Monday, giving employment to a large number of men.

Dickie Will Not Accept Re-election.

Lansing, Mich., Jan. 30.—It is stated that Prof. Samuel Dickie of Albion, for the past five years chairman of the national prohibition committee, has notified the committee that he will not accept a re-election to that office.

Red River Navigation.

Montreal, Jan. 30.—According to a dispatch from Winnipeg, there is every indication of a revival of interest in the Red river navigation project, by which that stream will be made navigable for vessels and steamers from and to Lake Winnipeg.

Senator Sherman Ill.

Washington, Jan. 30.—Senator Sherman of Ohio has been kept at home for several days owing to a cold he sustained while attending a dinner one rainy night last week. He will be out again in a short time.

Senator Tillman possesses only one eye, but he has mouth enough for a dozen men.

The anti-garb bill of Senator Rogers is a piece of freak legislation. It does not merit serious consideration.

It might be a good thing to transfer some of the political pulls from Trenton to the stranded St. Paul. They can do as much good in one place as another.

Not possessing a citizen progressive or enterprising enough to build a creditable business block, New Brunswick is now appealing to Uncle Sam to erect a $150,000 building in that dirty, slow and wicked old town.

Senator Smith thinks that Charles DeKay, the present Consul-General to Berlin, will be nominated to succeed the late Ambassador Runyon as this country's chief representative to Germany. Mr. DeKay is an old New York newspaper man. He stands high at the State Department.

Whiskers and wind have been generally supposed to constitute the crank's argument in the Senate in days past. The popular idea of the first part was dispelled yesterday by smooth-faced Senator Tillman, but wind does not describe the second composition. It was a regular Amazon typhoon of crankism.

There is a man named Hammell residing in Warren county, N. J., who registered a solemn vow thirty years ago that he never would enter his home again until a Republican Governor was elected in New Jersey. He has lived all these years in a hut, doubtless a very wretched man, and now the election of Griggs has permitted him to return to his home and family, where he has been received with great joy. The remarkable thing about the case of Mr. Hammell is the fact that the Fool-Killer has overlooked him for thirty years.—Rochester Union-Advertiser.

Arranging for an Entertainment.

There will be two adoptions and three members received by card at the meeting of Miantonomoh Tribe, No. 118, I. O. R. M., tomorrow evening. The entertainment committee will make a report, as will also the committee on building loan association. The good and welfare committee will furnish the members with a good time after the meeting when a mock trial will be held.

A Rapid Growth.

The annual letter of Rev. Dr. J. Clement French, President of the New Jersey Christian Endeavor Union, has been issued to each of the 1,005 societies in the State. There are over 50,000 Endeavorers in New Jersey, and at the present rate of increase there will be 10,000 more before the next annual convention to be held in this city in October next.

In Justice Newcorn's Court.

The following cases on contract have been tried in Justice Newcorn's court and judgments rendered for the plaintiffs. Lawyer Murphy represented the latters: Baker against Schmidt; Plainfield Ice and Cold Storage Company against Miller Bros; Smith against Cole; Morrison, administrator, against Grace.

A Forty-Niner Dies as a Hermit.

Ebenezer Brundage, eighty-one years old, died at East Orange yesterday. He had lived the life of a hermit on the old race track property for years. He was found in his hut unconscious Sunday. A doctor was was unable to do anything for him.

THEATRICAL.

One of the Bravest comes to Music Hall next Saturday. The leading character, Larry Howard, is a member of the New York fire department, and as such he rescues the inmates of a burning house in a heroic manner. This scene is excellent in fact, one of the most realistic ever presented upon the stage. Other scenes of special mention are the explosion of the steamship in the first act, and the Chinese opium joint scene in the last. Here one sees Hop Wah's laundry in full operation, with the typical characters who frequent this den for the sole purpose of imbibing in this exhilerating drug The scenes are kept brisk and lively with the introduction of songs and dances and specialties by members of the company.

Much interest is being taken here in the forthcoming production of "A Cracker Jack," which comes to Music Hall Tuesday and all those who enjoy a good lively exciting play enacted by a cast of excellent players should see this highly interesting and picturesque play. The story of "A Cracker Jack" opens in the East, finally shifting in its later scenes to the territory of Oklahoma where many exciting and thrilling incidents take place. The interest of the piece is heightened by the elaborate stage settings and the excellent manner in which it is presented. There are many strong dramatic situations and there is also plenty to laugh at in the play.

"An Artist's Model," at the Broadway Theatre, is doing remarkable well. It could easily stay for six months longer, but the Bostonians have engaged the theatre and will not be bought off. Marie Studholme, the English beauty, with her tom-tit song and dance; Nellie Stewart, Melba's friend, and the rest of the company, which is a very able one, continues to fill the house. Mr. Farkoa's laughing song is a feature.

"Excelsior, Jr.," is still the prosperous attraction at the Olympia Theatre in New York. Yvette Violette, who appeared for the first time Thursday evening, has made a popular hit. Fay Templeton pleases her audiences by her singing of "I Want Yer, Ma Honey," and Theresa Vaughn Irene Perry, Walter Jones, Charles Bigelow and Arthur Dunn are always most acceptable. The one hundredth performance will be given Monday evening, February 17th, and the usual souvenirs will not be wanting.

Dunellen.

Holton Council, at its meeting Wednesday evening, initiated one member.

Miss Mellicent Vail, of Front street, is visiting friends at Hasbrouck Heights.

Miss Cecelia Syers, of Sheepshead Bay, is visiting her grandparents, John McCall, of Lincoln avenue.

Next Wednesday evening, at the Methodist church, the fourth quarterly conference will be held. Rev. Mr. Ryman will be present.

A committee has been arranged to hold a birthday sociable at the Methodist church some time in February for the benefit of the library.

—There will be an interesting meeting of Franklin Council, No. 41, Jr. O U. A. M., this evening.

—A council of the Daughters of Liberty was instituted in Newark last evening to be known as the Pride of George H. Adams Council.

—A gang of Steet Commissioner Meeker's men cut down the large elm which has stood in front of the City Hotel for so many years. It was about dead.

—You'd better hurry down to Peck's, for as soon as the news gets out that he has opened his stock of spring wash goods and embroideries, the crowd will simply be immense.

—E. B. Ackerly, father of Paul Ackerly, formerly a member of The Daily Press reportorial staff, died suddenly of apoplexy at his home in White Plains, N. Y., yesterday.

HER FACE HER FORTUNE

Good Looks Women's Strongest Attraction.

How to Have a Clear and Brilliant Complexion.

Here is the Secret of How to Look Your Best.

Women, since the beginning of time have ruled by their beauty. It is at once their pride and their power. By the fascination of their beauty they attract and conquor. It is therefore a woman's first thought, aye, her first duty, to establish and maintain her beauty in its highest perfection.

All women are by nature beautiful. Beauty does not consist of regular features. Many of the most noted beautiful women of the world's history had decidedly irregular features. Beauty means attractiveness, and attraction is commanded by clearness of skin, pureness of color, brilliancy of complexion, vivacity of expression, sparkling eyes and rosy lips.

All these attributes of beauty must come from within the system. No external application, no face powders, washes or preparations can give anything but an artificial look. Beauty must first of all be natural. It must glow in the skin from within.

The reader's first thought is, how can I improve and maintain my beauty?

Easily enough. First and foremost you must have good health. By health is not meant that you feel fairly well, you must get your nerves strong and vigorous for nothing marks and lines the face like the worry of weak nerves you must get your blood enriched and pure, for it is the blood which gives that natural rosy glow to face and lips which no art can imitate. You must keep stomach, liver, kidneys and bowels in natural activity, for the sluggish action of these organs cause the skin to become dark sallow, billious and clogged with impurities and humors.

To do all these things, to keep the system in perfect condition, use that greatest of modern discoveries, Dr Greene's Nervura blood and nerve remedy. It will not only give you perfect health, but the beauty which you so ardently desire. It will make your skin pure, clear and fair, your features full and plump, give you a brilliant complexion with rich, red lips, and put the glow of health and color into your cheeks.

To prove this to your complete satisfaction, read these few of the vast number of enthusiastic testimonies received from grateful women who know from their personal experience the wonderful effects of Dr. Greene's Nervura blood and nerve remedy on their complexions. Then follow their advice and example and you will be as pleased as you are surprised at the wonderful improvement in your looks.

Mrs. Mary Frances Lytle, of 2 Hunter Alley, Rochester, N. Y., says: "I was very pale and delicate—had no color. I took Dr. Greene's Nervura blood and nerve remedy and now I am well and strong, my face is plump and cheeks red, and my complexion pure."

Miss Alice Hopkins, of 632 So. Tenth St., Philadelphia, Pa., says:—"There was an entire loss of healthy color in my face. After taking Dr. Greene's Nervura my system was toned up, the natural color returned and the effect on my complexion was most satisfactory.

Mrs. Wm. Bartels, 239 East 87th St., New York City, says:—"Dr. Greene's Nervura made a wonderful improvement in my health and that dark sallow look left my face. My friends hardly knew me. I have gained in flesh and am like a different person."

Mrs. C. S Allen, of 128 Pearl St., Portland, Me., says:—"There was hardly any more color in my face and hands than in chalk. Dr. Greene's Nervura made me well and restored my natural color and complexion."

Mrs. Elizabesh Brown, of 236 Hartwell's Ave., Providence, R. I., says:—"My face broke out with pimples and I was almost giving up in despair when I got Dr. Greene's Nervura. Now I am well and strong, thanks to this wonderful remedy."

Dr. Greene's Nervura blood and nerve remedy is purely vegetable and perfectly harmless and is the discovery and prescription of the successful physician Dr. Greene, of 35 West 14th st., New York City, who can be consulted free, personally or by letter.

There was an exciting time at Cranford Wednesday night on the Country Club alleys—says the Elizabeth Journal—when the C. C. C. team entertained the New Jersey A. C. in a Central Journal League contest. A close battle occurred, and, by its result, the standings in the league assumed new complications. The work in the wind-up frame was responsible for the result. The home team, encouraged by Rogers' double header, started off in the lead and set a good pace. They showed up in the middle of the game, the marks coming very slowly, and this gave the Jerseys a chance to catch up. The victors took advantage of the opportunity and in the seventh frame were only six pins behind. In the eighth came a stout battle, and the Jerseys, at its close, held the lead by two pins. Again in the ninth the spurt was made, and this time Cranford went to the front. The wind-up was extremely exciting, and the home team had a chance to win. Sharp and Lewis had the deciding, and, though he made a splendid attempt, the former broke, while the Jerseyman spared. That settled it. The score:

They fell and landed pretty hard, too, did the Catholic Club, of Jersey City, last evening, when they bowled on the Plainfield Catholic Club alleys. The Jersey Cityites have been leading in the Diocesan Union and came here to win the game, expecting to easily outbowl the home team, but the visitors had reckoned without their host. When the game began all the available space about the alleys was crowded with the rooters of the Plainfield team. The lead went to the home team at the start and the fun began. The rooters had music from fife and organ to assist them and they didn't lose any chances to yell. In the third frame Jersey City reduced the lead to one pin, and the visitors began to feel better, but the music was too much, and 15 pins divided them by the next game. Then the rooting began to tell and the champions went to pieces, all except Riordan, who rolled eight strikes and two spares, scoring 232. The home team led all of the rest of the way, and finished 54 pins ahead of the other fellows. Galbraith was high man for Plainfield, with Kiely only five pins behind. VARIOUS SPORTS.

Henry Ryder, of East Front street' has been selected as a regular member of the Yale hockey team. He will go to Baltimore this week with the team.

The business men's class at the Y. M. C. A. gymnasium is becoming quite popular. It is held every Monday, Wednesday and Friday afternoons, beginning at 5:30 o'clock. The attendance averages twelve or fourteen.

CYCLING COMMENT.

Frank Nail has just received a sample of the '96 wheel for which he is is agent, the Sagamore.

Charles Randolph and a friend from the Potter Press Works are the latest to become bicycle agents in this city.

In the New York Assembly the League of American Wheelmen bicycle baggage bill has been introduced. It provides that bicycles shall be deemed baggage, and that owners of wheels shall not be compelled to cover or crate them. The option clause requiring the signing of a release is cut out.

WITH ROD AND GUN.

The Elizabeth Gun Club held a shoot today, which began this morning. The principal event was a tournament of 100 targets. There were also several sweepstakes. Charles Smith, of this city, entered in several of the events.

Gives Us Time.

Plainfield used to claim that beneath the city flowed an immense river of pure water. If this were not a fairy tale, why is it that Netherwood, Fanwood, Scotch Plains and a dozen other villages in that neighborhood are compelled to hawk water about by the pail? There has been a heavy rainfall recently, but it hasn't improved matters much evidently, for latest reports say Plainfield's wells are getting dusty again. Why doesn't Plainfield tap that great river of pure water that her property-holders used to tell about?—New York Press.

Mrs. Lauffer Gets Her Money.

Mrs. Edward Lauffer, of the Manhattan hotel on Somerset street, who recently fell heir to several thousand dollars, an account of which appeared exclusively in The Press last week, has already came into possession of her share of the property and money left her by her aunt in Newark. An $8,000 property with a snug sum in cash was today handed Mrs. Lauffer.

Scotch Plains.

Goodwill Lodge, No. 101, K. of P., meet tonight.

Twilight Council, No. 7, Jr. O U. A. M., will meet tomorrow night.

The Scotch Plains revivals still continue with undiminished interest, and the success of this week has caused considerable talk among the church officers of continuing them.

EARLY INTELLIGENCE

—Unity Lodge, No. 102, K. of P., met last evening.

—Summons have been issued by Justice Mosher in the the case of Tunison against Henry & Johns, on contract, returnable February 3d.

—What is more disagreeable and painful than corns? Reynold's pharmacy has just the right cure. Read about it in his ad in today's Press.

—Summons in the case of Tunison against Bodenheimer, on contract, have been issued by Justice Crosley of the borough. They are returnable on February 5th.

—Comrade E. K. Allen had the misfortune on Tuesday last to have a 275-pound cake of ice fall on his left foot while working at the Grant avenue ice house. He will be laid up for a few weeks.

—The annual report for the year of 1894-95 of the Muhlenberg hospital has just been issued. It contains the work of the hospital for twelve months and shows just what has been accomplished.

Several Thousand Dollars Found.

While workmen engaged in the new First National Bank building were excavating for the purpose of making a place for a vault recently, they discovered several thousand dollars in State money that was issued before the war by the First National Bank. The money is in excellent condition and is as bright and as clean as if it had just come out of the press. The bills are not signed by anyone. They are quite a curiosity, however.

Quick in effect, heals and leaves no scar. Burning, scaly skin eruptions quickly cured by DeWitt's Witch Hazel Salve. Applied to burns, scalds, old sores, it is magical in effect. Always cures piles. L. W. Randolph, 143 W. Front St.

EARLY INTELLIGENCE.

—Hood's pills are purely vegetable and do not purge, pain or gripe. Sold by all druggists.

—Those who feel the heavy hand of time and see evidences of age approaching, now take "Pura Blood."

—C. H. Rugg, the Park avenue coal dealer, lost a valuable horse Tuesday. It died in its stable on South Second street.

—Spring chicken in January is rather a rarity, but VanSickle, the North avenue butcher, has a dozen fine ones.

—A fresh stock of Huyler's delicious candies have just been received at Leggett's pharmacy, Y. M. C. A. building.

—The case of Jessup against Kriney on contract, was adjourned in Justice Mosher's court yesterday morning until Feb. 4th.

Miss Dalley, teacher in the borough public school, who has been at the bedside of her sick father in Somerville, has returned to her duties.

—The interest in the revival services now being held in the Scotch Plains Baptist church is marked, and as a result many have been converted.

—Otto Arens, president of the Plainfield Camera Club, went to Long Branch Tuesday where he took a number of photographs of the stranded steamer, St. Paul.

—Catarrh is a constitutional disease and cannot be cured by local applications. Hood's Sarsaparilla is a constitutional remedy; it cures catarrh because it purifies the blood.

—Everybody is invited to attend the special service in the Crescent Avenue church this evening, and especially are the members of Christian Endeavor and Epworth societies urged to be present.

—The Independent Fife and Drum Corps met Tuesday night and initiated one new member. A committee, composed of Bert Bodine, Will Force and Horace Adams, were appointed to look into the question of an entertainment.

—On the complaint of several residents on the upper part of Somerset street, Chief Van Horn was obliged yesterday to put a stop to the howling of a dog belonging to one of the neighbors. He says that if any more complaints are received he will have the dog killed.

—Messrs. W. H. Hillman and F. E. Kinsman called on Supt. Olhausen, of the Central Railroad, yesterday and requested that the 4 30 p. m. express train be allowed to stop at Grant Avenue station each day to let off passengers from that locality. Mr. Olhausen granted their request.

—What is claimed by several oystermen of Elizabeth to have been a gray seal, five feet long, was discovered yesterday lying on a mud bank under the coal wharves, sunning himself. An attempt was made to capture it, but the animal was too quick and got away into deep water.

—The Cranford Telephone Company filed articles of incorporation yesterday. The corporators are H. C. Thornton, John Waterson, W. J. Lansley, W. C. Allen and James Rodgers. The company has five miles of telephone lines completed, and the telepeone exchange will be open for business on February 1st.

Children Cry for Pitcher's Castoria.

When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

It Costs Little and Does Much.

Remark when you attend a play or concert how many people disturb the performance by coughing. One man begins and the cough seems to be contagious. The interruption is a great nuisance, and there is no need of it, for any one may cure a cough with the Pineola Balsam, which costs 25c. It soothes the inflammation in the throat and loosens the mucus which clogs the air passages. A few doses of Ely's Pineola Balsam stop a cough and heal a sore throat.

Don't invite disappointment by experimenting. Depend upon One Minute Cough Cure and you have immediate relief. It cures croup. The only harmless remedy that produces immediate results. L. W. Randolph, 143 W. Front St.

A Corn Cure THAT CURES CORNS

We have never said much about our Corn Cure—though it is one of the best made—because the market is full of cures, so-called. But such positive testimony to its merits has recently been volunteered that we feel justified in "talking-up" this little specialty. Our COLLOID CORN CURE is easily applied, gives relief quickly and will cure every case of corns, hard or soft, that can be cured, if used as directed. Sold in square vials with brush for applying. REYNOLDS' PHARMACY, Park and North Avenues.

—Ground was broken this morning for two double houses on Somerset street, near Greenbrook road. Hummer is building them for Miss Margaret McLoughlin.

It not only is so, it must be so, One Minute Cough Cure acts quickly, and that's what makes it go. L. W. Randolph, 143 W. Front S

This May Be the Reason.

They were discussing the training of children.

"Don't take any stock in all these books that pretend to tell you all about the subject," advised the older matron.

"But I found them so serviceable in many ways," protested the younger.

"Nonsense," returned the elder "They are of no value whatever."

"They are a little contradictory at times, but—but—"

"Pooh! How do you think children were brought up before these books were written? Eve had none."

"That's true," admitted the younger matron, thoughtfully, "and you should remember that Cain went wrong."—Chicago Post.

"Yes; they wish to make their houses seem homelike when they have guests from Boston."—Chicago Evening Post.

Machine All Right.

"I've a good many typewritten letters," said Mr. Kajones, "but this one from your Uncle Thornton is the worst I ever saw. The words are all jumbled together and he's got hyphens and dashes stuck all through it where they don't belong. He's either a beginner or he's using a mighty poor machine."

"Let me see it," said Mrs. Kajones. "Why, that's Uncle Thornton exactly. He couldn't write any other way. He stutters."—Chicago Tribune.

Cycling Juggernaut.

He comes! He comes! And cheeks are pale,
And brains with terror reel;
The Juggernaut of cycledom—
The wobbler on a wheel!
—Truth.

A VARIETY OF OPINION.

Her Brother (with distressing familiarity)—I say, Monty, there was a row about you here last night.

Montague de Cheep (anxiously)—You don't say so!

Her Brother—Yes; but your friends stood up for you. Dad said that you amounted to nothing; but mother she didn't agree with him—she's on your side; she said that she thought that you were considerably better than nothing; and sister—

Montague (abjectly hopeful)—Yes, yes—go on.

Her Brother—Oh, she's yours all right. She said that you were the best alternative she knew. I say, Monty, what's alternative?—Lippincott's Magazine.

What Could She Mean?

Miss Beauty—Do you remember that French count who followed me from place to place and declared he was dying of love for me? Well, his family have put him in a lunatic asylum.

Rival Belle—I am not surprised. I always did think he was crazy.—N. Y. Weekly.

A Sad Fate.

Maud—Whistling girls and crowing hens always come to some bad end. Do you remember how Clara De Vere used to whistle at school?

Edith—Yes, indeed. Poor child! What has happened to her?

"She has married a titled foreigner."—N. Y. Weekly.

That Cake.

She thought she'd try her hand upon a simple jelly cake,
One, she supposed, that needed no experience to make.
Shades of the cook book! It was not successful, though,
For the simple reason that she mixed the jelly with the dough.
—Chicago Record.

Selling a Hat.

Miss Passee (aged 40)—I wish to see a hat.

French Milliner—For yourself, miss?

Miss Passee—Yes.

French Milliner—Marie, run downstairs and get me ze hat for ze ladies between 18 and 25 years.—Tit-Bits.

Ruling Passion.

Miss Wallflower—If you would only show—

Mr. Tapleigh (absent-mindedly)—No trouble to show anything, miss, even if you do not intend purchasing to-day.—N. Y. World.

The Retort Sarcastic.

Hubby—It seems to me you spend a good deal of valuable time shopping.

Wife (cuttingly)—Well, it's the only thing I've had to spend since I married you.—Town Topics.

The Balance Restored.

Mrs. Henry Peck—Bah! I only married you because I pitied you when nobody else thought anything about you.

Mr. Henry Peck (wearily)—Ah, well, my dear, everybody pities me now!—Punch.

Sarcasm.

Chumley—Bah Jove! Miss Newman, I thought you were a man, dontcherknow?

Miss Newman—I never made any such mistake as that about you, Mr. Chumley.—Brooklyn Life.

Action.

Mrs. Hicks—When husband saw the burglar there was some lively shooting.

Mrs. Dix—Who did it?

Mrs. Hicks—Both of us—I in a closet, he under the bed.—N. Y. World.

Likely.

Nodd—I guess that doctor of mine will give us something to stop the baby's crying now.

Todd—Why?

Nodd—I'm going to move next door to him.—Brooklyn Life.

End Would Have Been the Same.

The Wife—He committed suicide because I jilted him for you.

The Husband—Well, don't worry. He would probably have done so anyhow.—Town Topics.

A Special Sale of Muslin Underwear.

We invite inspection of this great muslin underwear stock, including lines of high-class goods, daintily made and prices fixed specially for this sale, leaving us a modest margin. Of course, in such a variety there is plenty to suit every taste and every purse. You'll notice too that just as much care has been taken in the making of the cheaper wear as in the higher priced.

Your Spring Clothing

Rather early to speak of it, but if it needs cleaning or dyeing, it isn't too early to have us do that work for you. This is our dull season—our employes are here ready for work. We'd like to have your goods now. We can give them better attention than in the rush of the spring season. Then we'll have to have more time or rush them at the expense of good work. Now we can take our time, do the work better than if hurried and you'll have the clothing all ready for warm weather.

Look in the closet or trunk and find your spring wear that needs cleaning and dyeing and bring it to us TO-DAY, or better still, our wagon will call for it if you will send us word.

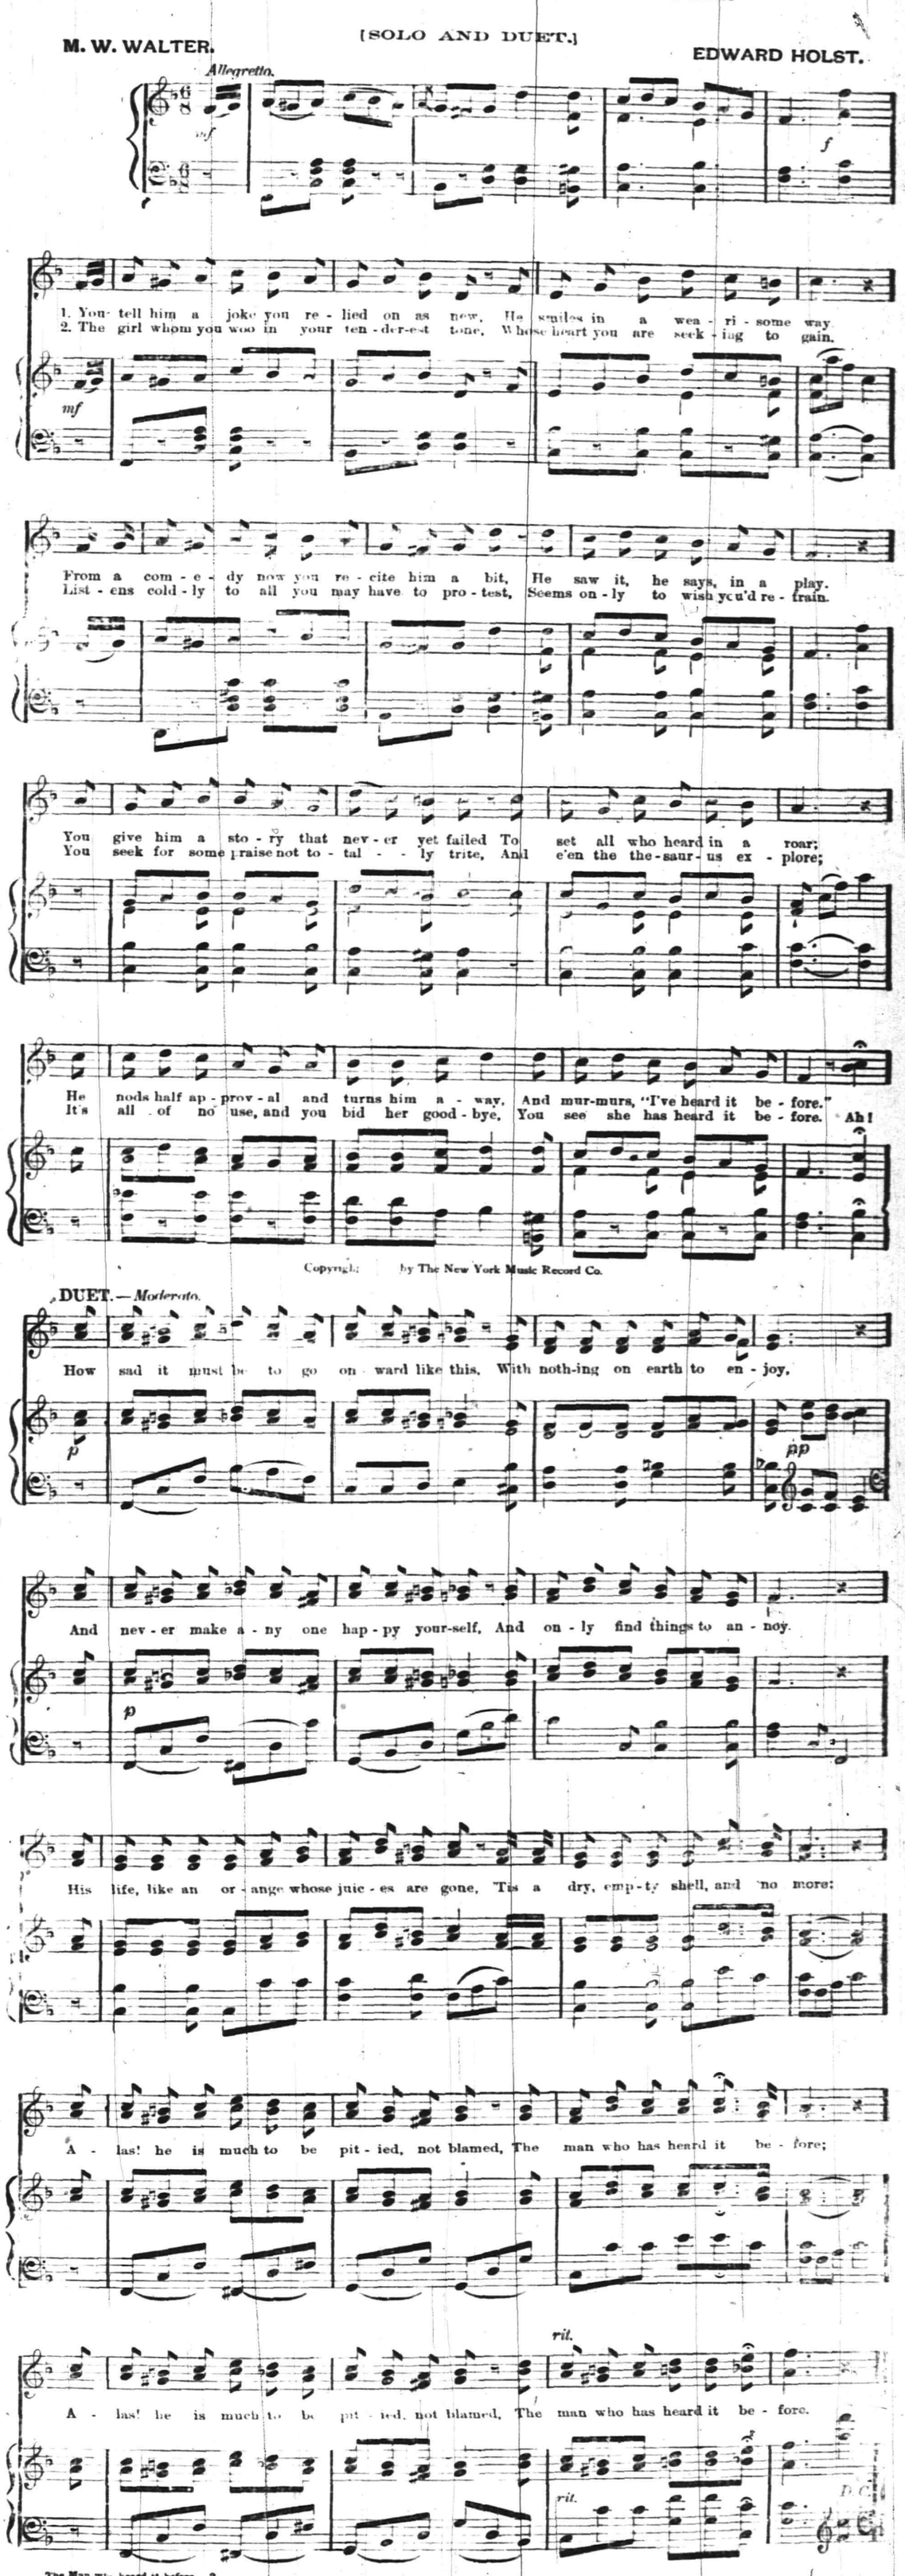
THE MAN WHO HEARD IT BEFORE.

[SOLO AND DUET.]

M. W. WALTER. EDWARD HOLST.



D. M. MOORE DIES SUDDENLY.

Was at His Work in New York When He Expired.

David M. Moore, of 224 East Fifth street, died very suddenly this morning at 9:30 o'clock in his office at 135 Water street, New York, where he is a member of the firm of Durkee & Company, dealers in spices.

Mr. Moore left home this morning shortly before 7 o'clock to go to the North Avenue station to take the 6:59 train and was then apparently in good health.

He has resided in this city for over thirty years and was very prominent in church circles, being a member of the Crescent Avenue church, and at one time he was an elder. He was also an active worker in Warren chapel.

A house is now almost completed on Central avenue which Mr. Moore and family expected to occupy in a short time.

He leaves a wife, two daughters and three sons. The family is in New York.

A Quiet Marriage.

Miss Amy Ulrich, of East Fifth street, and William E. Swalm, of Portchester, were quietly married yesterday afternoon at the home of the bride's father, C. W. Ulrich, 145 East Fifth street, by Rev. H. L. Randolph. The newly married couple will reside at Stamford, Conn.

Pepard Released.

This afternoon Justice Nash discharged T. J. Pepard, who was accused of stealing L. G. Timpson's wheel, as the League of American Wheelmen did not have sufficient evidence to hold him for the Grand Jury.

An Important Difference.

Mother—Are you sure Mr. Nicefellow loves you as a husband should?

Daughter—Of course. He wants to marry me.

Mother (who knows her daughter's peculiarities)—Loving you well enough to marry you is one thing; loving you well enough to live with you is quite another.—N. Y. Weekly.

Willing to Stop.

Ethel—But if you love me so much you certainly should be willing to give up your cigars after marriage.

Algernon—Not much. I've been giving up my cigars to your papa and brother Bob for the last six months. After marriage I'll swear off on that.—Judge.

Her Choice.

She—Old Gayboy told his wife that he was uncertain whether to cut off her allowance by his will in case she married again, or to threaten to haunt her in the same contingency.

He—And what did Mrs. Gayboy say?

She—Oh, she told him to let the ghost walk!—Bay City Chat.

Naturally.

Mertie—I should never marry a man I did not love.

Maudie—But suppose a real wealthy man should propose?

Mertie—I should learn to love him of course.—Truth.

He'd Examined Carefully.

Putting It to Vote.

"I need a new hat," remarked the man who had come in last at the club, "and I don't know whether to get a stovepipe or a Fedora."

"Suppose we put it to vote," suggested the man who had his feet on the table. "Will you agree to be bound by our verdict?"

"Yes."

The vote was taken. Six were in favor of the stovepipe and six declared for the Fedora.

"I bow to your decision, gentlemen," said the man who had come in last, "although it looks like a put-up job. I will merely buy a tie."—Chicago Tribune.

No Law Against It.

"Just as we arrived," the driver of the patrol wagon testified, "the prisoner and some more of his gang were trying to drop Officer McGobb through the sewer manhole."

"Sure," said Mike the Brute, "I didn't know there was any law against droppin' a copper in the slot."—Indianapolis Journal.

Consistency Is a Jewel.

A MAN TO BE MISSED.

DEATH OF D. M. MOORE REMOVES A WORTHY CITIZEN.

He Was Stricken Down While at His Work in New York—Heart Failure is the Cause Assigned—Funeral in Plainfield

The news of the sudden death of David M. Moore, which occurred in New York yesterday, was a severe blow to the entire community, as well as to his family residing at 224 East Fifth street. Mr. Moore was in his usual good health when he started for his place of business yesterday morning. He arrived at his office about 8:30 and ten minutes later one of the salesmen entered with the morning mail. Mr. Moore extended his accustomed cordial greeting, and nothing was evident to denote illness until about 9 o'clock, when another salesman stopped at the office to hand him a paper. He then noticed that there was something wrong, and hastened to the store to send one of the firm to the office. When the latter arrived he found Mr. Moore sitting at his desk, lifeless. Word was immediately sent to the family in this city, also to Mr. Moore's son, Walter, who is in business in the city. A coroner was also sent for, and after an examination, pronounced the case that of heart failure. The family was prostrated upon receiving the sad news. Arrangements were at once made to have the remains brought to this city, and they arrived with the grief-stricken family on the 5:30 train last evening, and were taken to the home.

Mr. Moore was born in New York city fifty-four years ago, and after receiving a liberal education entered the office of E. R. Durkee & Bro., 135 Water street, dealers in spices, at the age of twenty-four and has been with them ever since. He was married in the city a few years after entering business, and moved to Plainfield where he has been a resident twenty-three years. He was very well known by almost everyone in this city and in New York he had a host of friends. He was a staunch and faithful member of the Crescent Avenue Church and at one time held the position of elder. Three years after coming to Plainfield he associated himself with the work in Warren Chapel, where he has been one of the leaders and for twenty years has taught a woman's Bible class. During his residence in this city, Mr. Moore has always been identified with Christian work, and his wide influence has resulted in the accomplishment of a vast amount of good.

He was a man of even temperment and very regular in his habits, and these, together with high qualities, made him very valuable in his private and business life.

The report of his death spread very rapidly yesterday morning and the New York office was thronged with friends who called to extend their deep sympathy to the firm and their associates. The community has lost a most valued citizen in his death and their heartfelt sympathy go out to the bereaved ones in their sad affliction.

The funeral will be held in the Crescent Avenue church Sunday afternoon at four o'clock. The casket will not be opened at the church, but it will be open at his residence on East Fifth street from one to three o'clock Sunday afternoon.

The Mill of Justice.

Another trespasser on railroad property was arraigned before City Judge DeMeza this morning. He gave his name as Patrick Corrigan and was charged with pulling coal off the cars with a hoe. The Judge made the penalty a fine of $5 or twenty days in jail. Corrigan preferred to pay.

Michael Cox was also brought before the Judge. He was charged with being disorderly on Sycamore street last night and paid $5 in preference to going to jail for ten days.

A Complete Surprise.

A birthday surprise party was tendered William Koyer, of East Third street, last evening, by a number of his friends, it being the 67th aniversary of his birth. Games interspersed with singing and music, followed with refreshments, ended the evening's pleasures, when all departed for their homes wishing the host many happy returns of the day.

Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50c per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

DELIGHTFUL MUSICALE.

Mr. and Mrs. L. V. F. Randolph Entertain at Their Home.

A charming musicale was given last evening at the home of ex-Mayor L. V. F. Randolph, of East Front street, when Profs. Conde and Janke rendered the accompanying programme to the delight of the invited guests, necessarily limited to a small number.

Rando—Violin and Piano		Beethoven
Cavatina—Violin and Piano		Raff
Polouaise—Piano Solo		Chopin
a. My Little Love, b. Ah, Tis a Dream,	Songs	Hawley
a. Romanza, b. Spinning Song,	Vio'n and Pi'o	a. Grieg b. Hollander
Menuett—Piano Solo		Rathgen
a. Hum of the Bees, b. Ah! Never Deem,	Songs	a. Molloy b. Thomas
Adaglo—Piano Solo		Beethoven
Swan—Violin and Piano		St. Saens

"If all the world loves a lover," it is almost as true that all the world loves a violin, and Prof. Conde plays on his violin with such skill as to interpret and stimulate deep feeling. The pianist, E. Arthur Janke, was fortunate in having a fine instrument to respond to his artistic touch, as the Steinway Grand piano in Mr. Randolph's parlor is a very fine instrument of exquisite tone. The programme was listened to with rapt attention, the harmony of action between the violin and piano showing the skill of true artists. The Spinning Song by Hollander gave special pleasure. Rathgen's piano solo, Menuett, was encored, as was also the concluding number on the programme, an Adagie by Beethoven. The encore was such a bit of bright and dainty music that the audience could not help thinking how much they might have missed if they had not testified their appreciation of the previous performance.

A most interesting feature of the programme was the singing of Miss Hardenburgh, the contralto member of the Crescent Avenue church choir. Miss Hardenburgh has a fine voice of rare quality and great depth, compelling the breathless attention of her audience. She sang for an encore "A Spanish Love Song," commencing with bright, tripping measures that changed to passionate declarations of love.

A pretty conceit of the refreshments served, was a tiny roll of music on the covers of the ice-cream boxes.

FIREMEN DANCE.

Dancing Floor of the Olympia a Scene of Pleasure Last Night.

The first ball of Engine Company, No. 2, was held in the Olympia last evening. The attendance was excellent and the affair throughout was successful. Each number on the programme was a favorite and the music furnished by Rogers added not a little to the pleasure of the event.

Every effort was made by the committees to make the evening one of enjoyment, and they did not fail in a single point.

About midnight refreshments were served, after which the dancing continued till early in this morning.

The committee of arrangements consisted of Messrs. James Dawe, William Chamberlain, Harry Connett, Frank Schuck, William Townley, R. B. Rogers, C. J. Newman, Robert Eick, C. W. Smith, Jacob Benner and Theodore Smith. The floor committee was Messrs. Frank Hand, C. J. Newman, William Chamberlain and R. B. Rogers.

DR. OPDYKE EXONERATED.

The Former Plainfielder Justified in His Treatment of a Hospital Patient.

The Medical Board of Harlem Hospital held a meeting at the hospital Tuesday night, and, after considering the charges against Dr. Ralph Opdyke, that were brought against him in connection with his treatment of Courtland Babcock, the suicide, early Sunday morning, January 19th, completely exonerated him.

His putting on of bandages was deemed a perfectly proper proceeding. His actions were entirely approved. The Medical Board consists of eight eminent physicians.

A disagreement occurred between Dr. Opdyke, who came with the ambulance that was called, and Dr. J. Gardiner Smith, the family physician. The Medical Board appointed an investigation committee, and, in view of their report, the board decides that Dr. Opdyke's actions were justifiable.

Sebring to Remove.

W. H. Sebring, the popular Park avenue clotheir, is the latest of the Plainfield merchants to announce a change in his place of business. On April 1st, he will remove to 202 West Front street, just across Compton's alley from Gile's bakery. His new quarters will be larger than his present one and will be fitted up according to the latest modern ideas.

Paper Read by Miss Adams.

At the meeting of the New Jersey Library Association held in Newark yesterday, Miss Emma L. Adams, of the Plainfield Public Library, read a paper the "Advantages of Membership in State Associations."

COMING OF THE KING.

REV. C. R. BARNES TALKS TO ENDEAVORERS LAST NIGHT.

Christian Young People are God's Messengers and Should Bring Sinning Souls to Him—Other Points of The Talk.

The union service held last night in the Crescent Avenue Presbyterian church was especially for the members of the Christian Endeavor societies and Epworth Leagues, but many others who were interested were also in attendance. The service was a very interesting and impressive one. It was opened by a song service, led by D. E. Titsworth and the chorus choir, Dr. Richards offered the opening prayer, which was followed by a solo by Mr. Lewis, of the Crescent Avenue church choir, "Saved by Grace." The address of the evening was by Dr. C. R. Barnes. This subject was "The coming of The King," suggested by the story of the mission of John the Baptist, as told by St. Luke.

In all the ages God has had his messengers. In the old time they were angels and prophets. And in these days his messages still come to every man and woman. They may be conveyed by the voice of a friend, the gentle teaching of a pastor or Sunday-school teacher, or by some word heard or read. In nearly every case, God uses a human messenger. You Christian young people are called to be God's messengers, He will hold you responsible, if through you some soul does not learn of God's great love and mercy. With Christ you are to be savers of men.

You are to show the world what religion really is for. The message John the Baptist brought was "Repent, repent!" Salvation on God's part without repentance on man's part was an impossibility. He is willing and ready, waiting to save, but he can never save an impenitent man. Yes, you can stand in the fortress of your own personality, and say to the knocking Christ, "Go your way, till a more convenient season." But some day he will come in judgment, with all the holy angels, and then there will be no choice about the admitting the King.

Christ will never come into a heart except as its King. If there is anyone here tonight who is trying to make ready for the King's entrance into his heart, I say to you, don't make it a long process. Begin right where you are. Are you resisting the Holy Spirit? Stop! If you are indulging in any business or pleasure or pleasure that keeps you away from God, stop right away. Claim the regal power of divinity to help you, and it will be given you.

If we have turned away from the things of God to the things of the world, let us turn back now. Let us, earnestly repenting of our sins, surrender ourselves wholly to Him, saying, 'Lord, Thou knowest all things; Thou knowest that I love Thee."

At the conclusion of the sermon, Mr. Lewis sang softly and tenderly "I May Be Saved Tonight."

The after meeting took the form of a Christian Endeavor consecration service, led by Ira Winthrop Travell, of the Crescent Avenue Y. P. S. C. E. He called the attention of the Christian young people to the fact that the first suggestion for the holding of these evangelistic services came from them, and urged very strongly their responsibility to do all in their power to make the meetings accomplish the best results. He asked all those who would promise to do all that they could to bring those who were not Christians to the meetings of the next week, and to work for their conversion, to rise.

The number who rose in response to this invitation showed the earnest Endeavor spirit which prevails among the young people of the churches. Heartfelt prayers of consecration followed; then, after the singing of Blest Be the Tie," the tender words of the benediction from Dr. Barnes closed the service.

The attendance at Monroe Avenue chapel last evening was the largest thus far at any of the recent meetings. Rev. W. C. O'Donnell conducted the service, reading several passages of Scripture from the third chapter of Hebrews. His remarks were along the line of thought that persons should be careful not to harden their hearts against the truth.

Rev. Mr. Newell took charge of the after-meeting and several expressed a desire to become Christians.

Tonight the service will be in Hope chapel and Rev. Mr. Newell will preach.

Sprained Her Arm.

Miss Rebecca Kline, daughter of Mr. and Mrs. Levi Kline, of Jackson avenue, was accidentally thrown to the ground yesterday while playing in the North Plainfield public school yard. Her arm was slightly sprained.

WANTED TWO WEDDINGS

BUT THE FINDING OF THE MARRIAGE CERTIFICATE SPOILED ALL.

Miss Sadie Smith Married to Harry Baglin in New York Sunday Night—Another Wedding Was Also Announced.

People residing in the borough were quite interested Tuesday when the engagement and approaching marriage of Miss Sadie Smith, daughter of Councilman and Mrs. W. C. Smith, to Harry T. Baglin, of Newark, was announced through the Daily Press, but they will be surprised today to learn that the marriage was solemnized on Sunday night in New York, and that two days later the husband called and asked that the engagement and wedding event, arranged to take place April 12th, be published.

Last Sunday afternoon the couple went to New York, accompanied by Miss Maggie Summers, a cousin of Miss Smith. In the city they met Mr. Snipner, of Brooklyn, a friend of Mr. Baglin. They then went to the Calvary P. E. church on Fourteenth street and after the evening service Miss Smith and Mr. Baglin were married by Rev. Mr. Schepflin, the rector. Miss Summers acted as bridemaid and Mr. Snipner as best man. It was their intention to keep the marriage a secret, and have the home wedding on April 12th. They returned to Plainfield that night and the affair was kept very quiet until yesterday, when a relative called at the house, and in searching for something accidentally came across the marriage certificate.

It was shown to the young couple, and they then confessed that they were husband and wife. The bride's parents were completely surprised and felt very sory that they had been married in such a manner, when such extensive preparations were being made to have a large wedding.

Mr. and Mrs. Baglin will reside in the borough for awhile, and will be given a reception next month at the bride's home. They will then take up their residence in Newark.

After Justices of the Peace.

The justices of the peace in Middlesex county are in trouble. Recently twenty constables met at the courthouse in New Brunswick and adopted a concerted plan of action to stop the system of depriving them of their fees. The constables say that they have great difficulty in obtaining their fees from the justices of the peace for serving complaints. It is also asserted by the constables that when they go to collect their fees for serving processes in civil cases, they find that the justices of the peace have pocketed the money. Justice Charles P. Ford is believed to be in danger of being arrested because he is entertaining a criminal complaint against Lenhart Doody, who, it is understood, will proceed against the Justice if papers are served upon him.

They Want Good Ice.

Four cars of ice were rejected yesterday by the Plainfield Ice and Cold Storage Company on account of there being too much snow and dirt in the ice. Two other cars were rejected Wednesday for the same reason. The ice comes from Lake Hopatcong. John Morton, Allen Coddington and Andrew Wilson of the company returned yesterday from a trip to Lake Hopatcong, where they went to see about securing a better quality of ice.

No Need of a Searchlight.

Glance over White's advertisement. The prices that they quote on goods in every department will almost make one think that they grow. The new house-furnishing department is doing wonders in naming low prices and will certainly draw the thrifty housekeeper. They quote special low prices on wash-boilers and breadboxes, and throughout the other departments it is just as they say, you don't need a searchlight to find the good things.

Birthday Party.

The birthday party of Anna Herlitz, niece of Mr. and Mrs. Henry Windham, was held at their parents residence, 215 Somerset street, last evening. The following young persons attended: Misses Carrie Sutterlin, Amelia Wedemeyer, Minnie Henricks, Lucy Caspar, Clara Herold, and Masters Hilard Blatz, Harry Hedden, Robert Kirch, Joey Blatz, Everett Marsh, Jr., B. F. C. Marsh, Frank Windham and others.

Will Vail, of Leggett's pharmacy, has purchased a Hartford wheel from Frank Fulton.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is specially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

CONSOLIDATION MUST COME.

A Borough Philosopher Says the City and Borough Must Be One.

To the Editor of The Daily Press:

The consolidation of the borough and the city would be of lasting benefit to both communities. Their interests are identical. Why should they be separated by an imaginary line? Let the opponents of this proposition present clear, logical reasons why the union of the towns would not be advantageous. Can they do it? Who is afraid of losing the sceptre of political power? Will the political negatives answer?

Take the question of school accommodations, the High School, etc. Will North Plainfield lose on this point?

How about a united and an efficient fire department? Do the boroughites object here?

The sewer! That's the gnat that tickles the throat. It can't be swallowed. Oh! my friends! Is that what you fear? Please don't lose any sleep over that subject. North Plainfield cannot escape from a sewer tax. She must have a sewer system whether she remains alone or joins the city. And North Plainfield must pay for it. Sanitary improvements are the need of the hour and the borough must fall in line.

The carping critics claim that the Plainfield sewer system will be a disgraceful failure. Wait and see. The purling laughter of the objectors may turn to weeping and wailing. Let them sit in sackcloth and ashes.

Boroughites don't let the fine, scientific sewer system stand in the way of annexation. That matter will be adjusted so nicely that the cavillers will crawl—not through the man hole covers, for they have no ventilating holes and they couldn't get in, you know.

Plainfield is a city of homes and of civil engineers. Can water run up hill? Yes, when it is forced. The oldest and the youngest inhabitants could have told us that—why pay civil engineers to demonstrate the case?

The pendulum of political power will swing on the right side—common sense—the sewer question will be settled, perhaps, with a finite or an infinite addition of bonds. Which?

North Plainfield should not let a little question like this stand in the way of a great, public improvement.

'Tis local narrowness carried to the most selfish extreme for one to block the path of public progress.

North Plainfield must be coaxed and petted like a coy maiden. Plainfield hopes to win her. Let the honest lawyers draw up the settlement before the marriage. Plainfield may need it.

Thanking you for past favors, I remain, Mr. Editor,

Yours truly,
Chatham Lochinvar.

JUSTICE NASH MAY LOSE A FINGER.

The Member Seriously Injured While He Was Cleaning a Bicycle.

Justice Nash met with a severe and painful accident at his office this morning while cleaning his bicycle. He had the machine suspended from the ceiling so that he might work about its intricate parts with greater ease and when the accident occurred he was cleaning the wheels. He was whirling them around with considerable speed to see if they revolved easy, when someone in another part of the office suddenly called his attention to something and turning his head he inadverent caught the second finger of the right hand in the chain which quickly carried it into the cogs, where the flesh was torn off to the bone. In company with E. C. Morse Mr. Nash went to Dr. Hedges, who dressed the wound and bound it up in splints. It is possible the injury will be serious enough to necessitate the amputation of the finger.

FOUND A TARANTULLA.

A Plainfield Housewife Gets One in a Bunch of Bananas.

One of the most dreaded animals of the tropical climates is the tarantulla, but he is a very rare visitor in this region. A small specimen visited Mrs. H. M. Sherwin on Wednesday afternoon. She purchased a bunch of bananas from a street fruit vender and laid the bunch on the table. Just as she was preparing to cut them up, what was supposed to be a gigantic spider crawled out on the table. She killed it and showed it to her husband on his return. He, in turn, showed it to one of the Italian fruit dealers who declared it a small specimen of the deadly tarantulla.

Junior Superintendents Meet.

The Junior Christian Endeavor superintendents of Union county met at Elizabeth yesterday afternoon. Mrs. W. S. Lowry and Miss Pruden were present from Plainfield. The meeting was a very helpful one.

AGED MISSIONARY DEAD.

MRS. SARAH F. JOHNSON EXPIRES AT HER HOME THIS MORNING.

Was Ninety-One Years of Age and Besides Working in India Missions Had Given $18,000 to the Cause She Loved.

After an illness lasting since New Year's day, Mrs. Sarah F. Johnson, of 324 East Second street, died this morning in her ninety first year. Previous to her illness she was very sprightly for one of her age and succeeded in getting around with but slight difficulty. She was very well known in this city by the older inhabitants and had many friends. She was born at Bridgetown, near Rahway, and after reaching her majority became a missionary, going to India. She remained there till her health compelled her to return home. She was married in her fiftieth year to Rev. Orrin Johnson, also a missionary, residing in the West. He died twenty-eight years ago. Mrs. Johnson has lived in Plainfield about forty years. She was a faithful member of the First Presbyterian church and a devoted Christian. For twenty-four years she has lived in the house where she died. One sister, Mrs. Thorn, who is in her ninety-fifth year, survive her and three brothers, Isaac Brown, Thomas Brown and J. P. Brown. The first two reside in this city, while Thomas lives in Rochester and John resides at Beaver Dam, Wis. The brothers are all over eighty years of age.

Mrs. Johnson has contributed $18,000 during her life for missionary purposes and Bible societies. She is now reputed to be worth a considerable amount of money. The funeral service will probably be held Sunday afternoon at 2 o'clock from the house.

A PARLOR MEETING.

The Y's Entertain Their Friends at the Home of Miss Titsworth.

The young ladies of the Y. W. C. T. U., received their friends yesterday afternoon at the home of Miss Bessie Titsworth on West Seventh street. Miss Campbell, of New Brunswick, New Jersey state president of the Y's, was present and gave a very practical and interesting talk on the work of the Union. An informal tea followed. The table was artistically decorated in pink, while green smilax wreaths were tastefully draped about the room. Mrs. William Stillman and Mrs. Frank Clawson presided over the tea table, while the dainty little cups of tea were passed to the guests by the Y's. A period sociability brought the parlor meeting to a close.

TWENTY-FIVE YEARS TOGETHER.

Silver Wedding Anniversary of Mr. and Mrs. Winfield Schomp Celebrated.

Mr. and Mrs. Winfield Schomp, of West Front street, celebrated their twenty-fifth wedding anniversary last Sunday, and to complete the event a thoroughly enjoyable surprise was arranged by Miss Williams and Miss Lebau, and given last evening. There were about fifty persons present. All joined heartily in playing games, after which several of the guests furnished excellent music. About midnight refreshments were served. Mr. and Mrs. Schomp were completely surprised as they had not the slightest intention of it. The party met at the home of Mrs. Wyckoff on West Front street not far from Mr. and Mrs. Schomp's residence.

Will Come Here Eventually.

The Second New Jersey Brigade, consisting of the Fifth, Sixth, Seventh, Eighth and Eleventh regiments, met at Trenton yesterday. Vice-President W. W. Coriell, of this city, was present and gave the association an invitation to meet in Plainfield, April 9th. They decided, however, to meet at Paterson, the home of Gov. Griggs, and he has promised to be present at that time. There will also be present several distinguished Generals. The brigade will probably meet in Plainfield next year.

Increasing Business

C. Frank French, the Somerset street grain merchant, and wholesale grocer, owing to his rapidly increasing business, will rent a house in the spring, for himself and family, and use the upper floors of his present building entirely for business purposes.

Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say below will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle at Reynold's pharmacy, Park and North avenues, T. S. Armstrong, manager.

LOOKS BAD FOR HER

Full Moon Tide Failed To Float the St. Paul.

Deeper in the Sand To-day Than She Was the Day After She Went Aground—Members of the American Line Company Troubled Over the Unsuccessful Efforts.

Long Branch, N. J., Jan. 31.—The American line's pet, the majestic steamship St. Paul is to-day imbedded in the sand deeper than she was on the day after she came ashore, and all who are interested in floating the monarch of the sea wore a careworn, troubled appearance. They had been assured by the oldest inhabitants that the full moon would bring with it a tide high enough to make it possible to move the boat. The prediction, however, failed and President Griscom and Marine Superintendent Shakelford, disgusted with their continued hard luck, left the steamer last evening. Before going they left orders with Capt. Jamison and Wrecking Master Merrit to continue the work with the tugs and hawsers with every flood tide, and to spare neither pains nor expense in their efforts to save the vessel.

Many Plans Suggested Not Practical

Capt. Merritt said to a reporter today: "We are making every effort to get the St. Paul off the beach, but the elements are against us. When we give her up, it will be too late for any one to get her off, for if we cannot float her with our improved methods no earthly device can." Capt. Merritt, who has had years of experience in the wrecking business, takes no stock in the various schemes to float the St. Paul, suggested to the company by engineers and cranks. His plan, he claims, is the only practical one, and has been successful wherever tried. It may take weeks to accomplish the work, but he feels confident that eventually his plan will be successful. Said one mariner this morning: "Capt. Jamison may be an expert seaman, but he made a mistake in not insisting that the wrecking companies should have made a greater effort than they did to get the ship off at the first full tide after she was beached. Had this been done the St. Paul would now have been on her way to England instead of being buried deep in the sand."

Storm Brewing.

To-day there is every indication that a storm is brewing. The wind is coming in fitful gusts from the east and west, and remains but a short time in any particular quarter. The sky is cloudy and the local weather sharps predict that heavy storms will strike the coast before the end of the week.

SHE DEMANDS $50,000.

An Aged Pittsburg Bachelor Sued for Breach of Promise.

Pittsburg, Jan. 31.—A breach of promise suit involving Col. E. H. Dyer, president of the Kanawaha Oil company, one of the most prominent Pittsburg producers, has been prepared by attorneys for Mrs. M. A. Coman, who claims $50,000 damages. The plaintiff is a woman of middle age, formerly in business in New York city and recently residing in the east end, Pittsburg. The defendant is a bachelor, above 60 years of age and a man of wealth. During a visit to New York Mr. Dyer formed the acquaintance of Mrs. Coman, a divorced woman, and, according to report, was attentive to her. She says an engagement of marriage was made; that she took up her residence in Pittsburg at the request of defendant and that he was a frequent visitor. While sick at her house, defendant received all possible medical attention, for which she paid. The plaintiff alleges that relatives of defendant, who reside in Portland, Me., were instrumental in separating them.

COULD NOT CONVICT THEM.

Gray and Arthur Railroaded Out of Boston by the Police.

Boston, Jan. 31.—Jack Arthur and Fred F. Gray, two of the notorious gang of safe burglars who were corralled in this city, were railroaded out of town last night by Chief Inspector Watts and his men. They were put on board the New York train and told to keep away from Boston in the future unless they wanted to be locked up as vagrants. Two happier men would have been hard to find. The men would never have been released but for the fact that the authorities could not find any evidence on which to complain of them in the court.

Wagnerian Opera in Washington.

Washington, Jan. 31.—The first season of Wagnerian opera began in this city last night under the direction of Walter Damrosch at Allen's Grand Opera house. The opening opera was Tannhauser, which was rendered with excellent effect before a large and much delighted audience.

Net Fishing License.

Albany, Jan. 31.—The state fisheries, game and forest commission has adopted a resolution that all persons holding licenses for net fishing be notified that they will be renewed without cost to May 1, with the exception of the Hudson river, which may run to May 30.

New Lodge of Good Templars.

Norwich, Conn., Jan. 31.—The county convention of Independent Order of Good Templars met in this city last evening and instituted a district lodge.

Will Resume Feb. 8.

Pittsburg, Jan. 31.—The window glass factories which have been idle since January 11 will, it is said, resume on February 8.

THE CAMPANIA STORY.

Statement Regarding the Alleged Grounding of the Steamship.

New York, Jan. 31.—Vernon H. Brown, the agent in this city of the Cunard steamship company, has issued a statement regarding the alleged grounding of the steamer Campania, last week, in which he says: "The question as the truth of the statements which have been so constantly reiterated, has rendered it necessary to thoroughly investigate the various assertions which have been made in reference to the circumstances. One of these statements was alleged to have emanated from J. B. Allen, the second officer of the St. Paul. Upon being communicated with, Mr. Allen promptly called in person at the Cunard office and denied the truthfulness of the alleged interviews with him, and further said that he did not see the Campania from shortly after midnight until about 9:30 in the morning, when he saw her well off shore, under way and headed for Sandy Hook. Brown also makes public statements submitted by Capt. Wardell, of the life-saving station at Long Branch, and by Borden A. Jeffrey and wife of Elberon, N. J., in which all three deny having asserted that they saw the Campania ashore. In conclusion, Mr. Brown states: "The actual facts are as follows: The Campania was never within two miles of the shore, and never had less than ten fathoms of water under her bottom. Her engines were stopped on Saturday morning at 1 o'clock and not started again until 9 o'clock in the morning, except at 5:30 a. m., when it became desirable for the purpose of anchoring to lay the ship with her head to the north. This was done by reversing on one propeller and going ahead on the other, the ship turning within her own length."

TO PROTECT OUR HARBORS.

Plans for Fortifying Long Island and the Connecticut Coast.

Washington, Jan. 31.—Representative R. C. McCormick of the first New York district, has been giving special attention to the question of fortifications at the east end of Long Island. In connection with the senators from Connecticut, who are much interested in the protection of New London and other harbors in that state, he has had interviews with the chief of United States engineers and others as to plans of protecting by proper batteries the various islands at the east end of the sound. The result of these consultations is that he is convinced that if congress makes an adequate appropriation, the work of placing the batteries will be begun without delay, and if the work is carried out to the extent of the recommenation of the engineers, the Connecticut coast, eastern end of Long Island and all the approaches to the sound will be, Mr. McCormick says, put in a condition of defense which will be sufficient to prevent the approach of any hostile fleet, however powerful.

WILL REDUCE THEIR FORCE.

Waterbury Company Overstocked with Finished Watches.

Waterbury, Conn., Jan. 31.—A C Jennings, secretary and manager of the Waterbury Watch company, employing 1,000 hands, announces that during February it is proposed to run only five days a week and fewer hands will be employed. Mr. Jennings added that during 1895 there had been a larger number of people employed than ever before in the history of the company, the factory being run to its fullest capacity. The result has been an extra amount of goods manufactured and there is a surplus of watches now on hand. The factory is now running eight hours a day only. The rumor is that 100 men are to be discharged and the capacity of the factory reduced from 700 to 400 watches a day.

ADVANCES OF REBELS

Marin, with a Strong Force, Takes to the Field.

Accompanied by a Battery of Artillery, Detachment of Cavalry, Hospital Corps and Guides He Starts for Pinar del Rio To Head Off Macco and Force a Fight.

(From a Staff Correspondent.)

Havana, Jan. 31.—Gen. Sabas Marin, acting captain general, left this city yesterday on a special train. It was stated that he had gone on a trip of inspection along the line of railway between Havana and Batabano, thirty-five miles southwest of the capital, but it later became known that he had gone to the field, presumably to prevent Gomez from effecting a junction with Maceo in the province of Pinar del Rio. Whatever his destination may be it is certain that he was accompanied by his entire staff, a company of the orden publico, a battery of artillery, a detachment of cavalry, a hospital corps, a chaplain and two guides who are familiar with the Vuelta Abajo, the great tobacco district. The presence of these guides renders it pretty certain that Gen. Marin is bound for Pinar del Rio. The train, which was a very long one, was preceded by a pilot engine for the purpose of seeing that the tracks, bridges and culverts had not been tampered with by the insurgents. The cavalry horses filled sixteen cars. The battery of artillery includes one rapid fire gun.

Expects To Corner the Insurgents.

It is believed here that Gen. Marin intends to conduct the field operations personally until Gen. Weyler, the newly appointed captain-general, arrives, when he will probably return to Havana to consult with him as to the campaign to be followed. Gen. Marin left Gen. Suarez Valdez in command here. From information received here it is known that Gomez is moving west near the northern coast of the province of Pinar del Rio. The latest trustworthy information placed Maceo in the western part of the province, but it may be that he has since marched eastward with the intention of meeting Gomez. The military authorities are confident that the troops will be able to pen both rebel leaders in Pinar del Rio and force them to a pitched battle. They hope that once they are able to compel the rebels to stand they will crush them. Cuban sympathizers here point to both Gomez's and Maceo's success heretofore in avoiding the Spanish troops when it has suited them to do so, and contend that their generalship is of such a high order that they will delude the Spanish commanders as to their whereabouts and will leave the province when they feel inclined to.

Strengthening Cavalry Force.

Five hundred volunteers, recruited in Havana, have been sent south to strengthen the Trocha or military line between Havana and Batabano. The train on which Gen. Marin and his force travelled left Rincon and proceeded for Guanajay, the terminus of the railway. The cavalry force was augmented by 1,100 men, who, with their horses, were taken from Rincon, thus making the column strong in this branch of arms and placing it on more equal terms with the rebel forces, most of whom are mounted. Several small engagements between Spanish troops and bands of insurgents are reported to have taken place at Manzanillo, in the province of Santa Clara. No importance is attached to them, however.

J. FRANK CLARK.

SULLIVAN'S CASE SERIOUS.

The ex-Pugilist Must Be Very Careful To Avoid Erysipelas.

Springfield, Ill., Jan. 31.—John L. Sullivan is still confined to his bed here from the injuries he received a few nights ago by falling off a train. Dr. Dixon, who is attending Sullivan, said this morning: "The case is a serious one, although not dangerous. The wounds and bruises are in such a locality that unless a great deal of care is taken inflammation or erysipelas may set in at any time in the next few days and his condition is such that if this happens, the result may be fatal; but at the present time there is not much danger, as he is receiving the best of care." Manager Glickauffs thinks Sullivan will be able to appear with his company at El Paso, February 14 next.

CONSOLING TO THE JURY.

Informed by the Judge That They Had Released Very Guilty Men.

Raleigh, N. C., Jan. 31.—The trials of three white men and one negro for incendiarism at Kingston, and which has occupied eight days, ended last night with a verdict for the defendants, who were charged with having caused many fires and great loss of property. When the verdict was announced the judge said to the jury, "you have the consolation of knowing that you have turned loose four very guilty men."

BLOOD-THIRSTY TURKS

Plotting To Renew Massacres of Armenians.

The Alarming Rumors from Amassia, Aintab and Van Confirmed by Private Letters—The Porte Silent Although Advised of the Situation by the Ambassadors of the Powers.

Constantinople, Jan. 31.—The alarming rumors from Amassia, Aintab and Van, indicating that a renewal of the massacres are sure to occur unless the Turkish officials take steps promptly to suppress the brewing troubie, is generally believed here, as several private letters received during the past few days from the districts referred to, state that the situation is most serious. Although the ambassadors of the powers have called the attention of the porte to the alarming rumors in circulation, no action has yet been taken by the Turkish officials in the matter.

Great Loss of Life at Zeitoun.

London, Jan. 31.—The Constantinople correspondent of the United Press, telegraphing under date of January 28, says that letters have been received from Marash confirming the stories that great slaughter occurred in the recent battle between the Turkish troops and the Armenians who had captured and held the town of Zeitoun. The exact number of the dead is not known, but it can be stated with certainty that it was very large. Twelve hundred wounded men have already reached Marash and many more are following them to that place. Many of the wounded have died, either in Marash or along the road from Zeitoun. A number of prisoners have been taken to Marash. Their treatment was something awful. All sorts of indignities were heaped upon them, and in a large number of cases they were so shockingly maltreated that it is impossible to publish the details. The governor of Marash has again tried to bring about a reconciliation between the Turks and the Armenians in Zeitoun, but his efforts have been in vain. Most of the prominent Armenians in the vilayet have been arrested.

DINED AT THE WHITE HOUSE.

The President and Wife Entertain Members of the Supreme Court.

Washington, Jan. 31.—The president and Mrs. Cleveland last night entertained at a dinner the members of the supreme court. The following is a list of the guests who were president: The president and Mrs. Cleveland, the chief justice and Mrs. Fuller, Justice Field and Mrs. Field, Justcie Harlan and Mrs. Harlan, Justice Gray and Mrs. Gray, Justice Brewer, Justice Brown and Mrs. Brown, Justice Shiras and Mrs. Shiras, Justice White and Mrs. White, Justice Peckham and Mrs. Peckham, the attorney-general and Mrs. Harmon, Senator and Mrs. Hoar, Senator and Mrs. Pugh, Senator and Mrs. Marton, Representative and Mrs. Henderson, Representative and Mrs. Washington, Justice Morris and Miss Morris, Justice Shepard and Mrs. Shepard, the solicitor and Mrs. Conrad, Mr. and Mrs. John G. Milburn of Buffalo, Mr. and Mrs. James Lowndes, E. Randolph Robinson and Miss Robinson, Mrs. Stanly Matthews.

ARRESTED FOR ARSON.

Lederman Accused of Setting Fire to His Tobacco Warehouse.

Lancaster, Pa., Jan. 31.—Julius Lederman, whose tobacco warehouse in this city was burned Wednesday evening, was arrested late yesterday afternoon charged with arson. Lederman was seen to leave the warehouse a few minutes before the fire broke out and in the ruins undoubted evidences of incendiarism were discovered. The accused, in default of $5,000 bail, was committed for a hearing on February 6. Lederman's stock was worth several thousand dollars, on which he had $13,000 insurance.

Hartford's New Collector of Port.

Hartford, Jan. 31.—J. H. Brocklesby, nominated yesterday by the president for collector of the port of Hartford, is a son of the late Prof. John Brocklesby, professor of astronomy and mathematics at Trinity college. He was born in Hartford in 1845 and graduated at Trinity college. He is a lawyer by profession and has held numerous local offices.

Rhode Island Encampment, G. A. R.

Pawtucket, R. I., Jan. 31.—The Grand Army encampment yesterday afternoon elected as department commander William H. Stone of Providence. Resolutions of sympathy with Cuba in her present struggle were adopted, and it was voted to hold the next annual encampment at Woonsocket.

Bad Husbands Not Benefitted.

Minneapolis, Jan. 31.—The supreme court has decided that the constitutional provision prohibiting imprisonment for debt does not prevent the confinement of a husband for failure to pay alimony ordered by the court.

Two Boys Drowned.

Chester, Pa., Jan. 31.—Two brothers, Charles and Edward Sheppard, aged 19 and 17 years respectively, broke through the ice on Ridley creek at Chester Park yesterday and were drowned.

Favor Biennial Elections.

Boston, Jan. 31.—The legislative committee on constitutional amendments has reported a resolve in favor of biennial elections. Three democratic members of the committee dissented.

UNITED STATES SENATE.

Proceedings To-day Devoid of General Interest.

Washington, Jan. 31.—The senate will convene at noon to-day and probably adjourn over until Monday after a short session, as the proceedings, like those of yesterday, may be expected to be devoid of interest. Most of the morning hour was consumed in a discussion upon the joint resolution ordering the purchase and distribution of seeds by the secretary of agriculture, (on which no action was taken) and during the remainder of the day, after 2 o'clock, speeches were made on the house bond bill with the finance committee's free coinage substitute. Senators Call, dem., Fla., and Mitchell, rep., Ore., argued in support of the substitute—Mr. Mitchell declaring himself "In favor of a vigorous aggressive policy of independent bimetalism, coupled with a protective tariff." Then Mr. Perkins, rep., Cal., took the floor to reply to a newspaper criticism on himself and his colleagues as misrepresenting their state on the silver question. He read the latest official action of the California legislature in favor of free and unlimited coinage of silver in disproof of the charge, and then he spoke at length on the general subject. An attempt was made at the close of the day's session to have an agreement for a final vote on the bill to-morrow. In a discussion on that point some amusing badinage took place between Senators Chandler, rep., N. H., and Stewart, pop., Nev., in which the latter spoke of the dispute over the free coinage substitute as a mere "dress parade," and intimated that a similar amendment would be offered to the tariff bill. Notice was given by Mr. Morrill, rep., Vt., of his purpose to occupy from forty to sixty minutes in a speech on the bill to-morrow.

COLOR LINE IN BOSTON.

Considerable Feeling Over Hotels Refusing Bishop Arnett Admission.

Boston, Jan. 31.—Considerable sensation has been caused by the published statements that Bishop Benjamin W. Arnett, D. D., of Ohio, who addressed the Christian Endeavor rally here last evening, had been refused admittance to three of Boston's leading hotels, it is alleged, because of his color. This forenoon the bishop had many visitors, some of them of prominence in the city and state, who called to express their adverse opinion to the treatment he had received. The bishop deprecated the stir that had been made over the matter, although he evinced considerable feeling, supposing that, particularly in Boston, he could be sure of courtesy. Among his callers at the Revere house were General Secretary Baer of the United Society of Christian Endeavor, and Archibald M. Howe, president of the Middlesex Unitarian club. There is talk of a formal protest against the treatment of Dr. Arnett being adopted by the Christian Endeavorers.

TILLMAN'S COARSE SPEECH.

Resolution Sustaining It Introduced in South Carolina's Assembly.

Columbia, S. C., Jan. 31.—When the house of representatives met yesterday Godfrey Fowler introduced the following concurrent resolution which was referred to the committee on federal relations: "Resolved, That we have heard with pleasure and interest the eloquent and patriotic speech of our junior senator in the United States senate, Hon. B. R. Tillman, on the 29th inst., and we desire to say that by all we are, and hope to be, we will sacrifice our lives, if necessary, in resisting tyranny and oppression, believing, as we do, that resistance to tryants is obedience to God."

IVES DYING OF CONSUMPTION.

Boston Prison Officials Vote To Release the ex-Attorney on Parole.

Boston, Jan. 31.—Under the new parole law the prison commissioners recently voted to release on parole Geo. B. Ives of Salem, ex-assistant district attorney of Essex county. He was sentenced on May 12, 1890, to eight and one-half years in the state prison for forgery and embezzlement. The greater part of his sentence has been served and he is in the first stage of consumption. His failing health determined the prison commissioners in voting for his release and the governor and council yesterday afternoon approved their action.

CLAIM $100,000 DAMAGES.

Carnegie Company Sued by the Inventors of a Rolling Mill.

Pittsburg, Jan. 31.—Suit has been entered in the United States circuit court by John Brislin and Antonio Vinnac against the Carnegie Steel company, limited, for $100,000 damages. The plaintiffs are inventors of a feed mechanism for rolling mills, and claim that defendants now have four of these devices in use, and that they refuse to desist or pay for their use.

New Commander for the Bear.

Port Townsend, Wash., Jan. 31.—The command of the revenue cutter Bear, vice Capt. Healy, under court martial in San Francisco, has been assigned to Capt. Francis Tuttle of this city. The Bear will accompany the whaling fleet to the Arctic ocean this spring.

Stuck Fast in the Ice.

Pictou, N. S., Jan. 31.—The mail steamer Stanley which left Georgetown, P. E. I., yesterday, for Pictou, is stuck fast in the ice about two miles outside the Pictou lighthouse. She has a number of passengers on board.

A Criminal from Boyhood.

Springfield, Mass., Jan. 31.—Jack Arthur, the burglar who was captured by the Boston police Wednesday night, started his career of crime in this city in 1882 while a boy. He has served sentences in several prisons.

THE WAR IN ABYSSINIA

Italians Expect a Decisive Battle Soon.

Col. Galliano's Besieged Forces Released from Makalle and Join Gen. Baratieri's Camp — Native Army, 60,000 Strong, Advancing on the 28,000 Italians.

Rome, Jan. 31.—The government has received advices from Gen. Baratieri, commander-in-chief of the Italian forces in Abyssinia, showing that Gen. Baratieri recently sent an Italian trader named Felter to the camp of Ras Makonnen, the chief commanding the native army which invested the town of Makalle, demanding the release of the Italian column under Col. Galliano, which was besieged in Makalle. Felter was the messenger who arrived in Gen. Baratieri's camp a few days ago bringing letters from Menelik, king of the Abyssinians, for King Humbert and Gen. Baratieri. He appears to have been successful in his mission, for the troops at Makalle were permitted to withdraw from the town without being attacked.

Decisive Engagement Expected.

Col. Galliano and his column have arrived safely at Gen. Baratieri's camp, and they will reinforce the main body of Italians. They brought with them their cannon, ammunition and baggage. At the time Gen. Baratieri sent his dispatches to the government the Abyssinian army was advancing and was then within thirty kilometres of the outposts of Gen. Baratieri's forces. A conflict between the opposing forces was imminent. The Italian forces now number 28,000 men with 60 cannon. The Abyssinian army is estimated to number 40,000 to 60,000 men, some thousands of whom are armed with spears. The others have weapons of precision, including Remington and Winchester rifles, and in addition have a number of pieces of artillery, which were used in the attacks on Makalle. It is the opinion in Rome that an engagement that will decide whether or not the province of Tigre will be annexed to the Italian colony of Erythrea will shortly be fought.

CONNECTICUT NAVAL MILITIA.

Probable Establishment of an Engineer Corps.

New Haven, Conn., Jan. 31.—Lieut. Reynolds, who recently resigned from naval battalion of this state and whose resignation the governor refused to accept, has received a letter from Adjt.-Gen. Graham suggesting that applications for positions in the proposed engineer corps be forwarded to his office, implying that the request for an engineer corps will be granted. It was thought previously to this that Lieut. Reynolds' resignation, together with that of Lieut. Buckland, would result in the entire disorganization of the naval branch of the Connecticut militia system.

CULLOM UNDECIDED.

Will Consult Chicago Friends Regarding His Candidacy.

Chicago, Jan. 31.—Senator Cullom will arrive in Chicago to-morrow and remain for a few days before returning to legislative duties in Washington. The special purpose of the senator's stay here is to consult with republican leaders of Cook county on the question of announcing publicly his candidacy for the presidency. Before he departs for the east the senator will reach a decision on that point and make it known.

CAMPAIGN OF BLOOD AND FIRE.

To Be Inaugurated Against Cubans If They Do Not Surrender.

London, Jan. 31.—A dispatch from Madrid to the Central News says that as soon as Gen. Weyler, the new captain-general of Cuba, arrives at Havana he will issue a proclamation giving the rebels eight days to lay down their arms and surrender. If they do not do this he will then inaugurate a campaign of blood and fire against the rebels and their abettors.

HARRY S. NEW SERIOUSLY ILL.

Son of Gen. John C. New and a Strong Harrison Supporter.

Indianapolis, Jan. 31.—Harry S. New, one of the most prominent republican politicians of the state and son of John C. New, ex-consul to London, is seriously ill with blood poisoning. He is one of Gen. Harrison's strongest Indiana supporters.

Horse Meat for New York.

Hamilton, Ont., Jan. 31.—A large quantity of horse meat was sold by carcass on the market here yesterday at three cents per pound. It was purchased for shipment to New York consumers.

Glass Works Resume.

Sandwich, Mass., Jan. 31.—After a period of six weeks' idleness, operations were resumed yesterday in the glass works. The company now has a large number of orders, and the plant will be operated to its fullest capacity.

Fowle Held in $10,000 Bail.

Boston, Jan. 31.—Harry M. Fowle, charged with the embezzlement of $25,000 from the Shepard & Morse Lumber company, has been held in $10,000 for further examination on each complaint.

Denied Use of the Mails.

Washington, Jan. 31.—The postoffice department has denied the privileges of the mails to the Old South Jewelry company and L. N. Cushman of Boston for alleged fraudulent practices.

February 1—One of the Bravest, at the Music Hall.
February 3—Common Council meets.

The hue and cry against the appointment of J. Kearney Rice, of New Brunswick, for United States District Attorney, is not so much for lack of ability to fill the office as for his political affiliations of the past.

Under Chinese law a woman may be divorced for talking too much. The enactment of such a law in this country would not be advisable, as it would be against public policy to completely wipe out the institution of matrimony, says The Rochester Union.

So long as the city of New York is governed, as far as the creation of important municipal laws are concerned, by the Legislature of New York, so long will her municipal administration be one constant strife of conflicting elements. There would be just as much sense and justice for the Legislature at Trenton to frame the ordinances of Plainfield as there was for the Legislature of New York to pass some of the laws that were enacted last year to apply alone to the metropolis.

PARTICULAR MENTION.

Miss Jennie Simpson, of Craig place, is entertaining a cousin.

Miss Bertha Thorn, of Craig place, entertained a few friends last evening.

Jolly Whisters.

Mr. and Mrs. John P. Emmons, of Prospect place, entertained the Jolly Whist Club at their home last evening, and as usual all had a good time. J. F. Buckle secured the prize for the gentlemen and Mrs. Peter Emmons, was awarded the ladies prize. Those present were: Mr. and Mrs. Peter Emmons, Mr. and Mrs. J. F. Buckle, Mr. and Mrs. John Emmons, Mr. and Mrs. R. I. Tolles, Mr. and Mrs. Hiram Woodruff. Delightful refreshments were served during the evening.

Roselle to Have a Fire Whistle.

Roselle has decided to follow the example of her larger neighbor, Plainfield, and is going to purchase a steam fire alarm whistle. For that object the firemen of Roselle, Aldene and Lorraine gave an entertainment in the Roselle Casino, last night. The different selections were rendered mostly by talent from Elizabeth and New York. The entertainment was very successful in every way and was largely attended. A number from Plainfield were present.

J. W. Pierce, Republic, Ia., says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself." L. W. Randolph, 143 W. Front St.

THEATRICAL.

"One of the Bravest," comes to Music Hall next Saturday night, Larry Howard the hero of this most successful play, is a very plucky and agile stage fireman and entertaining as a comedian. Exciting scenes, amusing incidents and good singing and dancing are features of the performance. The scenic effects are realastic and novel, the fire scene being one of the most realistic ever presented on the stage.

Like a pair of bloomers a play or a drama depends for pleasing qualities not only upon the maker but also upon the wearer. "A Cracker Jack" that comes to the Stillman on next Tuesday evening, February 4th, is a play that wears well, being made well. The piece is certainly one of the best of its class on the road. The story is interesting and exciting and graphically told. Sensationally and exciting incidents are naturally introduced with a vim and a zest that makes the emotional audience go wild with excitement. To all lovers of stirring melodrama 'A Cracker Jack" can be confidently recommended as sure to interest and amuse It is full of specialties and is a bright, buoyant, breezy production.

Tony Pastor, the veteran variety theatre impresario, has joined the forces of the "continuous performance" managers and now his theatre, in East Fourteenth street, New York, will become one of the regular all-day performance houses, 30 cents securing the best seat in the house, and 20 cents a seat in the balcony. Mr. Pastor has decided to change his policy after long thought. He believes that the continuous performance is the only one required in the section where his theatre is situated.

CYCLING COMMENT.

Clifford Manning, of West Seventh street, will ride a Crescent scorcher this year.

Edward White expects to ride down to Long Branch Sunday to see the St. Paul, if the weather permits.

William Townley, driver of Alert's hose wagon, took a spin to Orange yesterday afternoon on the new '96 Spalding.

If the present delightful weather continues a party of young men from this city will ride to Long Branch tomorrow to see the St. Paul.

Walter N. Martin started to ride to Long Branch Wednesday, but, not being in good condition, he did not make as good time as he expected and only went as far as Mattawan.

WITH ROD AND GUN.

The members of the Independent Schoutzen Corps met at Hyde's grove yesterday and enjoyed live bird shooting. Forty birds were used, including a number of color-dyed pigeons from Kellar's dyeing establishment. The following scores were made: Williams, 5; Benner, 5; Wodemeyer, 4; Reed, 4; Darby, 4; Trust, 4; Haurand, 4; Hui, 1. Two sweepstake matches at blue rocks were then held. In the first, Reed secured first money and Williams second, in the next Darby won first, Reed second, Trust and Williams third.

VARIOUS SPORTS.

In the gymnasium contest recently held by the students of the University of New York, Ralph Campbell, of this city, won the high jump, clearing the bar at five feet, two inches. He also secured second place in his class in the all-round gymnasium contest.

A Timely Article.

Henry M. Stanley, in an article on the "Development of Africa," which is to appear in the February Century, recalls the fact that troubles with the Boers in southern Africa first induced David Livingstone to travel to the north, and so led the way to the opening of Equatorial Africa. Livingstone, who was a missionary at Kolobeng, accused his Boer neighbors of cruelty to the natives. They resented his interference, and threatened to drive him from the country. He published their misdeeds in the Cape newspapers, and his house was burned in revenge. This led to his leaving southern Africa and going to a region where he could follow in peace his vocation as a missionary, unmolested by the Boer farmers.

ABSOLUTELY PURE

THE OLDEST OBELISK.

It Stands on the Banks of the Nile Not Far From Cairo.

The oldest of all the obelisks is the beautiful one of rosy granite which stands alone among the green fields on the banks of the Nile not far from Cairo. It is the gravestone of a great city which has vanished and left only this relic behind. That city was Bethshemes of Scripture, the famous On, which is memorable to all Bible readers as the residence of the priest of On, Potipherah, whose daughter Asenath Joseph married. The Greeks called it Heliopolis, the city of the sun, because there the worship of the sun had its chief center and its most sacred shrine. It was the seat of the most ancient university in the world, to which youthful students came from all parts of the world to learn the occult wisdom which the priests of On alone could teach.

Thales, Solon, Eudoxus, Pythagoras and Plato all studied there; perhaps Moses too. It was also the birthplace of the sacred literature of Egypt, where were written on papyrus leaves the original chapter of the oldest book in the world, generally known as "The Book of the Dead," giving a most striking account of the conflicts and triumphs of the life after death, a whole copy or fragment of which every Egyptian, rich or poor, wished to have buried with him in his coffin, and portions of which are found inscribed on every mummy case and on the walls of every tomb. In front of one of the principal temples of the sun in this magnificent city stood, along with a companion long since destroyed, the solitary obelisk which we now behold on the spot. It alone has survived the wreck of all the glory of the place. It was constructed by Usertesen I, who is supposed to have reigned 2800 B. C., and has outlived all the dynastic changes of the land and still stands where it originally stood nearly 47 centuries ago. What appears of its shaft above ground is 68 feet in height, but its base is buried in the mud of the Nile, and year after year the inundation of the river deposits its film of soil around its foot and buries it still deeper in its sacred grave.—Pall Mall Gazette.

LONDON'S GREAT PARK.

The Hum of the Metropolis Penetrates It With Ever Varying Cadence.

The greatest attraction of Hyde park is one which Londoners and most visitors fail to discover and appreciate. It is a unique and subtle charm whose meaning only those can know who have fallen under its spell. Hyde park, be it remembered, is the only great plot of verdure in the world set in the very center of a great city. Boston Common is but a garden compared with it, Central park may soon be hemmed in by New York's teeming millions, but not yet. Hyde park is a grateful refuge of silence in the midst of turmoil. Only upon its outer borders does the restless mob infringe. Within, away from Rotten row, away from carriage drive and fashionable promenade, there is always rest, tranquillity, silence—no, not silence, but in its place the thing which is the mysterious charm of the spot.

Find a seat upon a bench in the midst of the wide, sweeping, open green where the eye sees only grass and trees, with no sign of the vast city on any side. Sit for a few moments and listen—listen, and there will come to your ears the most wonderful sound in all the world. It is the voice of London—an ever changing, inarticulate, pregnant soliloquy. One day it will be the gentle murmur of a sea shell. Again it is the harsh grinding of the mill of the gods crushing human grain beneath its upper and nether millstones. The mighty but distant reverberation is sometimes a triumphant harmony, sometimes a minor note, melancholy and despairing. The myriad tongued voice which comes from the east is sullen, protesting, enduring; that from the west is a careless chorus of pleasure and prosperity; that from the north is a hopeful strain of patient progress; that from the south is a cadence of struggle and sorrow, and the whole is a symphony of human life, majestic, inspiring, infinitely pathetic.

Nowhere save in this spot does the greatness of London impress itself upon me.—Boston Transcript.

A Genius For Farming.

Miss Annie Dennis of Talbottom, Ga., is a fine looking young woman of 25, who seems to have a genius for farming. According to a Georgia paper, she owns a handsome estate of 1,000 acres, which she cultivates with great skill and success. Upon it she conducts a dairy, a stock farm, a cannery, a preserving establishment, a vineyard and wine distillery and a piggery. Each of these is prosperous to a high degree. The owner is public spirited and exhibits her products at every fair and exposition. She began this work in 1888 and in seven years has carried off nearly 100 prizes. She ascribes her success to a good education and careful reading. She makes a special study of the application of science, particularly chemistry, to her fields of industry and utilizes every new idea which appears.

Wasted Energy and Expense.

A new advertising wagon introduced in New York is fitted up with two cylinders which keep revolving, giving a momentary view of various business announcements. There are people who would rather spend $10 to catch the eye of 2,000 or 3,000 people with a contraption of this kind than invest 50 cents to reach 100,000 readers in a good newspaper.—St. Louis Globe-Democrat.

Killed His Pug Dog.

Hugh B. Knox, of 330 Webster place, made complaint before Justice Newcorn yesterday against Emma Banks, a colored servant. He charges her with cruelly beating, abusing and killing his pug dog. She was arrested and taken before Justice Newcorn this morning, and after a hearing had been granted the Justice gave her a choice between a fine of $25 or thirty days in jail. Her employer sought Judge De Meza for advice, thinking that the was too much and up to the hour of going to press, no decision had been reached as to what he would do.

A Silent Witness in Jail.

William Hubbard, a witness, who was subpoenaed before the Grand Jury yesterday in an important matter, refused to answer the questions put to him, and was consigned to the County Jail, where he will remian until he gets ready to talk. The jury has adjourned until Monday, and the prisoner will have to stay that long in jail anyhow. Strict orders have been given by the prosecutor that no one shall see Hubbard except the warden.

Robbed by Begging Tramps.

George Lunday and wife, of Orange, were stopped on the county road, near the Locust Grove schoolhouse, Wednesday night by a couple of men supposed to be tramps. The men asked for money to pay for a night's lodging and as Mr. Lunday whipped up his horse to get away from them, one snatched a wolf robe out of the carriage and both made off through the fields.

Fanwood.

A grand ball will be given at the Fanwood clubhouse on Washington's Birthday Eve, Friday, February 21st. Prof. O'Reilly, of this city, will furnish the music. The committee of arrangements consists of A. Shwelen, A. Davey, Mr. Verland.

Mrs. A. Vanderbeek, of Second place, will go to Waycross, Ga., instead of Florida.

Mr. and Mrs. Isaac R. Giles, of East Sixth street, entertained a party of relatives from out of town last evening.

—A dance will be held at Cooper's, Warrenville, this evening, and a stage load of young people from this city and the borough will go. Sam Frazee, of this city, will furnish the music.

A Corn Cure THAT CURES CORNS

We have never said much about our Corn Cure—though it is one of the best made—because the market is full of cures, so-called. But such positive testimony to its merits has recently been volunteered that we feel justified in "talking-up" this little specialty. Our COLLOID CORN CURE is easily applied, gives relief quickly and will cure every case of corns, hard or soft, that can be cured, if used as directed. Sold in square vials with brush for applying. A PICTURESQUE SPOT.

Fertility and Beauty of Strawberry Point, Alaska.

The Best Place in the Northwestern Territory for Agricultural Pursuits—A Perfect Wilderness of Plants and Grasses.

The season that is just finished has been the most profitable in the matter of tourists as well as gold miners that Alaska has ever had. Now that it is over, and the regular inhabitants of the territory have had a chance to think about it a little, they are beginning to talk about the great things in store for them. Alaska is gorgeous in summer. Nowhere else in the world is there such scenery as along the island-dotted channel from Port Townsend to Juneau. Not only is nature dressed in her best to receive the tourists who are going there in ever-increasing throngs, but the inhabitants also get on their good clothes and their good behavior, and for four or five months the whole territory is arrayed in its Sunday best. But this good clothes exhibition comes only in streaks. It occurs for about two days of each week, when the steamer from "down below" is in. The tourists come and go with the steamers, and rarely stay over from one boat to another. As the steamers lie in each port only a day or less, the tourists have not much chance to make a lasting impression. Now, however, there is likely to be a change. Juneau men are nothing if they are not hustlers, and with the recollection of this season's profits and possibilities they are arranging to put up a big hotel on Strawberry Point, at the entrance to Glacier bay, in southeastern Alaska.

Strawberry Point is one of the most beautiful and picturesque spots in all Alaska. It lies between Juneau and Sitka at the entrance to Glacier bay. It is a glacial moraine, which extends out into icy straits about ten miles from the mainland, and separates the entrance to Glacier bay on the east from the little narrow strait between Pleasant island and the mainland on the west. The moraine has an elevation of from 50 to 100 feet above high tide, and contains hundreds of acres of fertile level land. If there is a place in the territory where agricultural pursuits can be carried on it is at Strawberry Point. The soil is a rich, sandy loam, and the benches are mostly free from the marshy ground which characterizes most of the level land along the coast in southeastern Alaska. The whole peninsula is covered with a luxurious growth of blue joint and other grasses, and many acres of it are dotted with the strawberry plants which give the point its name. They are so thick that when they are in blossom in the early summer the land resembles a New York farmer's field of daisies, and in September, when the berries ripen, they fairly make the ground red.

The climate of Strawberry Point is much pleasanter than at most other places in Alaska. At Sitka, for instance, the average is 220 days of rain, snow or fog in a year. Juneau is about as bad. It never gets very cold because of the influences of the warm Japan current, but there are very few days of clear skies and bright sunshine. But at Strawberry Point the precipitation of rain in summer, and the corresponding fall of snow in winter, are much less than at Juneau. This is because across the bay in the west the lofty Fairweather range lowers like an army of giant sentinels stationed there to protect this little garden spot from the terribly icy winds that would sweep across from the Pacific if these mountains did not hold them back. The rainfall in summer are like those of the interior, and not like the long, steady drizzles and downpours of Sitka and Juneau. Strawberry Point is probably the only place in Alaska where the lightning plays and the thunder roars in a typical summer shower. In places on the benches there are bunches of young cedar and spruce, with occasional thickets of alders, but most of the ground is clear and rolling.

The grandest scenery in Alaska is on view from Strawberry Point. Besides the giants of the Fairweather range, there are the great ice cathedrals of the Muir and Pacific glaciers, which loom up 20 miles away and send off a continuous procession of tremendous icebergs, which pass down by the point like a great fleet of white war ships in review. The waters about the point teem with fish, and there is game aplenty in the near-by woods. Already the enthusiastic Juneau men are planning their summer hotel and calling Strawberry Point the "Saratoga of the Northwest."—N. Y. Sun.

Drill at Life-Saving Stations.

On Tuesdays there is boat practice, this consists in hauling the boat carriage to the beach, unloading, launching her and pulling out through the surf—backing, turning, or doing just what the keeper commands, he steering the boat. After practice, the boat is put on the carriage, hauled back to the boat house, cleaned and left in perfect order. Wednesday is signal drill day. There is an international code of signals, composed of flags representing the different letters of the alphabet. Each surfman has a set of minature flags, and he signals to the keeper, who answers them with his flags—so any man at the station can read a message from a wrecked ship. All the principal maritime nations have adopted this code, and as vessels are provided with flags, and books containing the key to different signals, printed in many languages, communication between vessels and stations can be easily carried on, whatever the ship's nationality.—Teresa A. Brown, in St. Nicholas.

ANTARCTIC POSSIBILITIES.

Explorer Borchgrevink Thinks There May Be a Future for Commerce There.

The recent antarctic expedition was a commercial one, and commercially it was a failure, because we did not find the right whale, so valuable for its whalebone. The Antarctic was fitted out for the hunt of that particular kind of whale; nevertheless, I have no doubt that the commercial result of the expedition would have been much better had we worked under more favorable auspices.

I do not by any means consider the fact of our not having met with the right whale in those seas as conclusive proof of their nonexistence in the bay at Victoria Land. The Antarctic found the right whale at Campbell island in the winter time; the boats fastened to five of them, of which, however, only one was caught. Now, to me it does not seem improbable that these whales go south to the bay of Victoria Land, where Ross saw them, in the summer, and then return north in the winter. It would seem incredible that a man of Sir James Ross' standing, supported as he was by able scientists and experienced whalers, should have made a grave error when he said that this valuable whale was to be found in large numbers in these southern latitudes.

The difference in the appearance of the blue whale, as we found it there, and the right whale, in the method of spouting, is so striking that even the most casual observer could not easily be deceived. Very possibly, had we penetrated farther into the large open bay discovered by Ross in the vicinity of the volcano peaks Erebus and Terror, we, too, would have found the right whale in great numbers. We saw very many blue whales, but had not the appliances to take them.

As I remarked at the international geographical congress, we found few seals. They increased, however, in number as we worked eastward, and seemed afraid of the land. All of the seals that we met on the shore showed much uneasiness and speedily made for the water, a fact which strengthened my belief in the existence of a large enemy of the seal on the continent. I do not doubt that the seals congregate together in larger numbers at some places on the bay.

I consider the guano beds which we discovered of great commercial importance, and they ought to be well worth the attention of enterprising business men. The specimen which I brought back with me contains a large percentage of ammonia.

Furthermore, from the analysis of the specimen of rock which I brought back with me, the possible and probable presence of valuable minerals on the continent is proved, although the lava and the volcanic aspect of the coast line do not speak favorably for the presence of heavy metals near the surface.—C. E. Borchgrevink, in Century.

MAN AT THE WHEEL.

Some of the Ingenious Devices for Navigating a Great Steamer.

Let us spend an hour with Capt. Randall, of the American liner St. Louis, on the bridge in midocean. He first takes us into the wheelhouse. It is a room ten feet wide with a curved front. A wheel about three feet in diameter is placed in the center of the room, and you are surprised to see that the quartermaster keeps turning it almost constantly. You have always thought that he had simply to keep his eye on the floating compass in the box directly in front of him and hold the ship steady on her course. As you look at the compass you see the ship veering now this way and now that, as she rolls and plunges, or as one screw turns faster than the other, and thus pulls the ship around. It is hard to make two independent screws go exactly at the same speed, and so this man at the wheel is busy all the time turning the ship straight. He has to fight the waves and the screws and the winds at the same time, and he is a busy man.

This steering wheel controls the ship by means of a small column of oil in a little tube. By turning the wheel this way or that the oil in the tube is forced up and down, and that opens or closes certain valves in the steam-steering gear 400 feet away, and the rudder is turned as easily as if a child had done it. In most steamships the steam-steering gear is controlled by hydraulic power—that is by water—but the use of a column of oil is an improvement.

As you look about you see fastened to the cornice directly in front of the wheelman a little scale in black with white lines marked off on it. There is a dial on it, and as the ship rolls you see that this is a device to mark the degree of the roll. You may notice that it takes about a second for every degree of a roll. On each side of the room is another long black gauge, and the dials point to cerain figures, generally between 90 and 95. These dials are little electrical devices, showing exactly how many revolutions the screws are making. The captain at a glance knows what is going on in the engine-rooms.

Over in the corner of the room is another curious electrical device. It is a little box with a clock in it. The captain tells you it is the machine that controls the whistle in time of fog. The law requires a long blast of the whistle at such times every two minutes. By pressing a button on this little clock apparatus, and by setting the clock in a certain manner, the whistle is blown automatically for seven seconds every minute. There can be no error of man in that work. Just as sure as every minute comes around that whistle will blow seven sconds. Under the old way, when a man pulled the whistle cord, there was no exactness in the work. When the fog is over the button is released and the whistle stops.—Harper's Round Table.

Your Spring Clothing.

Rather early to speak of it, but if it needs cleaning or dyeing, it isn't too early to have us do that work for you. This is our dull season—our employes are here ready for work. We'd like to have your goods now. We can give them better attention than in the rush of the spring season. Then we'll have to have more time or rush them at the expense of good work. Now we can take our time, do the work better than if hurried and you'll have the clothing all ready for warm weather.

Look in the closet or trunk and find your spring wear that needs cleaning and dyeing and bring it to us now, or better still, our wagon will call for it if you will send us word.

STRENGTH FROM FOOD.

But the Food Must Be Digested.

There is no way to get strong without food. Food is the strength maker.

Just enough food, properly digested, makes the strong and healthy man or woman. Too much, to little, or even the right quanity, not digested, will make anybody weak.

The beginning of all sickness is weakness. The beginning of all weakness is indigestion. So to keep strong, look after your digestion. That is the most important of all.

When your food ferments in your stomach and forms gas, causes dizziness, nausea, bad taste, sick headache, full feeling, nervousness, irritability, etc., you have indigestion. You are losing a part of your life. Every hour you are sick causes a loss of strength.

The way to cure it is to take Shaker Digestive Cordial. A few doses will relieve. If you take it long enough you will regain the strength you have lost.

Shaker Digestive Cordial is made from herbs and plants by the Shakers of Mount Lebanon It contains very strong digestive tonic properties. It creates strength. It makes your food make you strong and bright and healthy. It clears your complexion and strengthens your body against disease. If you want to get strong and well, try a bottle.

Sold by all druggists at 10, 25, 50 cents and $1.00 a bottle.

FIRESIDE FRAGMENTS.

—Gum arabic and gum tragacanth in equal parts, dissolved in hot water, make the best and most convenient mucilage to keep in the house.

—A Rich Pudding. — One pound of raisins stoned, one pound of currants, half a pound of beef suet, quarter of a pound of sugar, two spoonfuls of flour, eight eggs, a cupfuls of blanched almonds and one of sweetmeats. Mix well and boil in a mold for eight hours. —N. Y. Observer.

—Jumbles.—One-half pound butter; one pound sugar mixed to cream; two eggs; two tablespoons extract of rose; add flour enough to make dough stiff enough to roll out quite thin, cut in any shape, bake on well greased cake tins, when baked should be one-sixth of an inch thick.—Mrs. S. B. Sheets, in Womankind.

—Coffee Cream Cake.—For any good layer cake make a filling as follows: Three tablespoonfuls of coffee and a cup and a half of cold water; steep and strain. Thicken with corn starch, sweeten. Add whipped cream to taste. Milk may be added to the coffee before thickening, in place of the cream. It tastes like coffee ice-cream soda.—Farmer's Voice.

—Apple Rice Pudding.—Pare, quarter and core three tart apples and spread loosely in a buttered agate pudding dish. Add three-quarters cupful of sugar and three tablespoonfuls rice to one quart of milk; turn the mixture over the apples, spread a few bits of butter over the tops and bake in a moderate oven four hours. Serve hot with sweetened whipped cream.—Orange Judd Farmer.

—Steamed Bread and Fruit Pudding. —One pint of bread broken into small pieces. Add one cup of milk, one-third of a cup of molasses, one egg, well beaten, and one cup of raisins, stoned and cut in halves. Mix thoroughly, then sift in half a teaspoonful each of cinamon, grated nutmeg, salt and soda. Turn into a buttered pudding boiler and cook in boiling water about two hours.—Chicago Chronicle.

—Boiled Plum Pudding. — Half-pound white bread crumbs, four ounces sugar, four ounces chopped suet, four ounces raisins, four ounces currants, half- coffeecupful milk, one egg or two yolks, one teaspoonful mixed ground spices, a little salt and a pinch of soda. Mix the dry articles together, the bread grated or chopped very fine; add milk and egg with salt and soda dissolved in them; tie up in a bag and boil for four hours.—Chicago Record.

Large Enough.

A foot-traveler through one of the ailly regions of Ireland came one day upon a curious little cabin, so small as to seem hardly large enough for a human habitation. While she was whimsically considering as to whether it might not be the abode of the famous "good people," about whom so many loving superstitions cling, the figure of a short, stout old man emerged from the cabin, and stood confronting her in smiling silence. After salutations had been exchanged, the traveler laughingly told the old man that she had half fancied his dwelling the home of fairies. "No, indade, ma'am, but it's a good warm place, God bless it," replied the old man. "But surely you cannot stand up in it?" said the traveler, curiously. "An' fwhat nade to shtand, ma'am?" returned the owner of the tiny house. "Shure, an' Oi can come outside to do that same, an' whin Oi'm insoide, it's mesilf that can either go to bed or sit down, ma'am!" There was such warmth in the smile with which this cheerful philosophy was propounded that the traveler was not disposed to pick flaws in it, and smiled acceptance of its truth.—Youth's Companion.

"Good Morning" in Samoa.

I had to go down to Apia five or six different times, and each time there were 100 black boys to say "Good morning" to. This was rather a tedious business; and, as very few of them answered at all, and those who did, only with a grunt like a pig's, it was several times in my mind to give up this piece of politeness. The last time I went down, I was almost decided; but when I came to the first pair of black boys and saw them looking so comic and so melancholy, I began the business over again. This time I thought more of them seemed to answer, and when I got down to the tail-end where the carts were running, I received a very pleasant surprise, for one of the boys, who was pushing at the back of a cart, lifted up his head, and called out to me in wonderfully good English: "You good man—always say good morning." It was sad to think that these poor creatures should think so much of so small a piece of civility, and strange that (thinking so) they should be so dull as not to return it.—Robert Louis Stevenson's "Letters to a Boy," in St. Nicholas.

"Mother's Pies."

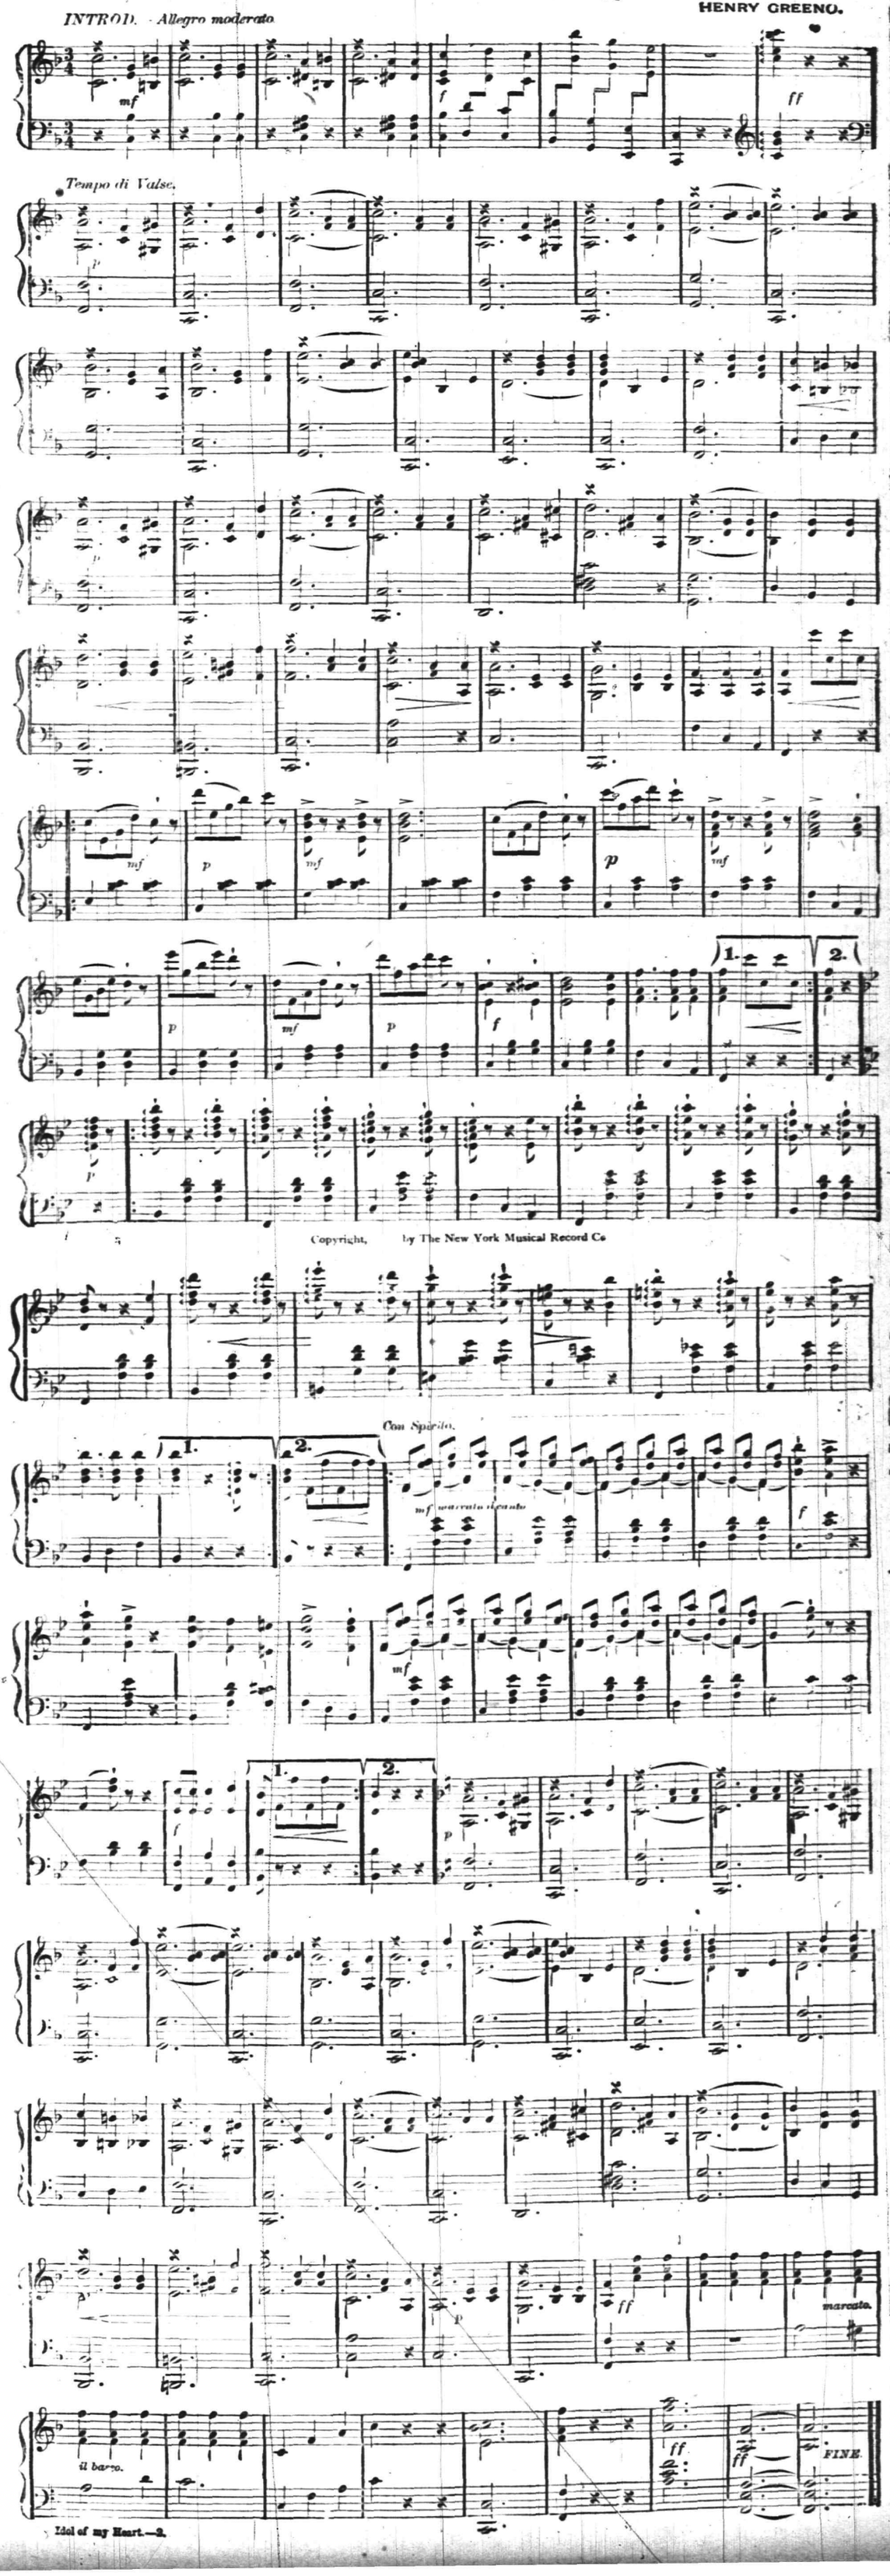
We none of us realize that it is ourselves who change, and not the food that delighted us in our youth. Said crusty, hard-to-please husband: "Wife, I wish you would make pies that would taste as good as my mother's used to do." "Well, my dear, you run out and bring me in a pailful of water, a hodful of coal and an armful of wood, just as you used to do for your mother, and maybe you will like my pies as well." He concluded the pies would answer the purpose just as they were. —Good Housekeeping.

A Ravenous Insect.

Commenting on the amount which a spider actually consumed during 24 hours, Sir J. Lubbock says: "At a similar rate of consumption a man weighing 160 pounds will require a whole ox for breakfast, an ox and five sheep for dinner and for supper two bullocks, eight sheep and four hogs, and just before retiring nearly four barrels of fresh fish."—Chicago Chronicle.

IDOL OF MY HEART.

HENRY GREENO.



SKETCHES BY M. QUAD

Speaking of Mr. Tompkins.

I had come out of the Fifth Avenue hotel and turned into Twenty-third street when a well dressed middle aged man overtook me and exclaimed:

"I beg your pardon, but how do you do, Mr. Tompkins; how do you do? I just caught sight of your face as you turned the corner and wasn't quite sure it was you. And how are things in Akron?"

"Moving along all right," I replied as I shook hands with him.

"How long have you been in town?"

"Oh, a couple of days."

"Here on business, of course? You were always a busy man. How's my brother Dan? You know Dan, of course—president of the First National bank?"

"Certainly. Dan is all right and as hearty as a buck. He said I would be apt to run across you in New York."

"He did, eh?" queried the man, seeming to be quite surprised. "Are you going to remain long?"

"Three or four days."

"I shall be glad to show you around a little. I don't think you exactly remember me, do you?"

"N-o, not exactly."

"I saw you in Akron often for three or four years, and I made many purchases at your store. I think we were introduced by my brother Dan."

"No doubt. Your brother Dan is a keen, sharp fellow, isn't he?"

"Yes, pretty sharp," he replied in a noncommittal way and looked at me very sharply.

"Yes, he's a sharp one. The day I left Akron I met him on the street, and he said to me, 'Tompkins, if you meet my brother Bunko down in New York, tickle his chin for me.'"

"He said Bunko, did he?" queried the stranger as he began to draw off.

"That's what he said, sir. How is business in your line?"

"You think yourself a cute one, don't you?" he sneered as he looked me over.

"Well, Tompkins of Akron is no spring chicken. Do you make mistakes of this sort often?"

"None of your business."

"No, of course not, but I just thought I'd inquire, you know. I'll tell your brother Dan I met you, but that you were off your feed. Good day, Bunko."

I went back to the hotel and found, sure enough, that Tompkins of Akron was registered there. The bunko man had gotten the two of us mixed.

He'll Top the Crowd.

He entered the car on which I was seated on the Sixth avenue elevated, and after a bit he leaned over and whispered in my ear:

"I'll be hanged if they haven't done it!"

"Done what?" I asked.

"Got my watch!"

"Who?"

"Dunno. Some feller picked it out of my pocket!"

"Well, that's too bad. You ought to have been more careful. Are you a stranger in the city?"

"Yes, perfect stranger. Got here only two hours ago. Say, it's immense, ain't it?"

"I don't exactly understand."

"Don't you? Waal, I do."

"Do you know what'll happen when I git back home?"

"The folks will laugh at you for losing your watch."

"Will they? Not as I knows of. You jest let me git down alongside the stove in White's grocery and tell the crowd that some feller down here in New York picked that watch offen me and I never felt a touch, and I'll be the biggest man in town fur the next two weeks!"

"And if you lost your wallet you'd be a bigger man yet?"

"You bet I would! Here she is, stickin right outer my pocket, and there's $9 in her, and if somebody'll sneak her out and not let me feel 'em I kin go home and knock the socks off'n the feller who was clubbed by a policeman and run over by a cable car down here!"

Caused by a Boy.

The other afternoon a boy of 10 years of age who was crossing Broadway at Murray street fell down and hit his head on the cobblestones. The result was a trifling scalp wound, but the boy burst into tears and sat down on the curbstone. Inside of 60 seconds a crowd of 100 persons had gathered. In another 60 the crowd blocked the street.

"What is it?" yelled one.

"Who's been run over now?"

"Has a call been sent in for the ambulance?"

"That's the third man killed right here."

For five minutes the crowd held the fort. The cable cars had to run slow, the mail wagons and trucks came to a dead stop, and City Hall park was black with people streaming across it to find out what had occurred. I saw a dozen men have their hats knocked off or their heads punched while trying to crowd to the front, and I followed four policemen into the mass, expecting to see nothing less than the mangled remains of three or four persons. When we reached the boy, one of the officers demanded:

"Here, what's the matter with you?"

"Got hurt," blubbered the lad.

"How? Where?"

"Fell down and hurt my head."

"Is that all? Get along with you! Come, now, gentlemen, scatter. Away you go! Nothing but a boy got a tunk on the cocoanut."

"Oh! Ah! Um!" exclaimed the crowd, and the next minute Broadway had resumed its normal condition.—M. Quad in Detroit Free Press.

Sold Again.

Mr. Keep Cash—Did you write that man who advertises to show people how to make desserts without milk and have them richer?

Mrs. Cash—Yes, and sent him the dollar.

"What did he reply?"

"Use cream."—West Medford Windmill.

HIS SMILE DISAPPEARED.

And So Did He, Taking a Prize Bee Along With Him.

The old man in the "L" smoking car was absorbed in his newspaper when the burly youth entered. A pasteboard box was on the seat beside the old man, and with the air of a man who knew his rights and was prepared to enforce them, the youth sat down on it.

"I beg your pardon, sir," said the old man politely, "but you're sitting on my box."

"I know it," replied the burly youth as he took a cigar from his pocket and prepared to light it. "Why didn't you get it out of the way? You only paid for one seat, I guess."

"If you had spoken to me," explained the old man, "I would have made room for you. I was reading the paper and did not see you."

"It ain't my business to keep your things off the seats," retorted the burly youth. "I paid for a seat and took it."

"But I have something in that box that I wouldn't have injured for a great deal," expostulated the old man.

"Well, I guess it's done for now," said the burly youth, with a taunting laugh.

"Perhaps it isn't," urged the old man. "If you'd kindly get up for a minute"—

"But I won't," returned the youth shortly.

By this time some of the other passengers were becoming interested, and one or two of them evinced a desire to throw the burly youth out of the car. A faint smile that seemed to lurk around the old man's mouth, however, made them hesitate. He looked like a man who thought he had the best of the affair in spite of the other's calm assurance.

It was perhaps two minutes later when the burly youth emitted a wild yell and bounded from his seat into the aisle. Another yell followed, and he bounded down the aisle toward the door with both hands in the vicinity of his coattail pockets. On the platform of the car he began making frantic endeavors to take off his coat, but before he succeeded the train pulled into a station, and he sprang off and dashed into the waiting room.

The old man had thrown a paper over the box when the burly youth got up, and now he carefully raised the edge of it and inspected what was underneath.

"Confound him!" he exclaimed at last.

"What's the matter?" asked one of the others.

"Why, he's run off with one of my prize bees," said the old man ruefully.—Chicago Post.

Buying and Selling.

Connoisseurship is beset with temptations, and it is hard to lay down rules. It is clearly fair to buy a young man's work at its market value, say a Rossetti in the pre-Raphaelite days, for £50 or £100, but to purchase below the known value, say, a Shakespeare quarto from an ignoramus for a crown is trading beyond reason on another's ignorance. The same considerations apply as in betting. In fair betting a man buys a chance, but when the chance you sell is no chance at all, and you know it, you are swindling. Betting ethics, which are vague, forbid betting on a certainty, but really the morality of the matter is that a man should get his money's worth in the way of a chance. Still if it is not fair to trade on another's ignorance one may profit in reason by one's own knowledge.

For instance, a well known writer picked up in a twopenny barrow at different times the only two known copies of a Shelley pamphlet. The pamphlet was unsigned, and perhaps not another man in the kingdom would have identified the book, so that the purchaser almost created the value of what he purchased. In horse dealing caveat emptor is taken in its widest sense, yet even in buying horses cases may arise where the buyer should not take too good care of himself. No doubt in such bargains as well as in connoisseur purchases one has to take into account all the times one is "done," and the professional horse coper or bric-a-brac dealer makes it his trade to sell, not at a fixed price, but at the largest possible profit, so that the tables may fairly be turned on him.—London Spectator.

His Wedding Fee.

The pastor of a prominent church in a city of New York was discussing with one of his country parishioners the subject of ministerial salaries. The parishioner insisted that his pastor must be laying aside a great portion of his salary—which, by the way, was not large, as city salaries go—and when the minister attempted to explain that there were many demands for money on a man in his position the farmer intimated that the wedding fees for a year would amount to a tidy sum. Unable to disabuse the farmer's mind of this impression, the minister asked him what he would give for the first four marriage fees.

The farmer replied, "I will give you the best cow on my place." It was a year when cows were worth two or three times the price they have been bringing this season.

"It is a bargain," said the minister.

In a few weeks the first wedding party arrived. As soon as they were gone the minister drove out to see his parishioner. "I have come to pay the first installment on the price of that cow." The preacher went out to his carriage, returned with a covered basket, and, opening it, disclosed two small puppies.—New York Press.

Compensation.

"One of the things that irritate me," said Mr. Glimmery, "is to have the man whom I sit down next to in a street car persist in sitting slewed round so that he takes up more room than belongs to him and deprives me of some that belongs to me. One of the things that rejoice me is the expression on the face of the man who has been occupying three-fifths of a cross seat on the elevated, and who looks up, but fails to move when somebody comes along looking for a seat, when the big man sits down beside him, and, calmly, irresistibly and conclusively, crowds him over to where he belongs."—New York Sun.

Mr. Slowgo—Don't want 'em.

Agent—You don't?

Mr. Slowgo—No, sir; my neighbor next door put in one o' them things last Monday, an before night the hull force had struck for higher wages.—New York Weekly.

The great telescope at the Vienna observatory is an object glass 27 inches in diameter, set in a steel tube 33½ feet in length. The whole weighs 9½ tons.

The word ascertain formerly meant nothing more than to make certain of a fact.

A Little French Lesson.

For those who have no knowledge whatever of French the fashion magazines and the menu cards of restaurants bristle with difficulties. When the strange words are ventured upon, it is with fear and trembling—which the result often justifies. The following is a short list of some of the most used and worst pronounced:

Chouz (shoo)—A small rosette.

Chic (sheek) is untranslatable, but perhaps "stylish" comes nearest to its fashion book meaning. In its own home the word is slang and considered vulgar. French ladies do not say "chic" any more than we say "nobby"—which word is really its equivalent.

Peignoir (payu-war)—A wrapper as fine as it can be made.

Saute de lit (so-de-lee) being our bath robe.

Cerise (sir-ease)—Cherry, hence the name of the color.

Bandeaux (bahn-do)—Braids of hair.

Soutache (soo-tash)—Braid for trimming.

Riz de veau (ree-de-vo)—Sweetbreads.

Bouillon (boo-yon)—Clear soup.

Menu (nuur new)—A bill of fare.

Roux (roo)—A mixture of butter and flour, which, after being baked, is used to thicken sauces

Saute (so-tay)—Lightly fried in butter.

Hors d'œuvres (hear d'urver)—Light dishes as appetizers served after the soup.—Philadelphia Ledger.

Not to Be Beaten.

In a certain manufacturing town in Yorkshire it was a common thing not many years ago for skilled workmen to save sufficient money wherewith to build houses for themselves.

A great deal of rivalry existed among these men as to who should have the best house, with sometimes curious architectural results. A and B were two rivals. A having built a house, B, whose turn soon afterward came, determined to "best" him. So he called in a well known architect to prepare plans.

Asked what aspect he would like to his house, B, scratching his head, inquired: "Aspect! What's that? Has A got one?"

"Why, of course," said the architect. "He couldn't possibly"—

"Then put me on two!" was the prompt and emphatic reply.—Strand Magazine.

Experienced.

Sarcastic Reader—I noticed that you had a communication in the first number of your paper signed "Old Subscriber."

Editor—Well, that was all right.

Sarcastic Reader—How so?

Editor—Why, that communication was written by a man who began subscribing to different newspapers and magazines more than 30 years ago.—Somerville Journal.

The objection made to the first gold pens manufactured was mainly to the points, which were so soft that they were bent or worn out very quickly.

Good humor is the very air of a good mind, the sign of a large and generous soul, and the peculiar soil in which virtue prospers.—Goodman.
